

# THE GEORGE WASHINGTON UNIVERSITY UNIVERSITY BULLETIN

2018-2019

THE GEORGE  
WASHINGTON  
UNIVERSITY  
WASHINGTON, DC

# **The George Washington University University Bulletin 2018-2019**

Columbian College of Arts and Sciences

School of Business

Graduate School of Education and Human Development

School of Engineering and Applied Science

Elliott School of International Affairs

Health Sciences Programs in the School of Medicine and Health Sciences

School of Nursing

College of Professional Studies

Milken Institute School of Public Health

This bulletin covers GW's degree programs and courses for the schools listed here, with the regulations that pertain to academic programs. For information on GW's professional schools that are not part of this bulletin, see the following websites: [www.law.gwu.edu](http://www.law.gwu.edu) and [www.smhs.gwu.edu](http://www.smhs.gwu.edu). The website [www.gwu.edu](http://www.gwu.edu) contains institutional information as well as updated and expanded information on all GW schools, departments, and programs.

Information in this Bulletin is generally accurate as of August 2018. The University reserves the right to change courses, programs, fees, and the academic calendar, or to make other changes deemed necessary or desirable, giving advance notice of change when possible.

## UPDATES

The following changes were made to the 2018-2019 Bulletin after its official publication in August 2018:

Change Area	Change description	Date of update or effective term
BS in mechanical engineering	Correction: replace MAE 3166 with MAE 3166W (5th semester)	Effective fall 2018
BS in mechanical engineering, aerospace option	Correction: replace MAE 3166 with MAE 3166W (5th semester)	Effective fall 2018
BS in mechanical engineering, medical preparation option	Corrections: replace BISC 1111 with BISC 1115 & BISC 1125 (2nd semester); replace BISC 1112 with BISC 1116 & BISC 1126 (3rd preparation semester); add CE 4341, change from one to two humanities or social sciences electives (7th semester); and replace CE 4340 with CE 4330W in 8th semester.	Effective fall 2018
BS in mechanical engineering, medical preparation option	Change number of required technical electives in the eight semester from three to two.	Effective fall 2018
BS in mechanical engineering, patent law option	Correction: replace MAE 3166 with MAE 3166W (5th semester)	Effective fall 2018
BS in mechanical engineering, robotics option	Correction: replace MAE 3166 with MAE 3166W (5th semester)	Effective fall 2018
MA in the field of economics	Program deactivated, no longer being offered. Bulletin page deleted.	Effective fall 2018
MS in the field of economics	Program does not accept applications. Page access removed from the Bulletin.	Effective fall 2018
MA in the field of security policy studies	Correction: Under "Requirements, replace " ... all students must fulfill a foreign language proficiency requirement" with "Students may choose to fulfill requirements that demonstrate proficiency in a foreign language"	Effective fall 2018

MA in the field of international science and technology policy	Add IAFF 6198 Special Topics in International Affairs (Applied Qualitative Methods) to options under the requirement for two courses in analytical competency.	Effective fall 2018
BA with a major in geography	Correction: add GEOG 3193 to list of optional courses in "Group A."	Effective fall 2018
BA in Chinese language and literature	Corrections: Delete CHIN 3136 from electives list; it was deactivated in 2015. Changed WSTU 3136 AND WSTU 3136W to WGSS 3136 and WGSS 3136W; these should have been changed when the course code was changed in 2017.	Effective spring 2019
BA in Japanese language and literature	Corrections: Delete CHIN 3136 from electives list; it was deactivated in 2015. Changed WSTU 3136 AND WSTU 3136W to WGSS 3136 and WGSS 3136W; these should have been changed when the course code was changed in 2017.	Effective spring 2019
Graduate certificate in LGBT health policy and practice	Corrections: raised required credits from 12 to 18, changed capstone to a fixed 3 credits, and increased elective credits from 3 to 6; corrected courses with designation WSTU to WGSS (missed during universal change).	Effective fall 2018
Graduate certificate in climate change management and policy	Deactivating program	Effective spring 2019
SEAS Doctoral Program Regulations	"...and three years of research" added to the following under SEAS Doctoral Programs/Time Limits: "A minimum of two years of full-time study and three years of research research should be expected."	Effective as of 12/18/18
Graduate Certificate in Climate Change Management and Policy	Program Deactivated, no longer offered	Effective Spring 2019
Fee to register for Leave of Absence or Continuous Enrollment	Removed effective immediately on "Fees and Financial Regulations" page	Effective spring 2019

Replacement of lost or stolen picture identification card

Correcting amount from \$35 to \$25. Effective fall 2018

AMST 2620 added missing from University General Education list	Effective immediately

Classical and Near Eastern Languages and Civilizations .....	166	Bachelor of Science with a Major in Economics .....	194
Bachelor of Arts with a Major in Arabic Studies .....	167	Combined Programs .....	195
Bachelor of Arts with a Major in Classical Studies .....	167	Minor in Economics .....	195
Minor in Arabic and Hebrew Languages and Cultures .....	168	Master of Arts in the Field of Applied Economics .....	196
Minor in Arabic Studies .....	169	Master of Arts in the Field of Economics .....	196
Minor in Classical Studies .....	169	Doctor of Philosophy in the Field of Economics .....	197
Corcoran School of the Arts and Design .....	170	English .....	198
Bachelor of Fine Arts with a Major in Digital Media Design .....	171	Bachelor of Arts with a Major in Creative Writing and English .....	208
Bachelor of Fine Arts with a Major in Fine Art .....	172	Bachelor of Arts with a Major in English .....	210
Bachelor of Fine Arts with a Major in Fine Art Photography .....	172	Combined Program .....	213
Bachelor of Fine Arts with a Major in Graphic Design .....	173	Minor in Creative Writing .....	213
Bachelor of Fine Arts with a Major in Photojournalism .....	174	Minor in English .....	214
Master of Arts in the Field of Decorative Arts and Design History .....	175	Minor in English for Business Students .....	214
Master of Arts in the Field of Exhibition Design .....	175	Master of Arts in the Field of English with optional concentrations in English or American literature .....	214
Master of Arts in the Field of New Media Photojournalism .....	176	Doctor of Philosophy in the Field of English with optional concentrations in English or American literature .....	215
Minor in Graphic Design .....	177	English for Academic Purposes .....	215
Data Science .....	177	Environmental Studies .....	216
Combined Bachelor of Science and Master of Science in the Field of Data Science .....	178	Bachelor of Arts with a Major in Environmental Studies .....	216
Master of Science in the Field of Data Science .....	179	Dual Bachelor of Arts with a Major in Environmental Studies and Master of Arts in the Field of Environmental Resource Policy .....	218
Graduate Certificate in Data Science .....	179	Film Studies .....	218
East Asian Languages and Literatures .....	180	Minor in Film Studies .....	218
Bachelor of Arts with a Major in Chinese Language and Literature .....	180	Fine Arts and Art History .....	219
		Bachelor of Arts with a Major in Art History .....	220
		Bachelor of Arts with a Major in Fine Arts .....	222
		Bachelor of Arts with a Combined Major in Art History and Fine Arts .....	225

Combined Programs .....	228	Doctor of Philosophy in the Field of American Religious History .....	264
Minor in Art History .....	228	Doctor of Philosophy in the Field of History .....	264
Minor in Fine Arts .....	228	Human Paleobiology .....	264
Dual Minor in Art History and Fine Arts .....	229	Master of Science in the Field of Human Paleobiology .....	265
Master of Arts in the Field of Art History .....	229	Doctor of Philosophy in the Field of Human Paleobiology .....	265
Master of Fine Arts in the Field of Fine Arts .....	230	Honors .....	267
Forensic Sciences .....	231	Interior Architecture .....	267
Master of Forensic Sciences .....	234	Bachelor of Fine Arts with a Major in Interior Architecture .....	269
Master of Forensic Sciences with a Concentration in Forensic Chemistry .....	235	Master of Fine Arts in the Field of Interior Architecture .....	270
Master of Forensic Sciences with a Concentration in Forensic Molecular Biology .....	235	Judaic Studies .....	271
Master of Forensic Sciences with a Concentration in Forensic Toxicology .....	235	Bachelor of Arts with a Major in Judaic Studies .....	272
Master of Science in the Field of Crime Scene Investigation .....	235	Minor in Judaic Studies .....	273
Master of Science in the Field of Digital Forensics ....	235	Master of Arts in the Field of Experiential Education and Jewish Cultural Arts .....	273
Master of Science in the Field of High-Technology Crime Investigation .....	235	Master of Arts in the Field of Jewish Cultural Arts ....	273
Graduate Certificate in Digital Investigations .....	235	Mathematics .....	273
Graduate Certificate in Forensic Investigation .....	235	Bachelor of Arts with a Major in Mathematics .....	279
Graduate Certificate in Latent Print Examination ....	235	Bachelor of Science with a Major in Mathematics ....	280
Geography .....	235	Minor in Mathematics .....	281
Bachelor of Arts with a Major in Geography .....	240	Master of Arts in the Field of Mathematics .....	281
Minor in Geographic Information Systems .....	241	Master of Science in the Field of Applied Mathematics .....	281
Minor in Geography .....	242	Doctor of Philosophy in the Field of Mathematics ....	282
Master of Science in the Field of Geography .....	243	Graduate Certificate in Financial Mathematics .....	282
Dual Master of Science in the Field of Geography and Graduate Certificate in Geographical Information Systems .....	243	Graduate Certificate in Mathematics .....	282
Graduate Certificate in Geographical Information Systems .....	244	Media and Public Affairs .....	282
Geological Sciences .....	244	Bachelor of Arts with a Major in Journalism and Mass Communication .....	288
Bachelor of Arts with a Major in Geological Sciences .....	246	Bachelor of Arts with a Major in Political Communication .....	290
Bachelor of Science with a Major in Geological Sciences .....	246	Combined Programs .....	291
Minor in Geological Sciences .....	247	Dual Bachelor of Arts and Master of Arts Degree Programs .....	291
History .....	248	Minor in Journalism and Mass Communication .....	291
Bachelor of Arts with a Major in History .....	261	Master of Arts in the Field of Media and Strategic Communication .....	292
Minor in History .....	263	Museum Studies .....	293
Master of Arts in the Field of History .....	263	Master of Arts in the Field of Museum Studies .....	295

Graduate Certificate in Museum Collections Management and Care .....	295	Master of Arts in the Field of Philosophy .....	323
Graduate Certificate in Museum Studies .....	295	Master of Arts in the Field of Public Policy with a Concentration in Philosophy and Social Policy .....	323
Music .....	296	Physics .....	324
Bachelor of Arts with a Major in Music .....	300	Bachelor of Arts with a Major in Physics .....	325
Minor in Jazz Studies .....	301	Bachelor of Science with a Major in Biophysics .....	325
Minor in Music .....	301	Bachelor of Science with a Major in Physics .....	326
Organizational Sciences and Communication .....	301	Minor in Biophysics .....	327
Bachelor of Arts with a Major in Communication .....	302	Minor in Physics .....	327
Bachelor of Arts with a Major in Organizational Sciences .....	303	Master of Science in the Field of Physics .....	328
Minor in Communication .....	305	Doctor of Philosophy in the Field of Physics .....	328
Minor in Organizational Communication .....	306	Political Science .....	329
Minor in Organizational Sciences .....	306	Bachelor of Arts with a Major in Political Science .....	338
Master of Arts in the Field of Leadership Education and Development .....	306	Bachelor of Arts with a Major in Political Science (Public Policy Focus) .....	341
Master of Arts in the Field of Organizational Sciences .....	307	Combined Program .....	343
Doctor of Philosophy in the Field of Psychology with a Concentration in Industrial/Organizational Psychology .....	308	Minor in Political Science .....	343
Peace Studies .....	308	Minor in Public Policy .....	344
Bachelor of Arts with a Major in Peace Studies .....	308	Master of Arts in the Field of Legal Institutions and Theory .....	344
Minor in Peace Studies .....	310	Master of Arts in the Field of Political Science .....	344
Philosophy .....	312	Doctor of Philosophy in the Field of Political Science .....	347
Bachelor of Arts with a Major in Philosophy .....	318	Professional Psychology .....	348
Bachelor of Arts with a Major in Philosophy (Public Affairs Focus) .....	319	Master of Arts in the Field of Forensic Psychology ...	349
Bachelor of Arts with a Major in Philosophy and Master of Arts in the Field of Philosophy .....	320	Doctor of Psychology in the Field of Clinical Psychology .....	349
Bachelor of Arts with a Major in Philosophy and Master of Arts in the Field of Public Policy with a Concentration in Philosophy and Public Policy .....	320	Graduate Certificate in LGBT Health Policy and Practice .....	350
Bachelor of Arts with a Major in Philosophy (Public Affairs Focus) and Master of Arts in the Field of Public Policy with a Concentration in Philosophy and Social Policy .....	320	Psychology .....	351
Bachelor of Arts with a Major in Philosophy (Public Affairs Focus) and Master of Arts in the Field of Philosophy .....	321	Bachelor of Arts with a Major in Psychology .....	358
Minor in Applied Ethics .....	321	Combined Program .....	358
Minor in Logic .....	321	Minor in Psychology .....	359
Minor in Mind-Brain Studies .....	322	Doctor of Philosophy in the Field of Psychology .....	359
Minor in Philosophy .....	322	Public Policy and Public Administration .....	359
		Master of Arts in the Field of Environmental Resource Policy .....	365
		Master of Public Administration .....	366
		Master of Public Policy .....	367
		Dual Master of Arts in the Field of Environmental Resource Policy and Graduate Certificate in Geographical Information Systems .....	367

Dual Master of Public Administration and Graduate Certificate in Homeland Security Emergency Preparedness and Response .....	368	Bachelor of Arts with a Major in Sociology .....	391
Dual Master of Public Administration and Graduate Certificate in Organizational Performance Improvement .....	369	Combined Program .....	392
Dual Master of Public Policy and Graduate Certificate in Organizational Performance Improvement .....	369	Minor in Criminal Justice .....	392
Doctor of Philosophy in the Field of Public Policy and Administration .....	369	Minor in Human Services and Social Justice .....	392
Graduate Certificate in Budget and Public Finance .....	370	Minor in Law and Society .....	393
Graduate Certificate in Contexts of Environmental Policy .....	370	Minor in Sociology .....	393
Graduate Certificate in Environmental Resource Policy .....	372	Master of Arts in the Field of Criminology .....	394
Graduate Certificate in Nonprofit Management .....	372	Master of Arts in the Field of Sociology .....	394
Religion .....	372	Speech, Language, and Hearing Sciences .....	395
Bachelor of Arts with a Major in Religion .....	378	Bachelor of Arts with a Major in Speech, Language, and Hearing Sciences .....	399
Minor in Religion .....	379	Minor in Speech, Language, and Hearing Sciences .....	401
Master of Arts in the Field of Islamic Studies .....	380	Master of Arts in the Field of Speech-Language Pathology .....	401
Doctor of Philosophy in the Field of American Religious History .....	264	Speech-Language Pathology Post-Baccalaureate Program .....	402
Graduate Certificate in Islamic Studies .....	381	Statistics .....	402
Romance, German, and Slavic Languages and Literatures .....	381	Bachelor of Science with a Major in Statistics .....	407
Bachelor of Arts with a Major in French Language, Literature, and Culture .....	382	Minor in Statistics .....	408
Bachelor of Arts with a Major in German Language and Literature .....	383	Master of Science in the Field of Statistics .....	408
Bachelor of Arts with a Major in Russian Language and Literature .....	384	Doctor of Philosophy in the Field of Statistics .....	409
Bachelor of Arts with a Major in Spanish and Latin American Languages, Literatures, and Cultures .....	385	Graduate Certificate in Survey Design and Data Analysis .....	409
Minor in French Language, Literature, and Culture .....	386	Theatre and Dance .....	409
Minor in German Language and Literature .....	387	Bachelor of Arts with a Major in Dance .....	415
Minor in Italian Language and Literature .....	387	Bachelor of Arts with a Major in Theatre .....	416
Minor in Russian Language and Literature .....	388	Minor in Dance .....	416
Minor in Spanish and Latin American Languages, Literatures, and Cultures .....	388	Minor in Theatre .....	417
Sociology .....	389	Master of Fine Arts in the Field of Dance .....	418
Bachelor of Arts with a Major in Criminal Justice .....	390	Master of Fine Arts in the Field of Production Design .....	418
Bachelor of Arts with a Major in Human Services and Social Justice .....	390	University Writing .....	418
		Women's, Gender, and Sexuality Studies .....	420
		Bachelor of Arts with a Major in Women's, Gender, and Sexuality Studies .....	424
		Dual Bachelor's and Master's Programs in Women's, Gender, and Sexuality Studies .....	426
		Minor in LGBT and Sexuality Studies .....	426
		Minor in Women's, Gender, and Sexuality Studies .....	427

Master of Arts in the Field of Public Policy-Women's, Gender, and Sexuality Studies .....	427	Professional Master of Business Administration .....	467
Master of Arts in the Field of Women's, Gender, and Sexuality Studies .....	428	World Executive Master of Business Administration .....	467
Graduate Certificate in Women's, Gender, and Sexuality Studies .....	429	Joint Degree Programs .....	468
School of Business .....	430	Doctor of Philosophy in Business Administration .....	469
Undergraduate Programs .....	436	Certificates .....	469
Bachelor of Accountancy .....	436	Graduate Certificate in Business Analytics .....	470
Bachelor of Business Administration .....	440	Graduate Certificate in Accounting .....	470
Accountancy .....	444	Graduate Certificate in Business Information Systems .....	471
Business Analytics .....	444	Graduate Certificate in Business Foundations .....	471
Business Economics and Public Policy .....	445	Graduate Certificate in Digital Marketing and Communications .....	472
Finance .....	446	Graduate Certificate in Financial Management .....	472
Individualized Field .....	447	Graduate Certificate in Hospitality Management .....	473
Information Systems and Technology Management .....	447	Graduate Certificate in Human Capital .....	473
Innovation and Entrepreneurship .....	448	Graduate Certificate in Innovation, Creativity and Entrepreneurship .....	473
International Business .....	449	Graduate Certificate in International Business .....	474
Marketing .....	450	Graduate Certificate in Investments and Portfolio Management .....	474
Real Estate .....	450	Graduate Certificate in Management Leadership .....	475
Sport, Event, and Hospitality Management .....	451	Graduate Certificate in Marketing and Brand Management .....	475
Bachelor of Science with a Major in Finance .....	452	Graduate Certificate in Nonprofit Management .....	475
Dual Degree Programs .....	457	Graduate Certificate in Program Management .....	476
Minor in Business Administration .....	457	Graduate Certificate in Project Management .....	476
Graduate Programs .....	457	Graduate Certificate in Responsible Management .....	476
Master of Accountancy .....	458	Graduate Certificate in Sports Management .....	477
Master of Science in Business Analytics .....	459	Graduate Certificate in Sustainable Destination Management .....	477
Master of Science in Finance .....	459	Graduate Certificate in Technology and Innovation .....	477
Master of Science in Information Systems Technology .....	460	Graduate Certificate in Walkable Urban Development .....	478
Master of Science in Government Contracts .....	460	Departments .....	478
Master of Science in Project Management .....	461	Accountancy .....	478
Master of Science in Sport Management .....	462	Bachelor of Accountancy .....	481
Master of Human Resource Management .....	463	Master of Accountancy .....	458
Master of Tourism Administration .....	463	Decision Sciences .....	482

Incorporating International Perspectives in Education .....	547	Dual Bachelor of Science with a Major in Civil Engineering and Master of Science in the Field of Structural Engineering .....	618
Instructional Design .....	548	Dual Bachelor of Science with a Major in Civil Engineering and Master of Science in the Field of Transportation Engineering .....	620
Integrating Technology into Education .....	548	Master of Science in Civil and Environmental Engineering .....	622
Job Development and Placement .....	548	Doctor of Philosophy in the Field of Civil and Environmental Engineering .....	623
Leadership Development .....	548	Computer Science .....	623
Leadership in Educational Technology .....	549	Bachelor of Arts with a Major in Computer Science .....	635
Leadership Through Improvement Science .....	549	Bachelor of Science with a Major in Computer Science .....	637
Multimedia Development .....	549	Minor in Computer Science .....	640
Organizational Learning and Change .....	549	Master of Science in the Field of Computer Science .....	641
Secondary Special Education and Transition Services .....	549	Master of Science in the Field of Cybersecurity in Computer Science .....	642
Special Education for Culturally and Linguistically Diverse Learners .....	550	Doctor of Philosophy in the Field of Computer Science .....	644
STEM Master Teacher .....	550	Graduate Certificate in Computer Security and Information Assurance .....	645
Teaching English to Speakers of Other Languages .....	551	Electrical and Computer Engineering .....	646
Training and Educational Technology .....	551	Bachelor of Science with a Major in Computer Engineering .....	658
Departments .....	551	Bachelor of Science with a Major in Electrical Engineering .....	660
Counseling and Human Development .....	551	Bachelor of Science with a Major in Electrical Engineering, Energy Option .....	661
Curriculum and Pedagogy .....	555		
Educational Leadership .....	560		
Human and Organizational Learning .....	569		
Special Education and Disability Studies .....	572		
School of Engineering and Applied Science .....	578		
Biomedical Engineering .....	590		
Bachelor of Science with a Major in Biomedical Engineering .....	595		
Dual Bachelor of Science with a Major in Biomedical Engineering and Master of Engineering in the Field of Regulatory Biomedical Engineering .....	596		
Master of Engineering in the Field of Regulatory Biomedical Engineering .....	596		
Master of Science in the Field of Biomedical Engineering .....	597		

Bachelor of Science with a Major in Electrical Engineering, Medical Preparation Option .....	663	Bachelor of Science with a Major in Mechanical Engineering, Patent Law Option .....	699
Master of Science in the Field of Computer Engineering .....	665	Bachelor of Science with a Major in Mechanical Engineering, Robotics Option .....	701
Master of Science in the Field of Electrical Engineering .....	665	Master of Science in the Field of Mechanical and Aerospace Engineering .....	702
Master of Science in the Field of Telecommunications Engineering .....	665	Doctor of Philosophy in the Field of Mechanical and Aerospace Engineering .....	704
Doctor of Philosophy in the Field of Computer Engineering .....	665	Certificate in Computer-Integrated Design in Mechanical and Aerospace Engineering .....	707
Doctor of Philosophy in the Field of Electrical Engineering .....	666	Elliott School of International Affairs .....	708
Graduate Certificate in High-Performance Computing .....	667	Undergraduate Programs .....	716
Engineering Management and Systems Engineering .....	668	Bachelor of Arts with a Major in Asian Studies .....	717
Bachelor of Arts with a Major in Applied Science and Technology .....	669	Bachelor of Arts with a Major in International Affairs .....	724
Bachelor of Science with a Major in Systems Engineering .....	672	Bachelor of Arts with a Major in International Affairs, Comparative Political, Economic, and Social Systems Concentration .....	735
Online Master of Engineering in the Field of Cybersecurity Policy and Compliance .....	674	Bachelor of Arts with a Major in International Affairs, Conflict Resolution Concentration .....	735
Master of Science in the Field of Data Analytics .....	674	Bachelor of Arts with a Major in International Affairs, Contemporary Cultures and Societies Concentration .....	735
Master of Science in the Field of Engineering Management .....	675	Bachelor of Arts with a Major in International Affairs, Global Public Health Concentration .....	735
Master of Science in the Field of Systems Engineering .....	678	Bachelor of Arts with a Major in International Affairs, International Development Concentration .....	736
Doctor of Engineering in the Field of Engineering Management .....	679	Bachelor of Arts with a Major in International Affairs, International Economics Concentration .....	738
Doctor of Philosophy in the Field of Systems Engineering .....	680	Bachelor of Arts with a Major in International Affairs, International Environmental Studies Concentration .....	740
Doctor of Philosophy in the Field of Engineering Management .....	681	Bachelor of Arts with a Major in International Affairs, International Politics Concentration .....	740
Graduate Certificate in Greenhouse Gas Management .....	683	Bachelor of Arts with a Major in International Affairs, Security Policy Concentration .....	744
Mechanical and Aerospace Engineering .....	684	Bachelor of Arts with a Major in International Affairs, Africa Concentration .....	746
Bachelor of Science with a Major in Mechanical Engineering .....	693	Bachelor of Arts with a Major in International Affairs, Asia .....	746
Bachelor of Science with a Major in Mechanical Engineering, Aerospace Option .....	695	Bachelor of Arts with a Major in International Affairs, Europe and Eurasia Concentration .....	747
Bachelor of Science with a Major in Mechanical Engineering, Aerospace Option .....	696	Bachelor of Arts with a Major in International Affairs, Latin America Concentration .....	749
Bachelor of Science with a Major in Mechanical Engineering, Biomechanical Option .....	696	Bachelor of Arts with a Major in International Affairs, Middle East Concentration .....	750
Bachelor of Science with a Major in Mechanical Engineering, Medical Preparation Option .....	698		

Bachelor of Arts with a Major in Latin American and Hemispheric Studies .....	751	Master of Arts in the Field of International Affairs, Middle East Concentration .....	811
Bachelor of Arts with a Major in Middle East Studies .....	757	Master of Arts in the Field of International Development Studies .....	811
Minors .....	765	Master of Arts in the Field of International Science and Technology Policy .....	825
Graduate Programs .....	769	Master of Arts in the Field of International Trade and Investment Policy .....	828
Master of Arts in the Field of Asian Studies .....	769	Master of Arts in the Field of Latin American and Hemispheric Studies .....	830
Master of Arts in the Field of European and Eurasian Studies .....	777	Master of Arts in the Field of Middle East Studies .....	835
Master of Arts in the Field of Global Communication .....	784	Master of Arts in the Field of Security Policy Studies .....	845
Master of Arts in the Field of International Affairs .....	794	Master of International Policy and Practice .....	848
Master of Arts in the Field of International Affairs, Conflict and Conflict Resolution Concentration .....	796	Master of International Studies .....	849
Master of Arts in the field of International Affairs, Global Energy and Environmental Policy Concentration .....	796	Dual Master of Arts and Master of Public Health .....	864
Master of Arts in the Field of International Affairs, Global Gender Policy Concentration .....	797	Joint Master of Arts and Juris Doctor .....	864
Master of Arts in the Field of International Affairs, Global Health Concentration .....	798	Joint Master of Arts and Master of Business Administration Degree Program .....	865
Master of Arts in the Field of International Affairs, International Affairs and Development Concentration .....	799	Certificate Programs .....	865
Master of Arts in the Field of International Affairs, International Economic Affairs Concentration .....	801	Graduate Certificate in Global Gender Policy .....	865
Master of Arts in the Field of International Affairs, International Law and Organizations Concentration .....	803	Graduate Certificate in International Science and Technology Policy .....	866
Master of Arts in the Field of International Affairs, International Security Studies Concentration .....	804	Graduate Certificate in Nuclear Policy .....	867
Master of Arts in the Field of International Affairs, Nuclear Policy Concentration .....	807	School of Medicine and Health Sciences .....	868
Master of Arts in the Field of International Affairs, Technology and International Affairs Concentration .....	807	Undergraduate Programs .....	880
Master of Arts in the Field of International Affairs, U.S. Foreign Policy Concentration .....	807	Associate in Science in the Field of Histotechnology .....	881
Master of Arts in the Field of International Affairs, Africa Concentration .....	808	Associate in Science in the Field of Health Sciences .....	881
Master of Arts in the Field of International Affairs, Asia Concentration .....	809	Associate in Science in the Field of Health Sciences Laboratory Technology .....	882
Master of Arts in the Field of International Affairs, Europe, Eurasia, and Russia Concentration .....	809	Bachelor of Science in Health Sciences with a Major in Bioinformatics .....	883
Master of Arts in the Field of International Affairs, Latin America Concentration .....	810	Bachelor of Science in Health Sciences with a Major in Biomedical Informatics .....	884
		Bachelor of Science in Health Sciences with a Major in Clinical Health Sciences .....	885
		Bachelor of Science in Health Sciences with a Major in Clinical Management and Leadership .....	886
		Bachelor of Science in Health Sciences with a Major in Clinical Operations and Health Care Management .....	886
		Bachelor of Science in Health Sciences with a Major in Clinical Research Administration .....	887

Bachelor of Science in Health Sciences with a Major in Cytotechnology .....	888
Bachelor of Science in Health Sciences with a Major in Emergency Medical Services Management .....	889
Bachelor of Science in Health Sciences with a Major in Global Leadership in Disaster Response .....	890
Bachelor of Science in Health Sciences with a Major in Leadership for Emergency Action and Disaster Response .....	891
Bachelor of Science in Health Sciences with a Major in Medical Informatics .....	892
Bachelor of Science in Health Sciences with a Major in Medical Laboratory Science .....	892
Bachelor of Science in Health Sciences with a Major in Pharmaceutical Sciences .....	895
Dual Bachelor of Science in Health Sciences with a Major in Clinical Management and Leadership and Master of Science in Health Sciences in the Field of Clinical Management and Leadership .....	895
Dual Bachelor of Science in Health Sciences and Master of Science in Health Sciences in Emergency Medical Services Leadership .....	895
Dual Bachelor of Science in Health Sciences with a Major in Clinical Research Administration and Master of Science in Health Sciences in the Field of Clinical Research Administration .....	895
Dual Bachelor of Science in Health Sciences with a Major in Clinical Management and Leadership and Master of Science in Health Sciences in the Field of Health Care Quality .....	896
Dual Bachelor of Science in Health Sciences with a Major in Clinical Research Administration and Master of Science in Health Sciences in the Field of Regulatory Affairs .....	896
Dual Bachelor of Science in Health Sciences with a Major in Emergency Health Services Management and Master of Science in Health Sciences in the Field of Clinical Management and Leadership .....	898
Dual Bachelor of Science in Health Sciences with a Major in Emergency Medical Services Management and Master of Science in Health Sciences in the Field of Emergency Medical Services Leadership .....	898
Dual Bachelor of Science in Health Sciences with a Major in Medical Laboratory Services and Master of Science in Health Sciences in the Field of Molecular Diagnostic Sciences .....	898
Minor in Anatomy .....	898
Minor in Blood Banking for Medical Laboratory Science .....	899

Minor in Clinical Research Administration .....	899
Minor in Chemistry for Medical Laboratory Science .....	899
Minor in Emergency Health Services .....	899
Minor in Health Sciences .....	899
Minor in Hematology for Medical Laboratory Science .....	899
Minor in Microbiology for Medical Laboratory Science .....	899
Graduate Programs .....	899
Master of Science in Health Sciences in the Field of Biomedical Informatics .....	900
Master of Science in Health Sciences in the Field of Clinical Management and Leadership .....	900
Master of Science in Health Sciences in the Field of Clinical Microbiology .....	900
Master of Science in Health Sciences in Clinical Operations and Health Care Management .....	901
Master of Science in Health Sciences in the Field of Clinical and Translational Microbiology .....	901
Master of Science in Health Sciences in the Field of Clinical Research Administration .....	901
Master of Science in Health Sciences in the Field of Clinical and Translational Research .....	902
Master of Science in Health Sciences in the Field of Emergency Medical Services Leadership .....	903
Master of Science in Health Sciences in the Field of Health Care Quality .....	903
Master of Science in Health Sciences in the Field of Immunohematology .....	903
Master of Science in Health Sciences in the Field of Immunohematology and Biotechnology .....	904
Master of Science in Health Sciences in the Field of Integrative Medicine .....	905
Master of Science in Health Sciences in the Field of Laboratory Medicine .....	905
Master of Science in Health Sciences in the Field of Medical Laboratory Science .....	906
Master of Science in Health Sciences in the Field of Molecular Diagnostic Science .....	906
Master of Science in Health Sciences in the Field of Physician Assistant .....	907
Master of Science in Health Sciences in the Field of Regulatory Affairs .....	908
Master of Science in Health Sciences in the Field of Translational Microbiology .....	908

Joint MSHS in the Field of Physician Assistant and MPH .....	909	Graduate Programs .....	951
Doctor of Philosophy in the Field of Translational Health Sciences .....	915	Doctor of Nursing Practice .....	951
Doctor of Physical Therapy .....	915	Dual Master of Science in Nursing in the Field of Adult-Gerontology Acute Care Nurse Practitioner and Doctor of Nursing Practice .....	951
Advanced Practice Clinical Doctorate in Occupational Therapy .....	917	Master of Science in Nursing in the Field of Adult-Gerontology Acute Care Nurse Practitioner .....	951
Certificate Programs .....	918	Master of Science in Nursing in the Field of Adult-Gerontology Primary Care Nurse Practitioner .....	952
Post-baccalaureate Certificate in Blood Banking for Medical Laboratory Science .....	918	Master of Science in Nursing in the Field of Family Nurse Practitioner .....	952
Post-baccalaureate Certificate in Chemistry for Medical Laboratory Science .....	918	Master of Science in Nursing in the Field of Nurse-Midwifery .....	953
Post-baccalaureate Certificate in Hematology for Medical Laboratory Science .....	919	Master of Science in Nursing in the Field of Nursing Leadership and Management .....	954
Post-baccalaureate Certificate in Medical Laboratory Science .....	919	Certificate Programs .....	954
Post-baccalaureate Certificate in Microbiology for Medical Laboratory Science .....	920	Post Baccalaureate Certificate in Health Policy and Media Engagement .....	954
Post-baccalaureate Certificate in Pre-Medicine .....	920	Post Master's Certificate in Adult-Gerontology Acute Care Nurse Practitioner .....	955
Graduate Certificate in Biomedical Informatics .....	921	Post Master's Certificate in Adult-Gerontology Primary Care Nurse Practitioner .....	955
Graduate Certificate in Health Sciences in Clinical Operations and Health Care Management .....	901	Post Master's Certificate in Family Nurse Practitioner .....	955
Graduate Certificate in Clinical Research Administration .....	921	Post Master's Certificate in Family Specialty for Nurse Practitioners .....	956
Graduate Certificate in Clinical Research Practice ....	922	Post Master's Certificate in Nursing Education .....	956
Graduate Certificate in Clinical and Translational Research .....	922	Post Master's Certificate in Palliative Care Nurse Practitioner .....	956
Graduate Certificate in Correctional Health Administration .....	923	Post Master's Certificate in Psychiatric Mental Health Nurse Practitioner .....	956
Graduate Certificate in Health Care Quality .....	923	College of Professional Studies .....	957
Graduate Certificate in Integrative Medicine .....	923	Undergraduate Programs .....	961
Graduate Certificate in Regulatory Affairs .....	924	Bachelor of Professional Studies with a Major in Cybersecurity .....	961
School of Nursing .....	925	Bachelor of Professional Studies with a Major in Integrated Information, Science, and Technology ....	962
Undergraduate Programs .....	945	Bachelor of Professional Studies with a Major in Police and Security Studies .....	962
Bachelor of Science in Nursing .....	945	Bachelor of Arts with a Major in Political Communication and Master of Professional Studies in the Field of Political Management .....	963
Registered Nurse to Bachelor of Science in Nursing .....	946	Bachelor of Arts with a Major in Political Science and Master of Professional Studies in the Field of Legislative Affairs .....	963
Registered Nurse to Master of Science in Nursing, Adult-Gerontology Primary Care Nurse Practitioner .....	948		
Registered Nurse to Master of Science in Nursing, Family Nurse Practitioner .....	949		
Registered Nurse to Master of Science in Nursing, Nurse Midwifery .....	950		

Bachelor of Arts with a Major in Political Science and Master of Professional Studies in the Field of Political Management .....	964	Graduate Certificate in Climate Change Management and Policy .....	990
Graduate Programs .....	964	Graduate Certificate in Digital Politics .....	990
Master of Professional Studies in the Field of Cybersecurity Strategy and Information Management .....	964	Graduate Certificate in Global Public Relations .....	991
Master of Professional Studies in the Field of Homeland Security .....	967	Graduate Certificate in Health Care Corporate Compliance .....	991
Master of Professional Studies in the Field of Landscape Design .....	969	Graduate Certificate in Landscape Design .....	991
Master of Professional Studies in the Field of Law Firm Management .....	970	Graduate Certificate in Organization Performance Improvement .....	991
Master of Professional Studies in the Field of Paralegal Studies .....	971	Graduate Certificate in PACs and Political Management .....	991
Master of Professional Studies in the Field of Paralegal Studies with a concentration in health care corporate compliance .....	973	Graduate Certificate in Paralegal Studies .....	992
Master of Professional Studies in the Field of Public Leadership .....	973	Graduate Certificate in Strategic Management and Executive Leadership for Law Enforcement .....	992
Master of Professional Studies in the Field of Publishing .....	973	Graduate Certificate in Sustainable Landscapes .....	993
Master of Professional Studies in the Field of Sustainable Urban Planning .....	975	Graduate Certificate in Sustainable Urban Planning .....	993
Graduate School of Political Management .....	978	Milken Institute School of Public Health .....	994
Master of Professional Studies in the Field of Advocacy in the Global Environment .....	978	Undergraduate Programs .....	1001
Master of Professional Studies in the Field of Legislative Affairs .....	978	Bachelor of Science with a Major in Exercise Science .....	1001
Master of Professional Studies in the Field of Political Management .....	980	Bachelor of Science with a Major in Exercise Science, Pre-athletic Training/Sports Medicine .....	1004
Master of Professional Studies in the Field of Political Communication and Governance (only Spanish language) .....	986	Bachelor of Science with a Major in Exercise Science, Pre-medical Professional Concentration .....	1007
Master of Professional Studies in the Field of Strategic Public Relations .....	986	Bachelor of Science with a Major in Exercise Science, Pre-physical Therapy Concentration .....	1010
Dual Master of Professional Studies in the Field of Political Management and Graduate Certificate in Survey Design and Analysis .....	988	Bachelor of Science with a Major in Public Health ..	1013
Certificate Programs .....	989	Dual Bachelor of Science in Public Health and Master of Public Health .....	1015
Undergraduate Certificate in Cyber Attacks and Cyber Threats Analysis .....	989	Minor in Exercise Science .....	1017
Undergraduate Certificate in Investigation of Cyber Security Incidents .....	989	Minor in Nutrition .....	1017
Undergraduate Certificate in Protection and Defense of Computer Networks .....	990	Minor in Public Health .....	1017
Graduate Certificate in Campaign Strategy .....	990	Graduate Programs .....	1018
		Master of Arts in the Field of International Affairs and Master of Public Health .....	1019
		Master of Public Health: MPH@GW .....	1019
		Master of Health Administration with a Graduate Certificate in Health Care Corporate Compliance ..	1020
		Master of Science in the Field of Health Policy with a Graduate Certificate in Health Care Corporate Compliance .....	1020
		Master of Science in Health Sciences in the Field of Physicians Assistant and Master of Public Health ....	1021

Master of Public Health in the Field of Health Policy with a Graduate Certificate in Corporate Compliance ...	1027	Master of Science in the Field of Exercise Science with a Concentration in Strength & Conditioning .....	1069
Peace Corp Masters International Program and Master of Public Health .....	1028	Global Health .....	1070
Doctor of Medicine and Master of Public Health ....	1028	Master of Public Health in the Field of Global Environmental Health .....	1072
Joint Juris Doctor and Master of Public Health .....	1029	Master of Public Health in the Field of Global Health Communication .....	1074
Departments .....	1030	Master of Public Health in the Field of Global Health Epidemiology .....	1043
Environmental and Occupational Health .....	1030	Master of Public Health in the Field of Global Health Policy .....	1074
Master of Public Health in the Field of Environmental Health Science and Policy .....	1032	Master of Public Health in the Field of Global Health Program Design, Monitoring, and Evaluation .....	1075
Master of Public Health in the Field of Global Environmental Health .....	1033	Doctor of Public Health in the Field of Global Health .....	1077
Doctor of Public Health in the Field of Environmental and Occupational Health .....	1034	Health Policy and Management .....	1078
Epidemiology and Biostatistics .....	1035	Master of Health Administration .....	1079
Master of Public Health in the Field of Biostatistics .....	1041	Master of Health Administration – Online/Executive Program .....	1081
Master of Public Health in the Field of Epidemiology .....	1042	Master of Public Health in the Field of Health Policy .....	1082
Master of Public Health in the Field of Global Health Epidemiology .....	1043	Master of Science in the Field of Health Policy .....	1084
Master of Science in the Field of Biostatistics .....	1044	Master of Science in the Field of Management of Health Informatics Analytics .....	1085
Master of Science in the Field of Epidemiology .....	1045	Health Services Administration Specialist .....	1086
Master of Science in the Field of Public Health Microbiology and Emerging Infectious Diseases ....	1046	Doctor of Philosophy in the Field of Public Policy and Administration (Health Policy Track) .....	1087
Doctor of Philosophy in the Field of Biostatistics ....	1048	Doctor of Public Health in the Field of Health Policy .....	1088
Doctor of Philosophy in the Field of Epidemiology .....	1051	Graduate Certificate in Health Administration Generalist .....	1089
Exercise and Nutrition Sciences .....	1053	Graduate Certificate in Health Policy .....	1090
Bachelor of Science with a Major in Exercise Science .....	1001	Graduate Certificate in Long-Term Care .....	1090
Bachelor of Science with a Major in Exercise Science, Pre-athletic Training/Sports Medicine .....	1004	Prevention and Community Health .....	1091
Bachelor of Science with a Major in Exercise Science, Pre-medical Professional Concentration .....	1007	Master of Public Health in the Field of Community Oriented Primary Care .....	1111
Bachelor of Science with a Major in Exercise Science, Pre-physical Therapy Concentration .....	1010	Master of Public Health in the Field of Health Promotion .....	1114
Minor in Exercise Science .....	1017	Master of Public Health in the Field of Maternal and Child Health .....	1115
Minor in Nutrition .....	1017	Master of Public Health in the Field of Public Health Communication and Marketing .....	1116
Master of Public Health in the Field of Physical Activity in Public Health .....	1066	Doctor of Public Health in the Field of Health Behavior .....	1118
Master of Public Health in the Field of Public Health Nutrition .....	1068		

Doctor of Philosophy in the Field of Social and Behavioral Sciences in Public Health .....	1119	Corcoran Exhibition Design (CEX) .....	1232
Academic Calendar .....	1122	Corcoran Fine Art (CFA) .....	1234
Courses .....	1123	Corcoran First Year Foundation (CFN) .....	1241
Academy for Classical Acting (ACA) .....	1123	Corcoran Graphic Design (CGD) .....	1242
Accountancy (ACCY) .....	1124	Corcoran Interior Design (CID) .....	1243
Africana Studies (AFST) .....	1127	Corcoran Photography (CPH) .....	1249
American Studies (AMST) .....	1127	Corcoran Photojournalism (CPJ) .....	1252
Anatomy and Regenerative Biology (ANAT) .....	1133	Corcoran Printmaking .....	1256
Anthropology (ANTH) .....	1135	Corcoran Sculpture (CSL) .....	1258
Applied Science (APSC) .....	1143	Counseling (CNSL) .....	1259

## University Information

- About the University (p. 21)
- University Regulations (p. 25)
- Undergraduate Admissions (p. 46)
- Fees and Financial Regulations (p. 53)
- Financial Aid (p. 57)
- Interdisciplinary and Special Programs (p. 65)

## Schools and Colleges

- Columbian College of Arts and Sciences (p. 77)
- School of Business (p. 430)
- Graduate School of Education and Human Development (p. 505)
- School of Engineering and Applied Science (p. 578)
- Elliott School of International Affairs (p. 708)
- School of Medicine and Health Sciences (p. 868)
- School of Nursing (p. 925)
- College of Professional Studies (p. 957)
- Milken Institute School of Public Health (p. 994)

- Academic Calendar (<https://www.gwu.edu/academic-calendar>)
- Schedule of Classes (<http://my.gwu.edu/mod/pws>)
- Code of Academic Integrity (<http://studentconduct.gwu.edu/code-academic-integrity>)
- Guide to Student Rights and Responsibilities (<http://studentconduct.gwu.edu/guide-student-rights-responsibilities>)

Information in this Bulletin is generally accurate as of August 2018. The University reserves the right to change courses, programs, fees, and the academic calendar, or to make other changes deemed necessary or desirable, giving advance notice of change when possible.

## ABOUT THE UNIVERSITY

George Washington was determined to have a great national university in the nation's capital. His hope was that students from all parts of the country would gain a first-hand knowledge of the practice as well as the theory of republican government while being instructed in the arts and sciences. He bequeathed 50 shares of The Potomac Company "towards the endowment of a University to be established within the limits of the District of Columbia, under the auspices of the General Government, if that government should incline to extend a fostering hand towards it." Despite Washington's intentions, The Potomac Company folded and Congress never extended a "fostering hand," so the University did not take shape until a group of Baptist clergymen led by Reverend Luther Rice took up the cause. They raised funds for the purchase of a site and petitioned Congress for a charter. Congress insisted on giving the institution a nonsectarian charter stating "That persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor, or pupil, be refused admittance into said College, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion."

Columbian College, as it was originally named, took up residence on College Hill, a 46-acre tract between the present 14th and 15th Streets extending from Florida Avenue to Columbia Road. The name of the institution was changed in 1873 to Columbian University and in 1904 to The George Washington University.

In 1912, the University purchased 2023 G Street and rented 2024 Street, NW, establishing what would become its Foggy Bottom campus. Today, more than 100 buildings are situated on 43 acres in the heart of Washington, DC, bordered by the White House, John F. Kennedy Center for the Performing Arts, State Department, and World Bank, as well as numerous federal agencies and national galleries and museums.

GW's Virginia Science and Technology Campus (<http://virginia.gwu.edu>), initiated for graduate studies, research projects, and professional development programs, is located along the high-tech corridor on Route 7, just to the west of Route 28, in Loudoun County. In 1998, GW established The George Washington University at Mount Vernon College; the Mount Vernon Campus (<http://www.gwu.edu/mount-vernon-campus>) is on Foxhall Road in Northwest Washington.

Currently, the University's enrollments total more than 27,100, of which 11,200 are undergraduates, about 15,500 are graduate and professional students, and some 400 are non-degree students. GW students come from all 50 states and about 140 different countries.

## MISSION

### Mission Statement

The George Washington University, an independent academic institution chartered by the Congress of the United States in 1821, dedicates itself to furthering human well-being. The University values a dynamic, student-focused community stimulated by cultural and intellectual diversity and built upon a foundation of integrity, creativity, and openness to the exploration of new ideas.

The George Washington University, centered in the national and international crossroads of Washington, DC, commits itself to excellence in the creation, dissemination, and application of knowledge.

To promote the process of lifelong learning from both global and integrative perspectives, the University provides a stimulating intellectual environment for its diverse students and faculty. By fostering excellence in teaching, the University offers outstanding learning experiences for full-time and part-time students in undergraduate, graduate, and professional programs in Washington, DC, the nation, and abroad. As a center for intellectual inquiry and research, the University emphasizes the linkage between basic and applied scholarship, insisting that the practical be grounded in knowledge and theory. The University acts as a catalyst for creativity in the arts, the sciences, and the professions by encouraging interaction among its students, faculty, staff, alumni, and the communities it serves.

The George Washington University draws upon the rich array of resources from the National Capital Area to enhance its educational endeavors. In return, the University, through its students, faculty, staff, and alumni, contributes talent and knowledge to improve the quality of life in metropolitan Washington, DC.

## ACCREDITATION

### Accreditation

The George Washington University is accredited by its regional accrediting agency, the Middle States Commission on Higher Education (<http://www.msche.org>).

### Columbian College of Arts and Sciences

In Columbian College of Arts and Sciences (<http://columbian.gwu.edu>), the bachelor and master of fine arts degree programs in interior architecture are accredited by the Council for Interior Design Accreditation (<http://accredit-id.org>). The Department of Chemistry is on the approved list of the American Chemical Society. (<http://www.acs.org>) The doctor of philosophy program in clinical psychology in the Department of Psychology and the doctor of professional psychology program in clinical psychology in the Department of Professional Psychology are accredited by the American Psychological Association. (<http://www.apa.org>) The master

of arts degree program in speech-language pathology is accredited by the Education and Training Board of the Boards of Examiners in Speech-Language Pathology and Audiology (<http://www.ncsb.info>). The master in public administration and the master of public policy degree programs are on the approved list of the National Association of Schools of Public Affairs and Administration (<http://www.naspaa.org>). The master of forensic science degree programs in forensic chemistry, and forensic molecular biology are accredited by the Forensic Science Education Programs Accreditation Commission. The Art Therapy program is accredited by the American Art Therapy Association (<http://arttherapy.org>). The art and design programs in the former Corcoran College of Art and Design are accredited by the National Association of Schools of Art and Design.

## **School of Business**

The School of Business (<http://business.gwu.edu>) is a member of AACSB International–The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu>); the Association accredits its undergraduate and graduate business administration and accountancy programs. The programs in accountancy satisfy the educational requirements for the certified public accountant and the certified management accountant professional examinations.

## **Graduate School of Education and Human Development**

The Graduate School of Education and Human Development (<http://gsehd.gwu.edu>) is a charter member of the American Association of Colleges for Teacher Education (<http://aacte.org>) and is accredited under the Council for the Accreditation of Educator Preparation (<http://www.ncate.org>) as a National Council for the Accreditation of Teacher Education legacy program and the District of Columbia State Education Agency, Office of the State Superintendent of Education (<http://osse.dc.gov>), for its eligible master's, specialist, and doctoral degree programs; the master's programs in school counseling, clinical mental health counseling, and rehabilitation counseling, and the doctoral program in counseling are accredited by the Council for Accreditation of Counseling and Related Educational Programs (<http://www.cacrep.org>).

## **School of Engineering and Applied Science**

In the School of Engineering and Applied Science (<http://www.seas.gwu.edu>), the bachelor of science programs in civil, mechanical, biomedical, systems, electrical, and computer engineering are accredited by the Engineering Accreditation Commission of ABET, Inc (<http://www.abet.org>). The bachelor of science in computer science program is accredited by the Computing Accreditation Commission of ABET, Inc (<http://www.abet.org>).

## **Elliott School of International Affairs**

The Elliott School of International Affairs (<http://elliott.gwu.edu>) is a member of the Association of Professional Schools of International Affairs (<http://www.apsia.org>).

## **Law School**

The Law School (<http://www.law.gwu.edu>) is a charter member of the Association of American Law Schools (<http://www.aals.org>) and is approved by the Section of Legal Education and Admissions to the Bar of the American Bar Association (<http://www.americanbar.org>).

## **School of Medicine and Health Sciences**

The School of Medicine and Health Sciences (<http://smhs.gwu.edu>) has had continuous approval by its accrediting body, which is currently the Liaison Committee on Medical Education (<http://www.lcme.org>), sponsored jointly by the American Medical Association (<http://www.ama-assn.org>) and the Association of American Medical Colleges (<https://www.aamc.org>). The medical laboratory science program is accredited by the National Accrediting Agency for Clinical Laboratory Science (<http://www.naacls.org>). The Commission on Accreditation of Allied Health Education Programs (<http://www.caahep.org>) has accredited the program in physician assistant. The physical therapy program is accredited by the Commission on the Accreditation of Physical Therapist Education (<http://www.capteonline.org>) of the American Physical Therapy Association.

## **School of Nursing**

In the School of Nursing (<https://nursing.gwu.edu>), the bachelor of science and master of science degree programs in nursing, and the doctor of nursing practice are accredited by the Commission on Collegiate Nursing Education (<http://www.aacn.nche.edu/ccne-accreditation>). The bachelor of science program in nursing is approved by the Virginia Board of Nursing (<http://www.dhp.virginia.gov/nursing>); the master of science and the doctor of nursing practice are approved by the Washington, DC Board of Nursing (<http://doh.dc.gov/service/board-nursing>).

## **Milken Institute School of Public Health**

The Milken Institute School of Public Health (<http://publichealth.gwu.edu>) is accredited by the Council on Education for Public Health. The master of health administration program is accredited by the National Association of Long Term Care Administrator Boards and the Commission on Accreditation of Healthcare Management Education (<http://www.cahme.org>).

## BOARD OF TRUSTEES

### Board of Trustees

The University is privately endowed and is governed by a Board of Trustees of which the President of the University is an *ex officio* member.

Nelson A. Carbonell, Jr., *Chair*  
Ellen M. Zane, *Vice Chair*  
Grace E. Speights, *Secretary*

W. Scott Amey, *Chairman, Amyx, Inc.*  
Gabbi Baker, *Account Supervisor, OgilvyOne Worldwide*  
Christine Piorkowski Barth, *Chief Financial Officer and Chief Compliance Officer, Harren Equity Partners, LLC*  
Charles R. Bendit, *Co-Chief Executive Officer, Taconic Investment Partners*  
Roslyn Brock, *Chairman Emerita, NAACP National Board of Directors*  
Nelson A. Carbonell, Jr., *Chairman and Chief Executive Officer, Snowbird Capital*  
Mark Chichester, *Vice Chair, Atlas Research, LLC*  
Amr A. ElSawy, *President and Chief Executive Officer, Noblis, Inc.*  
Peter Harrison, *Chief Executive Officer, Snag*  
Diana Henriques, *Contributing Writer, The New York Times*  
A. Michael Hoffman, *Co-founder and Chairman, Palamon Capital Partners*  
Madeleine Jacobs, *Retired Executive Director and Chief Executive Officer, American Chemical Society*  
Todd Klein, *Partner, Revolution Growth*  
Thomas J. LeBlanc, *President of the George Washington University*  
Chelsea Lenhart, *Analyst, U.S. Department of Transportation, Office of Inspector General*  
Ann Walker Marchant, *Chief Executive Officer, Walker Marchant Group*  
Judith Lane Rogers, *Principal, Anne Bradstreet Early Childhood Center*  
Grace Speights, *Partner, Morgan Lewis's Labor and Employment Practice*  
Avram Tucker, *Chief Executive Officer and Co-founder, TM Financial Forensics, LLC*  
George W. Wellde, Jr., *Former Vice Chairman of the Securities Division, Goldman, Sachs*  
Ellen M. Zane, *Chief Executive Officer Emeritus and Vice Chairman, Board of Trustees, Tufts Medical Center*

## OFFICERS OF ADMINISTRATION

### Officers of Administration

#### The University

Thomas J. LeBlanc, *President*  
Forrest Maltzman, *Provost and Executive Vice President for Academic Affairs*  
Mark Diaz, *Executive Vice President and Chief Financial Officer*

Beth Nolan, *Senior Vice President and General Counsel*

### Deans of the Schools

Columbia College of Arts and Sciences—Paul Wahlbeck, *Interim Dean*  
School of Business—Anuj Mehrotra  
Graduate School of Education and Human Development—Michael J. Feuer  
School of Engineering and Applied Science—Rumana Riffat, *Interim Dean*  
Elliott School of International Affairs—Reuben E. Brigety II  
Law School—Blake D. Morant  
School of Medicine and Health Sciences—Jeffrey S. Akman  
School of Nursing—Pamela R. Jeffries  
College of Professional Studies—Christopher J. Deering, *Interim Dean*  
Milken Institute School of Public Health—Lynn R. Goldman

## DEGREES OFFERED

### Degrees offered by the George Washington University

*Columbia College of Arts and Sciences:* Bachelor of Arts (B.A.), Bachelor of Fine Arts (B.F.A.), Bachelor of Science (B.S.), Master of Arts (M.A.), Master of Fine Arts (M.F.A.), Master of Forensic Sciences (M.F.S.), Master of Public Administration (M.P.A.), Master of Public Policy (M.P.P.), Master of Science (M.S.), Master of Philosophy (M.Phil.), Master of Psychology (M.Psy.), Doctor of Philosophy (Ph.D.), and Doctor of Psychology (Psy.D.)

*School of Medicine and Health Sciences:* Bachelor of Science in Health Sciences (B.S.H.S.), Master of Science in Health Sciences (M.S.H.S.), Doctor of Medicine (M.D.), Doctor of Occupational Therapy (O.T.D.), Doctor of Philosophy (Ph.D.), and Doctor of Physical Therapy (D.P.T.)

*Law School:* Juris Doctor (J.D.), Master of Laws (LL.M.), Master of Studies in Law (M.S.L.), and Doctor of Juridical Science (S.J.D.)

*School of Engineering and Applied Science:* Bachelor of Science (B.S.), Bachelor of Arts (B.A.), Master of Science (M.S.), Master of Engineering (M.Eng.), Engineer (Engr.), Applied Scientist (App.Sc.), Doctor of Engineering (D.Eng.), and Doctor of Philosophy (Ph.D.)

*Graduate School of Education and Human Development:* Master of Arts in Education and Human Development (M.A.Ed.&H.D.), Master of Arts in Teaching (M.A.T.), Master of Education (M.Ed.), Master of Human Resource Management (M.H.R.M), Education Specialist (Ed.S.), Doctor of Education (Ed.D.), and Doctor of Philosophy (Ph.D.)

*School of Business:* Bachelor of Accountancy (B.Accy.), Bachelor of Business Administration (B.B.A.), Bachelor of Science (B.S.), Master of Accountancy (M.Accy.), Master of Business Administration (M.B.A.), Master of Science in Business

Analytics (M.S.B.A.), Master of Science in Finance (M.S.F.), Master of Science in Government Contracts (M.S.G.C.), Master of Science in Information Systems Technology (M.S.I.S.T.), Master of Science in Project Management (M.S.P.M.), Master of Tourism Administration (M.T.A.), and Doctor of Philosophy (Ph.D.)

*Elliott School of International Affairs:* Bachelor of Arts (B.A.), Master of Arts (M.A.), Master of International Policy and Practice (M.I.P.P.), and Master of International Studies (M.I.S.)

*Milken Institute School of Public Health:* Bachelor of Science (B.S.), Master of Science (M.S.), Master of Public Health (M.P.H.), Master of Health Administration (M.H.A.), Doctor of Public Health (Dr.P.H.), and Doctor of Philosophy (Ph.D.)

*College of Professional Studies:* Associate in Professional Studies (A.P.S.), Bachelor of Professional Studies (B.P.S.), and Master of Professional Studies (M.P.S.)

*School of Nursing:* Bachelor of Science in Nursing (B.S.N.), Master of Science in Nursing (M.S.N.), Doctor of Nursing Practice (D.N.P.)

# UNIVERSITY REGULATIONS

Students enrolled in the University are required to conform to the following regulations and to comply with the requirements and regulations of the school in which they are registered. Students who withdraw or are suspended, or who, for any other reason, are not registered at the University for one semester or more, may reapply and, if readmitted, continue their program only under the regulations and requirements in force at the time of return.

If a student knowingly makes a false statement or conceals material information on an application for admission or any other University document, the student's registration may be canceled. If such falsification is discovered after the student has matriculated at the University, the student may be subject to dismissal from the University. Such a student will be ineligible (except by special action of the faculty) for subsequent registration in the University.

- Complete Withdrawal from the University (p. 37)
- Non-Degree Students (p. 38)
- University Policies and Definitions (p. 38)

---

## Undergraduate Registration

Information on registration procedures is stated on the Office of the Registrar's website (<http://registrar.gwu.edu/how-register>) and in the Schedule of Classes (<http://my.gwu.edu/mod/pws>), which is available in advance of each semester.

Registration in courses is open only to those persons formally admitted to the University by the appropriate admitting office and to continuing students in good standing. Students may not register concurrently in this University and another institution without the prior permission of the advising office of the school in which they are registered in this University. With the exception of students enrolled in a joint degree program, registration in more than one school of the University requires the written permission of the student advising offices concerned, prior to registration. Registration is not complete until all financial obligations have been met. Individuals without a valid registration may not attend class or earn any course credit.

## Eligibility for Registration

Registration for the following categories of on-campus students is held on the days of registration indicated on the Registrar's website (<https://registrar.gwu.edu>). A student who is suspended or whose record is encumbered for any reason is not eligible to register. Registration in a given course may be denied to non-degree students by the Office of Non-Degree Students (<https://www.gwu.edu/non-degree>) when space is needed for degree candidates.

*New Student*—Upon receipt of a letter of admission and payment of any required deposit, new students are eligible for registration on the stated days of registration. Registration for new freshmen is typically conducted on stated days as part of the Colonial Inauguration (<http://ci.gwu.edu>) orientation program.

*Readmitted Student*—A student previously registered in the University who was not registered for courses or continuous enrollment, or on an approved leave of absence, during the preceding semester must apply for and be granted readmission by the appropriate admitting office before being eligible for registration.

*Continuing Student*—A student registered on campus in the immediately preceding semester or the summer session preceding the fall semester is eligible to register assuming good standing and enrollment in a continuing program.

## Completion of Registration

Students who register for courses in any semester or session incur a financial obligation to the University. Registration is not complete until all financial obligations have been fulfilled. Tuition and fees are due and must be paid in full by the first day of the University's fall and spring semesters and summer sessions as indicated on the Academic Calendar (<http://bulletin.gwu.edu/academic-calendar>). Students may be de-registered for non-payment, but failure to drop registration, or to attend classes, does not exempt students from their financial obligation.

## Registration for Consortium Courses

Degree students interested in taking courses at any of the other institutions in the Consortium of Universities of the Washington Metropolitan Area, Inc. (<http://www.consortium.org/consortium>), should consult the program announcements of the other institutions. In order to participate in the Consortium program, students must obtain the approval of an advisor and should ascertain from the department of the institution where the course is taught whether they are eligible for the course and whether there is space in the course. Consortium registration forms and detailed information concerning Consortium policy and procedures are available on the Office of the Registrar's website (<http://registrar.gwu.edu/consortium>). Specific inquiries should be addressed to the Office of the Registrar.

## Adding, Dropping, and Withdrawing from Courses

The following information pertains to courses taught on a traditional 15-week schedule in the fall and spring semesters. Academic deadlines for fall and spring semester courses taught on a traditional schedule are available on the Office of the Registrar's website (<http://registrar.gwu.edu>). Academic deadlines for fall and spring semester courses taught on a non-traditional schedule can be found at the respective school's advising office.

### Adding and Dropping Courses

During the registration period and before the end of the second week of classes, students may add or drop courses using the GWeb Information System. (<http://my.gwu.edu>)

During the third and fourth weeks of classes (after the second week and prior to the end of the fourth week), students may continue to drop courses using the GWeb Information System (<http://my.gwu.edu>). Students who wish to add a course must complete a Registration Transaction Form-EZ (RTF-EZ (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/RTF-EZ.pdf>)) and submit it in person to Colonial Central. Adding a course after the second week of classes requires the signature of the instructor or other authorized member of the department. A course dropped during the first four weeks of classes will not appear on the student's transcript.

After the fourth week of classes, students who wish to add a course must complete a Registration Transaction Form ([https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg\\_transaction\\_form.pdf](https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf)) (RTF) and submit it to their advising office. Adding a course after the fourth week of classes continues to require the signature of the instructor or other authorized member of the department.

### Withdrawing from Courses

Students may withdraw from courses after the fourth week of classes. A course from which a student successfully withdraws will be assigned a notation of *W* (Authorized Withdrawal).

For undergraduate students in the School of Medicine and Health Sciences and School of Nursing the deadline for withdrawing from a course is the end of the tenth week of classes in the fall or spring semester in which the student is enrolled in the course. After the fourth week of classes but before the end of the tenth week, a student who wishes to withdraw from any or all courses for which they are registered must submit a petition, along with substantial supporting documentation, to their advising office for consideration. Submission of a petition does not guarantee approval.

For undergraduate students in the College of Professional Studies (CPS), information on withdrawing from courses can be found in the CPS regulations (<https://mail.google.com/professional-studies/#regulationtext>) section of this Bulletin.

Undergraduate students in Columbian College of Arts and Sciences, Elliott School of International Affairs, GW School of

Business, Milken Institute School of Public Health, and School of Engineering and Applied Science may withdraw from any or all undergraduate courses in those schools through the last day of classes in the fall or spring semester in which the student is enrolled in the course. In order to withdraw from a course after the tenth week of classes, the student must submit a Registration Transaction Form ([https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg\\_transaction\\_form.pdf](https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf)) (RTF) to their advising office, but no supporting documentation is required. The advising office will process the RTF unless withdrawing from the course would result in the student taking fewer credits than they are required to take.

Failure to withdraw by the stated deadlines can result in an extended financial obligation and the recording of a grade of *F* (Failure) or a notation of *Z* (Unauthorized Withdrawal).

All charges for courses from which a student withdraws are subject to the refund policy listed under Fees and Financial Regulations (<https://next.bulletin.gwu.edu/fees-financial-regulations>) in this Bulletin.

## Changes in Program of Study

*Changes Within a School*—A student may not substitute one course for another within an established program of study or change status from credit to audit or from audit to credit without the approval of the advising office of the school in which he or she is registered. Change from one major field to another within the same school may be made with the approval of the advising office.

*Undergraduate Transfer Within the University*—Students are admitted to a home school at the time of their admission to the University. Those who wish to change their home school must submit an internal transfer request ([https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/internal\\_transfer.pdf](https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/internal_transfer.pdf)) to the Office of the Registrar. A university-wide graduation requirement is that students must be registered in the school in which their primary major is housed. Some schools may require that certain prerequisite courses have been taken and that minimum grades have been earned before the transfer is processed. Transfer into a school does not guarantee placement in a limited-enrollment major and students will be transferred into an undeclared major. Requests to transfer schools will not be accepted prior to the second semester of the student's enrollment at GW. Students should meet with an academic advisor in both their current school and the school into which they are requesting to transfer prior to submitting an internal transfer request. Additional information, including deadlines, limited-enrollment majors, and prerequisites for internal transfers, is available on the Office of the Registrar's website (<http://registrar.gwu.edu/undergraduate-internal-transfer>).

## Grades

Grades are made available to students through the Office of the Registrar (<http://registrar.gwu.edu>) after the close of each semester.

## Undergraduate Grading System

The following grading system is used for undergraduate students: *A*, Excellent; *B*, Good; *C*, Satisfactory; *D*, Low Pass; *F*, Fail; other grades that may be assigned are *A*–, *B*+, *B*–, *C*+, *C*–, *D*+, and *D*–. Symbols that may appear include *AU*, Audit; *I*, Incomplete; *IPG*, In Progress; *W*, Authorized Withdrawal; *Z*, Unauthorized Withdrawal; and *R*, Need to Repeat Course.

*Repeating Courses for Credit*—For courses that do not specifically state that repetition for credit is permitted, an undergraduate student may, with permission of the instructor teaching the course in question, repeat for credit a course in which a grade of *B*– (2.75) or below was received. The student must complete an RTF form ([https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg\\_transaction\\_form.pdf](https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf)) to register. Credit for the repeated course will not count toward degree requirements; the grade earned in the repeated course will, however, be included in the student's cumulative grade-point average.

*Unauthorized Withdrawal*—The symbol of *Z* is assigned when students are registered for a course that they have not attended or have attended only briefly, and in which they have done no graded work. The symbol of *Z* is not a grade but an administrative notation.

## Incompletes

The symbol *I* (Incomplete) indicates that a satisfactory explanation has been given to the instructor for the student's inability to complete the required work of the course during the semester of enrollment. At the option of the instructor, the symbol *I* may be recorded if a student, for reasons beyond the student's control, is unable to complete the work of the course, and if the instructor is informed of, and approves, such reasons before the date when grades must be reported. This symbol may be used only if the student's prior performance and class attendance in the course have been satisfactory. Any failure to complete the work of a course that is not satisfactorily explained to the instructor before the date when grades must be turned in will be graded *F*, Failure. If acceptable reasons are later presented to the instructor, the instructor may initiate a grade change to the symbol *I*. The work must be completed within the designated time period agreed upon by the instructor, student, and school, but no more than one calendar year from the end of the semester in which the course was taken. All students who receive an Incomplete must maintain active student status during the subsequent semester(s) in which the work of the course is being completed. If not registered in other courses during this period, the student must register for continuous enrollment status.

When work for the course is completed, the instructor will complete a grade change form and submit it to the Office of the Registrar. Beginning with courses taken in the fall 2014 semester, the final grade will replace the symbol of *I*. If work for the course is not completed within the designated time, the grade will be converted automatically to a grade of *F*, Failure, 0 quality points, and the grade-point average and academic standing recalculated.

## Grade-Point Average

The following credit values are used in computing the undergraduate grade-point average: *A*, 4.0; *A-*, 3.7; *B+*, 3.3; *B*, 3.0; *B-*, 2.7; *C+*, 2.3; *C*, 2.0; *C-*, 1.7; *D+*, 1.3; *D*, 1.0; *D-*, .7; *F*, 0. Quality points are computed based on the credit value for each credit taken. Quality points divided by the number of credits for which the student has registered as a degree-seeking student equals the GPA. Both quality points and credits used in this calculation are based on the student's record in this university.

Although credit value for a course in which a grade of *F* is earned appears on the transcript for the purpose of calculating the grade-point average, no academic credit is awarded. In the case of a student who is allowed to repeat a course, the first grade received remains on the student's record and both the first grade and that received in the repeated course are included in calculating the grade-point average. Courses marked *AU*, *I*, *IPG*, *P*, *NP*, *R*, *W*, or *Z* are not considered in determining the GPA; however, once a final grade is recorded for a course originally marked *I*, the grade will be considered in that determination. With the exception of Consortium courses, grades in courses taken at other institutions are not considered in computing the grade-point average.

## First-Year Academic Forgiveness Policy

Undergraduate students are eligible to repeat for credit one course, taken at GW during their first academic year (first semester for transfer students), in which they received a grade of *D+* (1.3) or below. A student may repeat a course under this policy at any time during their enrollment at GW; however, a course is not eligible for this policy if the student has taken a subsequent course for which the initial course is a prerequisite. The student's registration, including the repeated course, may not exceed 17 credits in the semester in which the course is repeated; students in the School of Engineering and Applied Science may not exceed 19 credits.

Under this policy, the original grade remains on the transcript until the student repeats the course. Once the course is repeated, a permanent notation replaces the grade for the first attempt of the course in the semester in which it was taken. The grade earned in the repeated course appears on the transcript in the semester in which the course was repeated. Only the grade earned for the repeat enrollment is factored into the student's cumulative grade-point average. The grade for the repeat enrollment is the final grade for the course, regardless of whether it is above or below the original grade.

## Undergraduate Degree Requirements

To earn a bachelor's degree, students must complete 120 academic credits; meet the University General Education Requirement; school-specific requirements of their home school and requirements of at least one major within their home school; fulfill the residence requirement; and have a cumulative grade-point average of at least 2.0. Additional school-specific regulations may apply.

## University General Education Requirement

Under the University General Education Requirement, undergraduate students are required to take 19 credits in approved courses in the areas of written communication, critical or creative analysis in the humanities, critical or quantitative analysis in the social sciences, quantitative reasoning, and scientific reasoning. The general education curriculum engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that meaningfully enhance their analytical skills, develop communication competencies, and familiarize them with modes of inquiry.

The distribution for the General Education Requirement is as follows: Written communication—one university writing course (UW 1020 or HONR 1015) and two writing-in-the-disciplines (WID) courses; critical or creative analysis in the humanities—one course in the humanities; quantitative reasoning—one course in either mathematics or statistics; scientific reasoning—one natural or physical science course with laboratory; and critical or quantitative analysis in the social sciences—two courses in the social sciences. All such courses will carry at least 3 credits. The list of approved courses for each area can be found online (<https://advising.columbian.gwu.edu/general-education-courses>) and students should check the list before registering for courses. Students should address questions about this requirement to their advising office.

## Assignment of Credits

A total of 37.5 hours of work per semester is required for each credit earned. Work for 1 credit consists of 50 minutes of direct or guided interaction, or one laboratory period, or 1.5 hours of studio class, plus 100 minutes of independent learning per week during the course of a normal 15-week semester, which includes one week for examinations. Other combinations of time are possible, where appropriate (for example, as a higher proportion of instructional/interactional time for a laboratory or a lower proportion of instructional/interactional time for independent research). Class and study time may exceed these minimums to ensure that students meet course learning goals. See the full policy ([https://provost.gwu.edu/files/downloads/Resources/Assignment-of-Credit-Hours\\_Final\\_Oct-2016.pdf](https://provost.gwu.edu/files/downloads/Resources/Assignment-of-Credit-Hours_Final_Oct-2016.pdf)) for additional information.

## Residence Requirement

To earn a bachelor's degree, students must earn at least 60 credits at or through GW, which may include a University-authorized study abroad and study away program. At least 30

of the 60 credits earned at or through GW must be in upper-level courses (numbered 2000 or above); at least 12 credits in upper-level courses must be in the major field, and at least 6 credits in upper-level courses must be in the minor field, if sought.

## Academic Workload and Student Status

For the purpose of defining student status, undergraduates taking 12 or more credits per semester are considered to be full-time, those taking 6 to 11 credits per semester are considered to be half-time, and all others are considered to be part-time. Generally, an undergraduate becomes a sophomore upon completion of 30 credits, a junior upon completion of 60 credits, and a senior upon completion of 90 credits.

A full-time undergraduate student on academic probation may register for up to 13 credits.

Undergraduates taking more than 17 credits per semester will be charged at the rate of 1 credit for each credit exceeding that limit. Undergraduates are not charged for an eighteenth credit if their program includes UW 1020, nor are those in the School of Engineering and Applied Science charged for the eighteenth and nineteenth credits if required by their program. Undergraduate students in the Corcoran School of the Arts and Design who entered before the 2015-16 academic year are not charged for an eighteenth credit. Corcoran undergraduate students who entered in or after the 2015-16 academic year are charged for an eighteenth credit.

Unless otherwise indicated under the program, all programs of study are offered on both a full-time and part-time basis. International students in F-1 or J-1 immigration status may pursue only full-time programs of study, and such students must register for and complete a workload each semester as defined by federal regulations.

## Academic Standing

Academic standing is determined at the end of each fall and spring semester. Undergraduate students are considered to be in good academic standing if at the end of any semester their grade-point average (GPA) for that semester and their cumulative GPA are 2.0 or above.

*Academic probation:* Undergraduate students are placed on academic probation if at the end of any semester their GPA for that semester or their cumulative GPA is below 2.0. Students on academic probation must fulfill all probation-related requirements of their home school in order to register for courses.

*Suspension for poor scholarship:* Undergraduate students who have attempted at least 24 credits at the University (to include all letter, *I*, *NP*, *P*, *R*, *W*, and *Z* grades) will be subject to suspension for poor scholarship if they meet any of the following criteria:

- The student's current semester GPA is below 1.0;
- The student has completed two successive semesters without achieving semester and cumulative GPAs of 2.0 or above; or
- The student has a semester or cumulative GPA below 2.0 in any three semesters at the University.

*Readmission after suspension for poor scholarship:* Students suspended for poor scholarship may apply for readmission after one semester following the term of suspension. To be considered for readmission, students must earn a minimum of 12 credits at an accredited institution of higher education and demonstrate a likelihood of future academic success at the University. Students are encouraged to meet with a GW academic advisor to discuss course options at the other institution that may strengthen their readmission application. Readmission is at the discretion of the school to which the student applies and is never guaranteed.

Credit will not be assigned for academic work completed while a student is suspended; however, readmitted students may petition their advising office to transfer credits from other colleges or universities in accordance with University regulations (see Earning Transfer Credit after Matriculation).

Students suspended twice for poor scholarship will not be readmitted to the University.

## Dean's List

Undergraduate students who, in any one semester, earn 12 credits or more and attain a minimum semester grade point average of 3.75 in letter-graded coursework, pass all non-graded credit courses, and do not have any Unauthorized Withdrawals (*Z*) or Incompletes (*I*), are placed on the Dean's List for that semester.

## Latin Honors

Bachelor's degrees with honors are awarded to students whose academic records give evidence of particular merit. The student's grade-point average determines the level of honors as follows: *cum laude*, 3.4-3.59; *magna cum laude*, 3.6-3.79; *summa cum laude*, 3.8-4.0. The grade-point average includes all coursework completed at GW. To be eligible for an honors designation, a student must complete at least 60 credits of coursework with letter grades (grades included in calculating the grade-point average) at GW.

The grade-point average is calculated by the Office of the Registrar, and the honors designation is entered on the transcript and diploma of those students who earn an honors designation. If Latin honors are entered in the commencement program, honors status will be determined on the basis of work completed by the end of the seventh term and entered only for those students who have completed seven-eighths of the credits required for the degree. Latin honors indicated on the diploma are calculated on the basis of all coursework completed. The diploma and transcript are the

official indication that a degree was conferred and Latin honors awarded.

## Special Honors

Special Honors may be awarded by the faculty to any undergraduate member of the graduating class for outstanding achievement in the student's major field on recommendation of the major department. The student must fulfill all of the following requirements: (1) Candidacy for Special Honors must be approved by the faculty member representing the major department or field no later than the beginning of the senior year; (2) such other conditions as may be set at the time the candidacy is approved must be met; (3) at least one-half of the courses required for the degree must have been completed at GW; and, (4) the specific minimum requirement of the school in which the student is registered must be fulfilled as follows: (a) Columbian College of Arts and Sciences—a minimum grade-point average of 3.0 on all coursework taken at GW; (b) the Elliott School of International Affairs—a minimum grade-point average of 3.7 on all coursework taken at GW; (c) the Milken Institute School of Public Health—a minimum grade-point average of 3.25 on all coursework taken at GW. Special Honors awards appear on the transcript.

## Double Majors

Undergraduates can declare no more than two majors; they can pursue no more than two minors in addition to the two majors if they wish, but generally are advised against pursuing too many specializations.

Students who graduate with the requisite credits for one degree, having fulfilled the major requirements in more than one department, program, and/or school, will receive one degree. They must select a primary degree and major, as only the primary degree will be noted on the transcript and diploma, along with the two majors.

Students who complete the major requirements in their home school and the major requirements in a second school will receive the degree in the major of their home school and a notation on the transcript and diploma that testifies to completion of requirements for a secondary major. It is understood that requirements of the secondary major do not include the general education requirements of the second school.

Students who complete the major requirements for a degree different from the one they will receive in their home school will receive the degree of the relevant major in their home school. For example, a SEAS student completing the degree requirements for a BS in computer science and the major requirements for a BA in fine arts will receive a BS in computer science with a secondary major in fine arts.

Students who complete two majors in the same school also receive one degree with two majors; if one major leads to a BA

and one to a BS, the student must declare a primary major and will receive the degree associated with that major.

Students whose first major leads to a BS degree must complete the BS curriculum for a second major if the second major offers both a BA and BS curriculum. For example, students whose primary degree and major is a BS in finance who want a second major in economics, chemistry, biology, or computer science, must complete the BS curriculum for these majors.

## Minors

Undergraduates can declare no more than two minors. Students may not declare a minor in the same subject in which they have declared a major. Students should address specific questions about this policy to the school's advising office.

## Double Degrees

To earn two bachelor's degrees at the same time, students must be admitted to the school that offers the second degree; satisfy the general and major requirements for both degrees; complete at least 30 additional credits beyond the credits required to earn one degree or a total of 150 credits; and earn 90 credits in residence at GW. Students interested in pursuing this option must have a cumulative grade-point average of at least 3.3. Requests for consideration should be sent to the student's advising office.

## Study Abroad

Undergraduates who wish to study abroad during the academic year should contact the Office for Study Abroad (<https://studyabroad.gwu.edu>) concerning eligibility, procedures, and requirements for participation. Semester and Academic Year participants are billed GW tuition and a study abroad program fee rather than the tuition and fees indicated by the visited school or program. To be eligible for the transfer of academic credit from study abroad, GW students must select a program from the University's authorized list of study abroad programs and enroll in a full-time equivalent workload while abroad. Students must have a 2.75 cumulative grade-point average at the time of application and must have completed 45 credits prior to departure. Students who have a significant disciplinary history or who are on academic or disciplinary probation at the time of their planned study abroad are not eligible to participate. Non-GW course credits earned in authorized programs with a minimum grade of C are transferable toward the appropriate degree at GW, provided there is no duplication of previous coursework and the designated faculty member determines a GW equivalent for each course. Participants agree to abide by all procedures and regulations for study abroad as indicated in the Study Abroad Handbook and Participation Agreement, which are included in the GW Passport application (<http://passport.gwu.edu/index.cfm?FuseAction=programs.AdvancedSearch>). In addition to semester and academic year programs, study abroad is available at varying locations during the summer.

Graduate students who wish to study abroad should consult their program's advising office.

## Continuous Enrollment Status

Once entered in a degree program, a student is expected to be continuously enrolled and actively engaged in fulfilling the requirements for the degree each semester of the academic year until such time as the degree is conferred. A student is considered to be continuously enrolled when registered for courses through GW or when registered for continuous enrollment and engaged in and appropriately registered for activities such as the following, with the prior approval of the school in which the student is enrolled: cooperative work semester; study abroad program; attendance at another institution with prior approval to have work transferred back to the GW program; completion of outstanding work in courses in which a grade of Incomplete or In Progress was received; or non-course instructional activities unique to the particular school. This status is generally limited to one year. Should the student break continuous enrollment at the University and not request and be granted a leave of absence (see below), they must apply for readmission and, if granted, be subject to the requirements and regulations then in force.

## Leave of Absence

A degree student who finds it necessary to interrupt active pursuit of the degree may petition their advising office for a leave of absence for a specific period of time, generally limited to one calendar year. A degree student who discontinues active enrollment in degree studies without being granted a leave of absence, or a student granted a leave who does not return to active study at the close of the period of approved absence, must apply for readmission and be subject to the regulations and requirements then in force. The right to the use of University facilities is suspended while the leave is in effect.

## Policy Regarding Students Called to Active Military Duty

Any student who is a member of a military reserve unit or the National Guard and is activated or called to active duty early in a semester or summer session automatically will be entitled to a full refund of all tuition and fees that they have paid toward the expenses of that academic term. If the notification of the call to active duty comes after the mid-term examinations or after other substantial graded work has been completed, the student will have the option of either taking a full refund of tuition and fees or taking an Incomplete in their courses with the privilege of returning to complete all required coursework at some future date without payment of any further tuition and fee charges. It is the responsibility of the student to present evidence of their activation to the Office of Student Accounts (<http://studentaccounts.gwu.edu>) and to request the appropriate refund.

Should a degree student called up for active duty find it necessary to interrupt active pursuit of the degree, the student may petition their advising office for a leave of absence for

a specified period, generally limited to one calendar year. Student advisors are encouraged to grant any request to extend the leave of absence for longer than the customary period should military service require an absence of more than one year.

## Eligibility for Graduation

Degrees are conferred in January, May, and August. To be eligible for graduation a student must have met the admission requirements of the school in which registered; completed satisfactorily the scholarship, curriculum, residence, and other requirements for the degree as stated in this bulletin; filed an application for graduation by the published deadline date; and be free from all indebtedness to the University. Enrollment is required for the semester or summer session at the close of which the degree is to be conferred; all degree requirements must be completed by the last day of final examinations for that semester or summer session. Undergraduates who pursue a double major across two schools must complete the primary major in their home school in order to graduate. A second major may supplement the primary major but may not substitute for it.

The minimum cumulative grade-point average required for graduation is 2.0 for undergraduate students.

## Participation in the Commencement Ceremony

Participation in the annual commencement ceremony held in May is open to students who have applied to graduate in the current spring semester or who graduated the preceding fall semester or summer session. With the exception of doctoral candidates, all students, graduate or undergraduate, who need no more than 9 credits to complete their degree requirements, may participate in May commencement ceremonies if there is a reasonable expectation that they will be able to obtain the needed credits during the following summer. The maximum of 9 credit is firm and not subject to petition.

## Complete Withdrawal from the University

A degree-seeking student who wishes to withdraw from all courses during a given semester must complete a Complete Withdrawal Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/completewithdrawal.pdf>) and submit it to the Office of the Registrar (<http://registrar.gwu.edu>). Forms are available on line, at advising offices, and in the Office of the Registrar. The deadline for complete withdrawal from all courses is the end of the tenth week of classes. Complete withdrawal after the tenth week requires a petition to the student's advising office. Submission of a petition does not guarantee approval.

All charges for courses from which the student withdraws are subject to the refund policy found on the website of the Office of the Registrar. Failure to complete a Complete Withdrawal Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/completewithdrawal.pdf>) can result in an extended

financial obligation and the recording of grades of F (Failure) or notations of Z (Unauthorized Withdrawal).

The University is authorized to award the degree of associate in general studies under designated circumstances. This degree may be awarded to students in good standing who must leave GW after completing 60 credits in residence in a degree-granting GW school; students should consult their school's advising office about additional requirements for awarding of the associate in general studies.

## Non-Degree Students

The Office of Non-Degree Students (<http://www.gwu.edu/non-degree>) makes credit-bearing courses available to those who are not degree candidates at GW and to students who have been admitted to the University for a future semester. Non-degree students may enroll for a maximum of 18 credits per semester at the undergraduate level, except in special circumstances as approved by the Director of the Office of Non-Degree Students. Special program credit limits may vary. A limited number of credits taken as a non-degree student may be applied toward a GW degree program, subject to determination by the school or college that offers the program. Some medical and law courses are available to non-degree students. Contact the Law School (<https://www.law.gwu.edu/information-non-degree-students>) or School of Medicine and Health Sciences (<https://smhs.gwu.edu>) for more information.

Non-degree applicants must have appropriate academic preparation prior to enrollment. This includes course prerequisites, which are specified in course descriptions in this Bulletin. An applicant who previously attended this or another institution of higher education must be in good standing prior to enrolling as a non-degree student. The University determines, on a case-by-case basis, whether an applicant who has been suspended or dismissed from any educational institution is eligible to enroll as a non-degree student. An applicant who has been denied admission to any school or college of this university is not eligible to enroll as a non-degree student for the same semester for which the application was denied. The University reserves the right, at its sole discretion, to deny admission to any applicant if the University determines that admission is not in the best interest of either the applicant or the University. Application and registration information is available on the Office of Non-Degree Students (<https://www.gwu.edu/non-degree>) website. Non-degree students are subject to enrollment, withdrawal, and refund policies stated on the Office of the Registrar (<https://registrar.gwu.edu/non-degree-students>) website.

## University Policies and Definitions

### Right to Change Rules and Programs

The University reserves the right to modify or change requirements, rules, and fees. Such regulations shall go into force whenever the proper authorities may determine. The University reserves the right to make changes in programs without notice whenever circumstances warrant such changes.

## University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the University, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the University's Office of Equal Employment Opportunity and Affirmative Action (<http://hr.gwu.edu/equal-employment-opportunity>) at (202) 994-9656. Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission, or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the University's Title IX Coordinator, the Vice Provost for Diversity, Equity, and Community Engagement at (<http://diversity.gwu.edu>)(202) 994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the University's Disability Services Coordinators (<https://disabilitysupport.gwu.edu/our-team>). Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students at (202) 994-6710; and other members of the University community may contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at (202) 994-8250 or [dss@gwu.edu](mailto:dss@gwu.edu). Employees and other members of the University community should contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9656 or [eeo@gwu.edu](mailto:eeo@gwu.edu).

### Academic Integrity

The University community, in order to fulfill its purposes, must establish and maintain guidelines of academic behavior. All members of the community are expected to exhibit honesty and competence in their academic work. Incoming students have a special responsibility to acquaint themselves with, and make use of, all proper procedures for conducting research, writing papers, and taking examinations. Members of the community will be presumed to be familiar with the proper academic procedures and held responsible for applying them. Deliberate failure to act in accordance with such procedures will be considered academic dishonesty. Acts of academic dishonesty are a legal, moral, and intellectual offense against the community and will be prosecuted through the proper

University channels. The University Code of Academic Integrity can be found at the Office of Academic Integrity (<https://studentconduct.gwu.edu/code-academic-integrity>) at (202) 994-1977.

### **Patent and Copyright Policies**

Students who produce creative works or make scientific discoveries while employed or supported by the University or through substantial use of University resources are subject to the University's patent and copyright policies. See The Office of the Vice President for Research (<https://research.gwu.edu>).

### **Human Research Requirements**

Students who are planning to conduct research involving the use of human subjects (for a thesis, dissertation, journal article, poster session, etc.) must obtain Institutional Review Board (IRB) (<https://humanresearch.gwu.edu>) approval before collecting any data. For more information see The Office of the Vice President for Research (<http://research.gwu.edu>).

### **English for Academic Purposes**

Undergraduate international students whose TOEFL, IELTS, or PTE scores fall below established cut-off points are required to take one or more courses in the English for Academic Purposes (EAP) program. Undergraduate students receive credit for EAP courses. For detailed information concerning this requirement consult the English for Academic Purposes Program website (<http://eap.columbian.gwu.edu/placement-eap-courses>).

### **Name of Record**

A student's name of record includes the first name, middle initial or full middle name, and the family name. Nicknames may not be used. The University will change the name of a currently enrolled student on its official records but will require satisfactory evidence of a legal basis for the change. The diploma is awarded under the official name of record at the time of graduation.

### **Attendance**

Students may attend only those courses for which they are officially registered. Regular attendance is expected. Students may be dropped from any course for undue absence. A student suspended for any cause may not attend classes during the period of suspension. Students are held responsible for all of the work of the courses in which they are registered, and all absences must be excused by the instructor before provision is made to make up the work missed.

### **Credit**

A credit hour may be defined as one 50-minute class period, one laboratory period, or 1.5 hours of studio class a week for one semester. Credit is given only after completion of registration in a course and satisfactory completion of the required work, or upon the assignment of advanced standing in accordance with the regulations of the school concerned. Credit that has been applied to the completion of a degree may not subsequently be applied to another degree.

### **Auditing**

A person who has been admitted to the University may be registered, with the permission of the instructor, as an auditor in a course (no academic credit). An auditor is not required to take active part or to pass examinations. A student who takes a course as an auditor may not repeat it later for credit. Tuition is charged at the prevailing rate. A student may not change from audit to credit status or vice versa after the end of the eighth week of classes.

### **Earning Transfer Credit after Matriculation**

All students who plan to attend another institution while enrolled at GW and apply credits earned at that institution toward GW degree requirements must complete an Undergraduate Transfer Credit Approval Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/transferecredit.pdf>) and secure the written approval from the GW department that offers a comparable course and from the student's advising office. With the exception of credits earned from GW study abroad and study away programs, no more than 9 credits or three courses may be transferred from colleges or universities after matriculation.

### **Transcripts of Record**

Official transcripts of student records are issued upon written request of the student or former student who has paid all charges, including any student loan installments, due the University at the time of the request. A nominal fee is charged for each official transcript. Unofficial copies of transcripts are available to students, by written request, at a nominal fee. Partial transcripts are not issued. Students have access to their unofficial student record through the GWeb Information System ([https://banweb.gwu.edu/PRODCartridge/twbkwbis.P\\_WWWLogin](https://banweb.gwu.edu/PRODCartridge/twbkwbis.P_WWWLogin)).

### **Student Conduct**

All students, upon enrolling and while attending this University, are subject to the provisions of the *Guide to Student Rights and Responsibilities*, which outlines student freedoms and responsibilities of conduct, including the Code of Student Conduct (<http://studentconduct.gwu.edu/code-student-conduct>), and other policies and regulations as adopted and promulgated by appropriate University authorities. Copies of these documents may be obtained from the Office of the Dean of Student Affairs (<http://students.gwu.edu>) or from advising offices. Sanctions for violation of these regulations may include permanent expulsion from the University. Regulations or requirements applicable only to a particular program, facility, or class of students may not be published generally, but such regulations or requirements shall be published in a manner reasonably calculated to inform affected students.

### **Right to Dismiss Students**

The University reserves the right to dismiss or exclude any student from the University, or from any course or courses, whenever, in the interest of the student or the University, the University Administration deems it advisable.

## University Policy on the Release of Student Information

The Family Educational Rights and Privacy Act (FERPA) (<http://registrar.gwu.edu/university-policies/#ferpa>) applies to institutional policies governing access to and release of student education records.

The University may release the following directory information upon request: name, local address including e-mail, and telephone number; name and address of emergency contact; dates of attendance; school of enrollment; field of study; enrollment status; credits earned; degrees earned; honors received; participation in University-recognized organizations and activities (including intercollegiate athletics); and height, weight, and age of members of athletic teams, as well as likenesses used in University publications. Date of birth will be considered directory information only for the purpose of complying with applicable laws. A student who does not wish such directory information released must file written notice to this effect in the Office of the Registrar (<http://registrar.gwu.edu>).

The University's full policy statement on the release of student information is published in the *Guide to Student Rights and Responsibilities*, available in the Office of the Dean of Student Affairs or the offices of the academic deans. The full statement also appears on the Office of the Registrar's website.

## Student Identification Number/Social Security Number

The University has converted from use of the Social Security Number (SSN) to identify records pertaining to individual students, although the SSN is still needed to identify the student for purposes of financial aid eligibility and disbursement and repayment of financial aid and other debts payable to the University. The SSN is required when applying for financial aid. The Internal Revenue Service requires the University to file information that includes a student's SSN and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used to help determine whether a student, or a person claiming a student as a dependent, may take credit or deduction to reduce federal and/or state income taxes. Many efforts are made to protect the privacy of this number, and a student may request an alternate personal identifier. Further information may be obtained by contacting the Office of the Registrar.

## Property Responsibility

The University is not responsible for the loss of personal property. A Lost and Found Office is maintained on campus in the University Police Department (<http://police.gwu.edu>).

---

## Graduate

Students enrolled in the University are required to conform to the following regulations and to comply with the requirements and regulations of the school in which they are registered. Students who withdraw or are suspended, or who, for any other reason, are not registered at the University for one semester or

more, may reapply and, if readmitted, continue their program only under the regulations and requirements in force at the time of return.

If a student knowingly makes a false statement or conceals material information on an application for admission or any other University document, the student's registration may be canceled. If such falsification is discovered after the student has matriculated at the University, the student may be subject to dismissal from the University. Such a student will be ineligible (except by special action of the faculty) for subsequent registration in the University.

## Registration

Information on registration procedures is stated on the Office of the Registrar's website (<http://registrar.gwu.edu/how-register>) and in the Schedule of Classes (<http://my.gwu.edu/mod/pws>), which is available in advance of each semester.

Registration in courses is open only to those persons formally admitted to the University by the appropriate admitting office and to continuing students in good standing. Students may not register concurrently in this University and another institution without the prior permission of the advising office of the school in which they are registered in this University. With the exception of students enrolled in a joint degree program, registration in more than one school of the University requires the written permission of the student advising offices concerned, prior to registration. Registration is not complete until all financial obligations have been met. Individuals without a valid registration may not attend class or earn any course credit.

## Eligibility for Registration

Registration for the following categories of on-campus students is held on the days of registration indicated in the Schedule of Classes (<http://my.gwu.edu/mod/pws>). A student who is suspended or whose record is encumbered for any reason is not eligible to register. Registration in a given course may be denied to non-degree students by the Office of Non-Degree Students (<http://www.gwu.edu/non-degree>) when space is needed for degree candidates.

**New Student**—Upon receipt of a letter of admission and payment of any required deposit, new students are eligible for registration on the stated days of registration.

**Readmitted Student**—A student previously registered in the University who was not registered during the preceding semester must apply for and be granted readmission by the appropriate admitting office before being eligible for registration.

**Continuing Student**—A student registered on campus in the immediately preceding semester or the summer session preceding the fall semester is eligible to register assuming good standing and enrollment in a continuing program.

## Completion of Registration

Students who register for courses in any semester or session incur a financial obligation to the University. Registration is not complete until all financial obligations have been fulfilled. Tuition and fees are due and must be paid in full by the first day of the University's fall and spring semesters and summer sessions as indicated on the Academic Calendar (<http://bulletin.gwu.edu/academic-calendar>). Students may be de-registered for non-payment, but failure to drop registration, or to attend classes, does not exempt students from their financial obligation.

## Registration for Consortium Courses

Degree students interested in taking courses at any of the other institutions in the Consortium of Universities of the Washington Metropolitan Area (<https://www.consortium.org>) should consult the program announcements of the other institutions. In order to participate in the Consortium program, students must obtain the approval of an advisor and should ascertain from the department of the institution where the course is taught whether they are eligible for the course and whether there is space in the course. Consortium registration forms and detailed information concerning Consortium policy and procedures are available on the Office of the Registrar's website (<http://registrar.gwu.edu/consortium>). Specific inquiries should be addressed to the Office of the Registrar.

## Adding, Dropping, and Withdrawing from Courses

The following information pertains to courses taught on a traditional 15-week schedule in the fall and spring semesters. Academic deadlines for fall and spring semester courses taught on a traditional schedule are available on the Office of the Registrar's website (<http://registrar.gwu.edu>). Academic deadlines for fall and spring semester courses taught on a non-traditional schedule can be found at the respective school's advising office.

### Dropping and Adding Courses

During the registration period and before the end of the second week of classes, students may add or drop courses using the GWeb Information System. (<http://my.gwu.edu>)

During the third and fourth weeks of classes (after the second week and prior to the end of the fourth week), students may continue to drop courses using the GWeb Information System (<http://my.gwu.edu>). Students who wish to add a course must complete a Registration Transaction Form-EZ (RTF-EZ (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/RTF-EZ.pdf>)) and submit it in person to Colonial Central. Adding a course after the second week of classes requires the signature of the instructor or other authorized member of the department. A course dropped during the first four weeks of classes will not appear on the student's transcript.

After the fourth week of classes, students who wish to add a course must complete a Registration Transaction Form ([https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg\\_transaction\\_form.pdf](https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf)) (RTF) and submit it to their advising office. Adding a course after the fourth week of classes continues to require the signature of the instructor or other authorized member of the department.

### Withdrawing from Courses

A course from which a student withdraws after the fourth week but before the end of the tenth week will be assigned a notation of *W* (Authorized Withdrawal). The deadline for withdrawing from a course is the end of the tenth week of classes in the fall and spring semesters.

After the end of the tenth week of classes, graduate students who wish to withdraw from any or all of their courses must submit a petition, along with substantial supporting documentation, to their advising office for consideration. Submission of a petition does not guarantee approval. Appropriate withdrawal forms are available online (<http://registrar.gwu.edu/forms>). Failure to withdraw by the stated deadlines can result in an extended financial obligation and the recording of a grade of *F* (Failure) or a notation of *Z* (Unauthorized Withdrawal).

All charges for courses from which a student withdraws are subject to the refund policy listed under Fees and Financial Regulations (<http://bulletin.gwu.edu/fees-financial-regulations>) in this Bulletin.

## Changes in Program of Study

*Changes Within a School*—A student may not substitute one course for another within an established program of study or change status from credit to audit or from audit to credit without the approval of the advising office of the school in which they are registered. Change from one major field to another within the same school may be made with the approval of the advising office.

*Graduate Transfer Within the University*—Application for transfer to another school must be made to the appropriate admitting office on the form provided by the office concerned.

## Grades

Grades are made available to students through the Office of the Registrar (<http://registrar.gwu.edu>) after the close of each semester.

## Graduate Student Grading System

The following grading system is used for graduate students: *A*, Excellent; *B*, Good; *C*, Satisfactory; *F*, Fail; other grades that may be assigned are *A-*, *B+*, *B-*, *C+*, *C-*. Symbols that may appear include *AU*, Audit; *I*, Incomplete; *IPG*, In Progress; *W*, Authorized Withdrawal; *Z*, Unauthorized Withdrawal; *CR*, Credit; *NC*, No Credit.

*Unauthorized Withdrawal* –The symbol of Z is assigned when students are registered for a course that they have not attended or have attended only briefly, and in which they have done no graded work. The symbol of Z is not a grade but an administrative notation.

Except for courses that specifically state that repetition for credit is permitted, a candidate for a degree at this University may not repeat a course in which a grade of C– or above was received, unless required to do so by the department concerned. A written statement, indicating that the student is required to repeat the course, must be submitted to the student's advising office by the appropriate department chair.

## Assignment of Credits

A total of 37.5 hours of work per semester is required for each credit earned. Work for 1 credit consists of 50 minutes of direct or guided interaction, or one laboratory period, or 1.5 hours of studio class, plus 100 minutes of independent learning per week during the course of a normal 15-week semester, which includes one week for examinations. Other combinations of time are possible, where appropriate (for example, as a higher proportion of instructional/interactional time for a laboratory or a lower proportion of instructional/interactional time for independent research). Class and study time may exceed these minimums to ensure that students meet course learning goals. See the full policy ([https://provost.gwu.edu/files/downloads/Resources/Assignment-of-Credit-Hours\\_Final\\_Oct-2016.pdf](https://provost.gwu.edu/files/downloads/Resources/Assignment-of-Credit-Hours_Final_Oct-2016.pdf)) for additional information.

## Incompletes

The symbol I (Incomplete) indicates that a satisfactory explanation has been given to the instructor for the student's inability to complete the required work of the course during the semester of enrollment. At the option of the instructor, the symbol I may be recorded if a student, for reasons beyond the student's control, is unable to complete the work of the course, and if the instructor is informed of, and approves, such reasons before the date when grades must be reported. This symbol may be used only if the student's prior performance and class attendance in the course have been satisfactory. Any failure to complete the work of a course that is not satisfactorily explained to the instructor before the date when grades must be turned in will be graded F, Failure. If acceptable reasons are later presented to the instructor, that instructor may initiate an appropriate grade change, which in all cases will include the symbol I. The work must be completed within the designated time period agreed upon by the instructor, student, and school, but no more than one calendar year from the end of the semester in which the course was taken. All students who receive an Incomplete must maintain active student status during the subsequent semester(s) in which the work of the course is being completed. If not registered in other courses during this period, the student must register for continuous enrollment status.

When work for the course is completed, the instructor will complete a grade change form and turn it in to the Office of the Registrar. Beginning with courses taken in the fall 2014 semester, the final grade will replace the symbol of I. If work for the course is not completed within the designated time, the grade will be converted automatically to a grade of F, Failure, 0 quality points, and the grade-point average and academic standing recalculated.

## The Grade-Point Average

The following credit values are used in computing the graduate grade-point average: A, 4.0; A–, 3.7; B+, 3.3; B, 3.0; B–, 2.7; C+, 2.3; C, 2.0; C–, 1.7; D, 1.0; F, 0.0. Quality points are computed based on the credit value for each credit taken. Quality points divided by the number of credits for which the student has registered as a degree-seeking student equals the GPA. Both quality points and credits used in this calculation are based on the student's record in this university.

Although credit value for a course in which a grade of F is earned appears on the transcript for the purpose of calculating the grade-point average, no academic credit is awarded. In the case of a student who is allowed to repeat a course, the first grade received remains on the student's record and is included in the grade-point average. Courses marked AU, CR/NC, I, IPG, W, or Z are not considered in determining the average; however, once a final grade is recorded for a course originally marked I, the grade will be considered in that determination. With the exception of Consortium courses, grades in courses taken at other institutions are not considered in computing the grade-point average.

## Eligibility for Graduation

Degrees are conferred in January, May, and August. To be eligible for graduation a student must have met the admission requirements of the school in which registered; completed satisfactorily the scholarship, curriculum, residence, and other requirements for the degree as stated in this bulletin; filed an application for graduation by the published deadline date; and be free from all indebtedness to the University. Enrollment is required for the semester or summer at the close of which the degree is to be conferred, and all degree requirements must be completed by the last day of final examinations for that semester or summer session.

The minimum cumulative grade-point average required for graduation is 3.0 for graduate students.

*Columbian College of Arts and Sciences (CCAS) graduate students*—For the purpose of graduation from the University, CCAS graduate students must maintain a minimum cumulative grade-point average of 3.0 in coursework counting toward the degree program.

## Participation in the Commencement Ceremony

Participation in the annual commencement ceremony held in May is open to students who have applied to graduate in the current spring semester or who graduated the preceding fall

semester or summer session. With the exception of doctoral candidates, all graduate students who need no more than 9 credit to complete their degree requirements, may participate in May commencement ceremonies if there is a reasonable expectation that they will be able to obtain the needed credits during the following summer. The maximum of 9 credits is firm and not subject to petition.

## Graduate Thesis or Dissertation

Graduate students whose program includes a thesis or dissertation must meet the following Electronic Theses and Dissertations (ETD) deadlines for graduation in the respective semesters: for theses, May 15 for spring, January 15 for fall, and August 15 for summer; for dissertations, April 1 for spring, January 15 for fall, and August 15 for summer.

Doctoral candidates who have not successfully defended their dissertation and met the ETD deadline may not participate in either the May commencement or hooding ceremony.

Students who apply after the published deadlines are not guaranteed commencement materials. Summer graduates who elect to attend the preceding May ceremony must apply for graduation no later than February 1.

*Graduate Thesis or Dissertation*—A thesis or dissertation submitted in partial fulfillment of requirements for a degree must be presented in its final form by the deadline set by the school concerned. Accepted theses and dissertations, with accompanying files, become the property of the University. Accepted theses and dissertations are submitted electronically; the student pays a processing fee directly to Proquest/UMI. See the appropriate school in this Bulletin for regulations governing theses and dissertations.

## Academic Workload

Graduate students should consult with their program's advising office to determine an academic workload that meets the requirements for their degree program.

## Study Abroad

Graduate students who wish to study abroad should consult their program's advising office.

## Continuous Enrollment Status

Once entered in a degree program, a student is expected to be continuously enrolled and actively engaged in fulfilling the requirements for the degree each semester of the academic year until such time as the degree is conferred. A student is considered to be continuously enrolled when registered for courses through GW or when registered for continuous enrollment and engaged in and appropriately registered for activities such as the following, with the prior approval of the school in which the student is enrolled: cooperative work semester; study abroad program; attendance at another institution with prior approval to have work transferred back to the GW program; completion of outstanding work in courses in which a grade of Incomplete or In Progress was received;

or non-course instructional activities unique to the particular school. This status is generally limited to one year. Should the student break continuous enrollment at the University and not request and be granted a leave of absence (see below), they must apply for readmission and, if granted, be subject to the requirements and regulations then in force.

## Leave of Absence

A degree student who finds it necessary to interrupt active pursuit of the degree may petition their advising office for a leave of absence for a specific period of time, generally limited to one calendar year. A degree student who discontinues active enrollment in degree studies without being granted a leave of absence, or a student granted a leave who does not return to active study at the close of the period of approved absence, must apply for readmission and be subject to the regulations and requirements then in force. The right to use of University facilities is suspended while the leave is in effect.

## Policy Regarding Students Called to Active Military Duty

Any student who is a member of a military reserve unit or the National Guard and is activated or called to active duty early in a semester or summer session automatically will be entitled to a full refund of all tuition and fees that they have paid toward the expenses of that academic term. If the notification of the call to active duty comes after the mid-term examinations or after other substantial graded work has been completed, the student will have the option of either taking a full refund of tuition and fees or taking an Incomplete in their courses with the privilege of returning to complete all required coursework at some future date without payment of any further tuition and fee charges. It is the responsibility of the student to present evidence of their activation to the Office of Student Accounts (<http://studentaccounts.gwu.edu>) and to request the appropriate refund.

Should a degree student called up for active duty find it necessary to interrupt active pursuit of the degree, the student may petition their advising office for a leave of absence for a specified period, generally limited to one calendar year. Student advisors are encouraged to grant any request to extend the leave of absence for longer than the customary period should military service require an absence of more than one year.

## Complete Withdrawal from the University

A degree-seeking student who wishes to withdraw from all courses during a given semester must complete a Complete Withdrawal Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/completewithdrawal.pdf>) and submit it to the Office of the Registrar (<http://registrar.gwu.edu>). Forms are available on line, at advising offices, and in the Office of the Registrar. The deadline for complete withdrawal from all courses is the end of the tenth week of classes. Complete withdrawal after

the tenth week requires a petition to the student's advising office. Submission of a petition does not guarantee approval.

All charges for courses from which the student withdraws are subject to the refund policy found at the Office of the Registrar's website (<https://registrar.gwu.edu/withdrawals-refunds>). Failure to complete a Complete Withdrawal Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/completewithdrawal.pdf>) can result in an extended financial obligation and the recording of grades of F (Failure) or notations of Z (Unauthorized Withdrawal).

## Non-Degree Students

The Office of Non-Degree Students (<http://www.gwu.edu/non-degree>) makes credit-bearing courses available to those who are not degree candidates at GW and to students who have been admitted to the University for a future semester. Non-degree students may enroll for a maximum of 12 credits per semester at the graduate level, except in special circumstances as approved by the Director of the Office of Non-Degree Students. Special program credit limits may vary. A limited number of credits taken as a non-degree student may be applied toward a GW degree program, subject to determination by the school or college that offers the program. Some medical and law courses are available to non-degree students. Contact the Law School (<https://www.law.gwu.edu/information-non-degree-students>) or School of Medicine and Health Sciences (<https://smhs.gwu.edu>) for more information.

Non-degree applicants must have appropriate academic preparation prior to enrollment. This includes course prerequisites, which are specified in course descriptions in this Bulletin. An applicant who previously attended this or another institution of higher education must be in good standing prior to enrolling as a non-degree student. The University determines, on a case-by-case basis, whether an applicant who has been suspended or dismissed from any educational institution is eligible to enroll as a non-degree student. An applicant who has been denied admission to any school or college of this university is not eligible to enroll as a non-degree student for the same semester for which the application was denied. The University reserves the right, at its sole discretion, to deny admission to any applicant if the University determines that admission is not in the best interest of either the applicant or the University. Application and registration information is available on the Office of Non-Degree Students (<https://www.gwu.edu/non-degree>) website. Non-degree students are subject to enrollment, withdrawal, and refund policies stated on the Office of the Registrar (<https://registrar.gwu.edu/non-degree-students>) website.

## University Policies and Definitions

### Right to Change Rules and Programs

The University reserves the right to modify or change requirements, rules, and fees. Such regulations shall go into force whenever the proper authorities may determine. The

University reserves the right to make changes in programs without notice whenever circumstances warrant such changes.

### University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the University, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the University's Office of Equal Employment Opportunity and Affirmative Action (<http://hr.gwu.edu/equal-employment-opportunity>) at (202) 994-9656. Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission, or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the University's Title IX Coordinator, the Vice Provost for Diversity, Equity, and Community Engagement at (<http://diversity.gwu.edu>)(202) 994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the University's Disability Services Coordinators (<https://disabilitysupport.gwu.edu/our-team>). Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students at (202) 994-6710; and other members of the University community may contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at (202) 994-8250 or [dss@gwu.edu](mailto:dss@gwu.edu). Employees and other members of the University community should contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9656 or [eeo@gwu.edu](mailto:eeo@gwu.edu).

### Academic Integrity

The University community, in order to fulfill its purposes, must establish and maintain guidelines of academic behavior. All members of the community are expected to exhibit honesty and competence in their academic work. Incoming students have a special responsibility to acquaint themselves with, and make use of, all proper procedures for conducting research, writing papers, and taking examinations. Members of the community will be presumed to be familiar with the proper academic procedures and held responsible for applying them. Deliberate failure to act in accordance with such procedures

will be considered academic dishonesty. Acts of academic dishonesty are a legal, moral, and intellectual offense against the community and will be prosecuted through the proper University channels. The University Code of Academic Integrity can be found at the Office of Academic Integrity (<https://studentconduct.gwu.edu/code-academic-integrity>) at (202) 994-1977.

### **Patent and Copyright Policies**

Students who produce creative works or make scientific discoveries while employed or supported by the University or through substantial use of University resources are subject to the University's patent and copyright policies. See The Office of the Vice President for Research (<https://research.gwu.edu>).

### **Human Research Requirements**

Students who are planning to conduct research involving the use of human subjects (for a thesis, dissertation, journal article, poster session, etc.) must obtain Institutional Review Board (IRB) (<https://humanresearch.gwu.edu>) approval before collecting any data. For more information see The Office of the Vice President for Research (<http://research.gwu.edu>).

### **English for Academic Purposes**

Undergraduate international students whose TOEFL, IELTS, or PTE scores fall below established cut-off points are required to take one or more courses in the English for Academic Purposes (EAP) program. Undergraduate students receive credit for EAP courses. For detailed information concerning this requirement consult the English for Academic Purposes Program website (<http://eap.columbian.gwu.edu/placement-eap-courses>).

### **Name of Record**

A student's name of record includes the first name, middle initial or full middle name, and the family name. Nicknames may not be used. The University will change the name of a currently enrolled student on its official records but will require satisfactory evidence of a legal basis for the change. The diploma is awarded under the official name of record at the time of graduation.

### **Attendance**

Students may attend only those courses for which they are officially registered. Regular attendance is expected. Students may be dropped from any course for undue absence. A student suspended for any cause may not attend classes during the period of suspension. Students are held responsible for all of the work of the courses in which they are registered, and all absences must be excused by the instructor before provision is made to make up the work missed.

### **Credit**

A credit hour may be defined as one 50-minute class period, one laboratory period, or 1.5 hours of studio class a week for one semester. Credit is given only after completion of registration in a course and satisfactory completion of the required work, or upon the assignment of advanced standing in accordance with the regulations of the school concerned.

Credit that has been applied to the completion of a degree may not subsequently be applied to another degree.

### **Auditing**

A person who has been admitted to the University may be registered, with the permission of the instructor, as an auditor in a course (no academic credit). An auditor is not required to take active part or to pass examinations. A student who takes a course as an auditor may not repeat it later for credit. Tuition is charged at the prevailing rate. A student may not change from audit to credit status or vice versa after the end of the eighth week of classes.

### **Earning Transfer Credit after Matriculation**

All students who plan to attend another institution while enrolled at GW and apply credits earned at that institution toward GW degree requirements must complete an Undergraduate Transfer Credit Approval Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/transfercredit.pdf>) and secure the written approval from the GW department that offers a comparable course and from the student's advising office. With the exception of credits earned from GW study abroad and study away programs, no more than 9 credits or three courses may be transferred from colleges or universities after matriculation.

### **Transcripts of Record**

Official transcripts of student records are issued upon written request of the student or former student who has paid all charges, including any student loan installments, due the University at the time of the request. A nominal fee is charged for each official transcript. Unofficial copies of transcripts are available to students, by written request, at a nominal fee. Partial transcripts are not issued. Students have access to their unofficial student record through the GWeb Information System ([https://banweb.gwu.edu/PRODCartridge/twbkwbis.P\\_WWWLogin](https://banweb.gwu.edu/PRODCartridge/twbkwbis.P_WWWLogin)).

### **Student Conduct**

All students, upon enrolling and while attending this University, are subject to the provisions of the *Guide to Student Rights and Responsibilities*, which outlines student freedoms and responsibilities of conduct, including the Code of Student Conduct (<http://studentconduct.gwu.edu/code-student-conduct>), and other policies and regulations as adopted and promulgated by appropriate University authorities. Copies of these documents may be obtained from the Office of the Dean of Student Affairs (<http://students.gwu.edu>) or from advising offices. Sanctions for violation of these regulations may include permanent expulsion from the University. Regulations or requirements applicable only to a particular program, facility, or class of students may not be published generally, but such regulations or requirements shall be published in a manner reasonably calculated to inform affected students.

### **Right to Dismiss Students**

The University reserves the right to dismiss or exclude any student from the University, or from any course or courses,

whenever, in the interest of the student or the University, the University Administration deems it advisable.

### University Policy on the Release of Student Information

The Family Educational Rights and Privacy Act (FERPA) (<http://registrar.gwu.edu/university-policies/#ferpa>) applies to institutional policies governing access to and release of student education records.

The University may release the following directory information upon request: name, local address including e-mail, and telephone number; name and address of emergency contact; dates of attendance; school of enrollment; field of study; enrollment status; credits earned; degrees earned; honors received; participation in University-recognized organizations and activities (including intercollegiate athletics); and height, weight, and age of members of athletic teams, as well as likenesses used in University publications. Date of birth will be considered directory information only for the purpose of complying with applicable laws. A student who does not wish such directory information released must file written notice to this effect in the Office of the Registrar (<http://registrar.gwu.edu>).

The University's full policy statement on the release of student information is published in the *Guide to Student Rights and Responsibilities*, available in the Office of the Dean of Student Affairs or the offices of the academic deans. The full statement also appears on the Office of the Registrar's website.

### Student Identification Number/Social Security Number

The University has converted from use of the Social Security Number (SSN) to identify records pertaining to individual students, although the SSN is still needed to identify the student for purposes of financial aid eligibility and disbursement and repayment of financial aid and other debts payable to the University. The SSN is required when applying for financial aid. The Internal Revenue Service requires the University to file information that includes a student's SSN and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used to help determine whether a student, or a person claiming a student as a dependent, may take credit or deduction to reduce federal and/or state income taxes. Many efforts are made to protect the privacy of this number, and a student may request an alternate personal identifier. Further information may be obtained by contacting the Office of the Registrar.

### Property Responsibility

The University is not responsible for the loss of personal property. A Lost and Found Office is maintained on campus in the University Police Department (<http://police.gwu.edu>).

## UNIVERSITY GENERAL EDUCATION REQUIREMENT

The general education curriculum engages students in active intellectual inquiry across the liberal arts. Students achieve

a set of learning outcomes that meaningfully enhance their analytical skills, develop communication competencies, and familiarize them with modes of inquiry. Coursework for the university general education curriculum includes 19 credits in approved courses in writing, natural or physical science, mathematics or statistics, social science, and the humanities, plus two writing in the disciplines courses.

The distribution for the University General Education Requirement is set out below, along with the list of approved courses in each area. Students should check the approved list before registering for classes. Questions about requirements should be addressed to a professional academic advisor.

### Written Communication

- One course in university writing
- Two writing in the disciplines (WID) courses. WID course offerings can be found on the University Writing Program website (<https://writingprogram.gwu.edu>)

### Critical, Creative, or Quantitative Analysis in the Social Sciences

- Two courses in the social sciences

### Scientific Reasoning

- One natural or physical science course with laboratory experience

### Critical or Creative Analysis in the Humanities

- One course in the humanities

### Quantitative Reasoning

- One course in either mathematics or statistics

# UNDERGRADUATE ADMISSIONS

The goal of GW's Office of Undergraduate Admissions (<http://undergraduate.admissions.gwu.edu>) is to create a community of students who pursue academic excellence, thrive in a dynamic environment, and make lasting contributions to GW and the world. In order to identify these students, the admissions review process is holistic and thoughtful, taking many factors into consideration. GW receives applications from every state and nearly 100 countries, allowing us to enroll a bright, talented, and diverse student body.

The Office of Undergraduate Admissions recruits students for Columbian College of Arts and Sciences (including Corcoran School of the Arts and Design and School of Media and Public Affairs), Elliott School of International Affairs, School of Business, School of Engineering and Applied Science, and the Milken Institute School of Public Health. Other schools/colleges at GW have their own admissions offices and policies.

## Freshmen–Early Decision

The University offers two Early Decision options for students who have chosen GW as their first choice school. The deadline for submission of all required documents is November 1 for Early Decision I and January 5 for Early Decision II. Both Early Decision options are binding; if admitted, students agree to attend GW, submit a nonrefundable enrollment deposit by the deadline detailed in their acceptance packet, and withdraw all applications submitted to other colleges.

## Freshmen–Regular Decision

The Regular Decision application deadline is January 5. A complete application file, including the Common Application and writing supplement, official secondary school transcript/academic record, counselor recommendation, teacher recommendation, and application fee must be submitted by that date. The secondary school transcript must be submitted to GW directly from the school in order to be considered official. Incoming freshmen must have their secondary school submit a final transcript that shows all final grades and certification of graduation before enrolling at GW in the fall semester. Failure to submit an official final high school transcript to the Undergraduate Admissions Office could impact a student's ability to move into on-campus housing.

## Portfolio Requirement

Applicants for admission to bachelor of fine arts (BFA) programs in the Corcoran School of the Arts and Design (<http://corcoran.gwu.edu>) (except for the BFA in interior architecture) are required to submit a portfolio of 10 to 15 completed works of art as part of the application process. Once a student indicates an interest in a BFA program at the Corcoran School on their Common Application, they are directed to a third-party website, SlideRoom, to submit their portfolio. The Undergraduate Admissions Office reviews

portfolios only for students who are applying to a BFA program.

## Entrance Examinations

As a test-optional institution, GW allows most applicants to decide whether to submit scores on either the College Board Scholastic Assessment Test ([https://sat.collegeboard.org/SAT/next-steps-toward-college?s\\_kwcid=AL%214330%213%2170927704644%21b%21%21g%21%21collegeboard&ef\\_id=VYB-rgAABKpqtRg9:20150831144404:s](https://sat.collegeboard.org/SAT/next-steps-toward-college?s_kwcid=AL%214330%213%2170927704644%21b%21%21g%21%21collegeboard&ef_id=VYB-rgAABKpqtRg9:20150831144404:s)) (SAT) or on the American College Testing (<http://www.act.org>) (ACT) to be included in their application.

This test-optional policy does not apply to the following groups of applicants:

- Applicants to the accelerated seven-year BA/MD program; such students also are required to submit SAT Subject Tests in mathematics and science.
- Applicants who are homeschooled.
- Applicants from secondary schools that provide only narrative evaluations rather than grades based on some form of grading scale.
- Recruited NCAA Division I athletes.

Students who choose to submit scores must have them sent by the testing agency directly to the Office of Undergraduate Admissions. All entering students who have scores are asked to submit these scores to GW prior to enrolling for their freshman year.

## International Students

In addition to the Common Application and the supporting credentials listed above, international students must submit the following documents in order to be considered for admission:

### Required Records

International students must have all previously attended educational institutions send copies of official certificates and records listing subjects studied, examinations taken, grades received, and degrees received directly to the Office of Undergraduate Admissions. Certified copies of diplomas and certificates from all secondary schools, colleges, and universities attended as well as records of state examinations and certificates are also required. These records become the property of the University and cannot be returned. In addition, documents must be in the language in which the institution keeps its official records. If they are in a language other than English, the copies sent must be accompanied by a certified English translation. Documents must be submitted for the years of 9th through 12th grades or the equivalent in countries other than the United States.

### Language Tests

Applicants who indicate on their Common Application that their first language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL),

the International English Language Testing System (IELTS), or the PTE Academic, regardless of citizenship or country of residence. The minimum required scores are 90 on the Internet-based TOEFL and 6.5 on the IELTS; however, strong applicants to GW typically score much higher than the required minimums, and scores of at least 100 on the TOEFL and 7.0 on the IELTS are recommended. The TOEFL/IELTS/PTE Academic requirement may be waived for applicants who score 650 or above on the Critical Reading section of the SAT or a 29 or above on the Reading section of the ACT. The Office of Undergraduate Admissions may, at its discretion, require additional English language proficiency results for students who have taken ESL/ELL courses in their high school.

Students should plan to take the test in question well in advance of the application deadline in order for scores to be available in time and should request to have the scores sent to the GW Office of Undergraduate Admissions directly from the testing agency. TOEFL scores more than two years old are not be considered valid.

GW's application review process is holistic, paying close attention to the strength of the student's high school curriculum and achievement in the classroom over time. The University reserves the right to make exceptions to the stated English proficiency standards, or to waive submission of required official test results, when considering a student's candidacy for admission.

If a student's application suggests that they might benefit from additional English language support, they may be required to take additional English language courses at GW through the University's English for Academic Purposes (EAP) Program (<http://eap.columbian.gwu.edu>).

### Financial Certification

All international students planning to study on either a student (F) visa or exchange visitor (J) visa must complete and submit a George Washington University financial certificate. The completed and signed financial certificate and a bank letter are required for the issuance of Form I-20 or DS-2019, one of which is needed to apply for the F or J visas.

## Transfer Students

GW considers for transfer admission any student who has completed at least one college course since secondary school graduation. Transfer applicants must submit the Common Application and supporting credentials (including official college transcripts, the Transfer College Report for each institution attended, and a faculty recommendation) by April 15 for fall admission and October 15 for spring admission.

Transfer applicants must be in good standing in terms of academic record and conduct at all post-secondary institutions previously attended. Applicants who have attended one or more institutions of higher education must submit official transcripts from each institution even if credit was not sought or earned or if advanced standing is not desired. In addition,

applicants must submit an official secondary school transcript if they have earned fewer than 30 credits at the time of application. Prior to enrolling at GW, incoming transfer students must submit final official transcripts with grades for all courses pursued from any college or university previously attended.

All international transcripts must be evaluated by a professional evaluation agency and include an English translation if the transcript is in a language other than English. It is the sole responsibility of the student to obtain and cover the cost of this service. GW's Office of Undergraduate Admissions accepts evaluations from any company recognized by the National Association of Credential Evaluation Services (NACES) ([www.naces.org](http://www.naces.org)) but recommends the World Education Services ([www.wes.org](http://www.wes.org)) and Educational Credential Evaluators ([www.ece.org](http://www.ece.org)).

### Assignment of Credit for Transfer Students

Note: Separate policies (<http://bulletin.gwu.edu/university-regulations/assignment-of-credit-for-transfer-students>) apply to undergraduate programs in the School of Nursing, School of Medicine and Health Sciences, and College of Professional Studies.

Provided there is no duplication involved through coursework or examination, domestic transfer credit may be granted for coursework successfully completed at other regionally accredited institutions of higher learning. International transfer credit may be granted for coursework successfully completed at an institution of higher learning recognized by the relevant country's ministry of education or equivalent body. Transfer credit is not awarded for the Joint Services Transcript (JST) to undergraduate students admitted to these schools.

Assignment of transfer credit depends on the grade earned, the appropriateness of the coursework, the standing of the institution at which the coursework was completed, and the regulations of the school or college to which the student is transferring. Coursework completed at another institution must have received a minimum grade of C- to be accepted for transfer credit.

While there is no limit to the number of credits that can be transferred to the University, GW's residence requirement limits the number of transfer credits that can be applied toward a degree. Students must complete at least 60 credits of the total credits required for their degree at or through the University. Credits earned through GW study abroad, GW satellite campuses, GW distance education, and the Consortium of Universities of the Washington Metropolitan Area are treated as in residence.

Transfer credit must satisfy the requirements for the degree sought as stated in this Bulletin. The University reserves the right to determine course equivalency and degree applicability. Transfer credit is not assigned for coursework completed in vocational/technical programs (e.g., secretarial studies) or

sub-freshman level remedial work. Each GW school or college reserves the right to refuse credit for transfer in whole or in part. If a grade earned in a course is below the minimum to be accepted for transfer credit, the course may satisfy a curriculum requirement.

Transfer credit that is accepted and applied to a student's GW academic record counts toward the number of credits completed only. The grades from these courses are not used in calculating a student's GW grade-point average.

See separate policies (<http://bulletin.gwu.edu/university-regulations/assignment-of-credit-for-transfer-students>) applicable to undergraduate programs in the School of Nursing, School of Medicine and Health Sciences, and College of Professional Studies.

## Advanced Standing and Advanced Placement

Assuming there is no duplication of coursework, a maximum of 24 credits may be awarded upon admission to the University for any combination of Advanced Placement (AP) and International Baccalaureate (IB) examinations. An incoming student also may be granted advanced placement in a sequence of courses or waiver of a course requirement based on additional college-level coursework taken in secondary school or before matriculation; however, this does not affect the number of credits needed for the degree.

### College Board Advanced Placement (<https://apstudent.collegeboard.org/home>) (AP) Tests

Credit may be awarded for Advanced Placement tests with certain score results, typically 4s and 5s. (Refer to the GW Undergraduate Admissions website for the AP credit assignment chart (<https://undergraduate.admissions.gwu.edu/bring-credits-gw>.) Students must have AP score reports sent directly from the College Board to the Office of Undergraduate Admissions.

### International Baccalaureate (<http://www.ibo.org>) (IB)

GW typically awards 6 to 8 credits for scores of 6 or 7 on the higher-level examinations. (Refer to the GW Undergraduate Admissions website for the IB credit assignment chart (<https://undergraduate.admissions.gwu.edu/bring-credits-gw>.) Students must have IB score reports sent directly from International Baccalaureate to the Office of Undergraduate Admissions.

## Enrollment Deposit

After notification of admission, all new undergraduate students are required to submit a nonrefundable enrollment deposit. This deposit is due May 1 for freshmen. For transfer students and full-time readmitted students, the deposit usually is due two to three weeks after notification of admission.

## Readmission

This policy is in effect for students previously enrolled in and wishing to return to Columbian College of Arts and Sciences (including Corcoran School of the Arts and Design and School

of Media and Public Affairs), Elliott School of International Affairs, School of Business, School of Engineering and Applied Science, and the Milken Institute School of Public Health. A student wishing to enroll in another GW school or college should refer to that school/college's readmission policy. Students who previously were registered at GW who wish to resume studies at the University after discontinuing enrollment for one or more semesters (summer sessions and leaves of absence excluded) must apply for readmission. Deadlines for applications for readmission from students in good academic standing are March 15 for the fall semester and October 31 for the spring semester. Students seeking readmission must have official transcripts sent to the Office of Undergraduate Admissions from all other institutions of higher education they attended in the interim. Students seeking readmission as degree candidates after previous enrollment in non-degree status at GW must submit the Common Application and all required credentials that were not submitted previously or required for non-degree admission.

Applicants for readmission are subject to the University regulations in effect at the time of readmission. The application fee is waived for students applying for readmission after previous enrollment as a degree candidate.

## ADVANCED PLACEMENT EQUIVALENTS

Assuming there is no duplication of coursework, a maximum of 24 credits may be awarded on the basis of work completed while enrolled in high school through examinations such as AP, IB, and A-Levels.

## Credit through Examination

In order to receive credit for College Board Advanced Placement (AP) examinations, students must have official score results forwarded directly to GW Office of Undergraduate Admission from the College Board. GW's College Board code is 5246.

Be aware that credit earned by examination at other colleges or universities or examinations taken after having taken the appropriate college-level course will not transfer credit to GW.

Please refer to the following charts for GW's course equivalents:

## Advanced Placement Equivalents

Advanced Placement (AP) Examination	Score	Credits Awarded	GW Course Equivalent
<b>Arts</b>

\*If there is no direct GW course equivalent, credits are transferred in using course number 1099 under the appropriate departmental designation.

The University reserves the right to change its International Baccalaureate Equivalents policy without advance notice.

# FEES AND FINANCIAL REGULATIONS

The following fees and financial regulations were adopted for the academic year 2018-19. Information on tuition and fees for the summer is available on the Summer and Special Programs website (<http://summer.gwu.edu>).

## Tuition

For undergraduates entering GW in academic year 2018-19, the University continues its fixed-rate tuition plan, with the following academic-year tuition guaranteed not to increase for up to five years of full-time\* undergraduate study: \$ \$55,140 for students entering Columbian College of Arts and Sciences, GW School of Business, Elliott School of International Affairs, Milken Institute School of Public Health, and School of Engineering and Applied Science.

The fixed-rate tuition remains in effect as previously stated for undergraduates in the schools listed above: for those who entered GW in 2017-18 (\$53,435); 2016-17 (\$51,875); 2015-16 (\$50,367); and 2014-15 (\$48,700).

Half-time and part-time undergraduate students are charged \$1,575 per credit. Non-degree students are charged \$1,630.

Tuition stated here excludes undergraduate programs in professional studies, nursing, and health sciences; consult the College of Professional Studies, School of Nursing, or the Office of Health Sciences Programs in the School of Medicine and Health Sciences for applicable rates.

Tuition for students admitted to the BA/MD program are indicated in the letter of admission.

The schedule of tuition and fees adopted for graduate programs for the academic year 2018-19 appears on the Students Accounts Office website (<http://studentaccounts.gwu.edu>).

\* A full-time program is defined as 12 to 17 credits per semester. Undergraduates taking more than 17 credits per semester will be charged at the rate of 1 credit for each credit exceeding that limit with the following exceptions:

1. Undergraduates are not charged for an eighteenth credit if their program includes University Writing (UW 1020 (<http://bulletin.gwu.edu/search/?P=UW%201020>)).
2. Honors students are not charged for the eighteenth credit in their freshman and sophomore year.
3. Students in the School of Engineering and Applied Science are not charged for the eighteenth and nineteenth credits if required by their program.

## Student Association Fee

The student association fee is fixed, in keeping with the fixed-rate tuition plan. Undergraduate students entering in the

fall 2018 semester and all graduate students are assessed a nonrefundable student association fee of \$3.00 per credit to a maximum of \$45.00 per semester. Returning undergraduate students are assessed the fee as follows: for those who entered GW in 2017-18—\$2.75 per credit to a maximum of \$41.25 per semester; 2016-17—\$2.50 per credit to a maximum of \$37.50 per semester; 2015-16—\$2.25 per credit to a maximum of \$33.75 per semester; 2014-15—\$2.00 per credit to a maximum of \$30.00 per semester; 2013-14—\$1.75 per credit to a maximum of \$26.25 per semester; prior to fall 2013—\$1.50 per credit to a maximum of \$22.50 per semester.

Each semester through summer 2018 the student's account is assessed a voluntary gift to support the University libraries. The contribution is voluntary, and the student is provided an opportunity to decline the library gift for the current semester using the online eBill solution. If students do not decline the library gift prior to the last day of finals and/or within two weeks of the gift being assessed, whichever is later, the library gift can no longer be removed.

## Housing and Dining

The fee structures for University housing and dining plans can be found at GW Housing (<http://living.gwu.edu>) and GW Campus Dining (<http://gwcampusdining.com>), respectively.

## Continuing Research

All master's and doctoral students who have completed their required number of credits (including coursework and thesis or dissertation research) must register each subsequent fall and spring semester for 1 credit of Continuing Research as specified by the regulations of the school concerned.

Payment of tuition for thesis or dissertation research entitles the candidate, during the period of registration, to the advice and direction of the member of the faculty under whom the thesis or dissertation is to be written. Accepted dissertations and theses are submitted electronically; the student pays a processing fee directly to Proquest/UMI.

## Additional Course Fees

Some courses carry additional fees, such as a laboratory or material fee, charged by semester as indicated in course descriptions; the amount appears in the Schedule of Classes (<http://my.gwu.edu/mod/pws>).

## Special Fees and Deposits (nonrefundable)

Application fee	\$80
Advance deposit, charged each entering or readmitted full-time undergraduate student	\$800
Matriculation fee, charged each entering full-time undergraduate (matriculation and enrollment fees for graduate students are provided on the Student Accounts Office website)	\$350

International student fee, charged each fall and spring semester to students on F-1 or J-1 visas entering in or after 2016-17	\$45
Late registration beginning the first day of the semester	\$80
Registration for off-campus and online programs	\$35
Late application for graduation; graduation application deadlines are provided on the Office of the Registrar website	\$35
Late payment fees (see Past Due Accounts, below)	\$150
Late authorization fee for third-party payment (see Third-Party Payment, below)	\$100
Returned payment fee, charged a student whose payment is improperly drafted, incomplete, or returned by the bank for any reason	\$35
Electronic transcript fee	\$8
Mailed transcript fee (additional fees may apply for mail services)	\$11
In person pickup transcript fee	\$15
Replacement of lost or stolen picture identification card	\$25
Replacement of diploma	\$50

Note: As of spring 2019 there is no longer a \$35 fee to register for continuous enrollment or leave of absence.

## Study Abroad Fees for Academic Year 2018-19\*

Tier 1 Programs	GW Fixed Rate Tuition + \$825 program fee
Tier 2 Programs	GW Fixed Rate Tuition + \$3,575 program fee
Tier 3 Programs	GW Fixed Rate Tuition + \$5,475 program fee
Tier 4 Programs	GW Fixed Rate Tuition + \$5,975 program fee
Tier 5 Programs	GW Fixed Rate Tuition + \$6,475 program fee
Tier 6 Programs	GW Fixed Rate Tuition + \$6,975 program fee
Tier 7 Programs	GW Fixed Rate Tuition + \$7,775 program fee
Withdrawal Fee	\$575**

\* The fees listed above are for the 2018-19 academic year. Fees for the 2019-20 academic year are subject to change.

\*\* See Office of Study Abroad withdrawal policy (<http://studyabroad.gwu.edu/withdrawal-policy>) for more details.

## Postdoctoral Study

Those who have graduated from George Washington University with a PhD, EdD, DSc, or DEng may continue studies in the University without payment of tuition (contingent

upon the availability of space) and may enjoy all University library privileges. Such graduates pay the prevailing charge for 1 credit in order to establish their active membership in the University. The graduate pays for the use of laboratory or special library material. Special arrangements for such privileges must be made with the dean two months in advance of the semester in which the graduate wishes to register. Post-doctoral work taken under this privilege may not be taken for credit.

## Payment of Tuition and Fees

Students who register for classes in any semester incur a financial obligation to the University. Tuition and fees are due and must be paid in full by the first day of the University semester as indicated on the Academic Calendar (<http://bulletin.gwu.edu/academic-calendar>); students on the monthly payment plan are exempt from this regulation. The University reserves the right to revoke the registration, effective to the beginning of the semester, of any student who fails to make full payment; however, failure to attend classes does not exempt students from their financial obligation. Students whose registration privileges have been disallowed for failure to make timely payments are not permitted to attend classes and may not occupy University housing.

## Monthly Payment Plan

This payment plan is open to all students and is available on a semester basis, with five-month plans for the fall and spring semesters and a three-month plan for the summer session. To participate in the plan, students must apply before the start of the applicable semester. Upon approval of the application, students will be billed monthly for each payment. The monthly payment plan for the fall semester begins in June and ends in October, the spring semester plan begins in November and ends in March, and the summer session plan begins in April and ends in June. Under the plan, all payments are due on the 10th of each month; if payments are received by that date, no interest or late fees will be incurred. Students who enroll in the plan after the first month of scheduled payments must make up all payments retroactive to the month of enrollment as a down payment on the plan. Students enrolled in a monthly payment plan whose planned payments are not sufficient to pay the balance on the student's account are subject to interest and late fees. There is a one-time fee to participate in the plan. No additional fees will be charged while the student is actively participating in the plan; interest and late fees will be charged for missing or late payments. After the first day of the semester, all plans will be updated to reflect the student's actual remaining balance, less pending financial aid. For more information, see the monthly payment plan (<http://studentaccounts.gwu.edu/monthly-payment-plan>).

## Third-Party Payment

The University accepts employer vouchers or purchase orders that are not contingent upon receipt of grades. Under all circumstances, the charges for tuition and fees remain the

responsibility of the student. Authorization from a sponsor to be billed for a student's charges must be received in the Student Accounts Office by the end of the third week of the fall or spring semester. A late authorization fee may be incurred for responses received after the deadline. Bills are mailed to sponsors in October for the fall semester and in February for the spring semester. Should a sponsor fail to remit payment to the University, the University will contact the student for payment. Students whose employers or sponsors reimburse them for tuition and fees after receipt of grades must pay in full before the first day of the semester or at the time of registration to avoid interest, late fees, holds, and/or cancellation of registration. Students whose tuition and fees are paid in full or in part by a third party must pay any remaining balance by the stated due date to avoid interest, late fees, holds, and/or cancellation of registration.

Past Due Accounts

Accounts that are past due are encumbered by the University. A student whose account is encumbered may not register for future semesters, or access grades, housing assignments, diplomas, transcripts, or other University services. Late payment fees and interest also may be assessed each month that the account has an overdue outstanding balance or if payment plan payments are missed. See the University's Tuition Payment Disclosure Statement (<http://studentaccounts.gwu.edu/disclosures>)for more information regarding these fees and billing practices. Accounts that are more than 90 days past due are eligible for collections activity, including referral to a collection agency and/or attorney. Students whose registration privileges have been disallowed for failure to make timely payments are not permitted to attend classes and may not occupy University housing.

Disputes must be submitted to the Student Accounts office within 60 days of the charge being applied. If the University deems the disputed amounts to be correct, the student is liable for any interest and late fees accrued during the review period.

Dishonored/Returned Payments

A student whose payment is returned unpaid by the bank for any reason will be charged a returned payment fee and will be responsible for any associated costs and/or attorney's fees incurred by the University should a civil lawsuit or other collection effort be instituted to collect on such dishonored payment. An account hold will be in place for 10 days after subsequent payment is made. If multiple payments are returned, the University may require all future payments to be made with certified funds. In any case where the University has reason to believe that a student presented a dishonored payment in bad faith, the University may, in addition to any collection efforts, refer the matter to the proper authorities for criminal prosecution.

Withdrawals and Refunds

Applications for withdrawal from the University or from a course after the registration period must be made in accordance with

procedures outlined under University Regulations (p. 25) in the sections *Complete Withdrawal from the University* and *Adding, Dropping, and Withdrawing from Courses*, respectively. Financial aid recipients must notify the Office of Student Financial Assistance (<https://financialaid.gwu.edu>) in writing. The tuition deposit required of entering students will not be refunded.

In the case of authorized withdrawals and changes in registration schedule, cancellations of semester tuition charges and fees will be made in accordance with the following schedule for the fall and spring semesters:

1. Complete withdrawal from all courses (on-campus students):

Withdrawal dated on or before the end of the first week of the semester	90%
Withdrawal dated on or before the end of the second week of the semester	60%
Withdrawal dated on or before the end of the third week of the semester	40%
Withdrawal dated on or before the end of the fourth week of the semester	25%
Withdrawal dated after the fourth week of the semester	None

2. Partial withdrawal: If the change in workload results in a lower tuition charge, the refund schedule above applies to the difference.

3. Regulations governing student withdrawals as they relate to University housing and dining services charges are contained in the specific lease arrangements.

4. Summer sessions: In cases of authorized withdrawals from courses, refunds of 85% of tuition and fees will be made for courses dropped within the first seven calendar days of the start of a session. No refund will be made for courses dropped thereafter.

Certain programs or courses or those with non-traditional semesters may have special refund schedules. Students are encouraged to consult with their program office to determine if a special schedule applies.

Federal regulations require that financial aid recipients use refunds to repay financial aid received for that semester's attendance. This policy applies to institutional aid as well.

If a recipient of federal financial aid withdraws from the University or reduces their workload, federal regulations require that the University reevaluate the student's eligibility to determine the amount of aid the student is allowed to retain. If there is a credit balance on the student's account after the federal funds have been adjusted, institutional funds will be recovered from that amount.

See the University's complete Return of Title IV funds policy (<http://go.gwu.edu/returntitleivpolicy>).

In no case will tuition be reduced or refunded because of the student's absence from classes. Authorization to withdraw and certification for work done will not be provided to a student whose account is not in good standing.

# FINANCIAL AID

## Office of Student Financial Assistance

Location: 800 21st Street NW, Colonial Central, Marvin Center/  
Ground Floor, Washington, DC 20052. Email: [finaid@gwu.edu](mailto:finaid@gwu.edu).  
Phone: 202-994-6620. Online (<https://financialaid.gwu.edu>).

The George Washington University offers financial assistance to all eligible students from a variety of resources. In addition to GW assistance, the University participates in federal student aid programs from the U.S. Department of Education and student financial assistance programs from other U.S. government agencies such as the U.S. Department of Veterans Affairs and the U.S. Department of Defense. Some states offer student financial assistance for undergraduate enrollment at GW.

In general, consideration for student financial assistance is restricted to students in good academic standing at the University who meet minimum grade-point average and satisfactory academic progress requirements for specific awards and not financially encumbered by any other University office. Failure to meet and maintain satisfactory academic progress requirements may result in rescinding of awards.

GW reserves the right to request documentation to determine aid eligibility. Documents submitted as part of the aid application become the property of the University and cannot be returned. Such documents are protected under the Family Educational Rights and Privacy Act (FERPA), as amended. Federal regulation requires the University to report cases of suspected fraud or misrepresentation to appropriate federal, state, and local authorities.

*Gift aid*, such as grants, scholarships, fellowships, is student financial assistance not required to be repaid. Gift aid is taxable under federal regulation to the extent that it exceeds the allowable costs of tuition, fees, and required books and supplies, or is dedicated to other costs such as room and board. Federal grants may be taxable if, together with other gift aid, they exceed allowable costs. For complete information on IRS rules regarding educational costs, see IRS Publication 970, *Tax Benefits for Education*.

*Self-help* aid is aid that students undertake on their own behalf, either in the form of earnings via the Federal Work-Study program or through borrowing. Loans must be repaid.

Eligibility for student aid is processed under cost of attendance budgets for various categories of students, per federal statutory requirements. Refer to the policy on cost of attendance budgets (<http://financialaid.gwu.edu/cost-of-attendance>) for details. A complete student aid package cannot exceed a student's cost of attendance budget. GW will review and potentially adjust awards for students receiving student financial assistance from more than one source. Receipt of student financial assistance from multiple sources cannot exceed tuition charges. If institutional aid is involved, adjustments will be made.

Non-degree and certificate programs that are approved for federal student aid programs must provide "gainful employment" disclosures under federal regulation. Such disclosures are found on the respective academic programs' website. Continued Title IV certification for these programs are reviewed annually.

For complete information on student financial assistance at GW, visit the Office of Student Financial Assistance website (<http://financialaid.gwu.edu>).

---

Information in this section of the Bulletin is accurate as of the date of its publication and is subject to change based on changes in federal and/or state statute, regulation, policies and procedures (which may, in turn, necessitate changes to application procedures and policies). The University reserves the right to change student financial assistance policies.

## UNDERGRADUATE

### Undergraduate Financial Aid

All freshmen automatically are considered for a merit-based scholarship, which is awarded to the most competitive applicants in the applicant pool. Complete information on merit-based awards (awards based on academic criteria) are available on the website of the Office of Undergraduate Admissions (<http://undergraduate.admissions.gwu.edu/scholarships>).

The Office of Student Financial Assistance (<http://financialaid.gwu.edu>) (OSFA) awards various need-based GW institutional financial aid funds: The largest fund awarded is the University and Alumni Award (<http://financialaid.gwu.edu/university-and-alumni-award>). In addition, the Office awards University Scholarships (see the section below) and the One-Year Award (<http://financialaid.gwu.edu/one-year-award>).

The following scholarships programs are also available:

*The J.B. and Maurice C. Shapiro Scholarship to the University of Oxford* is awarded each spring to a graduating senior or recent graduate through a competitive process upon the nominee's acceptance to Oxford. To be eligible, applicants must have applied for the Rhodes or British Marshall Scholarships. All of these competitions require high academic standing, evidence of leadership, and dedication to the larger society through community service. The Shapiro Scholarship provides for up to two years of study at Oxford, equivalent to the Rhodes Scholarship. The J.B. and Maurice C. Shapiro Endowment funds two scholarships per year—one new and one renewal.

*The Bender Scholarship to the University of Cambridge* is funded by an endowment, the Bender Scholarship Fund. The Bender Scholarship is open for competition every other year. Graduating seniors, recent graduates, and third-year law students who participated in the Rhodes and/or British Marshall competitions are eligible for the Bender Scholarship. The

endowed scholarship provides for up to two years of study at the University of Cambridge, equivalent to the British Marshall Scholarship. The Bender Scholarship criteria are high academic achievement, evidence of leadership skills or potential, and community service.

*The Pembroke/CW Program.* GW has a special relationship with Pembroke College in Oxford, whereby up to six GW juniors are placed at the College for one year and enrolled as fully matriculated students of the University of Oxford. These placements are determined in an annual competition that takes place at GW in the fall. The committee evaluating candidates forwards the finalists' applications to Pembroke College, and Pembroke makes the final decision on placements. Many GW students have spent a year at Oxford in this program.

## Need-Based Financial Aid

All freshman and transfer students are required to file both the College Scholarship Service PROFILE (<https://student.collegeboard.org/css-financial-aid-profile>)—which is not an application for funds, but provides a need analysis that many schools use to awards its own funds—and the Free Application for Federal Student Aid (<https://fafsa.ed.gov>) (FAFSA), which is the application for federal student aid programs (and which many states use as application for their own funds). Applicants must designate GW as recipient of their need analysis data. All applicants must also provide to GW directly copies of their signed federal income tax returns and W-2 Forms for the current tax year for the student and the student's parents (if a dependent student). Non-custodial parents are also required to provide disclosures. See policies on Parental Contribution for Dependent Students (<http://financialaid.gwu.edu/policy-parental-contribution-dependent-students>).

Complete application information is available on the OSFA website (<http://financialaid.gwu.edu>) under the section titled "Getting Assistance."

Application deadlines depend on whether a new undergraduate or continuing undergraduate student. See the OSFA website (<http://financialaid.gwu.edu>) for complete details on respective application deadlines (<https://financialaid.gwu.edu/deadlines>).

Students must reapply for any need-based aid, including need-based scholarships, and must meet/maintain satisfactory academic progress requirements per specific student aid program requirements.

### Federal Student Aid Programs

The following federal student aid programs are available to eligible students at GW: Federal Pell Grants (<http://financialaid.gwu.edu/federal-pell-grant>), Federal Supplemental Educational Opportunity Grants (<http://financialaid.gwu.edu/federal-supplemental-educational-opportunity-grant>) (FSEOG), Federal Work-Study (<http://financialaid.gwu.edu/work-study>) (FWS), Federal Direct Stafford Loans ([loans\), Federal Direct PLUS Loans \(<http://financialaid.gwu.edu/federal-direct-parent-plus-loan>\), and TEACH Grants \(<https://gsehd.gwu.edu/admissions/#tuition-and-scholarships>\). The U.S. Department of Education's Federal Student Aid \(<https://studentaid.ed.gov/sa>\) website includes complete program details. We especially recommend that you download, review and retain the various student loan publications from the U.S. Department of Education, which are available on the Federal Student Aid Resources \(<https://studentaid.ed.gov/sa/resources>\) website.](http://financialaid.gwu.edu/federal-direct-</a></p></div><div data-bbox=)

### Federal Direct Stafford Loans

Federal Direct Stafford Loans are student loans from the U.S. Department of Education in which the student is the borrower. Annual loan limits are as follows:

Dependent undergraduates (most students under the age of 24):

- \$5,500 as freshmen (No more than \$3,500 of this amount may be in subsidized loans)
- \$6,500 as sophomores (No more than \$4,500 of this amount may be in subsidized loans)
- \$7,500 as junior and seniors (No more than \$5,500 of this amount may be in subsidized loans)

Independent undergraduates (students 24 years or age and older) and dependent students whose parents are unable to borrow under the Federal Direct PLUS Loan program:

- \$9,500 as freshmen (No more than \$3,500 of this amount may be in subsidized loans)
- \$10,500 as sophomores No more than \$4,500 of this amount may be in subsidized loans)
- \$12,500 as juniors and seniors (No more than \$5,500 of this amount may be in subsidized loans)

Federal student loan programs also have aggregate (lifetime) loan limits (<https://studentaid.ed.gov/sa/types/loans/subsidized-unsubsidized>).

- For **dependent students** (except student whose parents are unable to borrow under the Federal Direct PLUS Loan program), the subsidized and unsubsidized aggregate loan limit is \$31,000, with no more than \$23,000 of this amount being subsidized loans.
- **Independent students** (and dependent undergraduate students whose parents are unable to obtain PLUS Loans) – the undergraduate aggregate loan limit is \$57,500, and no more than \$23,000 of this amount may be in subsidized loans.

For students who receive subsidized Stafford loans as part of their need-based financial aid award, the government pays the interest while they are enrolled in school at least half time and for six months after they leave school. Students ineligible, or only partly eligible, for subsidized funds may apply for an unsubsidized Stafford Loan up to the same limits to cover their family contribution. Terms and conditions are the same, except

that the student borrower is responsible for all interest that accrues on the unsubsidized loan from the date it is disbursed; deferments are available. Independent students (and students whose parents are denied a PLUS loan) are eligible to borrow additional unsubsidized Stafford funds of \$4,000 as freshmen and sophomores and \$5,000 as juniors and seniors.

There are fees associated with both subsidized and unsubsidized Stafford loans. Interest rates and fees are set on an annual basis by federal statute, usually by June 1 and taking effect on July 1 through the following June 30. See the U.S. Department of Education's Federal Student Aid (<https://studentaid.ed.gov/sa/types/loans/interest-rates>) website for up-to-date information on interest rates and associated loan fees.

### **Federal Direct PLUS Loans**

The Federal Direct PLUS Loan is a government-sponsored, credit-based, fixed-rate loan that can be used to supplement the student's Federal Direct Stafford Loan or to help with their family contribution. The U.S. Department of Education is the lender. Each academic year, parents without an adverse credit history may apply for a Federal Direct PLUS loan up to the cost of education, minus financial aid, for each dependent child attending college at least half-time. Loan repayment begins within 60 days of the last disbursement and the maximum repayment term is ten years.

Origination fees are deducted from loan proceeds prior to disbursement. Families who intend to use loan funds for payment of University charges at time of registration should submit a loan application and all supporting documents to OSFA no later than May 1 for the fall semester, October 1 for the spring semester, and March 1 for summer sessions. See the OSFA website (<http://financialaid.gwu.edu/federal-direct-parent-plus-loan>) for details and application procedures. See also The U.S. Department of Education's information on Federal Direct PLUS Loans (<https://studentaid.ed.gov/sa/types/loans/plus>).

### **Private Education Loans**

Private lenders provide additional loan options to qualified students. These loans offer varying interest rates and repayment options. Such loans allow the student to borrow up to 100% of GW's annual undergraduate cost of attendance less any current financial assistance. They typically have variable rates, rates within rate tiers according to credit worthiness, and application fees.

Private education loans must be reported to OSFA to be considered as a resource against federal student aid eligibility, per federal regulation.

Students are strongly advised to consider federal student loans before alternative loans due to the former's generally more favorable interest rates, fees, and repayment options. Consider reviewing the OSFA Private Student Loan Counseling Checklist

(<http://financialaid.gwu.edu/private-student-loan-counseling-checklist>).

### **Other Loan Funds**

GW has several emergency loan funds for degree students with short-term needs. These funds include:

- Jessie B. Martin Loan Fund
- Barney Plotnick, M.D., Student Loan Fund
- University Student Emergency Loan Fund
- Peter and Doris Firsht Loan Fund

For more information and how to apply for emergency loans see the OSFA website (<https://financialaid.gwu.edu/emergency-funding>).

### **Student Employment**

The University participates in the Federal Work-Study Program (<http://financialaid.gwu.edu/work-study>). Students should address questions concerning eligibility to OSFA. GW's Center for Career Services (<http://careerservices.gwu.edu>) handles Federal Work-Study placement and also maintains a registry of both full- and part-time positions available in the DC Metropolitan Area.

### **International Students**

International students are eligible to receive merit scholarship consideration from the Office of Admissions and are automatically considered during the admissions process. Non-U.S. students should check with their home country for potential national and/or local student aid options for enrollment in the United States. Visit the U.S. Department of State's Education USA web-site (<https://educationusa.state.gov>) for a database of potential resources. Private education loans for international students are usually only available with a credit-worthy U.S. co-signer. The Office of Student Financial Assistance uses cost of attendance budgets for the processing of international student financial assistance. Details are available on the OSFA website (<http://financialaid.gwu.edu>).

### **Military Education Financing**

#### **Veterans Education Benefits**

GW's Office of Military and Veteran Student Services processes applications for entitlement payments under the various classes of veterans' educational benefits from the U.S. Department of Veterans Affairs. For more information consult the Office of Military and Veteran Student Services website (<https://services.military.gwu.edu>).

#### **Tuition Assistance Program**

Funds from the various branches of the armed services under the Tuition Assistance Program are processed by the GW Student Accounts Office (<https://studentaccounts.gwu.edu>).

#### **ROTC Scholarships**

Navy ROTC (<http://nrotc.gwu.edu/scholarships>) is available at GW. Army and Air Force ROTC is available at Georgetown

University and Howard University, respectively. All ROTC programs are handled by the GW Student Accounts Office (<https://studentaccounts.gwu.edu>). Further details are available on the Office of Student Financial Aid website (<http://financialaid.gwu.edu/military-educational-benefits>) and from the Office of the Registrar (<http://registrar.gwu.edu/rotc>).

## Required Disclosures and Notices

### University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the university, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the university's Office of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9656, [eeo@gwu.edu](mailto:eeo@gwu.edu). Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission, or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the university's Title IX Coordinator, the Vice Provost for Diversity and Inclusion, 813 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the university's Disability Services Coordinators. Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students, 401 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-6710, and other members of the university community may contact the Executive Director of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at 202-994-8250 or [dss@gwu.edu](mailto:dss@gwu.edu). Employees and other members of the university community should contact the Office of Equal Employment Opportunity and Affirmative Action at 202-994-9656 or [eeo@gwu.edu](mailto:eeo@gwu.edu).

### Availability of U.S. Department of Education Loan Publications

Students pursuing federal student loans are advised to review, download, and retain the loan publications from the U.S. Department of Education which are available on the Federal

Student Aid resources page (<https://studentaid.ed.gov/sa/resources>).

### GW Policy on Student Loans and Code of Conduct

GW does not maintain a preferred lender list and will certify loan presented that requires certification. Refer to GW's HEA-compliant code of conduct for student loans (<http://financialaid.gwu.edu/policy-student-loan-code-conduct>).

### Role of the National Student Loan Data System (NSLDS)

Data on federal student loans and Federal Pell Grants are reported to the National Student Loan Data System (NSLDS), which is accessible by GW and U.S. Department of Education personnel and servicers of federal student loans. Students can access their data on the NSLDS website ([https://www.nsls.ed.gov/nsls/nslds\\_SA](https://www.nsls.ed.gov/nsls/nslds_SA)).

### Title IV Eligibility and Drug Convictions

Under federal law a recipient of Title IV student financial assistance who is convicted for possession and/or sale of illegal drugs while enrolled as a student at GW will be ineligible for further Title IV funds for a fixed period of time. Refer to the University's complete policy on the Impact of Drug Conviction on Title IV eligibility (<http://financialaid.gwu.edu/policy-impact-drug-conviction-title-iv-eligibility>).

### Return of Title IV Funds Policy

The University is required by the HEA to recalculate the eligibility for federal Title IV student financial assistance for students who withdraw, drop out, are dismissed, or take a leave of absence, prior to completing 60% of a semester. Title IV funds include Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, Federal Work-Study, Federal Perkins\* Loans, Federal Direct Subsidized Stafford Loans, Federal Direct Unsubsidized Stafford Loans, and Federal Direct PLUS Loans.

The required sequence for return of Title IV funds, as specifically published in Federal Student Aid program regulations, is:

1. Unsubsidized Federal Stafford Loans (no longer active since June 30, 2010)
2. Subsidized Federal Stafford Loans (no longer active since June 30, 2010)
3. Unsubsidized Direct Stafford Loans (other than PLUS Loans)
4. Subsidized Direct Stafford Loans
5. Federal Perkins\* Loans
6. Federal PLUS Loans (no longer active since June 30, 2010)
7. Direct PLUS Loans
8. Federal Pell Grants for which a return of funds is required
9. Academic Competitiveness Grants for which a return of funds is required (program no longer active since June 30, 2011)
10. National SMART Grants for which a return of funds is required (program no longer active June 30, 2011)

11. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required
12. TEACH Grants for which a return of funds is required; and
13. Iraq-Afghanistan Service Grant for which a return is required.

See the Student Accounts website (<https://studentaccounts.gwu.edu>) for the complete policy statement on Return of Title IV funds (<http://go.gwu.edu/returntitleivfunds>). This applies only to federal student aid and does not pertain to the University's refund policy, as noted in the Fees and Financial Regulations section of this Bulletin.

(Note: while no longer available, Federal Perkins Loans are listed in this sequence as it is still noted in the federal regulations).

#### **Title IV Credit Balances**

Students have the right to exercise authorizations to hold or release a hold pertaining to Title IV credit balances. Similarly, parents have the right to do so pertaining to Federal Direct PLUS Loans. See the pertinent Title IV credit balance authorization form:

Student Title IV credit balance authorization form ([https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title\\_IV\\_Credit\\_Auth\\_StudentNEWLOGO.pdf](https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_StudentNEWLOGO.pdf))

Parent Title IV credit balance authorization form ([https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title\\_IV\\_Credit\\_Auth\\_ParentNEWLOGO.pdf](https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_ParentNEWLOGO.pdf))

#### **HEA Disclosures Portal**

Visit the University's Consumer Information (<https://financialaid.gwu.edu/consumer-information>) portal for complete disclosures information.

## **GRADUATE**

### **Graduate Financial Aid**

The George Washington University offers a variety of financial support for graduate students that includes assistantships, fellowships, traineeships, graduate school scholarships, research appointments, and part-time employment, in addition to eligibility for Federal student aid programs.

Several forms of aid not based on financial need are available. Graduate assistantships are fully taxable, and gift aid (scholarships, grants, fellowships, assistantships, tuition awards, etc.) is taxable to the extent that it exceeds the allowable costs of tuition, fees, and required books and supplies or is dedicated to other costs, such as room and board. Federal grants may be taxable if, together with other gift assistance, they exceed the allowable costs. For complete information on IRS rules regarding educational costs, see IRS Publication 970, *Tax Benefits for Education*.

Eligibility for student aid is processed under cost of attendance budgets for various categories of students, per requirements

of federal statute. See the Office of Student Financial Assistance (OSFA) policy on cost of attendance budgets (<http://financialaid.gwu.edu/cost-of-attendance>) for details. A complete student aid package cannot exceed a student's cost of attendance budget. GW will review and potentially adjust awards for students receiving student financial assistance from more than one source. Receipt of student financial assistance from multiple source cannot exceed tuition charges. If institutional aid is involved, adjustments will be made.

Application and correspondence concerning assistantships, fellowships, traineeships, or graduate scholarships should be sent directly to the GW school or college. Unless otherwise specified, applications and supporting credentials should be submitted no later than the February 1 prior to the academic year for which the award is made. Application for admission to graduate study is a prerequisite for consideration.

### **Office of Graduate Student Assistantships and Fellowships**

The Office of Graduate Student Assistantships and Fellowships (<http://www.gwu.edu/~fellows>) (OGSAF) provides services to entering and enrolled graduate students; detailed information on awards that may be used in support of graduate study is available on the office's website. Such awards generally are sponsored by foundations, professional and learned societies, industries, and other organizations. Services are provided to entering and enrolled graduate students.

#### **Assistantships**

Available to students in master's and doctoral programs in most academic departments, graduate assistantships provide financial compensation for a designated unit of service to the assistant's major department of instruction. All new graduate assistants must attend an orientation program and are enrolled in an online course.

International students applying for graduate teaching assistantships must have minimum TOEFL scores of 600 (paper-based) or 100 (Internet-based) or an overall band score of 7.0 on the Academic International English Language Testing System (IELTS) with no individual band score below 6.0. International students may be appointed to graduate assistantships. Those found to have difficulties with English are referred to the Speech and Hearing Center's speech enhancement program; such students are assigned nonteaching duties in place of classroom instruction and are re-evaluated each semester. If a student is not designated as qualified to give classroom instruction by the end of one academic year, the assistantship is not renewed.

#### **Graduate Research Assistantships**

Available to students in masters and doctoral programs in some GW academic departments. A graduate research assistant receives compensation for research assistance provided to a professor.

## Resident Assistantships

Resident assistantships are available to graduate students in any field of study who are interested in working in University residence halls. Specific duties vary with the position, but basically consist of counseling, advising student groups, and administrative duties. Remuneration includes salary and a furnished room for the academic year. All positions are part time, and staff members are required to enroll as full-time students in degree programs. For further information, see the Center for Student Engagement website (<http://studentengagement.gwu.edu/resident-advisors>).

## Fellowships and Other Funding Opportunities

Available to graduate students in master's and doctoral programs in most GW academic departments, fellowships are based on scholarship and each fellow may receive a stipend and/or tuition allowance. OGSFAF (<http://www.gwu.edu/~fellows>) provides a database of internal GW fellowships as well as external national fellowships and study abroad opportunities.

## Federal Loans

### Federal Direct Stafford Loans

Graduate students enrolled at least half time may apply for Federal Direct Stafford Loan funds each academic year. Unsubsidized loans require the student borrower to pay all interest that accrues on loan during the in-school period. Deferments are available. Students must file the Free Application for Federal Student Aid (<https://fafsa.ed.gov>) (FAFSA) to determine their eligibility.

### Federal Direct PLUS Loans

Graduate and professional students may apply for funds under the Federal Direct PLUS Loan Program. Eligible students may borrow up to the full cost of attendance, including tuition, fees, books, and living and transportation expenses, less any financial assistance received (which includes all student loans). Students must first apply for the Federal Direct Stafford Loan and the amount of the Stafford Loan eligibility must be included in the calculation to determine the amount of the Graduate PLUS loan.

## Annual and Aggregate Loan Limits

Graduate and professional students can borrow up to \$20,500 in unsubsidized Federal Direct Stafford Loan funds on an annual basis. Some academic programs may have additional loan eligibility; see the list on the OSFA website of Graduate Programs eligible for Higher Loan Limits (<https://financialaid.gwu.edu/graduate-federal-direct-loan-limits>).

Graduate and professional students have maximum aggregate (lifetime) loan limits of \$138,500, with \$65,500 maximum subsidized limit within the total aggregate limit. Health professions students have a maximum aggregate (lifetime) limit of \$224,000, with \$65,500 maximum subsidized limit within the total aggregate limit.

## Loan Fees

Both Federal Direct Stafford Loans and Federal Direct PLUS Loans carry loan fees. Current rates are available on the U.S. Department of Education's Federal Student Aid website for interest rates for federal student loans (<https://studentaid.ed.gov/sa/types/loans/interest-rates>).

## Private Education Loans

Private lenders provide additional loan options to qualified students. These loans offer varying interest rates and repayment options. Such loans allow the student to borrow up to 100% of GW's annual cost of attendance less any current financial assistance. They typically have variable rates, rates within rate tiers according to credit worthiness, and application fees.

Private education loans must be reported to OSFA to be considered as a resource against federal student aid eligibility, per federal regulation.

Students are strongly advised to consider federal student loans before alternative loans due to generally more favorable interest rates, fees, and repayment options. Consider reviewing the OSFA Private Student Loan Counseling Checklist (<http://financialaid.gwu.edu/private-student-loan-counseling-checklist>).

## Other Loan Funds

GW has several emergency loan funds for degree students with short-term needs. These funds include the Jessie B. Martin Loan Fund; the Barney Plotnick, M.D., Student Loan Fund; the University Student Emergency Loan Fund; and the Peter and Doris Firsht Loan Fund. For more information and how to apply see the section of OSFA's website on emergency loans (<https://financialaid.gwu.edu/emergency-funding>).

## Student Employment

The University participates in the Federal Work-Study Program (<https://careerservices.gwu.edu/federal-work-study-program>). Students should address questions concerning eligibility to OSFA. GW's Center for Career Services (<https://careerservices.gwu.edu>) handles Federal Work-Study placement and maintains a registry of both full- and part-time positions available in the DC Metropolitan Area.

## TEACH Grants

The Teacher Education Assistance for College and Higher Education (TEACH) program provides grants to students who become teachers in high-need fields and low-income areas in an elementary school, secondary school or an educational service agency. More information on TEACH Grants (<https://gsehd.gwu.edu/admissions/#tuition-and-scholarships>) is available from the Graduate School of Education and Human Development (GSEHD).

## International Students

International students are advised to download and reference The Office of Graduate Scholarships and Fellowships brochure, Funding for International Students (<http://graduate.admissions.gwu.edu/sites/graduate.admissions.gwu.edu/files/downloads/International%20Funding%20Brochure.pdf>), a guide for international students on potential education funding. Non-U.S. students should check with their home country for potential national and/or local student aid options for enrollment in the United States. Private education loans for international students are usually only available with a credit-worthy U.S. co-signer. The Office of Student Financial Assistance uses cost of attendance budgets (<http://financialaid.gwu.edu/cost-of-attendance>) for the processing of international student financial assistance.

## Deadlines

Graduate students applying for federal student aid must have respective application materials submitted by specific dates per academic term. See OSFA's website (<https://financialaid.gwu.edu/deadlines>) for complete details on application deadlines.

## Military Education Financing

### Veterans Education Benefits

GW's Office of Military and Veteran Student Services (<http://services.military.gwu.edu>) processes applications for entitlement payments under the various classes of veterans' educational benefits from the U.S. Department of Veterans Affairs.

### Tuition Assistance Program

Funds from the various branches of the armed services under the Tuition Assistance Program are processed by the GW Office of Student Accounts (<https://studentaccounts.gwu.edu>).

### ROTC Scholarships

Navy ROTC (<http://nrotc.gwu.edu/scholarships>) is available at GW. Army and Air Force ROTC is available at Georgetown University and Howard University, respectively. All ROTC programs are handled by the GW Student Accounts Office (<https://studentaccounts.gwu.edu>). Further details are available here (<http://financialaid.gwu.edu/military-educational-benefits>) and from the Office of the Registrar (<http://registrar.gwu.edu/rotc>).

## Required Disclosures and Notices

### University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the university, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the university's Office of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9656, [eeo@gwu.edu](mailto:eeo@gwu.edu). Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission, or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the university's Title IX Coordinator, the Vice Provost for Diversity and Inclusion, 813 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the university's Disability Services Coordinators. Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students, 401 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-6710, and other members of the university community may contact the Executive Director of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at 202-994-8250 or [dss@gwu.edu](mailto:dss@gwu.edu). Employees and other members of the university community should contact the Office of Equal Employment Opportunity and Affirmative Action at 202-994-9656 or [eeo@gwu.edu](mailto:eeo@gwu.edu).

### Availability of State Grant Assistance for Undergraduate Education

Before they pursue loan options undergraduate students are advised to pursue the potential for state grant assistance in their home state to help finance their GW education. The U.S. Department of Education (ED) maintains a website listing state agencies (<http://www2.ed.gov/about/contacts/state>) and respective contact information. The Brookings Institution has an Inventory of State Grants (<http://www.brookings.edu/~media/research/files/reports/2012/5/08-grants-chingos-whitehurst/inventory-of-state-grants.xlsx>) (done in 2012) as well.

### Satisfactory Academic Progress for Student Financial Assistance

Federal student aid programs require satisfactory academic progress. See OSFA's complete Title IV satisfactory academic progress policy (<http://financialaid.gwu.edu/policy-satisfactory-academic-progress>).

### Availability of U.S. Department of Education Loan Publications

Students pursuing federal student loans are advised to review, download, and retain the loan publications from the U.S. Department of Education, which are available on the Federal Student Aid resources page (<https://studentaid.ed.gov/sa/resources>).

### **GW Policy on Student Loans and Code of Conduct**

GW does not maintain a preferred lender list and will certify loan presented that requires certification. Refer to GW's HEA-compliant code of conduct for student loans (<http://financialaid.gwu.edu/policy-student-loan-code-conduct>).

### **Role of the National Student Loan Data System (NSLDS)**

Data on federal student loans and Federal Pell Grants are reported to the National Student Loan Data System (NSLDS), which is accessible by GW and U.S. ED personnel and servicers of federal student loans. Students can access their data on the NSLDS website ([http://www.nsls.ed.gov/nsls\\_SA](http://www.nsls.ed.gov/nsls_SA)).

### **Title IV Eligibility and Drug Convictions**

Under federal law a recipient of Title IV student financial assistance who is convicted for possession and/or sale of illegal drugs while enrolled as a student at GW is ineligible for further Title IV funds for a fixed period of time. Refer to the University's complete policy on the Impact of Drug Conviction on Title IV eligibility (<http://financialaid.gwu.edu/policy-impact-drug-conviction-title-iv-eligibility>).

### **Return of Title IV Funds Policy**

The University is required by the HEA to recalculate the eligibility for federal Title IV student financial assistance for students who withdraw, drop out, are dismissed, or take a leave of absence, prior to completing 60% of a semester. Title IV funds include Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Federal Work-Study, Federal Perkins Loans\*, Federal Direct Subsidized Stafford Loans, Federal Direct Unsubsidized Stafford Loans, and Federal Direct PLUS Loans. The priority sequence for return of Title IV funds is as follows:

1. Unsubsidized Federal Stafford Loans
2. Subsidized Federal Stafford Loans
3. Unsubsidized Direct Stafford Loans (other than PLUS Loans)
4. Subsidized Direct Stafford Loans
5. Federal Perkins Loans\*
6. Federal PLUS Loans
7. Direct PLUS Loans
8. Federal Pell Grants for which a return of funds is required
9. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required
10. TEACH Grants for which a return of funds is required
11. Iraq-Afghanistan Service Grant for which a return is required

For the complete policy statement on Return of Title IV funds, see the Student Accounts Office website (<https://studentaccounts.gwu.edu>). This applies only to federal student aid and does not pertain to the University's refund policy, as noted in the Fees and Financial Regulations section of this Bulletin.

(Note: while no longer available, Federal Perkins Loans are listed in this sequence as it is still noted in the federal regulations).

### **Title IV Credit Balances**

Students have the right to exercise authorizations to hold or release a hold pertaining to Title IV credit balances, using the Student Title IV credit balance authorization form ([https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title\\_IV\\_Credit\\_Auth\\_StudentNEWLOGO.pdf](https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_StudentNEWLOGO.pdf)). Similarly, parents have the right to do so pertaining to Federal Direct PLUS Loans, using the Parent Title IV credit balance authorization form ([https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title\\_IV\\_Credit\\_Auth\\_ParentNEWLOGO.pdf](https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_ParentNEWLOGO.pdf)).

### **HEA Disclosures Portal**

See the University's Consumer Information portal (<https://financialaid.gwu.edu/consumer-information>) for complete disclosures information.

# INTERDISCIPLINARY AND SPECIAL PROGRAMS

While GW offers many interdisciplinary programs within and across its schools and departments, those listed here are independent of any other academic unit at GW.

- GWTeach and the STEM Teaching Minor (p. 65)
- Linguistics (p. 67)
- Naval Science (p. 67)
- Sustainability (p. 68)
- University Honors Program (p. 73)
- Women's Leadership Program (p. 75)

## GWTEACH PROGRAM AND THE STEM TEACHING MINOR

### GWTeach

The GWTeach program is designed for undergraduate science, technology, engineering, and mathematics (STEM) majors interested in exploring careers in teaching. The GW initiative, which is based on the nationally recognized UTeach (<http://www.uteach-institute.org>) program, integrates secondary school teacher preparation into the student's major studies.

GW undergraduate students participate in GWTeach by completing all requirements for their STEM major as well as 27 credits in prescribed GWTeach coursework. Upon graduation, students who have completed GWTeach requirements are eligible for licensure by the District of Columbia as middle or high school teachers.

The first two courses in the program, GTCH 1001 GWTeach Step 1: Inquiry Approaches to Teaching and GTCH 1002 GWTeach Step 2: Inquiry-based Lesson Design, are open to all mathematics, science, and engineering majors, including pre-med students. In these 1-credit courses, students are exposed to the teaching experience with no obligation to continue in the program. Students who wish to complete the program work with their departmental advisor and the GWTeach advisor to integrate the remaining GWTeach courses with their STEM major program of study.

Students are encouraged to begin the GWTeach program as freshmen, but no later than their sophomore year. Visit the GWTeach Program (<http://gwteach.gwu.edu>) website for additional information.

### The STEM Teaching Minor

The minor in STEM teaching is designed for students majoring in a STEM field who have not yet committed to a career in secondary school teaching. The 18-credit program comprises core courses from GWTeach disciplines and a choice of elective courses.

The STEM teaching minor program is open to students in the GWTeach program and to other students who wish to document the successful learning of ideas and methods in the program's core courses. Students must have permission of the GWTeach Director in order to pursue the minor program.

### STEM TEACHING MINOR

The following requirements must be fulfilled for the STEM teaching minor: 18 credits, including 11 credits in required courses and 7 credits in elective courses.

An 8-credit, two-course sequence or 8 credits in equivalent courses approved by the GWTeach advisor must be completed before beginning the minor program.

Code	Title	Credits
<b>Prerequisite</b>		
One of the following 8-credit sequences or approved equivalent courses:		
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory *	
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory	
or		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
or		
PHYS 1011 & PHYS 1012	General Physics I and General Physics II	
or		
PHYS 1021 & PHYS 1022	University Physics I and University Physics II	
or		
PHYS 1025 & PHYS 1026	University Physics I with Biological Applications and University Physics II with Biological Applications	
<b>Required</b>		
GTCH 1001	GWTeach Step 1: Inquiry Approaches to Teaching	
GTCH 1002	GWTeach Step 2: Inquiry-Based Lesson Design	

GTCH 3101	Knowing and Learning in Mathematics and Science
GTCH 3102	Classroom Interactions
GTCH 3103	Project-Based Instruction
<b>Electives</b>	
A minimum of 7 credits from the following courses:	
GTCH 3201	Perspectives on Math and Science
GTCH 3202	Research Methods in Math and Science
GTCH 3203	Functions and Modeling
GTCH 3500	Topics in STEM Teaching
GTCH 3600	Pedagogy for Learning Assistants

\*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

## FACULTY

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **GTCH 1001. GWTeach Step 1: Inquiry Approaches to Teaching. 1 Credit.**

First recruitment course in the GWTeach professional development sequence. Overview of latest methods in teaching. Elementary school teaching experience using lessons written based on district curricula.

#### **GTCH 1002. GWTeach Step 2: Inquiry-based Lesson Design. 1 Credit.**

Second recruitment course in the GWTeach professional development sequence. Overview of latest methods in teaching. Middle school teaching experience using lessons written based on district curricula. Prerequisite: GTCH 1001.

#### **GTCH 3101. Knowing and Learning in Mathematics and Science. 3 Credits.**

Introduction to models of knowing and learning for classroom practice. Focus on secondary mathematics and science. Restricted to Sophomore or higher standing. Restricted to GWTeach students and to others with permission of the instructor. Prerequisites: GWTeach courses GTCH 1001 – Step 1 and GTCH 1002 – Step 2 or permission of the instructor. Recommended background: Most students will be in the GWTeach program. Other students may enroll with permission of the instructor.

#### **GTCH 3102. Classroom Interactions. 3 Credits.**

Introduction to use of curriculum and technology in the classroom for effective teaching of mathematics, science, and engineering. Interplay between teachers, students, content, and the world beyond schools. Design and implementation of instructional activities. Evaluation of outcomes of instructional activities. Restricted to Junior or Senior standing. Restricted to GWTeach students and to others with permission of the instructor. Prerequisites: GWTeach courses GTCH 1001 – Step 1, GTCH 1002 – Step 2, GTCH 3101 or permission of the instructor. Recommended background: Most students will be in the GWTeach program. Other students may enroll with permission of the instructor.

#### **GTCH 3103. Project-Based Instruction. 3 Credits.**

Design of full units of connected lessons. Integration of mathematics and science content. Intensive field-based experiences. Restricted to students in the GWTeach program with junior or senior standing or with permission of the instructor. Prerequisite: GTCH 3102.

#### **GTCH 3201. Perspectives on Math and Science. 3 Credits.**

Topics and episodes in the history of science and mathematics. Focus on processes by which math and science evolves. Perspectives include biology, physics, geology, astronomy, and chemistry. Historical perspectives on the content and direction of the sciences. Restricted to GWTeach students and to others with permission of the instructor. Restricted to Sophomore or higher standing. Prerequisites: GWTeach courses GTCH 1001 – Step 1 and GTCH 1002 – Step 2 or permission of the instructor. Recommended background: Most students will be in the GWTeach program. Other students may enroll with permission of the instructor.

#### **GTCH 3202. Research Methods in Math and Science. 3 Credits.**

Design experiments to answer scientific questions and reduce systematic and random errors. Statistics to interpret experimental results. Restricted to Sophomore or higher standing. Restricted to GWTeach students and to others with permission of the instructor. Prerequisites: GWTeach courses GTCH 1001 – Step 1 and GTCH 1002 – Step 2 or permission of the instructor. Recommended background: Most students will be in the GWTeach program. Other students may enroll with permission of the instructor.

**GTCH 3203. Functions and Modeling. 3 Credits.**

Mathematics addressing unique needs of future teachers of mathematics. Explore models using linear, exponential, polynomial, and trigonometric functions. Restricted to Sophomore or higher standing. Restricted to GWTeach mathematics students and to others with permission of the instructor. Prerequisites: GWTeach courses GTCH 1001 – Step 1 and GTCH 1002 – Step 2 or permission of the instructor. Recommended background: Most students will be in the GWTeach program. Other students may enroll with permission of the instructor.

**GTCH 3500. Topics in STEM Teaching. 1 Credit.**

Issues in STEM research and education. Topics vary by semester. May be repeated for credit if topic differs. Consult the Schedule of Classes for more details. Restricted to GWTeach and minor in STEM teaching students with permission of the GWTeach Associate Director.

**GTCH 3600. Pedagogy for Learning Assistants. 2 Credits.**

Integration of educational theory, pedagogy, and practice; classroom discourse, group discussions, disciplinary thinking, questioning, models of cognition, metacognition, formative assessment, classroom presence. For students serving as learning assistants in large-enrollment undergraduate science courses. Restricted to GWTeach and minor in STEM teaching students with permission of the GWTeach Associate Director.

**GTCH 4000. Apprentice Teaching. 0-7 Credits.**

Culminating experience and tools for first teaching positions. Students who intend to teach mathematics take GTCH 3203 in addition to the listed prerequisites. Restricted to GWTeach apprentice teachers with junior or senior standing. Prerequisites: GTCH 3101, GTCH 3201, and GTCH 3202.

**MINOR IN LINGUISTICS**

The linguistics minor at GW is designed to provide students with training in the analysis of both the formal structures and social functions of language. Through critical analysis of key readings and approaches in linguistics, students learn how to interpret linguistic data, and apply these analyses to theoretical debates and practical issues in both linguistics and related fields.

**REQUIREMENTS**

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses (6 credits in each of two groups of elective options).

Code	Title	Credits
<b>Required</b>		
ANTH 1004	Language in Culture and Society	
SPHR 1071	Foundations of Human Communication	

Elective options	
<b>Language, form, and cognition group</b>	
6 credits (two courses) from the following:	
CSCI 3907	Special Topics (Natural Language Processing))
PHIL 1153	The Meaning of Mind
SPHR 2101	Research Methods
SPHR 2130	Phonetics and Phonological Development
SPHR 2131	Language Acquisition and Development
SPHR 2133	Autism
or LING 3691	Special Topics in Linguistic Anthropology
or ANTH 3691	Special Topics in Linguistic Anthropology
SPHR 2135	Language: Structure, Meaning, and Use
SPHR 2136	Phonetics
SPHR 3116	Brain and Language
<b>Social and cultural contexts of language group</b>	
6 credits (two courses) from the following:	
ANTH 3601	Language, Culture, and Cognition
ANTH 3602	Ethnographic Analysis of Speech
ANTH 3603	Psycholinguistics
ANTH 3691	Special Topics in Linguistic Anthropology (Language and Media)
ANTH 3691	Special Topics in Linguistic Anthropology (Language and Religion)
ANTH 6104	Proseminar in Linguistic Anthropology
ENGL 3860	Topics in the History of the English Language

**NAVAL SCIENCE**

**Naval Reserve Officers Training Corps Program**

The Naval Reserve Officers Training Corps (NROTC) offers young men and women the opportunity to qualify for a full scholarship and a commission in the US Navy or Marine Corps. NROTC midshipmen are required to complete the Naval Science courses and attend weekly professional seminars and physical training sessions. During the summer, NROTC

midshipmen participate in active duty at sea or shore-based training cruises for approximately four weeks. Upon receiving their baccalaureate degrees and completing the NROTC program, qualified midshipmen are commissioned as Ensigns in the US Navy or Second Lieutenants in the Marine Corps. Commissioned naval officers go on to training in various warfare specialties and serve as surface or submarine officers, naval aviators, or SEALs. Restricted line positions (intelligence, law, medicine, supply) are not normally offered through NROTC. Marine Corps officers attend The Basic School in Quantico, Virginia, and serve in fields such as infantry, artillery, logistics, intelligence, and aviation. Students may join the NROTC through any one of the following programs:

*Four-Year Scholarship Program*—Students enter the NROTC Four-Year Scholarship Program through national competition and are appointed midshipmen in the Naval Reserve. While enrolled, a four-year-scholarship student receives government-provided tuition and fees, \$375 per semester for books, uniforms, and an allowance of up to \$400 per month. Upon graduation, students are commissioned with a minimum five-year active duty service obligation (four years for Marines). Navy Scholarship Program students must include in their degree program courses in English, calculus, cultural awareness, physics, national security policy, and naval science and participate in three summer training periods of approximately four weeks each. Marine Option scholarship program students must include English, national security policy, and naval science in their degree program in addition to three summer training periods of approximately four weeks each.

*Two-Year/Three-Year Scholarship Program*—Selection for this program is made through national competition, based on the student's academic record, physical qualifications, and an interview. Application should be made by the middle of the fall semester. Upon acceptance of this appointment, students receive all the benefits and assume all the obligations of midshipmen in the Four-Year Scholarship Program.

*College Program*—Students are enrolled in a non-scholarship College Program upon acceptance by the Department of Naval Science. Uniforms are provided and students participate in the program in the same manner as scholarship midshipmen with the exception of summer training periods. College Program students are eligible to apply for advanced standing status prior to their junior year and, if accepted, continue in the College Program through graduation and accept a commission in the Navy or Marine Corps. Advanced standing students receive up to \$400 per month and attend one summer training period prior to commissioning. Students must include in their degree program courses in college algebra, science, and naval science and must attend the four-week at-sea training period between their junior and senior year (six-week OCS course for Marine Options). Upon commissioning, College Program students serve a minimum of four years on active duty. Midshipmen who complete one term as College Program students, have a satisfactory academic record, and are

physically qualified may also compete for one of the national scholarships as described above. If awarded, the scholarship will be for the remainder of the student's undergraduate enrollment, up to a maximum of three and a half years; service requirements and benefits are the same as for the scholarship programs.

Entering freshmen and transfer students who are awarded NROTC scholarships and plan to live on campus may also be eligible for GW residence hall awards from the University. NROTC scholars who are new to the Navy and are majoring in mathematics, chemistry, physics, or a program in the School of Engineering and Applied Science may receive up to \$4,000 a semester to be applied toward the costs of on-campus housing and meals. Non-STEM scholarship midshipmen may be eligible for up to \$2,000 a semester to be applied toward the costs of on-campus housing and meals. Further information on these awards is available from the University Office of Admissions.

Requirements for all candidates—Qualifications for acceptable candidates for the Scholarship Program or the College Program include U.S. citizenship, fulfillment of physical requirements, and willingness to participate in required summer training periods and to accept a commission in the U.S. Navy or Marine Corps when offered.

Enrollment in NROTC is not a requirement for taking naval science courses. Any student enrolled at George Washington University may take Naval Science courses with the approval of the Professor of Naval Science.

Visit the GW NROTC Program website (<https://nrotc.gwu.edu>) for additional information.

---

## SUSTAINABILITY

Sustainability is one of the nine core values of The George Washington University. GW holds a gold ranking from the Association for the Advancement of Sustainability in Higher Education (AASHE), in part, due to the hundreds of sustainability-related courses offered at the undergraduate and graduate levels.

Unlike other universities where sustainability may be housed in a single school, the GW vision seeks to be genuinely trans-disciplinary, encompassing related courses from all of GW's colleges and schools and most departments and programs. This organization of the curriculum encourages students to experiment with interdisciplinary methods and approaches.

Visit the Sustainability Program website (<https://sustainability.gwu.edu>) for additional information.

---

## UNDERGRADUATE

### Minor

- Minor in sustainability (p. 69)

## FACULTY

Lead sustainability faculty: L. Benton-Short, K. Merrigan, R. Orttung, L. Paddock, D. Rain, M. Svoboda

In addition there are over 300 faculty involved in teaching sustainability related courses. Courses with sustainability content can be found by using the course attribute SUST in course search.

## COURSES

The GW Sustainability Collaborative offers interdisciplinary team-taught courses on subjects related to sustainability. In addition there are over 350 courses at GW with sustainability related content. The "SUST" attribute has been applied to related courses from all of GW's colleges and schools and most departments and programs. These courses can be found by searching for the course attribute "SUST."

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **SUST 1001. Introduction to Sustainability. 3 Credits.**

The concept of sustainability is both broad and specific as it is applied to areas ranging from social systems to law, engineering, public health, and natural systems. The course considers goals, principles, and practical applications, with a multidisciplinary perspective on major environmental and social issues growing out of these concerns.

#### **SUST 2002. The Sustainable City. 3 Credits.**

This course explores the connection between cities and sustainability. We consider sustainability from a variety of theoretical and practical perspectives and examine some of the most pressing and critical issues that must be addressed in order to create a sustainable city.

#### **SUST 3002. Climate Change and Policy. 3 Credits.**

Climate change from an interdisciplinary perspective. Mitigation, adaptation, and intervention from the perspectives of public policy, economics, psychology, and public health. Climate modeling, green infrastructure, carbon capture and storage, climate justice, and international and multilateral environmental agreements. Recommended background: SUST 1001.

#### **SUST 3003. The Sustainable Plate. 3 Credits.**

How dietary choices affect not just health, but the environment and those involved in the production of food as well; interdisciplinary perspective on the impact of food on the future of the environment, the economy, and society.

#### **SUST 3096. Research in Sustainability. 1-3 Credits.**

Directed research with a GW faculty member. The faculty member directing the research assigns work, such as papers and assigned reading, as appropriate.

#### **SUST 3097. Culminating Experience in Sustainability. 1-3 Credits.**

A paid or unpaid internship, fieldwork, directed research, or community service with an organization engaged in two or more of the three major goals of sustainability: economic development, social equality, or environmental protection. Students complete a series of reflection essays, career preparations, and other assignments throughout the semester. Some study abroad programs and some research or service courses at GW can be used to fulfill the outside work requirement for SUST 3097, but students may still be asked to register for 1 credit of SUST 3097 to complete the reflective essays, career preparations, and/or outreach assignments. These special arrangements must be approved in advance by the director of the minor. Prerequisite: SUST 1001.

## MINOR IN SUSTAINABILITY

GW offers an 18-credit undergraduate minor in sustainability that grounds students in the key concepts, principles, and issues of this transdisciplinary field. Unlike other universities, where sustainability is housed in a single college or school, at GW sustainability is a university-wide collaborative, overseen by the Provost, that involves faculty from all colleges and schools and that thereby immerses students in interdisciplinary methods and approaches. The minor integrates classroom instruction and community-based learning and research in a way that prepares students to incorporate sustainability's triple-bottom line—environment, economy, and equity—into their personal and professional plans for the future.

3 credits of the minor are completed by taking the required overview course SUST 1001 Introduction to Sustainability. Taught by a faculty team representing five different colleges and schools at GW, the course is offered each fall and spring semester.

12 credits of the minor are completed by selecting courses offered in the three different tracks representing the very different disciplinary perspectives and skills that come together in sustainability. Each track includes a selection of courses from GW's nine schools and colleges.

### Track A – Environment/Earth Systems

Courses in the physical, natural, and applied sciences that consider the interdependence of physical and natural systems, including the human body.

## Track B – Society and Sustainability

Courses in social sciences and humanities that consider how human relationships and forms of organization have shaped—and are shaped by—the ecosystems on which they depend.

## Track C – Policy, Organization, and Leadership

Courses on methods and practices—from a spectrum of disciplines—that provide students with the practical knowledge and skills needed to effect change.

Students are required to take at least one course in each track. The remaining 3 credits are taken as an elective course; students are encouraged to select a course—from any track—that reflects their particular interest in sustainability (e.g., climate change, development, energy, food, urban studies, water).

Each semester, many GW departments and programs offer special topics courses that may qualify for one of the minor's three tracks. These courses, which are not included in the lists provided here, can be found on the website for the minor. Students should verify the status of special topics courses before incorporating them into their plans for completing the minor.

In addition, courses taken in study abroad programs, if pre-approved by the director of the minor, can be used to fulfill these track requirements.

At least 3 credits in experiential learning are required as a culminating experience for the minor. Students might fulfill this requirement, in their junior or senior years, through directed research, fieldwork, an internship (paid or unpaid), or community service. Successful completion of SUST 1001 Introduction to Sustainability and formal approval by the director are prerequisites for registering for SUST 3097 Culminating Experience in Sustainability. In addition to attending periodic class meetings (~ one each month), submitting reflective writing assignments, and completing career preparations with GW's Career Services, students are expected to perform at least 60 hours of service or work over the course of the semester at a minimum of 5 hours per week. Some study abroad programs and some research or service courses at GW can be used to fulfill this outside work requirement for SUST 3097, but students may still be asked to register for 1-credit of SUST 3097 to complete the reflective essays, career preparations, and /or outreach assignments. These special arrangements must be approved in advance by the director of the minor.

## TRACK A

### Track A – Environment and Earth Systems

One course from Track A must be selected as part of the minor program. For their 3-credit elective, students are encouraged to select a course, from any track, that reflects their particular interest in sustainability.

Note: The list of courses in the track does not include special topics courses, which also may count toward the minor with the approval of the Program Director. This course list may change throughout the year as new courses are offered. Please check the sustainability minor website (<http://sustainability.gwu.edu/sustainability-minor>) for current course offerings.

## UNIVERSITY HONORS PROGRAM

The University Honors Program (<https://honorsprogram.gwu.edu/about-university-honors-program>) offers exceptional entering students the opportunity to engage in a distinctive, participatory program of study designed to prepare them—whatever their gifts and interests might be—to meet the challenges of the 21st century. The program invites students to develop a humane perspective on the world while honing their analytical and expressive powers and deepening their understanding of complex issues and questions. Built upon an interdisciplinary curriculum, the program is fully integrated into and reinforcing of the highest academic aspirations of University schools and departments. Components of the program include:

- Small seminar-style classes, capped at 15 to 20 students, provide an opportunity to probe a variety of evolving issues and eternal questions.
- Students enroll in a series of unique courses in the humanities, natural sciences, and social sciences that address both cross-cultural and cross-disciplinary questions and issues. In their senior year, students participate in an Honors capstone experience that provides an

opportunity to apply and reflect on what they have learned as undergraduates.

- The Honors experience is enriched by distinctive co-curricular programming, including off-campus activities with faculty members and discussions in the program's Club Room. Events may include student-faculty dinners, hikes, visits to local museums, day trips throughout the region, theater performances, film screenings, guest speakers and debates, and career information sessions. Students may also have an opportunity for summer study abroad.
- The program offers all Honors students the option of living in an Honors residential community.
- Designated Honors academic advisors assist students with academic, career, and personal planning.
- Honors program members have early course registration privileges during their second, third, and fourth semesters.
- Membership in the Honors program is indicated on the student's transcript.

## REQUIREMENTS

The University Honors Program (<https://honorsprogram.gwu.edu>) serves approximately 500 selected students, or five percent of the undergraduate student body. Incoming students may apply to the Honors Program at the time they apply to the University; a small group of rising sophomores may also apply.

The program is characterized by small, seminar-style classes with enrollments capped at 15 to 20 students; faculty who serve as mentors, models, and guides in the learning process; classroom approaches that call upon students to initiate inquiry, work collaboratively, and drive the exploration and learning process; interdisciplinary tools and modes of inquiry; and global or cross-cultural perspectives and course content.

Code	Title	Credits
<b>In their first year, along with other courses, Honors Program students take:</b>		
HONR 1015	Honors Seminar: UW 1020: Origins and Evolution of Modern Thought	
HONR 1016	Honors Seminar: Origins and Evolution of Modern Thought	
HONR 1033	Honors Seminar: Scientific Reasoning and Discovery	
HONR 1034	Honors Seminar: Scientific Reasoning and Discovery	
** In place of HONR 1033 and HONR 1034, students may take an approved alternative science course.		

Students who join the Honors Program in spring of their freshman year take HONR 2016 Enlightenment East and West in place of the first year seminars.

#### **In their second, third, and fourth years they take:**

Two Self and Society courses taken as follows: two offerings of HONR 2047 or two offerings of HONR 2048 or one offering each of HONR 2047 and HONR 2048. Topics may not be repeated.

and

Two Arts and Humanities courses taken as follows: two offerings of HONR 2053 or two offerings of HONR 2054 or one offering each of HONR 2053 and HONR 2054. Topics may not be repeated.

In addition, they pursue coursework in their majors, including special or departmental honors and/or independent or mentored research. All Honors Program students participate in HONR 4199 (<http://bulletin.gwu.edu/search/?P=HONR%204199>) Honors Capstone Experience, and complete a departmental or Honors senior thesis or project. The Honors proseminars meet certain general curriculum and elective requirements of the respective undergraduate schools. HONR 1015 (<http://bulletin.gwu.edu/search/?P=HONR%201015>) Honors Proseminar: UW 1020: Origins and Evolution of Modern Thought is the required University Writing course for Honors students.

In order to remain in good standing, Honors Program students must enroll in at least academic 12 credits each semester and, except for the first year, maintain a cumulative GPA that ensures it is mathematically possible to graduate with 3.0 or above. First-year students must achieve a minimum cumulative GPA of 3.0. Successful participation in the program is recognized and recorded on a student's official transcript.

## **FACULTY**

**Executive Director** M. Frawley

**Deputy Director** I. Creppell

**Associate Professors** T. Christov, B. Kung, M. Ralkowski

**Assistant Professors** E. Aviv, Y. Fortenberry, L. Hammond, J. Trullinger, W. Winstead

**University Honors Advisory Committee** T. Wallace (Chair), E. Anker, E. Arnesen, G. de los Reyes, A. Helm, C. Jordan, B. Narahari, M. Modaro, J. Teitlebaum

## **COURSES**

### **Explanation of Course Numbers**

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **HONR 1015. Honors Seminar: UW 1020: Origins and Evolution of Modern Thought. 4 Credits.**

Exploration of significant exemplars, milestones, and developments of human thought. Foundational and representative thinkers and texts from Western and Eastern traditions provide an indication of the diversity and complexity of attempts to articulate responses to universal questions, problems, and aspirations.

#### **HONR 1016. Honors Seminar: Origins and Evolution of Modern Thought. 3 Credits.**

Continuation of HONR 1015. Key developments and trajectories in human thought and inquiry into modern times.

#### **HONR 1033. Honors Seminar: Scientific Reasoning and Discovery. 4 Credits.**

Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

#### **HONR 1034. Honors Seminar: Scientific Reasoning and Discovery. 4 Credits.**

Continuation of HONR 1033. Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

#### **HONR 1120. Introduction to Biomolecular Research. 2 Credits.**

Research methods in the studies of proteins and DNA; exploration of faculty research to help prepare students for conducting their own research. Prerequisite or concurrent registration: BISC 1115 and BISC 1125. Permission of the instructor is required. Laboratory fee.

#### **HONR 2016. Enlightenment East and West. 4 Credits.**

This course replaces HONR 1016 for students who enter the Honors Program as sophomores.

#### **HONR 2043. Honors Microeconomics. 3 Credits.**

An introductory microeconomics course that considers both the philosophical basis of economics as well as its methods and applications. Same as ECON 1011.

**HONR 2044. Honors Macroeconomics. 3 Credits.**

An accelerated introductory macroeconomics course that includes the study of special topics. (Same as ECON 1012).

**HONR 2047. Self and Society Seminar. 3 Credits.**

Understanding significant social and political phenomena by using the tools and modes of inquiry of the social and behavioral sciences; relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. May be repeated for credits provided the topic differs. See program for more details.

**HONR 2047W. Self and Society Seminar. 3 Credits.**

Understanding significant social and political phenomena by using the tools and modes of inquiry of the social and behavioral sciences; relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credits provided the topic differs. See program for more details.

**HONR 2048. Self and Society Seminar. 3 Credits.**

Understanding significant social and political phenomena through the use of social and behavioral sciences tools and modes of inquiry; relationships between individuals and among collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. May be repeated for credit provided the topic differs. See program for more details.

**HONR 2048W. Self and Society Seminar. 3 Credits.**

Understanding significant social and political phenomena through the use of social and behavioral sciences tools and modes of inquiry; relationships between individuals and among collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credit provided the topic differs. See program for more details.

**HONR 2053. Arts and Humanities Seminar. 3 Credits.**

Inter- or multi-disciplinary approaches to topics in the arts and humanities. Exploration of the relationship between literature, religion, art, film, photography, philosophy, or other humanistic fields of study. Topics vary by semester. May be repeated for credits provided the topic differs. See program for more details.

**HONR 2053W. Arts and Humanities Seminar. 3 Credits.**

Inter- or multi-disciplinary approaches to topics in the arts and humanities. Exploration of the relationship between literature, religion, art, film, photography, philosophy, or other humanistic fields of study. Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HONR 2054. Arts and Humanities Seminar. 3 Credits.**

In-depth exposure to an area of literature, art, film, philosophy, or other humanistic field of study, often placing the subject matter in cultural and historic contexts. Topics vary by semester. May be repeated for credits provided the topic differs. See program for more details.

**HONR 2054W. Arts and Humanities Seminar. 3 Credits.**

In-depth exposure to an area of literature, art, film, philosophy, or other humanistic field of study, often placing the subject matter in cultural and historic contexts. Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HONR 2175. Honors Special Topics. 0-6 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

**HONR 2182. Honors Internship. 0-4 Credits.**

The Honors Program allows credit to Honors students for academic work that puts an internship in a broader scholastic context. Each student must have a GW faculty member oversee his or her project. The Honors internship faculty member determines the student's grade. May be repeated for credit.

**HONR 2184. Honors Undergraduate Research. 0-4 Credits.**

Independent or faculty-mentored research resulting in a significant written or other product. May be repeated for credit.

**HONR 2185. Honors Research Assistantship. 0-4 Credits.**

Students provide substantive assistance to a faculty member engaged in scholarly or scientific research. May be repeated for credit.

**HONR 4198. Honors Senior Thesis. 3-4 Credits.**

One- or two-semester thesis under faculty guidance. May be repeated for credit.

**HONR 4199. Honors Capstone Experience. 1 Credit.**

Students re-engage with core questions and issues related to the Honors Program curriculum, reflecting on their learning in relation to enduring questions and challenges of our world.

## WOMEN'S LEADERSHIP PROGRAM

The Women's Leadership Program (WLP) (<http://wlp.gwu.edu>) is a selective, year-long, living and learning program for freshmen women of any GW school. Offered at the Mount Vernon Campus, WLP commemorates and preserves the vision of the founder of Mount Vernon College and Seminary, Elizabeth J. Somers. WLP students have the benefit of small classes, close contact with faculty and women in leadership roles, and strong community ties within the program.

The dynamic curriculum emphasizes exploration and development of women's leadership through academic courses and weekly symposia. WLP symposia offer special

lectures, workshops, and experiential learning that draw on the unique resources of Washington, DC, to bring students together with women of achievement in leadership roles from many professional fields.

## FACULTY

**Director:** Rachelle S. Heller, Associate Provost for Mount Vernon Campus

**Associate Professors** *M. Buckley, J. Donovan*

**Assistant Professors** M. Allendoerfer, E. Hovander, C. Jordan, S. Salchak

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

**WLP 1020. Writing, Literature, and Society. 3 Credits.**

Critical reading skills, concepts of disciplinarity, and processes of producing and legitimating knowledge. Writing intensive. Texts and emphasis vary according to cohort. Restricted to students in the women's leadership program with the permission of the instructor.

**WLP 1110. Women and Leadership Symposium (I). 1 Credit.**

A weekly symposium that includes a wide variety of leadership-building workshops, cultural events of cross-disciplinary interest, and guest speakers.

**WLP 1111. Women and Leadership Symposium (II). 1 Credit.**

A weekly symposium that includes a wide variety of leadership-building workshops, cultural events of cross-disciplinary interest, and guest speakers.

**WLP 4198. WLP Independent Study. 3 Credits.**

# COLUMBIAN COLLEGE OF ARTS AND SCIENCES

**Dean** P. Wahlbeck (interim)

**Vice Deans** E. Arnesen

**Associate Deans** J. Brand, E. Chacko, E. Downie, K. Gross (interim), Y. Rong

Since its founding in 1821, Columbian College, the original college of liberal arts and sciences of The George Washington University, has been the cornerstone of the campus community. The University awarded its first Doctor of Philosophy degree in 1888, one of the first institutions in the United States to do so. Columbian College of Arts and Sciences today houses all undergraduate and graduate programs in the arts and sciences, offering associate's, bachelor's, master's, and doctoral degrees and graduate certificates.

The rich and diverse arts and sciences curriculum is designed to strengthen the student's ability to analyze the social, cultural, and physical environment and to communicate findings in an articulate fashion. These purposes are accomplished by means of the study of various disciplines within the humanities, social sciences, and mathematical and natural sciences.

Students may elect one of more than 50 departmental or interdisciplinary majors; they may also elect double majors or individualized degree programs. The College offers its undergraduates opportunities for pre-professional education in many fields and for internships in a stimulating urban environment. Graduate students are offered more than 40 master's programs, 20 doctoral programs, and 15 certificate programs.

## REGULATIONS

### • Undergraduate Programs (p. 77)

- General Education Curriculum Requirement (p. 77)
- Majors (p. 78)
- Scholarship Performance in the Major (p. 78)
- Minors (p. 78)
- Scholarship Performance in the Minor (p. 78)
- Advising (p. 78)
- Preparation for Medical School (p. 79)
- Preparation for Law School (p. 79)
- Seven-Year Integrated Bachelor of Arts/Doctor of Medicine (p. 79)
- The GW Early College Program - School Without Walls (p. 80)
- General CCAS Policies (p. 80)

### • Graduate Programs (p. 81)

- CCAS Regulations (p. 81)
- Admission Requirements (p. 81)
- Readmission (p. 81)

- Grades (p. 81)
- Scholarship Requirements (p. 82)
- Program of Studies (p. 82)
- Academic Work Load (p. 82)
- Continuous Enrollment (p. 82)
- Leave of Absence (p. 82)
- Special Program Requirements (p. 83)
- Graduation Requirements (p. 83)
- Fellowships and Financial Aid (p. 83)
- Partnerships (p. 83)

---

## Undergraduate Programs

Columbian College of Arts and Sciences offers undergraduate programs leading to the degrees of associate of arts, bachelor of arts, bachelor of science, and bachelor of fine arts. In cooperation with the School of Medicine and Health Sciences, Columbian College offers a seven-year integrated bachelor of arts/doctor of medicine.

One hundred and twenty hours of academic coursework must be passed with a cumulative grade-point average of at least 2.0. Note that some courses outside Columbian College (notably lifestyle, sport, and physical activity courses) do not count toward the 120-credit requirement. General education, major, and other requirements described below must be met.

Each student must declare a major during the sophomore year, no later than the registration period during the fourth full-time semester or the semester following completion of 45 credits, whichever comes first. A student may change the major with the consent of the Dean and of the department or committee concerned; the student must meet the requirements for the new major in effect at the time the change is approved.

### General Education Curriculum Requirement

In addition to the University General Education Requirement (p. 40), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC (<http://bulletin.gwu.edu/university-regulations/general-education>). Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses.
- Humanities—one approved humanities course that involves critical thinking skills.

- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for G-PAC is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Oral Communication—one approved course in oral communication.
- Natural or Physical Science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC requirements may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major's Bulletin page.

## Majors

Each student must declare a major during the sophomore year, no later than the registration period during the fourth full-time semester or the semester following completion of 45 credits, whichever comes first. Students must complete the major requirements in effect at the time of declaration. Students may change their major with the consent of the College and of the department or committee concerned; the student must meet the requirements for the new major in effect at the time the change is approved. Students may pursue at most two majors per degree.

## Scholarship Performance in the Major

Major fields are defined by a set of required courses. The required curricula for majors are outlined under each department's heading in this Bulletin. A minimum grade of C– must be attained in all courses numbered 2000 or above that are required for the major. If a student receives a grade of D+, D, or D– the student may either repeat the course until a satisfactory grade (C– or above) is attained, or with the permission of the department, substitute another course numbered 2000 or above.

## Minors

Students who wish to familiarize themselves with a field outside their major may graduate with a minor in addition to the major. Not all Columbian College departments offer undergraduate minors; the requirements prescribed by those that do are listed under the applicable department. Columbian College students may pursue minors in other schools of the University, as well as those in naval science and in sustainability. Students interested in a minor should consult a faculty mentor in the applicable department and declare through the Office of Undergraduate Studies. Students may pursue at most two minors per degree.

## Scholarship Performance in the Minor

Courses numbered 2000 or above passed with a grade below C– may be used to fulfill a minor field curricular requirement but may not be counted toward the total number of credits required for the minor.

## Advising

Students entering Columbian College are assigned an advising team, or "POD," that advises them from first arrival on campus through graduation. Students engage with advisors to successfully navigate their academic experience, through conversations about understanding University and College requirements, exploring major options, overcoming academic challenges, and setting goals. Students are empowered to take ownership of, and responsibility for, their educational experiences. Specialized advising is provided to students interested in health professions or law.

Students who have not declared a major should consult with their advising POD before registering for classes. Once students declare their major, they also are advised by a faculty mentor in their major department.

Students need to build a support system that ensures academic success. Professors, faculty mentors, professional advisors, tutors, and/or counselors should be part of that support system. Assistance is available through the Division of Student Affairs (<http://students.gwu.edu>), Mental Health Services (<http://counselingcenter.gwu.edu>), Multicultural Student Services Center (<https://mssc.gwu.edu>), International Services Office (<http://internationalservices.gwu.edu>), and Writing Center (<http://www.gwu.edu/%7Egwriter>).

## Preparation for Medical School

Students who plan to apply to medical school fulfill both the University General Education Requirement and the Columbian College general education curriculum. They may select any major at GW. Advice about academic preparation for medical school is provided by the health professions advisors in the Office of Undergraduate Studies (<https://advising.columbian.gwu.edu>). For admission to most medical schools, students must earn a bachelor's degree that includes the following coursework:

- Biology—8 credits of introductory biology, including laboratory. Students who receive credit for AP biology must complete 8 credits of upper-level biology coursework, including laboratory.
- Chemistry—8 credits of general inorganic chemistry, including laboratory.
- Organic Chemistry—8 credits, including laboratory.
- Biochemistry—3 credits.
- Physics—8 credits, including laboratory.
- English—6 credits in introductory English composition courses (fulfilled by the University Writing Program (<http://www.gwu.edu/%7Euwp>)).
- Social Sciences—6 credits (courses in psychology and sociology are highly recommended).

Many medical schools have additional entrance requirements, which might include courses in genetics, statistics, and mathematics; even when such courses are not required, they are strongly recommended. Beyond the specified requirements, applicants are urged to follow their personal interests in developing their course of study.

## Preparation for Law School

A broad liberal arts education is the best undergraduate preparation for law school. Advice about academic preparation for law school is provided by the pre-law advisor in the Office of Undergraduate Studies (<https://advising.columbian.gwu.edu>).

## Seven-Year Integrated Bachelor of Arts/Doctor of Medicine

The BA/MD program is a seven-year integrated program for students of high ability and maturity who have decided, prior to applying to college, that they wish to become physicians and want to accomplish that goal in a shorter time period. Students who are accepted into this program are expected to fully participate in the undergraduate life of the University during their first three years in the program. Students in an undergraduate program in Columbian College must complete all G-PAC requirements. Regardless of the chosen major field, students in this program also must complete the School of Medicine requirement of 8 credits, including 2 credits in a lab, in each of the following areas:

- General Chemistry: CHEM 1111 and CHEM 1112. Students who have received AP credit for the general chemistry sequence are required to take organic chemistry at GW
- Organic Chemistry: CHEM 2151, CHEM 2152, CHEM 2153, and CHEM 2154
- General Biology: BISC 1115 and BISC 1125; and BISC 1116 AND BISC 1126. Students who have received AP credit for a general biology sequence are required to take two upper-level courses in biology, one of which must have a laboratory component.
- General Physics: PHYS 1011 and PHYS 1012; or PHYS 1021 and PHYS 1022; or PHYS 1025 and PHYS 1026. Students who received AP credit for physics are not required to further their knowledge in this area
- Biochemistry: BIOC 3261, or BISC 3261, or CHEM 3165.
- Social/Behavioral Science: two to three courses.

\*Students planning to register for science courses during the summer and/or at other institutions must receive advance permission to be accepted for transfer and for the program.

Students are permitted to transfer in AP credits to apply towards their degree requirements as permitted by CCAS with no cap on the number of credits that they may transfer. Students must declare a major in one of the arts and sciences disciplines and work towards completion of the major. A three-year course plan must be presented to Associate Dean of Admissions in the School of Medicine during the first semester of the freshman year. All major requirements must be determined by the department. Minors are permitted, but must be completed in full if they are to appear on a transcript.

Students in this full-time program must maintain a 3.6 cumulative GPA and may not earn a grade below B- in any science course. Students have the option of participating in the University Honors Program. Students in the program are required to become involved in community service and health-care related experiences each academic year. Before matriculation in the MD portion of the program, all students must have recent patient-related experiences. Students are required to graduate with an undergraduate degree at the end of the third year of the seven-year program. All requirements must be completed for the BA or BS degree, including those for the major field as well as the University General Education Requirement. Students interested in enhancing their academics with a study abroad program may do so, but it is not required. As a part of this program, students are not required to complete the MCAT medical school entrance exam to progress into the MD portion.

Students must understand that any warnings of disciplinary or institutional actions, or convictions of a legal violation must be reported immediately to the Associate Dean of Admissions in the School of Medicine. Students must maintain good academic standing following the academic regulations stated in the University Bulletin as well as the Academic Regulations for the BA/MD and professional comportment

as listed on the MD Honor Code (<https://smhs.gwu.edu/academics/md-program/current-students/policies>). A criminal background check will be conducted at the time the student receives the contract to the MD program. All students will have an undergraduate experience performance review by the admissions office of GW's School of Medicine and Health Sciences (<https://smhs.gwu.edu/academics/md-program/admissions>), must submit all requested application materials, and must meet all requirements before the seat in the MD program is tendered.

## The GW Early College Program—School Without Walls

The GWECF program was created in order to provide opportunities to DC high school students to complete an associate's degree in general studies within the Columbian College of Arts and Sciences concurrently with their high school degree. Students admitted to the program are required to complete 60 credits in residence, which include the following in accordance with the University General Education Requirement and G-PAC requirements:

- UW 1015 Writing Seminar Summer Scholars.
- UW 1020 University Writing.
- One writing in the discipline (WID) Course
- One approved mathematics or statistics course
- Two approved natural/physical science courses
- Two approved social science courses
- Two approved humanities courses
- One approved arts course
- One approved global/cross-cultural course
- One approved local/civic engagement course

Students also must meet the college's academic standing requirement, whereby a 2.0 cumulative GPA is required for completion of the associate's degree. Students in the GWECF program are assigned an academic advisor within CCAS to work with throughout the program. GWECF students interested in continuing on to a bachelor's degree program at the University must complete the Common Application as well as a separate Continuing to BA Application through the Office for Undergraduate Admissions.

## General CCAS Policies

**Academic Workload**—Undergraduate students may register for up to 17 credits through the normal registration process. After a student's first semester, a full-time student may request to register for more than 17 credits. To encourage academic performance of high quality, the College asks undergraduate students to reflect on their prior academic performance and make intentional, informed decisions when requesting a course overload. All students who meet the requirements may request a course overload but note that no request is guaranteed approval. Students should also be aware that registering for more than 17 credits in a given semester will incur additional tuition charges at the per-credit rate

established by the University. Students who wish to register for an eighteenth credit must be in good academic standing, have no pending Incompletes, and have no grades of *F*, *W*, *Z*, or *NP* from the prior semester. Students who wish to register for a 19th credit or more must be in good academic standing; have earned a 3.5 semester GPA, having taken at least 12 credits in the prior semester or have earned a cumulative GPA of 3.3; have no pending Incompletes, and have no grades of *F*, *W*, *Z*, or *NP* grades from the previous semester. Students can apply for a course overload through the Office of Undergraduate Advising.

**Pass/No Pass Option**—A junior or senior student in Columbian College who is in good academic standing may, with the approval of the instructor and the Office of Undergraduate Studies, take one course per semester that is usually graded on a letter-grade basis for a grade of *P*, Pass, or *NP*, No Pass. Students may not elect to take more than four *P/NP* courses under this regulation. Students may, however, also receive grades of *P/NP* in courses that are graded on a *P/NP* basis only. Courses taken under the *P/NP* option are not counted toward the G-PAC requirement or the requirements for any major or minor field. Transfer students may not elect this option until the second semester of enrollment in the University. Under no circumstances may a student change from *P/NP* status to graded status, or vice versa, after the end of the eighth week of class.

**Preliminary Placement Examinations** – All foreign language departments require students to take placement tests to determine their level of proficiency in languages studied prior to enrollment at the University. The student is placed in an appropriate course on the basis of these tests. Students may not register for a course other than that determined by the placement test without written permission of the language department. There is no charge to the student for placement tests, and no credit (advanced standing) is awarded for courses waived as a result of these tests. Students who wish to register for MATH 1051 (<http://bulletin.gwu.edu/search/?P=MATH%201051>), MATH 1220 (<http://bulletin.gwu.edu/search/?P=MATH%201220>), MATH 1231 (<http://bulletin.gwu.edu/search/?P=MATH%201231>), or MATH 1252 (<http://bulletin.gwu.edu/search/?P=MATH%201252>) are required to take the placement test administered by the Department of Mathematics to determine eligibility based on their achieved score. In some cases, AP test scores or SAT II scores may be substituted for the placement test. See Interpreting Your Placement Score (<https://math.columbian.gwu.edu/interpreting-your-placement-test-score>) for more information.

**Courses Outside of Columbian College**—No more than 3 credits of Health and Wellness (HLWL) courses may count toward the 120 credits required for the bachelor's degree in Columbian College. No credit toward the degree is allowed for lifestyle, sport, and physical activity (LSPA) courses.

**Earning an Additional Credit**—In exceptional circumstances and with the prior approval of the instructor and Office of Undergraduate Advising, a student may register for and earn an additional credit in upper-division courses within the College by doing a significant amount of extra work as assigned and supervised by the instructor of record and by submitting a completed/signed Add a Credit form to the Office of Undergraduate Advising.

---

## Graduate Programs

### CCAS Regulations

CCAS provides an online Graduate Student Handbook (<http://columbian.gwu.edu/graduate-resources>) that contains additional updated information on policies, regulations, and other matters of concern to enrolled and admitted students. It is the responsibility of the student to be aware of the information contained in both this Bulletin and the Handbook. Students should also consult departmental/program handbooks and guidelines.

### Admission Requirements

A detailed description of the policies that follow is available at the Columbian College website (<http://columbian.gwu.edu/graduate-studies>). Applicants must hold an undergraduate degree from an accredited institution of higher learning. Applicants should have a strong academic background, usually with a major, or equivalent, in the field in which they intend to study for an advanced degree. Normally, a *B* average or equivalent from an accredited college is required. With evidence of special promise, such as high Graduate Record Examination (GRE) scores, an applicant whose academic record falls short of a *B* average may be accepted on a conditional basis. Meeting the minimum requirements does not assure acceptance. The departments/programs may, and often do, set higher admission standards. Students who apply in their senior year must provide evidence of the completion of their baccalaureate work before registration is permitted.

Most programs require applicants to submit scores on the GRE general test. In addition, some programs require scores on a GRE subject test. The applicant must have the Educational Testing Service send the required score reports directly to George Washington University. GRE scores are valid for five years.

Some programs require students to take prerequisite or deficiency courses within the first year of starting the degree program; such courses do not count toward degree requirements or the degree GPA. Prerequisite and/or deficiency courses are listed in the applicant's letter of admission.

### English Language Requirements for International Students

Applicants who are not citizens of countries where English is the official language or who do not hold a degree from a regionally accredited U.S. institution of higher learning

are required to submit scores from the Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS), or the Pearson Test of English-Academic (PTE). English language scores are valid for two years. The most recent test scores are used for applicants who submit multiple scores. Specified possible exemptions from this policy can be found on the Graduate Admissions website (<https://columbian.gwu.edu/graduate-applicants>). The required minimum score for admission to a program is 80 on the Internet-based or 550 on the paper-based TOEFL, or an overall band score of 6.0 on the IELTS with no individual band score below 5.0, or a score of 53 on the PTE. Some programs have higher minimum scores. Applicants who have a TOEFL score of at least 70, but lower than 80, or an IELTS overall band score of at least 5.0, but lower than 6.0, may be considered for admission on the condition that they successfully complete the Applied English Studies program prior to beginning their graduate studies.

Applicants for graduate assistantships must have a minimum score of 100 on the Internet-based TOEFL or 600 on the paper-based TOEFL, or an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE.

Students with the following English language test scores are exempt from taking GW English for Academic Purposes (EAP) courses: TOEFL, 100 Internet-based or 600 paper-based; IELTS, overall band score of 7.0 with no individual band score below 6.0; or a score of 68 on the PTE. Students with test scores below these minimums must register for an EAP course during their first semester. Students assigned EAP courses should anticipate additional tuition expenses as well as a possible extended period of time required to complete their degree program. EAP courses do not count toward degree requirements.

### Readmission

A student who wishes to resume a graduate program that had been interrupted for a period of two years or more must file a new application for admission and provide supporting documentation to be considered for readmission. Readmission and transfer of credits is not guaranteed, and the application is subject to review by the department concerned and/or the dean. The student may be required to take additional coursework and qualifying examinations on the coursework completed. A student who wishes to resume a graduate program that has been interrupted for a period of less than two years must petition the department and Associate Dean.

Readmission and transfer of credits is not guaranteed, and back-registration may be required.

### Grades

Information on grades and computing the grade-point average is found under University Regulations (p. 25).

The symbol / (Incomplete) indicates that only a small portion of the required coursework remains to be completed and that a satisfactory explanation has been given to the instructor for the

student's failure to complete the required work for a course. The conditions of the Incomplete must be detailed in a formal contract signed by the student and instructor and submitted to the department prior to recording the *I*. Failure to follow the conditions of the incomplete contract will result in a grade of *F*. All other policies governing Incompletes are indicated under University Regulations (p. 25).

The symbol *IPG* (In Progress) is given for all thesis and dissertation research courses until the thesis or dissertation is completed. Upon the satisfactory completion of the thesis or dissertation, the symbol *IPG* is change by the College to *CR* (Credit). *CR* may be indicated for advanced reading and research courses and independent research courses.

## Scholarship Requirements

Graduate students are required to maintain a minimum cumulative grade-point average of 3.0 (*B*) in all coursework taken following admission to a graduate program in the College. This includes credit taken for dual and joint degrees but excludes prerequisite and deficiency coursework. A cumulative GPA below 3.0 results in termination from the program unless the department successfully petitions the dean's office for academic probation rather than termination. If, after one semester of probation, a student's cumulative GPA remains below 3.0, they are subject to termination. Individual departments/programs may require a higher average. Once a student has matriculated at GW, graduate coursework that is taken at the University or through the Consortium and forms part of the student's departmentally-approved program of studies may be included in the grade-point average. When a grade of *F* is received for a course, the grade is included in the student's grade-point average whether or not the course is repeated. Receiving a grade of *F* in a graduate course may be grounds for probationary status or termination of degree candidacy.

A student may repeat a course in which a grade of *C-* or above was received only when permitted to do so by the dean and the department concerned, unless the course description states that the course may be repeated for credit. A written statement of permission must be submitted for approval to the CCAS Graduate Office by the director of graduate studies. If such a course is repeated, both grades received remain on the student's record and are included in the student's grade-point average. The second taking of the course does not count toward degree requirements.

A graduate student may take an advanced undergraduate course for graduate credit only upon the approval of the department at the time of registration. Such approval is granted only with the provision that the student complete additional work in order to receive graduate credit.

## Program of Studies

The program of studies is a formal agreement between a student and a department/program of the requirements to be met in completing a specific degree program as well as

the dates by which each requirement must be completed. Students should consult their department's director of graduate studies to outline their program of studies as soon as they begin graduate work.

Students must make sure that they are fully informed of the requirements of Columbian College of Arts and Sciences as well as the requirements of their department or program. Students who must complete additional requirements as specified in their letter of admission must consult the Director of Graduate Studies early in their first semester.

## Academic Workload

All degree candidates must be registered for a minimum of 3 credits in the spring and fall semesters unless they are eligible for continuing research. Students finishing in the summer may contact the CCAS Graduate office to register for 0 credits of continuous enrollment.; continuous enrollment is not an option during the fall and spring semesters. Full-time students register for 9 to 12 credits each fall and spring semester, half-time students for 5 to 8 credits, and part-time students for 3 or 4 credits. In the summer, full-time status requires 6 credits and half-time status requires 3 credits; these enrollment requirements not apply to students who have fewer than the stated number of credits remaining to complete their programs. No more than 15 credits may be taken during any one semester without permission of the department and the Dean. Students who are employed more than 20 hours per week should not register for more than 6 credits in any semester.

## Continuous Enrollment

All students must be continuously enrolled while working toward a degree, except during the summer sessions (unless required by the program or if the student intends to graduate in the summer). Students who have completed all coursework and thesis or dissertation research requirements and are within CCAS deadlines must register for 1 credit of continuing research (CCAS 0920 for master's students, CCAS 0940 for doctoral students) each semester until completion of the program; the course reference numbers are found in the Schedule of Classes under Columbian College. If continuous registration is not maintained, the student is dropped from the degree program unless they are registered for an approved leave of absence by the CCAS Graduate Office.

## Leave of Absence

A student who is temporarily unable to continue their program of studies may request leave of absence for a specific period of time, not to exceed two semesters during the total period of degree candidacy. If the request is approved by the program and the Associate Dean for Graduate Studies, CCAS will register the student for a leave of absence for each semester. Leaves of absence are normally granted for medical or family reasons and may be granted for other reasons at the discretion of the department and Associate Dean.

## Special Program Requirements

Certain programs require degree candidates to demonstrate a reading knowledge of an appropriate foreign language or languages, a competence in quantitative methods, or some other special subject requirement. Courses taken at the undergraduate level to fulfill these requirements may not be counted in the number of graduate credits required for these programs.

## Graduation Requirements

All students must submit an online Application for Graduation (<http://registrar.gwu.edu/online-graduation-application-instructions>) early in the semester or summer session in which they intend to graduate. Students must be registered in active status in the College during the semester or summer session in which they plan to graduate. Degrees are conferred in January, May, and August. Students who have completed the requirements for a degree but have not yet been awarded the degree are issued a letter to this effect upon request to the CCAS Graduate Office. A commencement ceremony is held annually in May.

## Fellowships and Financial Aid

Many departments offer merit-based graduate assistantships and fellowships; students should consult their department/program concerning funding opportunities. Graduate assistants and University Fellows are appointed by the Associate Dean for Graduate Studies. Other kinds of sponsored and University awards are available. Awards are based on academic excellence, and only full-time graduate degree candidates in Columbian College are eligible to be considered. Doctoral candidates may be funded for a maximum of five years, MA and M candidates for a maximum of two years, and MFA candidates for a maximum of three years.

Students applying for admission who also wish to apply for an assistantship/fellowship should submit a completed application for admission before the funding admission deadline. Currently enrolled students who wish to apply for graduate student support should consult their departmental requirements.

International students applying for graduate assistantships/fellowships should refer to the International Student Financial Aid section (p. 61) of this Bulletin for regulations governing the appointment of international graduate assistants.

Students who wish to apply for loans should indicate their intent to do so on the application for admission. An overview of funding opportunities is available from the University's Office of Graduate Student Assistantships and Fellowships (<http://www.gwu.edu/~fellows>).

## Partnerships

CCAS graduate programs have long-term partnerships with important Washington-area institutions that include the Smithsonian Institution; National Institute of Standards and Technology and other federal agencies; the Folger

Shakespeare Library; the Shakespeare Theatre; and the Corcoran Gallery, Phillips Collection, and Textile Museum.

## MAJORS

### Undergraduate Majors

The Columbian College of Arts and Sciences offers the bachelor's degrees listed below.

All fields listed below (except where indicated) may lead to the Bachelor of Arts degree.

- Africana Studies (p. 93)
- American Studies (p. 101)
- Anthropology (p. 114)
- Arabic Studies (p. 167)
- Archaeology (p. 115)
- Art History (p. 220)
- Art History and Fine Arts (p. 225)
- Astronomy and Astrophysics (<http://bulletin.gwu.edu/arts-sciences/physics/bs-astronomy-astrophysics>)
- Biological Anthropology (p. 117)
- Biology, Bachelor of Arts (p. 137)
- Biology, Bachelor of Science (p. 139)
- Biophysics (p. 325)
- Chemistry, Bachelor of Arts (p. 153)
- Chemistry, Bachelor of Science (p. 156)
- Chinese Language and Literature (p. 180)
- Classical Studies (p. 167)
- Cognitive Neuroscience (<http://bulletin.gwu.edu/arts-sciences/psychology/ba-cognitive-neuroscience>)
- Communication (p. 302)
- Creative Writing and English (p. 208)
- Criminal Justice (p. 390)
- Dance (p. 415)
- Digital Media Design, Bachelor of Fine Arts (p. 171)
- Economics, Bachelor of Arts (p. 193)
- Economics, Bachelor of Science (p. 194)
- English (p. 210)
- Environmental Studies (p. 216)
- Fine Arts, Bachelor of Arts (p. 222)
- Fine Art, Bachelor of Fine Arts (p. 172)
- Fine Art Photography, Bachelor of Fine Arts (p. 172)
- French Language, Literature, and Culture (p. 382)
- Geography (p. 240)
- Geological Sciences, Bachelor of Arts (p. 246)
- Geological Sciences, Bachelor of Science (p. 246)
- German Language and Literature (p. 383)
- Graphic Design, Bachelor of Fine Arts (p. 173)
- History (p. 261)

- Human Services and Social Justice (p. 390)
- Interaction Design, Bachelor of Fine Arts (<http://bulletin.gwu.edu/arts-sciences/corcoran/interaction-design-bfa>)
- Interior Architecture, Bachelor of Fine Arts (p. 269)
- Japanese Language and Literature (p. 182)
- Journalism and Mass Communication (p. 288)
- Judaic Studies (p. 272)
- Mathematics, Bachelor of Arts (p. 279)
- Mathematics, Bachelor of Science (p. 280)
- Music (p. 300)
- Neuroscience, Bachelor of Science (<http://bulletin.gwu.edu/arts-sciences/biological-sciences/ba-neuroscience>)
- Organizational Sciences (p. 303)
- Peace Studies (p. 308)
- Philosophy (p. 318)
- Philosophy: Public Affairs Focus (p. 319)
- Photojournalism, Bachelor of Fine Arts (p. 174)
- Physics, Bachelor of Arts (p. 325)
- Physics, Bachelor of Science (p. 326)
- Political Communication (p. 290)
- Political Science, Bachelor of Arts (p. 338)
- Political Science, Bachelor of Arts: Public Policy Focus (p. 341)
- Political Science, Bachelor of Science (<http://bulletin.gwu.edu/arts-sciences/political-science/bs>)
- Psychology (p. 358)
- Religion (p. 378)
- Russian Language and Literature (p. 384)
- Sociology (p. 391)
- Spanish and Latin American Languages, Literatures, and Cultures (p. 385)
- Speech, Language, and Hearing Sciences (p. 399)
- Statistics (p. 407)
- Theatre (p. 416)
- Women's, Gender, and Sexuality Studies (p. 424)

## Scholarship Performance in the Major

Major programs are defined by a set of required courses that can be internal to the home department or external to that department but still required in the major program. The prescribed curricula and minimum specific requirements for majors are outlined under each department's heading in this Bulletin. For all majors in all departments, a minimum grade of C– must be attained in all upper-level courses numbered in the 2000s through 4000s that are required for the major, regardless of whether those courses are internal or external to the home department.

If a student receives a grade of D+, D, or D– in such a course, the major department may permit that course to satisfy a

curricular requirement (such as a prerequisite), but it will not count toward the minimum number of credits required for the major until the course is repeated and a satisfactory grade (C– or better) is attained. Once the student has completed the course with a satisfactory grade, credits earned the first time the course was taken will count toward the minimum number of credits required in the major program. Credit earned for the repetition does not count toward the degree.

This condition of C– or better does not apply to introductory-level courses (numbered in the 1000s) that may apply to the major, although a department may choose to implement such a restriction based on its own discretion.

## Double Majors

Students who complete the requirements of two majors in Columbian College (such as mathematics and physics or history and economics) may graduate with a double major. Consult with advisors in the two departments concerned before officially declaring both majors with the Office of Undergraduate Studies (<https://advising.columbian.gwu.edu>).

A Columbian College student may pursue a second major in the School of Business, the School of Engineering and Applied Science, Milken Institute School of Public Health, or the Elliott School of International Affairs provided that permission to do so has been obtained from the appropriate administrative office. Students in other schools may also take a second major in Columbian College. Students wishing to pursue one of these options must request approval through the appropriate department and Columbian College's Office of Undergraduate Studies. In all cases, students must complete the general education requirements and a major in their home school in order to graduate.

Double majors do not result in two degrees. See Double Majors and Double Degrees under University Regulations.

## Special Interdisciplinary Majors

A student may propose a special interdisciplinary major, in consultation with appropriate academic advisors. The proposed major must have valid and clearly defined academic goals to be considered for approval. Only students with a 3.0 or better cumulative grade-point average are eligible to propose a special interdisciplinary major. The proposal must be submitted for approval by the end of the fourth semester or the semester following completion of 45 credits, whichever comes first.

Approval of the proposed major rests with the Committee on Undergraduate Studies (<https://advising.columbian.gwu.edu>), (<http://columbian.gwu.edu/undergraduate/advising>) which must also approve the proposed name of the major and the composition of the committee that will oversee it. At least 45 credits of the major must be completed in Columbian College. Because of the broad scope of an interdisciplinary program, it may not be part of a double major although students are

allowed to declare a minor with approval of the Committee on Undergraduate Studies.

At the discretion of the committee overseeing the major, the student must either write an acceptable senior thesis or pass a comprehensive examination in the last semester of study toward the degree. To be eligible, students must meet the requirements for Special Honors stated under University Regulations, must have a cumulative grade-point average of at least 3.5, and must receive a Pass With Distinction from all members of the major committee on the final project or thesis through the required CCAS 4191 Special Interdisciplinary Major Capstone course.

## MINORS

### Minors

Students who wish to familiarize themselves with a field outside their major may graduate with a minor in addition to the major. Not all Columbian College departments offer undergraduate minors; the requirements prescribed by those that do are listed under the department concerned. A student interested in a minor should consult a faculty advisor in the applicable department and declare both major and minor programs through the Office of Undergraduate Studies. Students may pursue at most two minors.

At least one-half of the coursework required for a minor must be done in residence. Grades of C– or better must be earned in upper-division courses, including such courses transferred as advanced standing from another institution. Courses passed with a grade below C– may be used to fulfill a minor field curricular requirement but may not be counted toward the total number of credits required for the minor.

Columbian College students can pursue minors in other schools of the University, as well as those in naval science and in sustainability.

Columbian College offers minors in the following fields:

- Africana Studies (p. 94)
- American Studies (p. 102)
- Anthropology (p. 119)
- Applied Ethics (p. 321)
- Arabic Studies (p. 169)
- Arabic and Hebrew Languages and Cultures (p. 168)
- Archaeology (p. 119)
- Art History (p. 228)
- Art History and Fine Arts (p. 229)
- Astronomy and Astrophysics (<http://bulletin.gwu.edu/arts-sciences/physics/minor-astronomy-astrophysics>)
- Biological Anthropology (p. 120)
- Biology (p. 142)
- Biophysics (p. 327)
- Chemistry (p. 161)
- Chinese Language and Literature (p. 183)
- Classical Studies (p. 169)
- Communication (p. 305)
- Creative Writing (p. 213)
- Criminal Justice (p. 392)
- Cross-Cultural Communication (p. 121)
- Dance (p. 416)
- Economics (p. 195)
- English (p. 214)
- English for Business Students (p. 214)
- Film Studies (p. 218)
- Fine Arts (p. 228)
- French Language, Literature, and Culture (p. 386)
- Geographic Information Systems (p. 241)
- Geography (p. 242)
- Geological Sciences (p. 247)
- German Language and Literature (p. 387)
- Graphic Design (p. 177)
- Hebrew (<http://bulletin.gwu.edu/arts-sciences/classical-near-eastern-languages-civilizations/minor-hebrew>)
- History (p. 263)
- Human Services and Social Justice (p. 392)
- Italian Language and Literature (p. 387)
- Japanese Language and Literature (p. 183)
- Jazz Studies (p. 301)
- Journalism and Mass Communication (p. 291)
- Judaic Studies (p. 273)
- Korean Language and Literature (p. 184)
- Law and Society (p. 393)
- LGBT and Sexuality Studies (p. 426)
- Linguistics (p. 67)
- Logic (p. 321)
- Mathematics (p. 281)
- Mind-Brain Studies (p. 322)
- Music (p. 301)
- Organizational Communication (p. 306)
- Organizational Sciences (p. 306)
- Peace Studies (p. 310)
- Philosophy (p. 322)
- Physics (p. 327)
- Political Science (p. 343)
- Psychology (p. 359)
- Public Policy (p. 344)
- Religion (p. 379)
- Russian Language and Literature (p. 388)
- Sociocultural Anthropology (p. 121)
- Sociology (p. 393)

- Spanish and Latin American Languages, Literatures, and Cultures (p. 388)
- Speech, Language, and Hearing Science (p. 401)s
- Statistics (p. 408)
- Theatre (p. 417)
- Women's, Gender, and Sexuality Studies (p. 427)

## MASTER'S

Columbian College of Arts and Sciences offers the following Master degrees.

- Master of Arts in the field of American studies (p. 102)
- Master of Arts in the field of anthropology (p. 122)
- Master of Arts in the field of applied economics (p. 196)
- Master of Arts in the field of art history (p. 229)
- Master of Arts in the field of art therapy (p. 126)
- Master of Arts in the field of art therapy practice (p. 127)
- Master of Arts in the field of Chinese language and culture (p. 184)
- Master of Arts in the field of communication management (<http://bulletin.gwu.edu/arts-sciences/organizational-sciences-communication/ma-communication-management>)
- Master of Arts in the field of criminology (p. 394)
- Master of Arts in the field of decorative arts and design history (p. 175)
- Master of Arts in the field of English (p. 214)
- Master of Arts in the field of environmental resource policy (p. 365)
- Master of Arts in the field of exhibition design (p. 175)
- Master of Arts in the field of forensic psychology (p. 349)
- Master of Arts in the field of history (p. 263)
- Master of Arts in the field of interaction design (<http://bulletin.gwu.edu/arts-sciences/corcoran/interaction-design-ma>)
- Master of Arts in the field of Islamic studies (p. 380)
- Master of Arts in the field of leadership education and development (p. 306)
- Master of Arts in the field of mathematics (p. 281)
- Master of Arts in the field of media and strategic communication (p. 292)
- Master of Arts in the field of museum studies (p. 295)
- Master of Arts in the field of new media photojournalism (p. 176)
- Master of Arts in the field of organizational sciences (p. 307)
- Master of Arts in the field of philosophy (p. 323)
- Master of Arts in the field of political science (p. 344)
- Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 323)
- Master of Arts in the field of public policy-women's, gender, and sexuality studies (p. 427)
- Master of Arts in the field of sociology (p. 394)
- Master of Arts in the field of speech-language pathology (p. 401)
- Master of Arts in the field of women's, gender, and sexuality studies (p. 428)
- Master of Fine Arts in the field of classical acting (p. 166)
- Master of Fine Arts in the field of dance (p. 418)
- Master of Fine Arts in the field of fine arts (p. 230)
- Master of Fine Arts in the field of interior architecture (p. 270)
- Master of Fine Arts in the field of production design (p. 418)
- Master of Forensic Sciences (p. 234)
- Master of Forensic Sciences in the field of forensic molecular biology (<http://bulletin.gwu.edu/arts-sciences/forensic-sciences/mfs-forensic-molecular-biology>)
- Master of Forensic Sciences in the field of forensic chemistry (<http://bulletin.gwu.edu/arts-sciences/forensic-sciences/mfs-forensic-chemistry>)
- Master of Public Administration (p. 366)
- Master of Public Policy (p. 367)
- Master of Science in the field of anatomical and translational sciences (p. 105)
- Master of Science in the field of applied mathematics (p. 281)
- Master of Science in the field of biological sciences (p. 142)
- Master of Science in the field of bioinformatics and molecular biochemistry (p. 129)
- Master of Science in the field of biostatistics (p. 146)
- Master of Science in the field of chemistry (p. 161)
- Master of Science in the field of crime scene investigation (p. 235)
- Master of Science in the field of data science (p. 179)
- Master of Science in the field of environmental and green chemistry (p. 162) (p. 161)
- Master of Science in the field of geography (p. 243)
- Master of Science in the field of human paleobiology (p. 265)
- Master of Science in the field of physics (p. 328)
- Master of Science in the field of statistics (p. 408)

Unless otherwise specified, the requirements listed below are applicable to candidates for all master's degrees offered by Columbian College of Arts and Sciences.

### General Requirements

Minimum credit requirements follow, but it should be noted that many departments set credit requirements well above the number of credits stated here. Specific requirements appear under the name of the department or program concerned in the bulletin. For a master's degree program that includes a thesis, satisfactory completion of a minimum of 30 credits of

approved graduate work is required. For a master's degree program that does not include a thesis, the number of credits of approved graduate coursework is determined by the department. Some departments offer a choice between a thesis option and a non-thesis option. Undergraduate courses taken without additional graduate-level work, deficiency coursework, and EAP courses are not counted toward program requirements or the degree GPA.

Upon approval, up to one-half of the required graduate work may be taken in courses offered by another degree-granting division of this University. With approval, up to one-quarter of work toward a master's degree may be taken in courses offered by the other affiliated institutions of the Consortium of Universities of the Washington Metropolitan Area. In all cases, at least one-half of the hours counting toward the master's degree must be taken after entering the program, in graduate courses offered by Columbian College of Arts and Sciences.

Master's students have an overall four-year time limit for completion of all degree requirements. An approved leave of absence is not counted towards the time limit requirement. Students must apply, and be approved for an extension of time if they wish to study beyond the time limit.

## Transfer of Credit

A maximum of one-quarter of the credits of graduate course work required for a degree may be approved for transfer to a graduate program in Columbian College from enrollment in non-degree status at GW or from another degree-granting school of this University or another accredited college or university. For a transfer of credit to be approved, *all* of the following conditions must be met:

1. the coursework must be from an accredited institution and must have been taken within the five years prior to matriculation;
2. it must be approved by the department as part of the student's program of studies;
3. it must not have been applied to the completion of requirements for another degree;
4. it must be post-baccalaureate graduate-level coursework;
5. the course must have received a minimum grade of B.

Requests for transfer credit must be submitted in writing and approved by the department's director of graduate studies and the dean during the student's first year in the program. An official transcript of the coursework must be on file before the request can be considered. Grades from transfer credit are not part of the graduate GPA, except in the case of approved non-degree GW credits.

Once enrolled in Columbian College of Arts and Sciences, students are not permitted to enroll another university, except under extraordinary circumstances; permission must be sought from the department and Associate Dean in advance.

## Master's Comprehensive Examination

Many programs require degree candidates to pass a Master's Comprehensive Examination in the major subject. The nature and form of the examination are the responsibility of the department or program. A student who fails to pass the Master's Comprehensive Examination may, with the approval of the department, repeat the examination at the next scheduled examination date. If the student fails a second time, no further opportunity to take the examination is permitted, and the student's degree candidacy is terminated.

## The Thesis

The main purposes of a master's thesis are to demonstrate the student's ability to make independent use of information and training and to furnish objective evidence of constructive powers in a chosen field. The student normally registers for 3 to 6 credits of thesis research supervised by a director and a reader. Registration for thesis research entitles the student to the advice and direction of the member of the faculty under whom the thesis is to be written. If a student has completed the credits required for the degree but has not yet completed their thesis, they may register for one credit of Continuing Research (CCAS 0920). The thesis subject must be approved by the faculty members who will direct the thesis. All theses must be submitted electronically by the stated deadlines and meet the formatting and other requirements set forth on the Electronic Theses and Dissertation (<http://library.gwu.edu/etd>) webpage.

## DOCTORAL

### Doctoral degrees

- Doctor of Philosophy (p. 87)
- Doctor of Psychology (p. 89)

---

### Doctor of Philosophy Program

Columbian College of Arts and Sciences offers the following doctor of philosophy degrees

- Doctor of Philosophy in the field of American studies (p. 102)
- Doctor of Philosophy in the field of American religious history (p. 264)
- Doctor of Philosophy in the field of anthropology (p. 123)
- Doctor of Philosophy in the field of applied social psychology (<http://bulletin.gwu.edu/arts-sciences/psychology/applied-social-psychology-phd>)
- Doctor of Philosophy in the field of biological sciences (p. 142)
- Doctor of Philosophy in the field of biochemistry and systems biology (p. 143)
- Doctor of Philosophy in the field of biostatistics (p. 1048)
- Doctor of Philosophy in the field of cancer biology (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-cancer-biology>)

- Doctor of Philosophy in the field of chemistry (p. 163)
- Doctor of Philosophy in the field of clinical psychology (<http://bulletin.gwu.edu/arts-sciences/psychology/phd-clinical-psychology-2>)
- Doctor of Philosophy in the field of cognitive neuroscience (<http://bulletin.gwu.edu/arts-sciences/psychology/cognitive-neuroscience-phd>)
- Doctor of Philosophy in the field of economics (p. 197)
- Doctor of Philosophy in the field of English (p. 215)
- Doctor of Philosophy in the field of genomics and bioinformatics (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-genomics-bioinformatics>)
- Doctor of Philosophy in the field of history (p. 264)
- Doctor of Philosophy in the field of human paleobiology (p. 265)
- Doctor of Philosophy in the field of mathematics (p. 282)
- Doctor of Philosophy in the field of microbiology and immunology (p. 144)
- Doctor of Philosophy in the field of neuroscience (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-neuroscience>)
- Doctor of Philosophy in the field of pharmacology and physiology (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-pharmacology-physiology>)
- Doctor of Philosophy in the field of physics (p. 328)
- Doctor of Philosophy in the field of political science (p. 347)
- Doctor of Philosophy in the field of industrial/organizational psychology (<http://bulletin.gwu.edu/arts-sciences/organizational-sciences-communication/phd-io-psychology>)
- Doctor of Philosophy in the field of public policy and administration (p. 369)
- Doctor of Philosophy in the field of statistics (p. 409)

The doctor of philosophy program is divided into two parts: precandidacy and candidacy. During precandidacy, a student completes the general requirements and the General Examination. Once admitted to candidacy, the student prepares, submits, and defends the dissertation.

## General requirements

The programs leading to the degree of doctor of philosophy require the satisfactory completion of a minimum of 72 credits of approved graduate coursework, including at least 6 and at most 24 credits of dissertation research. Students must receive the permission of the Associate Dean to complete less than 6 credits of dissertation research. A minimum of 48 of the 72 credits must be taken in the pre-candidacy stage, in preparation for the general examination. A maximum of 12 of these credits may be taken in courses offered by the other affiliated members of the Consortium of Washington Area Universities. The exact number of credits required for any part of the total program is assigned by each department and may exceed the minimum required by the Columbian College.

PhD students have an overall eight-year time limit for completion of all degree requirements. An approved leave of absence is not counted towards the time limit requirement. Students must apply, and be approved for an extension of time if they wish to study beyond the time limit.

## Transfer of credit

Entering students who hold a master's degree from an accredited institution and in a field relevant to the proposed doctoral field of study may request transfer of up to 30 credits toward a doctoral degree. For those who do not hold a master's degree, a maximum of 30 credits may be transferred, provided the conditions below are met:

1. The coursework must be from an accredited institution and must have been taken within five years prior to matriculation.
2. The transfer requests must be approved by the department as part of the student's program of studies.
3. The credits must not have been applied to the completion of requirements for another degree.
4. The credits must be in post-baccalaureate, graduate-level coursework.
5. All coursework must have received a minimum grade of *B*.

Requests for transfer credit must be submitted in writing and approved by the department and the Associate Dean for Graduate Studies during the student's first year at GW. An official transcript of the coursework must be on file before the request can be considered. Grades from transfer credit will not be counted towards the graduate degree GPA, except in the case of approved non-degree GW credits.

## The general examination

The general examination is composed of an examination in each of the areas of study comprising the student's program. A student who fails to pass any part of the general examination may, with the approval of the department, repeat the examination at the next scheduled examination date. If the student fails a second time, no further opportunity to take the examination is permitted, and the student's degree candidacy is terminated.

Satisfactory performance on the general examination is required for admission to candidacy but does not guarantee it. A department recommends advancement to candidacy only if satisfied with the student's performance in every aspect of the program, only after a dissertation advisor has been selected and a dissertation area determined, and only if the department is confident of the student's ability to complete the dissertation within the allotted time.

## Master of philosophy degree

Upon departmental recommendation and approval of the Dean, the degree of master of philosophy may be awarded to students who have been advanced to candidacy and successfully completed all requirements for the doctor

of philosophy degree up to and including the general examination. Not all departments recommend students for this degree. Students requesting the MPhil must contact the Columbian College Office of Graduate Studies and submit an online application for graduation (<http://registrar.gwu.edu/online-graduation-application-instructions>). The degree is not automatically conferred upon advancing to candidacy.

## Dissertation and final examination

A dissertation directed or co-directed by a member of the GW faculty is required of each doctoral candidate as evidence of ability to perform scholarly research and interpret its results. The student's core research committee is composed of a director and two readers who advise the student during the dissertation research process. It is permissible for the dissertation director to be drawn from outside of the academic unit in which the student is enrolled. If the director is from outside the academic unit, then the committee must also have a co-director from inside the unit.

The student normally enrolls for 6 to 24 hours of dissertation research after admission to candidacy. Dissertation Research must be taken in units of no less than 3 credits per semester. When the dissertation has been approved by the director and the members of the Dissertation Research Committee, the candidate takes the Final Examination (the defense). A committee of examiners composed of Columbian College faculty and outside scholars conducts the examination. This examination committee consists of the director (and co-director, if applicable) and the two readers who made up the research committee, as well as two additional examiners and a chair. The examiners cannot have had a direct role in the dissertation research process. One examiner must be from within the academic unit, with the other examiner coming from outside the academic unit. The chair of the examination cannot be drawn from the research committee or examiners. If the candidate passes, they are recommended to Columbian College for the degree of doctor of philosophy. The dissertation must be submitted electronically by the stated deadline and meet the formatting and other requirements set forth on the Electronic Theses and Dissertations website (<http://library.gwu.edu/etd>).

## Dual doctor of medicine/doctor of philosophy degree program

A dual degree program is available to qualified students who seek both the doctor of medicine and doctor of philosophy degrees. The requirements that must be fulfilled for both degrees are identical to those currently and separately established in the School of Medicine and Health Sciences and Columbian College of Arts and Sciences. A student working toward these degrees may apply a maximum of 24 credits of approved coursework in the School of Medicine and Health Sciences toward the doctor of philosophy degree. The estimated time for the completion of this dual program is six years. In order to enter the dual degree program, a prospective student must apply for and gain admission both to Columbian

College and to the School of Medicine and Health Sciences separately through established procedures. Upon admission to both schools, the student may then apply for affiliation with the dual degree program.

---

## Doctor of Psychology Program

Columbian College of Arts and Sciences offers the following doctor of psychology degree

- Doctor of Psychology in the field of professional psychology (p. 349)

## General requirements

The program leading to the degree of doctor of psychology requires the satisfactory completion of a minimum of 83 credits of approved graduate work. A maximum of 12 credits may be taken in courses offered by the other affiliated members of the Consortium of Universities. Doctor of psychology students have an overall five-year time limit for completion of all degree requirements. An approved leave of absence is not counted towards the time limit requirement. Students must apply, and be approved for an extension of time if they wish to study beyond the time limit.

## Transfer of credit

Provisions are the same as those of the doctor of philosophy program, above.

## General examination

Each student is required to complete the General Examination no later than the beginning of the final semester of the program. A student who fails to pass any part of the General Examination may, in exceptional circumstances, and with the approval of the program, repeat the examination at the next scheduled examination date. If the student fails a second time, no further opportunity to take the examination is permitted, and the student's degree candidacy is terminated.

## The master of psychology degree

Students who have earned 53 credits toward the PsyD may receive the MPsy degree. Further information on the requirements of the doctor of psychology degree appears under Professional Psychology (p. 348). Students requesting the MPsy degree must contact the CCAS Graduate Office and submit an online application for graduation (<http://registrar.gwu.edu/online-graduation-application-instructions>). The degree is not automatically conferred after completion of 53 credits.

## CERTIFICATES

### Graduate certificate programs

Columbian College of Arts and Sciences offers a range of graduate certificate programs. Departments and programs offering graduate certificates are indicated in italics below.

- Graduate certificate in anatomical and (p. 106)*translational sciences—Institute of Biomedical Sciences* (18 credits)
- Graduate certificate in budget and public finance (p. 370)—*Public Policy and Public Administration* (12 credits)
- Graduate certificate in contexts of environmental policy (p. 370)—*Public Policy and Public Administration - Environmental Resource Policy* (12 credits)
- Graduate certificate in data science (p. 179)—*Data Science* (12 credits)
- Graduate certificate in documentary filmmaking (p. 283)—*Media and Public Affairs* (9 credits)
- Graduate certificate in environmental resource policy (p. 372)—*Public Policy and Public Administration - Environmental Resource Policy* (12 credits)
- Graduate certificate in financial mathematics (p. 282)—*Mathematics* (12 credits)
- Graduate certificate in forensic investigation (p. 235)—*Forensic Sciences* (18 credits)
- Graduate certificate in geographical information systems (p. 244)—*Geography* (12 credits)
- Graduate certificate in Islamic studies (p. 381)—*Religion* (18 credits)
- Graduate certificate in Jewish cultural arts (<http://bulletin.gwu.edu/arts-sciences/judaic-studies/gc-jewish-cultural-arts>)—*Judaic Studies* (12 credits)
- Graduate certificate in LGBT health policy and practice (p. 350)—*Professional Psychology* (12 credits)
- Graduate certificate in mathematics (p. 282)—*Mathematics* (12 credits)
- Graduate certificate in museum collections management and care (p. 295)—*Museum Studies*, online (12 credits)
- Graduate certificate in museum studies (p. 295)—*Museum Studies* (18 credits)
- Graduate certificate in nonprofit management (p. 372)—*Trachtenberg School of Public Policy and Public Administration* (12 credits)
- Graduate certificate in women's, gender, and sexuality studies (p. 429)—*Women's, Gender, and Sexuality Studies* (12 credits)

## Admission

Certificate students are not automatically admitted to a master's or doctoral program; they must submit an application for admission, meet the admission requirements, and be admitted to the degree program.

With departmental and Columbian College approval, students may concurrently register for a certificate and another Columbian College degree. If the certificate is conferred by another school, students must secure permission from both schools and apply and be admitted to both schools.

## Certificate Completion

The Columbian College of Arts and Sciences requires all certificate candidates, both full-time and part-time, to complete all academic requirements within a maximum of three calendar years from admission. An approved leave of absence is not counted towards the time limit requirement. Students must apply, and be approved for an extension of time if they wish to study beyond the time limit.

To be eligible for a Graduate Certificate, students must complete all course requirements with a minimum GPA of 3.0, with no grades of *F*.

## Transfer of Credit

Requests for transfer credit must be submitted in writing and approved by the department's director of graduate studies and the dean during the student's first year in the program. An official transcript of the coursework must be on file before the request can be considered. Grades from transfer credit are not part of the graduate GPA.

Once enrolled in Columbian College of Arts and Sciences, students are not permitted to transfer coursework taken outside the University, except under extraordinary circumstances; permission must be sought from the dean in advance.

### Transfer of credit to the Certificate

All courses transferred in to a graduate certificate program must meet the following conditions:

- The coursework must be from an accredited institution and must have been taken within the five years prior to matriculation.
- It must be approved by the department as part of the student's program of studies.
- It must be post-baccalaureate graduate-level coursework.
- The course must have received a minimum grade of *B*.

In addition, the following restrictions apply:

- At most one course from outside GW can be transferred in.
- At most two courses that have been used toward a previously completed CCAS program can be transferred in.
- No course may count toward more than one certificate.

### Transfer of credit from the Certificate to degree programs

Students may transfer up to 100 percent of coursework (maximum of 18 credits) in a CCAS certificate program to another CCAS degree program if the curriculum for the certificate is wholly a subset of the degree, providing the conditions below are met:

- The coursework must have been taken within the five years prior to matriculation.
- The course must have received a minimum grade of *B*.

# COURSES

## Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
  - Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
  - Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
  - The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- 
- Africana Studies (AFST) (p. 1127)
  - American Studies (AMST) (p. 1127)
  - Anthropology (ANTH) (p. 1135)

## GENERAL EDUCATION CURRICULUM - PERSPECTIVE, ANALYSIS, COMMUNICATION (G-PAC)

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

**G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website** (<https://advising.columbian.gwu.edu/general-education-courses>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one

course in this category required by the University General Education Requirement).

- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

## AFRICANA STUDIES

The Africana Studies program promotes an interdepartmental, interdisciplinary examination of the diverse histories, cultures, politics, and peoples of the African diaspora. Regional coverage includes the United States, Africa, the Caribbean, Latin America, Europe, and the Middle East. Students are introduced to methodology from core areas of the humanities and social sciences to develop skills in comparative, cross-cultural analysis and research. A student's course of study might range from Caribbean cultures, the literature of Black America, the historical evolution of African independence movements, or the sociology of power and equality in the United States, to an anthropological approach to the transatlantic slave trade.

Visit the department website (<https://africanastudies.columbian.gwu.edu>) for more information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in Africana studies (p. 93)

### Minor

- Minor in Africana studies (p. 94)

## FACULTY

**Committee on Africana studies** J. James (*Director*), N. Blyden, H.G. Carrillo, S. Lubkemann, J.A. Miller, G. Squires, G. Wald, A. Zimmerman

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

**AFST 1001. Introduction to Africana Studies. 3 Credits.**  
An interdisciplinary introduction to the study of people of Africa and the African diaspora in historical context. Links in the cultural, political, and intellectual experiences of people of African descent in the Americas, Caribbean, Europe, and Africa.

**AFST 3001. Documenting Black Lives. 3 Credits.**  
Students complete and present an original research project pertaining to black history and culture; research strategies, including the use of digital material, historical archives, and public history sites. Recommended background: completion of a prior course in any Africana-related topic and an interest in research.

BACHELOR OF ARTS WITH A MAJOR IN AFRICANA STUDIES REQUIREMENTS

The following requirements must be fulfilled:  
  
The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).  
  
Additional curriculum requirements:

Code	Title	Credits
<b>Required for the major–39 credits:</b>		
AFST 1001	Introduction to Africana Studies (taken within three semesters of declaring the major)	
African American studies:		
HIST 3360	African American History to 1865	
SOC 2179	Race and Minority Relations	
ENGL 3570	Nineteenth-Century Black Literature	
or ENGL 3950	Cultural Theory and Black Studies	
Another course from the following designated courses: *		

AMST 2440	The American City
ENGL 3940	Topics in African American Literary Studies
ENGL 3945	African American Poetry
HIST 3360	African American History to 1865
HIST 3361	African American History Since 1865
HIST 3362	African American Women’s History
HIST 2312	The American Civil War and Reconstruction, 1850-1877
MUS 1108	History of Jazz
MUS 3175	Topics in Music History and Literature
SOC 2151	Jackie Robinson: Race, Sports, and the American Dream
SOC 2170	Class and Inequality in American Society
SOC 2179	Race and Minority Relations
SOC 2169	Urban Sociology
Four courses in African studies:	
ANTH 3708	Anthropology of Africa
HIST 3520	Africans in the Making of the Atlantic World
or HIST 3540	West Africa to Independence
Two additional courses from the following list of designated courses *	
HIST 3501	Topics: Africa
HIST 3510	African History to 1880
HIST 3520	Africans in the Making of the Atlantic World
HIST 3530	Women in Africa
HIST 3540	West Africa to Independence
ANTH 3801	African Roots from Australopithecus to Zimbabwe
IAFF 2093	Africa: Problems and Prospects
PSC 2381	Comparative Politics of Sub-Saharan Africa
PSC 2482	African International Politics

FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation
FREN 3560	Topics in Contemporary Francophone Literature and Cinema
GEOG 3154	Geography of the Middle East and North Africa
GEOG 3164	The Geography of Africa
Two courses in Latin American, Latino, and Caribbean studies:	
HIST 3710	History of Latin America I
Another course from the following list of designated courses *	
ENGL 3920	U.S. Latina/o Literature and Culture
ENGL 3930	Topics in U.S. Latina/o Literature and Culture
FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation
FREN 3560	Topics in Contemporary Francophone Literature and Cinema
GEOG 3161	Geography of Latin America
IAFF 2090	Latin America: Problems and Promise
HIST 3711	History of Latin America II
SPAN 3600	Special Topics
An upper-division course in gender studies from the following list of designated courses (this course may also count toward one of the above categories) *	
ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives
HIST 3530	Women in Africa
HIST 3362	African American Women's History
PHIL 2125	Philosophy of Race and Gender
REL 3481	Women in Islam
One additional course from above or from the following:	
AMST 2020	Washington, DC: History, Culture, and Politics
AMST 2410	Twentieth Century U.S. Immigration
ENGL 1610	Introduction to Black American Literature I

ENGL 1611 Introduction to Black American Literature II

HIST 2803 The Ancient Near East and Egypt to 322 B.C.

REL 3475 Islamic Religion and Art

REL 3414 Islamic Philosophy and Theology

GEOG 2133 People, Land, and Food

GEOG 2141 Cities in the Developing World

## MINOR IN AFRICANA STUDIES

### REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including a 3-credit required course and 18 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
AFST 1001	Introduction to Africana Studies	
<b>Electives</b>		
18 credits in courses to be selected in consultation with the program director.		

Visit the program website (<https://africanastudies.columbian.gwu.edu/minor-africana-studies>) for additional information.

## AMERICAN STUDIES

American Studies explores the culture and politics of the United States and the role of the United States in the world. Faculty and students analyze issues of race, gender, sexuality, and other forms of power in American life; transnational flows of culture, ideas, and religious beliefs; the development and transformation of public cultures and spaces; and the ways that policy interacts with each of these areas of inquiry. At both the undergraduate and graduate levels, students are prepared for careers in academic and popular education, media, journalism, cultural resource management, museums, and preservation, as well as for further education in law, medicine, academia, and a wide range of disciplines.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in American studies (p. 101)

## Combined program

- Dual Bachelor of Arts with a major in American studies and Master of Arts in the field of American Studies (p. 101)

## Minor

- Minor in American studies (p. 102)

## GRADUATE

### Master's program

- Master of Arts in the field of American studies (p. 102)

### Doctoral program

- Doctor of Philosophy in the field of American studies (p. 102)

## FACULTY

**University Professor** V.N. Gamble

**Professors** D. Bjelajac, M. McAlister, T.A. Murphy, G. Wald  
(Chair)

**Associate Professors** E. Anker, J.N. Cohen-Cole, T. Guglielmo, C. Heap, A. Musser, S. Osman, E. Peña

**Assistant Professors** N. Ivy, D. Orenstein

**Professorial Lecturers** K. Ott, J. Deutsch

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **AMST 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **AMST 1050. Explorations in American Culture. 0-3 Credits.**

Exploration of different aspects of American culture depending on the topic. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

#### **AMST 1070. The American Cinema. 3 Credits.**

History and criticism of American films. The course enables the student to recognize and evaluate cinema techniques, to express the evaluation clearly in writing, and to understand the role of films in the context of American culture. Laboratory fee.

#### **AMST 1100. Politics and Film. 0-3 Credits.**

How American films interpret and challenge political power in America.

#### **AMST 1160. Race, Gender, and Law. 3 Credits.**

Significant civil rights cases, critical race theory, feminist theory, and current public policy debates on domestic violence, mass imprisonment, sexual assault, and racial profiling.

#### **AMST 1200. The Sixties in America. 3 Credits.**

A survey of American society, culture, and politics during the decade of the 1960s. Topics include the civil rights movement, the student movement, the Vietnam War, and the counterculture.

#### **AMST 2000. Sophomore Colloquium. 3 Credits.**

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester; see department for more details. Permission of the instructor required prior to enrollment.

#### **AMST 2010. Early American Cultural History. 3 Credits.**

How culture was important in the creation of the United States—in its origins as a colonial outpost and its expansion across the continent; in its hierarchies and expressions of power, especially as organized by race, class, ethnicity, or gender; in the creation of democracy and the valuing of free expression; and in the development of cities and the varied uses of the countryside. Same as HIST 2010.

#### **AMST 2011. Modern American Cultural History. 3 Credits.**

The effects of culture in the shaping of the United States since 1876. The role of the mass media; effects of cultural conceptions on the physical landscape; changing ideas of race, ethnicity, gender, and sexuality; and the political meanings of cultural conflict. Transnational influences on U.S. culture and effects of U.S. culture abroad. Same as HIST 2011.

#### **AMST 2020. Washington, DC: History, Culture, and Politics. 0-3 Credits.**

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. (Same as HIST 2020).

**AMST 2020W. Washington, DC: History, Culture, and Politics. 0-3 Credits.**

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 2020).

**AMST 2071. Introduction to the Arts in America. 3 Credits.**

A survey of American art from the period of colonial exploration and settlement to the postmodern present. Political and social meanings of painting, sculpture, architecture, prints, and photographs. The relationship of art to religion and nationalism; issues of class, race, and gender. Same as AH 2071.

**AMST 2120W. Freedom in American Thought and Popular Culture. 0-3 Credits.**

America was founded on the premise of providing freedom to its people. But what, exactly, is freedom? The question has been debated in America since its founding and continues today; this course examines varied answers provided by American political thought and popular culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 2125. Varieties of Feminist Theory. 3 Credits.**

Classical and contemporary texts on feminist explanations of women's status. Relationships within the sex/gender system and arrangements based on class and race. Evaluation, through the lens of feminist theory, of several academic disciplines in the sciences, social sciences, and humanities. Same as WGSS 2125. Prerequisites: WGSS 1020 or WGSS 2120.

**AMST 2144. Explorations in Historical Geography. 3 Credits.**

Examination of selected themes in the cultural geography of the United States over the course of its history, in relation to an overview of the historical geography of the country. Same as GEOG 2144.

**AMST 2210. The African American Experience. 3 Credits.**

This course provides a survey of the historical, political, and cultural dimensions of the African American experience in the U.S. The course is organized chronologically and thematically and covers topics such as American slavery, medical experimentation, Hurricane Katrina, aesthetics, hip-hop, and Afro-futurism.

**AMST 2320. U.S. Media and Cultural History. 3 Credits.**

History and analysis of twentieth-century U.S. media and culture, including the rise of consumer culture, film, and television. Racial, gendered, and national identities in the context of modernism, mass culture, and globalization. (Same as HIST 2320).

**AMST 2350. U.S. Religion and Politics. 3 Credits.**

How religion and politics have influenced each other in the United States and how Americans have understood those influences. Religious violence; conflicts between faith and science; religious factors in racial and gender politics; and the separation of church and state. Same as HIST 2350.

**AMST 2380. Sexuality in U.S. History. 3 Credits.**

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as HIST 2380 and WGSS 2380.

**AMST 2385. Sex and Citizenship. 3 Credits.**

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics.

**AMST 2385W. Sex and Citizenship. 3 Credits.**

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 2410. Twentieth Century U.S. Immigration. 3 Credits.**

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. (Same as HIST 2410).

**AMST 2430. Capitalism and Culture. 3 Credits.**

Cultural and political history of American capitalism from Wall Street to Whole Foods, including advertising, automation, baseball, Fordism, graffiti, housework, punk, real estate, strike-breaking, sex work, and slavery.

**AMST 2440. The American City. 3 Credits.**

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Same as HIST 2440.

**AMST 2440W. The American City. 3 Credits.**

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 2490. Themes in U.S. Cultural History. 3 Credits.**

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. (Same as HIST 2490).

**AMST 2490W. Themes in U.S. Cultural History. 3 Credits.**

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 2490W).

**AMST 2495. Special Topics in African American History. 3 Credits.**

Concentration on specific issues central to the African American experience. Consult the Schedule of Classes for issues to be addressed.

**AMST 2520. American Architecture I. 3 Credits.**

Stylistic properties, form and type characteristics, technological developments, and urbanistic patterns are introduced as a means of interpretation of historic meaning. Buildings are analyzed both as artifacts and as signifiers of social, cultural, and economic tendencies. 1600–1860. Same as AH 2154.

**AMST 2521. American Architecture II. 3 Credits.**

Continuation of AMST 2520. Stylistic properties, form and type characteristics, technological developments, and urbanistic patterns are introduced as a means of interpretation of historic meaning. Buildings are analyzed both as artifacts and as signifiers of social, cultural, and economic tendencies. 1860–present. Same as AH 2155.

**AMST 2533. Material Culture in America. 3 Credits.**

Review and analysis of the cultural messages embedded in our material surroundings. Consideration of a range of humanly created artifacts, ranging from specific objects to vast landscapes. Same as ANTH 2533.

**AMST 2600. U.S. Popular Music and Culture. 3 Credits.**

Interdisciplinary approach to U.S. popular music as a means for thinking critically about identity, culture, and history from the nineteenth century to the present; popular music as a cultural reflection of society and a key means through which Americans enact and negotiate social opportunities, challenges, and struggles.

**AMST 2610. Science, Technology, and Politics in Modern America. 3 Credits.**

The history of science and technology and their role in political and social life from the late 19th century to the present.

**AMST 2610W. Science, Technology, and Politics in Modern America. 3 Credits.**

The history of science and technology and their role in political and social life from the late nineteenth century to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 2620. Human Mind and Artificial Intelligence. 3 Credits.**

The history of computers, robots, and artificial intelligence; visions of the future presented in science fiction; how human perceptions of machines affect their perceptions of the human mind.

**AMST 2630. Discovering the Mind. 3 Credits.**

Introduction to the ways in which the mind sciences have shaped how we understand ourselves, human nature, sex and race, morals, politics, and power.

**AMST 2680W. Hashtag America. 3 Credits.**

Influential technoskeptic and techno-utopian writing about social media and new media; the relationship between the Internet and society from various scholarly perspectives. Includes a significant engagement with writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 2710. The United States in Global Context, 1898–Present. 0-3 Credits.**

U.S. political and cultural global engagement in the twentieth- and twenty-first-centuries; global culture, transnational ideas and social movements, foreign policy, and economic transformations. (Same as HIST 2710).

**AMST 2730. World War II in History and Memory. 0-3 Credits.**

Examination of Americans' histories and memories of World War II. Same as HIST 2730.

**AMST 2730W. World War II in History and Memory. 0-3 Credits.**

Examination of Americans' histories and memories of World War II. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 2730).

**AMST 2750W. Latinos in the United States. 3 Credits.**

Exploration of the term Latino and its impact on discussions of race, identity, and citizenship expectations throughout U.S. history. How geographic, linguistic, aesthetic, political, and economic factors construct Latino identity and influence policy making and international relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 3151. American Art in the Age of Revolution. 3 Credits.**

Same as AH 3151.

**AMST 3152. American Art in the Era of National Expansion. 3 Credits.**

American art from the opening of the Erie Canal in 1825 to the Spanish-American War in 1898. Emphasis on the role of art in the expansion of the United States, exploring issues of race, class, and gender; art, and religion. (Same as AH 3152).

**AMST 3324. U.S. Urban History. 3 Credits.**

History of American urban life and culture from the colonial era to the present, focusing on transitions from pre-industrial to industrial and post-industrial forms. The social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as HIST 3324.

**AMST 3351. U.S. Social History. 3 Credits.**

Survey of American society and social change from the Civil War to the present. Gender, sexuality, race, ethnicity, and class perspectives. (Same as HIST 3351).

**AMST 3352. U.S. Women's History to 1865. 3 Credits.**

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. Same as HIST 3352 and WGSS 3352. (Same as HIST 3352, WGSS 3352).

**AMST 3352W. U.S. Women's History to 1865. 3 Credits.**

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same as HIST 3352W/WGSS 3352W. (Same as HIST 3352W, WGSS 3352W).

**AMST 3353. U.S. Women's History II. 3 Credits.**

Continuation of AMST 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. Same as HIST 3353/ WGSS 3353. (Same as HIST 3353, WGSS 3353).

**AMST 3360. African American History to 1865. 3 Credits.**

Major themes and concepts emerging from the early history of the African presence in the Americas and black experiences in the new nation of the United States. Focus on the emergence and evolution of the concept of race, the ways race evolved in concert with Atlantic slavery, and how race intersected with gender, economics, religion, and nationality. (Same as HIST 3360).

**AMST 3361. African American History Since 1865. 3 Credits.**

African American efforts to realize full freedom after emancipation from slavery. Gender politics, cultural expression, labor organizing, and radicalisms; dynamics of racism within major eras of African American activity from Reconstruction through the Great Migration; and the history of civil rights, Black Power, and black feminism. (Same as HIST 3361).

**AMST 3362. African American Women's History. 3 Credits.**

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late twentieth century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as AMST 3362W, HIST 3362, HIST 3362W, WGSS 3362, WGSS 3362W).

**AMST 3362W. African American Women's History. 3 Credits.**

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 3362, HIST 3362, HIST 3362W, WGSS 3362, WGSS 3362W).

**AMST 3367. The American Jewish Experience. 3 Credits.**

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people. (Same as HIST 3367).

**AMST 3810. Planning Cities. 3 Credits.**

An examination of historical and contemporary trends and dynamics in urban planning in the United States and abroad. Same as GEOG 3810. Prerequisite: GEOG 1001.

**AMST 3811. Historical Archaeology. 3 Credits.**

Survey of the basic data and methods of research in the material culture of recent history. Same as ANTH 3811.

**AMST 3835. Historical Archaeology Field Program. 3 Credits.**

Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as ANTH 3835.

**AMST 3900. Critiquing Culture. 3 Credits.**

Modes of analysis, including ethnography and other cultural studies methods, applied to examination of the interaction of cultural texts and practices with structures of power. Theories and themes central to American studies; scholarly debate about mass culture, ideology, visuality, discourse, and affect. Restricted to American studies majors or American studies minors with permission of the instructor.

**AMST 3901. Examining America. 3 Credits.**

Modes of power and forms of identification within and across U.S. national borders. Social constructions of the nation; forms of diversity and identity, such as race, gender, and sexuality; and the transnational flow of people, ideas, culture, and religion. Restricted to students in the American studies program.

**AMST 3950. Special Topics. 3 Credits.**

May be repeated for credit provided the topic differs. Topics announced in the Schedule of Classes.

**AMST 3950W. Special Topics. 3 Credits.**

May be repeated for credit provided the topic differs. Topic announced in the Schedule of Classes. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 4400. Independent Study. 1-3 Credits.**

Open to a limited number of American studies majors as directed research or as an internship with a Washington museum or historical society. Approval of advisor required.

**AMST 4450. Internship. 1-3 Credits.**

Open to a limited number of American studies majors pursuing an internship directly related to the study of American culture. Students must make the case for a scholarly project that emerges from the internship and must write a significant final paper. Approval of a supervising faculty member required for registration. P/NP grading only.

**AMST 4500. Proseminar in American Studies. 3 Credits.**

Directed research and writing on special topics. May be repeated for credit provided the topic differs. Restricted to students in the American studies program. Prerequisites: AMST 2010, AMST 2011, AMST 3900 and AMST 3901.

**AMST 4500W. Proseminar in American Studies. 3 Credits.**

Directed research and writing on special topics. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Students select two of the prerequisite courses. Restricted to students in the American studies program. Prerequisites: AMST 2010, AMST 2011, AMST 3900 and AMST 3901.

**AMST 4701W. Epidemics in American History. 3 Credits.**

The history of epidemics in the United States from the late nineteenth to the early twentieth century. The development of medical and public health responses to epidemics, and their social, political, cultural, and economic impacts. Sources include primary documents, historical accounts, memoirs, fiction, and films. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 4702W. Race, Medicine, and Public Health. 3 Credits.**

The experiences of African Americans as patients and health care providers; the history of the relationship between race, American medicine, and public health. Emphasis on the importance of understanding the historical roots of contemporary policy dilemmas such as racial and ethnic disparities in health and health care. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**AMST 6100. Scope and Methods in American Studies. 3 Credits.**

Consideration of American studies as an area for research and teaching; introduction to bibliography. Required of candidates for the degree of Master of Arts in the field of American studies.

**AMST 6110. Cultural Theory and American Studies. 3 Credits.**

Major issues in critical and cultural theory as they relate to American culture. Various interpretive approaches including discourse analysis, cultural studies, new historicism, anthropological theory, etc. Prerequisites: AMST 6100 or permission of the instructor.

**AMST 6120. Theories and Practices in the Study of Media. 3 Credits.**

Examination of theories and methods in the study of media and popular culture; case studies explore specific issues related to cultural products such as film, television, music, and the Internet.

**AMST 6190. Topics in American Studies. 1-4 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

**AMST 6195. Research Seminar in American Studies. 3 Credits.**

May be repeated for credit provided the topic differs.

**AMST 6210. The United States in a Global Context. 3 Credits.**

Analysis of the cultural constructions of the nation and international power, comparing the context of the eighteenth and nineteenth century, European colonialism, and U.S. expansion in the twentieth century. The role of literature and mass media in furthering the logic of globalization. Readings are both theoretical and historical.

**AMST 6220. Theory and Emotions. 3 Credits.**

Interdisciplinary exploration of politics of emotion, with an emphasis on the emotions that attach to race, gender, and sexuality.

**AMST 6230. The Politics of Freedom. 3 Credits.**

This seminar examines critical interventions into the theories, rhetorics, and practices of freedom. The seminar focuses on the politics of freedom in relation to an array of themes that may include liberalism, slavery, imperialism, political economy, individualism, and neoliberalism.

**AMST 6240. Borders and Boundaries. 3 Credits.**

Exploration of borders (the literal edge or limit of a territory) and boundaries (intra-societal differences). Readings from cultural anthropology, political science, and social history examine classic tensions between state formation and nation building. The U.S.-Mexico border and other border zones across the globe are used to assess and challenge what is local and particular about border space.

**AMST 6410. Readings in American Cultural History. 3 Credits.**

Studies in the cultural history of the United States.

**AMST 6420. Religion and American Culture. 3 Credits.**

Interdisciplinary analysis of religious beliefs, practices, and representations in the United States, as well as intersections of the religious and the secular. Relationships of religion to race, gender, capitalism, science, mass media, and material culture. Same as HIST 6420.

**AMST 6430. Gender, Sexuality, and American Culture I. 3 Credits.**

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-colonial to 1877. Same as HIST 6430/WGSS 6430. (Same as HIST 6430, WGSS 6430).

**AMST 6431. Gender, Sexuality, and American Culture II. 3 Credits.**

Continuation of AMST 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as HIST 6431/ WGSS 6431.

**AMST 6435. Readings on Women in American History. 3 Credits.**

Important works in American women's history; evolution of the field in historiographical context. Same as HIST 6435/ WGSS 6435.

**AMST 6450. Race in America. 3 Credits.**

Interdisciplinary analysis of the history of race and its changing political, social, and cultural meanings in the United States. Transnational racial formations, struggles for and against civil rights, multiracialism, and interracialism. Same as HIST 6450.

**AMST 6455. American Social Movements. 3 Credits.**

The history of social movements in the United States, with emphasis on civil rights, feminism, conservatism, and labor in local, national, and transnational contexts; the historical rise and fall of these movements and their larger impact on American life. Same as HIST 6455.

**AMST 6460. Popular Music Studies. 3 Credits.**

Readings in popular music studies; varying methodologies for American studies work on sound and popular music; cultural histories of popular music; American music transnationally. Restricted to graduate students.

**AMST 6470. Cityscapes. 3 Credits.**

Interdisciplinary examination of the American city, including urban theory, history, planning, architecture, urban politics, and cultural representations of the city. Same as HIST 6470.

**AMST 6475. U.S. Urban History. 3 Credits.**

History of American urban life and culture from the Colonial era to the present, focusing on the transitions from pre-industrial to industrial and post-industrial forms, the social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as HIST 6475.

**AMST 6480. Theory and Practice of Public History. 3 Credits.**

Theoretical and practical dimensions of public history, as illustrated by recent controversies surrounding public exhibitions and debates on revisionist history as well as more traditional means of presenting the past in public forums. Same as HIST 6480.

**AMST 6495. Historic Preservation: Principles and Methods. 3 Credits.**

The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as HIST 6495.

**AMST 6496. Historic Preservation: Principles and Methods. 3 Credits.**

Continuation of AMST 6495. The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as HIST 6496.

**AMST 6520. Economics of Preservation. 3 Credits.**

Analysis of economic techniques and benefits used to encourage the retention and reuse of historic buildings and districts in the United States. Emphasis on revitalization of older commercial centers and the Mainstreet program. Permission of the instructor required prior to enrollment.

**AMST 6525. The Politics of Historic Preservation. 3 Credits.**

Overview of the political issues, forces, events, and players that have shaped contemporary preservation practice, with an emphasis on public policy issues that have not been resolved and continue to confront preservation objectives. Permission of the instructor required prior to enrollment.

**AMST 6530. Field Methods in Architectural Documentation. 3 Credits.**

In-depth thematic examination of cultural landscape, focusing on field techniques for recording, analysis, and interpretation of historic properties. Work at field sites is supplemented by lectures, discussion, and readings. Restricted to graduate students.

**AMST 6550. Seminar in American Architecture. 3 Credits.**  
Advanced research problems addressing artistic, cultural, social, technical, and urbanistic aspects of American architecture in the 19th and 20th centuries. Topics vary. Prerequisites: AMST 2520 or AMST 2521, or permission of the instructor.

**AMST 6560. Vernacular Architecture. 3 Credits.**

**AMST 6650. Advanced Workshop in American Studies. 1-4 Credits.**  
Required for first- and second-year PhD students; open to other graduate students. Provides instruction and guidance in the process of writing, revising, and submitting journal articles, conference papers, and dissertations. Faculty and peer review of written work. Students are expected to enroll for the full academic year. Restricted to American studies graduate students.

**AMST 6709. Interpretation in the Historic House Museum. 3 Credits.**  
Seminar integrating advanced practices of museum education with current scholarship in architectural history, material culture, and social history. Extensive use of Washington museum resources. Admission by permission of instructor. Same as EDUC 6709.

**AMST 6710. American Material Culture. 3 Credits.**  
Opportunities for research and publication based on historical objects in the collections of the Smithsonian Institution.

**AMST 6720. American Decorative Arts I. 3 Credits.**  
Recognition and evaluation of domestic artifacts from the 17th, 18th, and 19th centuries.

**AMST 6721. American Decorative Arts II. 3 Credits.**  
Continuation of AMST 6720. Recognition and evaluation of domestic artifacts from the 17th, 18th, and 19th centuries.

**AMST 6730. Studies in American Art and History. 3 Credits.**  
Selected problems and themes in American cultural history involving the use of artistic materials in different media; emphasis on methodology and analytic techniques. May be repeated for credit. Same as AH 6255.

**AMST 6835. Historical Archaeology Field Program. 3 Credits.**  
Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as ANTH 6835.

**AMST 6930. Independent Study. 3 Credits.**  
Permission of the instructor required prior to enrollment. Restricted to master's and doctoral candidates.

**AMST 6998. Thesis Research. 3 Credits.**

**AMST 6999. Thesis Research. 3 Credits.**

**AMST 8998. Advanced Reading and Research. 1-9 Credits.**  
May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**AMST 8999. Dissertation Research. 3-12 Credits.**  
May be repeated for credit. Restricted to doctoral candidates.

# BACHELOR OF ARTS WITH A MAJOR IN AMERICAN STUDIES

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Additional curriculum requirements:

Code	Title	Credits
Required		
AMST 2010	Early American Cultural History	
AMST 2011	Modern American Cultural History	
AMST 3900	Critiquing Culture	
AMST 3901	Examining America	
AMST 4500	Proseminar in American Studies	
Electives		
Five additional AMST courses, no more than two of which may be at the 1000 level.		

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in American Studies, a major must receive a grade of A on the senior paper written for AMST 4500 Proseminar in American Studies.

# DUAL BACHELOR OF ARTS WITH A MAJOR IN AMERICAN STUDIES AND MASTER OF ARTS IN THE FIELD OF AMERICAN STUDIES

The Department of American Studies offers a dual bachelor of arts with a major in American studies (p. 101) and master of arts in the field of American studies (p. 102) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://americanstudies.columbian.gwu.edu/combined-bama-american-studies>) for additional information.

## MINOR IN AMERICAN STUDIES

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
AMST 2010	Early American Cultural History	
AMST 2011	Modern American Cultural History	

#### Electives

12 credits in AMST courses taken at the 2000–3000 level.

## MASTER OF ARTS IN THE FIELD OF AMERICAN STUDIES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Completion of course and other requirements in either general studies or in the Museums and Material Culture concentration.

#### General studies

Required: 30 credits, including a 3-credit required course, 6 credits in research seminar courses, and 21 credits in elective courses.

Code	Title	Credits
AMST 6100	Scope and Methods in American Studies	

At least six credits in research seminars. This may include AMST 6195 taken twice or other approved research courses.

A minimum of 21 credits in elective courses pertaining to the study of American culture approved by the department. These may include graduate courses in anthropology, English, fine arts and art history, geography, history, media and public affairs, and political science.

An optional thesis may be undertaken for 6 credits as part of these 21 credits.

## Concentration in museums and material culture

This concentration, offered in association with the Smithsonian Institution, emphasizes the use of physical objects and spaces in historical research.

Required: 30 credits, including 6 credits in required courses, 6 credits in research seminars, and 18 credits in elective courses.

Code	Title	Credits
AMST 6100	Scope and Methods in American Studies	
AMST 6710	American Material Culture	

At least two designated research seminars

At least 18 additional credits of courses pertaining to the study of American culture, museum studies, and museum education

## DOCTOR OF PHILOSOPHY IN THE FIELD OF AMERICAN STUDIES

The doctor of philosophy in the field of American studies degree program combines work in the humanities and/or social sciences as preparation for careers in a range of institutions, including universities, museums, archives, libraries, preservation offices, and related public and private enterprises.

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Code	Title	Credits
<b>Required</b>		
AMST 6100	Scope and Methods in American Studies	

At least two designated research seminars.

At least one course in theory approved by the advisor.

Degree candidates must pass a general examination in three areas, to be taken over the course of one month, by the end of the third year from matriculation. The three fields are elected with approval of the advisory committee and should constitute a coherent, interdisciplinary program of study; one field may be devoted to the comparative study of a non-U.S. culture.

# ANATOMY AND REGENERATIVE BIOLOGY

---

The Department of Anatomy and Regenerative Biology offers two pre-medicine academic enhancer programs for candidates interested in applying to medical schools, physician assistant programs, or biomedical sciences doctoral programs: the graduate certificate in anatomical and translational sciences (GCATS) and master of science in the field of anatomical and translational sciences (M-ATS), a pre-med special master's program. Both programs are designed to enhance a graduate's competitiveness when applying to medical school or physician assistant programs, or to transition to an advanced graduate degree in the biomedical sciences. Applicants select a program based on their level of readiness for admission to a health professional school.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Consult the (<http://gsehd.gwu.edu/programs/museum-education>) Department of Anatomy and Regenerative Biology website (<http://smhs.gwu.edu/anatomy>) for additional program information.

## GRADUATE

### Master's program

- Master of Science in the field of anatomical and translational sciences (p. 105)

## CERTIFICATE

### Certificate Program

- Graduate certificate in anatomical and translational sciences (p. 106)

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **ANAT 2130. Human Embryology. 3 Credits.**

Development of the basic organ systems; molecular control of development, congenital birth defects, and assisted reproductive technologies.

#### **ANAT 2150. Human Microscopic Anatomy. 3 Credits.**

Normal histological structure of cells, tissues, and organs. Structural-functional correlates; the relationship between histological structure-function and the etiology of disease states.

#### **ANAT 2160. Human Functional Neuroanatomy. 3 Credits.**

The central and peripheral nervous systems; diseases and injuries with impact on the normal structural-functional relationship.

#### **ANAT 2181. Human Gross Anatomy. 3 Credits.**

Structure and function of the musculoskeletal system; regional organization, structure, and function of the major organ systems; structural organization of the head and neck. Same as BISC 2581.

#### **ANAT 6130. Clinically Oriented Human Embryology. 3 Credits.**

The mechanisms of human embryology with clinical correlations of embryological development. Developmental control mechanisms and development of basic organ systems. Molecular control of development. Assisted reproductive technologies. Congenital birth defects. Demonstration labs and online animations for clinical correlates. Restricted to students in the graduate certificate in anatomical and translational sciences program. Recommended background: Introductory course in biology.

#### **ANAT 6150. Clinically Oriented Human Microscopic Anatomy. 4 Credits.**

The normal histological structure of cells, tissues, and organs of the human body with emphasis on clinical relevance; structural/functional correlates at both the light and electron microscopic levels; alterations in normal histology through disease or injury and the etiology of various disease states; integration of histological concepts with clinical correlates. Restricted to students in the graduate certificate in anatomical and translational sciences (GCATS) or master's in anatomical and translational sciences (M-ATS) programs. Prerequisites: BISC 1115 and BISC 1125; and BISC 2202.

#### **ANAT 6160. Clinically Oriented Human Functional Neuroanatomy. 3 Credits.**

Structure/function relationships of the human central and peripheral nervous systems and clinical correlations of diseases or injuries whose occurrence or expression has an abnormal impact on the normal structure/function relationship. Integration of neuroanatomy concepts with contemporary clinical neuroscience. Demonstrations of human brain material in the anatomy lab. Students must have completed an introductory course in biology for science or non-science majors prior to enrollment. Restricted to students in the graduate certificate in anatomical and translational sciences program.

**ANAT 6181. Clinically Oriented Human Gross Anatomy. 3 Credits.**

Structural organization of the human body and the relationship of the organization to regional and systems-related functions. Clinical implications and how disease or injury affects normal anatomical structure/function relationships. Clinical cases match the topic of each lecture. Online manual uses content from the department's NetAnatomy website. Demonstrations in the gross anatomy laboratory. Students must have completed an introductory course in biology for science or non-science majors prior to enrollment. Restricted to students in the graduate certificate in anatomical and translational sciences program.

**ANAT 6182. Fundamentals of Translational Science. 4 Credits.**

Fundamentals of organ development and study; how molecular defects during development can lead to disease. Restricted to students in the graduate certificate in anatomical and translational sciences program.

**ANAT 6203. Human Developmental Anatomy. 1 Credit.**

**ANAT 6204. Neuroanatomy. 2 Credits.**

**ANAT 6212. Neurobiology. 3 Credits.**

Same as Idis 212.

**ANAT 6213. Microscopic Anatomy. 4 Credits.**

Required for medical students.

**ANAT 6215. Anatomy for Health Sciences Students. 3 Credits.**

A gross anatomy course that includes examination of prosected cadavers. Sessions on how to conduct a physical examination of a particular body region are preceded immediately by lectures on the same region.

**ANAT 6216. Cellular Anatomy and Histology. 2 Credits.**

**ANAT 6219. Biomedical Ethics for Translational Sciences. 2 Credits.**

Ethical issues relevant to the practice of medicine and biomedical research involving human subjects. Permission of the instructor required prior to enrollment. Restricted to graduate students. Recommended background: ANAT 6130, ANAT 6150, ANAT 6160, ANAT 6181 and ANAT 6292.

**ANAT 6221. Special Topics in Stem Cell Biology. 1-3 Credits.**

**ANAT 6222. Special Topics in Stem Cell Biology. 1-3 Credits.**

**ANAT 6223. Special Topics in Regenerative Medicine. 2 Credits.**

Students attend seminars given by invited lecturers to present their research findings and breakthroughs on topics of regenerative medicine. Seminars can be sponsored by the Department of Anatomy and Regenerative Biology, the Stem Cell Interest Group Journal and Data Club, the Molecular Medicine Graduate Program (MMED 8214), and the GW Institute for Neuroscience. Restricted to Graduate Certificate in Anatomical and Translational Sciences only. Prerequisites: Introductory Biology for Science or non-Science Majors.

**ANAT 6249. Introduction to Anatomical Research. 1 Credit.**

**ANAT 6252. Human Variation. 1 Credit.**

**ANAT 6253. Developmental Neurobiology. 3 Credits.**

**ANAT 6260. Developmental Genetics. 2 Credits.**

**ANAT 6262. Gross Anatomy of Upper and Lower Extremities. 2 Credits.**

**ANAT 6264. Gross Anatomy of Head and Neck. 2 Credits.**

**ANAT 6266. Gross Anatomy of Thorax and Abdomen. 2 Credits.**

**ANAT 6268. Gross Anatomy of Pelvis, Perineum, and Lower Extremities. 2 Credits.**

**ANAT 6275. Advanced Studies in Translational Sciences. 3 Credits.**

Semester long rotation in a research laboratory conducting translational researching and applying fundamental concepts learned in didactic courses and developing versatility with new technologies. Students must have completed an introductory course in biology for science or non-science majors prior to enrollment. Restricted to students in the graduate certificate and master of science in anatomical and translational sciences programs.

**ANAT 6276. Advanced Studies in Anatomy. 1 Credit.**

Detailed study of an anatomic topic tailored to the needs of the individual student. Restricted to graduate students who are in the Graduate Certificate in Anatomical and Translational Sciences program or who have permission of the program director and medical students.

**ANAT 6277. Special Topics in Neurobiology. 1-3 Credits.**

**ANAT 6279. Applied Regional Anatomy. 1-5 Credits.**

Regional dissection, guided readings.

**ANAT 6284. Applied Surface Anatomy and Radiology. 5 Credits.**

**ANAT 6288. Surface Anatomy and Radiology. 1 Credit.**

**ANAT 6291. Special Projects in Anatomy. 1-12 Credits.**

Independent study on any aspect of gross anatomy.

**ANAT 6292. Projects in Anatomical Sciences. 2 Credits.**

Various imaging techniques and approaches to visualize normal anatomy toward development and application of skills in teamwork, presentation, and discussion. Literature searches. ANAT 6181 may be taken as a corequisite. Restricted to students in the graduate certificate in anatomical and translational sciences program. Prerequisite: ANAT 6181.

**ANAT 6295. Research. 1-12 Credits.**

**ANAT 8120. Graduate Human Gross Anatomy. 4 Credits.**

An in-depth introduction to human gross anatomy with cadaveric dissection. The structural organization of the human body, including its regional and systems-related functions. The relationship between normal human anatomical variation in structure and function and how disease and/or injury affect these relationships. Permission of the instructor required prior to enrollment. Recommended background: Prior coursework in the biological sciences or anthropology.

**ANAT 8501. Didactic Anatomy. 3 Credits.**

Development of a didactic program to include human developmental anatomy, microscopic anatomy, gross anatomy, and/or neuroanatomy. May also include interdepartmental study.

**ANAT 8800. Summer Remedial: Gross Anatomy. 6 Credits.**

**ANAT 8802. Summer Remedial: Human Developmental Anatomy. 1 Credit.**

## MASTER OF SCIENCE IN THE FIELD OF ANATOMICAL AND TRANSLATIONAL SCIENCES

The master of science in the field of anatomical and translational sciences (M-ATS) is a non-thesis master's program designed to give students advanced, comprehensive knowledge in basic medical sciences. M-ATS is a 39-credit, interdisciplinary program taken over two years. M-ATS is an extension of the graduate certificate in anatomical and translational sciences (GCATS), which can serve as year 1 of the M-ATS program. Year 2 of the M-ATS curriculum integrates biomedical knowledge related to regenerative biology, systems physiology, pharmacology, pharmacogenomics, genomic medicine, and bioinformatics. The M-ATS program provides students with a solid background in personalized medicine and the methodological aspects of translational research and clinical investigations as well as opportunities to carry out research in translational medicine. As a result, graduates maximize their academic and career opportunities by enhancing competitiveness of applications to medical schools, physician assistant programs, and Ph.D. programs in biomedical sciences.

Visit the program website (<http://smhs.gwu.edu/anatomy/education/m-ats>) for additional information

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

The following requirements must be fulfilled: 39 credits in required courses.

Code	Title	Credits
<b>Required</b>		
<b>Year 1</b>		
ANAT 6130	Clinically Oriented Human Embryology	
ANAT 6150	Clinically Oriented Human Microscopic Anatomy	
ANAT 6160	Clinically Oriented Human Functional Neuroanatomy	
ANAT 6181	Clinically Oriented Human Gross Anatomy	
ANAT 6292	Projects in Anatomical Sciences	
And one or both of the following*		
ANAT 6223	Special Topics in Regenerative Medicine	
ANAT 6275	Advanced Studies in Translational Sciences	
<b>Year 2</b>		
ANAT 6182	Fundamentals of Translational Science	
ANAT 6219	Biomedical Ethics for Translational Sciences	
MICR 6236	Fundamentals in Geonomics and Proteomics I	
PHAR 6205	Pharmacology	
PHAR 6206	Advanced Pharmacology	
PHAR 6116	Pharmacogenomics and Personalized Medicine	

\*As part of the required curriculum, students choose one of the following options in Year 1: ANAT 6223 taken twice; or, ANAT 6275 taken twice; or, ANAT 6223 and ANAT 6275, each taken once. Students must consult the academic advisor before enrolling in either of these two courses.

ANAT 6223 taken twice; or ANAT 6275 taken twice; or ANAT 6223 and ANAT 6275 each taken once. Students must consult the academic advisor before selecting one of these options.

## GRADUATE CERTIFICATE IN ANATOMICAL AND TRANSLATIONAL SCIENCES

The graduate certificate in anatomical and translational sciences (GCATS) program provides students in medical and translational sciences with an understanding of human gross anatomy, embryology, functional histology, neuroanatomy, modern stem cell and developmental biology, and technology for biomedical molecular imaging. GCATS offers a contemporary clinical emphasis using problem-based learning. The certificate program is designed to maximize career opportunities in the health fields, to enhance competitiveness of applications to medical school or physician assistant programs, or to transition into an advanced graduate degree program in the biomedical sciences.

Visit the program website (<http://smhs.gwu.edu/anatomy/education/gcats>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: 18 credits in required courses.

Code	Title	Credits
<b>Required:</b>		
ANAT 6130	Clinically Oriented Human Embryology	
ANAT 6150	Clinically Oriented Human Microscopic Anatomy	
ANAT 6160	Clinically Oriented Human Functional Neuroanatomy	
ANAT 6181	Clinically Oriented Human Gross Anatomy	
ANAT 6292	Projects in Anatomical Sciences	

One of the following options:

## ANTHROPOLOGY

The Anthropology program includes four concentrations:

- Biological anthropology explores human evolution, anatomy and primatology.
- Sociocultural anthropology examines the role culture plays in shaping human action.
- Linguistic anthropology considers the role of language in human thought.
- Archaeology examines both human origins and more recent issues of state formation and urbanization.

In teaching and research, the program collaborates with the Smithsonian Institution's National Museum of Natural History, as well as departments within the University.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in anthropology (p. 114)
- Bachelor of Arts with a major in archaeology (p. 115)
- Bachelor of Science with a major in biological anthropology (p. 117)

### Combined Programs

Dual bachelor's/master's degree programs (p. 119):

- Bachelor of Arts with a major in anthropology and Master of Arts in the field of anthropology
- Bachelor of Arts with a major in archaeology and Master of Arts in the field of anthropology
- Bachelor of Science with a major in biological anthropology and Master of Arts in the field of anthropology

### Minors

- Minor in anthropology (p. 119)
- Minor in archaeology (p. 119)
- Minor in biological anthropology (p. 120)
- Minor in cross-cultural communication (p. 121)
- Minor in linguistics (p. 67) (interdisciplinary)
- Minor in sociocultural anthropology (p. 121)

## GRADUATE

### Master's program

- Master of Arts in the field of anthropology (p. 122)

## Doctoral program

- Doctor of Philosophy in the field of anthropology (p. 123)

## FACULTY

**University Professor** B. Wood

**Professors** A.S. Brooks, E.H. Cline, I. Feldman, R.R. Grinker, H. Gusterson, J.C. Kuipers, B.D. Miller, M. Schanfield, C.C. Sherwood (*Chair*)

**Associate Professors** A. Ahmad, J.P. Blomster, B.J. Bradley, D.R. Braun, A.S. Dent, M.C. Edberg, S.C. Lubkemann, S.C. McFarlin, C.M. Murray, S.E. Wagner

**Visiting Assistant Professors** W.A. Barr, L. Dumouchel

**Professorial Lecturers** S.M. Ali, A. Antohin, R. Asmi, J. Bell, P.J. Cressey, D. Hunt, S. Johnston, D.H. Ubelaker, E.C. Wortham

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **ANTH 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details.

#### **ANTH 1001. Biological Anthropology. 0-4 Credits.**

Survey of human evolution, genetics and physical variation, and primatology. Regular laboratory exercises. Laboratory fee.

#### **ANTH 1002. Sociocultural Anthropology. 3 Credits.**

Survey of the world's cultures, illustrating the principles of cultural behavior.

#### **ANTH 1002W. Sociocultural Anthropology. 3 Credits.**

Survey of the world's cultures, illustrating the principles of cultural behavior. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **ANTH 1003. Archaeology. 3 Credits.**

Introduction to archaeological survey and excavation techniques and laboratory methods of dating and analysis. Brief history of archaeology and survey of world prehistory. Films and laboratory exercises.

#### **ANTH 1004. Language in Culture and Society. 3 Credits.**

Comparison and analysis of how cultures use language to communicate. The relationship of language to issues of human nature, gender, race, class, artistic expression, and power. Laboratory fee.

#### **ANTH 1005. The Biological Bases of Human Behavior. 4 Credits.**

Human behavior from an evolutionary perspective, including issues such as communication, intelligence, reproductive behavior, parental behavior, aggression, and cooperation, and drawing on an understanding of the behavior and biology of the nonhuman primates. Laboratory fee.

#### **ANTH 2000. Sophomore Colloquium. 3 Credits.**

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

#### **ANTH 2008. Foundations of Anthropological Thought. 3 Credits.**

The development of anthropological thought in historical context. Exploration of selected basic concepts and theories of contemporary anthropology. To be taken in the junior or senior year. Prerequisite: ANTH 1002.

#### **ANTH 2008W. Foundations of Anthropology. 3 Credits.**

The development of anthropological thought in historical context. Exploration of selected basic concepts and theories of contemporary anthropology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors. Prerequisites: ANTH 1002 or ANTH 1002W.

#### **ANTH 2406. Human Evolutionary Genetics. 3 Credits.**

Introduction to the patterns and processes of human genetic variation. Topics include human origins and migration; molecular adaptations to environment, lifestyle, and disease; ancient and forensic DNA analyses; and genealogical reconstructions.

#### **ANTH 2501. The Anthropology of Gender: Cross-Cultural Perspectives. 3 Credits.**

Anthropological representations of gender relations in "other" cultures have provided important case material for feminist theorizing of sex differences and gender roles and statuses. How a cross-cultural approach can inform our understanding of gender. Same as WGSS 2121.

#### **ANTH 2502. Anthropology of Science and Technology: Twenty-First-Century Brave New Worlds. 3 Credits.**

The relationship between science and society, with consideration of how scientific knowledge and emergent technologies affect our lives, identities, social relations, and material conditions. The sociopolitical context in which scientific knowledge is produced and the ethnographic study of biotechnology, especially genetics and its various applications.

**ANTH 2505. Introduction to Ethnomusicology. 3 Credits.**

Models of understanding music as a cultural endeavor. Application and critique of models in the design and execution of student independent field research. Prerequisites: MUS 1101 or ANTH 1002 or ANTH 1004 or permission of the instructor. (Same as MUS 2105).

**ANTH 2506. Religion, Myth, and Magic. 3 Credits.**

Theories of religion developed by anthropologists; survey of world religions with emphasis on non-Western societies; religious process and change.

**ANTH 2533. Material Culture in America. 3 Credits.**

Review and analysis of the cultural messages embedded in our material surroundings. Consideration of a range of humanly created artifacts, ranging from specific objects to vast landscapes. Same as AMST 2533.

**ANTH 2750. Latinos in the United States. 3 Credits.**

Exploration of the term Latino and its impact on discussions of race, identity, and citizenship expectations throughout U.S. history. How geographic, linguistic, aesthetic, political, and economic factors construct Latino identity and influence policymaking and international relations.

**ANTH 2750W. Latinos in the United States. 3 Credits.**

Exploration of the term Latino and its impact on discussions of race, identity, and citizenship expectations throughout U.S. history. How geographic, linguistic, aesthetic, political, and economic factors construct Latino identity and influence policymaking and international relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ANTH 3401. Human Functional Anatomy. 3 Credits.**

The anatomy of the human body, how it works, and how it differs from other animals, especially other primates. Principles and approaches of functional morphology and biomechanics and how function can be reconstructed from fossils, with special focus on the musculoskeletal system. No prior knowledge of anatomy is required. Laboratory fee. Prerequisite: ANTH 1001.

**ANTH 3402. Human Evolutionary Anatomy. 3 Credits.**

The structure and function of human anatomy, as compared to our closest relatives, the great apes. Using this comparative approach, the course investigates the fossil record of human evolution, with an emphasis on reconstructing relationships, function, behavior, and adaptation in fossil hominins. Prerequisite: ANTH 1001.

**ANTH 3403. Forensic Anthropology Laboratory. 2 Credits.**

Identification of human skeletal remains by body part, age, sex, race, and individual disease or trauma history; study of skeletal variation in modern and recent populations. Taught at the Smithsonian. Corequisite: ANTH 3404.

**ANTH 3404. Human Variation. 1 Credit.**

An overview of human variation, with special emphasis on the skeleton. Includes history of physical anthropology, individual and population variations, archaeological recovery of human remains, paleodemography, growth, paleopathology, and forensic anthropology. Corequisite: ANTH 3403 Prerequisite: ANTH 1001.

**ANTH 3406. Advanced Human Osteology. 3 Credits.**

Advanced techniques in determination of age, sex, ancestry, and pathological conditions using the skeleton. Taught at the Smithsonian. Prerequisites: ANTH 3403 and ANTH 3404.

**ANTH 3407. Conservation in a Changing World: Human and Animal Behavior. 3 Credits.**

How humans and animals interact in a wide variety of settings, how human and animal welfare can be ensured, and how we can create a scientifically sound, yet socially and economically acceptable, conservation of the planet's biodiversity. Prerequisites: ANTH 1001.

**ANTH 3408. The Evolution of Human Families. 3 Credits.**

Human parental behavior considered from an evolutionary perspective, including parental care among mammals, concepts of parental investment, and parent-offspring conflict. Focus on parenting in the human lineage from early hominins to hunter-gatherers to the modern context. Prerequisites: ANTH 1001.

**ANTH 3409. Evolution of Primate Life Histories. 3 Credits.**

Human and non-human primate life histories and their evolution; factors such as body size, brain size, fertility, and life span. Features of modern human life histories, proposed explanations for them, and pertinent fossil evidence. Prerequisite: ANTH 1001.

**ANTH 3411. Primatology. 3 Credits.**

Physical and behavioral characteristics of the various primate groups and their relationship to human physical and cultural evolution. Prerequisite: ANTH 1001.

**ANTH 3412. Hominin Evolution. 3 Credits.**

The fossil record of human evolution, including its context. Review of the fossil evidence that concentrates on the distinctive features of each taxon. Pleistocene remains. Laboratory fee. Prerequisite: ANTH 1001.

**ANTH 3412W. Hominin Evolution. 3 Credits.**

The fossil record of human evolution, including its context. Review of the fossil evidence that concentrates on the distinctive features of each taxon. Pleistocene remains. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisite: ANTH 1001.

**ANTH 3413. Evolution of the Human Brain. 3 Credits.**

Examination of how the human brain is unique in comparison to other animals, with an emphasis on understanding our species' distinctive neurobiology in terms of the evolution of cognitive abilities such as language, social comprehension, tool making, and abstract thinking.

**ANTH 3491. Topics in Biological Anthropology. 3 Credits.**

Topic announced in the Schedule of Classes. Instructors are drawn from GW faculty and Smithsonian Institution staff. May be repeated for credit if topic varies. Prerequisite: ANTH 1001.

**ANTH 3501. Anthropology of Development. 3 Credits.**

The impact of the world economy on nonindustrial societies. Analysis of the role of anthropology in international development programs aimed at alleviating problems in the Third World. Prerequisites: ANTH 1002 or ANTH 1002W.

**ANTH 3502. Cultural Ecology. 3 Credits.**

Basic principles of cultural ecology. Human interaction with the ecosystem both past and present; emphasis on the application of anthropological precepts to current environmental problems. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004 or ANTH 1004W or permission of the instructor.

**ANTH 3503. Psychological Anthropology. 3 Credits.**

The cross-cultural study of the relationship between culture and personality. Topics include emotion, conceptions of the self, mental health and illness, sexuality, marriage and parenting, and cognition. Psychobiological, cultural, ecological, and psychoanalytical theories are examined. Prerequisites: ANTH 1002 or permission of the instructor.

**ANTH 3504. Illness, Healing, and Culture. 3 Credits.**

Introduction to medical anthropology. What the record of human evolution and prehistory tells about human health; the epidemiology of health and illness; how different cultures define disease; understanding illness and healing systems cross-culturally; and the role of medical anthropology in health care and international development. Prerequisites: ANTH 1002 or permission of the instructor.

**ANTH 3506. Politics, Ethnicity, and Nationalism. 3 Credits.**

Comparative analysis of political systems; political processes, such as factionalism, styles of leadership, political ritual. Prerequisites: ANTH 1002 or permission of the instructor.

**ANTH 3507. Kinship, Family, and Community. 3 Credits.**

Cross-cultural analysis of how people form, maintain, and transform social groups and boundaries. Focus on how communities such as family, ethnic group, and nation are defined in moral terms. Prerequisites: ANTH 1002 or permission of the instructor.

**ANTH 3508. Art and Culture. 3 Credits.**

The role of art in culture, with emphasis on small-scale societies; influences upon the artist, and beliefs and practices associated with art production. Prerequisites: ANTH 1002 or permission of the instructor.

**ANTH 3513. Anthropology of Human Rights. 3 Credits.**

Issues of basic human rights and their violation by different cultures, states, and organizations. Genocide, ecocide, abuses on the basis of ethnicity, religion, or similar factors, and the treatment of those seeking asylum. Rights of informants and groups studied in anthropological research. Prerequisites: ANTH 1002 or ANTH 1002W.

**ANTH 3513W. Anthropology of Human Rights. 3 Credits.**

Issues of basic human rights and their violation by different cultures, states, and organizations. Genocide, ecocide, abuses on the basis of ethnicity, religion, or similar factors, and the treatment of those seeking asylum. Rights of informants and groups studied in anthropological research. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ANTH 1002 or ANTH 1002W.

**ANTH 3521. Ethnographic Film. 3 Credits.**

Still and motion-picture photography as an integral aspect of anthropological research. A study of recent and historic ethnographic films and an introduction to the forms and methods of making visual ethnographic records. Material fee. Prerequisites: ANTH 1002 or ANTH 1002W or permission of the instructor.

**ANTH 3531. Methods in Sociocultural Anthropology. 3 Credits.**

Approaches to field research. Conceptual bases and biases in the delineation of problems and in the selection, analysis, and organization of data. Students design and carry out their own field projects in the Washington area. Prerequisite: ANTH 1002.

**ANTH 3601. Language, Culture, and Cognition. 3 Credits.**

The role of language and culture in the organization of human experience. Beginning with debates about linguistic relativity, the course explores the way language use shapes cognition and practice in a variety of cultures and social contexts. Same as LING 3601. Prerequisite: ANTH 1004. Laboratory fee.

**ANTH 3602. Ethnographic Analysis of Speech. 3 Credits.**

Linguistic variation and change in discourse practices; social and political correlates of linguistic interaction; recording, transcription, and analysis of verbal interaction. Prerequisites: ANTH 1004. (Same as LING 3602).

**ANTH 3602W. Ethnographic Analysis of Speech. 3 Credits.**

Linguistic variation and change in discourse practices; social and political correlates of linguistic interaction; recording, transcription, and analysis of verbal interaction. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1004.

**ANTH 3603. Psycholinguistics. 3 Credits.**

Language as species-specific property of the human mind. Psychological processes involved in the encoding and decoding of language; first and second language acquisition and bilingualism. Same as LING 3603.

**ANTH 3691. Special Topics in Linguistic Anthropology. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Prerequisites: ANTH 1004 or permission of the instructor. (Same as LING 3691).

**ANTH 3701. Native Peoples - North America. 3 Credits.**

Comparative study of Indian groups representative of the different culture areas of the United States and Canada. Contemporary issues involving indigenous groups, the wider society, and the state. Prerequisite: ANTH 1002 or permission of instructor.

**ANTH 3702. Anthropology of Latin America. 3 Credits.**

Culture history and ways of life in a selected region of Central or South America. Regional focus to be announced in the Schedule of Classes. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004.

**ANTH 3703. Cultures of the Pacific. 3 Credits.**

Culture history and ways of life among native peoples of Melanesia, Micronesia, and Polynesia. Prerequisites: ANTH 1002 or ANTH 1004.

**ANTH 3704. Cultures of Southeast Asia. 3 Credits.**

Anthropological introduction to the cultures of Southeast Asia; the role of biocultural evolution, political economy, gender, colonialism, nationalism, and globalization, particularly in Vietnam, Myanmar, Thailand, Malaysia, Indonesia, and the Philippines.

**ANTH 3705. Anthropology of East Asia. 3 Credits.**

Intensive study of the culture and history of selected peoples of East or Central Asia. Specific area to be announced in the Schedule of Classes. May be repeated for credit. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004.

**ANTH 3707. Anthropology of the Middle East. 3 Credits.**

Geographic environment, language, religion, and social structure of settled and nomadic peoples of the Middle East; emphasis on the Arab world. Prerequisites: ANTH 1002 or ANTH 1004.

**ANTH 3708. Anthropology of Africa. 3 Credits.**

Comparative examination of the history, cultural development, and contemporary problems of sub-Saharan African cultures. New World African cultures are also considered. Prerequisites: ANTH 1002 or ANTH 1004.

**ANTH 3709. Japanese Culture Through Film. 3 Credits.**

Survey of the Japanese cultural heritage presented through films. Topics include literature, philosophy, art, religion, and social history from premodern times to the modern era. Lectures and discussion in English. Same as JAPN 3162.

**ANTH 3791. Topics in Regional Anthropology. 3-4 Credits.**

Culture, history, and ways of life in a selected region of the world. Topics vary. Consult the Schedule of Classes for more details. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004.

**ANTH 3801. African Roots from Australopithecus to Zimbabwe. 3 Credits.**

The development and contributions of Africa from human beginnings through medieval states. Topics include human evolution, origins of art, technology, trade, and animal/plant domestication, rise of African states, early relations with Europe and Asia, antecedents of contemporary African diversity. Prerequisites: ANTH 1003 or permission of the instructor.

**ANTH 3801W. African Roots from Australopithecus to Zimbabwe. 3 Credits.**

The development and contributions of Africa from human beginnings through medieval states. Topics include human evolution, origins of art, technology, trade, animal/plant domestication, rise of African states, early relations with Europe and Asia, antecedents of contemporary African diversity. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

**ANTH 3802. Human Cultural Beginnings. 3 Credits.**

Survey of prehistory in Europe, Africa, and Asia from the earliest hominid cultures to the beginnings of agriculture. Prerequisite: ANTH 1003.

**ANTH 3802W. Human Cultural Beginnings. 3 Credits.**

Survey of prehistory in Europe, Africa, and Asia from the earliest hominid cultures to the beginnings of agriculture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

**ANTH 3803. Old World Prehistory: First Farmers to First Cities. 3 Credits.**

Archaeology of the Near East, Egypt, Europe, and other areas, from the beginnings of agriculture to the rise of Babylon. Prerequisites: ANTH 1003.

**ANTH 3803W. Old World Prehistory: First Farmers to First Cities. 3 Credits.**

Archaeology of the Near East, Egypt, Europe, and other areas, from the beginnings of agriculture to the rise of Babylon. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

**ANTH 3804. Origins of the State and Urban Society. 3 Credits.**

Emergence of urbanism and the state in the prehistory of various world regions. Regions covered might include India, China, Mexico, and the Pacific, among others. Prerequisites: ANTH 1003.

**ANTH 3805. Archaeology of Israel and Neighboring Lands. 3 Credits.**

The archaeology of Israel and adjacent areas (Syria, Jordan, Lebanon). Examination of many major sites and monuments. Significant problems and current debates. Same as AH 3106.

**ANTH 3806. Art and Archaeology of the Aegean Bronze Age. 3 Credits.**

Excavational and multidisciplinary aspects of classical archaeology. Minoan and Mycenaean civilizations (1700–1200 B.C.) Same as AH 3104.

**ANTH 3808. Archaeology and the Celts. 3 Credits.**

Historical and archaeological study of the Celtic people.

**ANTH 3811. Historical Archaeology. 3 Credits.**

Survey of the basic data and methods of research in the material culture of recent history. Same as AmSt 3811.

**ANTH 3812. The Aztec Empire. 3 Credits.**

The Aztecs (or Mexica) of Mexico created a large empire, and while frequently the focus is on warfare and human sacrifice, they produced some of the most naturalistic art and reflective poetry that have survived the Spanish Conquest. Using archaeology, art, and ethnohistoric documents, this course focuses the importance of power in Aztec society and how the normalization of violence created a form of social cohesion central to the state. Prerequisites: ANTH 1003. (Same as AH 3116).

**ANTH 3813. Archaeology of North America. 3 Credits.**

History of American archaeology; survey of North American culture history from human entry into the Americas during the Pleistocene period until the time of the first European contacts. Focus on peoples north of Mexico. Prerequisite: ANTH 1003.

**ANTH 3814. Ancient Mexican Civilizations. 3 Credits.**

Cultural history of pre-Columbian societies in Middle America; the emergence of Mesoamerican civilization from the earliest hunter-gatherers and first farmers to the Aztec Empire. Prerequisites: ANTH 1003. Same as AH 3107.

**ANTH 3821. Myths and Mysteries in Archaeology. 3 Credits.**

Topics ranging from King Arthur to Atlantis are used to illustrate how archaeological methods and techniques can falsify-or support-exotic beliefs about the past.

**ANTH 3822. Archaeology in Film and Television. 3 Credits.**

As visual media increase public awareness of archaeology, misrepresentations and distortions abound. This course examines the relationships among archaeology, the media, and popular culture. Issues considered include nationalism, descendant communities, gender, race, and colonialism.

**ANTH 3823. Archaeology of Ritual and Religion. 3 Credits.**

Archaeological and ethnographic examples from around the world are used to critically evaluate how archaeologists make inferences about ritual practices and the religious lives of past peoples. Issues include the origins of symbolic behavior, sacred landscapes, shamanism, ancestor veneration, and sorcery/witchcraft.

**ANTH 3832. Paleoanthropological Field Program. 0-4 Credits.**

Field research in paleoanthropology, including excavation methods, identification and analysis of materials, paleoecology, archaeology, and human anatomy. Conducted at selected sites in Eurasia, Africa, or Australia. Visits to comparative sites and collections in the region.

**ANTH 3833. Field Research: New World. 1-6 Credits.**

Survey, excavation, and/or laboratory analysis at localities in North or South America. See Schedule of Classes for details.

**ANTH 3834. Field Research: Old World. 1-6 Credits.**

Survey, excavation, and/or laboratory analysis at Neolithic or later localities in Eurasia, Africa, or Oceania. See Schedule of Classes for details.

**ANTH 3835. Historical Archaeology Field Program. 3 Credits.**

Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as AMST 3835.

**ANTH 3838. Theory and Practice in Archaeology. 3 Credits.**

The primary literature in archaeology theory since the 1960s. Ethics, topical issues, and archaeological practice. Prerequisite: ANTH 1003.

**ANTH 3838W. Theory and Practice in Archaeology. 3 Credits.**

The primary literature in archaeology theory since the 1960s. Ethics, topical issues, and archaeological practice. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

**ANTH 3839. Lab Research Methods in Archaeology. 3 Credits.**

Research methods and techniques used by archaeologists. Emphasis on hands-on experience in one or more techniques. Prerequisite: ANTH 1003.

**ANTH 3891. Special Topics in Archaeology. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Prerequisites: ANTH 1003 or permission of the instructor.

**ANTH 3991. Special Topics. 0-3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**ANTH 3991W. Special Topics. 3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ANTH 3995. Undergraduate Research. 1-12 Credits.**

Individual research problems to be arranged with a member of the faculty. May be repeated for credit. Permission of the instructor required prior to enrollment.

**ANTH 4008. Seminar: Contemporary Anthropological Theory. 3 Credits.**

The development of major trends in anthropological theory. How anthropologists from the four fields--sociocultural, linguistic, biological, and archaeology--have deployed and developed the ideas of theorists in their own empirical research and theorizing about specific processes. Prerequisite: ANTH 2008.

**ANTH 4008W. Seminar: Contemporary Anthropological Theory. 3 Credits.**

The development of major trends in anthropological theory. How anthropologists from the four fields -- sociocultural, linguistic, biological, and archaeology -- have deployed and developed the ideas of theorists in their own empirical research and theorizing about specific processes. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ANTH 2008 or ANTH 2008W.

**ANTH 6101. Proseminar in Biological Anthropology. 3 Credits.**

Comprehensive overview of theory and practice in biological anthropology.

**ANTH 6102. Proseminar in Sociocultural Anthropology. 3 Credits.**

Comprehensive overview of theory and practice in sociocultural anthropology.

**ANTH 6103. Proseminar in Archaeology. 3 Credits.**

Survey of the most recent archaeological techniques and theoretical approaches to reconstructing and interpreting the cultures of the past.

**ANTH 6104. Proseminar in Linguistic Anthropology. 3 Credits.**

Contemporary anthropological studies of language in biological, social, and historical perspectives.

**ANTH 6200. Museum Anthropology. 3 Credits.**

How anthropological collections take shape in the past and carry meaning in the present. Critical examination of artifacts and forms of documentation. Application of material culture theory to museum records, collected objects, the changing meaning given to objects, and the context of collecting.

**ANTH 6201. Methods in Museum Anthropology. 3 Credits.**

How anthropological collections take shape in the past and carry meaning in the present. Research and analysis of existing collections; issues in museum anthropology.

**ANTH 6202. Museums and the Public: Exhibiting Culture. 3 Credits.**

Study of the issues and problems involved in "exhibiting culture," past and present, including issues of representation, message and interpretation, audience, ownership of objects and symbols, and ways of reconstructing the past. Critical examination of museum exhibits.

**ANTH 6203. Preventive Conservation Concepts. 3 Credits.**

Historical development of preventive conservation in museums, conservation ethics, team approaches to conservation, interactions of various materials with agents of deterioration. Basics of materials testing, preparation of condition reports, choosing museum storage and exhibition materials, and risk assessment. Same as MSTD 6203/ AH 6286.

**ANTH 6204. Preventive Conservation Techniques. 3 Credits.**

Practical applications of preventive conservation of materials, monitoring environmental conditions, conducting risk assessments, evaluation of exhibit and storage areas; developing plans, policies, and procedures for collections care; grant proposal preparation for collections care initiatives. Same as MSTD 6204/ AH 6287.

**ANTH 6205. Problems in Conservation. 3 Credits.**

Individual conservation projects to determine composition, construction, decomposition of materials, and possible stabilization techniques. Conservation laboratory experience. AH 6286 or ANTH 6203 may be taken as a corequisite. Prerequisites: AH 6286 or ANTH 6203.

**ANTH 6230. Internship in Museum Anthropology. 1-6 Credits.**

Supervised individual research and/or field work at the Smithsonian Institution or other area museums, arranged in consultation with the museum and the Anthropology Department. Admission by arrangement with the department chair or museum training advisor. May be repeated for credit up to a maximum of 6 credits.

**ANTH 6291. Special Topics in Museum Anthropology. 3 Credits.**

The social context and changing meaning of selected cultural processes or aspects of material culture that are represented in museums or public monuments. Topics vary by semester. See department for more details.

**ANTH 6301. The Anthropology of Development. 3 Credits.**

Theoretical perspectives that distinguish the contribution of anthropology to understanding processes of change in the Third World. Focus on health, population, environment, gender, and tourism issues. The role of anthropology in planning and implementing projects and policy.

**ANTH 6302. Issues in Development. 3 Credits.**

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**ANTH 6330. Internship in Development Anthropology. 3 Credits.**

Supervised participation in a selected development agency or other relevant organization. Opportunity to observe agency procedures and gain practical experience. Admission by permission of instructor or department chair.

**ANTH 6331. Research Methods in Development Anthropology. 3 Credits.**

Anthropologists' roles in research-related activities, such as feasibility studies, social soundness analysis, and evaluations. Innovative research techniques, such as interactive data gathering, team survey methods, and rapid rural appraisal. Admission by permission of instructor.

**ANTH 6391. Anthropology and Contemporary Problems. 3 Credits.**

Exploration of anthropological perspectives on a current issue, such as refugees, ethnic violence, national mythologies, and women's health in developing countries. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**ANTH 6401. Human Functional Anatomy. 3 Credits.**

Growth and function of the musculoskeletal system, including the development, anatomy, and histology of bone, biomechanics of muscle and skeletal tissue, craniofacial and dental growth and morphology, and locomotion. No prior knowledge of anatomy required. Laboratory fee.

**ANTH 6404. The Evolution of Primate Life Histories. 3 Credits.**

Recent developments in the study of human and non-human life histories. Life history theory. Life history traits compared among primate groups in order to determine how selective pressures have shaped extant primate life history patterns. Laboratory fee.

**ANTH 6406. Human Genetic Variation. 3 Credits.**

The genetic variation in human populations as a framework for measurement and analysis of genetic diversity and evolutionary process. Consideration of the possible roles of cultural change leading to adaptive/selective events. Same as FORS 6246.

**ANTH 6407. Anthropological Genetics. 3 Credits.**

Molecular approaches to understanding human evolution and diversity; current research findings and new methodologies; social and ethical issues, including commercial DNA testing and ownership of biological samples.

**ANTH 6412. Paleoanthropology. 1-3 Credits.**

Survey of current research in hominid and hominoid evolution, focusing on the integrated nature of the field. Contributions from the geological and biological sciences are stressed, together with innovative geochemical techniques for establishing chronological sequences. Prerequisites: ANTH 3412 or BISC 2450.

**ANTH 6413. Analytical Methods in Human Evolutionary Studies. 3 Credits.**

A survey of methods and approaches for data collection and analysis in human evolutionary biology research. Topics include comparative methods and basic and multivariate statistics.

**ANTH 6491. Topics in Biological Anthropology. 3 Credits.**

Topic announced in the Schedule of Classes. Instructors are drawn from GW faculty and Smithsonian Institution staff. May be repeated for credit if topic varies.

**ANTH 6501. Gender and Sexuality. 3 Credits.**

Study of new theoretical and methodological approaches developed in the anthropology of gender; postcolonialism, sexuality, and literary representations of gender. Same as WGSS 6257.

**ANTH 6505. Medical Anthropology. 3 Credits.**

Concepts and theories in contemporary medical anthropology, including "critical" versus "conventional" medical anthropology, changes in approaches since the mid-twentieth century; structural and cultural construction of illness and suffering; ethnographic and epidemiological perspectives.

**ANTH 6506. Topics in Medical Anthropology. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit if the topic varies.

**ANTH 6507. Nationalism and Ethnicity. 3 Credits.**

Major theoretical and ethnographic issues in the study of nationalism worldwide. Explores how ethnic groups emerge in colonial and contemporary plural societies and how states attempt to integrate ethnic groups into nations.

**ANTH 6508. Ethics and Cultural Property. 3 Credits.**

Survey of ethical issues in anthropology, focusing on cultural property and repatriation; the epistemological, ethical, and political dilemmas of excavating, collecting, and owning cultural artifacts.

**ANTH 6509. Anthropology of Art, Aesthetics, and Symbolism. 3 Credits.**

Anthropological approaches to aesthetic problems and theories of symbolism in the context of ethnographic materials.

**ANTH 6531. Methods in Sociocultural Anthropology. 3 Credits.**

Epistemology; the definition of research problems; selection of research subjects and sites; techniques of data collection (e.g., surveys, interviews); data management and organization; ethical protocols; issues of safety; grant writing and funding.

**ANTH 6561. American Folklife. 3 Credits.**

The materials of American folk culture, concentrating on folk architecture, crafts, and art. Major organizing themes are regionalism and the use of objects as indicators of cultural intention. Same as AMST 6561.

**ANTH 6562. Folklore Theory. 3 Credits.**

An intellectual history of American folklore research; analysis of particular theories and methods. Same as AMST 6562.

**ANTH 6591. Topics in Sociocultural Anthropology. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit if the topic varies.

**ANTH 6691. Topics in Linguistic Anthropology. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit if the topic varies.

**ANTH 6702. Issues in Latin American Anthropology. 3 Credits.**

Intensive study of a selected topic in the anthropology of Central and/or South America. Topic to be announced.

**ANTH 6707. Issues in Middle East Anthropology. 3 Credits.**  
Selected topics in the anthropology of the Middle East. Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**ANTH 6801. Paleolithic Archaeology. 3 Credits.**  
Current problems relating to materials from the Old World.

**ANTH 6802. Problems in Eurasian and African Archaeology. 3 Credits.**  
Topic announced in the Schedule of Classes. Topics may include Bronze Age conflict, the Celts, etc. May be repeated for credit.

**ANTH 6803. Problems in New World Archaeology. 3 Credits.**  
Current archaeological problems relating to the origin and development of aboriginal cultures. Specific topic to be announced in the Schedule of Classes. May be repeated for credit.

**ANTH 6804. Problems in Mesoamerican Archaeology. 3 Credits.**  
Topics range from specific civilizations, such as the Olmec, to pan-Mesoamerican topics, such as religion and exchange. May be repeated for credit.

**ANTH 6806. Technology. 3 Credits.**  
Cross-cultural examination of the form, function, meaning, and use of material culture (such as ceramics or stone tools) and the behavior patterns involved in its production. Topic vary by semester. Consult the Schedule of Classes for more details.

**ANTH 6807. Public Archaeology. 3 Credits.**  
The use and creation of the past and the relationship between archaeologists and different publics.

**ANTH 6832. Paleoanthropological Field Program. 0-4 Credits.**  
Intensive course on field research in paleoanthropology, including excavation methods, identification and analysis of materials, paleoecology, archaeology, and human anatomy. Conducted at selected sites in Eurasia, Africa, or Australia. Visits to comparative sites and collections in the region.

**ANTH 6833. Field Research: New World. 1-6 Credits.**  
Survey, excavation, and/or laboratory analysis at localities in North or South America. Consult the Schedule of Classes for more details.

**ANTH 6835. Historical Archaeology Field Program. 3-6 Credits.**  
Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as AMST 6835.

**ANTH 6838. Archaeological Theory. 3 Credits.**  
Overview of major theories and positions in American archaeology; examination of new issues and directions in which the field appears to be moving.

**ANTH 6839. Lab Research Methods in Archaeology. 3,4 Credits.**  
Research methods and techniques used by archaeologists. Emphasis on hands-on experience in one or more techniques. Laboratory fee.

**ANTH 6891. Topics in Archaeology. 3 Credits.**  
Major issues related to the theory and practice of archaeology. Topic announced in the Schedule of Classes.

**ANTH 6995. Research. 1-12 Credits.**  
May be repeated for credit.

**ANTH 6998. Thesis Research. 3 Credits.**

**ANTH 6999. Thesis Research. 3 Credits.**

**ANTH 8695. Linguistic Field Methods. 3 Credits.**  
The relationship between language and thought in dialogue with the study of a particular foreign language. Ethnographic study of language and cognition and the application of linguistic theory and method to anthropological research. Methods of elicitation and textual analysis, and technologies used for storing and analyzing linguistic data. Restricted to graduate students.

**ANTH 8998. Advanced Reading and Research. 1-12 Credits.**  
May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**ANTH 8999. Dissertation Research. 1-12 Credits.**  
May be repeated for credit. Restricted to doctoral candidates.

## BACHELOR OF ARTS WITH A MAJOR IN ANTHROPOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

The following curriculum requirements:

Code	Title	Credits
<b>Prerequisite courses:</b>		
ANTH 1001	Biological Anthropology	
ANTH 1002	Sociocultural Anthropology	
ANTH 1003	Archaeology	
ANTH 1004	Language in Culture and Society	

Code	Title	Credits
------	-------	---------

#### Required courses in other areas:

Two-year proficiency in a single foreign language, as demonstrated by completion of four semesters of college-level language study or the equivalent

6–12 credits of coursework in related departments approved by the advisor. Recommended for sociocultural emphasis are courses in economics, history, political science, psychology, religion, and sociology; for archaeological emphasis, courses in American studies, art history, geography, geological sciences, and history; for emphasis in biological anthropology, courses in anatomy, biological sciences, chemistry, and physical geography; for emphasis in linguistic anthropology, courses in linguistics and in speech and hearing science. Courses in statistics are strongly recommended for all anthropology majors

#### Requirements for the major:

In addition to the four prerequisite courses, 24–36 credits in anthropology courses, including:

ANTH 2008	Foundations of Anthropological Thought
-----------	--

At least one course from three of the following four categories:

Sociocultural anthropology (ANTH 2500s, 2700s, 3500s, and 3700s)

Linguistics (ANTH/LING 3600s)

Biological anthropology (ANTH 2400s and 3400s)

Archaeology (ANTH 3800s)

An approved methods course in any category, including but not limited to the courses listed below. (Methods courses can be double-counted as courses in their subject categories.)

ANTH 3406	Advanced Human Osteology
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3602	Ethnographic Analysis of Speech
ANTH 3832	Paleoanthropological Field Program
ANTH 3833	Field Research: New World
ANTH 3834	Field Research: Old World
ANTH 3835	Historical Archaeology Field Program
ANTH 3839	Lab Research Methods in Archaeology
ANTH 6806	Technology

In addition, a senior capstone experience is required; it may be met by taking ANTH 4008, ANTH 3995 (for 3 credits), or an approved 6000-level course. Qualified seniors may enroll in graduate-level courses with the permission of the instructor.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in anthropology, archaeology, or biological anthropology, students must have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research, and write a paper of special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

## BACHELOR OF ARTS WITH A MAJOR IN ARCHAEOLOGY

### REQUIREMENTS

The bachelor of arts with a major in archaeology is an interdepartmental program offered by the Department of Anthropology (<http://anthropology.columbian.gwu.edu>) in cooperation with the Department of Arts and Art History (<http://art.gwu.edu>) and the Department of Classical and Near Eastern Languages and Civilizations (<http://departments.columbian.gwu.edu/cnelc>).

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Additional curriculum requirements:

Code	Title	Credits
------	-------	---------

#### Prerequisite courses:

ANTH 1002	Sociocultural Anthropology
ANTH 1003	Archaeology

Code	Title	Credits
------	-------	---------

#### Required courses in other areas:

Completion of a two-year language proficiency through the intermediate level in French, Spanish, Italian, German, Arabic, Hebrew, Latin, or Greek, or placement above the intermediate level.

#### Requirements for the major:

ANTH 3838	Theory and Practice in Archaeology
-----------	------------------------------------

or ANTH 3838W Theory and Practice in Archaeology	
3-6 credits of archaeological field or laboratory courses selected from:	
ANTH 3832	Paleoanthropological Field Program
ANTH 3833	Field Research: New World
ANTH 3834	Field Research: Old World
ANTH 3835	Historical Archaeology Field Program
ANTH 3839	Lab Research Methods in Archaeology
ANTH 3995	Undergraduate Research
ANTH 3995 can be counted with advisor's approval.	
ANTH 6806	Technology
Qualified juniors and seniors are permitted to take ANTH 6806 with departmental approval.	
12-15 credits from anthropological archaeology and archaeology of ancient civilizations (section 4 below). At least one course must be taken from both and no course can count in more than one category. Either ANTH 3821 or ANTH 3822 can count for the major, but not both.	
Anthropological archaeology	
ANTH 3801	African Roots from Australopithecus to Zimbabwe
or ANTH 3801W	African Roots from Australopithecus to Zimbabwe
ANTH 3802	Human Cultural Beginnings
or ANTH 3802W	Human Cultural Beginnings
ANTH 3803	Old World Prehistory: First Farmers to First Cities
or ANTH 3803W	Old World Prehistory: First Farmers to First Cities
ANTH 3811	Historical Archaeology
ANTH 3822	Archaeology in Film and Television
ANTH 3823	Archaeology of Ritual and Religion
ANTH 3891	Special Topics in Archaeology
15 credits of ancient civilizations, including at least one in each category below.	
Art history	
AH 3101	Ancient Art of the Bronze Age and Greece

AH 3102	Ancient Art of the Roman Empire
AH 3103	Art and Archaeology of Egypt and the Near East
AH 3104	Art and Archaeology of the Aegean Bronze Age
AH 3105	Topics in Ancient Art and Archaeology
AH 3106	Art and Archaeology of Israel and Neighboring Lands
AH 3107	Ancient Mexican Civilizations
AH 3117	Special Topics in Precolumbian Art and Archaeology
Classical civilization	
CLAS 2105	Special Topics
CLAS 2106	Mythology of the Classical World
CLAS 2107	Families and Politics in Ancient Drama
CLAS 3114	Topics in Ancient Literatures and Cultures
CLAS 3115	Topics in Ancient Art and Archaeology
History	
CLAS 2112	History of Ancient Greece
CLAS 2113	The Roman World to 337 A.D.
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.
CLAS 2804	History of Ancient Israel
HIST 2112	History of Ancient Greece
HIST 2113	The Roman World to 337 A.D.
HIST 2803	The Ancient Near East and Egypt to 322 B.C.
HIST 2804	History of Ancient Israel
HIST 3111	Topics in Ancient History
Archaeology of ancient civilizations	
ANTH 3804	Origins of the State and Urban Society
ANTH 3805	Archaeology of Israel and Neighboring Lands
ANTH 3806	Art and Archaeology of the Aegean Bronze Age

ANTH 3808	Archaeology and the Celts
ANTH 3812	The Aztec Empire
ANTH 3813	Archaeology of North America
ANTH 3814	Ancient Mexican Civilizations
ANTH 3821	Myths and Mysteries in Archaeology

A given course cannot count toward more than one requirement for the major.

See the Anthropology Department (<http://anthropology.columbian.gwu.edu>) for more detailed information.

## SPECIAL HONORS

For Special Honors in anthropology, archaeology, or biological anthropology, a major must meet the special honors requirements stated under University Regulations (<http://bulletin.gwu.edu/university-regulations>), have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research and write a paper of special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

## BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGICAL ANTHROPOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Introductory courses (21 credits):</b>		
ANTH 1001	Biological Anthropology	
ANTH 1002	Sociocultural Anthropology	
or ANTH 1002W	Sociocultural Anthropology	
ANTH 1003	Archaeology	
ANTH 1004	Language in Culture and Society	
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory *	

BISC 1116 & BISC 1126  
Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory

**Code Title Credits**

#### 12 credits from the following:

ANTH 2406	Human Evolutionary Genetics
ANTH 3401	Human Functional Anatomy
ANTH 3402	Human Evolutionary Anatomy
ANTH 3403	Forensic Anthropology Laboratory
ANTH 3404	Human Variation
ANTH 3406	Advanced Human Osteology
ANTH 3407	Conservation in a Changing World: Human and Animal Behavior
ANTH 3408	The Evolution of Human Families
ANTH 3409	Evolution of Primate Life Histories
ANTH 3411	Primatology
ANTH 3412	Hominin Evolution
or ANTH 3412W	Hominin Evolution
ANTH 3413	Evolution of the Human Brain
ANTH 3491	Topics in Biological Anthropology
ANTH 3802	Human Cultural Beginnings
or ANTH 3802W	Human Cultural Beginnings
ANTH 3832	Paleoanthropological Field Program

#### 9 credits of biology (BISC) courses numbered 2000 or above, including at least one course from each of the following categories:

Cell/molecular biology	
BISC 2202	Cell Biology
BISC 2207	Genetics
BISC 2208	Genetics Laboratory
BISC 2213	Biology of Cancer
BISC 2214	Developmental Biology
BISC 2220	Developmental Neurobiology
BISC 3209	Molecular Biology

BISC 3210	Nanobiotechnology
BISC 3211	Nanobiotechnology Laboratory
BISC 3212	Immunology
BISC 3261	Introductory Medical Biochemistry
BISC 3262	Biochemistry Laboratory
BISC 3263	Special Topics in Biochemistry
Organismal/sub-organismal biology	
BISC 2318	Histology
BISC 2320	Neural Circuits and Behavior
BISC 2322	Human Physiology
or BISC 2322W	Human Physiology
BISC 2330	Invertebrate Zoology
BISC 2332	Comparative Vertebrate Anatomy
BISC 2333	Evolution and Extinction of Dinosaurs
BISC 2334W	Integrative Biology of Fishes
BISC 2337	Introductory Microbiology
or BISC 2337W	Introductory Microbiology
BISC 2339	Parasitology
BISC 3320	Human Neurobiology
BISC 3321	Comparative Endocrinology
BISC 3325	Environmental Physiology
Ecology/evolution	
BISC 2450	Organic Evolution
BISC 2451	History of Life
BISC 2452	Animal Behavior
BISC 2454	General Ecology
BISC 3458	Plant Comparative Structure and Function
BISC 3460	Conservation Biology
BISC 3461	Plant-Animal Interactions
BISC 3462	Plant-Animal Interactions Laboratory
BISC 3463	Ecological and Evolutionary Genetics
BISC 3464	Ecology and Evolution of Societies

**One course from the following:**

CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
CHEM 2085	Environmental Chemistry
CHEM 3140	Geochemistry
or GEOL 3140	Geochemistry
CHEM 3165	Biochemistry I
CHEM 3166	Biochemistry II
PSYC 2014	Cognitive Psychology
PSYC 2015	Biological Psychology
PSYC 3112	Psychology of Adolescence
PSYC 3118	Neuropsychology
BISC 1005	The Biology of Nutrition and Health
or BISC 1007	Food, Nutrition, and Service
BISC 1006	The Ecology and Evolution of Organisms
or BISC 1008	Understanding Organisms through Service Learning
GEOL 1001	Physical Geology
or GEOL 1005	Environmental Geology
GEOL 1002	Historical Geology
STAT 1127	Statistics for the Biological Sciences

**6 credits of anthropology (ANTH) courses numbered 2000 or above but not including courses in the 3400--3499 or the 3802 or 3832 range**

**Note:** The major in biological anthropology may not be pursued in conjunction with the major in anthropology.

\*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in anthropology, archaeology, or biological anthropology, a major have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research, and write a paper of

special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

## DUAL BACHELOR OF ARTS AND MASTER OF ARTS PROGRAMS IN ANTHROPOLOGY

The Department of Anthropology offers three options for a dual bachelor's/master's degree:

- Bachelor of Arts with a major in anthropology (p. 114) and Master of Arts in the field of anthropology (p. 122)
- Bachelor of Arts with a major in archaeology (p. 115) and Master of Arts in the field of anthropology (p. 122)
- Bachelor of Science with a major in biological anthropology (p. 117) and Master of Arts in the field of anthropology (p. 122)

These programs allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://anthropology.columbian.gwu.edu/combined-bama-program>) for additional information.

### REQUIREMENTS

## MINOR IN ANTHROPOLOGY

### REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including 12 credits in required courses and 9 credits in additional ANTH courses.

Code	Title	Credits
<b>Required</b>		
ANTH 1001	Biological Anthropology	
ANTH 1002	Sociocultural Anthropology	
ANTH 1003	Archaeology	
ANTH 1004	Language in Culture and Society	
Three additional anthropology (ANTH) courses, which must be taken in different subdisciplines. For the purposes of this minor, ANTH courses may be divided into subdisciplines as follows:		

Biological anthropology—courses in the 3400s and ANTH 1005.
Archaeology—courses in the 3800s.
Anthropological linguistics—courses in the 2600s and 3600s.
Sociocultural anthropology—all other upper-division courses, with the exception of ANTH 3995.

For the purposes of this minor, ANTH courses may be divided into subdisciplines as follows:

- biological anthropology—courses in the 3400s and ANTH 1005;
- archaeology—courses in the 3800s;
- anthropological linguistics—courses in the 2600s and 3600s;
- sociocultural anthropology—all other upper-division courses, with the exception of ANTH 3995.

## MINOR IN ARCHAEOLOGY

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
ANTH 1003	Archaeology	
ANTH 3838	Theory and Practice in Archaeology	
Four courses from the following: (An independent study course in archaeology or an approved art history course may be substituted for one of the four courses)		
ANTH 3801	African Roots from Australopithecus to Zimbabwe	
ANTH 3801W	African Roots from Australopithecus to Zimbabwe	
ANTH 3802	Human Cultural Beginnings	
ANTH 3802W	Human Cultural Beginnings	
ANTH 3803	Old World Prehistory: First Farmers to First Cities	
ANTH 3803W	Old World Prehistory: First Farmers to First Cities	
ANTH 3804	Origins of the State and Urban Society	
ANTH 3805	Archaeology of Israel and Neighboring Lands	

ANTH 3806	Art and Archaeology of the Aegean Bronze Age
ANTH 3808	Archaeology and the Celts
ANTH 3811	Historical Archaeology
ANTH 3812	The Aztec Empire
ANTH 3813	Archaeology of North America
ANTH 3814	Ancient Mexican Civilizations
ANTH 3821	Myths and Mysteries in Archaeology
ANTH 3822	Archaeology in Film and Television
ANTH 3823	Archaeology of Ritual and Religion
ANTH 3832	Paleoanthropological Field Program
ANTH 3833	Field Research: New World
ANTH 3834	Field Research: Old World
ANTH 3835	Historical Archaeology Field Program
ANTH 3838W	Theory and Practice in Archaeology
ANTH 3839	Lab Research Methods in Archaeology
ANTH 3891	Special Topics in Archaeology

## MINOR IN BIOLOGICAL ANTHROPOLOGY

### REQUIREMENTS

The following requirements must be fulfilled: 19 credits in required courses.

Code	Title	Credits
<b>Required</b>		
ANTH 1001	Biological Anthropology	
At least four additional upper-level courses from the following:		
ANTH 2406	Human Evolutionary Genetics	
ANTH 3401	Human Functional Anatomy	
ANTH 3402	Human Evolutionary Anatomy	
ANTH 3403	Forensic Anthropology Laboratory	
ANTH 3404	Human Variation	
ANTH 3405	Human Growth and Development	

ANTH 3406	Advanced Human Osteology
ANTH 3407	Conservation in a Changing World: Human and Animal Behavior
ANTH 3408	The Evolution of Human Families
ANTH 3409	Evolution of Primate Life Histories
ANTH 3411	Primatology
ANTH 3412	Hominin Evolution
or ANTH 3412W	Hominin Evolution
ANTH 3412W	Hominin Evolution
ANTH 3413	Evolution of the Human Brain
ANTH 3491	Topics in Biological Anthropology
ANTH 3802	Human Cultural Beginnings
or ANTH 3802W	Human Cultural Beginnings
Students also must take at least one approved field experience, which may be ANTH 3832 or ANTH 3839 or, with prior approval of the undergraduate advisor, a course in a related field, such as biological sciences, geology, psychology, or statistics:	
ANTH 3832	Paleoanthropological Field Program
ANTH 3839	Lab Research Methods in Archaeology
BISC 1005	The Biology of Nutrition and Health
BISC 1006	The Ecology and Evolution of Organisms
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory *
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory
GEOL 1001	Physical Geology
GEOL 1002	Historical Geology
GEOL 1005	Environmental Geology
PSYC 2014	Cognitive Psychology
PSYC 2015	Biological Psychology
PSYC 3112	Psychology of Adolescence
PSYC 3118	Neuropsychology

PSYC 3122	Cognitive Neuroscience
STAT 1127	Statistics for the Biological Sciences

\*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

## MINOR IN CROSS-CULTURAL COMMUNICATION

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
ANTH 1002	Sociocultural Anthropology	
ANTH 1004	Language in Culture and Society	
Two courses (6 credits) from the following, at least one of which must be ANTH 3601 or ANTH 3602/ANTH 3602W.		
ANTH 3601	Language, Culture, and Cognition	
ANTH 3602	Ethnographic Analysis of Speech	
or ANTH 3602W	Ethnographic Analysis of Speech	
ANTH 3603	Psycholinguistics	
ANTH 3691	Special Topics in Linguistic Anthropology	
One course (3 credits) from the following:		
ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives	
ANTH 2505	Introduction to Ethnomusicology	
ANTH 2506	Religion, Myth, and Magic	
or REL 2506	Religion, Myth, and Magic	
ANTH 2533	Material Culture in America	
or AMST 2533	Material Culture in America	
ANTH 3501	Anthropology of Development	
ANTH 3502	Cultural Ecology	
ANTH 3503	Psychological Anthropology	

ANTH 3504	Illness, Healing, and Culture
ANTH 3506	Politics, Ethnicity, and Nationalism
ANTH 3507	Kinship, Family, and Community
ANTH 3508	Art and Culture
ANTH 3513	Anthropology of Human Rights
ANTH 3521	Ethnographic Film
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3991	Special Topics
One course (3 credits) from the following:	
ANTH 3701	Native Peoples - North America
ANTH 3702	Anthropology of Latin America
ANTH 3703	Cultures of the Pacific
ANTH 3704	Cultures of Southeast Asia
ANTH 3705	Anthropology of East Asia
ANTH 3707	Anthropology of the Middle East
ANTH 3708	Anthropology of Africa
ANTH 3709	Japanese Culture Through Film
or JAPN 3162	Japanese Culture Through Film

## MINOR IN SOCIOCULTURAL ANTHROPOLOGY

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 3 credits in one required course and 15 credits in elective courses.

Code	Title	Credits
<b>Required introductory course (3 credits):</b>		
ANTH 1002	Sociocultural Anthropology	
<b>Five courses (15 credits) from the following:</b>		
ANTH 2008	Foundations of Anthropological Thought	
or ANTH 2008W	Foundations of Anthropology	
ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives	

or WSTU 2121 The Anthropology of Gender: Cross-Cultural Perspectives

ANTH 2505 Introduction to Ethnomusicology

or MUS 2105 Introduction to Ethnomusicology

or MUS 2105W Introduction to Ethnomusicology

ANTH 2506 Religion, Myth, and Magic

or REL 2506 Religion, Myth, and Magic

ANTH 2533 Material Culture in America

or AMST 2533 Material Culture in America

ANTH 2750 Latinos in the United States

or ANTH 2750W Latinos in the United States

ANTH 3501 Anthropology of Development

ANTH 3502 Cultural Ecology

ANTH 3503 Psychological Anthropology

ANTH 3504 Illness, Healing, and Culture

ANTH 3506 Politics, Ethnicity, and Nationalism

ANTH 3507 Kinship, Family, and Community

ANTH 3508 Art and Culture

ANTH 3513 Anthropology of Human Rights

or ANTH 3513W Anthropology of Human Rights

ANTH 3521 Ethnographic Film

ANTH 3531 Methods in Sociocultural Anthropology

ANTH 3701 Native Peoples - North America

ANTH 3702 Anthropology of Latin America

ANTH 3703 Cultures of the Pacific

ANTH 3704 Cultures of Southeast Asia

ANTH 3705 Anthropology of East Asia

ANTH 3707 Anthropology of the Middle East

ANTH 3708 Anthropology of Africa

ANTH 3709 Japanese Culture Through Film

or JAPN 3162 Japanese Culture Through Film

ANTH 3991 Special Topics

## MASTER OF ARTS IN THE FIELD OF ANTHROPOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Code	Title	Credits
------	-------	---------

**The minimum requirement consists of:**

36 credits of approved graduate coursework including the following:

At least three of the following four proseminars:

ANTH 6101	Proseminar in Biological Anthropology
-----------	---------------------------------------

ANTH 6102	Proseminar in Sociocultural Anthropology
-----------	--

ANTH 6103	Proseminar in Archaeology
-----------	---------------------------

ANTH 6104	Proseminar in Linguistic Anthropology
-----------	---------------------------------------

Those with significant background in a field, as determined by evaluation of a student petition to the proseminar instructor, may waive one proseminar. Those who are permitted to waive a proseminar must, however, take two courses from the following:

ANTH 6101	Proseminar in Biological Anthropology
-----------	---------------------------------------

or ANTH 6103	Proseminar in Archaeology
--------------	---------------------------

ANTH 6102	Proseminar in Sociocultural Anthropology
-----------	--

or ANTH 6104	Proseminar in Linguistic Anthropology
--------------	---------------------------------------

An approved methods course

In addition to 30-33 credits of approved graduate coursework, 3-6 credits of research for a thesis or other culminating project.

Students with fewer than four undergraduate semesters of a major foreign language must demonstrate a reading knowledge of an approved language before beginning the third semester of graduate work.

### Concentration in museum training

The program of study is the same as that described above for the general degree, but must include from 12 to 15 credits of work in museum-related courses, 6 credits of which may be in an internship. Students whose primary interest is in museum techniques, rather than anthropology, are advised to apply to the master's program in museum studies (see Museum

Studies). Note that a program in museum education is also available through the Graduate School of Education and Human Development.

## Concentration in international development

The program of study is the same as that described above for the general degree, but must include:

Code	Title	Credits
ANTH 6301	The Anthropology of Development	
ANTH 6331	Research Methods in Development Anthropology	
Two of the following:		
ANTH 6302	Issues in Development	
ANTH 6330	Internship in Development Anthropology	
ANTH 6391	Anthropology and Contemporary Problems	
ANTH 6501	Gender and Sexuality	
ANTH 6507	Nationalism and Ethnicity	
An approved graduate-level course in quantitative analysis		

The program is designed to improve the student’s understanding of development problems, such as economic change, population, health, education, migration, and ecology, within an anthropological framework. Note that the Elliott School of International Affairs offers a program in international development studies with a disciplinary specialization in anthropology.

## Concentration in medical anthropology

The program of study is the same as that described for the general degree, but must include:

Code	Title	Credits
ANTH 6505	Medical Anthropology	
Two of the following:		
ANTH 6302	Issues in Development	
ANTH 6391	Anthropology and Contemporary Problems	
ANTH 6501	Gender and Sexuality	
ANTH 6506	Topics in Medical Anthropology	
One of the following research methods options:		

Option A:	
ANTH 6331	Research Methods in Development Anthropology
PUBH 6003	Principles and Practices of Epidemiology
Option B:	
Two of the following:	
PUBH 6410	Global Health Study Design
PUBH 6411	Global Health Qualitative Research Methods
PUBH 6412	Global Health Quantitative Research Methods

## DOCTOR OF PHILOSOPHY IN THE FIELD OF ANTHROPOLOGY REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits.

### Requirements for the first phase of the program

Code	Title	Credits
Required		
Core proseminars		
Students are expected to take three of the four offered proseminars; however, students with significant background in a field, as determined through petition to the instructor, may waive one proseminar.		
ANTH 6101	Proseminar in Biological Anthropology	
ANTH 6102	Proseminar in Sociocultural Anthropology	
ANTH 6103	Proseminar in Archaeology	
ANTH 6104	Proseminar in Linguistic Anthropology	
One research methods seminar		

#### Elective courses

All students must demonstrate proficiency in one foreign language; an additional language may be required if it is needed for fieldwork or archival research. An internship in anthropology and public life at an institution responsible for communicating anthropological knowledge to diverse audiences is recommended.

## Requirements for the second phase of the program

In the second phase, students prepare a research proposal that meets funding agency guidelines and take the general examination in at least three major areas (e.g., a general field in anthropological theory, a geographic area, and a thematically defined field). Following successful completion of the general examination, an oral defense of the student's research proposal is held. Those who pass advance to candidacy for the PhD and engage in completion and defense of the dissertation.

## ART THERAPY

The graduate program in art therapy trains highly skilled therapists whose professional practice is grounded in a broad understanding of current clinical art therapy, counseling, and trauma theories. Students are taught the application of effective research and evaluation methodologies, clinical skills, and studio expertise, within a diverse, integrative, and culturally-responsive format. The program's student-focused approach allows each student to cultivate a unique identity as an art therapist.

Visit the department website (<https://arttherapy.columbian.gwu.edu>) for more information.

## GRADUATE

### Master's programs

- Master of Arts in the field of art therapy (p. 126)
- Master of Arts in the field of art therapy practice (p. 127)

## FACULTY

**Associate Professors** H. Bardot (*Director*), D. Betts

**Assistant Professors** L. Garlock, J. Potash, T. Tripp (*Teaching*).

**Professorial Lecturers** R. Albert, K. Baasch, J. Baldwin, D. Brancheau, D. Bunkley, T. Council, A. Di Maria, A. Herrera, P. Howie, C. Knebel, O. Kraybill, L. Milofsky, L. Mowry-Hesler, S. Nelson, D. Preston-Dillon, M.E. Ruff, D. Sabados, M. Scher-Phillips, A. VanBrunt, J. Wager, A. Zurayk.

**Lecturer** C. Cox

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

**Note:** The following courses are open to non-art therapy students:

ARTH 6201 Survey of Art Therapy

#### **ARTH 6201. Survey of Art Therapy. 3 Credits.**

The use of the visual arts to enhance personal development and growth; illustrated lectures, readings, discussion, and studio work presented by experts in the field. Instruction is delivered online via Blackboard. No previous art experience is necessary.

#### **ARTH 6205. History and Theory of Art Therapy. 2 Credits.**

Art therapy history and theory, milestones and practitioners. The development of art therapy as a distinct therapeutic practice. Overview of psychotherapy theories relevant to art therapy. Open only to art therapy students.

#### **ARTH 6206. Human Development and Art Therapy. 3 Credits.**

Psychological and artistic development across the life span; theories of personality development; cultural and environmental influences; and human behavior, including developmental crises, disability, exceptional behavior, and addictive behavior. Restricted to students in the art therapy program.

#### **ARTH 6207. Human Development and Art Therapy I: Child and Adolescent. 2 Credits.**

Practical and developmental considerations when working with adults and senior adults in art therapy; psychological, cultural, environmental, and artistic influences and expectations; life span impacts of human behavior, developmental crises, disability, and exceptional behavior. Restricted to students in the art therapy program.

#### **ARTH 6208. Human Development and Art Therapy II: Adults and Senior Adults. 2 Credits.**

Practical and developmental considerations when working with adults and senior adults in art therapy; psychological, cultural, environmental, and artistic influences and expectations; life span impacts of human behavior, developmental crises, disability, and exceptional behavior. Restricted to students in the art therapy program. Prerequisite: ARTH 6207.

**ARTH 6210. Counseling/Art Therapy Process. 3 Credits.**

Theoretical and clinical dimensions of counseling and art therapy explored through study of current research concerning the diverse elements affecting the therapeutic process. The goals of each phase of treatment; development of the therapeutic alliance; assessment of client readiness; therapeutic techniques and interventions as practiced in short- and long-term treatment.

**ARTH 6211. Process of Counseling and Art Therapy: Theory. 3 Credits.**

Major theories in counseling and art psychotherapy through the lens of the creative process and other aspects of clinical practice; the influence of multicultural issues, contemporary and evidence-based practices, and various settings on art-making and the therapeutic encounter. Restricted to students in the art therapy program. Prerequisite: ARTH 6210.

**ARTH 6212. Creativity, Symbolism, and Metaphor. 2 Credits.**

Theories of creative development, aesthetics, and art interpretive strategies for engaging metaphor, symbolism, and personal association to client artwork; integrating personal, familial, cultural, and social meanings for insight and revelation. Restricted to students in the art therapy program.

**ARTH 6221. Studio/Technique of Art Therapy. 3 Credits.**

Direct experience of the therapeutic utility and psychological influence of art processes and materials. Identifying the effect of art-making leading to assessment and intervention strategies. Open only to art therapy students.

**ARTH 6231. Child Art Therapy. 2 Credits.**

Practical, theoretical, and ethical considerations involved in treating children in clinical, community, and educational settings; application of art therapy and counseling principles and practices for diverse child populations; development of interventions for varied DSM diagnoses. Restricted to graduate students in the art therapy program.

**ARTH 6232. Art Therapy with Adolescents. 2 Credits.**

Practical, theoretical, and ethical considerations in treating adolescents in clinical, community and educational settings. Assessment and treatment issues in art therapy. Application of art therapy and counseling principles and practices for diverse adolescent populations. Development of interventions for varied DSM diagnoses. Restricted to art therapy students. Restricted to students in the art therapy program.

**ARTH 6233. Marital and Family Art Therapy/Counseling. 3 Credits.**

Principles of working with families and couples, including an overview of systems theories and stages of family life cycle development; art techniques for evaluating of family dynamics; intervention strategies and cultural and ethical considerations. Restricted to art therapy students. Restricted to students in the art therapy program.

**ARTH 6234. Group Process. 3 Credits.**

Theoretical and experiential understanding of group art therapy and counseling methods and skills. Principles of group dynamics, therapeutic factors, member roles and behaviors, leadership styles and approaches, selection criteria, and short- and long-term group process.

**ARTH 6235. Social and Cultural Diversity. 3 Credits.**

Exploration of the therapist's heritage, expectations, worldview and values; racial/cultural identity development; skills for multicultural counseling. Stereotypes and biases that interfere with effective treatment of culturally different clients. The role of the art therapist or counselor in conflict resolution, advocacy, and social justice. May be repeated for credit if taken through the study abroad course option. Restricted to art therapy students.

**ARTH 6241. Assessment Procedures. 3 Credits.**

Instruments and procedures used in assessment of psychological health and psychopathology; diagnostic and developmental criteria as manifested in artwork and art-making; statistical concepts, including reliability and validity; selection and administration of assessment tools; treatment planning; report writing. Restricted to students in the art therapy program.

**ARTH 6242. Psychopathology: Art and Diagnosis. 3 Credits.**

Criteria of psychiatric diagnoses, such as the Diagnostic and Statistical Manual multiaxial system, theories of psychopathology, and relevant literature evaluation of potential indicators of functional and organic disorders in behavior and artwork of clients; ethical issues; cultural and environmental influences on diagnostic categorization; basic introduction to psychopharmacology. Restricted to students in the art therapy program or with permission of the instructor.

**ARTH 6243. Substance Abuse and Addictions. 3 Credits.**

Overview of substance abuse and addictions for art therapy and counseling, including theory and treatment applications; screening and assessment tools; treatment models specific to the field of addictions; art therapy techniques in the treatment of substance abuse for adolescents and adults in a variety of treatment settings. Restricted to students in the art therapy program.

**ARTH 6251. Research Methods. 3 Credits.**

Planning, conducting, and evaluating relevant methodologies, including qualitative and quantitative approaches and basic statistics; the importance of research in the psychotherapy professions; ethical and legal considerations; and the use of research to assess effectiveness of mental health and art therapy services. Restricted to graduate students in the art therapy program.

**ARTH 6261. Ethics and Professionalism. 3 Credits.**

Professional identity and the role of the therapist; the ethical practice of counseling and art therapy, including familiarity with ethical standards of various professional organizations; credentialing and licensure; public policy and advocacy for patients and for the profession. Restricted to graduate students in the art therapy program.

**ARTH 6262. Career Counseling and Art Therapy. 3 Credits.**

Theoretical foundation and practical experience necessary to understand and support career development needs for diverse individual clients and groups; career development over the lifespan; assessments, tools, and resources; occupational and labor market trends and resources; specific art therapy techniques applicable to career counseling in educational and work settings. Restricted to students in the art therapy program.

**ARTH 6263. Ethics and Professionalism I: Principles. 1 Credit.**

The ethical standards of art therapy, counseling, and related mental health professions. Restricted to students in the art therapy program.

**ARTH 6264. Ethics and Professionalism II: Applications. 2 Credits.**

Applying ethical principles and values for professional identity and the role of the therapist; credentialing and licensure; public policy and advocacy for patients and for the profession. Restricted to students in the art therapy program. Prerequisite: ARTH 6263.

**ARTH 6265. Advanced Issues in Psychotherapy and Art Therapy. 1-3 Credits.**

Overview and application of one or more treatment models or theories to various mental and emotional disorders. Connections between the practice of art therapy and the techniques of other disciplines.

**ARTH 6271. Art Psychotherapy and Trauma I: Theory and Approaches to Treatment. 0-3 Credits.**

Introduction and overview of theory, practice, and treatment related to complex, trauma-related problems; psychobiology of traumatic stress, impact of traumatic stress on individuals, and specific treatment modalities in clinical setting; somatic (body-based) and nonverbal (art and image-based) treatment modalities. Supervised treatment or observation of treatment of clients with trauma histories. Restricted to art therapy students. Restricted to students in the art therapy program.

**ARTH 6272. Art Psychotherapy and Trauma II: Loss, Countertransference, and Resiliency. 3 Credits.**

Multi-modal treatment of acute, serial, or complex trauma; theoretical, practical, moral, cross cultural, and personal aspects as seen through an art therapy and counseling lens. Supervised treatment or observation of treatment of clients with trauma histories. Restricted to students in the art therapy program. Prerequisite: ARTH 6271.

**ARTH 6281. Practicum in Art Therapy. 1-2 Credits.**

Supervised clinical experience with clients or patients in psychiatric, rehabilitation, and education settings with children, adolescents, and adults. On-site individual supervision by clinical instructors; on-campus group supervision by faculty. A total of six semesters of practicum are required while completing 900 internship hours, 400 of which must be direct client contact. Restricted to graduate students in the art therapy program.

**ARTH 6292. Special Projects in Art Therapy. 1-12 Credits.**

Individual work based on research. Empirical, clinical, and library research may be undertaken, as well as the development of new procedures. Details to be worked out with each student. May be repeated for credit with advisor's approval. Open only to art therapy students.

**ARTH 6998. Thesis Research. 3 Credits.****ARTH 6999. Thesis Research. 3 Credits.**

## MASTER OF ARTS IN THE FIELD OF ART THERAPY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

61 credits including 900 internship hours.

Code	Title	Credits
<b>Required</b>		
ARTH 6205	History and Theory of Art Therapy	
ARTH 6206	Human Development and Art Therapy	
ARTH 6210	Counseling/Art Therapy Process I	
ARTH 6211	Process of Counseling and Art Therapy: Theory	
ARTH 6221	Studio/Technique of Art Therapy	
ARTH 6231	Child Art Therapy	
ARTH 6232	Art Therapy with Adolescents	
ARTH 6233	Marital and Family Art Therapy/ Counseling	
ARTH 6234	Group Process	
ARTH 6235	Social and Cultural Diversity	
ARTH 6241	Assessment Procedures	
ARTH 6242	Psychopathology: Art and Diagnosis	

ARTH 6251	Research Methods
ARTH 6261	Ethics and Professionalism
ARTH 6265	Advanced Issues in Psychotherapy and Art Therapy
ARTH 6271	Art Psychotherapy and Trauma I: Theory and Approaches to Treatment
ARTH 6272	Art Psychotherapy and Trauma II: Loss, Countertransference, and Resiliency
ARTH 6262	Career Counseling and Art Therapy
ARTH 6243	Substance Abuse and Addictions
ARTH 6281	Practicum in Art Therapy
ARTH 6292	Special Projects in Art Therapy

Visit the Art Therapy Program website (<https://arttherapy.columbian.gwu.edu>) for additional information.

## MASTER OF ARTS IN THE FIELD OF ART THERAPY PRACTICE

### REQUIREMENTS

The master of arts in the field of art therapy practice degree program is intended for those who hold a master's degree in an approved related field (such as counseling or social work) that included designated graduate coursework.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits, including 27 courses in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Required</b>		
ARTH 6205	History and Theory of Art Therapy	
ARTH 6234	Group Process	
ARTH 6235	Social and Cultural Diversity	
ARTH 6241	Assessment Procedures	
ARTH 6261	Ethics and Professionalism	
ARTH 6281	Practicum in Art Therapy	
Two of the following (with approval):		
ARTH 6210	Counseling/Art Therapy Process I	

ARTH 6211	Process of Counseling and Art Therapy: Theory
ARTH 6271	Art Psychotherapy and Trauma I: Theory and Approaches to Treatment

#### Elective

3 credits of ARTH electives

Visit the Art Therapy Practice Program website (<https://arttherapy.columbian.gwu.edu/program-options>) for additional information.

## BIOCHEMISTRY AND MOLECULAR MEDICINE

### GRADUATE

#### Master's program

- Master of Science in the field of bioinformatics and molecular biochemistry (p. 129)

### FACULTY

**University Professor** F. Murad

**Professors** P. Berg, V. Hu, A. Kumar, R. Kumar (*Chair*), Z. Lu (*Research*), W. Nierman, M. Sharma (*Research*), J. Vanderhoek (*Director of MS program*), G. Walker, W. Weglicki

**Associate Professors** K. Bian (*Research*), G. Dimri, M. Elliott, Z. Han, J. Kramer (*Research*), I.T. Mak (*Research*), R. Mazumder

**Assistant Professors** J. Chmielinska (*Research*), M. Dimri (*Research*), J.-H. Kim, A. Kots (*Research*), K. Ohshiro (*Research*), M.-Y. Wu (*Research*), R.-C. Wu, J. Zhou (*Research*), W. Zhu

### COURSES

#### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### BIOC 3261. Introductory Medical Biochemistry. 4 Credits.

Introduction to structures of biological macromolecules, enzyme catalysis, cellular bioenergetics, and metabolism. (Same as BISC 3261, CHEM 3165).

**BIOC 3262. Biochemistry Laboratory. 2 Credits.**

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Same as BISC 3262 and CHEM 3262. Laboratory fee. Prerequisites: BIOC 3261 or BISC 3261.

**BIOC 3263. Special Topics in Biochemistry. 2 Credits.**

In-depth discussion of current biochemically relevant topics, including cancer and HIV chemotherapy, immune response, photosynthesis, signal transduction, hormone regulation and nutrition. Prerequisites: BIOC 3261 or BISC 3261. (Same as BISC 3263).

**BIOC 3263W. Special Topics in Biochemistry. 2 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**BIOC 3560. Diet, Health, and Longevity. 3 Credits.**

Biochemical and molecular explanations of how calorie intake affects health; scientific principles of dieting. Prerequisites: BISC 1005 or BIOC 3261.

**BIOC 3564. Lipid Biotechnology. 0-2 Credits.**

Same as BISC 3564 and CHEM 3564. Laboratory fee. Prerequisites: BIOC 3261 or BISC 3261.

**BIOC 3820. Bioinformatics and Computational Biochemistry. 2 Credits.**

How biomedical researchers integrate information from molecular biology resources for analysis and testing of hypotheses. Prerequisites: BISC 1115 and BISC 1125; and STAT 1127.

**BIOC 3821. Projects in Biomedical Informatics. 1-2 Credits.****BIOC 4195. Undergraduate Research. 1 Credit.**

Research conducted under a mentor who is a member of the department. May be repeated for credit (only 1 credit may count toward the minor). Permission of the instructor required prior to enrollment.

**BIOC 4701. Science and Medicine. 0-4 Credits.**

A broad overview of several biomedical discoveries made in the twentieth century and the often profound influence they have had on medical technology and on new directions in science and medicine, science administration, politics, ethics, and philosophy.

**BIOC 6201. Medical Biochemistry. 7 Credits.**

Required for medical students. Lecture and laboratory; emphasis on basic principles and their relation to medicine.

**BIOC 6209. Research Elective in Medical Biochemistry. 1-12 Credits.****BIOC 6211. Biochemistry-Health Science Students. 3,4 Credits.**

Basic concepts of biochemistry and their relation to health sciences.

**BIOC 6221. Proteins, Pathways, and Human Health. 4 Credits.**

A comprehensive course in general biochemistry for graduate students in biomedical sciences. Prerequisites: CHEM 2152 and CHEM 2154.

**BIOC 6222. Biochemical Genetics and Medicine. 3 Credits.**

Continuation of BIOC 6221. A comprehensive course in general biochemistry for graduate students in biomedical sciences. Prerequisites: CHEM 2152 and CHEM 2154.

**BIOC 6223. Bioinformatics. 2 Credits.**

The application of bioinformatics concepts and methods through the use of molecular biology databases and tools, covering molecular evolution, and protein sequence, structural, functional analysis. Recommended background: Prior completion of an undergraduate course in biochemistry.

**BIOC 6224. Molecular Biology and Protein Methods. 3 Credits.**

Common laboratory techniques used in life science laboratories to separate and characterize proteins, including chromatography, gel electrophoresis, immunoassays, spectroscopy, and centrifugation. Corequisite: BIOC 6221. Laboratory fee.

**BIOC 6227. Biochemistry Seminar. 1 Credit.**

Current literature in biochemistry. May be repeated for credit. Restricted to graduate students in the biochemistry and molecular medicine program.

**BIOC 6234. Biochemical and Bioinformatic Approaches to Protein Structure and Function. 3 Credits.**

Molecular biological, biophysical, chemical, and bioinformatic approaches to understanding protein structure and function. Protein folding, interactions, and ligand binding.

**BIOC 6235. Seminar in Genomics, Proteomics, and Bioinformatics. 1 Credit.****BIOC 6236. Medical Genomics. 2 Credits.**

The structure and function of genes and genomes; genomic theories, methods, and data analysis including bioinformatics and database mining. BIOC 6221 and BIOC 6222 may be taken as corequisites. Prerequisites: BIOC 6221 and BIOC 6222.

**BIOC 6237. Proteomics and Biomarkers. 2 Credits.**

Experimental proteomics, protein/proteome analysis, bioinformatics of proteomics, systems biology and structural genomics. Prerequisite: BIOC 6236.

**BIOC 6238. Experimental Genomics Lab. 3 Credits.**

Research applications of knowledge in genomics and proteomics. Prerequisite: BIOC 6236. Laboratory fee.

**BIOC 6240. Next Generation Sequencing. 2 Credits.****BIOC 6242. Bioscience Big Data Statistics. 2 Credits.**

Modern bioscience big data from generation to analysis and interpretation; data structures and data types and objects; and challenges in big data storage, access, and computation.

**BIOC 6250. Molecular Biology. 3 Credits.**

Content includes the organization and replication of genetic material, transcriptional and translational machinery, regulation of eukaryotic gene expression, and other special topics. BIOC 6221 and BIOC 6222 may be taken as corequisites. Prerequisites: BIOC 6221 and BIOC 6222.

**BIOC 6252. Current Laboratory Methods in Molecular Biology. 3 Credits.**

Corequisite: BIOC 6221. Laboratory fee.

**BIOC 6254. Fundamentals of Molecular Biology. 3 Credits.**

An intermediate-level molecular biology survey course. Prerequisite: BIOC 6221.

**BIOC 6260. Analytic Methods for Lipids and Carbohydrates. 3 Credits.**

Basic techniques in the biotechnology of lipids and carbohydrates. Prerequisite: BIOC 6221.

**BIOC 6262. Genes, Diets, and Aging. 3 Credits.**

.

**BIOC 6264. Membrane-Associated Complex Lipids. 1 Credit.**

.

**BIOC 6281. Topics. 1,2 Credit.**

Directed readings in biochemistry, molecular biology, and genetics. May be repeated for credit. Restricted to graduate students in the biochemistry and molecular medicine program.

**BIOC 6290. Extramural Biochemistry Elective. 1-12 Credits.****BIOC 6291. Extramural Biochemistry Elective. 1-12 Credits.****BIOC 6295. Research. 1-12 Credits.**

Participation in a project under investigation or in a field suggested by the student and approved by the staff. May be repeated for credit. Laboratory fee.

**BIOC 6298. Advanced Reading. 1-6 Credits.**

Advanced reading in biochemistry. Restricted to students in the MS in molecular biochemistry and bioinformatics program.

**BIOC 6998. Thesis Research. 3 Credits.****BIOC 6999. Thesis Research. 3 Credits.****BIOC 8225. Metabolism. 4 Credits.**

Metabolic pathways and integration of metabolic processes. Limited to PhD students in the Institute for Biomedical Sciences.

**BIOC 8231. Biochemical Basis of Human Diseases. 3 Credits.**

Biochemical perspectives on disorders involving metabolic alterations, immunological dysregulation, problems of environmental/toxicological etiology, genetic/epigenetic dysfunction, neglected tropical diseases. Prerequisites: BMSC 8210 and BMSC 8212.

**BIOC 8232. Molecular and Cellular Signaling. 3 Credits.**

.

**BIOC 8501. Issues in Clinical Nutrition. 3 Credits.****BIOC 8502. Molecular Biology of Oncogenes. 1-12 Credits.****BIOC 8503. Readings in Immunology. 3 Credits.****BIOC 8800. Summer Remedial Biochemistry. 8 Credits.**

## MASTER OF SCIENCE IN THE FIELD OF BIOINFORMATICS AND MOLECULAR BIOCHEMISTRY

The MS in Bioinformatics and Molecular Biochemistry has a **Biochemistry track** (<https://smhs.gwu.edu/biochemistry/programs/ms-biochemistry>) and a **Bioinformatics track** (<https://smhs.gwu.edu/biochemistry/programs/ms-bioinformatics>). The program provides schedule flexibility (**classes are held in the late afternoons and evenings**), options to choose between **thesis or non-thesis** tracks and between a **1-year or a 2-year program**. It combines a rigorous and up-to-date curriculum with hands-on experience in a myriad of laboratories and research initiatives, and allows students to partially create their own program by offering a diverse elective courses pool. The program includes students coming from many countries, and our graduates have gone on to successfully pursue many career paths. In addition, the Institute of Biomedical Sciences offers a PhD track in Biochemistry and Molecular Genetics.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

Code	Title	Credits
<b>Required</b>		
BIOC 6221	Proteins, Pathways, and Human Health	
BIOC 6222	Biochemical Genetics and Medicine	
BIOC 6223	Bioinformatics	
BIOC 6227	Biochemistry Seminar (taken twice for a total of 2 credits)	
<b>Required for bioinformatics track</b>		
BIOC 6236	Medical Genomics	
BIOC 6237	Proteomics and Biomarkers	
BIOC 6240	Next Generation Sequencing	
<b>Required for biochemistry track</b>		
BIOC 6224	Molecular Biology and Protein Methods	

**Electives and thesis**

Non-thesis option: 13 credits in elective courses.

Thesis option: BIOC 6998, BIOC 6999, and 7 credits in elective courses.

Students who wish to pursue the thesis option should contact the department for details.

## BIOLOGICAL SCIENCES

Biological sciences explore the science of life, from biomolecules to ecosystems. Courses and ongoing research programs are focused in three general areas: cell and molecular biology, ecology, and evolution and systematics. In research laboratories, students and faculty members work together on projects that range from dinosaur evolution through an investigation of how misfolded proteins interfere with insulin production. Many departmental faculty members have working relationships with scientists in surrounding education and federal institutions, and the program has a collaboration of more than 100 years standing with the Smithsonian Institution National Museum of Natural History.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in biology (p. 137)
- Bachelor of Science with a major in biology (p. 139)
- Bachelor of Science with a major in neuroscience (<http://bulletin.gwu.edu/arts-sciences/biological-sciences/ba-neuroscience>)

### Combined Program

- Dual Bachelor of Science with a major in biology and Master of Science in the field of biological sciences (p. 142)

### Minor

- Minor in biology (p. 142)

## GRADUATE

### Master's program

- Master of Science in the field of biological sciences (p. 142)

### Doctoral program

- Doctor of Philosophy in the field of biological sciences (p. 142)

## FACULTY

**Professors** J.M. Clark, K.A. Crandall, C.A. Forster, G. Hormiga, J.T. Lill, D.L. Lipscomb, G. Ortí, R.A. Pyron, L.C. Smith, R.P. Tollo

**Associate Professors** P. Hernandez, A. Jeremic, D. O'Halloran, S. Powell

**Assistant Professors** H.G. Döebel, I. Eleftherianos, K. Gedan, L. Grayfer, L. Hammond, C. Jordan, A. Martin, M. Manier, J. Saw, T. Scully, A. Smith, A. Zanne

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: BISC 1115 Introductory Biology: Cells and Molecules and BISC 1125 Introduction to Cells and Molecules Laboratory, and BISC 1116 Introductory Biology: The Biology of Organisms and BISC 1126 Introduction to Organisms Laboratory or equivalent are prerequisite to all upper-division biological sciences courses except by permission of the instructor.

#### **BISC 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **BISC 1001. Departmental Seminar. 0 Credits.**

#### **BISC 1005. The Biology of Nutrition and Health. 3 Credits.**

A study of the human body and food-related health issues through the examination of the nutritional needs of the human body, digestion, genetics, and life experiences/exposures. Laboratory fee. Credit cannot be earned for both BISC 1005 and BISC 1007.

#### **BISC 1006. The Ecology and Evolution of Organisms. 3 Credits.**

Introduction to ecology and evolution, including man's impact on other plants and animals, and an overview of Earth's biodiversity. For non-majors.

**BISC 1007. Food, Nutrition, and Service. 3 Credits.**

A study of biology and nutrition that uses service learning to reinforce course concepts. Topics include the need for humans to consume other organisms, processing of consumed nutrients, unexpected effects of nutritional consumption, and measures to improve nutrition. Credit cannot be earned for both BISC 1007 and BISC 1005.

**BISC 1008. Understanding Organisms through Service Learning. 3 Credits.**

The evolution of life on earth; the value of other organisms, their role in our world, and how humans can cause harm to this infrastructure. Students work with a community partner to perform activities that assist the partner while reinforcing course concepts.

**BISC 1111. Introductory Biology: Cells and Molecules. 4 Credits.**

Nutrition and metabolism, cellular and developmental biology, genetics, and molecular biology of plants and animals. As of fall 2017, this course has been replaced by BISC 1115 and its lab component BISC 1125.

**BISC 1112. Introductory Biology: The Biology of Organisms. 4 Credits.**

Concepts and methods in the study of whole organisms. Evolutionary theory; population biology; diversity of plants, animals, fungi, and microorganisms; ecology and behavior; and animal structure and function. As of fall 2017, this course has been replaced by BISC 1116 and its lab component BISC 1126.

**BISC 1115. Introductory Biology: Cells and Molecules. 3 Credits.**

Structures and functional interactions of biomolecules and cells in microorganisms, animals, and plants. Equivalent to BISC 1111 without laboratory.

**BISC 1116. Introductory Biology: The Biology of Organisms. 3 Credits.**

Concepts and methods in the study of whole organisms; evolutionary theory; population biology; diversity of plants, animals, fungi, and microorganisms; ecology and behavior; and animal structure and function.

**BISC 1120. Laboratory Introduction to Biomolecular Research. 2 Credits.**

Research methods in the study of proteins and DNA; focus on preparation for working with faculty members on their research. Permission of the instructor required prior to enrollment. BISC 1111 or BISC 1115 may be taken as a corequisite. Laboratory fee. Prerequisites: BISC 1111 or BISC 1115. (Same as BISC 1125, HONR 1120).

**BISC 1125. Introduction to Cells and Molecules Laboratory. 1 Credit.**

Laboratory associated with BISC 1115. Experimental methods in the study of cells and molecules, proteins, enzymes, DNA, and molecular genetics. Prerequisite: BISC 1115.

**BISC 1126. Introduction to Organisms Laboratory. 1 Credit.**

Laboratory associated with BISC 1116. Experimental methods in the study of whole organisms; population biology; diversity of plants, animals, fungi, and microorganisms; ecology and behavior; and animal structure and function. Laboratory fee. Prerequisites: BISC 1116.

**BISC 2000. Sophomore Colloquium. 3 Credits.**

Topics in biological diversity from the perspective of species and within the conceptual framework of evolutionary biology; the explanatory power, simplicity, and grandeur of evolution and its products; how questions and hypotheses are empirically addressed. Restricted to sophomores with permission of the department. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126.

**BISC 2202. Cell Biology. 3 Credits.**

Structure and function of biological molecules and cellular organelles; cellular interactions. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126 except by permission of the instructor and one semester of organic chemistry.

**BISC 2207. Genetics. 3 Credits.**

Introduction to genetics, with emphasis on the integration of transmission of genetic traits and the molecular basis of gene action. Also includes cytogenetics, gene regulation, and examples of current applications of genetic technology. Prerequisites: BISC 1115, BISC 1125, BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 2208. Genetics Laboratory. 1 Credit.**

Study of genetic principles and genetic and molecular techniques in *Drosophila* and *E. coli*. Benchwork and comparative genomics using bioinformatics. BISC 2207 may be taken as a corequisite. Permission of the instructor may substitute for the prerequisites. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; and BISC 2207.

**BISC 2213. Biology of Cancer. 3 Credits.****BISC 2214. Developmental Biology. 3 Credits.**

The molecular processes and cellular phenomena that result in the formation of organized tissues and functional organisms; formation of early body plan, cell type determination, organogenesis, morphogenesis, stem cells, cloning, and issues in human development. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126.

**BISC 2215. Genome Editing Laboratory. 1 Credit.**

Practical training in genome editing in, from sequence design to molecular biology, generation of edited animals, and phenotypic analysis. Students undertake individual research projects involving CRISPR. In addition to the stated prerequisites, prior or concurrent enrollment in BISC 2214 or permission of instructor is required. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126.

**BISC 2220. Developmental Neurobiology. 3 Credits.**

The molecular mechanisms that guide neural development: events surrounding the birth of neurons, how specific neurons are determined, how neurons find the correct targets, how cell death guides proper neural development, and how synapses are formed and maintained. Prerequisites: BISC 1115 and 1125; and BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 2305. Plant Biology. 3 Credits.**

Plant metabolism and molecular biology: photosynthesis, nitrogen metabolism, membrane transport, mechanisms of hormone action, protein targeting, biotechnology, and current research topics. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; CHEM 1111 and CHEM 1112; or permission of the instructor.

**BISC 2320. Neural Circuits and Behavior. 3 Credits.**

The cellular and molecular properties of neural circuits that form the basis of behavior. Circuit properties and behaviors across a variety of invertebrate and vertebrate taxa. Individual neuronal units, the organizational principles and emergent properties of neural circuits, and how these neuronal ensembles influence behavior. Instructor's permission may be substituted for prerequisites. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126.

**BISC 2322. Human Physiology. 3 Credits.**

Introduction to the function of organ systems of the human body. Prerequisites: CHEM 1111, CHEM 1112, BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126 or permission of the instructor.

**BISC 2330. Invertebrate Zoology. 4 Credits.**

Lecture (2 hours), laboratory (4 hours). General survey of invertebrate animals, including classification, morphology, physiology, embryology, and evolutionary relationships among phyla. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 2331. Insect Biology. 3 Credits.**

Overview of the class Insecta, focusing on insect external and internal morphology, classification, ecology/behavior, collection, and specimen preparation. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126.

**BISC 2332. Comparative Vertebrate Anatomy. 4 Credits.**

Evolution and comparative morphology of phylum Chordata, stressing recent forms. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 2333. Evolution and Extinction of Dinosaurs. 3 Credits.**

The 165-million-year history of dinosaurs; different groups and their evolution, end-Cretaceous extinction event, the origin of birds, and the biology of the group. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or GEOL 1001 and GEOL 1002 or GEOL 1002 and GEOL 1005. (Same as GEOL 2333).

**BISC 2334W. Integrative Biology of Fishes. 3 Credits.**

Concepts in anatomy, biomechanics, physiology, developmental biology, biomechanics and hydrodynamics, adaptive radiation, evolutionary biology, and ecology using fish as model organisms. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BISC 1115 and 1125; and BISC 1116 and BISC 1126.

**BISC 2335. Insect Biology Lab. 1 Credit.**

An overview of insects, with an emphasis on ecology, behavior, economic importance, and the key adaptations that characterize the evolution of this diverse group. This lab teaches basic internal and external anatomy, field collection methods, insect identification, and discussion of the primary literature. Laboratory fee. Prerequisites: BISC 1115 and 1125; BISC 1116 and BISC 1126; and BISC 2331.

**BISC 2337. Introductory Microbiology. 4 Credits.**

Lecture (2 hours), laboratory (4 hours). Survey of the major groups of microorganisms with emphasis on structure, physiology, ecology, pathogenesis, and biotechnology. Antibiotic resistance and emerging diseases. Prerequisites: CHEM 1111, CHEM 1112, BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of instructor.

**BISC 2337W. Introductory Microbiology. 4 Credits.**

Lecture (2 hours), laboratory (4 hours). Survey of the major groups of microorganisms with emphasis on structure, physiology, ecology, pathogenesis, and biotechnology. Antibiotic resistance and emerging diseases. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; and CHEM 1111 and CHEM 1112 or permission of the instructor.

**BISC 2339. Parasitology. 4 Credits.**

Introduction to animal parasitology; survey of parasitic types from protozoa through arthropods. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 2450. Organic Evolution. 3 Credits.**

Synthetic theory of organic evolution, including population biology, speciation, adaptation, macroevolution, systematics, biogeography, and the geologic record. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of instructor.

**BISC 2451. History of Life. 3 Credits.**

Overview of life through time; the origin of life, evolution of major groups of organisms, and important methodologies used in paleontology. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor. (Same as GEOL 2151).

**BISC 2452. Animal Behavior. 3 Credits.**

An evolutionary approach to the study of animal behavior, emphasizing behavioral ecology and sociobiology. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 2453. Animal Behavior Lab. 1 Credit.**

Methods used in the study of animal behavior; observation, basic statistical analysis, and experimental design; review and evaluation research materials. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. Recommended background: Prior or concurrent enrollment in BISC 2452.

**BISC 2454. General Ecology. 3 Credits.**

The core concepts of the field of ecology across different hierarchical scales of ecological systems. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 2456. General Ecology Laboratory. 1 Credit.**

Practical exercises and field-trips are used to explore the core concepts of the field of ecology across different hierarchical scales of ecological systems. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126.

**BISC 2580. Biotechnology. 3 Credits.**

Genetic engineering of bacteria, plants, and animals, including humans. Applications of modern biotechnology, especially in the field of medical biotechnology, such as gene therapy, xenotransplantation, and the Human Genome Project. Regulation, prospects, and social impact of biotechnology. Prerequisites: CHEM 2151, CHEM 2152, CHEM 2153, CHEM 2154, BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. Recommended background: BISC 2202 or BISC 2207.

**BISC 2580W. Biotechnology. 3 Credits.**

Genetic engineering of bacteria, plants, and animals, including humans. Applications of modern biotechnology, especially in the field of medical biotechnology, such as gene therapy, xenotransplantation, and the Human Genome Project. Regulation, prospects, and social impact of biotechnology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126, CHEM 2151, CHEM 2152, CHEM 2153, and CHEM 2154. Recommended background: BISC 2202 or BISC 2207. (Same as BISC 2580).

**BISC 2581. Human Gross Anatomy. 3 Credits.**

The structural organization of the human body and how it relates to regional and systems-based functions. Emphasis on the macroscopic structure of the body. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126 except by permission of the instructor. (Same as ANAT 2181).

**BISC 2583. Biology of Proteins. 3 Credits.**

About half of the proteins in the human genome have unknown functions. Are some related to cancers, muscle degeneration, infectious disease? How can evolutionary relationships among proteins from other organisms help us discover functions of unknown proteins? Laboratory fee. Prerequisite: AP or IB Biology or Chemistry.

**BISC 2584. Introduction to Bioinformatics. 3 Credits.**

The use of computational techniques in molecular biology, genetics, and evolution; techniques and software for database searching, sequence alignment, gene finding, phylogenetics, genomics, and proteomics. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. (Same as CSCI 3571).

**BISC 3122. Human Physiology. 3 Credits.**

Introduction to the function of organ systems of the body. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126, CHEM 1111, CHEM 1112, and BISC 2202 or BISC 2207 or permission of instructor.

**BISC 3123. Human Physiology Lab. 1 Credit.**

Basic physiology laboratory techniques; emphasis on the experimental study of homeostatic mechanisms in humans. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; and BISC 2322.

**BISC 3165. Biochemistry I. 3 Credits.**

Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126, CHEM 2151 and CHEM 2152; course equivalents may be substituted for BISC 1115 and 1125; and BISC 1116 and BISC 1126 at the discretion of the instructor. (Same as CHEM 3165).

**BISC 3166. Biochemistry II. 3 Credits.****BISC 3208. Molecular Biology Laboratory. 1 Credit.**

Techniques in molecular biology; traditional and modern methods in recombinant DNA technology, gene and protein characterization methods. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and CHEM 1111 and CHEM 1112.

**BISC 3209. Molecular Biology. 3 Credits.**

Theories and concepts in molecular biology; biosynthesis and structure of DNA, RNA, and proteins, relationships among gene function and expression; transcription and translation; regulation of gene expression in prokaryotes and eukaryotes; theory of traditional and modern methods in recombinant DNA technology, gene and protein characterization methods. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and CHEM 1111 and CHEM 1112.

**BISC 3210. Nanobiotechnology. 3 Credits.**

Theory and application of nanotechnologies in biology and medicine. Strategies for studying the organization, function, and complexity of biological systems at nanometer scale. Several areas of research are covered, including high-resolution cellular and molecular imaging, spectroscopy, and optical tweezers. Prerequisites: BISC 2202 or BISC 3261 or permission of instructor and BISC 1115 and 1125; and BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 3211. Nanobiotechnology Laboratory. 1 Credit.**

Modern instrumental techniques for analyzing biological structures and processes at the nanometer level; combining nano- and conventional techniques to answer scientific questions. Students formulate, design, and implement a research project. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; and BISC 3210.

**BISC 3212. Immunology. 3 Credits.**

Introduction to mammalian immunology covering the progression of immune responses from initial pathogen contact to immune memory. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; BISC 2202 or BISC 2207; and CHEM 1111 and CHEM 1112. Recommended background: prior completion of CHEM 2151 and CHEM 2153.

**BISC 3261. Introductory Medical Biochemistry. 4 Credits.**

Introduction to structures of biological macromolecules, enzyme catalysis, cellular bioenergetics, and metabolism. Prerequisites: CHEM 2151 and CHEM 2152. (Same as BIOC 3261, CHEM 3165).

**BISC 3262. Biochemistry Laboratory. 2 Credits.**

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and BISC 3261.

**BISC 3263. Special Topics in Biochemistry. 2 Credits.**

In-depth discussion of current biochemically relevant topics, including cancer and HIV chemotherapy, immune response, photosynthesis, signal transduction, hormone regulation, and nutrition. Topics vary by semester. May be repeated for credits provided topic differs. Consult the Schedule of Classes for more details. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and BISC 3261 or permission of the instructor. (Same as BIOC 3263).

**BISC 3320. Human Neurobiology. 3 Credits.**

Introduction to the function of the human nervous system, gross and microscopic structure, and neurophysiology of the brain, spinal cord, and nerves; alterations caused by disease or injury. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and BISC 2202 or BISC 3261.

**BISC 3450. Evolutionary Medicine. 3 Credits.**

The application of evolutionary principles, including natural selection, adaptation, phylogenetics, and evolutionary constraints, to understanding health, disease, and the biology of disease-causing organisms (viruses, bacteria, and parasites). How natural selection and phylogeny influence pathogen-host interactions, human genetics, immunology, development, cancer, and diseases of senescence. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. Recommended background: BISC 2207 and BISC 2450.

**BISC 3450W. Evolutionary Medicine. 3 Credits.**

The application of evolutionary principles, including natural selection, adaptation, phylogenetics, and evolutionary constraints, to understanding health, disease, and the biology of disease-causing organisms (viruses, bacteria, and parasites). How natural selection and phylogeny influence pathogen-host interactions, human genetics, immunology, development, cancer, and diseases of senescence. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. Recommended background: BISC 2207 and BISC 2450. (Same as BISC 3450).

**BISC 3453. Plant Comparative Structure and Function Lab. 1 Credit.**

Core concepts and techniques in comparative plant structure and function; how plants' construction shapes their physiological function in different ecological settings; evolutionary relationships among plants and how these relations shape responses to their environment. Concurrent enrollment in BISC 3458 is recommended. Laboratory fee. Prerequisite: BISC 2454.

**BISC 3454. Marine Ecology. 3 Credits.**

Abiotic and biotic factors in marine environments in general and ecological theory behind how they shape communities, biomes, and patterns in marine biodiversity; major marine habitats and the important organisms, physical environment, and major interactions in each; threats to marine environments and effective conservation strategies.

**BISC 3455. Marine Ecology Laboratory. 1 Credit.**

Study of marine ecology through experiential learning and an introduction to ecological research in the marine environment and using large datasets collected by marine scientists. By visiting marine ecosystems, students learn about marine resource use and conservation strategies in the coastal zone.

**BISC 3458. Plant Comparative Structure and Function. 3 Credits.**

Fundamental principles of how organisms are built, investigating trade-offs and coordination in design, how variation in structure influences physiological function in different ecological settings, and how relations among plants shape structure and function and responses to ecological gradients. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; or permission of instructor.

**BISC 3459. Field Biology. 4 Credits.**

Overview of the approaches and techniques used by contemporary field biologists for cataloging, quantifying, and comparing patterns of biodiversity across plants, animals, and fungi at multiple spatial and temporal scales. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. Recommended background: BISC 2454.

**BISC 3460. Conservation Biology. 3 Credits.**

Theory and practice of conserving biological diversity. Ecological patterns of biodiversity, biology of small populations, and conservation case studies. Use of ecological modeling software to explore various topics. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and BISC 2454; or permission of the instructor.

**BISC 3461. Plant-Animal Interactions. 3 Credits.**

Review of the major ecological and evolutionary interactions that occur between plants and animals in natural and managed ecosystems. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor. Recommended background: BISC 2450 or BISC 2454.

**BISC 3462. Plant-Animal Interactions Laboratory. 1 Credit.**

Field and laboratory study of temperate interactions between plants and animals. Group projects focus on original data collection, analysis, and interpretation. The stated prerequisites may be taken as corequisites; consult the instructor. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and BISC 3461.

**BISC 3464. Ecology and Evolution of Societies. 3 Credits.**

Study of broadly important ecological and evolutionary patterns and processes exemplified by organisms that have undergone the major evolutionary transition to living in societies. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. Recommended background: BISC 2454.

**BISC 3565. Plant Ecology and Evolution. 3 Credits.**

How plants are built; how this construction shapes their physiological function in different ecological settings; how plants are related revolutionarily, and how these relations shape their structure, function, and responses to their environment. Prior completion of BISC 2454 is recommended. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; or permission of the instructor.

**BISC 3584. Introduction to Bioinformatics. 3 Credits.**

The use of computational techniques in molecular biology, genetics, and evolution; techniques and software for database searching, sequence alignment, gene finding, phylogenetics, genomics, and proteomics. Prerequisites: BISC 1115 and 1125; and BISC 1116 and BISC 1126.

**BISC 4132. Advanced Cellular-Molecular Biology. 3 Credits.**

An advanced cell biology course with emphasis on biochemistry and molecular biology; illustrations are drawn from different organisms and human biology. Oral and written analysis of research literature. For upper-level undergraduates and beginning graduate students. Permission of the instructor required prior to enrollment. Recommended background: Six credits in the Cellular and Molecular category.

**BISC 4171. Undergraduate Research. 1-12 Credits.**

Admission by permission of the staff member concerned. May be repeated for credit. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126 except by permission of the instructor; 16 credits in biological science courses.

**BISC 4171W. Undergraduate Research. 1-12 Credits.**

Admission by permission of the staff member concerned. May be repeated for credit. Laboratory fee. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; and CHEM 2152 except by permission of the instructor; 16 credits in biological science courses.

**BISC 4172. Independent Study. 1-3 Credits.**

Prescribed reading list and consultations with staff advisor culminating in a written report and/or examination. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126 and permission of the instructor.

**BISC 4180. Undergraduate Research Seminar. 1 Credit.****BISC 4212. Virology and Antiviral Immunity. 3 Credits.**

Overview of the infection, replication, and immune evasion strategies of distinct classes of viruses, as well the host antiviral immune responses to these pathogens. Prerequisites: BISC 2202 or BISC 2207 or BISC 3209 or BISC 3212 or permission of the instructor.

**BISC 4219. Host-Microbe Interactions. 3 Credits.**

Overview of the molecular, genetic, cellular and physiological basis of symbiotic and pathogenic interactions between plants, invertebrate and vertebrate animals with various microbial organisms including bacteria, fungi, viruses as well prokaryotic and eukaryotic parasites. Prerequisites: BISC 2202 and BISC 2337.

**BISC 6101. Responsible Research. 1 Credit.**

This course provides an introduction to the ethical, social, and legal foundations of scientific practice. It is intended to provide a forum for graduate students and postdocs to discuss almost every aspect of the academic life of a scientist, except specific disciplinary topics that are treated in regular courses. Ensuring ethical conduct is an essential part of basic, applied, and clinical research, especially in the context of competitive, collaborative, and international settings so common nowadays. Students are exposed to case studies typifying complex social, ethical, and legal dilemmas that may arise in the conduct of research.

**BISC 6102. Scientific Presentation. 1 Credit.**

This course allows students to perfect their Scientific Presentation skills. In this course, students present, in front of peers and faculty, their current research projects and plans for future work leading towards a complete thesis or dissertation. Student presentations are designed to address a general audience of biologists, containing sufficient background information to provide perspective insights into the fundamental questions being asked, and at the same time providing enough detail on technical issues and analytical procedures to allow evaluation of potential outcomes. The class provides a friendly forum for students to collect feedback and comments, to discuss project design, content, and general significance of their research.

**BISC 6132. Advanced Cellular-Molecular Biology. 3 Credits.**

Advanced cellular biology for upper-level undergraduates and beginning graduate students; emphasis on biochemistry and molecular biology; organisms and human biology with emphasis on oral and written analysis of research literature. Permission of the instructor required prior to enrollment. Restricted to students who have completed 16 credits of 2000-4000 level biology courses, including 6 credits in the cell and molecular category. Prerequisites: Graduate standing or undergraduates with 16 credits of 2000-4000 level biology courses, including 6 credits in the Cell and Molecular category and permission of instructor. Recommended background: 4 to 6 upper level biology courses, including 2 cell and molecular courses.

**BISC 6205. Current Topics in Cell Smith, Donaldson, Eleftherianos, Jeremic. 1-2 Credits.**

May be repeated for credit. Prerequisite: BISC 2202 or BISC 3209.

**BISC 6206. Current Topics in Evolutionary Ecology. 1-2 Credits.**

May be repeated for credit.

**BISC 6207. Seminar: Current Topics in Systematic Biology. 1-2 Credits.**

Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Prerequisite: BISC 6210.

**BISC 6210. Methods of Study of Evolution. 4 Credits.**

A rigorous and up-to-date treatment of the theory and methods of systematics, including phylogenetic inference and its applications in evolutionary biology. Laboratory fee. Prerequisite: BISC 2450.

**BISC 6211. Biogeography/Coevolution. 4 Credits.**

Survey of methods, techniques, and theory in biogeography. Geological and paleontological aspects of biogeography; large-scale biogeographic patterns; speciation and phylogeography. Prerequisite: BISC 2451 or BISC 2452 or permission of the instructor.

**BISC 6212. Virology and Antiviral Immunity. 3 Credits.**

Overview of the infection, replication, and immune evasion strategies of distinct classes of viruses, as well the host antiviral immune responses to these pathogens.

**BISC 6213. Descriptive Systematics: Documenting Biodiversity. 3 Credits.**

Study of those aspects of systematic biology concerned with description and inventory of biodiversity. Prerequisite: BISC 6210.

**BISC 6214. The Phylogenetic Basis of Comparative Biology. 3 Credits.**

The use of phylogenetic hypotheses to study questions in evolutionary biology and ecology. Prerequisites: BISC 6210 and STAT 1127.

**BISC 6215. Vertebrate Phylogeny. 4 Credits.**

A survey of vertebrate diversity, emphasizing evolutionary relationships and adaptations of the major groups. Prerequisite: BISC 2450. Recommended background: BISC 2332.

**BISC 6216. Morphological Systematics. 3 Credits.**

Methods of studying organismal morphology as a means of inferring phylogeny, emphasizing the concept of homology. Prerequisite: BISC 6210.

**BISC 6218. Innate Immunity. 3 Credits.**

Discussion of innate immune systems in a wide variety of organisms; from sponges to vertebrates plus higher plants. Prerequisite: BISC 3212. Recommended background: BISC 2202, BISC 2207, BISC 3209 and BISC 2330.

**BISC 6219. Host-Microbe Interactions. 3 Credits.**

Overview of the molecular, genetic, cellular, and physiological basis of symbiotic and pathogenic interactions between plants, invertebrate, and vertebrate animals with various microbial organisms including bacteria, fungi, viruses as well prokaryotic and eukaryotic parasites. Prerequisites: BISC 2202 and BISC 2337.

**BISC 6224. Molecular Evolution. 3 Credits.****BISC 6225. Molecular Phylogenetics. 4 Credits.**

Review of molecular phylogenetic methods including data recovery, alignment, weighting, character optimization, and phylogenetic inference methods. Prerequisites: BISC 2207, BISC 2450 and BISC 6210.

**BISC 6227. Seminar: Genetics. 3 Credits.**

Review of selected topics in genetics, with emphasis on current literature; topics of special interest to participants encouraged. May be repeated for credit. Prerequisite: BISC 2207.

**BISC 6228. Population Genetics. 3 Credits.**

Origin, maintenance, and possible significance of genetic variation in populations. Selection, genetic drift, and population structure are emphasized. Both theoretical and applied aspects of population genetics are discussed. Same as FORS 6247. Prerequisite: BISC 2207.

**BISC 6230. Human Genetics. 3 Credits.**

Genetic mechanisms of transmission and expression of human traits, with emphasis on biochemical and cytogenetic aspects. Prerequisite: BISC 2207. Recommended background: Previous coursework in cell biology or cell biochemistry.

**BISC 6243. Seminar: Ecology. 3 Credits.**

In-depth study of selected topics, including reports on original publications. May be repeated for credit. Prerequisite: BISC 2454.

**BISC 6249. Seminar: Developmental Biology. 3 Credits.**

Discussion and reports on recent research on the endocrinological, genetic, and biochemical aspects of animal development. Prerequisite: a course in developmental biology or cell biology.

**BISC 6251. Evolutionary Developmental Biology. 3 Credits.**

Developmental mechanisms involved in the morphological changes that occur during the course of evolution.

**BISC 6252. Seminar: Neurobiology. 3 Credits.**

Study of current publications in functional neurobiology. May be repeated for credit with instructor's permission.

**BISC 6274. Gene Regulation and Genetic Engineering. 3 Credits.**

The control of gene expression as illustrated by several prokaryotic and eukaryotic model systems: discussions of recombinant DNA techniques. Prerequisite: BISC 2207.

**BISC 6275. Introduction to Recombinant DNA Techniques. 3 Credits.**

Lecture, 1 hour; laboratory, 4 hours. Basic techniques of genetic manipulation: cloning of genes, transformation of bacteria, PCR procedures, DNA sequencing, and other techniques. Prerequisite: BISC 2202 or BISC 2207 or BISC 2337 and permission of instructor. Laboratory fee.

**BISC 6295. Research. 1-12 Credits.**

Investigation of special problems. May be repeated for credit.

**BISC 6998. Thesis Research. 3 Credits.****BISC 6999. Thesis Research. 3 Credits.****BISC 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

**BISC 8999. Dissertation Research. 3-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

## BACHELOR OF ARTS WITH A MAJOR IN BIOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory <sup>1</sup>	
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory	
BISC 2202	Cell Biology	
BISC 2207	Genetics	
BISC 2450	Organic Evolution	
BISC 2454	General Ecology	
or BISC 2452	Animal Behavior	
or BISC 3460	Conservation Biology	
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2151 & CHEM 2152	Organic Chemistry I and Organic Chemistry II	
CHEM 2153 & CHEM 2154	Organic Chemistry Laboratory I and Organic Chemistry Laboratory II	
CHEM 3165	Biochemistry I	
or BISC 3261	Introductory Medical Biochemistry	
<b>Laboratory and Electives course requirements</b>		
At least three courses must be a laboratory or have a laboratory component; these laboratory courses must numbered at the 2000 level or above.		
Students who complete 1 credits of BISC 4171 or BISC 4171W, Undergraduate Research, may count this experience towards one of their laboratory requirements. A maximum of 6 credits of BISC 4171 BISC4171W may count towards degree requirements.		
At least one 3 credit additional course from each of the four elective categories below		
<b>Biology Electives</b>		
<b>Code</b>	<b>Title</b>	<b>Credits</b>
Systems category		
BISC 2208	Genetics Laboratory <sup>1</sup>	

BISC 2213	Biology of Cancer
BISC 2214	Developmental Biology
BISC 2220	Developmental Neurobiology
BISC 2320	Neural Circuits and Behavior
BISC 3122	Human Physiology
BISC 3123	Human Physiology Lab <sup>1</sup>
BISC 3165	Biochemistry I
BISC 3208	Molecular Biology Laboratory <sup>1</sup>
BISC 3209	Molecular Biology
BISC 3210	Nanobiotechnology
BISC 3211	Nanobiotechnology Laboratory <sup>1</sup>
BISC 3212	Immunology
BISC 3262	Biochemistry Laboratory <sup>1</sup>
BISC 3263	Special Topics in Biochemistry
BISC 3320	Human Neurobiology
BISC 4132	Advanced Cellular-Molecular Biology
BISC 4212	Virology and Antiviral Immunity
BISC 6205	Current Topics in Cell Smith, Donaldson, Eleftherianos, Jeremic
BISC 6218	Innate Immunity
BISC 6219	Host-Microbe Interactions
Organisms category	
BISC 2000	Sophomore Colloquium
BISC 2305	Plant Biology
BISC 2330	Invertebrate Zoology <sup>1</sup>
BISC 2331	Insect Biology
BISC 2335	Insect Biology Lab <sup>1</sup>
BISC 2332	Comparative Vertebrate Anatomy <sup>1</sup>
BISC 2333	Evolution and Extinction of Dinosaurs
BISC 2334W	Integrative Biology of Fishes
BISC 2337	Introductory Microbiology <sup>1</sup>
BISC 2337W	Introductory Microbiology <sup>1</sup>
BISC 2339	Parasitology <sup>1</sup>

BISC 6215	Vertebrate Phylogeny <sup>1</sup>
BISC 6249	Seminar: Developmental Biology
Evolution, Ecology, and Environment category	
BISC 2451	History of Life
BISC 3450	Evolutionary Medicine
BISC 3450W	Evolutionary Medicine
BISC 2452	Animal Behavior
BISC 2453	Animal Behavior Lab <sup>1</sup>
BISC 2454	General Ecology
BISC 2456	General Ecology Laboratory <sup>1,2</sup>

BISC 2339	Parasitology	
BISC 2453	Animal Behavior Lab	
BISC 2456	General Ecology Laboratory	
BISC 3123	Human Physiology Lab	
BISC 3208	Molecular Biology Laboratory	
BISC 3211	Nanobiotechnology Laboratory	
BISC 3453	Plant Comparative Structure and Function Lab	
BISC 3455	Marine Ecology Laboratory	
BISC 3459	Field Biology	
BISC 3462	Plant-Animal Interactions Laboratory	
BISC 4171 or BISC 4171W	Undergraduate Research	

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a cumulative 3.5 grade-point average in biological sciences courses and at least a 3.0 cumulative overall grade-point average. Students who meet these criteria and wish to pursue special honors must complete an approved research project under faculty direction.

## BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory	
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory	
BISC 2202	Cell Biology	
BISC 2207	Genetics	
BISC 2450	Organic Evolution	
CHEM 1111	General Chemistry I	
BISC 2452 or BISC 2454 or BISC 3460	Animal Behavior General Ecology Conservation Biology	
CHEM 1112	General Chemistry II	
PHYS 1011 or PHYS 1021 or PHYS 1025	General Physics I University Physics I University Physics I with Biological Applications	

#### Concentration requirement

Students must fulfill the requirements of one of the three concentrations shown below. All concentrations require a minimum of 18 credits in upper-level biology (BISC) courses.

#### Laboratory course requirements

At least three BISC courses numbered 2000 or above must have a laboratory component, either built into the course or as a separate course number. Students who complete 1 credit of BISC 4171 or BISC 4171W, Undergraduate Research, may count this experience towards one of their laboratory requirements. A maximum of 6 credits of BISC 4171 or BISC 4171W may apply towards the degree requirements.

#### Honors thesis

Students who qualify based on academic performance are strongly encouraged to develop an honors thesis based on their research experience.

Code	Title	Credits
<b>Laboratory Courses</b>		
BISC 2208	Genetics Laboratory	
BISC 2332	Comparative Vertebrate Anatomy	
BISC 2335	Insect Biology Lab	
BISC 2337	Introductory Microbiology	
or BISC 2337W	Introductory Microbiology	
BISC 2339	Parasitology	
BISC 2453	Animal Behavior Lab	
BISC 2456	General Ecology Laboratory	
BISC 3123	Human Physiology Lab	
BISC 3208	Molecular Biology Laboratory	
BISC 3211	Nanobiotechnology Laboratory	
BISC 3453	Plant Comparative Structure and Function Lab	
BISC 3455	Marine Ecology Laboratory	
BISC 3459	Field Biology	
BISC 3462	Plant-Animal Interactions Laboratory	
BIOC 3262	Biochemistry Laboratory	
BISC 4171	Undergraduate Research	
or BISC 4171W	Undergraduate Research	

## Concentrations

### General Biology Concentration

Code	Title	Credits
<b>Required</b>		
CHEM 2151 & CHEM 2152	Organic Chemistry I and Organic Chemistry II	
CHEM 2153 & CHEM 2154	Organic Chemistry Laboratory I and Organic Chemistry Laboratory II	
CHEM 3165	Biochemistry I	
or BISC 3261	Introductory Medical Biochemistry	
<b>Electives</b>		

At least one 3-credit course from each of the four elective categories listed below for a total of 12 credits, in addition to the courses satisfying the core course requirements.

### Cellular and Molecular Biology Concentration

Code	Title	Credits
<b>Required</b>		
BISC 3209 & BISC 3208	Molecular Biology and Molecular Biology Laboratory	
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II	
BISC 3261	Introductory Medical Biochemistry	
or CHEM 3165	Biochemistry I	

#### Electives

At least one 3-credit course from each of the four elective category listed below for a total of 12 credits, in addition to the courses satisfying the core course requirements.

### Ecology, Evolution, and Environment Concentration

Code	Title	Credits
<b>Required</b>		
In addition to the courses satisfying the core course requirements, at least one 3-credit course from both the systems electives and organism electives lists; at least 6 credits from the evolution, ecology, and environment electives list, including one course with a field component; and 6 credits from the quantitative electives list, including at least one statistics course.		

#### Biology Electives

BISC 6243	Seminar: Ecology
Quantitative category	
MATH 1231	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II
STAT 1127	Statistics for the Biological Sciences
BISC 2584	Introduction to Bioinformatics

<sup>1</sup> Laboratory course.

<sup>2</sup> Field component.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with special honors, a student must maintain a cumulative 3.5 grade-point average in biological sciences courses and at least a 3.0 cumulative overall grade-point average. Students who meet these criteria and wish to pursue special honors must complete an approved research project under faculty direction.

# DUAL BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGY AND MASTER OF SCIENCE IN THE FIELD OF BIOLOGICAL SCIENCES

The Department of Biological Sciences offers a dual bachelor of science with a major in biology (p. 139) and master of science in the field of biological sciences (p. 142) degree program. The program allows students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

Students interested in the dual degree program should confer with the department's graduate advisor early in their junior year. Visit the program website (<https://biology.columbian.gwu.edu/undergraduate-degree-programs>) for additional information.

## MINOR IN BIOLOGY REQUIREMENTS

The following requirements must be fulfilled: 20 credits, including 8 credits in prerequisite courses and 12 credits in elective courses.

Code	Title	Credits
<b>Prerequisites</b>		
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory*	
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory	
<b>Electives</b>		
12 credits in biological sciences (BISC) courses at the 2000-3000 level.		

\*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

## MASTER OF SCIENCE IN THE FIELD OF BIOLOGICAL SCIENCES REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits: Thesis option—24 credits in approved elective courses and 6 credits in thesis; non-thesis option—with departmental approval, 36 credits in approved elective courses; for all students—successful completion of a master's comprehensive examination.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF BIOLOGICAL SCIENCES REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

The required curriculum and program requirements as outlined below:

Code	Title	Credits
<b>Requirements for students entering with a bachelor's degree:</b>		
72 credits prior to graduation.		
48 credits of approved graduate-level coursework to be advanced to candidacy.		
At least 12 credits of dissertation research (BISC 8999).		
Successful completion of a general examination, comprising both written and oral examinations, to be advanced to candidacy.		
<b>Requirements for students entering with a master's degree:</b>		
72 credits prior to graduation.		
48 credits of approved graduate-level coursework to be advanced to candidacy (includes up to 30 credits transferred from the MS degree).		
At least 12 credits of dissertation research (BISC 8999).		
Successful completion of a general examination, comprising both written and oral examinations, to be advanced to candidacy.		

The program of study and fields of study are determined in consultation with an advisory committee appointed for each candidate.

## Major research fields

- Cell and molecular biology
- Systematics
- Evolution
- Ecology

## BIOMEDICAL SCIENCES

---

The interdisciplinary doctoral programs in the biomedical sciences are organized within GW's Institute for Biomedical Sciences (<https://smhs.gwu.edu/ibs>). The first full year of study toward the PhD programs in biochemistry and systems biology, microbiology and immunology, and molecular medicine is offered through the Institute. All programs are taken on a full-time basis. Faculty are drawn from the Columbian College of Arts and Sciences and the School of Medicine and Health Sciences, including scientists from the Children's Research Institute of Children's National Health System.

Students are admitted directly into the Institute for Biomedical Sciences through the Columbian College of Arts and Sciences. At the end of the first year of study, students select one of the five PhD fields—cancer biology, genomics and bioinformatics, microbiology and immunology, neuroscience, and pharmacology and physiology—and complete remaining degree requirements in the selected program.

Visit the Institute for Biomedical Sciences website (<https://smhs.gwu.edu/ibs>) for additional information.

## GRADUATE

### Master's Program

- Master of Science in the field of bioinformatics and molecular biochemistry (p. 129)

### Doctoral Programs

- Doctor of Philosophy in the field of biochemistry and systems biology (p. 143)
- Doctor of Philosophy in the field of cancer biology (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-cancer-biology>)
- Doctor of Philosophy in the field of genomics and bioinformatics (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-genomics-bioinformatics>)
- Doctor of Philosophy in the field of microbiology and immunology (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-neuroscience>)
- Doctor of Philosophy in the field of neuroscience (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-neuroscience>)
- Doctor of Philosophy in the field of pharmacology and physiology (<http://bulletin.gwu.edu/arts-sciences/biomedical-sciences/phd-pharmacology-physiology>)

## FACULTY

**Committee on Biomedical Sciences** L. Werling (*Director*), L. Caldovic, A. Chiamello, A. Colberg-Poley, R.P. Donaldson, V. Gallo, A. Jeremic, D. Mendelowitz, N. Lee, D. Leitenberg, E. Villain.

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Biomedical Sciences (BMSC) (p. 1163)
- Microbiology (MICR) (p. 1437)
- Molecular Medicine (MMED) (p. 1438)
- Pharmacology (PHAR) (p. 1456)

## DOCTOR OF PHILOSOPHY IN THE FIELD OF BIOCHEMISTRY AND SYSTEMS BIOLOGY

---

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

The requirements for the Doctor of Philosophy program (<http://bulletin.gwu.edu/arts-sciences/#doctoraltext>).

72 credits, including required core, dissertation, and elective coursework. Successful completion of a grant-style qualifier examination is required for advancement to candidacy. In addition, students perform full-time research in faculty laboratories for the duration of their program. In GW laboratories, they are hired as paid research assistants/associates in the third year and beyond of the program.

Students are advised to complete up to 48 credits comprising required core courses, electives, and advanced readings and research in the first two years of PhD study. Upon successful completion of a grant-style qualifier, students then register for up to 24 credits of dissertation research through completion and successful oral defense of a written dissertation.

Code	Title	Credits
<b>Required</b>		
ANAT 6160	Clinically Oriented Human Functional Neuroanatomy	
or MICR 8210	Infection and Immunity	
or PHAR 6116	Pharmacogenomics and Personalized Medicine	
BMSC 8210	Genes to Cells	
BMSC 8212	Systems Physiology	
BMSC 8215	Lab Rotations	
BMSC 8216	Scientific Writing, Presentation Skills, and Seminar Planning	
BMSC 8217	Ethics and Grant Writing	
BMSC 8218	Career Options in the Biomedical Sciences	
BMSC 8230	Molecular Basis of Human Disease	
BMSC 8231	Introduction to Genomics, Proteomics, and Bioinformatics	
BMSC 8234	Seminar in Systems Biology	
BMSC 8235	Applied Biostatistics for Basic Research	
BMSC 8999	Dissertation Research (taken for 12 - 24 credits)	
CSCI 3571	Introduction to Bioinformatics	
<b>Electives</b>		
20-32 credits in elective courses. Recommended electives include:		
BMSC 8237	Muscle: Heath and Disease	
BMSC 8998	Readings and Research	
MMED 8214	Molecular Medicine Seminar	
MMED 8282	Neural Development and Neurodevelopmental Disorders	
MMED 8283	Current Topics in Neuroscience	
PHAR 6205	Pharmacology	

## Research fields

- Molecular basis of inherited muscle and CNS disease utilizing DNA gene chip technology

- Genomic, epigenetic, metabolomic, and bioinformatic analyses
- Biomarkers
- Mechanistic pathways, genomics, proteomics, clinical medicine
- Autoimmune and inflammatory responses in disease
- Co-regulator biology
- Cancer

## DOCTOR OF PHILOSOPHY IN THE FIELD OF MICROBIOLOGY AND IMMUNOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Program-specific curriculum:

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

The requirements for the Doctor of Philosophy program (<http://bulletin.gwu.edu/arts-sciences/#doctoraltext>).

72 credits, including required core and elective courses. Successful completion of a grant-style qualifier examination is required for advancement to candidacy.

Students are advised to complete up to 48 credits comprising required interdisciplinary core courses, required cancer biology core courses, electives, and advanced readings and research in the first two years of PhD study. Upon successful completion of a grant-style qualifier, students then register for up to 24 credits of dissertation research through completion and successful oral defense of a written dissertation.

Code	Title	Credits
<b>Doctor of Philosophy in the Field of Microbiology and Immunology</b>		

The following requirements must be fulfilled: 72 credits, including required core and elective courses. Successful completion of a grant-style qualifier examination is required for advancement to candidacy.

Students are advised to complete up to 48 credits comprised of required interdisciplinary core courses, required Microbiology and Immunology core courses electives and advanced readings and research in the first two years of PhD study. Upon successful completion of a grant-style qualifier, students then register for up to 24 credits of dissertation research until project completion, dissertation and successful defense. Successful completion of the oral defense of a written dissertation is required.

#### Required Interdisciplinary Core Courses:

BMSC 8210	Genes to Cells
BMSC 8212	Systems Physiology
BMSC 8215	Lab Rotations
BMSC 8216	Scientific Writing, Presentation Skills, and Seminar Planning
BMSC 8217	Ethics and Grant Writing
BMSC 8218	Career Options in the Biomedical Sciences
BMSC 8230	Molecular Basis of Human Disease
BMSC 8235	Applied Biostatistics for Basic Research

#### Required Microbiology Core Courses

MICR 8210	Infection and Immunity
MMED 8214	Molecular Medicine Seminar

#### Elective Courses

24 credits elective courses selected in consultation with graduate program advisor:

BIOC 6223	Bioinformatics
BIOC 6236	Medical Genomics
BIOC 6240	Next Generation Sequencing
BIOC 6281	Topics
BMSC 8231	Introduction to Genomics, Proteomics, and Bioinformatics
MICR 6220	Biology of Parasitism: Parasite Strategies of Infection, Survival, and Transmission
MICR 6236	Fundamentals in Geonomics and Proteomics I
MICR 6292	Tropical Infectious Diseases
MICR 8230	Molecular and Cellular Immunology

MICR 8270	Advanced Topics in Immunology
-----------	-------------------------------

MMED 8821	Basic Science of Oncology
-----------	---------------------------

MICR 8998	Advanced Reading and Research
-----------	-------------------------------

PHAR 6116	Pharmacogenomics and Personalized Medicine
-----------	--

#### Dissertation Research

MICR 8999	Dissertation Research
-----------	-----------------------

Required courses may be waived at the discretion of the graduate program director based on written documentation of prior equivalent coursework. Any waiver increases the number of electives required, by the number of credits waived.

Visit the program website (<https://smhs.gwu.edu/microbiology/education/programs>) for additional information.

## BIostatISTICS

The Columbian College of Arts and Sciences (CCAS) offers the degrees of master of science and doctor of philosophy in the field of biostatistics. These degree programs are a collaboration between CCAS's Department of Statistics (<https://statistics.columbian.gwu.edu>) and the Milken Institute School of Public Health's Department of Epidemiology (<http://publichealth.gwu.edu/departments/epidemiology-and-biostatistics>) and Biostatistics Center (<http://www.bsc.gwu.edu/bsc>).

Visit the Department of Epidemiology and Biostatistics website (<https://publichealth.gwu.edu/departments/epidemiology-and-biostatistics>) for additional information.

## GRADUATE

Programs are administered jointly by the Department of Statistics (<https://statistics.columbian.gwu.edu>) in the Columbian College of Arts and Sciences and the Department of Epidemiology and Biostatistics (<http://publichealth.gwu.edu/departments/epidemiology-and-biostatistics>) in the Milken Institute School of Public Health.

### Master's program

- Master of Science in the field of biostatistics (p. 146)

### Doctoral program

- Doctor of Philosophy in the field of biostatistics (p. 147)

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

**BIOS 6295. Reading and Research. 1-12 Credits.**

May be repeated for credit.

**BIOS 6998. Thesis Research. 3 Credits.**

**BIOS 6999. Thesis Research. 3 Credits.**

**BIOS 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

**BIOS 8999. Dissertation Research. 3-12 Credits.**

Limited to Doctor of Philosophy candidates. May be repeated for credit.

## MASTER OF SCIENCE IN THE FIELD OF BIostatISTICS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

33 credits, including 27 credits in required courses and 6 credits in elective courses, and successful completion of a master's comprehensive examination.

### Admission Considerations

The courses listed below (or course equivalents) are prerequisites for admission consideration and must appear on the student's transcript. Students may apply to the program only after they have fulfilled this requirement:

Code	Title	Credits
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
STAT 2118	Regression Analysis	

Applicants lacking the courses listed below (or course equivalents) are considered for admission; however, if admitted, the student is required to complete these courses within two semesters of matriculation in the program. Credit earned in these courses does not count toward the 33 credits required for the degree and grades earned are not reflected in the overall grade-point average.

Code	Title	Credits
MATH 2184	Linear Algebra I	
MATH 2233	Multivariable Calculus	
One of the following:		
STAT 1129	Introduction to Computing	
STAT 2183	Intermediate Statistics Lab/Packages	
PUBH 6249	Use of Statistical Packages: Data Management and Data Analysis	

### Degree Requirements

Code	Title	Credits
<b>Required</b>		
PUBH 6001	Biological Concepts in Public Health	
PUBH 6003	Principles and Practices of Epidemiology	
PUBH 6265	Design of Medical Studies	
PUBH 6266	Biostatistical Methods (Basis for Master's Comprehensive Examination)	
PUBH 6299	Topics in Epidemiology and Biostatistics	
STAT 6201	Mathematical Statistics I	
STAT 6202	Mathematical Statistics II	
STAT 6210	Data Analysis	
STAT 6227	Survival Analysis	
<b>Electives</b>		
6 credits from the following:		
PUBH 6004	Environmental and Occupational Health in a Sustainable World	
PUBH 6006	Management and Policy Approaches to Public Health	
PUBH 6121	Environmental and Occupational Epidemiology	
PUBH 6242	Clinical Epidemiology and Public Health: Reading the Research	
PUBH 6244	Cancer Epidemiology	
PUBH 6245	Infectious Disease Epidemiology	
PUBH 6246	Injury Epidemiology & Prevention	

PUBH 6248	Epidemiology of Aging
PUBH 6250	Epidemiology of HIV/AIDS
STAT 3187	Introduction to Sampling
STAT 4181	Applied Time Series Analysis
STAT 4188	Nonparametric Statistics Inference
STAT 6215	Applied Multivariate Analysis I
STAT 6216	Applied Multivariate Analysis II
STAT 6217	Design of Experiments
STAT 6223	Bayesian Statistics: Theory and Applications
STAT 6231	Contingency Table Analysis
STAT 6242	Modern Regression Analysis
STAT 6287	Sample Surveys
STAT 8226	Advanced Biostatistical Methods
STAT 8265	Multivariate Analysis
STAT 8273	Stochastic Processes I
STAT 8281	Advanced Time Series Analysis
STAT 8288	Topics in Sample Surveys
<b>Consulting</b>	
PUBH 6258	Advanced Topics in Biostatistical Consulting
PUBH 6283	Biostatistics Consulting Practicum

## The Master's Comprehensive Examination

The master's comprehensive examination is a written exam in the field of biostatistics and is based on the content covered in PUBH 6266 Biostatistical Methods. It is administered by the faculty of the Department of Epidemiology and Biostatistics in the Milken Institute School of Public Health.

Visit the program website (<https://publichealth.gwu.edu/programs/biostatistics-ms>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF BIOSTATISTICS

### REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

## Required Preparatory Courses

Code	Title	Credits
<b>Undergraduate course requirements (or equivalents to these GW courses) for admission consideration:</b>		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
STAT 2118	Regression Analysis	
MATH 2233	Multivariable Calculus	

Code	Title	Credits
<b>Additional course requirements* (or equivalents to these GW courses):</b>		
MATH 2184	Linear Algebra I	
One of the following:		
STAT 1129	Introduction to Computing	
STAT 2183	Intermediate Statistics Lab/Packages	
PUBH 6249	Use of Statistical Packages: Data Management and Data Analysis	

\*Applicants lacking these courses (or equivalents to these GW courses) will be considered for admission, but, if admissible, will be admitted conditionally with the expectation that these courses will be satisfactorily completed within two semesters following matriculation in the program. These credits do not count as credit toward the 72-credit graduation requirement nor are grades earned in additional courses reflected in the overall grade-point average.

## Doctoral Program Requirements

The following requirements must be fulfilled: 72 credits, including a minimum of 51 credits in required and elective courses and a minimum of 12 credits in dissertation research; successful completion of the general and final examinations; and completion of the professional enhancement requirement. See below for additional information.

Code	Title	Credits
<b>Required</b>		
	Statistics core	

STAT 6201	Mathematical Statistics I
STAT 6202	Mathematical Statistics II (* Comprehensive Exam)
STAT 6210	Data Analysis
STAT 6213	Intermediate Probability and Stochastic Processes (* Comprehensive Exam)
PUBH 8365	Design of Medical Studies
PUBH 8366	Biostatistical Methods (* Comprehensive Exam)
STAT 8226	Advanced Biostatistical Methods
STAT 6227	Survival Analysis
STAT 8263	Advanced Statistical Theory I
Public health core	
PUBH 6001	Biological Concepts in Public Health
PUBH 6003	Principles and Practices of Epidemiology
PUBH 6121	Environmental and Occupational Epidemiology
One of the following:	
PUBH 6299	Topics in Epidemiology and Biostatistics
PUBH 6007	Social and Behavioral Approaches to Public Health
or PUBH 6006	Management and Policy Approaches to Public Health
PUBH 6006	Management and Policy Approaches to Public Health
<b>Electives</b>	
9 credits in electives from the following approved lists of STAT and PUBH courses.	
Approved statistics electives (at least 3 credits must be selected from among the first three courses below):	
STAT 6214	Applied Linear Models
STAT 6231	Contingency Table Analysis
STAT 8262	Nonparametric Inference
STAT 6207	Methods of Statistical Computing I
STAT 6208	Methods of Statistical Computing II
STAT 6215	Applied Multivariate Analysis I

STAT 6216	Applied Multivariate Analysis II
STAT 6217	Design of Experiments
STAT 6218	Linear Models
STAT 6223	Bayesian Statistics: Theory and Applications
STAT 6242	Modern Regression Analysis
STAT 6287	Sample Surveys
STAT 6289	Topics in Statistics
STAT 8257	Probability
STAT 8258	Distribution Theory
STAT 8263	Advanced Statistical Theory I
STAT 8264	Advanced Statistical Theory II
STAT 8265	Multivariate Analysis
STAT 8273	Stochastic Processes I
STAT 8274	Stochastic Processes II
STAT 8281	Advanced Time Series Analysis
STAT 8288	Topics in Sample Surveys
BIOS 8998	Advanced Reading and Research (see advisor)
Approved public health electives:	
PUBH 6242	Clinical Epidemiology and Public Health: Reading the Research (recommended)
PUBH 6245	Infectious Disease Epidemiology
PUBH 8419	Measurement in Public Health and Health Services
<b>Consulting</b>	
Consulting courses may be waived by the Biostatistics Program Director, based on written documentation of prior equivalent coursework or relevant work experience. Waiver of the consulting course increases the total number of elective to be taken by the number of consulting credits waived.	
PUBH 6258	Advanced Topics in Biostatistical Consulting
PUBH 6283	Biostatistics Consulting Practicum
<b>Dissertation research</b>	

## General and final examinations

The general examination is given in two parts:

- Part I is the qualifying exam, a written comprehensive examination based on the course content of STAT 6201 Mathematical Statistics I, STAT 6202 Mathematical Statistics II (administered by faculty of the Department of Statistics), and PUBH 8366 Biostatistical Methods (administered by the faculty of the Department of Epidemiology and Biostatistics).
- The qualifying examination is given over a two-day period in the beginning of the fall semester of every academic year and consists of one four-hour theory exam and one two-hour biostatistical methods/applications exam. Students are expected to take the comprehensive examination within 24 months from the date of enrollment in the program. A student who fails to pass the comprehensive examination may, with the approval of the faculty, repeat the examination the following year. Failure on the second attempt results in termination from the PhD program.
- All examination questions focus on material that a person seeking a PhD in biostatistics is expected to know, regardless of subsequent specialization. The examination encompasses material in core mathematical statistics –STAT 6201 Mathematical Statistics I and STAT 6202 Mathematical Statistics II—and biostatistical methods courses –PUBH 8366 Biostatistical Methods—in the PhD program in biostatistics. Specifically,
  1. The theory portion of the exam—STAT 6201 Mathematical Statistics I and STAT 6202 Mathematical Statistics II—is based on the first 10 chapters of Casella G and Berger RL (1990). *Statistical Inference*. Second Edition, Duxbury Press.
  2. The biostatistical methods portion of the exam –PUBH 8366 Biostatistical Methods—is based on chapters 1 to 8 of Lachin J.M. (2010) *Biostatistical Methods: The Assessment of Relative Risks*, 2nd Edition, Wiley.
- Part II, the research proposal, consists of an oral examination based on a written dissertation research proposal. As soon as feasible after successful completion of the comprehensive exam, students are encouraged to identify a dissertation advisor and a topic of research. The written dissertation proposal is then submitted to the student's Dissertation Research Committee, and the student makes an oral presentation of their proposal to the Committee. The Committee determines the student's readiness to pursue and successfully complete the proposed research, in addition to the appropriateness of the specific problem for dissertation-level research.

Upon successful completion of the required coursework and both parts of the general examination, the candidate is generally recommended to the Associate Dean for Graduate Affairs of the Columbian College of Arts and Sciences (CCAS) for promotion to PhD candidacy—the dissertation research. A candidate must file an approved dissertation research plan with CCAS before being admitted to PhD candidacy. Prior to completion of the general examination, a student may register for at most 6 credits of BIOS 8999 Dissertation Research.

Consult with the Biostatistics Program Director or academic advisor for dissertation guidelines.

## Professional enhancement requirement: 8 hours

Professional enhancement activities supplement the academic curriculum and help prepare students to participate actively in the professional community. They enhance practical knowledge and awareness of public health issues – either in general or in a student's specific area of study.

Students can fulfill this requirement by attending workshops, seminars, or other relevant professional meetings, which are often held at the Milken Institute School of Public Health (SPH) and in the metropolitan Washington, DC, area. Examples of conference sponsors include the National Academy for State Health Policy, the Pan American Health Organization, the American Public Health Association, the American College of Healthcare Executives, the Area Health Education Center, the American College of Sports Medicine, and the National Athletic Trainer's Association. Opportunities for professional enhancement are regularly publicized via the SPH Listserv and through the department or the biostatistics academic advisor.

Students must submit documentation of professional enhancement activities to the biostatistics academic advisor, which includes a **prior** approval, a description of the program agenda, and proof of attendance before applying for graduation.

Visit the program website (<http://publichealth.gwu.edu/programs/biostatistics-phd>) for additional information.

## CHEMISTRY

Part of the Columbian College of Arts and Sciences, the Department of Chemistry has a history that traces back to the very founding of the University. Bridging the sciences of biology, geology, and physics, chemistry is the central science that studies the composition, structure, properties, and behavior of matter at a molecular level. Students and faculty engage in a collaborative setting to address research problems of contemporary importance, focusing on biomolecular chemistry, energy and the environment, and materials chemistry.

Visit the Department of Chemistry website (<https://chemistry.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in chemistry (p. 153)
- Bachelor of Science with a major in chemistry (p. 156)

### Combined programs

- Dual Bachelor of Science with a major in chemistry/Master of Forensic Sciences with a concentration in forensic chemistry (p. 161)
- Dual Bachelor of Science with a major in chemistry/Master of Science in the field of environmental and green chemistry (p. 161)

### Minor

- Minor in chemistry (p. 161)

## GRADUATE

### Master's programs

- Master of Science in the field of chemistry (p. 161)
- Master of Science in the field of environmental and green chemistry (p. 162) (p. 161)

### Doctoral program

- Doctor of Philosophy in the field of chemistry (p. 163)

## FACULTY

**Professors** C.L. Cahill, M. King (*Chair*), S. Licht, J.H. Miller, A. Vertes

**Associate Professors** C.S. Dowd, M.A. Massiah, V. Sadtchenko, M.J. Wagner, M.G. Zysmilich

**Assistant Professors** C. Besson, H. Chen, L.M. McClary, A.M. Voutchkova

**Professorial Lecturers** G. Clements, E. Libelo, M. Schofield

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **CHEM 1000. Dean's Seminar. 3 Credits.**

Contemporary topics in chemistry.

#### **CHEM 1003. Contemporary Science for Nonscience Majors. 3 Credits.**

Contemporary topics in physical, biological, and medical science. CHEM 1003 is not a prerequisite to CHEM 1004. Laboratory fee.

#### **CHEM 1004. Contemporary Science for Nonscience Majors. 3 Credits.**

Continuation of CHEM 1003. Contemporary topics in physical, biological, and medical science. CHEM 1003 is not a prerequisite to CHEM 1004. Laboratory fee.

#### **CHEM 1111. General Chemistry I. 4 Credits.**

Atomic structure and properties; stoichiometry; gas, liquid, and solid state; chemical bonding; solutions; chemical kinetics and equilibria; thermodynamics; acids and bases; electrochemistry; descriptive chemistry. Laboratory fee. Restricted to students with one year of high school algebra.

#### **CHEM 1112. General Chemistry II. 4 Credits.**

Continuation of CHEM 1111. Atomic structure and properties; stoichiometry; gas, liquid, and solid state; chemical bonding; solutions; chemical kinetics and equilibria; thermodynamics; acids and bases; electrochemistry; descriptive chemistry. Laboratory fee. Prerequisite: CHEM 1111.

#### **CHEM 2000. Sophomore Colloquium. 3 Credits.**

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

#### **CHEM 2010. History of Chemistry. 2,3 Credits.**

#### **CHEM 2085. Environmental Chemistry. 3 Credits.**

Chemistry and physics of the environment, with emphasis on water and air pollution; environmental analysis and modeling and their limitations.

#### **CHEM 2122. Introductory Quantitative Analysis. 3 Credits.**

Theory and practice of quantitative analysis by modern methods; evaluation of analytical data emphasizing detection and correction of experimental errors. CHEM 2123 may be taken as a corequisite. Prerequisite: CHEM 1112.

#### **CHEM 2123. Introductory Quantitative Analysis Laboratory. 1 Credit.**

Laboratory complement to CHEM 2122. Laboratory fee. CHEM 2122 may be taken as a corequisite. Prerequisite: CHEM 2122.

#### **CHEM 2123W. Introductory Quantitative Analysis Laboratory. 1 Credit.**

Laboratory complement to CHEM 2122. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. CHEM 2122 may be taken as a corequisite. Prerequisite: CHEM 2122.

**CHEM 2151. Organic Chemistry I. 3 Credits.**

Systematic treatment of the structure, preparation, properties, and reactions of the principal classes of organic compounds. Fundamental principles of stereochemistry, reaction mechanisms, and spectroscopic methods of analysis. Prerequisite: CHEM 1112.

**CHEM 2152. Organic Chemistry II. 3 Credits.**

Continuation of CHEM 2151. Systematic treatment of the structure, preparation, properties, and reactions of the principal classes of organic compounds. Fundamental principles of stereochemistry, reaction mechanisms, and spectroscopic methods of analysis. Prerequisite: CHEM 2151.

**CHEM 2153. Organic Chemistry Laboratory I. 1 Credit.**

Laboratory component of CHEM 2151. Introduction to and practice in basic skills of synthesis, separation, purification, and identification of organic compounds. CHEM 2151 may be taken as a corequisite. Laboratory fee. Prerequisite: CHEM 2151.

**CHEM 2154. Organic Chemistry Laboratory II. 1 Credit.**

Continuation of CHEM 2153. Laboratory component of CHEM 2152. Introduction to and practice in basic skills of synthesis, separation, purification, and identification of organic compounds. CHEM 2152 may be taken as a corequisite. Laboratory fee. Prerequisites: CHEM 2152 and CHEM 2153.

**CHEM 3140. Geochemistry. 3 Credits.**

Chemical systems and processes on the planet Earth; origins and interactions among and within the Earth's lithosphere, oceans, and atmosphere; origin, distribution, and behavior of the elements; radioactive and stable isotope systems. Aqueous geochemistry; geochemical cycles. Prerequisites: GEOL 1001 or GEOL 1005; and CHEM 1111 and CHEM 1112.

**CHEM 3165. Biochemistry I. 3 Credits.**

Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Credit toward the degree cannot be earned for both CHEM 3165 and BIOC 3261 or BISC 3261. Prerequisites: CHEM 2151 and CHEM 2152.

**CHEM 3166. Biochemistry II. 3 Credits.**

Continuation of CHEM 3165. Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Credit toward the degree cannot be earned for both CHEM 3166 and BIOC 3263/BISC 3263. Prerequisite: CHEM 3165.

**CHEM 3166W. Biochemistry II. 3 Credits.**

Continuation of CHEM 3165. Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit toward the degree cannot be earned for both CHEM 3166W and BIOC 3263/BISC 3263. Prerequisite: CHEM 3165.

**CHEM 3170. Introduction to Physical Chemistry. 3 Credits.**

Thermodynamics, chemical and physical equilibria, kinetics, and spectroscopy. Examples taken from biological systems. May not be taken for credit by students who have received credit for CHEM 3171 and CHEM 3172 or an equivalent course. Restricted to non-chemistry majors. Prerequisites: CHEM 1111 and CHEM 1112; and MATH 1231; and PHYS 1012 or PHYS 1022 or PHYS 1026; or permission of the instructor.

**CHEM 3171. Physical Chemistry I. 3 Credits.**

Gas laws, chemical thermodynamics, chemical equilibrium, kinetics, quantum chemistry, atomic and molecular spectra, structure of solids, liquids, and macromolecules. Prerequisites: CHEM 1112, MATH 1231 and PHYS 1022; or permission of the instructor.

**CHEM 3172. Physical Chemistry II. 3 Credits.**

Continuation of CHEM 3171. Gas laws, chemical thermodynamics, chemical equilibrium, kinetics, quantum chemistry, atomic and molecular spectra, structure of solids, liquids, and macromolecules. Prerequisite: CHEM 3171.

**CHEM 3173. Physical Chemistry Laboratory. 2 Credits.**

Laboratory complement to CHEM 3171 and CHEM 3172. Exploration of molecular structure and bonding as revealed through observation. CHEM 2123 and CHEM 3171 may be taken as a corequisite. Laboratory fee. Prerequisites: CHEM 2123 and CHEM 3171.

**CHEM 3262. Biochemistry Laboratory. 2 Credits.**

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Same as BIOC 3261/ BISC 3261. Prerequisite: CHEM 3165 or BIOC 3261/ BISC 3261. Laboratory fee.

**CHEM 3263W. Special Topics in Biochemistry. 2 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**CHEM 3564. Lipid Biotechnology. 0-2 Credits.**

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Laboratory fee. Prerequisites: BIOC 3261 or BISC 3261 or CHEM 3165. (Same as BIOC 3564).

**CHEM 4113. Chemical Instrumentation. 3 Credits.**

Electronic analog measurements and control of electrical quantities in chemical instrumentation; digital and analog data conversion and optimization of electronic measurements in chemical instrumentation; computer interfacing and programming using PC-based systems. Prerequisite: CHEM 3172 and CHEM 4122. Laboratory fee.

**CHEM 4122. Instrumental Analytical Chemistry. 3 Credits.**

Theory of instrumental methods in qualitative and quantitative analysis, determination of structure, with emphasis on atomic and molecular spectrophotometry, infrared spectroscopy, nuclear magnetic resonance, mass spectrometry, chromatography, and electroanalysis. Corequisite: CHEM 4123. CHEM 3171 may be taken as a corequisite. Prerequisites: CHEM 3171 or permission of the instructor.

**CHEM 4123. Instrumental Analytical Chemistry Laboratory. 2 Credits.**

Laboratory complement to CHEM 4122. CHEM 3171 and CHEM 4122 may be taken as a corequisite. Laboratory fee. Prerequisites: CHEM 3171 and CHEM 4122.

**CHEM 4134. Inorganic Chemistry. 3 Credits.**

Periodic trends and structure and reactivity of transitional metal complexes. Prerequisite: CHEM 2122.

**CHEM 4195. Undergraduate Research. 1-3 Credits.**

Research on problems approved by the staff. Approval must be obtained prior to registration. A final written report on the work is required. For students requesting Special Honors in chemistry, a poster or oral presentation is also required. May be repeated for credit. Majors are encouraged to take the course for two semesters. Laboratory fee.

**CHEM 4195W. Undergraduate Research. 1-3 Credits.**

Research on problems approved by the staff. Approval must be obtained prior to registration. A final written report on the work is required. For students requesting Special Honors in chemistry, a poster or oral presentation is also required. May be repeated for credit. Majors are encouraged to take the course for two semesters. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee.

**CHEM 6221. Spectrochemical Analysis. 3 Credits.**

Theory and application of recent spectrometric methods of analysis, including advances in optimization techniques, optical instrumentation, atomic spectrometry, laser-based analytical techniques, X-ray methods, and surface analysis techniques. Prerequisite: CHEM 4122.

**CHEM 6222. Biomedical Mass Spectrometry. 3 Credits.**

Principles, instrumentation, methods, and applications of mass spectrometry; selected state-of-the-art methods demonstrate basic principles to show how new methods of analysis are developed; typical applications highlight solutions of biomedical problems, including proteomics and metabolomics. Prerequisite: CHEM 4122.

**CHEM 6235. Advanced Inorganic Chemistry I. 3 Credits.**

Application of modern chemical theories to inorganic substances and reactions; detailed study, developed from the periodic table, of the chemistry of the more common elements; electronic spectra and reaction mechanisms of complexes; organometallic chemistry; homogeneous and heterogeneous catalysis; bioinorganic chemistry. Prerequisites: CHEM 3172 and CHEM 4134.

**CHEM 6236. Advanced Inorganic Chemistry II. 3 Credits.**

Continuation of CHEM 6235. Application of modern chemical theories to inorganic substances and reactions; detailed study, developed from the periodic table, of the chemistry of the more common elements; electronic spectra and reaction mechanisms of complexes; organometallic chemistry; homogeneous and heterogeneous catalysis; bioinorganic chemistry. Prerequisites: CHEM 3172 and CHEM 4134.

**CHEM 6238. Chemistry of Inorganic Materials. 3 Credits.**

Synthesis, structure, and properties of materials such as ceramics, superconductors, ionic conductors, nanomaterials, and magnetic, optical, and electronic materials. Emphasis on traditional and low-temperature routes. Prerequisites: CHEM 3171 and CHEM 3172.

**CHEM 6251. Advanced Organic Chemistry I. 3 Credits.**

Synthesis, reactions, and properties of organic compounds; fundamental theories of organic chemistry, emphasis on reaction mechanisms. Prerequisite: CHEM 2152.

**CHEM 6252. Advanced Organic Chemistry II. 3 Credits.**

Continuation of CHEM 6251. Synthesis, reactions, and properties of organic compounds; fundamental theories of organic chemistry, emphasis on reaction mechanisms. Prerequisite: CHEM 6251.

**CHEM 6257. Physical-Organic Chemistry. 3 Credits.**

The transition state theory of chemical kinetics, applications to reaction mechanisms; kinetic isotope effects, linear-free energy relationships, concentrated and "super" acids, Woodward-Hoffman rules, free radical reactions. Prerequisites: CHEM 6251 or permission of the instructor.

**CHEM 6259. Polymer Chemistry. 3 Credits.**

A study of the preparation, properties, and structure of macromolecules. Prerequisites: CHEM 2152 and CHEM 3170; or CHEM 3171; or permission of the instructor.

**CHEM 6273. Chemical Thermodynamics. 3 Credits.**

Application of thermodynamics to chemical problems. Emphasis on statistical calculation of thermodynamic properties. Prerequisite: CHEM 3172 or CHEM 6372.

**CHEM 6277. Chemical Bonding. 3 Credits.**

Quantum mechanics, approximate methods, electron spin, Pauli principle, atomic and molecular structure. Prerequisite: CHEM 3172 or CHEM 6372.

**CHEM 6278. Molecular Spectroscopy. 3 Credits.**

Applications of quantum mechanics and group theory to the interpretation of electronic, vibrational, rotational, and magnetic resonance spectroscopy. Prerequisite: CHEM 6277.

**CHEM 6280. Energy and the Environment. 3 Credits.**

Fundamentals of energy conversion in thermomechanical, thermochemical, electrochemical, and photoelectric processes in existing and future power and transportation systems, with emphasis on efficiency, environmental impact, and performance.

**CHEM 6281. Environmental Chemistry: Air, Water, and Soil. 3 Credits.**

Survey of the behavior, movement and impact of natural and man-made chemicals in all layers of the environment in the context of the atmosphere, hydrosphere, and lithosphere; the effects of acid rain, sewage treatment, ozone destruction, anthropogenic climate change, air pollution, and eutrophication.

**CHEM 6282. Green Industrial Chemistry. 3 Credits.**

Introduction to the basic design principles for greener chemical technologies; widely used practices, including catalysis, use of renewable starting materials, minimization of energy inputs, and use of greener solvents.

**CHEM 6283. Chemical Toxicology and Rational Design of Safer Chemicals. 3 Credits.**

Introduction to the basic tools and paradigms of toxicology in the context of chemical design for minimizing potential toxicity of commercial chemicals; computational methods for prediction of bioavailability, reactivity, bioaccumulation and different types of toxicity; application of in silico methods to the rational re-design of functional and safer chemicals.

**CHEM 6284. Environmental Analytical Chemistry. 3 Credits.**

Advanced analytical methodology for environmental assessment; analytical instrumentation, techniques for remote measurements, determination of trace atmospheric constituents of anthropogenic and natural origin, measurement uncertainty analysis, detection and identification of organic and inorganic pollutants in air, water, soil and biota, and the determination of heavy metals and radionuclides in the environment.

**CHEM 6298. Capstone Seminar in Environmental and Green Chemistry. 3 Credits.**

Group projects carried out with an external partner or client—such as a government agency, nonprofit group, or chemistry laboratory research project—that identify and solve real world scientific problems related to environmental and green chemistry.

**CHEM 6314. Fundamental-Computational Chemistry. 3 Credits.****CHEM 6315. Computational Chem-Biomolecule. 3 Credits.****CHEM 6320. Selected Topics in Analytical Chemistry. 1-3 Credits.**

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field of analytical chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

**CHEM 6330. Selected Topics in Inorganic Chemistry. 1-3 Credits.**

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field of inorganic chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

**CHEM 6350. Selected Topics in Organic Chemistry. 1-3 Credits.**

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field in organic chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

**CHEM 6358. Synthesis and Structure Determination in Organic Chemistry. 3 Credits.**

The design of syntheses for complex organic molecules; survey of modern synthetic methods, including asymmetric induction; spectroscopic methods of structure determination. Prerequisites: CHEM 6251 or permission of the instructor.

**CHEM 6370. Selected Topics in Physical Chemistry. 1-3 Credits.**

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field of physical chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

**CHEM 6371. Physical Chemistry I. 1-3 Credits.**

Gas laws, chemical thermodynamics, chemical equilibrium, kinetics, quantum chemistry, atomic and molecular spectra, structure of solids, liquids, and macromolecules. Students enrolled at the graduate level are expected to do additional work. Permission of the department required prior to enrollment.

**CHEM 6372. Physical Chemistry II. 1-3 Credits.**

Continuation of CHEM 6371. Basic concepts of quantum chemistry and molecular spectroscopy; application of modern physical chemistry theory to exploration of a wide range of physical properties for open and closed chemical systems in the gas and condensed phases. Restricted to students with permission of the department. Prerequisite: CHEM 6371.

**CHEM 6390. Selected Topics in Chemistry. 0-3 Credits.**

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field in chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

**CHEM 6395. Research. 1-12 Credits.**

Limited to master's degree candidates. Survey of a topic approved by departmental staff and resulting in a written report and presentation of a seminar. Open to qualified students with advanced training. May be repeated for credit.

**CHEM 6998. Thesis Research. 1-9 Credits.**

Limited to students in the master's degree program.

**CHEM 6999. Thesis Research. 3 Credits.**

Limited to students in the Master's Degree program.

**CHEM 8998. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**CHEM 8999. Dissertation Research. 3-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

## BACHELOR OF ARTS WITH A MAJOR IN CHEMISTRY

### OPTION 1

The Department of Chemistry offers two options for the bachelor of arts degree, each designed to give students

a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

**Option 1 provides considerable concentration in chemistry while permitting a wider selection of electives. It should meet the needs of students preparing to enter the fields of medicine, law, dentistry, and business, among others.**

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum, below:

Code	Title	Credits
<b>Prerequisite courses for the bachelor of arts degree:</b>		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory	
MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II	
PHYS 1021 & PHYS 1022	University Physics I and University Physics II	
or PHYS 1025	University Physics I with Biological Applications	
Code	Title	Credits
<b>Required courses:</b>		
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II	
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II	
CHEM 3173	Physical Chemistry Laboratory	
CHEM 3165	Biochemistry I	
CHEM 4122	Instrumental Analytical Chemistry	
CHEM 4134	Inorganic Chemistry	

Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

### First Year

CHEM 1111 & CHEM 1112	General Chemistry I
Select one of the following:	
MATH 1231 & MATH 1232*	Single-Variable Calculus I
MATH 1220 & MATH 1221	Calculus with Precalculus I

### Second Year

CHEM 2122	Introductory Quantitative Analysis
CHEM 2151 & CHEM 2153	Organic Chemistry I
CHEM 2152 & CHEM 2154	Organic Chemistry II
PHYS 1021 or 1025	University Physics I
PHYS 1022 or 1026	University Physics II
MATH 1232 (if not taken in the first year)	Single-Variable Calculus II

### Third Year

CHEM 2123	Introductory Quantitative Analysis Laboratory
CHEM 3171 & CHEM 3172	Physical Chemistry I
CHEM 3173	Physical Chemistry Laboratory

### Fourth Year

CHEM 3165 (if not taken in the junior year)	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry

\* Or MATH 1220 Calculus with Precalculus I-MATH 1221 Calculus with Precalculus II (if necessary);

## OPTION 2

The Department of Chemistry offers two options for the bachelor of arts degree, each designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

**Option 2 is intended primarily for students preparing for graduate study in chemistry or those students planning to enter the chemical profession and wishing certification by the American Chemical Society (ACS) as having met the minimum requirements for professional training.**

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum, below:

Code	Title	Credits
<b>Prerequisite courses for the bachelor of arts degree:</b>		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory	
MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II	
PHYS 1021 & PHYS 1022	University Physics I and University Physics II	
or PHYS 1025	University Physics I with Biological Applications	
<b>Code</b>	<b>Title</b>	<b>Credits</b>
<b>Required courses:</b>		
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II	
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II	
CHEM 3173	Physical Chemistry Laboratory	
CHEM 3165	Biochemistry I	
CHEM 4122	Instrumental Analytical Chemistry	
CHEM 4123	Instrumental Analytical Chemistry Laboratory	
CHEM 4134	Inorganic Chemistry	
CHEM 4195	Undergraduate Research	
or CHEM 4195W	Undergraduate Research	
A course in a structured computer programming language, such as one of the following courses, is recommended:		
STAT 1129	Introduction to Computing	
CSCI 1011	Introduction to Programming with Java	
CSCI 1041	Introduction to FORTRAN Programming	

CSCI 1121 Introduction to C Programming

CSCI 1131 Introduction to Programming with C

### Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

### First Year

CHEM 1111 & CHEM 1112 General Chemistry I  
MATH 1231 & MATH 1232\* Single-Variable Calculus I  
MATH 1220 & MATH 1221 Calculus with Precalculus I

One of the following:

### Second Year

CHEM 2122 Introductory Quantitative Analysis  
CHEM 2151 & CHEM 2153 Organic Chemistry I  
CHEM 2152 & CHEM 2154 Organic Chemistry II  
PHYS 1021 or 1025 University Physics I  
PHYS 1022 or 1026 University Physics II  
MATH 1232 (if not taken in the first year) Single-Variable Calculus II

### Third Year

CHEM 2123 Introductory Quantitative Analysis Laboratory  
CHEM 3171 & CHEM 3172 Physical Chemistry I  
CHEM 3173 Physical Chemistry Laboratory

### Fourth Year

CHEM 3165 Biochemistry I  
CHEM 4122 Instrumental Analytical Chemistry  
CHEM 4123 Instrumental Analytical Chemistry Laboratory  
CHEM 4134 (if not taken in the junior year) Inorganic Chemistry

\* Or MATH 1220 Calculus with Precalculus I-MATH 1221 Calculus with Precalculus II (if necessary);

## SPECIAL HONORS

In addition to meeting the general requirements stated under University Regulations, a candidate for graduation with Special Honors in chemistry must maintain a cumulative 3.0 grade-point average in chemistry courses and take CHEM 4195

Undergraduate Research or CHEM 4195W Undergraduate Research for at least 3 credits over two semesters. In addition to the final report for CHEM 4195 or CHEM 4195W, a poster or oral presentation is required.

## BACHELOR OF SCIENCE WITH A MAJOR IN CHEMISTRY

### OPTION 1

The Department of Chemistry offers four options for bachelor of science degree, all designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

**Option 1 provides considerable concentration in chemistry while permitting a wider selection of electives. It should meet the needs of students preparing to enter the fields of medicine, law, dentistry, and business, among others.**

The following requirements must be fulfilled: The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
<b>Prerequisite courses for the bachelor of science degree:</b>		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory	
MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II	
PHYS 1021 & PHYS 1022	University Physics I and University Physics II	
or PHYS 1025	University Physics I with Biological Applications	
Two additional semesters of approved coursework in the natural sciences or mathematics, such as one of the following:		
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory *	
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory	
GEOL 1001	Physical Geology *	
or GEOL 1005	Environmental Geology	

GEOL 1002	Historical Geology
-----------	--------------------

\*Credit for the degree cannot be earned for both GEOL 1001 and GEOL 1005.

\*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

Code	Title	Credits
<b>Required courses:</b>		
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II	
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II	
CHEM 3173	Physical Chemistry Laboratory	
CHEM 3165	Biochemistry I	
CHEM 4122	Instrumental Analytical Chemistry	
CHEM 4134	Inorganic Chemistry	

Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

#### First Year

CHEM 1111 & CHEM 1112	General Chemistry I
-----------------------	---------------------

Select one of the following:

MATH 1231 & MATH 1232*	Single-Variable Calculus I
------------------------	----------------------------

MATH 1220 & MATH 1221	Calculus with Precalculus I
-----------------------	-----------------------------

#### Second Year

CHEM 2122	Introductory Quantitative Analysis
-----------	------------------------------------

CHEM 2151 & CHEM 2153	Organic Chemistry I
-----------------------	---------------------

CHEM 2152 & CHEM 2154	Organic Chemistry II
-----------------------	----------------------

PHYS 1021 or 1025	University Physics I
-------------------	----------------------

PHYS 1022 or 1026	University Physics II
-------------------	-----------------------

MATH 1232 (if not taken in the first year)	Single-Variable Calculus II
--	-----------------------------

#### Third Year

CHEM 2123	Introductory Quantitative Analysis Laboratory
CHEM 3171 & CHEM 3172	Physical Chemistry I
CHEM 3173	Physical Chemistry Laboratory

#### Fourth Year

CHEM 3165 (if not taken in the junior year)	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry

\* Or MATH 1220 Calculus with Precalculus I-MATH 1221 Calculus with Precalculus II (if necessary);

## OPTION 2

The Department of Chemistry offers four options for bachelor of science degree, all designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

**Option 2 is for students preparing for graduate study in chemistry or those planning to enter the chemical profession and wishing to be certified by the American Chemical Society as having met the minimum requirements for professional training.**

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
<b>Prerequisite courses for the bachelor of science degree:</b>		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II

CHEM 4195	Undergraduate Research	
or CHEM 4195W	Undergraduate Research	
A course in a structured computer programming language, such as one of the following courses, is recommended:		
STAT 1129	Introduction to Computing	
CSCI 1011	Introduction to Programming with Java	
CSCI 1041	Introduction to FORTRAN Programming	

CSCI 1121 Introduction to C Programming

CSCI 1131 Introduction to Programming with C

#### Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

#### First Year

CHEM 1111 & CHEM 1112 General Chemistry I  
 MATH 1231 & MATH 1232\* Single-Variable Calculus I  
 MATH 1220 & MATH 1221 Calculus with Precalculus I

One of the following:

#### Second Year

CHEM 2122 Introductory Quantitative Analysis  
 CHEM 2151 & CHEM 2153 Organic Chemistry I  
 CHEM 2152 & CHEM 2154 Organic Chemistry II  
 PHYS 1021 or 1025 University Physics I  
 PHYS 1022 or 1026 University Physics II  
 MATH 1232 (if not taken in the first year) Single-Variable Calculus II

#### Third Year

CHEM 2123 Introductory Quantitative Analysis Laboratory  
 CHEM 3171 & CHEM 3172 Physical Chemistry I  
 CHEM 3173 Physical Chemistry Laboratory

#### Fourth Year

CHEM 3165 Biochemistry I  
 CHEM 4122 Instrumental Analytical Chemistry  
 CHEM 4123 Instrumental Analytical Chemistry Laboratory

CHEM 4134 (if not taken in the junior year) Inorganic Chemistry

\* Or MATH 1220 Calculus with Precalculus I-MATH 1221 Calculus with Precalculus II (if necessary);

## OPTION 3

The Department of Chemistry offers four options for bachelor of science degree, all designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

### Option 3 prepares students to meet the needs of federal and state forensic sciences laboratories.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
------	-------	---------

#### Prerequisite courses for the bachelor of science degree:

CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II
-----------------------	--

CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory
------------------------	--

MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II
-----------------------	--

PHYS 1021 & PHYS 1022	University Physics I and University Physics II
-----------------------	--

or PHYS 1025 University Physics I with Biological Applications

Two additional semesters of approved coursework in the natural sciences or mathematics, such as one of the following:

BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory *
-----------------------	--

BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory
-----------------------	---

GEOL 1001	Physical Geology *
-----------	--------------------

or GEOL 1005 Environmental Geology

GEOL 1002	Historical Geology
-----------	--------------------

\*Credit for the degree cannot be earned for both GEOL 1001 and GEOL 1005.

\*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

Code	Title	Credits
------	-------	---------

#### Required courses:

CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I
-----------------------	--

CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory
CHEM 3165	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4134	Inorganic Chemistry
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory
FORS 6213	Elements of Forensic Sciences
FORS 6221	Criminal Law I
Three of the following:	
FORS 6206	Trace Evidence Analysis
FORS 6234	Medicinal Chemistry I
FORS 6235	Medicinal Chemistry II
FORS 6238	Forensic Chemistry I
FORS 6239	Forensic Chemistry II
FORS 6240	Forensic Drug Analysis

#### Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

#### First Year

CHEM 1111 & CHEM 1112	General Chemistry I
Select one of the following:	
MATH 1231 & MATH 1232*	Single-Variable Calculus I
MATH 1220 & MATH 1221	Calculus with Precalculus I

#### Second Year

CHEM 2122	Introductory Quantitative Analysis
-----------	---------------------------------------

CHEM 2151 & CHEM 2153	Organic Chemistry I
CHEM 2152 & CHEM 2154	Organic Chemistry II
PHYS 1021 or 1025	University Physics I
PHYS 1022 or 1026	University Physics II
MATH 1232 (if not taken in the first year)	Single-Variable Calculus II
<b>Third Year</b>	
CHEM 2123	Introductory Quantitative Analysis Laboratory
CHEM 3171 & CHEM 3172	Physical Chemistry I
CHEM 3173	Physical Chemistry Laboratory
<b>Fourth Year</b>	
CHEM 3165	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4123	Instrumental Analytical Chemistry Laboratory
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry

\* Or MATH 1220 Calculus with Precalculus I-MATH 1221  
Calculus with Precalculus II (if necessary);

## OPTION 4

The Department of Chemistry offers four options for bachelor of science degree, all designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

**Option 4 includes additional courses in biochemistry and fulfills the American Chemical Society requirement for a certified degree program in chemistry with a biochemistry option.**

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
<b>Prerequisite courses for the bachelor of science degree:</b>		
CHEM 1111	General Chemistry I	
CHEM 1112	General Chemistry II	
CHEM 2122	Introductory Quantitative Analysis	
CHEM 2123W	Introductory Quantitative Analysis Laboratory	

MATH 1231	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II
PHYS 1021	University Physics I
or PHYS 1025	University Physics I with Biological Applications
PHYS 1022	University Physics II
or PHYS 1026	University Physics II with Biological Applications
BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory *
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory
<b>Code</b>	<b>Title</b>
<b>Required courses:</b>	
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory
CHEM 3165 & CHEM 3166	Biochemistry I and Biochemistry II (BIOC/BISC equivalents may be substituted)
CHEM 3262	Biochemistry Laboratory (BIOC/BISC equivalent may be substituted)
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4123	Instrumental Analytical Chemistry Laboratory
CHEM 4134	Inorganic Chemistry
CHEM 4195	Undergraduate Research
or CHEM 4195W	Undergraduate Research
The following are recommended:	
BISC 2202	Cell Biology

BISC 2207	Genetics
BISC 2322	Human Physiology

### Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

#### First Year

CHEM 1111 & CHEM 1112	General Chemistry I
Select one of the following:	
MATH 1231 & MATH 1232*	Single-Variable Calculus I
MATH 1220 & MATH 1221	Calculus with Precalculus I

#### Second Year

CHEM 2122	Introductory Quantitative Analysis
CHEM 2151 & CHEM 2153	Organic Chemistry I
CHEM 2152 & CHEM 2154	Organic Chemistry II
PHYS 1021 or 1025	University Physics I
PHYS 1022 or 1026	University Physics II
MATH 1232 (if not taken in the first year)	Single-Variable Calculus II

#### Third Year

CHEM 3171 & CHEM 3172	Physical Chemistry I
CHEM 2123W	Introductory Quantitative Analysis Laboratory
CHEM 3173	Physical Chemistry Laboratory
CHEM 3165	Biochemistry I
CHEM 3166W	Biochemistry II

#### Fourth Year

CHEM 4122	Instrumental Analytical Chemistry
CHEM 4123	Instrumental Analytical Chemistry Laboratory
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry
CHEM 3262	Biochemistry Laboratory

\* Or MATH 1220 Calculus with Precalculus I-MATH 1221 Calculus with Precalculus II if necessary

\* Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS)

Program take BISC 1120 instead of BISC 1125 for the lab component.

## SPECIAL HONORS

In addition to meeting the general requirements stated under University Regulations, a candidate for graduation with Special Honors in chemistry must maintain a cumulative 3.0 grade-point average in chemistry courses and take CHEM 4195 or CHEM 4195W for at least 3 credits over two semesters. In addition to the final report required for CHEM 4195 or CHEM 4195W, a poster or oral presentation is required.

## DUAL BACHELOR OF SCIENCE WITH A MAJOR IN CHEMISTRY/ MASTER OF FORENSIC SCIENCES WITH A CONCENTRATION IN FORENSIC CHEMISTRY

The Department of Chemistry offers a dual bachelor of science with a major in chemistry (p. 156) and master of forensic sciences with a concentration in forensic chemistry (<http://bulletin.gwu.edu/arts-sciences/forensic-sciences/mfs-forensic-chemistry>) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<http://chemistry.columbian.gwu.edu/bs-chemistrymfs-concentration-forensic-chemistry>) for additional information.

## DUAL BACHELOR OF SCIENCE WITH A MAJOR IN CHEMISTRY AND MASTER OF SCIENCE IN THE FIELD OF ENVIRONMENTAL AND GREEN CHEMISTRY

The Department of Chemistry offers a dual bachelor of science with a major in chemistry (p. 153) and master of science in the field of environmental and green chemistry (p. 162) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should consult the Department of Chemistry in their sophomore year. Visit the

program website (<https://chemistry.columbian.gwu.edu/ms-environmental-and-green-chemistry>) for additional information.

## MINOR IN CHEMISTRY

### REQUIREMENTS

The following requirements must be fulfilled: 22 credits, including 19 credits in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Required</b>		
CHEM 1111	General Chemistry I	
CHEM 1112	General Chemistry II	
CHEM 2122	Introductory Quantitative Analysis	
CHEM 2123	Introductory Quantitative Analysis Laboratory	
CHEM 2151	Organic Chemistry I	
CHEM 2152	Organic Chemistry II	
CHEM 2153	Organic Chemistry Laboratory I	
CHEM 2154	Organic Chemistry Laboratory II	
One of the following:		
CHEM 3170	Introduction to Physical Chemistry	
CHEM 3171	Physical Chemistry I	
CHEM 3165	Biochemistry I	
CHEM 4134	Inorganic Chemistry	

Visit the program website (<https://chemistry.columbian.gwu.edu/minor-chemistry-13>) for additional information.

## MASTER OF SCIENCE IN THE FIELD OF CHEMISTRY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

Thesis option—30 credits of approved courses are required, including CHEM 6998 Thesis Research—CHEM 6999 Thesis Research, which may be in analytical, inorganic, organic, or physical chemistry.

Nonthesis option—36 credits of approved courses are required, including CHEM 6395 Research. Up to 9 credits in other departments related to the student's area of interest (e.g., Forensic Sciences) may be included in the program, subject to the approval of the Department of Chemistry. Students who are or will be employed in organizations dealing with science and technology policy programs may select from specified courses offered by Information Systems and Technology Management, Political Science, Public Policy and Public Administration, and the Elliott School of International Affairs.

Coursework must include a minimum of five graduate-level courses; at least four of these courses must be core courses as defined in the department's Guide for Graduate Students; at least three must be offered by the Department of Chemistry. At least two graduate-level courses must be taken outside of the student's subdiscipline and in at least two other subdisciplines/disciplines. Candidates are required to pass a master's comprehensive examination as described in the department's Guide for Graduate Students.

**Note:** All entering students in graduate chemistry programs are required to take the American Chemical Society graduate level placement examinations, given by the Department of Chemistry, prior to matriculation. The four placement examinations (in the disciplines of analytical, organic, inorganic, and physical chemistry) are designed to cover the subject matter in the disciplines generally taught in undergraduate programs preparatory for graduate work in chemistry, and the results are used by the department to advise the individual student in planning a program of courses appropriate to the student's background. All graduate students are required to participate in the seminar and colloquium programs. Upon consultation with course instructors, specific course prerequisites may be waived.

Visit the program website (<https://chemistry.columbian.gwu.edu/ms-chemistry>) for additional information.

## MASTER OF SCIENCE IN THE FIELD OF ENVIRONMENTAL AND GREEN CHEMISTRY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeeregulationtext>).

30 credits, including 18 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
CHEM 6280	Energy and the Environment	
CHEM 6281	Environmental Chemistry: Air, Water, and Soil	
CHEM 6282	Green Industrial Chemistry	
CHEM 6283	Chemical Toxicology and Rational Design of Safer Chemicals	
CHEM 6284	Environmental Analytical Chemistry	
CHEM 6298	Capstone Seminar in Environmental and Green Chemistry	
<b>Electives</b>		
12 credits from the following:		
CHEM 6350	Selected Topics in Organic Chemistry	
CHEM 6251	Advanced Organic Chemistry I	
CHEM 6320	Selected Topics in Analytical Chemistry	
CHEM 6238	Chemistry of Inorganic Materials	
CHEM 6278	Molecular Spectroscopy	
CHEM 6257	Physical-Organic Chemistry	
STAT 6202	Mathematical Statistics II	
IAFF 6153	Science, Technology, and National Security	
IAFF 6141	International Science and Technology Policy Cornerstone	
IAFF 6142	Technology Creation/Diffusion	
IAFF 6151	Environmental Policy	
IAFF 6158	Special Topics in International Science and Technology Policy (Science, Technology and International Development)	
IAFF 6158	Special Topics in International Science and Technology Policy (International Issues in Energy)	
IAFF 6158	Special Topics in International Science and Technology Policy (Science, Technology and Complexity)	
IAFF 6158	Special Topics in International Science and Technology Policy (Environmental Security)	

SMPP 6290	Special Topics (Strategy for Sustainable Enterprise )
SMPP 6290	Special Topics (Sustainability Management and Policy)
SMPP 6290	Special Topics (Clean Tech and Competitive Energy Markets)
PUBH 6004	Environmental and Occupational Health in a Sustainable World
PUBH 6126	Assessment and Control of Environmental Hazards
PUBH 6002	Biostatistical Applications for Public Health
PPPA 6066	U.S. Environmental Policy
ECON 6237	Economics of the Environment and Natural Resources
EMSE 6200	Policy Factors in Environmental and Energy Management
ENRP 6101	Environmental Sciences I: Physical Sciences
ENRP 6102	Environmental Sciences II: Life Sciences
Alternate elective courses may be selected subject to program director's approval.	

Visit the program website (<https://chemistry.columbian.gwu.edu/ms-environmental-and-green-chemistry>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF CHEMISTRY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits in a program of study developed in consultation with the doctoral committee.

Students develop their program of studies in consultation with their doctoral committee, subject to the approval of the department's Graduate Affairs Committee. The program of studies must include coursework in a minimum of five graduate-level courses; at least four of the courses must be core courses as defined in the department's Guide for Graduate Students; at least three must be offered by the

Chemistry Department. These course requirements cannot be fulfilled by achievement on placement exams. At least two graduate-level courses must be taken outside the student's subdiscipline and in at least two other subdisciplines/disciplines. Equivalent courses offered by another university may be substituted at the discretion of the Graduate Affairs Committee. Students must pass a cumulative examination system and an oral defense of the doctoral research plan.

### Research fields

- Analytical chemistry—analytical neuroscience, analytical spectroscopy, biomedical analysis, chemical imaging, chemical instrumentation, chemical separations, electrochemical analysis, electrospray ionization, lab-on-a-chip devices, high-performance liquid chromatography (LC), laser-material interactions, mass spectrometry, nanophotonic structures, nmr spectroscopy, post-translational modifications, proteomics and metabolomics, single cell analysis;
- Biochemistry—biological sensing via nanoparticles, biomaterials, biomolecular analysis, biophysical topics, enzymology, lipids chemistry, proteomics and metabolomics, enzyme expression and inhibition, structural biology;
- Inorganic (materials) chemistry—battery chemistry, coordination chemistry, f-element chemistry, green chemistry, hydrothermal chemistry, mineral surface geochemistry, magnetochemistry, molecular spintronics, nanoscale and nanostructured materials, organometallic chemistry, small-molecule crystallography, solid-state materials;
- Organic chemistry—biomaterials and lipids, catalysis, computational docking and ligand design, green chemistry, heterocyclic chemistry, molecules of biological interest, synthesis;
- Physical chemistry—CO<sub>2</sub> removal, combustion chemistry, elemental and molecular spectroscopies, fuel cells, laser analytics, renewable energy conversion, solar chemical syntheses, surface chemistry, theoretical chemistry, thermochemical energy cycles.

PhD students in chemistry may substitute up to 12 hours of Dissertation Research in the form of coursework jointly approved by the Chemistry Department and the Forensic Sciences Department, the Environmental Resource Policy Program, or the International Science and Technology Policy program. The 12 hours may be selected from specified courses offered by Forensic Sciences, Information Systems and Technology Management, Political Science, Public Policy and Public Administration, and the Elliott School of International Affairs.

**Note:** All entering students in graduate chemistry programs are required to take the American Chemical Society Graduate Level Placement Examinations, given by the Department of Chemistry, prior to matriculation. The four placement examinations (in the disciplines of analytical, organic, inorganic,

and physical chemistry) are designed to cover the subject matter in the disciplines generally taught in undergraduate programs preparatory for graduate work in chemistry, and the results are used by the department to advise the individual student in planning a program of courses appropriate to the student's background. All graduate students are required to participate in the seminar and colloquium programs. Upon consultation with course instructors, specific course prerequisites may be waived.

With permission, a limited number of upper-level undergraduate courses in the department may be taken for graduate credit; additional coursework is required. See the Undergraduate programs for course listings.

Visit the program website (<https://chemistry.columbian.gwu.edu/phd-chemistry>) for additional information.

## CLASSICAL ACTING

GW's Department of Classical Acting—part of the Columbian College of Arts and Sciences—works in conjunction with the Shakespeare Theatre Company's Academy for Classical Acting (ACA) to offer the master's of fine arts in the field of classical acting degree program. Students in the program are in class full-time, 40 hours or more per week, for approximately 44 weeks. As actors and acting teachers, graduates help transform the way classical theater is performed on Broadway and in regional theaters around the country.

Visit the Shakespeare Theatre Company Academy for Classical Acting website (<http://aca.shakespearetheatre.org>) for additional information.

## GRADUATE

### Master's program

- Master of Fine Arts in the field of classical acting (p. 166)

## FACULTY

**Director** L. Jacobson

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

### ACA 6201. Acting I. 3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

### ACA 6202. Acting II. 2,3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

### ACA 6203. Acting: Classical Comedy. 2,3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

### ACA 6204. Acting: Master Class. 2,3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

### ACA 6205. Topics in Classical Drama and Culture. 2 Credits.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

### ACA 6206. Topics in Classical Drama and Culture. 2 Credits.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

### ACA 6207. Topics in Classical Drama and Culture. 2 Credits.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

### ACA 6208. Topics in Classical Drama and Culture. 1 Credit.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

### ACA 6209. Text I. 2 Credits.

Textual analysis emphasizing development of aesthetic expression. The forms and rules of verse: its meter, scansion, and overall structure in the early, middle, and late Shakespeare plays, as well as the intricacies of the prose.

**ACA 6210. Text II. 2 Credits.**

Textual analysis emphasizing development of aesthetic expression. The forms and rules of verse: its meter, scansion, and overall structure in the early, middle, and late Shakespeare plays, as well as the intricacies of the prose.

**ACA 6211. Voice and Speech I. 3 Credits.**

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

**ACA 6212. Voice and Speech II. 2,3 Credits.**

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

**ACA 6213. Voice and Speech III. 3 Credits.**

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

**ACA 6214. Voice and Speech IV. 2 Credits.**

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

**ACA 6215. Movement I. 1,2 Credit.**

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

**ACA 6216. Movement II. 1,2 Credit.**

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

**ACA 6217. Movement III. 1,2 Credit.**

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

**ACA 6218. Movement IV. 1,2 Credit.**

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

**ACA 6219. Alexander Technique I. 1,2 Credit.**

Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

**ACA 6220. Alexander Technique II. 1,2 Credit.**

Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

**ACA 6221. Alexander Technique III. 1,2 Credit.**

Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

**ACA 6222. Alexander Technique IV. 1,2 Credit.**

Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

**ACA 6223. Stage Combat I. 2 Credits.**

Skills in stage combat techniques, including unarmed combat and broadsword, buckler, rapier, dagger, and other lighter weapons, toward development of greater physical strength and an awareness of safety issues. The course is designed to lead to certification as an actor/combatant through the Society of American Fight Directors.

**ACA 6224. Stage Combat II. 2 Credits.**

Skills in stage combat techniques, including unarmed combat and broadsword, buckler, rapier, dagger, and other lighter weapons, toward development of greater physical strength and an awareness of safety issues. The course is designed to lead to certification as an actor/combatant through the Society of American Fight Directors.

**ACA 6225. Practicum I. 2 Credits.**

This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

**ACA 6226. Practicum II. 1-6 Credits.**

This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

**ACA 6227. Practicum III. 1-6 Credits.**

This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

**ACA 6228. Practicum IV. 1-6 Credits.**

This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

**ACA 6229. Audition Techniques. 3 Credits.**

A set of workshops to help students develop strong audition skills. Business aspects of acting, such as selection of agents, Equity status, and taxation issues. The workshop concludes with a showcase performance for casting directors, agents, and theatre directors.

**ACA 6595. Selected Topics. 1 Credit.**

# MASTER OF FINE ARTS IN THE FIELD OF CLASSICAL ACTING

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

59 credits in required courses.

Code	Title	Credits
<b>Required</b>		
ACA 6201	Acting I	
ACA 6202	Acting II	
ACA 6203	Acting: Classical Comedy	
ACA 6204	Acting: Master Class

## CLASSICAL AND NEAR EASTERN LANGUAGES AND CIVILIZATIONS

The Department of Classical and Near Eastern Languages and Civilizations offers undergraduate instruction in Greek, Latin, Hebrew, Arabic, Persian, and Turkish, as well as courses in ancient history and civilizations and the modern Middle East.

The curriculum is designed to strengthen a student's ability to communicate, reason, and understand the social, cultural, and physical environment of the ancient and modern worlds. The department fosters careful and creative thinking in its students, based in the linguistic, cultural, and historical roots of the rich, varied, and strategically important societies of the Mediterranean basin.

Classroom study is supplemented by the diverse resources of Washington, DC, through field trips, foreign films, special lectures, and cultural programs at embassies. Students have opportunities to study abroad, including Greece, Italy, Israel, and Morocco, and to participate in excavations around the world.

Visit the Department of Classical and Near Eastern Languages and Civilizations website (<https://cnelc.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in classical studies (p. 167)
- Bachelor of Arts with a major in Arabic studies (p. 167)

### Minors

- Minor in Arabic and Hebrew languages and cultures (p. 168)
- Minor in Arabic studies (p. 169)
- Minor in classical studies (p. 169)
- Minor in Hebrew (<http://bulletin.gwu.edu/arts-sciences/classical-near-eastern-languages-civilizations/minor-hebrew>)

## FACULTY

**Professors** E.H. Cline, E.A. Fisher

**Associate Professors** A. Bonnah (*Teaching*), D. Cline, M. Essees (*Chair*), E.A. Friedland, C. Rollston, A.M. Smith II

**Assistant Professors** C. Jorgensen, P. Minuchehr, K. Wasdin, F. Sinatora, O. Zakai

**Teaching Instructors** M. Kassab, E. Oraby, N. Taher, J. Tobkin

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
  - Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
  - Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
  - The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

  - Classical Studies (CLAS) (p. 1180)
  - Greek (GREK) (p. 1353)
  - Hebrew (HEBR) (p. 1365)
  - Latin (LATN) (p. 1406)
  - Persian (PERS) (p. 1455)
  - Turkish (TURK) (p. 1580)
  - Yiddish (YDSH) (p. 1588)

## BACHELOR OF ARTS WITH A MAJOR IN ARABIC STUDIES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

In addition to course requirements, students must complete 10 credits (one semester) of study abroad in an Arabic-speaking country, including 6 credits in modern standard Arabic and 4 credits in a spoken Arabic dialect. Students must attain proficiency in speaking, reading, listening, and writing at the advanced level on the ACTFL scale as measured by exit examinations administered by the department.

Code	Title	Credits
<b>Required</b>		
26 credits from the following:		
ARAB 3001	Advanced Arabic	
ARAB 3301	Modern Arabic Literature	
ARAB 3302	Media Arabic	

ARAB 3311	Business Arabic
ARAB 3501	Arabic and Arab Identity
ARAB 3502	Arab Film and Culture in English
ARAB 3503	Fundamentals of Arabic Linguistics
ARAB 4001	Genres in Modern Arabic Literature
ARAB 4002	Arabic Narratives Through the Ages
ARAB 4501	Arabic-English Translation
ARAB 4502	Arabic-English Advanced Translation and Editing

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained a 3.7 grade-point average in the major and at least a 3.25 average overall by the end of the junior year. No later than the beginning of the senior year, students must consult a departmental faculty member about a research project to be prepared under the supervision of that faculty member through CLAS 3901 Directed Project-CLAS 4901 Directed Project. Only if a committee of two faculty members approves the completed project, which must be graded A or A–, will Special Honors be recommended.

## BACHELOR OF ARTS WITH A MAJOR IN CLASSICAL STUDIES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below)

In addition to course requirements, students must complete the language proficiency requirement, which includes Greek (GREK) or Latin (LATN) language study through the 2002 level, or one classical language through the 1002 level and the other through the 2001 level. Students who have scored 4 or 5 on the Advanced Placement (AP) examination for Latin or who place into the 3001 level or above must take at least one LATN or GREK course at the appropriate level at GW or at another approved institution.

Code	Title	Credits
<b>Required</b>		
The following four courses (12 credits):		

AH 3101	Ancient Art of the Bronze Age and Greece
or AH 3102	Ancient Art of the Roman Empire
CLAS 2112	History of Ancient Greece
or HIST 2112	History of Ancient Greece
CLAS 2113	The Roman World to 337 A.D.
or HIST 2113	The Roman World to 337 A.D.
CLAS 4111	Capstone Study
<b>Electives</b>	
Four courses (12 credits) from the following, including at least one at the 3000 level or above.	
CLAS 2104	Ancient Medicine and Modern Medical Terms
CLAS 2105	Special Topics
or CLAS 2105W	Special Topics
CLAS 2106	Mythology of the Classical World
CLAS 2107	Families and Politics in Ancient Drama
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.
or HIST 2803	The Ancient Near East and Egypt to 322 B.C.
CLAS 2804	History of Ancient Israel
or HIST 2804	History of Ancient Israel
CLAS 3105	Topics in Classical Studies
CLAS 3111	Topics in Ancient History
or HIST 3111	Topics in Ancient History
CLAS 3114	Topics in Ancient Literatures and Cultures
CLAS 3115	Topics in Ancient Art and Archaeology
CLAS 3901	Directed Project
or CLAS 3901W	Directed Project
CLAS 4901	Directed Project
GREK 3001	Major Greek Authors I
GREK 3002	Major Greek Authors II
LATN 3001	Major Latin Authors I

LATN 3002	Major Latin Authors II
Three courses (9 credits) from the list above, from the list below, or from a combination of both:	
AH 3101	Ancient Art of the Bronze Age and Greece
AH 3102	Ancient Art of the Roman Empire
AH 3111	Early Christian and Byzantine Art and Architecture
ANTH 3805	Archaeology of Israel and Neighboring Lands
or AH 3106	Art and Archaeology of Israel and Neighboring Lands
ANTH 3806	Art and Archaeology of the Aegean Bronze Age
or AH 3104	Art and Archaeology of the Aegean Bronze Age
ANTH 3834	Field Research: Old World
PHIL 2111	History of Ancient Philosophy
or PHIL 2111W	History of Ancient Philosophy
PSC 2105	Major Issues of Western Political Thought I
REL 3341	Christianity in the Ancient World

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained a 3.7 grade-point average in the major and at least a 3.25 average overall by the end of the junior year. No later than the beginning of the senior year, students must consult a departmental faculty member about a research project to be prepared under the supervision of that faculty member through CLAS 3901 Directed Project, CLAS 4901 Directed Project, or CLAS 4111 Capstone Study. Only if a committee of two faculty members approves the completed project will Special Honors be recommended; the research project must be graded A or A-.

## MINOR IN ARABIC AND HEBREW LANGUAGES AND CULTURES

### REQUIREMENTS

The following requirements must be fulfilled: A minimum of 18 credits, including 9 to 10 credits in one focus area and 9 credits in elective courses. Students must have completed two years of the primary language or equivalent and one year of the

secondary language or equivalent before beginning the minor program.

Code	Title	Credits
<b>Required</b>		
All courses in one following focus areas (9 to 10 credits):		
Arabic		
ARAB 3001	Advanced Arabic	
ARAB 3301	Modern Arabic Literature	
ARAB 3302	Media Arabic	
Hebrew		
HEBR 3001	Hebrew Conversation and Writing	
HEBR 3301	Modern Hebrew Fiction	
or HEBR 3301W	Modern Hebrew Fiction	
HEBR 3302	The Israeli Media	
or HEBR 3302W	The Israeli Media	
<b>Electives</b>		
9 credits (three courses) from the following. At least one course must be in the student's focus area.		
HEBR 3101	Modern Hebrew Literary Classics	
HEBR 3102	Israeli Society and Culture: Literary Perspectives	
HEBR 3103	Israeli Cinema (in English)	
HEBR 3104W	Gender and Sexuality in Israel	
ARAB 3501	Arabic and Arab Identity	
ARAB 3502	Arab Film and Culture in English	

Visit the program website (<https://cnelc.columbian.gwu.edu/arabic-language-literature-and-culture-program>) for additional information.

## MINOR IN ARABIC STUDIES

### REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including 15 credits in required courses and 6 credits in elective courses. In addition, the student must meet the language prerequisite of ARAB 1001 Beginning Arabic I and ARAB 1002 Beginning Arabic II or their equivalent.

Code	Title	Credits
<b>Required</b>		
ARAB 2001	Intermediate Arabic I	
ARAB 2002	Intermediate Arabic II	
ARAB 3001	Advanced Arabic	
ARAB 3302	Media Arabic	
<b>Electives</b>		
One specialized language course from the following:		
ARAB 3301	Modern Arabic Literature	
ARAB 3311	Business Arabic	
One culture or linguistics course from the following:		
ARAB 3501	Arabic and Arab Identity	
ARAB 3502	Arab Film and Culture in English	
ARAB 3503	Fundamentals of Arabic Linguistics	

Visit the program website (<https://cnelc.columbian.gwu.edu/Arabic-Major-Minor>) for additional information.

## MINOR IN CLASSICAL STUDIES

### REQUIREMENTS

The following requirements must be fulfilled: 18 or 19 credits including 3 or 4 credits in a language course at the level appropriate for the student and 15 credits in elective courses.

Code	Title	Credits
<b>Required language proficiency</b>		
Students must demonstrate proficiency in one of the ancient languages by successfully completing one course in Latin or in ancient Greek numbered 1002 or above.		
The same course may not be used to satisfy the language proficiency requirement and also count toward the elective course requirement.		
<b>Electives</b>		
Five courses (15 credits) from the following:		
AH 3101	Ancient Art of the Bronze Age and Greece	
AH 3102	Ancient Art of the Roman Empire	
ANTH 3805	Archaeology of Israel and Neighboring Lands	

ANTH 3806	Art and Archaeology of the Aegean Bronze Age
ANTH 3834	Field Research: Old World
CLAS 2104	Ancient Medicine and Modern Medical Terms
CLAS 2105	Special Topics
CLAS 2105W	Special Topics
CLAS 2106	Mythology of the Classical World
CLAS 2107	Families and Politics in Ancient Drama
CLAS 2112	History of Ancient Greece
CLAS 2113	The Roman World to 337 A.D.
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.
CLAS 2804	History of Ancient Israel
CLAS 3105	Topics in Classical Studies
CLAS 3111	Topics in Ancient History
CLAS 3114	Topics in Ancient Literatures and Cultures
CLAS 3115	Topics in Ancient Art and Archaeology
CLAS 3901	Directed Project
CLAS 3901W	Directed Project
CLAS 4901	Directed Project
GREK 2001	Intermediate Classical Greek I
GREK 2002	Intermediate Classical Greek II
GREK 3001	Major Greek Authors I
GREK 3002	Major Greek Authors II
LATN 2001	Intermediate Latin
LATN 2002 or LATN 2002W	Vergil's Aeneid
LATN 3001 or LATN 3001W	Major Latin Authors I
LATN 3002 or LATN 3002W	Major Latin Authors II

In all cases, cross-listed courses may be substituted (e.g., CLAS 2112/HIST 2112)

Visit the program website (<https://cnelc.columbian.gwu.edu/classics-major-ba-minor>) for additional information.

## CORCORAN SCHOOL OF THE ARTS AND DESIGN

The Corcoran School of the Arts and Design bridges the university's academically robust programs in the arts with Corcoran's creative and inspired scholarship. Part of the GW Columbian College of Arts and Sciences, the School functions as an incubator for artists and practitioners in arts-related fields, and serves to enrich students who are taking classes in other areas of the university. As such, it provides a platform for engagement that bridges creative expression and practical application with the breadth and depth of the larger liberal arts education.

Visit the Corcoran School of the Arts and Design website (<https://corcoran.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Fine Arts with a major in digital media design (p. 171)
- Bachelor of Fine Arts with a major in fine art (p. 172)
- Bachelor of Fine Arts with a major in fine art photography (p. 172)
- Bachelor of Fine Arts with a major in graphic design (p. 173)
- Bachelor of Fine Arts with a major in interaction design (<http://bulletin.gwu.edu/arts-sciences/corcoran/interaction-design-bfa>)
- Bachelor of Fine Arts with a major in photojournalism (p. 174)

### Minors

- Graphic Design (p. 177)

## GRADUATE

### Master's programs

- Master of Arts in the field of decorative design and design history (p. 175)
- Master of Arts in the field of exhibition design (p. 175)
- Master of Arts in the field of interaction design (<http://bulletin.gwu.edu/arts-sciences/corcoran/interaction-design-ma>)
- Master of Arts in the field of new media photojournalism (p. 176)

## FACULTY

**Professors** G. Deal, F. DiPerna, J.G. Goodman, A. Grundberg, M. Hasburn, D. O'Neil, J. Severtson, C.M. Smigrod, L. Sures, B. Welt

**Associate Professors** R. Devers, M.F. Guerrero, A. Kharchi, K.M. McAleer-Keeler, S. Rigg, S. Sethi (*Chair*), S. Sterner

**Assistant Professors** M.H. Adams, C.E. Brown, E. Deans, L. Lipinski, K. Smith

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
  - Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
  - Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
  - The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- 
- Corcoran Art and the Book (CBK) (p. 1199)
  - Corcoran Art Education (CED) (p. 1202)
  - Corcoran Art History (CAH) (p. 1211)
  - Corcoran Arts & Humanities (CAS) (p. 1218)
  - Corcoran Ceramics (CCR) (p. 1221)
  - Corcoran Continuing Education (CCE) (p. 1222)
  - Corcoran Decorative Arts and Design (CDAD) (p. 1228)
  - Corcoran Design (CDE) (p. 1229)
  - Corcoran Digital Media Design (CDM) (p. 1229)
  - Corcoran Exhibition Design (CEX) (p. 1232)
  - Corcoran Fine Art (CFA) (p. 1234)
  - Corcoran First Year Foundation (CFN) (p. 1241)
  - Corcoran Graphic Design (CGD) (p. 1242)
  - Corcoran Interior Design (CID) (p. 1243)
  - Corcoran Interaction Design (CIXD) (<http://bulletin.gwu.edu/courses/cixd>)
  - Corcoran Photography (CPH) (p. 1249)
  - Corcoran Photojournalism (CPJ) (p. 1252)
  - Corcoran Printmaking (CPR) (p. 1256)
  - Corcoran Sculpture (CSL) (p. 1258)
  - Corcoran Studio Arts (CSA) (<http://bulletin.gwu.edu/courses/csa>)

## BACHELOR OF FINE ARTS WITH A MAJOR IN DIGITAL MEDIA DESIGN

### REQUIREMENTS

**Note:** As of academic year 2017-2018, students may not declare digital media design as their major, but instead may declare a major in graphic design (p. 173) or in interaction design (<http://bulletin.gwu.edu/arts-sciences/corcoran/interaction-design-bfa>).

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

78 credits in program-specific courses, including 54 credits in required courses and 24 credits in elective courses. Students should contact their advisor for a sample program of study.

Code	Title	Credits
<b>Required</b>		
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts	
CAH 1091	Art History II: Historical Perspectives in the Visual Arts	
or AH 1031	Survey of Art and Architecture I	
CDE 1090	Design Fundamentals I	
CDE 1091	Design Fundamentals II	
CDE 4170	Professional Practices for Designers	
CDM 3090	Digital Media Design Studio III	
CDM 3091	Digital Media Design Studio IV	
CDM 4090	Digital Media Design Thesis I	
CDM 4091	Digital Media Design Thesis II	
CFN 1090	First-Year Studio 1: Drawing and Surface	
CFN 1091	First-Year Studio 2: Form and Materials	
CFN 1092	First Year Studio 3: Time and Light	
CFN 1093	First-Year Studio 4: Interaction	
CGD 2050	Typography I	
CGD 2060	Typography II	

#### Electives

6 credits of art and design history from the following:

CAH 3060	History of Design
CAH 3065	Digital Media Culture
CAH 3150	Theories and History of Graphic Design
CAH 4179	Topics in Design History and Theory

12 credits in advanced design electives (CGD or CDM) at the 3000 or 4000 levels.

9 credits in elective courses from any art or design studio area (CFA, FA, CPH, CPJ, CDE, CGD, CDM).

## BACHELOR OF FINE ARTS WITH A MAJOR IN FINE ART

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

78 credits in program-specific courses, including 54 credits in required courses and 24 credits in elective courses. Students should contact their advisor for a sample program of study.

### Recommended Program of Study

Code	Title	Credits
<b>Required</b>		
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts	
CAH 1091	Art History II: Historical Perspectives in the Visual Arts	
CFA 2090	Fine Art Studio I	
CFA 2091	Fine Art Studio II	
CFA 3090	Fine Art Studio III	
CFA 3091	Fine Art Studio IV	
CFA 3120	Fine Art Seminar I	
CFA 3121	Fine Art Seminar II	
CFA 4090	Fine Art Thesis I	
CFA 4091	Fine Art Thesis II	
CFA 4170	Professional Practices for Fine Artists	
CFN 1090	First-Year Studio 1: Drawing and Surface	

CFN 1091	First-Year Studio 2: Form and Materials
CFN 1092	First Year Studio 3: Time and Light
CFN 1093	First-Year Studio 4: Interaction

### Electives

In years one and two, 12 credits in methods studios from the following:

CFA 2122	Medium and Materials Workshop: Time-Based Media
CFA 2123	Medium and Materials Workshop: The Object in its Environment
CFA 2124	Medium and Materials Workshop: Painting Basics for Fine Art
CFA 2125	Medium and Materials Workshop: Printmaking
CFA 2126	Medium and Materials Workshop: Ceramic Practice, Earth to Stone

9 credits in elective courses from any art or design studio area (CFA, FA, CPH, CPJ, CDE, CGD, CDM).

12 credits in advanced major electives (CFA, FA) taken in the 2000-4000 range.

3 credits in art history electives (CAH, AH) taken in the 2000 - 4000 range.

## BACHELOR OF FINE ARTS WITH A MAJOR IN FINE ART PHOTOGRAPHY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

78 credits in program-specific courses, including 54 credits in required courses and 24 credits in elective courses. Students should contact their advisor for a sample program of study.

### Recommended Program of Study

Code	Title	Credits
<b>Required</b>		
AH 2162W	History of Photography	
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts	

CAH 1091	Art History II: Historical Perspectives in the Visual Arts
CFN 1090	First-Year Studio 1: Drawing and Surface
CFN 1091	First-Year Studio 2: Form and Materials
CFN 1092	First Year Studio 3: Time and Light
CFN 1093	First-Year Studio 4: Interaction
CPH 1090	Photography Fundamentals I: Light Studies and Optical Culture
CPH 1091	Photography Fundamentals II: Techniques/Practice
CPH 2090	Photography/Photojournalism Studio I
CPH 2091	Photography Studio II
CPH 2100	Media Lab I
CPH 3050	Media Lab II
CPH 3090	Photography Studio III
CPH 3091	Photography Studio IV
CPH 4090	Photography Thesis I
CPH 4091	Photography Thesis II
CPH 4170	Professional Practices for Photography

### Electives

6 credits of lens-based media seminars at the 3000 or 4000 levels from the following:

AH 4157	Seminar in Photography
CPH 3120	Photography/Photojournalism Seminar I
CPH 4120	Photography/Photojournalism Seminar II
CPH 4251	Making Meaning: Narrative and the Art of the Photography Book

9 credits of studio electives from any art or design studio area (CFA, FA, CPH, CPJ, CDE, CGD, CDM).

9 credits of advanced major CPH or CPJ elective courses at the 3000 or 4000 levels or FA photography course in the 2500 or 3500 ranges.

3 credits in advanced time-based or interactive media electives from the following:

CDM 2280	Interactive Web Design I
----------	--------------------------

CDM 3300	Motion Graphics II: After Effects
CPJ 3300	Speed of Sound
CPJ 4340	Project-Driven Website Design
CPJ 4600	Web Essay
FA 2612	Video: Remixing the Archive
FA 2613	Site and Sound
FA 3601	Special Topics: New Media
FA 3912	The Cinematic in Contemporary Art

## BACHELOR OF FINE ARTS WITH A MAJOR IN GRAPHIC DESIGN

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

78 credits in program-specific courses, including 54 credits in required courses and 24 credits in elective courses. Students should contact their advisor for a sample program of study.

Code	Title	Credits
<b>Required</b>		
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts

## MASTER OF ARTS IN THE FIELD OF DECORATIVE ARTS AND DESIGN HISTORY

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

42 credits, as follows: Thesis option—21 credits in required courses, a 3-credit internship, 6 credits in thesis research, and 12 credits in elective courses; non-thesis option—21 credits in required courses, a 3-credit internship, 18 credits in elective courses, and successful completion of a comprehensive oral and written examination. All students must demonstrate competency in a language other than English, to be assessed by examination. Students must maintain a 3.0 GPA in order to graduate from the program.

Code	Title	Credits
<b>Required</b>		
Foundation courses (9 credits)		
CDAD 6570	Proseminar in Decorative Arts and Design	
CDAD 6571	Survey of Decorative Arts and Design I	
CDAD 6572	Survey of Decorative Arts and Design II	
Core courses (15 credits)		
CDAD 6573	Material Culture Theory	
CDAD 6574	Topics in Medium-Based Decorative Arts and Design	
CDAD 6575	Non-Western Influences in Decorative Arts and Design	

CDAD 6902	Internship
MSTD 6201	Introduction to Museum Collections
or MSTD 6301	Museum Exhibitions: Curatorial Research
or MSTD 6304	Museum Exhibition Development
or MSTD 6305	Visitor Perspectives: Museum Evaluation in Exhibitions
Thesis (6 credits)	
CDAD 6998	Thesis Research
CDAD 6999	Thesis Research

### Electives (12 credits for Thesis option, 18 credits for Non-Thesis option)

Thesis option: Students who choose the thesis option, and take CDAD 6998 and CDAD 6999 for a total of 6 credits, take 4 elective courses (12 credits).

Non-thesis option: Students who choose to take the master's comprehensive exam instead of writing a thesis take 6 elective courses (18 credits).

## MASTER OF ARTS IN THE FIELD OF EXHIBITION DESIGN REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

48 credits. A recommended sequence of courses is outlined below; the sequence will vary for part-time students.

Code	Title	Credits
<b>Required</b>		
CAH 6030	History of Architecture and Interior Design	
CEX 6010	Core Studio: Introduction to Exhibition Planning and Design	
CEX 6020	Core Studio: Advanced Exhibition Design and Planning: Museum Environments	
CEX 6050	Advanced 3D Modeling and Rendering: Vectorworks	
or CID 6050	Interior Design Digital Applications I	
or CID 6060	Interior Design Digital Applications II	

or CID 7060	Interior Design Digital Applications III
CEX 6100	Lighting Exhibitions
CEX 6110	Materials, Finishes and Methods for Exhibition Design
CEX 6120	Core Studio: Advanced Tools and Methods of Visual Representation
CEX 7010	Exhibition Design Studio III: Visual Storytelling
CEX 7100	Museum Management and Operations
CEX 7120	Construction and Detailing for Exhibition Design
CEX 7200	Curatorial Studies for Exhibition Designers
CEX 7220	Conservation and Art Handling: The Art of Exhibition Mount Making
CEX 7800	Exhibition Design Capstone/Thesis Part 1
CEX 7900	Exhibition Design Capstone/Thesis Part 2

#### Electives

Six credits from the following:

Any CAH 6000- or 7000-level course

CAH 6800 Directed Studies: Art History

CAH 6900 Internship: Art History

CEX 6800 Independent Study: Exhibition Design

CEX 6900 Exhibition Design Internship

## MASTER OF ARTS IN THE FIELD OF NEW MEDIA PHOTOJOURNALISM

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Code	Title	Credits
Required		
CPJ 6010	Photojournalism Graduate Seminar I	

CPJ 6020 NMPJ Graduate Studio Seminar II: Topics in New Media Photojournalism

CPJ 6050 Advanced Multimedia Lab I

CPJ 6060 Advanced Multimedia Lab II: Editing and Production

CPJ 6100 Research, Reporting, and Writing: Contemporary Journalism Practice

CPJ 6110 Story and Narrative in Photojournalism

CPJ 7010 Photojournalism Graduate Seminar III: The Medium and the Message

CPJ 7800 Thesis Workshop

CPJ 7900 Photojournalism Graduate Thesis (Directed Study)

#### Electives

9 credits from any graduate-level Corcoran School studio course, internship, or directed study.

6 credits from any graduate-level course in art history, directed study, or internship.

### Recommended program of study

Code	Title	Credits
<b>First semester</b>		
CPJ 6010	Photojournalism Graduate Seminar I	
CPJ 6110	Story and Narrative in Photojournalism	
CPJ 6100	Research, Reporting, and Writing: Contemporary Journalism Practice	
CPJ 6050	Advanced Multimedia Lab I	
<b>Second semester</b>		
CPJ 6020	Photojournalism Graduate Seminar II: Approaches to Photo Editing	
CPJ 6060	Advanced Multimedia Lab II: Editing and Production	
<b>Third semester</b>		
CPJ 7010	Photojournalism Graduate Seminar III: The Medium and the Message	
CPJ 7800	Thesis Workshop	
<b>Fourth semester</b>		

Visit the program website (<https://corcoran.gwu.edu/ma-new-media-photojournalism>) for additional information.

## MINOR IN GRAPHIC DESIGN

### REQUIREMENTS

The following requirements must be met: 18 credits, including 9 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
CDE 1090	Design Fundamentals I	
CDE 1091	Design Fundamentals II	
CGD 2050	Typography I	
FA 1502	Color Photography	
<b>Electives</b>		

Three CGD and/or CDM courses at the 2000 level or above.

## DATA SCIENCE

Developed through a collaborative effort between the Departments of Statistics (<http://statistics.columbian.gwu.edu>), Mathematics (<http://math.columbian.gwu.edu>), Physics (<http://physics.columbian.gwu.edu>), Economics (<http://economics.columbian.gwu.edu>), Geography (<http://geography.columbian.gwu.edu>), and Political Science (<http://politicalscience.columbian.gwu.edu>), the Data Science program offers the master of science in data science and graduate certificate in data science. The program teaches students to understand data and contribute important insights with the goal of changing the way in which people live, work, and communicate. Through a structured curriculum that provides foundational knowledge as well as application skills, students learn how to confront the most complex problems facing government and private industry.

Visit the Department of Data Science website (<https://datasci.columbian.gwu.edu>) for additional information.

## GRADUATE

### Master's program

- Master of Science in the field of data science (p. 179)

## Combined programs

- Dual Bachelor of Science in an approved Columbian College program and Master of Science in the field of data science (p. 178)
- Dual Master of Science in the field of data science and certificate in geographic information systems (<http://bulletin.gwu.edu/arts-sciences/data-science/ms-cert-gis>)

## CERTIFICATES

- Graduate certificate in data science (p. 179)

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### DATS 6101. Introduction to Data Science. 3 Credits.

Basic techniques of data science; algorithms for data mining; and basics of statistical modeling. Concepts, abstractions, and practical techniques. Prerequisites: STAT 2118 or permission of the instructor. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics. (Same as STAT 6289).

#### DATS 6102. Data Warehousing. 3 Credits.

Fundamentals and practical applications of data warehousing, including planning requirements, infrastructure, design, and maintenance. Prerequisites: STAT 2118 or permission of the instructor. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics.

#### DATS 6103. Introduction to Data Mining. 3 Credits.

Concepts, principles, and techniques related to data mining; strengths and limitations of various data mining techniques, including classification, association analysis, and cluster analysis. Restricted to candidates for the MS or graduate certificate in data science; permission of the instructor may be substituted. Prerequisites: DATS 6101 or permission of the instructor.

**DATS 6201. Numerical Linear Algebra and Optimization. 3 Credits.**

Linear and quadratic programming, nonlinear equations, global and unconstrained optimization, and general linearly and nonlinearly constrained optimization as used in data science. Restricted to students in the MS in data science program or with the permission of the instructor. Prerequisites: MATH 2184 or MATH 2185. Recommended background: An undergraduate degree with a strong foundation in science, mathematics, or statistics.

**DATS 6202. Machine Learning I: Algorithm Analysis. 3 Credits.**

This course is a practical approach to fundamentals of algorithm design associated with machine learning. Topics include techniques of statistical and probability theory, combinatorial optimization, and factor graph and graph ensemble as used in machine learning. Restricted to Designed primarily for students in the Data Science program, however other students with appropriate backgrounds can register for the course with permission of the instructor. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics. (Same as PHYS 6620).

**DATS 6203. Machine Learning II: Data Analysis. 3 Credits.**

This course is a practical approach to fundamentals of machine learning with an emphasis on data analysis; i.e., how to extract useful information from different datasets. Topics include linear models, error and noise, training and testing methods, and generalization as used in machine learning. Restricted to Designed primarily for students in the Data Science program, however other students with appropriate backgrounds can register for the course with permission of the instructor. Prerequisite: DATS 6101. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics.

**DATS 6401. Visualization of Complex Data. 3 Credits.**

This course is a practical approach to fundamentals of data visualization specifically for data science professional. It covers all significant topics, including graphics, discrete and continuous variables, clustering and classification. Restricted to candidates for the MS or graduate certificate in data science; permission of the instructor may be substituted. Prerequisites: DATS 6101, DATS 6102, and DATS 6103.

**DATS 6402. High Performance Computing and Parallel Computing. 3 Credits.**

Practical approach to high performance computing specifically for the data science professional. Topics such as parallel architectures and software systems, and parallel programming. Restricted to students in the MS or graduate certificate in data science programs or with permission of the instructor. Prerequisites: DATS 6101, DATS 6102 and DATS 6103.

**DATS 6450. Topics in Data Science. 3 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Restricted to students in the master's and graduate certificate in data science programs. Restricted to students in the master's and graduate certificate programs in data science. Prerequisites: DATS 6101 or permission of the instructor.

**DATS 6499. Data Science Applied Research. 3 Credits.**

Students conduct research projects under the supervision of the instructor. Project topics build on the knowledge and skills acquired during the data science program. Permission of the instructor required prior to enrollment.

**DATS 6501. Data Science Capstone. 3 Credits.**

Practical application of the knowledge and skills acquired during the master's program. Capstone team projects are chosen in consultation with the instructor. In addition to the specific prerequisite courses, completion of five pre-approved data science courses is required prior to enrollment. Restricted to students in their final semester of the MS in data science program. Prerequisites: DATS 6101, DATS 6102 and DATS 6103.

**DATS 6810. Hot Topics in Big Data Analytics. 3 Credits.**

This course will enhance students' big-data analysis and statistical skills, and is aimed at upper-level undergraduate and graduate students from the physical, biological and social sciences. In addition to overviewing standard tools using R, it will expose students to current thinking about real data, analysis and modeling in our 'non-normal' world where distributions are fat-tailed rather than approximately normal, and where processes are bursty rather than approximately Poisson. Its cross-disciplinary approach will also help address the likely challenge facing next-generation researchers and employees, to 'understand' real-world data not only through statistical tests, but also by building generative simulations (e.g. in C) that reproduce the statistical stylized facts of real-world data sets. Other topics to be discussed include networks, machine-learning, as well as web-scraping of data – e.g. from social media sources. Restricted to Graduate and advance undergraduate students with permission of the instructor. Prerequisite: MATH 2184. Recommended background: Competency in single-variable calculus; MATH 2233 would be beneficial but is not strictly necessary. (Same as PHYS 6810).

## DUAL BACHELOR OF SCIENCE IN AN APPROVED COLUMBIAN COLLEGE PROGRAM AND MASTER OF SCIENCE IN THE FIELD OF DATA SCIENCE

The Columbian College of Arts and Sciences and the Department of Data Science work in coordination to offer a dual bachelor of science in an approved Columbian College program and master of science in the field of data science (p. 179) degree program. This dual program allows students

the opportunity to study fundamental ideas that underlie the process of using data and problem solving and to apply the knowledge they gain to real-world scenarios. This is accomplished through elective coursework and partnerships with organizations in a variety of market areas, including health sciences, geography, cybersecurity, and public policy, to name a few. The program allows students to take up to 7.5 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://datasci.columbian.gwu.edu/academics-0/#ms-curriculum>) for additional information.

## MASTER OF SCIENCE IN THE FIELD OF DATA SCIENCE

Data science, and the associated areas referred to as big data and data analytics, is a rapidly emerging technology field fueled by the dramatic growth in the amount of data being produced in most areas of society. The master of science in data science degree program allows students to study fundamental ideas that underlie the process of using data for problem solving and to apply the knowledge they gain to real-world scenarios. This is accomplished through elective coursework and partnerships with organizations in a variety of market areas, including health sciences, geography, cybersecurity, and public policy, to name a few.

Visit the program website (<https://datasci.columbian.gwu.edu>) for additional information.

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits, including 24 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
Core		
DATS 6101	Introduction to Data Science	
DATS 6102	Data Warehousing	
DATS 6103	Introduction to Data Mining	
DATS 6501	Data Science Capstone	

Advanced

DATS 6202	Machine Learning I: Algorithm Analysis
DATS 6203	Machine Learning II: Data Analysis
DATS 6401	Visualization of Complex Data
DATS 6402	High Performance Computing and Parallel Computing

#### Electives

6 credits in elective courses from the following:

DATS 6201	Numerical Linear Algebra and Optimization
DATS 6499	Data Science Applied Research
DATS 6450	Topics in Data Science
GEOG 6304	Geographical Information Systems I
STAT 6210	Data Analysis
STAT 6214	Applied Linear Models
STAT 6242	Modern Regression Analysis

## GRADUATE CERTIFICATE IN DATA SCIENCE

Data Science, and the associated areas referred to as big data and data analytics, is a rapidly emerging technology field fueled by the dramatic growth in the amount of data involved in most areas of society. The 12-credit graduate certificate in data science program allows students to study fundamental ideas that underlie large data systems and document a knowledge base for work in data intensive jobs. Credit earned in the certificate program may be applied to the master of science in the field of data science degree program.

Visit the program website (<https://datasci.columbian.gwu.edu/academics-0/#certificate-curriculum>) for additional information.

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and 3 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
DATS 6101	Introduction to Data Science	
DATS 6102	Data Warehousing	

DATS 6103	Introduction to Data Mining
<b>Elective</b>	
One of the following:	
DATS 6201	Numerical Linear Algebra and Optimization
DATS 6202	Machine Learning I: Algorithm Analysis
MATH 6522	Introduction to Numerical Analysis
STAT 6201	Mathematical Statistics I
STAT 6207	Methods of Statistical Computing I
STAT 6210	Data Analysis
STAT 6214	Applied Linear Models
STAT 6216	Applied Multivariate Analysis II
STAT 6242	Modern Regression Analysis

## EAST ASIAN LANGUAGES AND LITERATURES

### OVERVIEW

The Department of East Asian Languages and Literatures offers instruction in the languages and cultures of China, Japan, and Korea. Courses in the fields of language, literature, and cultural studies introduce students to the long and unique civilizations of the East Asian peoples. The curriculum prepares students for careers in academia, business, diplomacy, government, medicine, and law, among other fields where knowledge of East Asia is critically important.

### UNDERGRADUATE

#### Bachelor's programs

- Bachelor of Arts with a major in Chinese language and literature (p. 180)
- Bachelor of Arts with a major in Japanese language and literature (p. 182)

#### Minors

- Minor in Chinese language and literature (p. 183)
- Minor in Japanese language and literature (p. 183)
- Minor in Korean language and literature (p. 184)

### GRADUATE

#### Master's program

- Master of Arts in the field of Chinese language and culture (p. 184)

## FACULTY

**Professors** J. Chaves, S. Hamano (*Chair*)

**Associate Professor** P. N. Zhang, I. Kim

**Assistant Professors** L. Chen, H. Dong, I.L. Hanami, M.D. Pak, T. Tsujioka (*Teaching*), M. Wei (*Teaching*), A. Yasuda, H. Zhang, I. Ko (*Teaching*)

**Professorial Lecturers** Y. Kang, E. Kim, C. Yang

**Lecturers** W.K. Cavanaugh, Q. Zhou

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Chinese (CHIN) (p. 1169)
- East Asian Languages and Literature (EALL) (p. 1272)
- Japanese (JAPN) (p. 1403)
- Korean (KOR) (p. 1405)
- Vietnamese (VIET) (p. 1581)

## BACHELOR OF ARTS WITH A MAJOR IN CHINESE LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
Introductory language sequence (16 credits or the equivalent):		
CHIN 1001 & CHIN 1002	Beginning Chinese I and Beginning Chinese II	
or CHIN 1011	Intensive Beginning Chinese	

CHIN 2003	Intermediate Chinese I
CHIN 2004	Intermediate Chinese II
Courses (24 credits)	
CHIN 3105	Intermediate Chinese III
CHIN 3106	Intermediate Chinese IV
CHIN 3109	Introduction to Classical Chinese
CHIN 3110	Introduction to Classical Chinese
CHIN 3111	Chinese Literature in Translation
CHIN 3112	Chinese Literature in Translation
CHIN 4107	Readings in Modern Chinese I
or CHIN 4108	Readings in Modern Chinese
CHIN 4121W	Advanced Conversation and Composition I
or CHIN 4122W	Advanced Conversation and Composition II

### Electives

Three courses (9 credits) from the following:

CHIN 3123	Introduction to Chinese Linguistics
CHIN 3124	Introduction to Chinese Linguistics
CHIN 3136W	Chinese Women in Myth, Literature, and Film
or WGSS 3136	Chinese Women in Myth, Literature, and Film
or WGSS 3136W	Chinese Women in Myth, Literature, and Film
CHIN 3163	Taiwanese Literature and Film
CHIN 3171	Poetry of the Tang and Song Periods
CHIN 3172	Poetry of the Tang and Song Periods
CHIN 3173	Chinese Drama and Theatre
CHIN 4108	Readings in Modern Chinese
CHIN 4119W	Business Chinese
CHIN 4122W	Advanced Conversation and Composition II
CHIN 4179	Twentieth-Century Chinese Literature
CHIN 4180W	Twentieth-Century Chinese Literature II
CHIN 4185	Directed Reading I
CHIN 4186W	Directed Reading II

CHIN 4198      Proseminar: Readings for the Major in Chinese Language and Literature

CHIN 4199      Proseminar: Readings for the Major in Chinese Language and Literature

Two courses (6 credits) from the following:

AH 2190	East Asian Art
ANTH 3705	Anthropology of East Asia
EALL 3811	Confucian Literature in East Asia
or REL 2811	Confucian Literature in East Asia
EALL 3814	Religion and Philosophy in East Asia
or EALL 3814W	Religion and Philosophy in East Asia
or REL 2814	Religion and Philosophy in East Asia
ECON 2169	Introduction to the Economy of China
HIST 3610	China to 1800
HIST 3611	History of Modern China
HIST 3614	Writing Modern Chinese History
or HIST 3614W	Writing Modern Chinese History
HIST 3615	History of Chinese Communism
IAFF 2091	East Asia-Past and Present
JAPN 3111	Japanese Literature in Translation
JAPN 3112	Japanese Literature in Translation
JAPN 3162	Japanese Culture Through Film
or ANTH 3709	Japanese Culture Through Film
KOR 3111	Korean Literature in Translation
KOR 3112	Korean Literature in Translation
PSC 2370	Comparative Politics of China and Northeast Asia
PSC 2371	Politics and Foreign Policy of China
PSC 2475	International Relations of East Asia
REL 2601	Buddhism
REL 3831	Daoism in East Asia
or REL 3831W	Daoism in East Asia

or EALL 3831      Daoism in East Asia

or EALL 3831W      Daoism in East Asia

## SPECIAL HONORS

East Asian Languages and Literatures faculty recommend students for EALL departmental special honors based on the following criteria:

In addition to the general requirements stated under University Regulations, candidates for special honors must have attained by the end of the fall semester of the senior year:

- A minimum 3.7 grade-point average in courses in the major.
- A minimum 3.4 overall grade-point average.
- A minimum grade of C- in all courses taken at GW.
- Qualified students may be invited, by the beginning of the fall semester of the senior year, to write an honors thesis, under the supervision of a faculty member, through CHIN 4199 Proseminar. Only if a committee of three faculty members approves the completed project are special honors recommended; the research project must be graded A or A-.

## BACHELOR OF ARTS WITH A MAJOR IN JAPANESE LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
Introductory language sequence (16 credits or the equivalent)		
JAPN 1001 & JAPN 1002	Beginning Japanese I and Beginning Japanese II	
or JAPN 1005	Intensive Beginning Japanese	
JAPN 2003 & JAPN 2004	Intermediate Japanese I and Intermediate Japanese II	
or JAPN 2006	Intensive Intermediate Japanese	
JAPN 2004	Intermediate Japanese II	
Required courses (15 credits)		

JAPN 3105      Intermediate Japanese III

JAPN 3106      Intermediate Japanese IV

JAPN 3111      Japanese Literature in Translation

JAPN 3112      Japanese Literature in Translation

JAPN 4109      Introduction to Bungo, Literary  
Japanese

#### Electives

Six courses (18 credits) of Japanese (JAPN) courses numbered 3000 or above.

Two courses (6 credits) from the following:

AH 2190      East Asian Art

ANTH 3705      Anthropology of East Asia

CHIN 3111      Chinese Literature in Translation

CHIN 3112      Chinese Literature in Translation

CHIN 3136W      Chinese Women in Myth, Literature,  
and Film

or WGSS 3136      Chinese Women in Myth, Literature, and Film

or WGSS 3136W      Chinese Women in Myth, Literature, and Film

EALL 3811      Confucian Literature in East Asia

or REL 2811      Confucian Literature in East Asia

EALL 3814      Religion and Philosophy in East Asia

or REL 2814      Religion and Philosophy in East Asia

EALL 3831      Daoism in East Asia

or REL 3831      Daoism in East Asia

or REL 3831W      Daoism in East Asia

ECON 2170      Introduction to the Economy of Japan

HIST 3610      China to 1800

HIST 3611      History of Modern China

HIST 3621      History of Modern Japan

IAFF 2091      East Asia-Past and Present

KOR 3111      Korean Literature in Translation

KOR 3112      Korean Literature in Translation

PSC 2370      Comparative Politics of China and  
Northeast Asia

PSC 2374	Politics and Foreign Policy of Japan
PSC 2475	International Relations of East Asia
REL 2601	Buddhism

## SPECIAL HONORS

EALL faculty will recommend students for EALL departmental special honors based on the following criteria:

In addition to the general requirements stated under University Regulations, candidates for special honors must have attained by the end of the fall semester of the senior year:

- a 3.7 grade-point average in the Japanese major
- at least a 3.4 average overall
- a minimum of C- in every course that they have taken at GW

The Japanese program selects two students at the most based on the students' overall performance in the program.

## MINOR IN CHINESE LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits and the introductory language sequence.

Code	Title	Credits
<b>Introductory language sequence (16 credits or the equivalent):</b>		
CHIN 1001 & CHIN 1002	Beginning Chinese I and Beginning Chinese II	
or CHIN 1011	Intensive Beginning Chinese	
CHIN 2003	Intermediate Chinese I	
CHIN 2004	Intermediate Chinese II	

Code	Title	Credits
<b>Required courses (6 credits):</b>		
CHIN 3105	Intermediate Chinese III	
CHIN 3106	Intermediate Chinese IV	
<b>One course (3 credits) from the following:</b>		
CHIN 4107	Readings in Modern Chinese I	
CHIN 4108	Readings in Modern Chinese	
CHIN 4119W	Business Chinese	

CHIN 4121W	Advanced Conversation and Composition I
CHIN 4122W	Advanced Conversation and Composition II
<b>Three courses (9 credits) from the following:</b>	
CHIN 3109	Introduction to Classical Chinese
CHIN 3110	Introduction to Classical Chinese
CHIN 3111	Chinese Literature in Translation
CHIN 3112	Chinese Literature in Translation
CHIN 3123	Introduction to Chinese Linguistics
CHIN 3124	Introduction to Chinese Linguistics
CHIN 3136W	Chinese Women in Myth, Literature, and Film
or WSTU 3136W	Chinese Women in Myth, Literature, and Film
CHIN 3163	Taiwanese Literature and Film
CHIN 3171	Poetry of the Tang and Song Periods
CHIN 3172	Poetry of the Tang and Song Periods
CHIN 3173	Chinese Drama and Theatre
CHIN 4179	Twentieth-Century Chinese Literature
CHIN 4180W	Twentieth-Century Chinese Literature II

Visit the program website (<https://eall.columbian.gwu.edu/major-and-minor-chinese>) for additional information.

## MINOR IN JAPANESE LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits in required courses for the minor and the introductory language sequence.

Code	Title	Credits
<b>Required</b>		
Introductory language sequence (16 credits or the equivalent)		
JAPN 1001 & JAPN 1002	Beginning Japanese I and Beginning Japanese II	
or JAPN 1005	Intensive Beginning Japanese	

JAPN 2003 & JAPN 2004	Intermediate Japanese I and Intermediate Japanese II
or JAPN 2006	Intensive Intermediate Japanese

Minor courses

Six courses (18 credits) of JAPN courses selected from JAPN 3105 through JAPN 4122W; at least one of these must be selected from the following:

JAPN 4107	Readings in Modern Japanese I
-----------	-------------------------------

JAPN 4108	Readings in Modern Japanese II
-----------	--------------------------------

JAPN 4109	Introduction to Bungo, Literary Japanese
-----------	--

JAPN 4110	Readings in Classical Japanese
-----------	--------------------------------

JAPN 4121W	Advanced Conversation and Composition I
------------	---

JAPN 4122W	Advanced Conversation and Composition II
------------	--

## MINOR IN KOREAN LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits in required courses for the minor and the introductory language sequence.

Code	Title	Credits
------	-------	---------

#### Required

Prerequisite language sequence

KOR 1001	Beginning Korean I
----------	--------------------

KOR 1002	Beginning Korean II
----------	---------------------

KOR 2003	Intermediate Korean I
----------	-----------------------

KOR 2004	Intermediate Korean II
----------	------------------------

Or equivalent

Code	Title	Credits
------	-------	---------

Minor courses

KOR 3105	Intermediate Korean III
----------	-------------------------

KOR 3106	Intermediate Korean IV
----------	------------------------

12 additional credits in KOR courses at the 3000-4000 level approved by the department.

## MASTER OF ARTS IN THE FIELD OF CHINESE LANGUAGE AND CULTURE

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits for the thesis option, 33 credits for the non-thesis option.

Code	Title	Credits
------	-------	---------

#### Required

##### Language Proficiency

Students whose Chinese language skills are determined by examination to be below the advanced level must take CHIN 4108: Readings in Modern Chinese. Students whose skills are determined to be at the required level take an alternative 3-credit course, which must be pre-approved.

##### Major Field Courses

A minimum of 18 credits from the following:

CHIN 6109	Introduction to Classical Chinese
-----------	-----------------------------------

CHIN 6110	Introduction to Classical Chinese <sup>2</sup>
-----------	--

CHIN 6111	Chinese Literature in Translation
-----------	-----------------------------------

CHIN 6112	Chinese Literature in Translation
-----------	-----------------------------------

CHIN 6123	Structure of Chinese
-----------	----------------------

CHIN 6125	History of the Chinese Language
-----------	---------------------------------

CHIN 6126	Chinese Phonology
-----------	-------------------

CHIN 6128	Chinese Semantics
-----------	-------------------

CHIN 6163	Taiwanese Literature and Film
-----------	-------------------------------

CHIN 6171	Poetry of the Tang and Song Periods
-----------	-------------------------------------

CHIN 6172	Poetry of the Tang and Song Periods
-----------	-------------------------------------

CHIN 6173	Traditional Chinese Theatre and Drama
-----------	---------------------------------------

CHIN 6179	Twentieth-Century Chinese Literature I
-----------	--

CHIN 6180	Twentieth-Century Chinese Literature II
-----------	---

CHIN 6199	Graduate Seminar
-----------	------------------

CHIN 6201	Second Language Acquisition of Mandarin Chinese
CHIN 6210	Introduction to Teaching Chinese as a Foreign Language
CHIN 6310	Practicum in Chinese Language Instruction
<b>Electives</b>	
A minimum of 6 credits from the following:	
CHIN 6550	Independent Study for Chinese Language and Culture (Thesis Option) *
CHIN 6841	Religion in Modern China
CPED 6557	Second Language Acquisition
CPED 6627	Teaching Second Language Reading and Writing
EALL 6811	Confucian Literature in East Asia
EALL 6831	Daoism in East Asia
EALL 6832	Myth, Ritual, and Popular Religion in China
EALL 6881	Women, Gender, and Religion in China
HIST 6610	Readings Seminar: Late Imperial China (Thesis Option (3 credits)) *

#### Thesis option

For students pursuing the thesis option a total of 3 credits from the following:

CHIN 6998	Thesis Research
CHIN 6999	Thesis Research

\*Or an alternative pre-approved course.

\*\*Students must submit a research proposal before enrolling in CHIN 6550.

Visit the program website (<https://eall.columbian.gwu.edu/master-arts-chinese-language-and-culture>) for additional information.

## ECONOMICS

The study of economics investigates the consequences of scarcity, which forces people, organizations, and governments to choose among competing objectives. Economics looks at these choices and how they affect the production of goods and services, market prices, national output, unemployment, inflation, economic growth, and the use and distribution of resources within and across nations. Part of the social

and behavioral sciences in the Columbian College of Arts and Sciences, the economics program exposes students to macroeconomics, microeconomics, labor economics, the economics of industry, international finance, international trade and development, money and banking, the economics of government and public policy, and econometrics.

Visit the Department of Economics website (<https://economics.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in economics (p. 193)
- Bachelor of Science with a major in economics (p. 194)

### Combined programs (p. 195)

- Dual Bachelor of Science and Master of Arts in the field of economics (p. 195)
- Dual Bachelor of Arts or Bachelor of Science with a major in economics and Master of Public Policy (p. 195)

### Minor

- Minor in economics (p. 195)

## GRADUATE

### Master's program

- Master of Arts in the field of applied economics (p. 196)

### Doctoral program

- Doctor of Philosophy in the field of economics (p. 197)

### Combined programs

- Dual Master of Arts in the field of applied economics and graduate certificate in accountancy (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-accountancy>)
- Dual Master of Arts in the field of applied economics and graduate certificate in budget and public finance (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-pf>)
- Dual Master of Arts in the field of applied economics and graduate certificate in business analytics (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-business-analytics>)
- Dual Master of Arts in the field of applied economics and graduate certificate in data science (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-ds>)
- Dual Master of Arts in the field of applied economics and graduate certificate in digital marketing and communications (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-digital-marketing-communications>)

- Dual Master of Arts in the field of applied economics and graduate certificate in environmental resource planning (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-erp>)
- Dual Master of Arts in the field of applied economics and graduate certificate in financial management (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-financial-management>)
- Dual Master of Arts in the field of applied economics and graduate certificate in geographic information systems (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-gis>)
- Dual Master of Arts in the field of applied economics and graduate certificate in sports management (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-sports-management>)
- Dual Master of Arts in the field of applied economics and graduate certificate in walkable urban real estate development (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics-walkable-urban-real-estate-development>)

## FACULTY

**Professors** M.D. Bradley, M.X. Chen, B.R. Chiswick, J.J. Cordes, V. Fon, J.E. Foster, S. Joshi (*Chair*), F.L. Joutz, G.L. Kaminsky, P. Labadie, A.S. Malik, M.O. Moore, D.O. Parsons, J. Pelzman, R.F. Philips, R.M. Samaniego, J.C. Shambaugh, S.C. Smith, N. Vonortas, A.M. Yezer

**Associate Professors** P. E. Carrillo, I.R. Foster, R.C. Jedwab, W.P. Mullin, T. Sinclair, S.M. Suranovic, C. Wei, J. Weiner

**Assistant Professors** S. Hamilton, E.W.K. Hovander, D. Mackay, B.A. Stuart, P. Tien, O. Timoshenko, B.D. Williams, T. Williams

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental Prerequisite: ECON 1011 Principles of Economics I-ECON 1012 Principles of Economics II is prerequisite to all other undergraduate courses offered by the Department of Economics.

Courses at the 8000 level are specifically designed for economics graduate students and typically require

knowledge of calculus and one or more of the core theory and econometrics courses. Less-well-prepared graduate students in other disciplines may register for 6000-level courses after having completed ECON 6217 Survey of Economics I-ECON 6218 Survey of Economics II, or ECON 6218 Survey of Economics II and ECON 6219 Managerial Economics, or ECON 2101 Intermediate Microeconomic Theory and ECON 2102 Intermediate Macroeconomic Theory, or ECON 2103 Intermediate Microeconomic Theory: A Mathematical Approach and ECON 2104 Intermediate Macroeconomic Theory: A Mathematical Approach, unless the course description indicates that these prerequisites have been waived. Intermediate-level micro and macro courses taken elsewhere usually satisfy this requirement, but introductory or first-year courses do not. Graduate students in economics can take 6000-level courses only with permission of their advisor.

### ECON 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

### ECON 1001. Principles of Mathematics for Economics. 3 Credits.

Prepares students for college instruction in principles of microeconomic and macroeconomic theory, as well as instruction in business, social science, and basic science courses that do not require knowledge of calculus. Restricted to students who have successfully completed high school algebra I and basic geometry prior to matriculation and who have taken the Assessment and LEarning in Knowledge Spaces (ALEKS) placement examination at GW; No minimum ALEKS score is required for this course.

### ECON 1011. Principles of Economics I. 3 Credits.

Major economic principles, institutions, and problems in contemporary life. Microeconomics—supply and demand, the price system and how it works, competitive and monopolistic markets.

### ECON 1012. Principles of Economics II. 3 Credits.

Continuation of ECON 1011. Major economic principles, institutions, and problems in contemporary life. Topics in macroeconomics, including national income concepts, unemployment and inflation, institutions of monetary control. Prerequisite: ECON 1011 OR HONR 2043.

### ECON 2101. Intermediate Microeconomic Theory. 3 Credits.

Analysis of household economic behavior, including derivation of demand functions. Analysis of firm behavior, including derivation of supply frameworks. Demand and supply interaction under various market structures and in factor markets. Prerequisites: ECON 1011 and ECON 1012; and MATH 1221 or MATH 1231 or MATH 1252. Same as ECON 2103.

**ECON 2102. Intermediate Macroeconomic Theory. 3 Credits.**

Investigation of the determinants of national income, inflation, unemployment, and interest rates. Alternative business cycle theories, with emphasis on the role of imperfect information, uncertainty, and expectations. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252.

**ECON 2103. Intermediate Microeconomic Theory: A Mathematical Approach. 3 Credits.**

Analysis of household economic behavior, including derivation of demand functions, and of firm behavior, including derivation of supply frameworks; demand and supply interaction under various market structures and in factor markets; reliance on constrained and unconstrained optimization techniques when analyzing household and firm behavior. Corequisite: MATH 1232. Recommended for students pursuing the BS degree in economics. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044; MATH 1221 or MATH 1231 or MATH 1252.

**ECON 2104. Intermediate Macroeconomic Theory: A Mathematical Approach. 3 Credits.**

Development and application of mathematical models of aggregate economic behavior with a focus on the intertemporal choices made by households, firms, and governments. Corequisite: MATH 1232. Recommended for students pursuing the BS degree in economics. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252.

**ECON 2121. Financial Economics. 3 Credits.**

Economic analysis of key financial institutions, markets, and variables. Investigation of the performance of asset markets and the roles of money, credit, interest rates, and exchange rates. Examination of private sector institutions like equity markets and the banking system and the roles of regulators like the Federal Reserve. Credit cannot be earned for both ECON 2121 and ECON/FINA 3301. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044.

**ECON 2122. Monetary Theory and Policy. 3 Credits.**

Analysis of classic and modern monetary theories and their application to current economic conditions. The links between theory and policy. The altered role of money over time; the new money technology. Prerequisites: ECON 1011 and ECON 1012.

**ECON 2123. Introduction to Econometrics. 3 Credits.**

Joint offering of the Economics and Statistics Departments. Construction and testing of economic models: regression theory, parameter estimation, and statistical techniques applicable to economic models. Prerequisites: MATH 1221 or MATH 1231 or MATH 1252; STAT 1051 or STAT 1053 or STAT 1111. (Same as STAT 2123).

**ECON 2136. Environmental and Natural Resource Economics. 3 Credits.**

Analysis of a variety of environmental and natural resource problems. The economic causes of these problems, their consequences, and the relative merits of alternative policies for dealing with them. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044.

**ECON 2148. Survey of Health Economics. 3 Credits.**

Economic analysis of the determinants of demand, supply, output, and distribution in the health care sector, with special emphasis on current policy issues of access, quality, and cost. Credit cannot be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 1011 and ECON 1012.

**ECON 2151. Economic Development. 3 Credits.**

Theories and empirical studies of the economic problems of developing countries. Prerequisites: ECON 1011 or HONR 2043 and ECON 1012 or HONR 2044.

**ECON 2151W. Economic Development. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ECON 1011 and ECON 1012.

**ECON 2157. Urban and Regional Economics. 3 Credits.**

Analysis of the determinants of urban growth and development; firm location; the functioning of urban land and housing markets. Prerequisites: ECON 1011 and ECON 1012.

**ECON 2158. Industrial Organization. 3 Credits.**

Analysis of market structure, conduct, and performance of firms in a market economy, with emphasis on case studies of U.S. industries. Prerequisite: ECON 1011- ECON 1012.

**ECON 2159. Government Regulation of the Economy. 3 Credits.**

Economic analysis of antitrust and regulation in the American economy. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103 or ECON 2158.

**ECON 2160. Surv:Finance&Engineering Econ. 3 Credits.**

**ECON 2167. Economics of Crime. 3 Credits.**

Analysis of crime, both empirical and theoretical, that examines the links between law and economics, the economics of criminal participation, and the economics of law enforcement. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

**ECON 2169. Introduction to the Economy of China. 3 Credits.**

Background, organization, and operation of the economy. Appraisal of performance and analysis of problems of development. Prerequisites: ECON 1011 or HONR 2043 and ECON 1012 or HONR 2044.

**ECON 2170. Introduction to the Economy of Japan. 3 Credits.**

Analysis of the structure and growth of the Japanese economy. Prerequisites: ECON 1011 and ECON 1012.

**ECON 2180. Survey of International Economics. 3 Credits.**

Basic concepts of international trade and international finance, with emphasis on policy issues. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

**ECON 2181. International Trade Theory and Policy. 3 Credits.**

The basis for international trade and the effect of trade on consumers, producers, and workers; causes and effects of the international movement of factors including foreign direct investment, outsourcing, and migration; and the impacts of trade policies and trade agreements. Credit may not be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

**ECON 2182. International Macroeconomic Theory and Policy. 3 Credits.**

Topics include the balance of payments, the determination of exchange rates and prices in open economies, the interaction of the exchange rate and domestic economic activity, international financial markets, and exchange rate and financial crises. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044.

**ECON 2185. Economic History and Problems of Latin America. 3 Credits.**

Analysis of present structures and problems of Latin American economies. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044.

**ECON 2195W. Special Topics. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ECON 2198. Special Topics in Economics - Regional. 3 Credits.**

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011 and ECON 1012.

**ECON 2199. Special Topics in Economics. 3 Credits.**

Topics vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

**ECON 3098. Variable Topics - Regional Economics. 1-9 Credits.**

.

**ECON 3105. Economic Forecasting. 3 Credits.**

Theory and empirical analyses of economic trends and fluctuations; use of economic indicators and simple econometric models. Prerequisites: ECON 1011 and ECON 1012; and ECON 2102 or ECON 2104; and ECON 2123.

**ECON 3142. Labor Economics. 3 Credits.**

Analysis of labor supply and demand; measurement and theory of unemployment; occupational choice; wage differentials; labor market issues and policies. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044; and ECON 2101 or ECON 2103.

**ECON 3148. Health Economics. 3 Credits.**

Analysis of economic theories and applications to the demand for and supply of health care. Examination of the role of government in health care, public health, and unhealthy behavior (e.g., smoking). Credit cannot be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 2101 or ECON 2103.

**ECON 3161. Public Finance: Expenditure Programs. 3 Credits.**

Economic analysis of government spending and social regulation programs. Topics include public goods, externalities, income transfer and social insurance programs, and benefit-cost analysis of government programs. Prerequisite: ECON 1011- ECON 1012 and ECON 2101 or ECON 2103.

**ECON 3162. Public Finance: Taxation. 3 Credits.**

Economic analysis of taxes. Topics include individual and corporate income taxes, payroll taxes, sales and excise taxes, property and wealth taxes, design of tax systems, and effects of taxation on labor and capital markets. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044; and ECON 2101 or ECON 2103.

**ECON 3165. Economics of Human Resources. 3 Credits.**

Economic analysis of education and training, labor market discrimination, marriage and the family, and social security. Prerequisites: ECON 1011 and ECON 1012; and ECON 2101 or ECON 2103.

**ECON 3181. International Trade Theory. 3 Credits.**

Rigorous examination of theories of international trade that explain why countries trade and their gains from trade. Theories include comparative advantage, the factor-proportions theory of trade, and recent theoretical developments. The course also deals with the theory of trade policies, such as tariffs and quotas. Credit cannot be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103; and MATH 1221, MATH 1231, or MATH 1252.

**ECON 3190. Law and Economics. 3 Credits.**

An introduction to the economic analysis of legal systems. How laws alter behavior and how laws might be designed to satisfy efficiency and fairness criteria. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103.

**ECON 3191. Game Theory. 3 Credits.**

Introduction to game theory, covering concepts such as Nash equilibrium, evolutionary games, backward induction and subgame perfection, Bayesian-Nash games of imperfect information, adverse selection, and moral hazard. Prerequisites: ECON 1011 and ECON 1012; and ECON 2101 or ECON 2103.

**ECON 3198. Advanced Topics in Economics - Regional. 3 Credits.**

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON (2104) or ECON 2123.

**ECON 3199. Advanced Topics in Economics. 3 Credits.**

Topics vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON (2104) or ECON 2123.

**ECON 4198W. Proseminar in Economics. 3 Credits.**

Preparation and presentation of a research paper in any field of economics agreed upon by the student and instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to seniors in the economics program. Prerequisites: ECON 2101 or ECON 2103; and ECON 2102 or ECON 2104. Recommended background: Prior or concurrent enrollment in ECON 2123 or STAT 2112 or STAT 2118.

**ECON 4199. Independent Research - Economics. 3 Credits.**

Independent research. Prerequisites: ECON 1011 and ECON 1012; and completion of 12 credits of upper-division economics courses, including ECON 2101 or ECON 2103 and ECON 2102 or ECON 2104, with a minimum grade-point average of 3.4; and approval of an independent research project by a faculty member of the economics department.

**ECON 6217. Survey of Economics I. 3 Credits.**

Intermediate-level microeconomic theory for graduate students in fields other than economics.

**ECON 6218. Survey of Economics II. 3 Credits.**

Continuation of ECON 6217. Intermediate-level macroeconomic theory for graduate students in fields other than economics. (ECON 6217 and ECON 6218—).

**ECON 6219. Managerial Economics. 3 Credits.**

Intermediate microeconomic theory, with emphasis on production and costs, market structure and pricing, risk analysis, and investment theory and capital budgeting. Credit can be earned for only one of ECON 6217 or ECON 6219.

**ECON 6237. Economics of the Environment and Natural Resources. 3 Credits.**

Analysis of public policy problems relating to the environment and natural resources development and management. Prerequisite: ECON 6217.

**ECON 6239. Economics of Defense. 3 Credits.**

Economic analysis applied to national security planning and objectives. Analysis of defense establishment problems, including manpower, the defense industry base, procurement policy.

**ECON 6248. Health Economics. 3 Credits.**

Demand for medical care; organization of the health care delivery industry; policy issues on regulation, efficiency, and allocation of health care services.

**ECON 6249. Industrial Org-TComm Industry. 3 Credits.**

**ECON 6250. Survey of Economic Development. 3 Credits.**

An introduction to economic problems faced by less developed countries. Emphasis on applications to policymaking and evaluation. Prerequisite: ECON 6217 or ECON 6280 or equivalent.

**ECON 6255. Economics of Technological Change. 3 Credits.**

Economics of research and development; innovation and growth; the role of government in the development and use of new technology.

**ECON 6269. Economy of China I. 3 Credits.**

Analysis of organization, operation, policies, and problems. Development of the economy since 1949.

**ECON 6270. Economy of China II. 3 Credits.**

Continuation of ECON 6269. Examination of critical problems of development. Prerequisites: ECON 6269 or permission of the instructor.

**ECON 6271. Economy of Japan. 3 Credits.**

Analysis of Japanese economic institutions and their contribution to Japan's development.

**ECON 6280. Survey of International Economics. 3 Credits.**

Introductory international trade and finance, primarily for students in the Elliott School. Topics include the economic effects of trade liberalization and protection, exchange rate determination, and macroeconomic policies in an open economy. Prerequisite: ECON 1011 and ECON 1012.

**ECON 6283. Survey of International Trade Theory and Policy. 3 Credits.**

For graduate students in fields other than economics. Survey of international economics and policy; application of comparative advantage and other arguments for trade; impact of trade on a domestic economy; new arguments for protectionism; and regional trading blocs.

**ECON 6284. Survey of International Macroeconomics and Finance Theory and Policy. 3 Credits.**

For graduate students in fields other than economics. Open economy macroeconomics; international finance; balance of payments accounting; exchange markets; alternative models of balance of payments determination and adjustment; behavior of flexible exchange rate systems.

**ECON 6285. Economic Development of Latin America. 3 Credits.**

Diversity of structures of Latin American economies; import substituting industrialization; inflation; problems of underemployment and income distribution.

**ECON 6286. Economic Development of Latin America. 3 Credits.**

Continuation of ECON 6285. Structure of trade; protection, exports, and economic development; regional and global economic integration; foreign investment, multinational enterprise, and technology transfer.

**ECON 6290. Principles of Demography. 3 Credits.**

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as GEOG 6290/ SOC 6290/ STAT 6290.

**ECON 6291. Methods of Demographic Analysis. 3 Credits.**

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as GEOG 6291/ SOC 6291/ STAT 6291.

**ECON 6292. Topics in International Trade. 3 Credits.**

Topics on international trade issues and policy. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

**ECON 6293. Topics in International Finance. 3 Credits.**

Topics on macroeconomic issues and policies in open economies, including exchange rate regimes, determinants of international capital flows, currency crises, financial contagion, current account sustainability and sovereign crises, fiscal problems, and macro-policies in emerging markets and mature economies.

**ECON 6294. Topics in Economic Development. 3 Credits.**

Topics on economic development issues and policy vary depending on faculty availability and interest. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

**ECON 6295. Special Topics. 3 Credits.**

Topics vary, depending on current issues of interest and faculty availability.

**ECON 6298. Reading and Research. 3 Credits.**

Independent research. Restricted to master's candidates.

**ECON 6300. Mathematical Methods for Economics. 3 Credits.**

Instruction in the mathematical background required to appreciate and understand the use of mathematics in economic analysis, including multivariable calculus, integral calculus, and linear algebra. Emphasis on techniques for solving systems of equations, unconstrained and constrained optimization, comparative static analysis, difference equations, and analysis of dynamic models and their application to a range of economic problems. Restricted to students in the MA in applied economics program.

**ECON 6301. Applied Microeconomic Theory. 3 Credits.**

The principal areas of microeconomic theory: consumer demand, decision making under uncertainty, production and costs, game theory, and product markets; both competitive and imperfectly competitive, factor markets, and market failures. Emphasis on the application of theory to microeconomic issues of interest to the private and public sectors, such as product pricing, market entry and deterrence, competition policy, tax policy, and environmental regulation. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6300.

**ECON 6305. Applied Macroeconomic Theory. 3 Credits.**

Development of an integrated framework for analyzing the determination of macroeconomic variables such as total production, unemployment, interest rates and inflation; interpreting macroeconomic data and macroeconomic policy. A key objective of the course is to provide a link between economic theory and current economic policy. Topics for application may include recent developments in monetary policy and causes of hyperinflation and the national debt. The level of mathematical rigor is above that in a typical intermediate undergraduate macroeconomics course, but below that in a first-year PhD course. ECON 6300 may be taken as a corequisite. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6300.

**ECON 6321. Applied Managerial Economics. 3 Credits.**

The application of economic principles and methodologies to key management decisions within organizations. Prerequisite: ECON 6301.

**ECON 6323. Applied Behavioral Economics. 3 Credits.**

The application of economic principles and methodologies to key management decisions within organizations. Prerequisites: Econ 6300 or ECON 6305.

**ECON 6325. Applied Game Theory. 3 Credits.**

Equilibrium concepts based on the Nash Equilibrium; application of these concepts to oligopolistic markets, long-term relationships in repeated games, auctions, reputation formation, and others. Students are expected to have completed a course in intermediate microeconomics and at least one semester of calculus at the undergraduate level before enrolling in this course. Prerequisites: Econ 6300; and Econ 6301 or ECON 6305.

**ECON 6330. Applied Macroeconomics and Money. 3 Credits.**

Motivations for employing the modern, expanded tools of a central bank; historical and present limitations. Prior completion of a third 6300-level economics course in addition to the stated prerequisites is required. Prerequisites: ECON 6301 and ECON 6305.

**ECON 6335. Applied Financial Derivatives. 3 Credits.**

Introduction to the theoretical and practical aspects of financial and derivative markets; application of quantitative and statistical approaches to a variety of problems. Prerequisites: ECON 6300 and ECON 6374.

**ECON 6340. Applied Labor Economics and Public Policy. 3 Credits.**

Topics in labor economics, including unemployment, unions, immigration, the minimum wage, pensions, worker mobility, and inequality. Prerequisite: ECON 6301.

**ECON 6344. Applied Industrial Organization. 3 Credits.**

The behavior of firms and implications of market structure and resource allocation; market participants, the role of transaction costs, product differentiation, imperfect knowledge, and market contestability. Public policy related to monopoly regulation and antitrust law. Use of standard microeconomic empirical and theoretical tools, including an introduction to game theory. Prerequisite: ECON 6301. Recommended background: Completion of a course in intermediate microeconomics and one semester of undergraduate calculus.

**ECON 6350. Applied Development Economics. 3 Credits.**

The complex causes of underdevelopment and contemporary ideas about how to make development succeed; theory underlying development economics, as well as the analytical tools used in development research. Students are expected to have a working understanding of the concepts of calculus. Prerequisites: ECON 6301, ECON 6305 and ECON 6375.

**ECON 6374. Probability and Statistics for Economics. 3 Credits.**

Focus on specific probability and statistical inference skills required for applied economic problems. Topics include laws of probability, limit laws, random events, independence and dependence, expectations, Bayes theorem, estimation, and hypothesis testing. Discrete and continuous random variables, density, and distribution functions. Various distributional models for observational data. Data manipulation and analysis using both SAS and Stata software. Emphasis on general methods applicable to econometrics. Restricted to students in the MA in applied economics program.

**ECON 6375. Applied Econometrics. 3 Credits.**

An introduction to the skills needed to critically evaluate and conduct econometric analysis. Multiple regression analysis; theoretical underpinnings of the ordinary least squares estimator; interpreting regression results and how to address common issues that arise in regression analysis; econometric methods to estimate and test economic models and to address causal questions using observational data. Students build proficiency in using statistical software to perform basic econometric techniques studied in the course. Restricted to students in the MA in applied economics program. Prerequisites: ECON 6300 and ECON 6374.

**ECON 6376. Time Series Analysis. 3 Credits.**

The objective of this course is to give students the tools required to understand, implement, and interpret common models used in time series econometrics. Emphasis is placed on intuition and application. The course both helps students understand how to use time series data to test hypotheses and serves as an introduction to the ideas and techniques of forecasting. Topics covered are: time series properties of data (unit roots, near unit roots, stationarity), difference equations, stationary models (autoregressive and moving-average models), models with trends (deterministic and stochastic), multi-equation models (reduced-form and structural VARs), cointegration and error-correction models, models with time-varying coefficients, forecasting models, and basic forecast evaluation. Students will become proficient with performing basic time series analysis and forecasting using time series statistical software. Restricted to students in the MA in applied economics program. Prerequisites: ECON 6374 and ECON 6305.

**ECON 6997. Independent Research. 1-3 Credits.**

This course is limited to master's degree candidates in Economics. Before permission is granted to register for ECON 6997, the student must submit a written plan of study for the approval of the staff member of the department who will be directing the research. The written plan must also be approved by the program director. This course may be repeated once for credit but to no more than a total of 6 credits.

**ECON 6998. Thesis Research. 3 Credits.****ECON 6999. Thesis Research. 3 Credits.****ECON 8301. Microeconomic Theory I. 3 Credits.**

Theory of unconstrained optimization; optimization subject to equality and inequality constraints, along with applications. Profit maximization, utility maximization and cost minimization, concave and quasi-concave functions, monotone comparative statics, duality theory, the envelope theorem and Le Chatelier principle, and the Kuhn-Tucker conditions.

**ECON 8302. Microeconomic Theory II. 3 Credits.**

Expected utility theory, general equilibrium in a pure exchange economy and economy with production, welfare theorems and the core theory of the competitive firm in the short run and long run, monopoly and price discrimination, models of oligopoly. Prerequisite: ECON 8301.

**ECON 8303. Microeconomic Theory III. 3 Credits.**

Theory of games, including Nash equilibrium and its refinements and comparative statics, evolutionary game theory, multistage games and subgame perfection, repeated games and oligopolistic supergames, static and dynamic Bayesian games, auction theory, and bargaining theory. Prerequisite: ECON 8301 and ECON 8302.

**ECON 8305. Macroeconomic Theory I. 3 Credits.**

Alternative theories of income, employment, and the price level; impact of monetary and fiscal policy; role of expectations in the economy; and microfoundations of macroeconomic models and dynamic analysis.

**ECON 8306. Macroeconomic Theory II. 3 Credits.**

Extensions of alternative models of income determination, economic growth, and the application of analytical frameworks to the U.S. and international economies. Prerequisite: ECON 8305.

**ECON 8307. Macroeconomic Theory III. 3 Credits.**

Extensions to stochastic and dynamic general equilibrium frameworks, with emphasis on economic policy. Prerequisite: ECON 8306.

**ECON 8323. Monetary Theory and Policy I. 3 Credits.**

Theory of monetary policy within the framework of contemporary American central banking.

**ECON 8324. Monetary Theory and Policy II. 3 Credits.**

Continuation of ECON 8323. Theory of monetary policy within the framework of contemporary American central banking.

**ECON 8337. Environmental Economics. 3 Credits.****ECON 8341. Labor Economics I. 3 Credits.**

Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

**ECON 8342. Labor Economics II. 3 Credits.**

Continuation of ECON 8341. Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

**ECON 8345. Industrial Organization I. 3 Credits.**

Economic theory and evidence regarding industrial market structure, conduct, and economic performance.

**ECON 8346. Industrial Organization II. 3 Credits.**

Continuation of ECON 8345. Economic issues in antitrust and government regulation of the U.S. economy.

**ECON 8351. Development Economics I. 3 Credits.**

Major analytic concepts, measures, theoretical models, and empirical methods of development economics.

**ECON 8352. Development Economics II. 3 Credits.**

Continuation of ECON 8351. In-depth examination of special research topics with emphasis on methods in applied microeconomics.

**ECON 8357. Regional Economics. 3 Credits.**

Study of regional planning and growth models, including input-output, programming, and econometric models used by planning agencies; analysis of interregional production, trade, migration, firm location, and pricing models.

**ECON 8358. Urban Economics. 3 Credits.**

Analysis of spatial relationships among economic activities within an urban area including the urban land, labor, and housing markets; urban transportation models; fiscal relationships among jurisdictions.

**ECON 8363. Public Finance I. 3 Credits.**

Theoretical and empirical analysis of the economic role of the public sector and the effects of public expenditures on resource allocation and income distribution. Topics include public goods, externalities, social insurance, and benefit-cost analysis.

**ECON 8364. Public Finance II. 3 Credits.**

Theoretical and empirical analysis of the effects of taxes and transfers on the allocation of resources and income distribution. Topics include partial and general equilibrium models of tax incidence, effects of taxes on labor supply, saving, and portfolio choices of households and on investment and financing decisions of firms.

**ECON 8375. Econometrics I. 3 Credits.**

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as STAT 8375.

**ECON 8376. Econometrics II. 3 Credits.**

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as STAT 8376. Prerequisite: ECON 8375.

**ECON 8377. Econometrics III. 3 Credits.**

Econometric methods for systems of equations and panel data, with additional topics that may vary from year to year. Prerequisite: ECON 8376.

**ECON 8378. Economic Forecasting. 3 Credits.**

Introduction to the theoretical and applied aspects of economic forecasting. Topics include the role of forecasting, univariate time-series analysis, single equation models, multiple series models, and evaluation of forecasts. Prerequisites: ECON 8375 or permission of the instructor.

**ECON 8379. Laboratory in Applied Econometrics. 0-3 Credits.**

Application of econometric theory and the use of econometric software; students are required to write an empirical research paper. The course usually deals exclusively with either micro or macroeconomic issues. May be repeated for credit provided the topic differs.

**ECON 8381. International Trade Theory. 3 Credits.**

International trade theory, including alternative models of the gains from trade and evaluations of the new justifications for protectionism, and analysis of commercial policy, factor flows, and trade and investment with multinational corporations. Prerequisites: Most sections require calculus or permission of the instructor.

**ECON 8382. International Finance and Open-Economy Macroeconomics. 3 Credits.**

International finance, including alternative models of balance of payments behavior and adjustment, payments accounting, exchange markets, and alternative exchange-rate regimes.

**ECON 8383. International Financial Markets. 3 Credits.**

Financial economics and international financial markets. Topics include standard asset pricing theory, uncertainty in open economy macroeconomics models, financial market micro-structure, and incomplete markets.

**ECON 8395. Advanced Special Topics. 3 Credits.**

Topics vary depending upon current interests and faculty availability. Open to graduate students in economics. May be repeated for credit.

**ECON 8397. Dissertation Proposal Seminar. 3 Credits.**

Limited to Doctor of Philosophy candidates in Unit II. Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies.

**ECON 8997. Independent Research. 3 Credits.**

This course is limited to doctoral degree candidates in Economics. Departmental approval required to register. Before permission granted to register for ECON 8997, the student must submit a written plan of study for the approval of both the faculty member of the department who will be directing the research. And the Director of Graduate Studies for the PhD Program or the Department Chair. May be repeated for a total of 6 credits.

**ECON 8998. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**ECON 8999. Dissertation Research. 3-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

**BACHELOR OF ARTS WITH A MAJOR IN ECONOMICS**

**REQUIREMENTS**

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
ECON 1011	Principles of Economics I <sup>1</sup>	
ECON 1012	Principles of Economics II <sup>1</sup>	
ECON 2101	Intermediate Microeconomic Theory	
or ECON 2103	Intermediate Microeconomic Theory: A Mathematical Approach	
ECON 2102	Intermediate Macroeconomic Theory	
or ECON 2104	Intermediate Macroeconomic Theory: A Mathematical Approach	
ECON 4198W	Proseminar in Economics	
MATH 1221	Calculus with Precalculus II <sup>2</sup>	

or MATH 1231	Single-Variable Calculus I
or MATH 1252	Calculus for the Social and Management Sciences
STAT 1111	Business and Economic Statistics I (or equivalent) <sup>2</sup>
or STAT 1051	Introduction to Business and Economic Statistics
or STAT 1053	Introduction to Statistics in Social Science
STAT 2112	Business and Economic Statistics II <sup>2</sup>
or STAT 2118	Regression Analysis
or ECON 2123	Introduction to Econometrics

**Electives**

Six additional Economics (ECON) courses numbered between 2000 and 4999; a maximum of three of these courses can be regional and two international. Students may substitute up to two of the six ECON elective courses with FINA 3101 and FINA 3301. However, FINA 3301 and ECON 2121 cannot both be taken for credit. If ECON 2123 was taken instead of STAT 2112 as a required course, only five additional ECON courses are required.

<b>Regional courses</b>	
ECON 2169	Introduction to the Economy of China
ECON 2170	Introduction to the Economy of Japan
ECON 2185	Economic History and Problems of Latin America
ECON 2198	Special Topics in Economics - Regional
ECON 3098	Variable Topics - Regional Economics
ECON 3198	Advanced Topics in Economics - Regional
<b>International courses</b>	
ECON 2180	Survey of International Economics
ECON 2181	International Trade Theory and Policy
or ECON 3181	International Trade Theory
ECON 2182	International Macroeconomic Theory and Policy

<sup>1</sup> Post-matriculation residency requirement: For ECON 1011 and ECON 1012 to count toward the major, the course must be completed at GW with a minimum grade of C-. Students who matriculate with AP or transfer credit for one or both courses

are exempt from this residency requirement for the relevant course(s).

<sup>2</sup> The selected MATH option, MATH 1221, MATH 1231, or MATH 1252, must be completed with a minimum grade of C-. STAT 1111, or STAT 1051, or STAT 1053 must be completed with a minimum grade of C-.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a grade-point average of at least 3.5 in economics courses taken at George Washington University. Upon review of the student's ECON 4198W paper, the student may be recommended for graduation with Special Honors.

## BACHELOR OF SCIENCE WITH A MAJOR IN ECONOMICS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the following curricular requirements.

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
ECON 1011	Principles of Economics I <sup>1</sup>	
ECON 1012	Principles of Economics II <sup>1</sup>	
ECON 2103	Intermediate Microeconomic Theory: A Mathematical Approach	
or ECON 2101	Intermediate Microeconomic Theory	
ECON 2104	Intermediate Macroeconomic Theory: A Mathematical Approach	
or ECON 2102	Intermediate Macroeconomic Theory	
ECON 2123	Introduction to Econometrics	
ECON 4198W	Proseminar in Economics	
MATH 1221	Calculus with Precalculus II <sup>2</sup>	
or MATH 1231	Single-Variable Calculus I	
or MATH 1252	Calculus for the Social and Management Sciences	
MATH 1232	Single-Variable Calculus II <sup>2</sup>	

STAT 1111	Business and Economic Statistics I (or equivalent) <sup>2</sup>
or STAT 1051	Introduction to Business and Economic Statistics
or STAT 1053	Introduction to Statistics in Social Science

### Electives

Two courses (6 credits), completed with a minimum grade of C-, from the following:

CSCI 1041	Introduction to FORTRAN Programming
CSCI 1111	Introduction to Software Development
CSCI 1121	Introduction to C Programming
CSCI 1131	Introduction to Programming with C
CSCI 1311	Discrete Structures I
CSCI 4314	Discrete Analysis-Computer Science
CSCI 4341	Continuous Algorithms
CSCI 4511	Artificial Intelligence Algorithms
EMSE 2705	Mathematics in Operations Research
EMSE 3701	Operations Research Methods
EMSE 3850	Quantitative Models in Systems Engineering
EMSE 4710	Applied Optimization Modeling
MATH 2184	Linear Algebra I
MATH 2233	Multivariable Calculus <sup>3</sup>
MATH 2971	Introduction to Mathematical Reasoning <sup>3</sup>
MATH 3342	Ordinary Differential Equations <sup>3</sup>
MATH 3410	Mathematics of Finance <sup>3</sup>
MATH 4239	Real Analysis I <sup>3</sup>
STAT 1129	Introduction to Computing
STAT 2183	Intermediate Statistics Lab/Packages
STAT 3119	Analysis of Variance
STAT 3187	Introduction to Sampling
STAT 4157	Introduction to Mathematical Statistics I
STAT 4158	Introduction to Mathematical Statistics II

STAT 4181	Applied Time Series Analysis
STAT 4188	Nonparametric Statistics Inference
STAT 4189	Mathematical Probability and Applications I
STAT 4190	Mathematical Probability and Applications II
STAT 4197	Fundamentals of SAS Programming for Data Management

#### Additional requirements

Five additional Economics (ECON) courses (15 credits) numbered between 2000 and 4999. The following guidelines and restrictions apply:

FINA 3101 and/or FINA 3301 may be used as substitutes for up to two ECON courses; however, credit may not be earned for both FINA 3301 and ECON 2121.

At least one of the five courses must be taken at the 3000-level. ECON 3098, ECON 3099, FINA 3101, and FINA 3301 may be counted toward the 15 credits of ECON electives, but do not count toward the required minimum of 3 credits of 3000-level courses.

No more than three courses may be selected from ECON 2169, ECON 2170, ECON 2185, ECON 2198, ECON 3098, and ECON 3198.

No more than two courses may be selected from ECON 2180, ECON 2181 or ECON 3181, and ECON 2182.

<sup>1</sup> Post-matriculation residency requirement: In order for ECON 1011 Principles of Economics I to count towards the major it must be completed at George Washington University with a minimum grade of C-. Students who matriculate with AP or transfer credit for ECON 1011 are exempt from this residency requirement. In order for ECON 1012 Principles of Economics II to count towards the major it must be completed at George Washington University with a minimum grade of C-. Students who matriculate with AP or transfer credit for ECON 1012 are exempt from this residency requirement.

<sup>2</sup> The MATH course selected from among MATH 1221 Calculus with Precalculus II, MATH 1231 Single-Variable Calculus I, or MATH 1252 Calculus for the Social and Management Sciences, as well as MATH 1232 Single-Variable Calculus II, must be completed with a minimum grade of C-. Moreover, STAT 1111, or STAT 1051, or STAT 1053 must be completed with a minimum grade of C-.

<sup>3</sup> MATH 2233 Multivariable Calculus, MATH 2971 Introduction to Mathematical Reasoning, MATH 3342 Ordinary Differential Equations, MATH 3410 Mathematics of Finance, and MATH 4239 Real Analysis I are strongly recommended for those planning to pursue graduate study in economics.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a grade-point average of at least 3.5 in economics courses taken at George Washington University. Upon review of the student's ECON 4198W paper, the student may be recommended for graduation with Special Honors.

## COMBINED PROGRAMS, ECONOMICS

The Department of Economics offers two programs leading to dual bachelor's and master's degrees. These programs allow students to take up to 12 graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree. The two dual bachelor's/master's programs offered are:

- **Dual Bachelor of Science with a major in economics (p. 194) and Master of Arts in the field of economics (p. 196)**

Students interested in this dual degree program should consult the Department of Economics undergraduate program adviser by the second semester of their sophomore year.

- **Dual Bachelor of Arts (p. 194) or Bachelor of Science (p. 194) with a Major in Economics and Master of Public Policy (p. 367)**

Students interested in this dual degree program should contact the director of the Public Policy program by the second semester of their sophomore year.

All requirements for both degrees must be fulfilled. For more information visit the program website (<http://economics.columbian.gwu.edu/combined-degree-programs>).

## MINOR IN ECONOMICS

### REQUIREMENTS

The following requirements must be fulfilled: 24 credits

Code	Title	Credits
<b>Required</b>		
ECON 1011	Principles of Economics I	
ECON 1012	Principles of Economics II	
ECON 2101	Intermediate Microeconomic Theory *	

or ECON 2103	Intermediate Microeconomic Theory: A Mathematical Approach
ECON 2102	Intermediate Macroeconomic Theory *
or ECON 2104	Intermediate Macroeconomic Theory: A Mathematical Approach
Two additional approved upper-division courses in economics.	
One of the following mathematics courses:	
MATH 1221	Calculus with Precalculus II *
MATH 1231	Single-Variable Calculus I *
MATH 1252	Calculus for the Social and Management Sciences *
And one of the following options	
Option A: One of the following statistics courses:	
STAT 1111	Business and Economic Statistics I
STAT 1051	Introduction to Business and Economic Statistics
STAT 1053	Introduction to Statistics in Social Science *
Option B:	
MATH 1232	Single-Variable Calculus II
Option C:	
One additional upper-division course in economics, other than excluded courses.**	

\*Must be completed with a minimum grade of C-.

\*\* The following may not be used for Option C: ECON 2169 Introduction to the Economy of China, ECON 2170 Introduction to the Economy of Japan, ECON 2185 Economic History and Problems of Latin America, ECON 2198 Special Topics in Economics - Regional, and ECON 3098 Variable Topics - Regional Economics.

## MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following curriculum requirements must be fulfilled: 30 credits, including 18 credits in core courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
ECON 6300	Mathematical Methods for Economics	
ECON 6301	Applied Microeconomic Theory	
ECON 6305	Applied Macroeconomic Theory	
ECON 6374	Probability and Statistics for Economics	
ECON 6375	Applied Econometrics	
ECON 6376	Time Series Analysis	

### Electives

Twelve credits in elective economics (ECON) courses at the 6000 level or above selected in consultation with the program director.

Note: ECON 6217, ECON 6218, and ECON 6219 may not be used to fulfill the elective requirement. With program approval, students may select up to two graduate-level courses offered by the Trachtenberg School of Public Policy and Public Administration, School of Business, Milken Institute School of Public Health, and/or School of Engineering and Applied Science to fulfill the elective requirement. Courses in other graduate programs may meet this requirement subject to approval by the Program Director.

## MASTER OF ARTS IN THE FIELD OF ECONOMICS

### REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits

Code	Title	Credits
<b>Prerequisite:</b>		
A Bachelor's degree with a major in economics or with course work in economics that includes intermediate microeconomic and macroeconomic theory equivalent to:		

ECON 2101 Intermediate Microeconomic Theory

ECON 2102 Intermediate Macroeconomic Theory

Or:

ECON 6217 Survey of Economics I

ECON 6218 Survey of Economics II

An understanding of basic calculus equivalent to:

MATH 1231 Single-Variable Calculus I

MATH 1232 Single-Variable Calculus II

Basic statistics, equivalent to:

STAT 1111 Business and Economic Statistics I

STAT 2112 Business and Economic Statistics II

Code	Title	Credits
------	-------	---------

**Required: 30 credits consisting of:**

ECON 8301	Microeconomic Theory I
-----------	------------------------

ECON 8305	Macroeconomic Theory I
-----------	------------------------

ECON 8375	Econometrics I
-----------	----------------

Two of the following:

ECON 8302	Microeconomic Theory II
-----------	-------------------------

ECON 8306	Macroeconomic Theory II
-----------	-------------------------

ECON 8376	Econometrics II
-----------	-----------------

Five additional 8000-level economics courses or four 8000-level economics courses and one 6000-level course approved by the student's Mater of Arts advisor.

Visit the program website (<https://economics.columbian.gwu.edu/ma-applied-economics>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF ECONOMICS REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

## Pre-candidacy Requirements

Pre-candidacy requirements include satisfactory completion of required courses and achievement of an acceptable grade in the general examination.

Code	Title	Credits
------	-------	---------

### Required

Core theory and econometrics

ECON 8301	Microeconomic Theory I
-----------	------------------------

ECON 8302	Microeconomic Theory II
-----------	-------------------------

ECON 8303	Microeconomic Theory III
-----------	--------------------------

ECON 8305	Macroeconomic Theory I
-----------	------------------------

ECON 8306	Macroeconomic Theory II
-----------	-------------------------

ECON 8307	Macroeconomic Theory III
-----------	--------------------------

ECON 8375	Econometrics I
-----------	----------------

ECON 8376	Econometrics II
-----------	-----------------

### Electives

24 credits in 8000-level (or approved 6000-level) courses.

**Passing grade in the general examination.**

### General examination

The General Examination consists of two preliminary examinations, one in microeconomic theory and one in macroeconomic theory, and two field examinations. The requirements for the microeconomic and macroeconomic preliminary examinations must be met before any field examinations may be taken. To pass the General Examination, students must earn a grade of "pass" or "pass with distinction" in the preliminary examination in microeconomic and macroeconomic theory and earn a grade of "pass" or "pass with distinction" in two field examinations.

Two of the examinations, either preliminary or field, may be taken a second time with the approval of the department. Students are allowed a maximum of two failures in total across all exams taken and can retake an exam in the same preliminary or field subject only once. Field exams may be taken in no more than three fields.

Students are required to take the microeconomic and macroeconomic preliminary examinations in May of their first year in the PhD program. The exams may be retaken at the start of the following semester, with the approval of the department, and both must be passed by the second attempt.

### Time limits

The pre-candidacy stage must be concluded within five years after entry into the program. Upon successful completion

of pre-candidacy, students are considered for admission to post-candidacy, i.e., the dissertation stage, which must be completed within five years after entry. In all cases the student is expected to complete the doctorate within eight years after admission.

## Candidacy requirements

Candidacy requirements include formulation of a dissertation proposal, a formal presentation of the proposal by the student to a potential dissertation committee for approval, completion of a dissertation that demonstrates the candidate's ability to do original research as determined by the dissertation committee, and 24 credits of coursework at the 8000 level.

The 24 credits of coursework must include 3 credits of ECON 8397 Dissertation Proposal Seminar and a minimum of 12 credits in ECON 8999 Dissertation Research. All students, including those whose dissertation proposal has already been accepted by their committee, must complete ECON 8397 Dissertation Proposal Seminar in the first semester in which it is offered after their advancement to candidacy.

In cases where knowledge outside the discipline of economics is critical to the student's research field, up to 6 credits in candidacy coursework may consist of courses taken outside the Department of Economics, with the approval of the advisor.

Once the student has successfully completed 24 credits in coursework, they must register for 1 credit in ECON 8998 Advanced Reading and Research each subsequent fall and spring semester until they have successfully defended their dissertation to the Dissertation Oral Examination Committee, thereby completing the degree program.

Further information regarding the proposal and dissertation defenses can be found on the Department of Economics PhD Dissertation Guidelines (<https://economics.columbian.gwu.edu/node/244>) page.

## ENGLISH

Part of the Columbian College of Arts and Sciences' arts and humanities program, the Department of English fosters critical reflection on literature and culture, connecting reading practices with lucid writing and persuasive argumentation. Using a broad range of texts, students explore community, creativity, cultural conflict, history, and other relevant issues.

Visit the Department of English website (<https://english.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in English (p. 210)
- Bachelor of Arts with a major in Creative Writing and English (p. 208)

## Combined program

- Dual Bachelor of Arts with a major in English and Master of Arts in the field of English (p. 213)

## Minors

- Minor in English (p. 214)
- Minor in English for Business Students (p. 214)
- Minor in Creative Writing (p. 213)
- Minor in Linguistics (p. 67) (interdisciplinary)

## GRADUATE

### Master's program

- Master of Arts in the field of English with optional concentrations in English or American literature (p. 214)

### Doctoral program

- Doctor of Philosophy in the field of English with optional concentrations in English or American literature (p. 215)

## FACULTY

**Professors** M. Alcorn (*Chair*), J.J. Cohen, R.L. Combs, P. Cook, M. Frawley, A. Huang, E.P. Jones, S. Knapp, T.V. Mallon, D. McAleavey, R. McRuer, D. Mitchell, K. Moreland, E. Schreiber, O.A. Seavey, J. Shore, C.W. Sten, A. Thompson, G. Wald, T.G. Wallace

**Associate Professors** G. Carter, P. Chu, K. Daiya, H. Dugan, J.M. Green-Lewis, P. Griffith, J. Hsy, J.C. James, A. López, D. Moshenberg, M.S. Soltan

**Assistant Professors** J. Chang, D. DeWispelare, J. Yun

**Visiting Assistant Professors** L. Page

**Adjunct Professors** A.C. Stokes

**Jenny McKean Moore Writer in Washington** M. Moustakis

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: The department strongly recommends a literature course, such as ENGL 1315 Literature and the Financial Imagination through ENGL 1711 Introduction to Postcolonial

Literature and Film II or ENGL 1830 Tragedy or ENGL 1840 Comedy, as a prerequisite to upper-division English courses. All creative writing courses are limited to 15 students. Two creative writing courses in the same genre may not be taken during the same semester.

All graduate English courses, except ENGL 6100 Introduction to Literary Theory, may be repeated for credit with permission of the director of graduate studies.

**ENGL 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details.

**ENGL 1050. Introduction to Literary Studies. 3 Credits.**

How to read and interpret literature at the college level and beyond. Close readings of poetry, fiction, and drama, emphasizing genre and form.

**ENGL 1210. Introduction to Creative Writing. 3 Credits.**

An exploration of genres of creative writing (fiction, poetry, and/or playwriting). Basic problems and techniques; examples of modern approaches; weekly writing assignments; workshop and/or conference discussion of student writing.

**ENGL 1300. The Bible as Literature. 3 Credits.**

The Bible in translation as a literary object; the historical context in which its many parts were composed and its literary themes, styles, and structures.

**ENGL 1305. Colonial/Post-Colonial British Literature. 3 Credits.**

**ENGL 1315. Literature and the Financial Imagination. 3 Credits.**

Literary studies focused broadly on representations of business, finance, or commerce; the economics of literary production; and/or theories of economic class as they pertain to literary works. Topic, genre, and time period vary by instructor.

**ENGL 1320. Literature of the Americas. 3 Credits.**

American literature considered in a global framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe.

**ENGL 1320W. Literature of the Americas. 3 Credits.**

American literature considered in a global framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1330. Myths of Britain. 3 Credits.**

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor.

**ENGL 1330W. Myths of Britain. 3 Credits.**

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1340. Essential Shakespeare. 3 Credits.**

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world?.

**ENGL 1340W. Essential Shakespeare. 3 Credits.**

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world? Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1351. Shakespeare Seminar. 3 Credits.**

Seminar course for first-year students in the Dean's Scholars in Shakespeare Program. Literary study of Shakespeare's poems and plays along with those of his contemporaries. Topic, genre, and time period vary by instructor.

**ENGL 1360. Fantasy And Speculative Fiction. 3 Credits.**

General overview of fantasy and speculative fiction. Topics may vary.

**ENGL 1365. Literature and the Environment. 3 Credits.**

The depiction of the nonhuman world in literature and film; how natural and built environments are translated into narrative; the relationship between literary production and environmental action.

**ENGL 1370. Topics in Global Cinema. 3 Credits.**

Topics vary by semester. Consult the Schedule of Classes for more details.

**ENGL 1410. Introduction to English Literature I. 3 Credits.**

Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. Middle Ages through the eighteenth century.

**ENGL 1410W. Introduction to English Literature I. 3 Credits.**

Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. Middle Ages through the eighteenth century. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

Continuation of ENGL 1410. Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. 19th and 20th centuries.

**ENGL 1411W. Introduction to English Literature II. 3 Credits.**

Continuation of ENGL 1410. Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. Nineteenth and twentieth centuries. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1510. Introduction to American Literature I. 3 Credits.**

Historical survey. From early American writing through Melville, Whitman, and Dickinson.

**ENGL 1510W. Introduction to American Literature I. 3 Credits.**

Historical survey. From early American writing through Melville, Whitman, and Dickinson. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1511. Introduction to American Literature II. 3 Credits.**

Continuation of ENGL 1510. Historical survey. From Twain, James, and Crane to the present.

**ENGL 1511W. Introduction to American Literature II. 3 Credits.**

Continuation of ENGL 1510. Historical survey. From Twain, James, and Crane to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1610. Introduction to Black American Literature I. 3 Credits.**

Survey of several genres of African American literature. From the 18th through the late 19th centuries, in such cultural contexts as the developing concept of "race."

**ENGL 1610W. Introduction to Black American Literature I. 3 Credits.**

Survey of several genres of African American literature from the 18th through the late 19th centuries, in such cultural contexts as the developing concept of "race." Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1611. Introduction to Black American Literature II. 3 Credits.**

Continuation of ENGL 1610. Survey of several genres of African American cultural production, including literary and oral forms. From the early twentieth century to the present day, in such cultural contexts as the "new Negro" Renaissance and the civil rights and Black Power movements.

**ENGL 1611W. Introduction to Black American Literature II. 3 Credits.**

Continuation of ENGL 1610. Survey of several genres of African American cultural production, including literary and oral forms. From the early twentieth century to the present day, in such cultural contexts as the "new Negro" Renaissance and the civil rights and Black Power movements. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1710. Introduction to Postcolonial Literature and Film I. 3 Credits.**

Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora.

**ENGL 1710W. Introduction to Postcolonial Literature and Film I. 3 Credits.**

Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1711. Introduction to Postcolonial Literature and Film II. 3 Credits.**

Continuation of ENGL 1710. Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora.

**ENGL 1711W. Introduction to Postcolonial Literature and Film II. 3 Credits.**

Continuation of ENGL 1710. Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1712. Introduction to Bollywood Cinema. 3 Credits.**

Historical introduction to the industry of popular Hindi film known as Bollywood.

**ENGL 1830. Tragedy. 3 Credits.**

Modes of tragedy as developed in drama, nondramatic verse, and prose fiction in literature from ancient to modern times—Book of Job to Beckett.

**ENGL 1830W. Tragedy. 3 Credits.**

Modes of tragedy as developed in drama, nondramatic verse, and prose fiction in literature from ancient to modern times—Book of Job to Beckett. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 1840. Comedy. 3 Credits.**

Modes of comedy as developed in drama, nondramatic verse, and prose fiction—Chaucer to Borges.

**ENGL 1840W. Comedy. 3 Credits.**

Modes of comedy as developed in drama, nondramatic verse, and prose fiction—Chaucer to Borges. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 2000. Sophomore Colloquium. 3 Credits.**

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College.

These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Instructor's permission is required.

**ENGL 2210. Techniques in Creative Writing. 3 Credits.**

The craft and technique of creative writing and/or theories of creative writing. Topics vary by semester. Consult the Schedule of Classes for more information.

**ENGL 2240. Play Analysis. 3 Credits.**

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature; literary and theatrical techniques used by playwrights. Same as TRDA 2240.

**ENGL 2250. Dramatic Writing. 3 Credits.**

Workshop in playwriting and screenwriting, with emphasis on dramatic structure. (Same as TRDA 2250).

**ENGL 2460. Fiction Writing. 3 Credits.**

The writing of fiction. Recommended preparation: ENGL 1210 and two semesters of literature courses.

**ENGL 2470. Poetry Writing. 3 Credits.**

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

**ENGL 2560. Intermediate Fiction Writing. 3 Credits.**

The writing of fiction. Prerequisite: ENGL 2460 .

**ENGL 2570. Intermediate Poetry Writing. 3 Credits.**

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

**ENGL 2800. Introduction to Critical Theory. 3 Credits.**

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies.

**ENGL 2800W. Introduction to Critical Theory. 3 Credits.**

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3210. Readings in Creative Writing. 3 Credits.**

Intensive reading of one to three texts selected by the instructor with the goal of learning to read as a writer and developing close reading skills. Authors and texts vary. May be repeated for credit provided course coverage differs.

**ENGL 3240. Introduction to Dramaturgy. 3 Credits.**

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as TRDA 3240.

**ENGL 3250. Intermediate Dramatic Writing. 3 Credits.**

A workshop developing scripts for both theatre and film. Same as TRDA 3250. Prerequisite: ENGL 2250 . May be repeated for credit with departmental approval.

**ENGL 3360. Advanced Fiction Writing. 3 Credits.**

Further workshop study of the writing of fiction. Prerequisite: ENGL 2560 . May be repeated for credit with departmental approval.

**ENGL 3370. Advanced Poetry Writing. 3 Credits.**

Further workshop study of the writing of poetry. May be repeated for credit with permission of the department. Prerequisite: ENGL 2570.

**ENGL 3380. Creative Writing Workshop. 3 Credits.**

Taught by the Jenny McKean Moore Writer in Washington; for undergraduates and graduate students. May be repeated for credit if taught by a different instructor. Prerequisites: One of the following upper-level creative writing courses: ENGL 2210, ENGL 2240, ENGL 2250, ENGL 2460, ENGL 2470, ENGL 2560, ENGL 2570, ENGL 3210, ENGL 3240, ENGL 3250, ENGL 3360, ENGL 3370, or ENGL 3390.

**ENGL 3385. American Memoir. 3 Credits.**

Contemporary American memoir as a literary construct; the history of the genre, its relationship to other literary models, and recent developments. Prerequisite: None.

**ENGL 3390. Topics in Creative Writing. 3 Credits.**

Topics announced prior to the registration period; may be repeated for credit provided the topic differs. Topics may include poetry and poetics; forms and methods in fiction; forms and methods in poetry; memoir and personal narratives; creative nonfiction; "Literature, Live"; avant-garde and experimental writing.

**ENGL 3400. Topics in Literature and Finance. 3 Credits.**

Capstone course for English minors in the School of Business. Analysis of economic theories as they pertain to literary works. Topics may vary. Recommended background: Prior completion of English 1315.

**ENGL 3410. Chaucer. 3 Credits.**

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late fourteenth century. Focus on *The Canterbury Tales*, read in the original Middle English.

**ENGL 3410W. Chaucer. 3 Credits.**

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late fourteenth century. Focus on *The Canterbury Tales*, read in the original Middle English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3420. Medieval Literature. 3 Credits.**

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own.

**ENGL 3420W. Medieval Literature. 3 Credits.**

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3430. The English Renaissance. 3 Credits.**

Verse and prose written in the period 1515 to 1625, examined in relation to cultural practices and social institutions that shaped English life. More, Sidney, Spenser, Shakespeare, Donne, Jonson, Bacon, Herbert, many others.

**ENGL 3440. Shakespeare I. 3 Credits.**

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

**ENGL 3440W. Shakespeare I. 3 Credits.**

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3441. Shakespeare II. 3 Credits.**

Continuation of ENGL 3440. Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

**ENGL 3441W. Shakespeare II. 3 Credits.**

Continuation of ENGL 3440. Close study of six or seven plays, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3445. Shakespeare on Film. 3 Credits.**

Students learn in detail the history of a small but significant subset of American and European film production: adaptations of Shakespeare's plays using the original language.

**ENGL 3446. Shakespearean London. 3 Credits.**

Early modern London's emergence as a global capital and its influence on Shakespeare's plays. Instructor permission required.

**ENGL 3450. Topics in Shakespeare Studies. 3 Credits.**

Critical study of a particular aspect of Shakespeare's work, or of a distinctive approach to the plays. Projected topics: Shakespeare on film, the history plays and Elizabethan England, eighteenth-century rewritings of Shakespeare, Shakespeare as poet, cultural materialist readings of Shakespeare.

**ENGL 3460. Milton. 3 Credits.**

Study of the major works in verse and prose, following the course of Milton's career.

**ENGL 3470. English Drama I. 3 Credits.**

Shakespeare's contemporaries.

**ENGL 3471. English Drama II. 3 Credits.**

Continuation of ENGL 3470. Historical survey, 1660 to present.

**ENGL 3480. Eighteenth-Century British Literature. 3 Credits.**

Eighteenth-century British literature, including literature that reflects some of the upheavals of a period that produced the Enlightenment, the French Revolution, the United States of America, and the two-party system.

**ENGL 3480W. The Eighteenth Century I. 3 Credits.**

Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3481. The Eighteenth Century II. 3 Credits.**

Continuation of ENGL 3480. Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies.

**ENGL 3481W. The Eighteenth Century II. 3 Credits.**

Continuation of ENGL 3480. Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3490. Early American Literature and Culture. 3 Credits.**

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others.

**ENGL 3490W. Early American Literature and Culture. 3 Credits.**

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3510. Children's Literature. 3 Credits.**

Nineteenth- and twentieth-century children's texts that illuminate the several worlds of childhood: the "small world" of childhood perception, the larger world of social and historical forces, and the "secondary world" of fantasy.

**ENGL 3520. American Romanticism. 3 Credits.**

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others.

**ENGL 3520W. American Romanticism. 3 Credits.**

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3530. The British Romantic Period. 3 Credits.**

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others.

**ENGL 3530W. The British Romantic Period. 3 Credits.**

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3540. Victorian Literature I. 3 Credits.**

Major writers between 1830 and 1865: E. Brontë, Dickens; Tennyson, Browning, Arnold; Darwin, Carlyle, Ruskin.

**ENGL 3540W. Victorian Literature I. 3 Credits.**

Major writers between 1830 and 1865: E. Brontë, Dickens, Tennyson, Browning, Arnold, Darwin, Carlyle, Ruskin. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3541. Victorian Literature II. 3 Credits.**

Major writers between 1865 and 1900: Eliot, Hardy, Conrad, Swinburne, the Rossetis, Morris, Pater, and Wilde.

**ENGL 3550. The English Novel I. 3 Credits.**

The eighteenth century—Defoe, Richardson, Fielding, Sterne, and others.

**ENGL 3551. The English Novel II. 3 Credits.**

Continuation of ENGL 3550. The nineteenth century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others.

**ENGL 3551W. The English Novel II. 3 Credits.**

Continuation of ENGL 3550. The nineteenth century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3560. American Realism. 3 Credits.**

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others.

**ENGL 3560W. American Realism. 3 Credits.**

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3570. Nineteenth-Century Black Literature. 3 Credits.**

Studies in nineteenth-century black literature of the Americas and the transatlantic. Writing from the United States, Latin America, the Caribbean, Britain, and Africa may be included. Topics and emphasis may vary.

**ENGL 3610. Modernism. 3 Credits.**

The emergence of modernist experimentation (and the sense of epistemological and moral crisis it expressed) in the poetry and prose of Pound, T.S. Eliot, Woolf, Kafka, and others.

**ENGL 3620. American Poetry I. 3 Credits.**

Close examination of major American poems from the beginnings to the early twentieth century: Poe, Emerson, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3620W. American Poetry I. 3 Credits.**

Close examination of major American poems from the beginnings to the early twentieth century: Poe, Emerson, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3621. American Poetry II. 3 Credits.**

This course examines important books by twelve American poets from throughout the twentieth century who collectively disrupt the continuity and traditions of English-language poetry, starting with the Georgian, even Horatian lyrics of Robert Frost (just before WW I), through the Modernist constructions of Gertrude Stein, T.S. Eliot, William Carlos Williams, Wallace Stevens, and Langston Hughes, and on through the post-WW II socially-conscious, Confessionalist, and Postmodern poetries of Brooks, Ginsberg, Plath, Bishop, Ammons, and Ashbery.

**ENGL 3621W. American Poetry II. 3 Credits.**

This course examines important books by twelve American poets from throughout the twentieth century who collectively disrupt the continuity and traditions of English-language poetry, starting with the Georgian, even Horatian lyrics of Robert Frost (just before WW I), through the Modernist constructions of Gertrude Stein, T.S. Eliot, William Carlos Williams, Wallace Stevens, and Langston Hughes, and on through the post-WW II socially-conscious, Confessionalist, and Postmodern poetries of Brooks, Ginsberg, Plath, Bishop, Ammons, and Ashbery. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3630. American Drama I. 3 Credits.**

Nineteenth-century melodrama and the emergence of realism; works by O'Neill and other dramatists of the early twentieth century.

**ENGL 3631. American Drama II. 3 Credits.**

Continuation of ENGL 3630. Developments in modern American drama since World War II, including works by Williams, Miller, Albee, Shepard, Rabe, Guare, Mamet, Henley, Wasserstein, Shange, Hwang, Wilson, and others.

**ENGL 3640. The American Novel I. 3-4 Credits.**

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the nineteenth century: Hawthorne, Melville, James, Twain, Dreiser, and others.

**ENGL 3640W. The American Novel I. 4 Credits.**

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the nineteenth century: Hawthorne, Melville, James, Twain, Dreiser, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3641. The American Novel II. 3 Credits.**

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The twentieth century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others.

**ENGL 3641W. The American Novel II. 3 Credits.**

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The twentieth century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3650. The Short Story. 3 Credits.**

An extensive survey of short fiction by a wide variety of writers of the 19th and 20th centuries, about half of them American; readings on the art of the short story by writers and literary critics.

**ENGL 3660. Twentieth-Century Irish Literature I. 3 Credits.**

Irish writers from the time of the literary revival in the late nineteenth century to the present. Yeats and other Irish poets and playwrights of his time and after—Synge, O'Casey, Kavanagh, Heaney, and others.

**ENGL 3661. Twentieth-Century Irish Literature II. 3 Credits.**

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late nineteenth century to the present. Joyce through Ulysses and other fiction writers of later generations—O'Brien, Beckett, and others.

**ENGL 3661W. Twentieth-Century Irish Literature I. 3 Credits.**

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late nineteenth century to the present. Joyce through Ulysses and other fiction writers of later generations—O'Brien, Beckett, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3710. Contemporary Drama. 3 Credits.**

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today's audience.

**ENGL 3710W. Contemporary Drama. 3 Credits.**

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today's audience. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3720. Contemporary American Literature. 3 Credits.**

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres.

**ENGL 3720W. Contemporary American Literature. 3 Credits.**

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3730. Topics in Global Postcolonial Literature and Film. 3 Credits.**

Representations of empire and culture in modern Anglophone literature and cinema from around the world; cross-cultural encounter, migration, identity, orientalism, gender, environment, conflict, and globalization. May be repeated for credit provided the topic differs. See department for more details.

**ENGL 3730W. Topics in Global Postcolonial Literature and Film. 3 Credits.**

Representations of empire and culture in modern Anglophone literature and cinema from around the world; cross-cultural encounter, migration, identity, orientalism, gender, environment, conflict, and globalization. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credit provided the topic differs. See department for more details.

**ENGL 3800. The Literature of Hawaii. 3 Credits.**

The history, culture, and politics of the settlement of the Hawaiian Islands through depictions in literature, poetry, film, journalism, archeological excavation reports, and diaries; the diversity of inhabitants on the islands and hybrid communicative forms they have developed.

**ENGL 3810. Selected Topics in Literature. 3 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

**ENGL 3810W. Selected Topics in Literature. 3 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3820. Major Authors. 3 Credits.**

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs.

**ENGL 3820W. Major Authors. 3 Credits.**

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3826. Toni Morrison and William Faulkner. 3 Credits.**

Commonalities between the fictional and discursive practices of Toni Morrison and William Faulkner; specifically, how their texts reenact and resist racism and patriarchal structures, explore the ways in which memory and the past construct identity, experiment with style.

**ENGL 3830. Topics in Literary Theory and Cultural Studies. 3 Credits.**

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided that topic differs.

**ENGL 3830W. Topics in Literary Theory and Cultural Studies. 3 Credits.**

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3840. Gender and Literature. 3 Credits.**

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs.

**ENGL 3840W. Gender and Literature. 3 Credits.**

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3850. Ethnicity and Place in American Literature. 3 Credits.**

The relationships among ethnic identity, authorship, regional setting, and national consciousness. Differences in the literary culture of ethnically, racially, and regionally diverse American populations, and how considerations of ethnicity and place have been reshaping the American literary canon. Texts and emphases vary by instructor.

**ENGL 3860. Topics in the History of the English Language. 3 Credits.**

The cultural and literary functions of English across time and space. Scope and methodology vary by instructor. Topics may include language and identity, theoretical and linguistic approaches to language, multilingualism, diasporic writing, or history and periodization.

**ENGL 3910. Disability Studies. 3 Credits.**

Consideration of cultural texts that illustrate or illuminate issues of ability and disability-terms that extend the prism through which human experience may be understood.

**ENGL 3912. Disability and the Holocaust. 3 Credits.**

Investigating the question of direct links between the medical mass murder of disabled people in German psychiatric institutions to the Holocaust during World War II; studies of contemporary memorialization practices are examined.

**ENGL 3915. Literature and Madness. 3 Credits.**

A literary history of mental unrest; madness as a condition of culture, as an adaptive cognitive style, and as a cognitive challenge; descriptive, medical, historical, and socio-critical perspectives.

**ENGL 3918. Literature and Medicine. 3 Credits.**

The experience of illness as determined by historical, social, and psychological contexts; narrative as a mode of both understanding and managing illness, pain, loss, and the injustice of suffering.

**ENGL 3920. U.S. Latina/o Literature and Culture. 3 Credits.**

Introduction to the basic texts in the Chicana/o, Cuban-American, Dominican-American, and Puerto Rican literary and cultural traditions. Works by U.S. writers of Central American origin are discussed as well.

**ENGL 3930. Topics in U.S. Latina/o Literature and Culture. 3 Credits.**

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness, and latinidad.

**ENGL 3930W. Topics in U.S. Latina/o Literature and Culture. 3 Credits.**

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness and latinidad. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3940. Topics in African American Literary Studies. 3 Credits.**

Intensive study of a single aspect of African American literature: major authors, genre, theme, movement. Substantial attention to the critical tradition.

**ENGL 3945. African American Poetry. 3 Credits.**

African American poetry from the Black Atlantic through contemporary spoken word and web-based experiments in hypertext composition. Topics vary and may include Langston Hughes, Gwendolyn Brooks, poetry manifestoes, poetry and social justice, or eco-poetics of the black experience.

**ENGL 3950. Cultural Theory and Black Studies. 3 Credits.**

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers.

**ENGL 3950W. Cultural Theory and Black Studies. 3 Credits.**

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3960. Asian American Literature. 3 Credits.**

How Asian American writers construct their identities in dialogue with shifting ideas of “America.” Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn.

**ENGL 3960W. Asian American Literature. 3 Credits.**

How Asian American writers construct their identities in dialogue with shifting ideas of “America.” Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3965. Topics in Asian American Cultural Studies. 3 Credits.**

Literary and cinematic texts of Asian diasporic writers, with a focus on Asian American authors, history, and culture; the globalization of Asian American literature.

**ENGL 3970. Jewish American Literature. 3 Credits.**

One hundred years of Jewish American writing including fiction, nonfiction, autobiography, poetry, and drama. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition.

**ENGL 3970W. Jewish American Literature. 3 Credits.**

One hundred years of Jewish American writing in fiction, autobiography, poetry, drama, and non-fictional prose. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3980. Queer Studies. 3 Credits.**

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs.

**ENGL 3980W. Queer Studies. 3 Credits.**

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 3990. Literary Studies Workshop. 1 Credit.**

Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated once for credit provided the topic differs.

**ENGL 4020. Studies in Contemporary Literature. 1-3 Credits.**

Theme-based studies of specific issues or figures in twenty-first-century literature.

**ENGL 4030. Service Learning with the Pen/ Faulkner Foundation. 3 Credits.**

The role of literature in public life; how nonprofits bridge literary citizenship and civic engagement. This course is offered in collaboration with the PEN/Faulkner Foundation, a nonprofit organization that promotes literary achievement and excellence through various events programs.

**ENGL 4040. Honors Seminar. 3 Credits.**

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches –ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English.

**ENGL 4040W. Honors Seminar. 3 Credits.**

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches –ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 4135. Folger Seminar. 3 Credits.**

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as HIST 4135/ FREN 4135.

**ENGL 4220. Creative Writing Senior Thesis. 3 Credits.**

Under the guidance of an instructor, the student composes an original manuscript of poetry or short fiction accompanied by an essay situating the student's work in the contemporary context. Open only to seniors admitted to the English and creative writing major.

**ENGL 4220W. Creative Writing Senior Thesis. 3 Credits.**

Under the guidance of an instructor, the student composes an original manuscript of poetry or short fiction accompanied by an essay situating the student's work in the contemporary context. Open only to seniors admitted to the English and creative writing major. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 4250. Honors Thesis. 3 Credits.**

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English.

**ENGL 4250W. Honors Thesis. 3 Credits.**

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**ENGL 4360. Independent Study. 1-4 Credits.**

For exceptional students, typically majors, whose academic objectives are not accommodated in regular courses. Students must obtain departmental approval and arrange for supervision by an appropriate member of the faculty.

**ENGL 4470. Internship. 1-3 Credits.**

Position of responsibility with a publication, educational project, firm, or cultural organization offering practical experience in research, writing, editing, etc. May be repeated for credit; a maximum of 3 credits may be counted toward the English major. Permission of the supervising faculty required prior to enrollment. P/NP grading only. Restricted to juniors and seniors in the English program.

**ENGL 6100. Introduction to Literary Theory. 3 Credits.**

An overview of methodologies for examining texts as linguistic and cultural productions. Methodologies explored may include structuralism, formalism, deconstruction, cultural materialism, postcolonial theory, feminism, gender studies, and queer theory.

**ENGL 6120. Advanced Literary Theory. 3 Credits.**

The course focuses on a major figure or topic in theory (e.g., Foucault, Lacan, Barthes, Kristeva, Bakhtin, post-Marxist theory, language and power, the canon).

**ENGL 6130. Selected Topics in Criticism. 3 Credits.**

Topics may include cultural studies, film, gay/lesbian studies, others.

**ENGL 6220. Topics in Medieval and Early Modern Studies. 3 Credits.**

Topics may include gender and body; postcolonial approaches to the period; surveys of poetry and/or prose with a special thematic coherence.

**ENGL 6240. Literature of the British Archipelago. 3 Credits.**

The literary and historical texts of early modern and medieval Britain within a pan-insular framework: England in conflict and coexistence with Ireland, Wales, Scotland.

**ENGL 6250. Transnational England. 3 Credits.**

The early literature of England within a global framework: England, Spain, France, Italy, Turkey, the Levant, the Americas, Africa, India, the Caribbean.

**ENGL 6260. Seminar in Medieval and Early Modern Studies. 3 Credits.**

Trends and cutting-edge research in medieval and early modern studies.

**ENGL 6350. Nineteenth Century I. 3 Credits.**

Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

**ENGL 6351. Nineteenth Century II. 3 Credits.**

Continuation of ENGL 6350. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

**ENGL 6352. Nineteenth Century III. 3 Credits.**

Continuation of ENGL 6351. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

**ENGL 6353. Nineteenth Century IV. 3 Credits.**

Continuation of ENGL 6352. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

**ENGL 6450. Twentieth Century I. 3 Credits.**

Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

**ENGL 6451. Twentieth Century II. 3 Credits.**

Continuation of ENGL 6450. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

**ENGL 6452. Twentieth Century III. 3 Credits.**

Continuation of ENGL 6451. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

**ENGL 6453. Twentieth Century IV. 3 Credits.**

Continuation of ENGL 6452. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

**ENGL 6510. Writing, Race, and Nation. 3 Credits.**

Literary culture as a basis for exploration of intersections of origins and evolution of racial and ethnic identities and national myths and political objectives.

**ENGL 6520. Ethnicity and Identity. 3 Credits.**

Literary culture is used to explore how individuals, communities, and societies construct self-awareness and knowledge about others for cultural exchange.

**ENGL 6530. Conceptualizing Genders. 3 Credits.**

Structures of sex and gender difference considered historically and theoretically, including masculinity/femininity, sexualities, and their textual representations.

**ENGL 6540. Women and Writing. 3 Credits.**

Selected topics in the traditions, theory, and texts of women's literary production and culture. Same as WGSS 6251.

**ENGL 6550. Studies in Genre I. 3 Credits.**

Questions of genre, considered theoretically and practically. Content varies.

**ENGL 6551. Studies in Genre II. 3 Credits.**

Continuation of ENGL 6550. Questions of genre, considered theoretically and practically. Content varies.

**ENGL 6560. Postcolonialism. 3 Credits.**

Postcolonial theory and texts by representative writers.

**ENGL 6620. Medicine and Society. 3 Credits.**

The interaction of medicine and society in ways that touch on philosophy, economics, sociology, and public policy, but that cannot be fully understood in terms of any single perspective. Society's effect on medicine and medicine's effect on society.

**ENGL 6630. Literature and Medicine. 3 Credits.**

Methods of critical theory applied to issues concerning the practice of medicine. The polar constructs of illness and health, life and death, and life's worth or its waste.

**ENGL 6720. Independent Research. 3 Credits.**

Written permission of the instructor required prior to enrollment. May be repeated for credit to a maximum of 9 credits.

**ENGL 6740. Mastering the Canon. 3 Credits.**

Independent reading under a faculty member.

**ENGL 6810. Folger Institute Seminars I. 3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

**ENGL 6811. Folger Institute Seminars II. 3 Credits.**

Continuation of ENGL 6810. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

**ENGL 6998. Thesis Research. 3 Credits.****ENGL 6999. Thesis Research. 3 Credits.**

**ENGL 8998. Advanced Reading and Research. 1-12 Credits.**  
May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**ENGL 8999. Dissertation Research. 3-12 Credits.**

May be repeated for credit. ENGL 8999 must be taken as the final 12 credits of the degree. Restricted to doctoral candidates.

## BACHELOR OF ARTS WITH A MAJOR IN CREATIVE WRITING AND ENGLISH

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (33 credits):

Code	Title	Credits
<b>Required</b>		
One course (3 credits) in literature before the 18th century selected from the following:		
ENGL 3410	Chaucer	
or ENGL 3410W	Chaucer	
ENGL 3420	Medieval Literature	
or ENGL 3420W	Medieval Literature	
ENGL 3430	The English Renaissance	
ENGL 3440	Shakespeare I	
or ENGL 3440W	Shakespeare I	
ENGL 3441	Shakespeare II	
or ENGL 3441W	Shakespeare II	
ENGL 3450	Topics in Shakespeare Studies	
ENGL 3460	Milton	
ENGL 3470	English Drama I	
ENGL 3490	Early American Literature and Culture	
or ENGL 3490W	Early American Literature and Culture	
ENGL 4135	Folger Seminar	
One course (3 credits) in literature during the 18th and 19th century selected from the following:		
ENGL 3510	Children's Literature	
ENGL 3520	American Romanticism	
ENGL 3540	Victorian Literature I	
ENGL 3640	The American Novel I	
ENGL 3820	Major Authors	
One course (3 credits) in literature after the 19th century selected from the following:		
ENGL 3510	Children's Literature	
ENGL 3610	Modernism	
ENGL 3621	American Poetry II	
or ENGL 3621W	American Poetry II	
ENGL 3630	American Drama I	
ENGL 3631	American Drama II	

ENGL 3641	The American Novel II
or ENGL 3641W	The American Novel II
ENGL 3650	The Short Story
ENGL 3660	Twentieth-Century Irish Literature I
ENGL 3661	Twentieth-Century Irish Literature II
or ENGL 3661W	Twentieth-Century Irish Literature I
ENGL 3710	Contemporary Drama
or ENGL 3710W	Contemporary Drama
ENGL 3720	Contemporary American Literature
or ENGL 3720W	Contemporary American Literature
ENGL 3721	Contemporary American Literature II
or ENGL 3721W	Contemporary American Literature II
ENGL 3730	Topics in Global Postcolonial Literature and Film
or ENGL 3730W	Topics in Global Postcolonial Literature and Film
ENGL 3850	Ethnicity and Place in American Literature
ENGL 3930	Topics in U.S. Latina/o Literature and Culture
or ENGL 3930W	Topics in U.S. Latina/o Literature and Culture
ENGL 3960	Asian American Literature
or ENGL 3960W	Asian American Literature
ENGL 3970	Jewish American Literature
or ENGL 3970W	Jewish American Literature
One course (3 credits) in minority/postcolonial literature selected from the following:	
ENGL 3570	Nineteenth-Century Black Literature
ENGL 3660	Twentieth-Century Irish Literature I
ENGL 3661	Twentieth-Century Irish Literature II
or ENGL 3661W	Twentieth-Century Irish Literature I
ENGL 3730	Topics in Global Postcolonial Literature and Film
or ENGL 3730W	Topics in Global Postcolonial Literature and Film

ENGL 3850	Ethnicity and Place in American Literature
ENGL 3910	Disability Studies
ENGL 3920	U.S. Latina/o Literature and Culture
ENGL 3930	Topics in U.S. Latina/o Literature and Culture
or ENGL 3930W	Topics in U.S. Latina/o Literature and Culture
ENGL 3940	Topics in African American Literary Studies
ENGL 3950	Cultural Theory and Black Studies
or ENGL 3950W	Cultural Theory and Black Studies
ENGL 3960	Asian American Literature
or ENGL 3960W	Asian American Literature
ENGL 3980	Queer Studies
or ENGL 3980W	Queer Studies
Five creative writing workshops (15 credits), two of which must be at the 3000 level or above, selected from the following:	
ENGL 2250	Dramatic Writing
or TRDA 2250	Dramatic Writing
ENGL 2460	Fiction Writing
ENGL 2470	Poetry Writing
ENGL 2560	Intermediate Fiction Writing
ENGL 2570	Intermediate Poetry Writing
ENGL 3250	Intermediate Dramatic Writing
or TRDA 3250	Intermediate Dramatic Writing
ENGL 3360	Advanced Fiction Writing
ENGL 3370	Advanced Poetry Writing
ENGL 3380	Creative Writing Workshop
ENGL 3390	Topics in Creative Writing
Other required courses (6 credits):	
ENGL 2210	Techniques in Creative Writing
ENGL 3210	Readings in Creative Writing

## SPECIAL HONORS

Majors in Creative Writing and English who wish to be considered for Special Honors must apply in writing in the spring semester of the junior year; they must meet the requirements stated under University Regulations and have a GPA of 3.25 in courses in the English Department at the time of applying. Candidates take the Creative Writing Senior Thesis ENGL 4220 ([http://bulletin.gwu.edu/search/?P=ENGL %204250](http://bulletin.gwu.edu/search/?P=ENGL%204250)) in the spring semester. To be eligible for graduation with Special Honors, candidates must earn an A or A– on the Honors Thesis and have achieved a 3.4 grade-point average in courses in the English Department.

## BACHELOR OF ARTS WITH A MAJOR IN ENGLISH

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite course(s):</b>		
One introductory English literature course selected from the following:		
ENGL 1050	Introduction to Literary Studies	
ENGL 1305	Colonial/Post-Colonial British Literature	
ENGL 1315	Literature and the Financial Imagination	
ENGL 1320	Literature of the Americas	
or ENGL 1320W	Literature of the Americas	
ENGL 1330	Myths of Britain

or ENGL 1411W	Introduction to English Literature II
ENGL 1510	Introduction to American Literature I
or ENGL 1510W	Introduction to American Literature I
ENGL 1511	Introduction to American Literature II
or ENGL 1511W	Introduction to American Literature II
ENGL 1610	Introduction to Black American Literature I
or ENGL 1610W	Introduction to Black American Literature I
ENGL 1611	Introduction to Black American Literature II
or ENGL 1611W	Introduction to Black American Literature II
ENGL 1710	Introduction to Postcolonial Literature and Film I
or ENGL 1710W	Introduction to Postcolonial Literature and Film I
ENGL 1711	Introduction to Postcolonial Literature and Film II
or ENGL 1711W	Introduction to Postcolonial Literature and Film II
ENGL 1712	Introduction to Bollywood Cinema
or ENGL 1712W	Introduction to Bollywood Cinema
ENGL 1830	Tragedy
ENGL 1840	Comedy
or ENGL 1840W	Comedy

Code	Title	Credits
------	-------	---------

#### Required courses in related areas:

#### Required for the major:

33 credits of upper-division English courses including:

Two courses in literature before the 18th century from the following:

ENGL 3410	Chaucer
ENGL 3420	Medieval Literature
ENGL 3430	The English Renaissance
ENGL 3440	Shakespeare I
ENGL 3441	Shakespeare II

ENGL 3446	Shakespearean London
ENGL 3450	Topics in Shakespeare Studies
ENGL 3460	Milton
ENGL 3470	English Drama I
ENGL 3490	Early American Literature and Culture
ENGL 4135	Folger Seminar

Two courses in literature between the 18th and 19th centuries from the following:

Certain special topics and major authors courses may fulfill this requirement.

ENGL 3480	Eighteenth-Century British Literature
ENGL 3481	The Eighteenth Century II
ENGL 3490	Early American Literature and Culture
ENGL 3510	Children's Literature
ENGL 3530	The British Romantic Period
or ENGL 3530W	The British Romantic Period
ENGL 3540	Victorian Literature I
ENGL 3541	Victorian Literature II
ENGL 3550	The English Novel I
ENGL 3551	The English Novel II
ENGL 3520	American Romanticism
ENGL 3560	American Realism
ENGL 3620	American Poetry I
ENGL 3620	American Poetry II
ENGL 3640	The American Novel I
ENGL 3570	Nineteenth-Century Black Literature

One course in literature after the 19th century from the following:

Certain special topics and major authors courses may fulfill this requirement.

ENGL 3510	Children's Literature
ENGL 3610	Modernism
ENGL 3621	American Poetry II
ENGL 3630	American Drama I

ENGL 3631	American Drama II
ENGL 3641	The American Novel II
ENGL 3650	The Short Story
ENGL 3660	Twentieth-Century Irish Literature I
ENGL 3661	Twentieth-Century Irish Literature II
ENGL 3710	Contemporary Drama
ENGL 3720	Contemporary American Literature
ENGL 3721	Contemporary American Literature II
ENGL 3730	Topics in Global Postcolonial Literature and Film
ENGL 3826	Toni Morrison and William Faulkner
ENGL 3850	Ethnicity and Place in American Literature
ENGL 3930	Topics in U.S. Latina/o Literature and Culture
ENGL 3960	Asian American Literature
ENGL 3970	Jewish American Literature
One course in minority/postcolonial literature from the following:	
Certain special topics and major authors courses may fulfill this requirement.	
ENGL 3570	Nineteenth-Century Black Literature
ENGL 3660	Twentieth-Century Irish Literature I
ENGL 3661	Twentieth-Century Irish Literature II
ENGL 3730	Topics in Global Postcolonial Literature and Film
ENGL 3826	Toni Morrison and William Faulkner
ENGL 3850	Ethnicity and Place in American Literature
ENGL 3910	Disability Studies
ENGL 3920	U.S. Latina/o Literature and Culture
ENGL 3930	Topics in U.S. Latina/o Literature and Culture
ENGL 3940	Topics in African American Literary Studies
ENGL 3950	Cultural Theory and Black Studies

ENGL 3960 Asian American Literature

ENGL 3965 Topics in Asian American Cultural Studies

ENGL 3980 Queer Studies

Two courses in literary theory and/or cultural studies including ENGL 2800W and one of the following:

Certain special topics and major authors courses may fulfill this requirement.

ENGL 2240 Play Analysis

ENGL 2800 Introduction to Critical Theory

ENGL 3610 Modernism

ENGL 3830 Topics in Literary Theory and Cultural Studies

ENGL 3840 Gender and Literature

ENGL 3860 Topics in the History of the English Language

ENGL 3910 Disability Studies

ENGL 3920 U.S. Latina/o Literature and Culture

ENGL 3950 Cultural Theory and Black Studies

ENGL 3965 Topics in Asian American Cultural Studies

ENGL 3980 Queer Studies

ENGL 4040 Honors Seminar

Three additional upper-division English courses, which may be in creative writing. With approval of the English Department, two courses in the literature of a foreign language (either in the original language or in translation) may be substituted for English electives.

ENGL 2800W Introduction to Critical Theory

With departmental approval, courses with appropriate subject matter may be substituted for those specified above. A single course may fulfill only one requirement.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must apply in writing in the spring semester of the junior year; and they must have a GPA of 3.25 in courses in the English Department at the time of applying. Candidates take ENGL 4040 Honors Seminar in the fall semester of the senior year and ENGL 4250 Honors Thesis in the spring semester. Candidates must earn an A or A– on the

Honors Thesis and have achieved a 3.4 grade-point average in courses in the English Department.

## DUAL BACHELOR OF ARTS WITH A MAJOR IN ENGLISH AND MASTER OF ARTS IN THE FIELD OF ENGLISH

The Department of English offers a dual bachelor of arts with a major in English (p. 210) and master of arts in the field of English (p. 214) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://english.columbian.gwu.edu/combined-bama-program-study>) for additional information.

## MINOR IN CREATIVE WRITING

The following requirements must be fulfilled: 21 credits selected from the following options:

Code	Title	Credits
<b>One introductory literature course (3 credits) from the following:</b>		
ENGL 1305	Colonial/Post-Colonial British Literature	
ENGL 1315	Literature and the Financial Imagination	
ENGL 1320	Literature of the Americas	
or ENGL 1320W	Literature of the Americas	
ENGL 1330	Myths of Britain	
or ENGL 1330W	Myths of Britain	
ENGL 1340	Essential Shakespeare	
or ENGL 1340W	Essential Shakespeare	
ENGL 1410	Introduction to English Literature I	
or ENGL 1410W	Introduction to English Literature I	
ENGL 1411	Introduction to English Literature II	
or ENGL 1411W	Introduction to English Literature II	
ENGL 1510	Introduction to American Literature I	
or ENGL 1510W	Introduction to American Literature I	

ENGL 1511	Introduction to American Literature II
or ENGL 1511W	Introduction to American Literature II
ENGL 1610	Introduction to Black American Literature I
or ENGL 1610W	Introduction to Black American Literature I
ENGL 1611	Introduction to Black American Literature II
or ENGL 1611W	Introduction to Black American Literature II
ENGL 1710	Introduction to Postcolonial Literature and Film I
or ENGL 1710W	Introduction to Postcolonial Literature and Film I
ENGL 1711	Introduction to Postcolonial Literature and Film II
or ENGL 1711W	Introduction to Postcolonial Literature and Film II
ENGL 1830	Tragedy
or ENGL 1830W	Tragedy
ENGL 1840	Comedy
or ENGL 1840W	Comedy

Code	Title	Credits
<b>Six courses (18 credits) from the following, of which five must be in creative writing:</b>		
At least three in poetry:		
ENGL 2470	Poetry Writing	
ENGL 2570	Intermediate Poetry Writing	
ENGL 3370	Advanced Poetry Writing	
ENGL 3380	Creative Writing Workshop	
Or three in fiction:		
ENGL 2460	Fiction Writing	
ENGL 2560	Intermediate Fiction Writing	
ENGL 3360	Advanced Fiction Writing	
ENGL 3380	Creative Writing Workshop	
Or two in dramatic writing:		
ENGL 2250	Dramatic Writing	

or TRDA 2250	Dramatic Writing
ENGL 3250	Intermediate Dramatic Writing
or TRDA 3250	Intermediate Dramatic Writing
ENGL 3390	Topics in Creative Writing

Visit the program website (<https://english.columbian.gwu.edu/creative-writing>) for additional information.

## MINOR IN ENGLISH REQUIREMENTS

The following requirements must be fulfilled: 18 credits in selected courses.

Code	Title	Credits
<b>One introductory courses (3 credits) from the following:</b>		
ENGL 1305	Colonial/Post-Colonial British Literature	
ENGL 1315	Literature and the Financial Imagination	
ENGL 1320/1320W	Literature of the Americas	
ENGL 1330/1330W	Myths of Britain	
ENGL 1340/1340W	Essential Shakespeare	
ENGL 1410/1410W	Introduction to English Literature I	
ENGL 1411/1411W	Introduction to English Literature II

ENGL 1511/1511W	Introduction to American Literature II	
ENGL 1610/1610W	Introduction to Black American Literature I	
ENGL 1611/1611W	Introduction to Black American Literature II	
ENGL 1710/1710W	Introduction to Postcolonial Literature and Film I	
ENGL 1711/1711W	Introduction to Postcolonial Literature and Film II	
ENGL 1830/1830W	Tragedy	

ENGL 1840/1840W	Comedy
-----------------	--------

### Remaining requirement

Five literature courses (15 credits) in English (ENGL) numbered 2000 or above.

## MINOR IN ENGLISH FOR BUSINESS STUDENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
ENGL 1315	Literature and the Financial Imagination	
ENGL 3400	Topics in Literature and Finance	
<b>Electives</b>		
Four elective courses (12 credits) in English (ENGL) courses at the 3000-level.		

## MASTER OF ARTS IN THE FIELD OF ENGLISH WITH OPTIONAL CONCENTRATIONS IN ENGLISH OR AMERICAN LITERATURE REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Non-thesis option—30 credits; including 30 credits in required courses and a final master's portfolio; thesis option—30 credits, including 24 credits in required courses and 6 credits of thesis.

Code	Title	Credits
<b>Required</b>		
ENGL 6100	Introduction to Literary Theory	
<b>For students pursuing the thesis option only</b>		
ENGL 6998	Thesis Research	
ENGL 6999	Thesis Research	

The remainder of the program is developed in consultation with the departmental advisor.

Students must maintain a minimum grade-point average of 3.25.

Visit the program website (<https://english.columbian.gwu.edu/graduate>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF ENGLISH WITH OPTIONAL CONCENTRATIONS IN ENGLISH OR AMERICAN LITERATURE

### REQUIREMENTS

Prerequisite: a bachelor of arts degree with an undergraduate major in English or American literature, or 24 credits in English or American literature above the sophomore level.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

#### Required:

1. Coursework planned in consultation with the department advisor
2. A comprehension exam in a language approved by the department
3. A qualifying examination passed at the beginning of the student's second year and a field examination passed by the end of the student's coursework, topics and reading lists for which are designed in consultation with two graduate faculty advisors
4. A dissertation proposal after the field exam
5. A dissertation on an approved topic, directed by a member of the department's graduate faculty, and completed by the end of the fifth year of study.

Each student plans a program of studies in consultation with the department advisor and a committee of the graduate faculty. Students must maintain a grade-point average of at least 3.5.

Visit the program website (<https://english.columbian.gwu.edu/phd-program>) for additional information.

## ENGLISH FOR ACADEMIC PURPOSES

### OVERVIEW

The mission of the English for Academic Purposes (EAP) program is to help socialize international students who speak English as a second or additional language into the GW community. EAP helps prepare students to meet academic expectations for communication at a university level by offering core courses that focus on academic research and writing, as well as elective courses that target oral academic communication and other critical academic literacy skills. The program's instructional practices are grounded in the fields of TESOL, applied linguistics, and writing studies. Through their work in the program, students build an academic skill set that benefits them in their coursework and in their professional careers.

Visit the English for Academic Purposes program website (<https://eap.columbian.gwu.edu>) for additional information.

### FACULTY

**Director** M. Siczek

**Assistant Professor** N.D. Jacobsen (Teaching)

**Adjunct Professor** N. Romanova

### COURSES

#### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Students who are not placed into EAP 6110 Academic Writing and Research for International Graduate Students I and EAP 6111 Academic Writing and Research for International Graduate Students II require instructor's permission to register.

#### **EAP 1010. Academic Communication. 3 Credits.**

Develops international students' oral academic English skills to prepare them for success in U.S. higher educational settings. Focus on listening and note-taking, leading and participating in class discussions, managing a variety of authentic academic literacy tasks, and delivering presentations. Additional emphasis on developing multi-literacy through intercultural, multimedia, and visual communication. Restricted to international students.

**EAP 1015. American Multicultural Perspectives in Washington, DC. 3 Credits.**

Designed to prepare international undergraduate students for university-level writing expectations. A structured academic writing course that explores the capital's rich multicultural heritage. Focus on the development of academic literacy skills, drafting and revising, and research-based writing. Upon successful completion of EAP 1015, students take UW 1020.

**EAP 1016. Academic Skills Workshop. 1 Credit.**

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree.

**EAP 1046. Independent Study. 1-4 Credits.**

Individualized instruction in specific skill areas. Program director approval required. Credit for this course cannot be applied toward a degree.

**EAP 3200. Special Topics in English for Academic Purposes. 3 Credits.**

This special topics course targets academic communication in specialized or advanced contexts. Class activities and assignments reflect an analysis of student needs in disciplinary or professional fields. Course content draws on authentic materials and tasks to prepare students for success in written and oral communication.

**EAP 6000. Academic Communication. 3 Credits.**

Acclimation to the oral communication expectations of graduate school through developing listening and note-taking skills, expanding communicative vocabulary, leading and participating in class discussions, and preparing and delivering informal and formal presentations. Classroom activities directed toward scholarly and professional communication in students' fields of study whenever possible. Credit does not apply to any degree or certificate offered by GW.

**EAP 6016. Academic Skills Workshop. 1 Credit.**

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree. (Same as EAP 1016).

**EAP 6110. Academic Writing and Research for International Graduate Students I. 3 Credits.**

Introduction to research-based academic writing for university-level graduate study; rhetorical awareness, working with academic sources, summary structure, the process of drafting and revising written work, grammatical accuracy, paraphrasing, source citation, and plagiarism prevention; academic skills development tasks target specific writing challenges faced by second language writers. Credit for this course does not apply toward any degree or certificate offered by GW.

**EAP 6111. Academic Writing and Research for International Graduate Students II. 3 Credits.**

An academic writing and research course for international students who demonstrate high proficiency in English. Focus on research paper writing, reading and analysis of academic discourse, small-group work, and oral presentations on research. Credit for this course does not apply toward any degree or certificate offered by GW.

**EAP 6200. Special Topics in English for Academic Purposes. 3 Credits.**

Academic communication in specialized or advanced contexts. Class activities and assignments reflect an analysis of student needs in disciplinary or professional fields. Course content draws on authentic materials and tasks to prepare students for success in written and oral communication.

---

## ENVIRONMENTAL STUDIES

The Columbian College of Arts and Sciences offers an interdisciplinary program in environmental studies leading to the degree of bachelor of arts. Housed in the Department of Geography (<https://geography.columbian.gwu.edu>), the major combines courses drawn from biological sciences, geological sciences, and geography, as well as American studies, anthropology, economics, English, history, public health, religion, sociology, and statistics.

Visit the Environmental Studies program website (<https://geography.columbian.gwu.edu/environmental-studies-major>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in environmental studies (p. 216)

### Combined Program

- Dual Bachelor of Arts with a major in environmental studies and Master of Arts in the field of environmental resource policy (p. 218)

## FACULTY

**Director** D. Rain

**Adviser** M. Keeley

## BACHELOR OF ARTS WITH A MAJOR IN ENVIRONMENTAL STUDIES

---

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Foundational courses</b>		
BISC 1006	The Ecology and Evolution of Organisms	
or		
BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory	
GEOG 1002	Introduction to Physical Geography	
or GEOL 1005	Environmental Geology	
GEOG 1003	Society and Environment	
GEOG 2104	Introduction to Cartography and GIS	
STAT 1053	Introduction to Statistics in Social Science	

Code	Title	Credits
<b>Requirements for the major</b>		
GEOG 2196	Field Methods in Geography (or equivalent)	
Three of the following science courses:		
BISC 2305	Plant Biology	
BISC 2459	Ecology Economy Sustainability	
BISC 2467	Marine Biology	
BISC 3325	Environmental Physiology	
BISC 3454	Marine Ecology	
BISC 3461	Plant-Animal Interactions	
BISC 3464	Ecology and Evolution of Societies	
CHEM 3140	Geochemistry	
GEOL 2151	Introduction to Paleontology	
GEOL 3138	Hydrogeology	
GEOL 3191	Geology of Energy Resources	
BISC 2454	General Ecology	

BISC 3460	Conservation Biology
BISC 3459	Field Biology *
CHEM 2085	Environmental Chemistry
GEOG 2108	Weather and Climate
GEOG 2128	Geomorphology *
GEOG 2136	Water Resources
GEOL 2106	Oceanography
Three of the following society courses:	
ANTH 3407	Conservation in a Changing World: Human and Animal Behavior
ANTH 3502	Cultural Ecology
GEOG 2127	Population Geography
GEOG 2137	Environmental Hazards
IAD 3410	Sustainability and LEED for Architecture and Design
PHIL 2281	Philosophy of the Environment
PUBH 2114	Environment, Health, and Development
PUBH 3132	Health and Environment
PUBH 3150	Sustainable Energy and Environmental Health
SUST 2002	The Sustainable City
ECON 2136	Environmental and Natural Resource Economics
GEOG 2133	People, Land, and Food
GEOG 2134	Energy Resources
GEOG 3143	Urban Sustainability
GEOG 3132	Environmental Quality and Management
GEOL 3193	Intro to Environmental Law
HIST 3001	Special Topics (an environmental topic)
PPPA 2701	Sustainability and Environmental Policy
<b>Capstone</b>	
ENVR 4195	Environmental Studies Capstone
<b>Electives</b>	

Two additional upper-level courses chosen from the Science and Society course lists

\* May also count toward field methods requirement.

## DUAL BACHELOR OF ARTS WITH A MAJOR IN ENVIRONMENTAL STUDIES AND MASTER OF ARTS IN THE FIELD OF ENVIRONMENTAL RESOURCE POLICY

The Department of Geography and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in environmental studies (p. 216) and master of arts in the field of environmental resource policy (p. 365) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://enrp.columbian.gwu.edu/combined-bama-degree>) for additional information.

## FILM STUDIES

Housed in the Columbian College of Arts and Sciences, film studies covers classical film aesthetics, surveys the history of world cinema, and takes an in-depth look at films from the United States, China, France, Germany, Japan, the Middle East, Russia, and the Spanish-speaking world.

Visit the Film Studies program website (<https://filmstudies.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Minor

- Minor in film studies (p. 218)

## FACULTY

**Committee on Film Studies** E. Anker (*Director*), Y. Captain, H. Feigenbaum, K. Harvey, A. Hildebeitel, P. Rollberg, N. Seavey

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **FILM 2151. Film Theory. 3 Credits.**

A reading-intensive immersion in classical film aesthetics and a survey of the theoretical and critical canon of cinema literature. Laboratory fee.

#### **FILM 2152. Genres of Film. 3 Credits.**

An exploration of the relationship between cinematic structure and narrative content in various types of film. Laboratory fee.

#### **FILM 2153. History of World Cinema I. 3 Credits.**

A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

#### **FILM 2154. History of World Cinema II. 3 Credits.**

Continuation of FILM 2153. A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

#### **FILM 2155. Screenwriting. 3 Credits.**

Introduction to the art and craft of screenwriting—concept, genre, character, structure, dialogue, scene/sequence construction, and, ultimately, the preparation of scripts and treatments for a variety of screen formats.

#### **FILM 2156. Advanced Screenwriting. 3 Credits.**

Advanced phases of screenwriting culminating in the preparation of a full-length screenplay, with contextual study of contemporary, international, and classical films toward a fuller appreciation of movies as a cultural whole.

#### **FILM 3390. Screenwriting. 3 Credits.**

## MINOR IN FILM STUDIES REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including 12 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
FILM 2151	Film Theory	
FILM 2152	Genres of Film	
FILM 2153	History of World Cinema I	
FILM 2154	History of World Cinema II	

## Electives

Three from the following:

AMST/AH 1070	The American Cinema
AMST 1100	Politics and Film
AMST 6190	Topics in American Studies (Democracy in Film)
ARAB 3502	Arab Film and Culture in English
CHIN 3162	Chinese Culture Through Film
CHIN 3163	Taiwanese Literature and Film
CLAS 3103	Israeli Cinema
CLAS 3114	Topics in Ancient Literatures and Cultures (Classics and Film)
CLAS 3202	Arab Film and Culture
ENGL 1712	Introduction to Bollywood Cinema
ENGL 3445	Shakespeare on Film
ENGL 3730W	Topics in Global Postcolonial Literature and Film (Gender and Sexuality in PocoFilm)
ENGL 3810	Selected Topics in Literature (Disability and Film)
FILM 2155	Screenwriting
FILM 2156	Advanced Screenwriting
FREN 3560	Topics in Contemporary Francophone Literature and Cinema
FREN 3700	History of French Cinema
GER 3181	History of German Cinema—in English
GER 3187	German Cinema after 1945
ITAL 4183	History of Italian Film
JAPN 3162	Japanese Culture Through Film
KOR 3162	Korean Culture through Film
MUS 1104	Topics in Music (Music on Film, Film on Music)
MUS 3174	Topics in Music Theory and Composition (Composing for Film)
PERS 3502	Post-Revolutionary Iranian Cinema
PHIL 1062	Philosophy and Film

SLAV 2785	Introduction to Russian Cinema I
SLAV 2786	Introduction to Russian Cinema II
SMPA 1000	Dean's Seminar (Hollywood and Politics)
SMPA 3194	Selected Topics in Political Communication *
or SMPA 3195	Selected Topics in Journalism and Mass Communication
SPAN 3560	Early Modern Poetry of Spain and Latin America
SPAN 3700	Cinema of Spain and Latin America
SMPA 6231	Documentary Filmmaking Practicum
SMPA 6274	Media and War

\*Special topics courses must have the approval of the Program Director and will be considered only if the section covers a film-focused topic. SMPA 3194 and SMPA 3195 are offered on the same topic simultaneously. Topics offered include Film and Social Justice; Film and the American President; and War and Terrorism in Hollywood Film. For each section offered, students must choose to register under either SMPA 3194 or SMPA 3195.

## FINE ARTS AND ART HISTORY

The Department of Fine Arts and Art History offers instruction in the visual and creative arts. Its programs strengthens a student's ability to develop visual literacy, as well as critical thinking and creative skills. Classroom study is supplemented by partnerships with the art museums and libraries of Washington, DC.

Fine Arts, an interdisciplinary program, fosters a rigorous, experimental approach to art as students cultivate creative pursuits in the studio and beyond.

Art History is rooted in direct, interpretive engagement with the visual arts. The program combines visual and historical analyses with philosophical hypotheses and theoretical, political debates. The curriculum promotes connections to the studio arts and interdisciplinary exchanges with other fields of inquiry. It also emphasizes the narrative qualities and rhetorical persuasiveness of art historical writing in dialogue with art objects, spaces, and performances.

Visit the Corcoran School of the Arts and Design website (<https://corcoran.gwu.edu>) for additional information.

# UNDERGRADUATE

## Bachelor's programs

- Bachelor of Arts with a major in art history (p. 220)
- Bachelor of Arts with a major in fine arts (p. 222)
- Bachelor of Arts with a dual major in art history and in fine arts (p. 225)

## Minors

- Minor in art history (p. 228)
- Minor in fine arts (p. 228)
- Dual minor in art history and fine arts (p. 229)

## Combined programs

- Dual Bachelor of Arts with a major in art history and Master of Arts in the field of art history (p. 228)
- Dual Bachelor of Arts with a major in fine arts and Master of Arts in the field of art therapy (p. 228)

# GRADUATE

## Master's programs

- Master of Arts in the field of art history (p. 229)
- Master of Fine Arts in the field of fine arts (p. 230)

## FACULTY

**Professors** B. von Barghahn, D. Bjelajac, T. Ozdogan, P. Jacks, L.F. Robinson.

**Associate Professors** A.B. Dumbadze (*Chair*), D. Kessmann, B.K. Obler, S. Rigg.

**Assistant Professors** J. Brown, M. Natif, J.G.H. Sham.

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Upper-division undergraduate fine arts Special Topics and Critical Practices courses may be repeated for credit when topic is different with approval of the undergraduate fine arts advisor or the department chair. A course fee is charged for all fine arts courses listed here except FA 1075 East Asian Calligraphy, FA 4195 Critical Practices, and FA 4199 Internship.

Note: Core graduate fine arts courses may be repeated for credit with approval of the department. A course fee is charged for all fine arts courses listed here except FA 6295 Critical Practices and FA 6998 Thesis Research-FA 6999 Thesis Research.

- Art History (AH) (p. 1145)
- Fine Arts (FA) (p. 1331)

## BACHELOR OF ARTS WITH A MAJOR IN ART HISTORY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Additional curriculum requirements:

Code	Title	Credits
<b>Required</b>		
At least one course from six of the seven categories below and one additional course from any category for a total of 21 credits.		
Ancient		
AH 3101	Ancient Art of the Bronze Age and Greece	
AH 3102	Ancient Art of the Roman Empire	
AH 3103	Art and Archaeology of Egypt and the Near East	
AH 3104	Art and Archaeology of the Aegean Bronze Age	
or ANTH 3806	Art and Archaeology of the Aegean Bronze Age	
AH 3105	Topics in Ancient Art and Archaeology	
AH 3106	Art and Archaeology of Israel and Neighboring Lands	
AH 4109	Topics in Ancient Art and Archaeology	
Medieval and Islamic world		
AH 3111	Early Christian and Byzantine Art and Architecture	
AH 3112	Romanesque and Gothic Art and Architecture	
AH 3113	Islamic Art and Architecture	

AH 3114	Art of the Book in the Medieval Muslim World
AH 3120	Italian Art and Architecture of the 13th through 15th Centuries
AH 4119	Seminar in Medieval Art and Architecture
AH 4165	Topics in Islamic Art and Architecture
Renaissance and Baroque	
AH 3121	Italian Art and Architecture of the Sixteenth Century
AH 3122	Topics in Early Northern Renaissance Art and Architecture
AH 3122W	Topics in Early Northern Renaissance Art and Architecture
AH 3123	Topics in Northern Renaissance Art and Architecture
AH 3123W	Topics in Northern Renaissance Art and Architecture
AH 3131	Italian Art and Architecture of the Seventeenth Century
AH 3132	Topics in Northern European Art and Architecture of the Seventeenth Century
AH 3134	Topics in Spanish and Portuguese Art through the Sixteenth Century
AH 3134W	Topics in Spanish and Portuguese Art through the Sixteenth Century
AH 3135	Topics in Seventeenth/Eighteenth Century Spanish and Portuguese Art
AH 4129	Seminar in Renaissance Art and Architecture
AH 4139	Seminar in Baroque Art and Architecture
Eighteenth and Nineteenth Centuries	
AH 2145	History of Decorative Arts: European Heritage
AH 2154 or AMST 2520	American Architecture I American Architecture I
AH 2161	History of Decorative Arts: American Heritage
AH 3140	European Art of the Eighteenth Century

AH 3141	European Art of the Early Nineteenth Century
AH 3141W	European Art of the Early Nineteenth Century
AH 3142	European Art of the Late Nineteenth Century
AH 3142W	European Art of the Late Nineteenth Century
AH 3151	American Art in the Age of Revolution
AH 3152	American Art in the Era of National Expansion
Modern and contemporary	
AH 2071	Introduction to the Arts in America
AH 2155	American Architecture II
AH 2162	History of Photography
AH 2162W	History of Photography
AH 3143	Early Twentieth-Century Art
AH 3143W	Early Twentieth-Century Art
AH 3146	Modern Architecture in Europe and America
AH 3146W	Modern Architecture in Europe and America
AH 3153	American Art of the Twentieth Century
AH 3165	Later Twentieth-Century Art
AH 3165W	Later Twentieth-Century Art
AH 4149	Seminar in Modern European Art and Architecture
AH 4169	Seminar in Contemporary Art
Asian	
AH 2190	East Asian Art
AH 2191	South Asian Art
AH 2192	The Art of Southeast Asia
AH 3181	Special Topics in Asian Art
AH 3182	Special Topics in South Asian Art
AH 3182W	Special Topics in South Asian Art
AH 4182	Special Topics in South Asian Art

Pre-Columbian, Latin American, and African

AH 1107	Ancient Mexican Civilizations
or ANTH 3814	Ancient Mexican Civilizations

AH 3116	The Aztec Empire
---------	------------------

AH 3117	Special Topics in Precolumbian Art and Archaeology
---------	--

AH 3160	Latin American Art and Architecture
---------	-------------------------------------

Junior and senior seminars

At least two of the following for a total of 6 credits:

AH 4109	Topics in Ancient Art and Archaeology
---------	---------------------------------------

AH 4119	Seminar in Medieval Art and Architecture
---------	--

AH 4129	Seminar in Renaissance Art and Architecture
---------	---

AH 4139	Seminar in Baroque Art and Architecture
---------	---

AH 4149	Seminar in Modern European Art and Architecture
---------	---

AH 4159	Seminar in American Art and Architecture
---------	--

AH 4159W	Seminar in American Art and Architecture
----------	--

AH 4165	Topics in Islamic Art and Architecture
---------	--

AH 4169	Seminar in Contemporary Art
---------	-----------------------------

AH 4182	Special Topics in South Asian Art
---------	-----------------------------------

AH 4189	Seminar: Special Topics in Art History
---------	--

One Fine Arts (FA) course at any level for a total of 3 credits.

### Electives

Any two courses from the categories above and/or the following list for a total of 6 credits:

AH 1000	Dean's Seminar
---------	----------------

AH 1031	Survey of Art and Architecture I
---------	----------------------------------

AH 1032	Survey of Art and Architecture II
---------	-----------------------------------

AH 1070	The American Cinema
---------	---------------------

AH 1099	Variable Topics
---------	-----------------

AH 1135	Spanish Art: Prado/Thyssen Museums
---------	------------------------------------

AH 1136	Spanish Art: From Goya to Picasso
---------	-----------------------------------

AH 2001	Special Topics
---------	----------------

AH 2001W	Special Topics
----------	----------------

AH 3099	Variable Topics
---------	-----------------

AH 3170	Materials, Methods, and Techniques in Art History
---------	---

AH 4197	Senior Thesis
---------	---------------

AH 4198	Independent Study
---------	-------------------

AH 4199	Internship in Art History
---------	---------------------------

With prior approval from the Director of Undergraduate Studies, students may select up to 6 credits of electives from relevant coursework in another department.

## SPECIAL HONORS

To be eligible to write a Senior Thesis and for Honors in Art History, students must have attained, by the end of the junior year, a grade-point average of at least 3.5 in the major and 3.3 overall. By the end of the junior year, students should consult the Director of Undergraduate Studies regarding eligibility and selection of an area of research and the appropriate faculty members to supervise the project. We recommend that students strongly consider taking the full two semesters to complete the thesis. If writing the thesis in one semester, students should consider basing their project on pre-existing research from a previous course. The student registers for AH 4197 Senior Thesis, which may count toward an elective in fulfillment of the major. The student works closely with a Thesis Advisor on the thesis, gaining additional feedback from one or two Readers at the draft stage. A faculty committee judges whether the Senior Thesis qualifies for Honors.

## BACHELOR OF ARTS WITH A MAJOR IN FINE ARTS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
One course (3 credits) of introductory art history from the following:		
AH 1032	Survey of Art and Architecture II	

AH 2071	Introduction to the Arts in America
AH 2162	History of Photography
or AH 2162W	History of Photography
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts
Two courses (6 credits) of art history from the following:	
AH 2071	Introduction to the Arts in America
AH 2109W	European Art: Early 19th Cent
AH 2110W	European Art: Late 19th Cent
AH 2154	American Architecture I
AH 2154	American Architecture I
AH 2155	American Architecture II
AH 2161	History of Decorative Arts: American Heritage
AH 2162	History of Photography
or AH 2162W	History of Photography
AH 2190	East Asian Art
AH 2191	South Asian Art
AH 2192	The Art of Southeast Asia
AH 3101	Ancient Art of the Bronze Age and Greece
AH 3102	Ancient Art of the Roman Empire
AH 3103	Art and Archaeology of Egypt and the Near East
AH 3104	Art and Archaeology of the Aegean Bronze Age
AH 3105	Topics in Ancient Art and Archaeology
AH 3106	Art and Archaeology of Israel and Neighboring Lands
AH 3107	Ancient Mexican Civilizations
AH 3111	Early Christian and Byzantine Art and Architecture
AH 3112	Romanesque and Gothic Art and Architecture
AH 3113	Islamic Art and Architecture

AH 3114	Art of the Book in the Medieval Muslim World
AH 3117	Special Topics in Precolumbian Art and Archaeology
AH 3120	Italian Art and Architecture of the 13th through 15th Centuries
AH 3121	Italian Art and Architecture of the Sixteenth Century
AH 3122	Topics in Early Northern Renaissance Art and Architecture
or AH 3122W	Topics in Early Northern Renaissance Art and Architecture
AH 3123	Topics in Northern Renaissance Art and Architecture
or AH 3123W	Topics in Northern Renaissance Art and Architecture
AH 3131	Italian Art and Architecture of the Seventeenth Century
AH 3132	Topics in Northern European Art and Architecture of the Seventeenth Century
AH 3134	Topics in Spanish and Portuguese Art through the Sixteenth Century
or AH 3134W	Topics in Spanish and Portuguese Art through the Sixteenth Century
AH 3135	Topics in Seventeenth/Eighteenth Century Spanish and Portuguese Art
AH 3140	European Art of the Eighteenth Century
AH 3141	European Art of the Early Nineteenth Century
or AH 3141W	European Art of the Early Nineteenth Century
AH 3142	European Art of the Late Nineteenth Century
or AH 3142W	European Art of the Late Nineteenth Century
AH 3143	Early Twentieth-Century Art
AH 3146	Modern Architecture in Europe and America
or AH 3146W	Modern Architecture in Europe and America
AH 3151	American Art in the Age of Revolution
AH 3152	American Art in the Era of National Expansion

AH 3153	American Art of the Twentieth Century
AH 3160	Latin American Art and Architecture
AH 3165	Later Twentieth-Century Art
AH 3170	Materials, Methods, and Techniques in Art History
AH 4119	Seminar in Medieval Art and Architecture
AH 4129	Seminar in Renaissance Art and Architecture
AH 4139	Seminar in Baroque Art and Architecture
AH 4149	Seminar in Modern European Art and Architecture
AH 4159	Seminar in American Art and Architecture
or AH 4159W	Seminar in American Art and Architecture
AH 4189	Seminar: Special Topics in Art History
Three courses (9 credits) from the following. The three courses should be drawn from three different areas.	
FA 1000	Dean's Seminar
Ceramics	
FA 1101	Introduction to Handbuilt Ceramics
FA 1102	Introduction to Wheelthrown Ceramics
Sculpture	
FA 1201	Sculpture: Material Investigations
Drawing	
FA 1301	Drawing Fundamentals
Painting	
FA 1401	Painting: Visual Thinking
Photography	
FA 1501	Black and White Photography
FA 1502	Color Photography
New Media	
FA 1601	New Media: Digital Art
One second-year seminar (3 credits):	

FA 2001 Concept Lab

Three courses (9 credits) from the following. Minimum of one course from at least two different areas.

Ceramics

FA 2111 Ceramic Design in Handbuilt Forms

FA 2112 Ceramic Design in Wheelthrown Forms

FA 2113 Ceramic Sculpture

FA 3101 Special Topics: Ceramics

Sculpture

FA 2211 Sculpture Fabrication

FA 2212 Sculpture: Design in Action

FA 2213 Digital Fabrication

FA 3201 Special Topics: Sculpture

Drawing

FA 2311 Drawing: Perception and Mark Making

FA 2312 Advanced Drawing Techniques

FA 2313 Experimental Drawing

FA 3301 Special Topics: Drawing

Painting

FA 2411 Painting: Watercolor

FA 2412 Painting a Figure

FA 2413 Painting: Process and Materials Lab

FA 2431 Painting: Contemporary Issues

FA 3401 Special Topics: Painting

Photography

FA 2511 Photography: Abstraction versus Representation

FA 2512 Photography: Altered Landscapes

FA 2513 Photography: From Photograms to Scanograms

FA 2531 Photography: Contemporary Issues

FA 3501 Special Topics: Photography

New Media

FA 2611 Video Art and Time-based Media

FA 2612	Video: Remixing the Archive
FA 2613	Site and Sound
FA 3601	Special Topics: New Media
Two courses (6 credits) of cross-disciplinary courses from the following:	
FA 3901	Special Topics: Fine Arts
FA 3911	Collaborative Practices: Social Practices of Art
FA 3912	The Cinematic in Contemporary Art
FA 3913	Painting: Off the Wall
FA 3951	Creative Photovoltaics
Two capstone courses (6 credits):	
FA 4193	Professional Practices
FA 4195	Critical Practices
One elective fine arts course (3 credits), from any course listed above or,	
FA 4199	Internship
Additionally, required participation in a capstone exhibition, concurrently with FA 4195	

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained, by the end of the junior year, a grade-point average of at least 3.5 in the major and 3.3 overall. By the end of the junior year, students should consult their advisor regarding eligibility, selection of an area of study, and a director of the research or creative arts project.

## BACHELOR OF ARTS WITH A DUAL MAJOR IN ART HISTORY AND IN FINE ARTS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Additional curriculum requirements:

Code	Title	Credits
<b>Art History</b>		
At least one course from six of the seven categories below and one additional course from any category for a total of 21 credits.		
Ancient		
AH 3101	Ancient Art of the Bronze Age and Greece	
AH 3102	Ancient Art of the Roman Empire	
AH 3103	Art and Archaeology of Egypt and the Near East	
AH 3104	Art and Archaeology of the Aegean Bronze Age	
AH 3105	Topics in Ancient Art and Archaeology	
AH 3106	Art and Archaeology of Israel and Neighboring Lands	
AH 4109	Topics in Ancient Art and Archaeology	
Medieval/Islamic World		
AH 3111	Early Christian and Byzantine Art and Architecture	
AH 3112	Romanesque and Gothic Art and Architecture	
AH 3113	Islamic Art and Architecture	
AH 3114	Art of the Book in the Medieval Muslim World	
AH 4165	Topics in Islamic Art and Architecture	
AH 3120	Italian Art and Architecture of the 13th through 15th Centuries	
AH 3122	Topics in Early Northern Renaissance Art and Architecture	
AH 3122W	Topics in Early Northern Renaissance Art and Architecture	
AH 4119	Seminar in Medieval Art and Architecture	
Renaissance/Baroque		
AH 2145	History of Decorative Arts: European Heritage	

AH 3121	Italian Art and Architecture of the Sixteenth Century	AH 2155	American Architecture II
AH 3123	Topics in Northern Renaissance Art and Architecture	AH 2162	History of Photography
AH 3123W	Topics in Northern Renaissance Art and Architecture	AH 2162W	History of Photography
AH 3131	Italian Art and Architecture of the Seventeenth Century	AH 2071	Introduction to the Arts in America
AH 3132	Topics in Northern European Art and Architecture of the Seventeenth Century	AH 3143	Early Twentieth-Century Art
AH 3134	Topics in Spanish and Portuguese Art through the Sixteenth Century	AH 3143W	Early Twentieth-Century Art
AH 3134W	Topics in Spanish and Portuguese Art through the Sixteenth Century	AH 3146	Modern Architecture in Europe and America
AH 3135	Topics in Seventeenth/Eighteenth Century Spanish and Portuguese Art	AH 3146W	Modern Architecture in Europe and America
AH 4129	Seminar in Renaissance Art and Architecture	AH 3153	American Art of the Twentieth Century
AH 4139	Seminar in Baroque Art and Architecture	AH 3165	Later Twentieth-Century Art
18th/19th century		AH 3165W	Later Twentieth-Century Art
AH 2071	Introduction to the Arts in America	AH 4149	Seminar in Modern European Art and Architecture
AH 2145	History of Decorative Arts: European Heritage	AH 4169	Seminar in Contemporary Art
AH 2154	American Architecture I	Asian	
AH 2161	History of Decorative Arts: American Heritage	AH 2190	East Asian Art
AH 3140	European Art of the Eighteenth Century	AH 2191	South Asian Art
AH 3141	European Art of the Early Nineteenth Century	AH 2192	The Art of Southeast Asia
AH 3141W	European Art of the Early Nineteenth Century	AH 3181	Special Topics in Asian Art
AH 3142	European Art of the Late Nineteenth Century	AH 3182	Special Topics in South Asian Art
AH 3142W	European Art of the Late Nineteenth Century	AH 4182	Special Topics in South Asian Art
AH 3151	American Art in the Age of Revolution	Pre-Columbian/Latin American/African	
AH 3152	American Art in the Era of National Expansion	AH 3107	Ancient Mexican Civilizations
Modern and contemporary		AH 3116	The Aztec Empire
		AH 3117	Special Topics in Precolumbian Art and Archaeology
		AH 3160	Latin American Art and Architecture
		<b>Junior/senior seminars</b>	
		At least two of the following for a total of 6 credits:	
		AH 4109	Topics in Ancient Art and Archaeology
		AH 4119	Seminar in Medieval Art and Architecture

AH 4129	Seminar in Renaissance Art and Architecture
AH 4139	Seminar in Baroque Art and Architecture
AH 4149	Seminar in Modern European Art and Architecture
AH 4159	Seminar in American Art and Architecture
AH 4159W	Seminar in American Art and Architecture
AH 4165	Topics in Islamic Art and Architecture
AH 4169	Seminar in Contemporary Art
AH 4182	Special Topics in South Asian Art
AH 4189	Seminar: Special Topics in Art History
AH 4197	Senior Thesis
<b>Fine Arts</b>	
<b>Required</b>	
FA 2001	Concept Lab
<b>One introductory level course from three of the studio areas listed below for a total of 9 credits; for this purpose, FA 1000 counts as a studio area</b>	
FA 1000	Dean's Seminar
Ceramics	
FA 1101	Introduction to Handbuilt Ceramics
FA 1102	Introduction to Wheelthrown Ceramics
Sculpture	
FA 1201	Sculpture: Material Investigations
Drawing	
FA 1301	Drawing Fundamentals
Painting	
FA 1401	Painting: Visual Thinking
Photography	
FA 1501	Black and White Photography
FA 1502	Color Photography
New Media	

FA 1601	New Media: Digital Art
<b>Three courses at the 2000 or 3000 level including at least one course in two of the six studio areas below for a total of 9 credits:</b>	
Ceramics	
FA 2111	Ceramic Design in Handbuilt Forms
FA 2112	Ceramic Design in Wheelthrown Forms
FA 2113	Ceramic Sculpture
FA 3101	Special Topics: Ceramics
Sculpture	
FA 2211	Sculpture Fabrication
FA 2212	Sculpture: Design in Action

FA 2531	Photography: Contemporary Issues
FA 3501	Special Topics: Photography
New Media	

FA 2611	Video Art and Time-based Media
FA 2612	Video: Remixing the Archive
FA 2613	Site and Sound
FA 3601	Special Topics: New Media
<b>One of the following courses:</b>	
FA 3901	Special Topics: Fine Arts
FA 3911	Collaborative Practices: Social Practices of Art
FA 3912	The Cinematic in Contemporary Art
FA 3913	Painting: Off the Wall
FA 3951	Creative Photovoltaics
<b>The following capstone course:</b>	
FA 4195	Critical Practices *

\*A capstone exhibition is required concurrent with enrollment in FA 4195 Critical Practices

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained, by the end of the junior year, a grade-point average of at least 3.5 in the major and 3.3 overall. By the end of the junior year, students should consult their advisor regarding eligibility, area of study, and a director of the research or creative arts project.

## DUAL BACHELOR OF ARTS AND MASTER OF ARTS PROGRAMS IN FINE ARTS AND ART HISTORY

The Corcoran School of the Arts and Design offers two options for a dual bachelor's/master's degree:

- Bachelor of Arts with a major in art history (p. 220) and Master of Arts in the field of art history (p. 229)
- Bachelor of Arts with a major in fine arts (p. 222) and Master of Arts in the field of art therapy (p. 126)

The program allows students to take 9-12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Undergraduate students interested in the dual program confer with the department's graduate adviser early in their junior year. Visit the program website (<https://corcoran.gwu.edu/graduate-studies>) for more details.

## MINOR IN ART HISTORY

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits in art history courses

Code	Title	Credits
<b>Required</b>		
AH 1031	Survey of Art and Architecture I	
AH 1032	Survey of Art and Architecture II	

<b>Electives</b>		
Four upper-division Art History (AH) courses for a total of 12 credits.		

Visit the program website (<https://corcoran.gwu.edu/art-history-undergraduate-programs>) for additional information.

## MINOR IN FINE ARTS

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including a 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
FA 2001	Concept Lab	

<b>Electives</b>		
One FA course at any level		
Two courses from the following; courses cannot be in the same studio area:		

Ceramics		
FA 1101	Introduction to Handbuilt Ceramics	
FA 1102	Introduction to Wheelthrown Ceramics	
Sculpture		
FA 1201	Sculpture: Material Investigations	
Drawing		
FA 1301	Drawing Fundamentals	
Painting		
FA 1401	Painting: Visual Thinking	

## Photography

FA 1501 Black and White Photography

FA 1502 Color Photography

## New Media

FA 1601 New Media: Digital Art

Two courses at the 2000 or 3000 level in any studio area.

# DUAL MINOR IN ART HISTORY AND FINE ARTS

## REQUIREMENTS

The dual minor requires 9 to 12 credits of coursework in Art History and 9 to 12 credits in Fine Arts, for a total of 21 credits. The student's program of study is developed in consultation with the undergraduate advisors in the Department of Fine Art and Art History.

Visit the Corcoran School of the Arts and Design (<http://art.columbian.gwu.edu/combined-degree-fine-arts-art-history>) website (<http://art.columbian.gwu.edu/combined-degree-fine-arts-art-history>) for more information.

# MASTER OF ARTS IN THE FIELD OF ART HISTORY

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits

Code	Title	Credits
------	-------	---------

### Required

AH 6258	Art Historiography	
---------	--------------------	--

### Elective

At least one course from five of the following seven categories:

#### Ancient

AH 6201	Proseminar in Ancient Art of the Bronze Age and Greece	
---------	--	--

AH 6202	Proseminar in Ancient Art of the Roman Empire	
---------	---	--

AH 6205	Ancient Art Seminar	
---------	---------------------	--

AH 6270	Special Topics in Art History	
---------	-------------------------------	--

Medieval/Islamic World	
------------------------	--

AH 6211	Proseminar in Early Christian and Byzantine Art and Architecture
---------	--

AH 6212	Proseminar in Romanesque and Gothic Art and Architecture
---------	--

AH 6213	Islamic Art and Architecture
---------	------------------------------

AH 6214	The Art of the Book in the Medieval Muslim World
---------	--

AH 6215	Seminar in Medieval Art and Architecture
---------	--

AH 6265	Seminar in Islamic Art and Architecture
---------	---

AH 6270	Special Topics in Art History
---------	-------------------------------

Renaissance/Baroque	
---------------------	--

AH 6220	Proseminar in Italian Art and Architecture of the 13th through 15th Centuries
---------	---

AH 6221	Proseminar: Italian Art and Architecture of the 16th Century
---------	--

AH 6222	Proseminar in Early Northern Renaissance Art and Architecture
---------	---

AH 6223	Proseminar in Northern Renaissance Art and Architecture
---------	---

AH 6225	Seminar in Renaissance Art
---------	----------------------------

AH 6231	Proseminar in Italian Art and Architecture of the Seventeenth Century
---------	---

AH 6232	Proseminar in Northern European Art and Architecture of the Seventeenth Century
---------	---

AH 6234	Proseminar in Spanish and Portuguese Art through the Sixteenth Century
---------	--

AH 6235	Seminar in Baroque Art
---------	------------------------

AH 6270	Special Topics in Art History
---------	-------------------------------

18th-19th Century	
-------------------	--

AH 6240	Proseminar in European Art of the Eighteenth Century
---------	--

AH 6245	Seminar in European Art of the Nineteenth Century
---------	---

# MASTER OF FINE ARTS IN THE FIELD OF FINE ARTS

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

60 credits, including 45 credits in required courses, 9 credits in elective courses, 6 credits in thesis, including a thesis exhibition.

Code	Title	Credits
<b>Required</b>		
FA 6291	Contemporary Art and Theory for Artists I	
FA 6292	Contemporary Art and Theory for Artists II	
FA 6293	Professional Practices	
FA 6294	Writing in Practice	
FA 6295	Critical Practices (taken for a total of 24 credits)	
FA 6296	Studio Visits (taken for a total of 12 credits)	
<b>Thesis exhibition</b>		
FA 6998	Thesis Research	
FA 6999	Thesis Research	

A thesis exhibition consisting of the execution of creative work along with a critical statement about this work must be completed under the supervision of a committee consisting of at least two full-time departmental faculty members.

### Electives

9 credits in studio and seminar electives

Studio and art history electives should be taken at the 6000 level or above. In consultation with the Director of Graduate Studies, MFA students may elect to take up to 6 credits of upper-level and graduate courses in other academic departments, assuming prerequisites have been met. Students may take one 3000-level course in another academic area with approval.

Visit the program website (<https://corcoran.gwu.edu/mfa-fine-arts>) for additional information.

AH 6251	Proseminar in American Art in the Age of Revolution
AH 6254	Seminar in American Art before 1900
AH 6270	Special Topics in Art History
Modern/Contemporary	
AH 6246	Proseminar in Modern Architecture in Europe and America
AH 6250	Seminar: Modern Art
AH 6256	Seminar in American Art of the Twentieth Century
AH 6257	Seminar in Photography
AH 6270	Special Topics in Art History
Asian/African	
AH 6261	Seminar in Asian Art
AH 6262	Seminar in South Asian Art
AH 6270	Special Topics in Art History
Pre-Columbian/Latin American	
AH 6270	Special Topics in Art History

Up to 6 credits of graduate coursework may be completed outside the department with approval of the graduate advisor.

One qualifying paper must be submitted in the spring semester of the second year. Part-time students will submit one qualifying paper at date set in consultation with the graduate advisor.

A reading examination in Arabic, Dutch, French, German, Hindi, Italian, Latin, Persian, Portuguese, or Spanish must be passed. If a student's research is in a language other than those listed above, the student may demonstrate proficiency in said language in consultation with the Director of Graduate Studies.

## Museum Training Concentration

Code	Title	Credits
Prerequisites and requirements are the same as those for the Master of Arts in the field of art history; students include in their coursework 6 credits of AH 6299 Museum Internship, after completion of 18 credits of art history courses.		

Visit the program website (<https://corcoran.gwu.edu/art-history>) for additional information.

# FORENSIC SCIENCES

As part of the Columbian College of Arts and Sciences' natural, mathematical, and biomedical sciences programs, forensic sciences provides an understanding of the integration of forensic disciplines with the investigation of criminal activity, while providing an overview of the analytical methods, procedures, equipment, and data used by forensic specialists. Coursework emphasizes the identification and analysis of evidence as well as the interpretation and reporting of the results.

The master of forensic sciences (MFS) degree program offers concentrations in forensic chemistry, forensic molecular biology, and forensic toxicology. Students also may complete the master of forensic sciences degree without selecting a concentration. The master of science (MS) degree is offered in the field of crime scene investigation.

In addition, a graduate certificate is offered in forensic investigation.

## GRADUATE

### Master's programs

- Master of Forensic Sciences (p. 234)
- Master of Forensic Sciences in the field of forensic molecular biology (<http://bulletin.gwu.edu/arts-sciences/forensic-sciences/mfs-forensic-molecular-biology>)
- Master of Forensic Sciences in the field of forensic chemistry (<http://bulletin.gwu.edu/arts-sciences/forensic-sciences/mfs-forensic-chemistry>)
- Master of Science in the field of crime scene investigation (p. 235)

### Combined program

- Dual Bachelor of Science with a major in chemistry/Master of Forensic Sciences with a concentration in forensic chemistry (p. 161)

## CERTIFICATE

### Certificate programs

- Graduate certificate in forensic investigation (p. 235)

## FACULTY

**Professors** I.S. Lurie (*Research*), W.F. Rowe (*Acting Chair*), M.S. Schanfield, V. Weedn

**Assistant Professors** I. Marginean

**Professorial Lecturers** D. Barghaan, E. Bernard, S. Brazelle, O. Carroll, K. Clarke, H. Cox, C. Davis, J. Doyle, H. Elliott, N. Galbreth, K. Gerber, J.G. Jackson, M. Keller, M. Mack, C. McGovern, M.R. Parker, E. Toomer, L. Zarwell

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: FORS 2118 and FORS 2119 are available only to students conditionally admitted to programs offered by the Department of Forensic Sciences; credit does not apply to any degree programs at GW. FORS 2118, FORS 2119, and FORS 6259 -FORS 6291 Computer Forensics III: Advanced Techniques are offered off campus only.

#### **FORS 2102. Introduction to Forensic Science I. 3 Credits.**

The application of science to the criminal justice system; crime scene processing, crime scene reconstruction, investigation of fires and explosions, impression evidence, trace evidence, and computer forensics. Completion of two semesters of a laboratory science other than astronomy and permission of the instructor are required prior to enrollment.

#### **FORS 2104. Introduction to Forensic Sciences II. 3 Credits.**

The application of science to the criminal justice system; personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology. Prerequisites: two semesters of a laboratory science other than astronomy and permission of instructor.

#### **FORS 2104W. Introduction to Forensic Sciences. 3 Credits.**

Topics in the application of science to the criminal justice system, including personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **FORS 2151. Crime Scene Investigation. 4 Credits.**

Examination, analysis, and reconstruction of crime scenes; principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence.

#### **FORS 2190. Topics in Forensic Science. 3 Credits.**

. Restricted to juniors. Prerequisites: BISC 1005 or BISC 1006; and CHEM 1003 or CHEM 1004.

**FORS 6004. Fundamentals of Forensic Science I. 3 Credits.**

This course surveys crime scene investigation techniques, medicolegal death investigation, and patterned evidence examination. This satisfies the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of crime scene investigation, physical evidence concepts, and pattern evidence. This course helps students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of firearms and toolmarks, fingerprints, and questioned documents. Lectures are given by faculty members and guest lecturers who are subject matter experts on the topic presented. This course includes a four hour laboratory (fingerprints). This is a required course for MFS and CSI students. This course, along with FORS 6005 Fundamentals of Forensic Science II, replaces FORS 6213, Elements of Forensic Science (3 Credits). Prerequisite: None.

**FORS 6005. Fundamentals of Forensic Science II. 3 Credits.**

This course surveys the traditional crime laboratory (criminalistics) disciplines—specifically forensic drug chemistry, forensic toxicology, trace evidence, fire debris, explosives, and forensic molecular biology. This satisfies the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of analytical chemistry and instrumental methods of analysis, drug chemistry/toxicology, microscopy and materials analysis, and forensic biology. This course helps students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of forensic biology, trace evidence, fire debris, controlled substances, and toxicology/blood alcohol determinations.

**FORS 6010. Bloodstain Pattern Analysis I. 3 Credits.**

Human blood in flight and the patterns it makes on target surfaces. Crime scene investigation, crime scene analysis, and crime scene reconstruction. Laboratory fee. Restricted to graduate students. Recommended background: FORS 6251 and FORS 6256.

**FORS 6011. Bloodstain Pattern Analysis II. 3 Credits.**

Continuation of the concepts learned in FORS 6010. Serving as an expert witness; refining blood pattern analysis and documentation skills; effectively communicating observations, analysis, and conclusions in the courtroom. Laboratory fee. Restricted to graduate students. Prerequisites: FORS 6010. Recommended background: FORS 6251 and FORS 6256.

**FORS 6020. Ethics, Professional Responsibility, and Quality Assurance. 2 Credits.**

Issues of forensic science laboratory professional responsibility, including ethics, public policy, and quality assurance. Satisfies 10 hours of instruction for a Forensic Science Education Programs Accreditation Commission (FEPAC) accredited MFS degree in the core topics of ethics and professional responsibility and quality assurance; also assists in preparation for the American Board of Criminalistics examination in the area of ethics. Taken online during the summer session.

**FORS 6201. Forensic Biology. 3 Credits.**

Principles of the forensic analysis of blood and other biological materials. Specific procedures and techniques used in forensic biology and serology. Laboratory fee.

**FORS 6203. Examination of Questioned Documents. 3 Credits.**

Theory and principles of handwriting and handprinting, duplicating processes, paper manufacture and fiber analysis; studies of paper and methods of examining questioned documents. Laboratory fee.

**FORS 6204. Firearms and Toolmark Identification. 3 Credits.**

Methods for identifying firearms, bullet cartridge casings, toolmarks, gunshot residue, obliterated serial numbers, tire marks, and footprints. Laboratory fee.

**FORS 6206. Trace Evidence Analysis. 3 Credits.**

Principles that govern the analysis of trace evidence, including recovery, transference, interpretation, and comparison. Assessment of evidentiary value, reporting, and court testimony. Laboratory fee.

**FORS 6207. Photography in the Forensic Sciences. 3 Credits.**

Basic use of forensic photography, including selection and use of equipment, photographs as evidence, close-up work, and common misconceptions. Laboratory fee.

**FORS 6210. Advanced Instrumental Analysis. 3 Credits.**

Theory and practice of modern instrumental methods used in forensic laboratories, including mass spectrometry, optical spectroscopy, microscopy, chromatographic and electrophoretic separations. It is a required course for MFS students with concentration in Forensic Chemistry and Forensic Toxicology. Recommended background: undergraduate analytical methods.

**FORS 6213. Elements of Forensic Sciences. 3 Credits.****FORS 6215. Science of Fingerprints. 3 Credits.**

A general overview of the history and biology of and principles underlying the science of fingerprints. Latent print development methods, recording, classification, and methodology of comparison of fingerprints and palm prints to include latent prints. Subject matter is covered at an introductory level; additional study is required to develop expertise as a latent fingerprint examiner.

**FORS 6216. Development of Latent Prints. 3 Credits.**

This Advanced Fingerprint Science Course provides the students an increased understanding of the main principles of fingerprint identification: uniqueness and persistence. The course is broken down into three main sections, which address the chemistry behind processing fingerprints, the anatomy and physiology of friction ridge skin and the extensive research that has been conducted in the field of fingerprint science. The students are required to complete a skills processing exam to assess their understanding and ability to develop latent prints on items of evidence. In addition, there is a written examination covering the topics of biology and development of friction ridge skin and a final comprehensive exam. Upon conclusion of this course, each student should have a firm grasp of why friction ridge skin can be used as a means of identification. Recommended background: FORS 6215.

**FORS 6217. Fingerprint Comparisons. 3 Credits.**

In-depth study of analysis, comparison, evaluation, and verification (ACE-V) methodology; assessing the quality and quantity of information and establishing a tolerance for comparison using the effects of distortion; uniqueness and persistence; anatomy and embryology of friction ridge skin. Laboratory fee. Prerequisites: FORS 6215.

**FORS 6219. Digital Image Processing. 3 Credits.**

Digital images of marginal value can be processed to reveal details which had been in the original, but were difficult to see. These changes must be done in ways to survive court challenges. Best practices for doing so are provided. Prerequisites: FORS 6207 or permission of the instructor. Recommended background: graduate level work in MS/CSI, MFS/FRA, MS/FRA or Grad Cert in Forensic Investigations; graduate-level work in crime scene investigation and/or friction ridge analysis, or in the graduate certificate program in forensics investigations.

**FORS 6224. Criminal Law for Forensic Scientists. 3 Credits.**

This course provides an overview of criminal law offenses, criminal law procedures, issues of evidence recovery, admissibility of scientific evidence, and expert testimony, with an emphasis on the interaction between the criminal process and forensic science. A moot court experience is integral to this course. (This course combines and replaces Crim Law I and III.).

**FORS 6225. Statistics for Forensic Scientists. 3 Credits.**

Statistics with a focus on forensic applications. Emphasis on the Bayesian approach. Logical, probabilistic statistical reasoning skills, and R software skills. Course content is the basis for an examination question on the comprehensive examination. Prerequisite: An undergraduate statistics course.

**FORS 6231. Principles of Toxicology. 3 Credits.**

Concepts of toxicology, including its historical development and modern applications, drug disposition, mechanisms of toxicity; factors that influence toxicity and toxicity evaluation.

**FORS 6232. Analytical Toxicology. 3 Credits.**

Principles and procedures used in the isolation, identification, and quantitation of drugs of abuse from human samples.

**FORS 6234. Medicinal Chemistry I. 3 Credits.**

Theory and principles of classification, synthesis, and structure activity relationships of drugs. Discussion of the complex chemical events that take place between administration of a drug and its action on the user, with emphasis on drugs of abuse.

**FORS 6235. Medicinal Chemistry II. 3 Credits.**

Chemical, pharmacological, toxicological, and pathological characteristics of commonly abused drugs, including ethanol, barbiturates, narcotics, stimulants, and hallucinogens.

**FORS 6236. Forensic Toxicology I. 3 Credits.**

Biological, chemical, and pharmacological principles that underlie forensic toxicology. Prerequisites: FORS 6235 or permission of the instructor.

**FORS 6237. Forensic Toxicology II. 3 Credits.**

Lectures, student seminars, and projects dealing with topics of current interest in forensic toxicology. Prerequisites: FORS 6236 or permission of the instructor.

**FORS 6238. Forensic Chemistry I. 3 Credits.**

Examination of glass and soils. Laboratory exercises include refractive index measurements using immersion methods; polarized light observations of minerals; x-ray diffraction analysis of minerals; and classical chemical and physical methods of analysis. Laboratory fee.

**FORS 6239. Forensic Chemistry II. 3 Credits.**

Examination of arson accelerants, textile fibers, plastics, and paints. Laboratory exercises include infrared spectrometry and pyrolysis-gas-liquid chromatography of polymeric materials, as well as classical chemical and physical methods of analysis. Laboratory fee. Prerequisites: FORS 6238 or permission of the instructor.

**FORS 6240. Forensic Drug Analysis. 3 Credits.**

Examination of dosage forms of drugs. Laboratory exercises include color spot tests, crystal tests, infrared spectrometry and gas chromatography-mass spectrometry. Laboratory fee.

**FORS 6241. Forensic Molecular Biology I. 3 Credits.**

Techniques of molecular biology applied to the collection, examination, analysis, and interpretation of biological evidence.

**FORS 6242. Forensic Molecular Biology II. 3 Credits.**

Advanced methods of forensic molecular biology. Laboratory examinations and classifications of dried blood and other biological materials through a variety of nuclear and mitochondrial markers. Laboratory fee. Prerequisites: FORS 6241 and permission of the instructor.

**FORS 6243. Forensic Molecular Biology III. 3 Credits.****FORS 6246. Human Genetic Variation. 3 Credits.**

The genetic variation in human populations as a framework for measurement and analysis of genetic diversity and evolutionary process. Consideration of the possible roles of cultural change leading to adaptive/selective events. Same as ANTH 6406.

**FORS 6247. Population Genetics. 3 Credits.**

Origin, maintenance, and possible significance of genetic variation in populations. Selection, genetic drift, and population structure are emphasized. Both theoretical and applied aspects of population genetics are discussed. Same as BISC 6228.

**FORS 6250. Crime Scene Investigation for Lab Personnel. 3 Credits.**

A condensed offering of the subject matter of FORS 6251–FORS 6252. FORS 6250 cannot be taken for credit toward the crime scene investigation concentration. Laboratory fee.

**FORS 6251. Crime Scene Investigation I. 3 Credits.**

Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

**FORS 6252. Crime Scene Investigation II. 3 Credits.**

Continuation of FORS 6251. Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

**FORS 6254. Forensic Psychiatry. 3 Credits.**

Introduction to the constructs of dynamic psychiatry, psychiatric treatment, and the nomenclature of mental disorders. Consideration of expert testimony, direct examination, and cross-examination in hospitalization and criminal cases.

**FORS 6255. Investigation of Child Abuse. 3 Credits.**

This course integrates medical, scientific, psychological, sociological and legal information for investigators and professionals involved in the field of child abuse. Special emphasis is placed on the application of research-supported data to situations involving the murder, abuse and exploitation of children.

**FORS 6256. Forensic Pathology. 3 Credits.**

Terminology and scientific techniques used in medico-legal investigations, sudden or unexpected deaths, homicides, suicides, accidental deaths, and trauma.

**FORS 6257. Medicolegal Death Investigation. 3 Credits.**

Medical, scientific, sociological, and legal methodologies applied to forensic investigations. Aspects of death scene analysis by a medical examiner, including autopsy procedures, unidentified remains, child death investigations, and mass disaster investigations. Laboratory fee. Prerequisites: FORS 6256 and permission of the instructor.

**FORS 6258. The Investigation of Sexual Assault and Other Sex Crimes. 3 Credits.**

This course integrates medical, psychological, sociological and legal information for investigators and professionals involved in the field of sex crime investigation. Special emphasis is placed on the application of research-supported data to situations involving the sexual exploitation and victimization of adults.

**FORS 6290. Selected Topics. 3 Credits.**

Current issues in research, investigation, and law.

**FORS 6291. Computer Forensics III: Advanced Techniques. 3 Credits.**

Further examination of methods and techniques used to conduct and report high-technology crime investigations. Open only to students enrolled in the department or by approval of the program director. Laboratory fee. Prerequisite: FORS 6278.

**FORS 6292. Graduate Seminar. 1 Credit.**

Students in designated forensic sciences degree programs must register for this course in their first semester and again after completion of the required independent research project.

**FORS 6295. Research. 1-12 Credits.**

Research on problems approved by the department, under the supervision of an appropriate member of the program faculty. Admission by permission only.

**FORS 6298. Forensic Sciences Practicum. 1-3 Credits.**

Internship experience in a forensic science laboratory or criminal justice agency, under the supervision of an appropriate member of the program faculty. Students must preregister for this course. Admission by permission only.

**FORS 6998. Thesis Research. 3 Credits.****FORS 6999. Thesis Research. 3 Credits.**

## MASTER OF FORENSIC SCIENCES REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

37 credits, including 18 credits in required courses, 19 credits in courses selected in consultation with the advisor, and successful completion of a master's comprehensive examination.

Code	Title	Credits
<b>Required</b>		
FORS 6004	Fundamentals of Forensic Science I	
FORS 6005	Fundamentals of Forensic Science II	
FORS 6020	Ethics, Professional Responsibility, and Quality Assurance	
FORS 6224	Criminal Law for Forensic Scientists	
FORS 6225	Statistics for Forensic Scientists	
FORS 6292	Graduate Seminar (taken twice) *	

Code	Title	Credits
<b>Electives</b>		
19 elective credits are selected in consultation with the departmental advisor.		
<b>Additional requirements</b>		
Successful completion of an independent research project is required.		
Successful completion of a master's comprehensive examination is required.		
*Students must register for FORS 6292 in their first semester and again after or during the completion of the required independent research project.		

## MASTER OF SCIENCE IN THE FIELD OF CRIME SCENE INVESTIGATION

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 27 credits in required courses and 9 credits in elective courses, and successful completion of a master's comprehensive examination.

Code	Title	Credits
<b>Required</b>		
FORS 6005	Fundamentals of Forensic Science II	
FORS 6207	Photography in the Forensic Sciences	
FORS 6215	Science of Fingerprints	
FORS 6219	Digital Image Processing	
FORS 6224	Criminal Law for Forensic Scientists	
FORS 6251	Crime Scene Investigation I	
FORS 6252	Crime Scene Investigation II	
FORS 6256	Forensic Pathology	
FORS 6257	Medicolegal Death Investigation	
<b>Electives</b>		
9 credits selected in consultation with the departmental advisor. Suggested electives include:		

FORS 6010	Bloodstain Pattern Analysis I
FORS 6203	Examination of Questioned Documents
FORS 6204	Firearms and Toolmark Identification
FORS 6255	Investigation of Child Abuse
FORS 6290	Selected Topics (Crime Scene Investigation III)
<b>Other requirements</b>	
Successful completion of a master's comprehensive examination is required.	

## GRADUATE CERTIFICATE IN FORENSIC INVESTIGATION REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 15 credits in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Required</b>		
FORS 6207	Photography in the Forensic Sciences	
FORS 6215	Science of Fingerprints	
FORS 6251	Crime Scene Investigation I	
FORS 6252	Crime Scene Investigation II	
FORS 6257	Medicolegal Death Investigation	
<b>Elective</b>		
One of the following:		
FORS 6203	Examination of Questioned Documents	
FORS 6204	Firearms and Toolmark Identification	
FORS 6254	Forensic Psychiatry	
FORS 6255	Investigation of Child Abuse	
Alternate courses can be selected with approval of advisor.		

## GEOGRAPHY

The Department of Geography is dedicated to achieving excellence in research and education through the diffusion of geographic knowledge that focuses on the relationships between the physical world and its occupation and modification by humans. Students trained in geography understand society and environmental dynamics, the

significance of scale, the uneven distribution of resources and levels of development, and the uses of geospatial techniques, including GIS (geographic information systems) and remote sensing.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in geography (p. 240)

### Minors

- Minor in geography (p. 242)
- Minor in geographic information systems (p. 241)

## GRADUATE

### Master's program

- Master of Science in the field of geography (p. 243)

### Combined program

- Dual Master of Science in the field of geography and Graduate Certificate in geographical information systems (p. 243)

## CERTIFICATE

### Graduate certificate

- Graduate certificate in geographical information systems (p. 244)

## FACULTY

**Professors** L. Benton-Short (*Chair*), E. Chacko, M.D. Price

**Associate Professors** M. Atia, R. Engstrom, D. Rain, N. Shiklomanov, D. Streletskiy

**Assistant Professors** G. Allington, J.P. Dymond (*Teaching*), M. Keeley, M. Mann

**Professorial Lecturers** N. Cowan, D. Gopalakrishna, R. Hinton, W. Reisser, S. Sklar

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

**GEOG 1000. Dean's Seminar. 3 Credits.**

**GEOG 1001. Introduction to Human Geography. 3 Credits.**

A systematic survey of human geography; spatial perspectives on demographic, social, cultural, economic, and political changes around the world.

**GEOG 1002. Introduction to Physical Geography. 4 Credits.**

A systematic survey of environmental geography; perspectives on environments and human ecology, including ecosystems and their use, and resource geography. Laboratory fee.

**GEOG 1003. Society and Environment. 3 Credits.**

An introduction to the dynamic relationship between society and the physical environment, with focus on population, natural resources, environmental degradation, pollution, and conservation.

**GEOG 2000. Sophomore Colloquium. 3 Credits.**

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

**GEOG 2104. Introduction to Cartography and GIS. 3 Credits.**

Fundamentals of cartography; geographic data structure and information systems. Laboratory fee.

**GEOG 2105. Techniques of Spatial Analysis. 3 Credits.**

Nature of geographical inquiry and analytical methods used in the study of spatial processes and patterns. Laboratory fee.

**GEOG 2107. Introduction to Remote Sensing. 3 Credits.**

Remote-sensing techniques using digital satellite imagery and aerial photography. Application to rural and urban settings, vegetation, and environmental monitoring. Laboratory fee. Prerequisite: GEOG 2105 or permission of instructor.

**GEOG 2108. Weather and Climate. 3 Credits.**

The elements and controls of weather and climate. Topics include energy and water balances, atmospheric general circulation, and severe weather events. Prerequisite: GEOG 1002.

**GEOG 2120. World Regional Geography. 3 Credits.**

Practical approach to the themes, concepts, and tools appropriate for in-depth examination of the geography of the world's. Historical and physical regional geographies; contemporary regional issues; and intra- and interregional issues.

**GEOG 2124. Urban Transportation. 3 Credits.**

The relationship between freight and passenger transportation systems and urban land use patterns and structure. Prerequisite: GEOG 1001.

**GEOG 2125. Transportation Systems and Networks. 3 Credits.**

The structure and evolution of transportation networks and their impact on regional development.

**GEOG 2127. Population Geography. 3 Credits.**

Patterns of world population; factors contributing to population pressures, growth, and migrations.

**GEOG 2128. Geomorphology. 3 Credits.**

Understanding the nature, origin, and development of landforms in the field and through the use of maps and aerial photos. Prerequisite: GEOG 1002.

**GEOG 2129. Biogeography. 3 Credits.**

The types of comparative data used to elucidate patterns of distribution, diversity, and dynamics in species, communities, and ecosystems.

**GEOG 2133. People, Land, and Food. 3 Credits.**

The relationship between humans and their food sources through exploration of nutritional dynamics, food sourcing, agricultural land use, and food markets.

**GEOG 2134. Energy Resources. 3 Credits.**

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations. Prerequisite: GEOG 1002.

**GEOG 2134W. Energy Resources. 3 Credits.**

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1002.

**GEOG 2136. Water Resources. 3 Credits.**

Analysis of the global spatial patterns, development, use, and quality of water resources. Prerequisite: GEOG 1002.

**GEOG 2137. Environmental Hazards. 3 Credits.**

Examination of environmental hazards with an emphasis on physical geography, economics, and the basics of geographic information systems (GIS).

**GEOG 2140. Cities and Societies. 3 Credits.**

The design and function of cities in the United States; contemporary, economic, political, and social change. Prerequisite: GEOG 1001.

**GEOG 2140W. Urban Geography. 3 Credits.**

The design and function of cities in the United States; contemporary, economic, political, and social change. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1001.

**GEOG 2141. Cities in the Developing World. 3 Credits.**

Urbanization processes, problems, and management in the developing world. Focus on urban location, politics, housing, services, employment, and environmental issues. Prerequisite: GEOG 1001.

**GEOG 2144. Explorations in Historical Geography. 3 Credits.**

Examination of selected themes in the cultural geography of the United States over the course of its history, in relation to an overview of the historical geography of the country. Same as AMST 2144.

**GEOG 2145. The Cultural Landscape. 3 Credits.**

The distribution and dynamics of cultural patterns around the world; analysis of culture as a process.

**GEOG 2145W. Cultural Geography. 3 Credits.**

The distribution and dynamics of cultural patterns around the world; analysis of culture as a process. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**GEOG 2146. Political Geography. 3 Credits.**

Interrelationships among the human and physical environment and political systems; the organization of political territories.

**GEOG 2147. Military Geography. 3 Credits.**

An examination of environmental and locational factors and their impact on military planning and operations.

**GEOG 2148. Economic Geography. 3 Credits.**

Locational influences on and spatial variation of the development of manufacturing, services, trade, and finance. Prerequisite: GEOG 1001.

**GEOG 2196. Field Methods in Geography. 3 Credits.**

For geography and environmental studies majors in their junior or senior year. Field research in human and physical geography. Students participate in several field exercises and develop their skills of observation, field mapping, repeat photography, and surveys. Laboratory fee.

**GEOG 3106. Intermediate Geographic Information Systems. 3 Credits.**

Principles of geographic information systems and their use in spatial analysis and information management. Laboratory fee. Prerequisite: GEOG 2104 and GEOG 2105.

**GEOG 3132. Environmental Quality and Management. 3 Credits.**

The evolution of environmental management philosophies and tools. The global distribution, utilization, and degradation of natural resources. Prerequisite: GEOG 1002.

**GEOG 3143. Urban Sustainability. 3 Credits.**

Relationship between urban spaces and the environment through the lens of sustainability. Prerequisite: GEOG 1001.

**GEOG 3143W. Urban Sustainability. 3 Credits.**

Relationship between urban spaces and the environment through the lens of sustainability. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1001.

**GEOG 3154. Geography of the Middle East and North Africa. 3 Credits.**

Cultural and physical regional patterns of the Middle East and North Africa. Prerequisites: GEOG 1001 or GEOG 1002.

**GEOG 3161. Geography of Latin America. 3 Credits.**

Examination of spatial characteristics of physical and cultural phenomena in Latin America.

**GEOG 3164. The Geography of Africa. 3 Credits.**

Human and environmental geography of Africa south of the Sahara desert, including study of patterns and processes, culture and environment, and development issues. Prerequisites: GEOG 1001 or GEOG 1002.

**GEOG 3165. Geography of South Asia. 3 Credits.**

An examination of the complex interplay of environmental, economic, sociocultural, and political factors in South Asia and their effects at the local and regional levels.

**GEOG 3189. Readings in Geography I. 1-12 Credits.**

. Prerequisites: 12 credits of geography and permission of the instructor.

**GEOG 3190. Readings in Geography II. 1-12 Credits.**

Continuation of GEOG 3189. Prerequisites: 12 credits of geography and permission of the instructor.

**GEOG 3193. Environmental Law and Policy. 3 Credits.**

An introduction to selected pieces of major environmental legislation. The role of the courts and bureaucracy in implementing and interpreting legislation and their impacts on decision making. Designed for students with no training in law. Prerequisites: None.

**GEOG 3194. Special Topics in Physical Geography. 3 Credits.**

Topics covering physical principles of the Earth's physical geography and natural environment including the hydrosphere, atmosphere, biosphere, and lithosphere. Enrollment requires permission of the instructor.

**GEOG 3195. Special Topics in Human Geography. 3 Credits.**

Topics in human geography including population, urban, cultural, political and economic issues amongst others. Enrollment requires permission of the instructor.

**GEOG 3196. Special Topics in Techniques. 3 Credits.**

Topics covering specific skills in geographic information systems and field methods. Enrollment requires permission of the instructor.

**GEOG 3197. Special Topics in Regional Geography. 3 Credits.**

Various topics in regional geography, including world regional geography as well studies of specific regions of interest. Enrollment requires permission of the instructor.

**GEOG 3198. Special Topics. 3 Credits.**

Consideration of geographic aspects of topical and future problems of society. May be repeated for credit provided that the topic differs. Prerequisite: GEOG 1001 or GEOG 1002.

**GEOG 3218. Arctic Systems. 3 Credits.**

Arctic regions examined from an interdisciplinary perspective, linking different elements of physical and human geography; Arctic climate, oceans, landscapes, and ecosystems; key issues involving interaction between humans and the environment; climate change and its effects in the Arctic. Prerequisite: GEOG 1002.

**GEOG 3810. Planning Cities. 3 Credits.**

An examination of historical and contemporary trends and dynamics in urban planning in the United States and abroad. Same as AMST 3810. Prerequisite: GEOG 1001.

**GEOG 4195. Proseminar in Geographic Thought. 3 Credits.**

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Prerequisite: permission of the advisor.

**GEOG 4195W. Proseminar in Geographic Thought. 3 Credits.**

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Permission of the advisor required prior to enrollment.

**GEOG 4199. Internship. 1-3 Credits.**

Fieldwork, internship, or other controlled assignment with an agency or organization engaged in work in applied geography. May be repeated for credit to a maximum of 6 credits. Prerequisites: 12 credits of geography courses and permission of the instructor.

**GEOG 4307. Digital Image Processing and Analysis. 3 Credits.**

Land use/land cover change analysis using satellite and aircraft platforms. Digital image processing techniques, analysis, and applications. Prerequisites: GEOG 2107 and GEOG 3106.

**GEOG 4308. Programming for Geospatial Applications. 3 Credits.**

Fundamental concepts for creating Python scripts in ArcGIS; guidelines for proper Python syntax, troubleshooting common errors, and using loops to test for conditions and execute different code based on the results. Prerequisites: GEOG 2104, GEOG 2105 and GEOG 3106.

**GEOG 4309. GIS for Emergency Management. 3 Credits.**

Introduction to the theoretical principles of geographic information systems and examination of its history, current uses, and potential for emergency management through case studies, guest lectures, and hands-on training on various GIS products. Prerequisites: GEOG 3106.

**GEOG 4310. Geovisualization and Cartography. 3 Credits.**

Introduction to cartographic design from gathering data to the final visualization; specific components involved in mapmaking, including purpose, generalization, and symbolization. Prerequisites: GEOG 2104 and GEOG 3106.

**GEOG 4311. Open Source Solutions for Geospatial Project Management. 3 Credits.**

Geospatial project management, from design through implementation. Students work exclusively with open source technology for data capture, management, analysis, and communication; open source solutions and the effectiveness and sustainability of project management. Prerequisite: GEOG 3106.

**GEOG 6201. Geographic Thought. 3 Credits.**

For first-year master's students, a survey of geographic thought and theories. Emphasis on contemporary issues in geography and on the development of research.

**GEOG 6207. Urban Planning and Development. 3 Credits.**

Selected problems in urban and regional planning; applications of zoning, environmental controls, and other techniques for achieving sustainable urban development.

**GEOG 6208. Land Use and Urban Transportation Planning. 3 Credits.**

Relationships between land use and the movement of goods and people. Examination of land use and transportation planning principles, issues, and techniques. Roles of public and private interests in land use and transportation planning and management.

**GEOG 6218. Arctic Systems. 3 Credits.**

Aspects of Arctic regions from an interdisciplinary perspective that links elements of physical and human geography; Arctic climate, oceans, landscapes, and ecosystems; interaction between humans and environment; climate change. Prerequisite: GEOG 1002.

**GEOG 6219. Seminar: Climatology. 3 Credits.**

Inadvertent climate modification due to urbanization and impacts on environmental and human health.

**GEOG 6220. Seminar: Climatic Change. 3 Credits.**

Examination of natural and human-induced climatic change, at global, regional, and local scales.

**GEOG 6222. Seminar: Resources and the Environment. 3 Credits.**

Topics related to the spatial variations and interrelationships of resources and the environment; applications of geographic information systems and remote sensing. Prerequisite: permission of instructor.

**GEOG 6223. Seminar: Population and Health. 3 Credits.**

Interrelationships between population characteristics and dynamics and impacts on human health.

**GEOG 6224. Seminar: Political Geography. 3 Credits.**

Examination of political factors in location theory and analysis of the nature of political territories and conflict.

**GEOG 6225. Seminar: Transportation and Development. 3 Credits.**

Transportation and communication in the organization of space.

**GEOG 6226. Water Resources Policy and Management. 3 Credits.**

The history and practice of water resources policy and management in an integrated context; the impact of urban and agricultural runoff on water quality; provision of wastewater and water quality services; water supply, water allocation, and scarcity; and modification of waterbodies for the purposes of flood control, hydropower, navigation, and recreation.

**GEOG 6230. Seminar: Environmental Issues in Development. 3 Credits.**

A consideration of the geographical dimensions of the links between development and the environment.

**GEOG 6232. Migration and Development. 3 Credits.**

Analysis of migration's impact on development at various scales for both the sending and receiving localities.

**GEOG 6243. Seminar: Urban Geography. 3 Credits.**

Topics concerning social, political, economic, and environmental issues in U.S. cities.

**GEOG 6244. Urban Sustainability. 3 Credits.**

Urban sustainability and environmental issues in developed and developing cities.

**GEOG 6245. Water Resources Policy and Management. 3 Credits.**

This course examines the history and practice of water resources policy and management in the context of integrated water resource management. Thus, the course addresses management issues and policy responses to such topics as the impacts of urban and agricultural runoff on water quality; provision of wastewater and water quality services; water supply, water allocation and scarcity; and modification of waterbodies for the purposes of flood control, hydropower, navigation, and recreation. In addition, non-human water requirements: e.g. for fish and wildlife, as well as the need to preserve the natural ecosystems that provide and sustain water resources are central to each discussion. Management and policy issues in the United States and worldwide at a range of scales (local, state, federal and international) will be examined. In the course of these examinations, students gain an understanding of how current issues such as growing populations, increasing affluence, and climate change may impact water resource policy and management.

**GEOG 6250. Geographical Perspectives on Development. 3 Credits.**

Theory and debates surrounding economic development in a globalizing world, with case studies.

**GEOG 6261. Geographical Perspectives on Latin America. 3 Credits.**

Natural resources, the environment, and population dynamics through time.

**GEOG 6262. Geographical Perspectives on the Middle East. 3 Credits.**

Examination of selected topics related to political, economic, social, cultural, and geographic patterns and processes in the region.

**GEOG 6265. Geography of Russia and Its Neighbors. 3 Credits.**

A deeper understanding of Post-Soviet geography with a focus on the physical and environmental characteristics of the region, geography of natural and human resources, ethnic, cultural and religious diversity, characteristics of economic and political regions, and recent geopolitical developments.

**GEOG 6290. Principles of Demography. 3 Credits.**

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290/ SOC 6290/ STAT 6290.

**GEOG 6291. Methods of Demographic Analysis. 3 Credits.**

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291/ SOC 6291/ STAT 6291.

**GEOG 6292. Qualitative Methods in Geography. 3 Credits.**

Qualitative research methods, including questionnaires, focus groups, in-depth interviews, repeat photography, observation, reflective mapping, coding, and map interpretation that help appreciate the human experience and build upon ways to produce knowledge.

**GEOG 6293. Special Topics. 3 Credits.**

Consideration of geographic aspects of topical social or environmental problems. May be repeated for credit provided the topic differs.

**GEOG 6295. Research. 1-12 Credits.**

May be repeated for credit.

**GEOG 6299. Internship. 1-3 Credits.**

**GEOG 6300. Geography Capstone Internship. 3 Credits.**

This course provides hands-on experiential learning in a local government agency, NGO, or corporation while allowing the candidate to use his/her geographical skills in a real world setting. Restricted to graduate students in the geography program. Prerequisite: GEOG 6201.

**GEOG 6303. Introduction to Remote Sensing. 3 Credits.**

Theoretical, technical, and applied aspects of remote sensing as a tool for monitoring and managing Earth's resources.

**GEOG 6304. Geographical Information Systems I. 3 Credits.**

Fundamentals of cartography; geographic data structure and geographic information systems.

**GEOG 6305. Geospatial Statistics. 3 Credits.**

Nature of geographical inquiry and the analytical and statistical methods used in the study of spatial processes and patterns.

**GEOG 6306. Geographical Information Systems II. 3 Credits.**

Advanced principles of geographic information systems and their use in spatial analysis and information management. Prerequisites: GEOG 6304 and GEOG 6305.

**GEOG 6307. Digital Image Processing. 3 Credits.**

This course introduces students to the theoretical, technical and applied aspects of remote sensing as a tool for monitoring and managing earth resources. This course provides students with the knowledge for analyzing and applying remotely sensed data for problem solving as it applies to land cover. Prerequisite: GEOG 6304.

**GEOG 6308. Programming for Geospatial Applications. 3 Credits.**

Fundamental concepts for creating Python scripts in ArcGIS; guidelines for proper Python syntax, techniques to troubleshoot common errors, and using loops to test for conditions and execute code based on results. Prerequisites: GEOG 6304 and GEOG 6305.

**GEOG 6309. GIS for Emergency Management. 3 Credits.**

This course introduces students to the theoretical principles of geographic information systems and examines its history, current uses and potential for emergency management through case studies, guest lectures and hands-on training on various GIS products. Prerequisite: GEOG 6304.

**GEOG 6310. Geovisualization and Cartography. 3 Credits.**

Introduction to cartographic design; components of mapmaking, including purpose, generalization, and symbolization; spatial thinking and effective audience-specific communication. Prerequisite: GEOG 6304.

**GEOG 6311. Open Source Solutions for Geospatial Project Management. 3 Credits.**

Geospatial project management, from design through implementation. Students work exclusively with open source technology for data capture, management, analysis, and communication; open source solutions and the effectiveness and sustainability of project management. Prerequisite: GEOG 6304.

**GEOG 6998. Thesis Research. 3 Credits.**

**GEOG 6999. Thesis Research. 3 Credits.**

## BACHELOR OF ARTS WITH A MAJOR IN GEOGRAPHY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

36 credits, including 10 credits in required courses and 26 credits selected from among four groups.

Code	Title	Credits
<b>Required</b>		
GEOG 1001	Introduction to Human Geography	
GEOG 1002	Introduction to Physical Geography	

GEOG 4195	Proseminar in Geographic Thought
A minimum of two courses from each of the following groups:	
Group A (Physical/Environmental/Resources)	
GEOG 1003	Society and Environment
GEOG 2108	Weather and Climate
GEOG 2110	Climate and Human Ecology
GEOG 2128	Geomorphology
GEOG 2129	Biogeography
GEOG 2134	Energy Resources
GEOG 2136	Water Resources
GEOG 2137	Environmental Hazards
GEOG 3132	Environmental Quality and Management
GEOG 3143	Urban Sustainability
GEOG 3194	Special Topics in Physical Geography
GEOG 3218	Arctic Systems
Group B (Human)	
GEOG 2124	Urban Transportation
GEOG 2125	Transportation Systems and Networks
GEOG 2127	Population Geography
GEOG 2133	People, Land, and Food
GEOG 2140	Cities and Societies
GEOG 2141	Cities in the Developing World
GEOG 2144	Explorations in Historical Geography
GEOG 2145	Cultural Geography
GEOG 2146	Political Geography
GEOG 2147	Military Geography
GEOG 2148	Economic Geography
GEOG 3143	Urban Sustainability
GEOG 3195	Special Topics in Human Geography
GEOG 3810	Planning Cities
Group C (Techniques)	
GEOG 2104	Introduction to Cartography and GIS

GEOG 2105	Techniques of Spatial Analysis
GEOG 2107	Introduction to Remote Sensing
GEOG 2196	Field Methods in Geography
GEOG 3106	Intermediate Geographic Information Systems
GEOG 3196	Special Topics in Techniques
GEOG 4307	Digital Image Processing and Analysis
GEOG 4308	Programming for Geospatial Applications
GEOG 4309	GIS for Emergency Management
GEOG 4310	Geovisualization and Cartography
GEOG 4311	Open Source Solutions for Geospatial Project Management
At least one course from Group D (Regional):	
GEOG 2120	World Regional Geography
GEOG 3154	Geography of the Middle East and North Africa
GEOG 3161	Geography of Latin America
GEOG 3164	The Geography of Africa
GEOG 3165	Geography of South Asia
GEOG 3197	Special Topics in Regional Geography

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have a minimum grade-point average of 3.75 in geography courses and a 3.5 average overall.

## MINOR IN GEOGRAPHIC INFORMATION SYSTEMS

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
GEOG 2104	Introduction to Cartography and GIS	

GEOG 2105	Techniques of Spatial Analysis
GEOG 2107	Introduction to Remote Sensing
GEOG 3106	Intermediate Geographic Information Systems

#### Electives

One of the following:

GEOG 3196	Special Topics in Techniques
GEOG 4307	Digital Image Processing and Analysis
GEOG 4308	Programming for Geospatial Applications
GEOG 4309	GIS for Emergency Management
GEOG 4310	Geovisualization and Cartography
GEOG 4311	Open Source Solutions for Geospatial Project Management

One 3-credit Geography (GEOG) course

## MINOR IN GEOGRAPHY REQUIREMENTS

The following requirements must be fulfilled: 19 credits, including 7 credits in required courses and 12 credits selected from among four groups.

Code	Title	Credits
<b>Required</b>		
GEOG 1001	Introduction to Human Geography	
GEOG 1002	Introduction to Physical Geography	
One course from each of the following groups:		
Group A (Physical/Environmental/Resources)		
GEOG 1003	Society and Environment	
GEOG 2108	Weather and Climate	
GEOG 2128	Geomorphology	
GEOG 2129	Biogeography	
GEOG 2134	Energy Resources	
GEOG 2136	Water Resources	
GEOG 2137	Environmental Hazards	

GEOG 3132	Environmental Quality and Management
GEOG 3143	Urban Sustainability
GEOG 3194	Special Topics in Physical Geography
GEOG 3218	Arctic Systems

Group B (Human)

GEOG 2124	Urban Transportation
GEOG 2125	Transportation Systems and Networks
GEOG 2127	Population Geography
GEOG 2133	People, Land, and Food
GEOG 2140	Cities and Societies
GEOG 2141	Cities in the Developing World
GEOG 2144	Explorations in Historical Geography
GEOG 2145	Cultural Geography
GEOG 2146	Political Geography
GEOG 2147	Military Geography
GEOG 2148	Economic Geography
GEOG 3143	Urban Sustainability
GEOG 3195	Special Topics in Human Geography
GEOG 3810	Planning Cities

Group C (Techniques)

GEOG 2104	Introduction to Cartography and GIS
GEOG 2105	Techniques of Spatial Analysis
GEOG 2107	Introduction to Remote Sensing
GEOG 2196	Field Methods in Geography
GEOG 3106	Intermediate Geographic Information Systems
GEOG 3196	Special Topics in Techniques
GEOG 4307	Digital Image Processing and Analysis
GEOG 4308	Programming for Geospatial Applications
GEOG 4309	GIS for Emergency Management
GEOG 4310	Geovisualization and Cartography

GEOG 4311 Open Source Solutions for Geospatial Project Management

#### Group D (Regional)

GEOG 2120 World Regional Geography

GEOG 3154 Geography of the Middle East and North Africa

GEOG 3161 Geography of Latin America

GEOG 3164 The Geography of Africa

GEOG 3165 Geography of South Asia

GEOG 3197 Special Topics in Regional Geography

## MASTER OF SCIENCE IN THE FIELD OF GEOGRAPHY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Thesis option—30 credits, including 6 credits in required courses, 18 credits in elective courses, and 6 credits in thesis; non-thesis option—36 credits, including 6 credits in required courses, 18 credits in elective courses, 9 credits in research, and a 3-credit capstone internship.

Code	Title	Credits
------	-------	---------

#### Required

GEOG 6201	Geographic Thought	
-----------	--------------------	--

GEOG 6304	Geographical Information Systems I	
-----------	------------------------------------	--

#### Thesis option

GEOG 6292	Qualitative Methods in Geography	
-----------	----------------------------------	--

or GEOG 6305	Geospatial Statistics	
--------------	-----------------------	--

GEOG 6998	Thesis Research	
-----------	-----------------	--

GEOG 6999	Thesis Research	
-----------	-----------------	--

#### Non-thesis option

Degree candidates selecting the non-thesis option must take 3 credits of directed research.

GEOG 6292	Qualitative Methods in Geography	
-----------	----------------------------------	--

or GEOG 6305	Geospatial Statistics	
--------------	-----------------------	--

GEOG 6295 Research

or GEOG 6300 Geography Capstone Internship

#### Electives

18 credits of elective courses to include at least one of the following:

GEOG 6226	Water Resources Policy and Management
-----------	---------------------------------------

GEOG 6232	Migration and Development
-----------	---------------------------

GEOG 6250	Geographical Perspectives on Development
-----------	--

GEOG 6306	Geographical Information Systems II
-----------	-------------------------------------

GEOG 6307	Digital Image Processing
-----------	--------------------------

GEOG 6308	Programming for Geospatial Applications
-----------	---

GEOG 6309	GIS for Emergency Management
-----------	------------------------------

GEOG 6310	Geovisualization and Cartography
-----------	----------------------------------

GEOG 6311	Open Source Solutions for Geospatial Project Management
-----------	---

GEOG 6300	Geography Capstone Internship
-----------	-------------------------------

Depending upon the chosen field of specialization, each student will select electives from appropriate courses within the department or from related programs and departments within the University or the Consortium of Universities.

The student's program of study is developed in consultation with the advisor and graduate committee.

Visit the program website (<https://geography.columbian.gwu.edu/masters-geography>) for additional information.

## DUAL MASTER OF SCIENCE IN THE FIELD OF GEOGRAPHY AND GRADUATE CERTIFICATE IN GEOGRAPHICAL INFORMATION SYSTEMS

### REQUIREMENTS

The Department of Geography offers a dual master of science in the field of geography (p. 243) and graduate certificate in geographical information systems (p. 244) program. The 12 credits earned in the certificate program may be applied toward the master's degree.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the Department of Geography website (<https://geography.columbian.gwu.edu>) for additional information.

## GRADUATE CERTIFICATE IN GEOGRAPHICAL INFORMATION SYSTEMS

The graduate certificate in geographical information systems (GIS) program helps students acquire the knowledge and skills to move directly from the classroom into the workplace as environmental scientists, civil engineers, and public health officials, among the many professionals who rely on GIS in government agencies, nonprofits, and the private sector. The curriculum guides students through all aspects of GIS theory and practice, from the science of cartography to analyzing geographical statistics to database design and geospatial modeling. Students are equipped with a solid grounding in geospatial theory and techniques as well as its practical applications.

Visit the program website (<https://geography.columbian.gwu.edu/graduate-certificate-geographical-information-systems>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
GEOG 6304	Geographical Information Systems I	
GEOG 6305	Geospatial Statistics	
<b>Electives</b>		
Two of the following:		
GEOG 6303	Introduction to Remote Sensing	
GEOG 6306	Geographical Information Systems II	
GEOG 6307	Digital Image Processing	
GEOG 6308	Programming for Geospatial Applications	
GEOG 6309	GIS for Emergency Management	
GEOG 6310	Geovisualization and Cartography	

GEOG 6311

Open Source Solutions for Geospatial Project Management

## GEOLOGICAL SCIENCES

The geological sciences program offers undergraduate instruction in rigorous research techniques. It allows students to work directly with faculty in research on the geology and paleontology of the Appalachian mountains, the Rocky mountains, Asia, and elsewhere. The student-faculty partnership provides a broad education and hands-on training.

Visit the Department of Geological Sciences website (<https://geology.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in geological sciences (p. 246)
- Bachelor of Science with a major in geological sciences (p. 246)

### Minor

- Minor in geological sciences (p. 247)

## FACULTY

**Committee on Geological Sciences** C.E. Brown, J.M. Clark, C.A. Forster, G. Mattietti, E. Pauli, J. Kravitz, H. Teng, R.P. Tollo

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

### GEOL 1001. Physical Geology. 3 Credits.

Lecture, laboratory. An introduction to the principal features of the composition and structure of the earth. Topics include the nature of minerals and rocks, surface and deep earth processes, mineral and energy resources, and plate tectonics. Laboratory fee. Credit is not given for both GEOL 1001 and GEOL 1005.

**GEOL 1002. Historical Geology. 3 Credits.**

Lecture, laboratory. An introduction to the history of the earth. Topics include sedimentary environments, plate tectonics, origin of life, and evolution. Laboratory fee. Prerequisite: GEOL 1001 or GEOL 1005.

**GEOL 1005. Environmental Geology. 3 Credits.**

Lecture, laboratory. An introduction to the impact of geology on the environment, with emphasis on the relation of people and society to natural environments; population evolution, natural hazards, and mineral resources. Laboratory fee. Credit is not given for both GEOL 1001 and GEOL 1005.

**GEOL 2106. Oceanography. 3 Credits.**

The ocean with its many environments represents the last largely unexplored frontier on earth. Origin of the ocean systems and plate tectonics, ocean habitats and their biota, marine hydrology and ocean currents; air-sea interaction and climate control; ocean mapping techniques; environmental regulations covering marine resources. Laboratory fee. Prerequisite: GEOL 1001 or GEOL 1005.

**GEOL 2111. Mineralogy. 4 Credits.**

Lecture and laboratory. Introduction to the crystallography and chemical systematics of rock-forming and ore minerals. Exercises emphasize the analysis of mineralogic data and the paragenesis of mineral assemblages. Laboratory fee. Prerequisites: GEOL 1001 or GEOL 1005; or permission of the instructor.

**GEOL 2112. Igneous and Metamorphic Petrology. 4 Credits.**

Lecture and laboratory. Introduction to basic light theory and the identification and characterization of minerals through optical properties. Laboratory exercises provide an introduction to petrologic analysis of igneous and metamorphic mineral systems. Prerequisite: GEOL 2111 or permission of the instructor. Laboratory fee.

**GEOL 2122. Structural Geology. 3 Credits.**

Lecture and laboratory. Study of natural and experimental rock deformation and the relationships between stress and strain as recorded by geologic structures. Prerequisite: GEOL 1001 or GEOL 1005. Laboratory fee.

**GEOL 2151. Introduction to Paleontology. 3 Credits.**

A review of the origin of life, the geologic record, and the evolutionary history of the major groups of organisms, including the origin of life and evolution of invertebrates, vertebrates, and plants. Laboratory fee. Prerequisite: GEOL 1002.

**GEOL 2159. Geobotanical Ecology of the Central Appalachians. 4 Credits.**

A multidisciplinary approach to Appalachian ecology involving application of scientific principles from both geology and botany, stressing interrelationships between geological, geochemical, and biological processes. Field trips. Laboratory fee. Prerequisites: GEOL 1001 or GEOL 1005 and BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; with permission of instructor.

**GEOL 2190. Special Topics in Geology. 1-3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**GEOL 2333. Evolution and Extinction of Dinosaurs. 3 Credits.**

The 165-million-year history of dinosaurs; different groups and their evolution, end-Cretaceous extinction event, the origin of birds, and the biology of the group. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or GEOL 1001 and GEOL 1002 or GEOL 1002 and GEOL 1005. (Same as BISC 2333).

**GEOL 3118. Volcanology. 3 Credits.**

Fundamental principles and geologic processes associated with volcanism. Eruptive styles, processes leading to magma production and transport, triggering mechanisms, plate tectonic settings, volcanic hazards, and disaster mitigation. Case histories of selected volcanic eruptions examined in detail. Laboratory fee. Prerequisites: GEOL 2111 or permission of the instructor.

**GEOL 3119. Field Experience in Volcanology. 1 Credit.**

Weeklong field exercise at a major volcanic center in the western United States; field-based interpretation and analysis of volcanic and related rocks. Classroom discussion focuses on the processes responsible for volcanism. Deposit for expenses is required. Recommended background: Prior completion or concurrent enrollment in GEOL 2112 and GEOL 3118.

**GEOL 3123. Crustal Dynamics. 0-3 Credits.**

Basic plate tectonic processes and features; the plate tectonic paradigm in historical evolutionary framework. Students present an original research project orally and in writing. Prerequisite: GEOL 2122. Laboratory fee.

**GEOL 3126. Sedimentology and Stratigraphy. 4 Credits.**

Lecture and laboratory. Introduction to sedimentation and stratigraphy; origin and classification of sediments and sedimentary rocks; introduction to clastic and carbonate depositional environments and stratigraphic principles. Laboratory fee. Prerequisites: GEOL 1002 and GEOL 2111.

**GEOL 3131. Global Climate Change. 3 Credits.**

Fundamental causes and patterns of climate change. Methods of reconstruction of past climates; modeling and predicting climate change.

**GEOL 3138. Hydrogeology. 3 Credits.**

Principles and theory of basic and applied hydrology: surface water hydrology, geology of groundwater systems, groundwater flow, surface water-groundwater interactions, contamination and remediation technologies, conservation, management, and regulations. Laboratory fee. Prerequisites: GEOL 2111 and GEOL 2122; and MATH 1221 or MATH 1231; or permission of the instructor.

**GEOL 3140. Geochemistry. 3 Credits.**

Chemical systems and processes on the planet Earth; origins and interactions among and within the Earth's lithosphere, oceans, and atmosphere; origin, distribution, and behavior of the elements; radioactive and stable isotope systems. Aqueous geochemistry; geochemical cycles. Prerequisites: GEOL 1001 or GEOL 1005; and CHEM 1111 and CHEM 1112. (Same as CHEM 3140).

**GEOL 3189. Geophysics. 3 Credits.**

Principles of magnetic, gravity, seismic and electrical methods applied to geological problem-solving. Prerequisite: GEOL 2122 or permission of instructor.

**GEOL 3191. Geology of Energy Resources. 3 Credits.**

Principles of geology applied in energy exploration, exploitation, and production; the geology of energy resources in ocean basins; borehole and surface geophysical applications and reconnaissance mapping techniques; management and regulation of energy resources; sustainability, efficiency, and conservation issues. Laboratory fee. Prerequisites: GEOL 2122 or permission of the instructor.

**GEOL 4195. Geological Field Methods. 4 Credits.**

Weekend field trips. Methods of outcrop analysis, geologic mapping, and data interpretation. The geological evolution of the central Appalachian mountains and the plate tectonic processes responsible for their formation emphasized. Field trip fee. Prerequisites: GEOL 2111 and GEOL 2122.

**GEOL 4195W. Geological Field Methods. 4 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**GEOL 4199. Undergraduate Research or Reading. 1-12 Credits.**

Problems approved by the staff. May be repeated for credit.

## BACHELOR OF ARTS WITH A MAJOR IN GEOLOGICAL SCIENCES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite courses:</b>		
GEOL 1002	Historical Geology	
GEOL 1001	Physical Geology	
or GEOL 1005	Environmental Geology	

Code	Title	Credits
<b>Required courses in related areas:</b>		
CHEM 1111	General Chemistry I	
CHEM 1112	General Chemistry II	
<b>Required courses for the major:</b>		
GEOL 2111	Mineralogy	
GEOL 2112	Igneous and Metamorphic Petrology	
GEOL 2122	Structural Geology	
GEOL 3126	Sedimentology and Stratigraphy	
GEOL 4195	Geological Field Methods	
Three upper-level electives chosen from the following:		
GEOL 2106	Oceanography	
GEOL 2151	Introduction to Paleontology	
GEOL 2190	Special Topics in Geology (3 credits only)	
GEOL 3118	Volcanology	
GEOL 3123	Crustal Dynamics	
GEOL 3131	Global Climate Change	
GEOL 3138	Hydrogeology	
GEOL 3140	Geochemistry	
GEOL 3191	Geology of Energy Resources	
GEOL 4199	Undergraduate Research or Reading (3 credits only)	

### SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, candidates must maintain a cumulative grade-point average of 3.3 both overall and for courses in the major, and must submit an approved Honors thesis.

## BACHELOR OF SCIENCE WITH A MAJOR IN GEOLOGICAL SCIENCES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite courses:</b>		
GEOL 1002	Historical Geology	
GEOL 1001	Physical Geology	
or GEOL 1005	Environmental Geology	
Code	Title	Credits
<b>Required courses in related areas:</b>		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
One of the following:		
PHYS 1011 & PHYS 1012	General Physics I and General Physics II	
Or		
ASTR 1001 & ASTR 1002	Stars, Planets, and Life in the Universe and Origins of the Cosmos	
One of the following:		
MATH 1220 & MATH 1221	Calculus with Precalculus I and Calculus with Precalculus II	
MATH 1231	Single-Variable Calculus I	
STAT 1051	Introduction to Business and Economic Statistics	
STAT 1053	Introduction to Statistics in Social Science	
STAT 1111	Business and Economic Statistics I	
STAT 1127	Statistics for the Biological Sciences	
<b>Required courses for the major:</b>		
GEOL 2111	Mineralogy	
GEOL 2112	Igneous and Metamorphic Petrology	
GEOL 2122	Structural Geology	
GEOL 3126	Sedimentology and Stratigraphy	
GEOL 4195	Geological Field Methods	
Four courses chosen with approval of the program advisor from the following list of designated courses:		

GEOL 2106	Oceanography
GEOL 2151	Introduction to Paleontology
GEOL 2159	Geobotanical Ecology of the Central Appalachians
GEOL 2190	Special Topics in Geology (3 credits only)
GEOL 3118	Volcanology
GEOL 3131	Global Climate Change
GEOL 3138	Hydrogeology
GEOL 3140	Geochemistry
GEOL 3189	Geophysics
GEOL 3191	Geology of Energy Resources
GEOL 4199	Undergraduate Research or Reading (3 credits only)

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, candidates must maintain a cumulative grade-point average of 3.3 both overall and for courses in the major, and must submit an approved Honors thesis.

## MINOR IN GEOLOGICAL SCIENCES

### REQUIREMENTS

The following requirements must be fulfilled: 19 credits for the minor and successful completion of all prerequisite courses.

Code	Title	Credits
<b>Prerequisite</b>		
GEOL 1002	Historical Geology	
GEOL 1001	Physical Geology	
or GEOL 1005	Environmental Geology	
Code	Title	Credits
<b>Required for the minor</b>		
GEOL 2111	Mineralogy	
GEOL 2112	Igneous and Metamorphic Petrology	
GEOL 2122	Structural Geology	

## HISTORY

The Department of History offers a curriculum that includes a wide range of geographical, thematic, and temporal fields. Students can choose from courses in American, European, Asian, Middle Eastern, Latin American, and African history in the early modern and modern time periods, as well as courses centering on cross-national themes such as the history of colonialism and imperialism, the Cold War, the Atlantic World, immigration, women's history, and military history. The program strengthens students' ability to understand the past in political, social, and cultural context and the relationship of the past to the present. It is also designed so that students gain experience in writing and acquire the knowledge and analytical tools necessary for success in a range of careers and professions.

Visit the Department of History website (<https://history.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in history (p. 261)

### Minor

- Minor in history (p. 263)

## GRADUATE

### Master's program

- Master of Arts in the field of history (p. 263)

### Doctoral programs

- Doctor of Philosophy in the field of history (p. 264)
- Doctor of Philosophy in the field of American religious history (p. 264)

## FACULTY

**Professors** H.L. Agnew, T. Anbinder, E. Arnesen, M.A. Atkin, G.A. Brazinsky, E.H. Cline, R.J. Cottrol, J. Hershberg, D.K. Kennedy, D.R. Khoury, E.A. McCord, L.P. Ribuffo, D. Silverman, R.H. Spector, R.B. Stott, R. Thornton, J. Weissman Joselit, A. Zimmerman

**Associate Professors** P.M. Alonso-Gortari, N. Blyden, D. Brunsman, E. Chapman, D. Cline, A. Dubnov, H.M. Harrison, B. Hopkins, J. Kim, C. Klemek, J. Krug, S. McHale, S.N. Robinson, A.M. Smith II, D. Schwartz, K. Schultheiss (*Chair*), D. Yang

**Assistant Professors** J. Blecher, S. Brady, T. Christov, T.W. Jackson, C.T. Long, S. Matthiesen, J. Wells

**Adjunct Professors** A. Howard

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Course Accessibility: All listed undergraduate courses are open to students without history course prerequisites with the exception of HIST 3095 Internship, HIST 4098 Thesis Seminar, and HIST 4099 Senior Honors Thesis Tutorial.

#### **HIST 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **HIST 1011. World History, 1500-Present. 3 Credits.**

An introduction to world history over the past half millennium, stressing themes of exchange and integration, tracing the ways various peoples of the world became bound together in a common system.

#### **HIST 1020. Approaches to Women's History. 3 Credits.**

Exploration of critical periods of intellectual and cultural change in Western societies as influenced by and affecting women. Examination of images of women and of changing ideal types of femininity and masculinity. Aspects of law, religion, art, culture, work, and politics in relation to these topics. Same as WGSS 1020.

#### **HIST 1110. European Civilization in Its World Context. 3 Credits.**

Introduction to the history of Europe, emphasizing primary sources and their interpretation. From the beginning of written culture through 1715.

#### **HIST 1120. European Civilization in Its World Context. 3 Credits.**

Continuation of HIST 1110. Introduction to the history of Europe, emphasizing primary sources and their interpretation. From 1715 to the present.

**HIST 1120W. European Civilization in its World Context. 3 Credits.**

European history from the early eighteenth century to the present; mutual influence and impact between Europe and the rest of the world. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 1121. The War of Ideas in European and International History, 1750-Present. 0-3 Credits.**

The ideas that made people fight, from the French Revolution to the worldwide uprisings of the 1960s and beyond. Key texts whose ideas of freedom and slavery, tradition and progress, state authority and revolutionary violence changed the world. The political, economic, and social contexts and effects of these texts.

**HIST 1310. Introduction to American History. 3 Credits.**

The political, social, economic, and cultural history of the United States. From the earliest settlements to 1876.

**HIST 1311. Introduction to American History. 3 Credits.**

Continuation of HIST 1310. The political, social, economic, and cultural history of the United States. From 1876 to present.

**HIST 2000. Sophomore Colloquium. 3 Credits.**

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Instructor's permission is required.

**HIST 2001. Special Topics. 0-4 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

**HIST 2005. Majors' Introductory Seminar. 3 Credits.**

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs.

**HIST 2005W. Majors' Introductory Seminar. 3 Credits.**

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2006. Digital History. 3 Credits.**

How the Internet and electronic technology have transformed the ways in which historians conduct research, present their work, and record, store, organize, and disseminate their findings; computational tools for data analysis.

**HIST 2010. Early American Cultural History. 3 Credits.**

How culture was important in the creation of the United States—in its origins as a colonial outpost and its expansion across the continent; in its hierarchies and expressions of power, especially as organized by race, class, ethnicity, or gender; in the creation of democracy and the valuing of free expression; and in the development of cities and the varied uses of the countryside. Same as AMST 2010.

**HIST 2011. Modern American Cultural History. 3 Credits.**

The effects of culture in the shaping of the United States since 1876. The role of the mass media; effects of cultural conceptions on the physical landscape; changing ideas of race, ethnicity, gender, and sexuality; and the political meanings of cultural conflict. Transnational influences on U.S. culture and effects of U.S. culture abroad. Same as AMST 2011.

**HIST 2020. Washington, DC: History, Culture, and Politics. 0-3 Credits.**

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Same as AMST 2020.

**HIST 2020W. Washington, DC: History, Culture, and Politics. 0-3 Credits.**

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 2020).

**HIST 2050. History of Jewish Civilization: From the Bible to Modernity. 3 Credits.**

Introduction to the richness and diversity of Jewish civilization from antiquity to the present. Examination of evolving notions of "who" or "what" is Jewish. Key concepts including "chosenness," community, peoplehood, diaspora, redemption, and Torah. How the boundaries of Jewishness have been formed, contested, and revised over time; how Jews managed to retain their identity throughout their millennial history of migration, dispersion, and persecution; what unites Jewish civilization; and whether a unified Jewish history over centuries and continents can be traced, as distinct from multiple "histories" of the Jews in the myriad times and places in which they lived. Emphasis on analysis of primary texts and cultural objects along with contextual understanding of Jews and Judaism.

**HIST 2060. Modern Jewish History. 3 Credits.**

Survey of Jewish history from the seventeenth century to the present, focusing on Europe, America, and the Middle East. The myriad political, economic, and intellectual challenges of modernity to Jewish life and how Jews responded to these challenges through various religious and secular movements and with new concepts of identity and community.

**HIST 2105. Majors' Introductory Seminar: Europe. 0-3 Credits.**

**HIST 2105W. Majors' Introductory Seminar: Europe. 0-3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2112. History of Ancient Greece. 3 Credits.**

A political and social survey of Bronze Age Minoan and Mycenaean civilizations, the Iron Age, Archaic Period, Classical Greece through Alexander the Great. (Same as CLAS 2112).

**HIST 2113. The Roman World to 337 A.D.. 3 Credits.**

Prehistoric Italy; rise and decline of the Roman Empire and Latin civilization; cultural, social, and political developments in the Greek world under Roman rule.

**HIST 2124. Nineteenth-Century Europe. 3 Credits.**

Exploration of primary source documents and works of professional historians to introduce important issues of nineteenth-century European history.

**HIST 2125. Twentieth-Century Europe. 3 Credits.**

Diplomatic, political, and cultural developments from the turn of the century to the present.

**HIST 2131. History of England Since 1689. 3 Credits.**

Development of English civilization and its impact on Western culture.

**HIST 2141. History of France Since 1789. 3 Credits.**

Breaks and continuities in the succession of regimes; the interplay between revolution and tradition; the weakened international position of France; Gaullism and the survival of France; European Unity.

**HIST 2160. History of Germany. 3 Credits.**

Political, social, and cultural development.

**HIST 2180. Russia to 1801. 3 Credits.**

Survey of Russian history from the rise of the Kievan confederation in the ninth century to the establishment of Imperial Russia as a European great power; political, socioeconomic, and cultural history of the East Slavs, especially the Russians.

**HIST 2181. Russia Since 1801. 3 Credits.**

Survey of Russian and Soviet history from the reign of Alexander I to the Stalin era; contending forces of revolution, reform, and conservatism; diplomatic relations; economic development; and social change.

**HIST 2301. Topics in U.S. History. 0-3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

**HIST 2305. Majors' Introductory Seminar: United States. 0-3 Credits.**

**HIST 2305W. Majors' Introductory Seminar: United States. 0-3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2311. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.**

The period 1824-1950 as a crucial era in American history; popular impact of social and political changes caused by the growth of the market economy; emergence of two national political parties; and new reforms focused increasingly on slavery as the country's greatest problem.

**HIST 2312. The American Civil War and Reconstruction, 1850-1877. 3 Credits.**

Examination of the political crises of the 1850s to determine how and why the issue of slavery led to the American Civil War; the war's important battles, including how generals and common soldiers shaped outcomes; Reconstruction and the aftermath of the war, including how it shapes politics and race relations to the present day.

**HIST 2313. History of the American West. 3 Credits.**

A history of the trans-Mississippi West from first settlement by American Indians to the present; the pre-contact West, the coming of the Spanish, American settlement, the Indian Wars, women in the West, labor and racial conflict, and the West in the twentieth century.

**HIST 2320. U.S. Media and Cultural History. 3 Credits.**

History and analysis of twentieth-century U.S. media and culture, including the rise of consumer culture, film, and television. Racial, gendered, and national identities in the context of modernism, mass culture, and globalization. (Same as AMST 2320).

**HIST 2321. U.S. History, 1890-1945. 3 Credits.**

A survey of modern U.S. history from the late nineteenth century to the end of WWII. Emphasis on politics, public policy, and culture. Basic readings include biography, autobiography, and contemporary novels.

**HIST 2322. U.S. History since 1945. 3 Credits.**

Political, social, diplomatic, and intellectual developments, with particular emphasis on the Cold War, "silent" '50s, and disrupted '60s.

**HIST 2340. U.S. Diplomatic History. 3 Credits.**

American foreign relations in the twentieth century.

**HIST 2340W. U.S. Diplomatic History. 3 Credits.**

American foreign relations in the twentieth century. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2341. History of F.B.I. Counterintelligence. 3 Credits.**

The issues, controversies, and personalities that have played critical roles in the history of FBI foreign counterintelligence development. Prerequisite: None.

**HIST 2350. U.S. Religion and Politics. 3 Credits.**

How religion and politics have influenced each other in the United States and how Americans have understood those influences. Religious violence; conflicts between faith and science; religious factors in racial and gender politics; and the separation of church and state. Same as AMST 2350.

**HIST 2367. The American Jewish Experience. 3 Credits.**

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people.

**HIST 2380. Sexuality in U.S. History. 3 Credits.**

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as AMST 2380/ WGSS 2380.

**HIST 2410. Twentieth-Century U.S. Immigration. 3 Credits.**

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Same as AMST 2410.

**HIST 2440. The American City. 3 Credits.**

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Same as AMST 2440.

**HIST 2440W. The American City. 3 Credits.**

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2490. Themes in U.S. Cultural History. 3 Credits.**

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Same as AMST 2490.

**HIST 2490W. Themes in U.S. Cultural History. 3 Credits.**

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 2490W).

**HIST 2505. Majors' Introductory Seminar: Africa. 0-3 Credits.****HIST 2520. Africans in the Making of the Atlantic World. 3 Credits.**

The role of Africa and Africans in the Atlantic world with emphasis on links between Africa, Europe, and the Americas.

**HIST 2601. Topics: Asian History. 3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

**HIST 2605. Majors' Introductory Seminar: Asia. 0-3 Credits.****HIST 2605W. Majors' Introductory Seminar: Asia. 0-3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2610. Science, Technology, and Politics in Modern America. 3 Credits.**

The history of science and technology and their role in political and social life from the late nineteenth century to the present.

**HIST 2610W. Science, Technology, and Politics in Modern America. 3 Credits.**

The history of science and technology and their role in political and social life from the late nineteenth century to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2630. History of Korea. 3 Credits.**

An introduction to the history and culture of Korea from antiquity to the present.

**HIST 2705. Majors' Introductory Seminar: Latin America. 0-3 Credits.****HIST 2705W. Majors' Introductory Seminar: Latin America. 0-3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2710. The United States in Global Context, 1898-Present. 0-3 Credits.**

U.S. political and cultural global engagement in the twentieth- and twenty-first-centuries; global culture, transnational ideas and social movements, foreign policy, and economic transformations. (Same as AMST 2710).

**HIST 2730. World War II in History and Memory. 0-3 Credits.**

Examination of Americans' histories and memories of World War II. Same as AMST 2730.

**HIST 2730W. World War II in History and Memory. 0-3 Credits.**

Examination of Americans' histories and memories of World War II. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 2730).

**HIST 2803. The Ancient Near East and Egypt to 322 B.C.. 3 Credits.**

Survey of Egyptian, Mesopotamian, Anatolian, West Semitic, and Iranian civilizations from the Neolithic period to Alexander's conquest.

**HIST 2804. History of Ancient Israel. 3 Credits.**

The history of ancient Israel from the Patriarchs through the Romans. Topics include historical, archeological, political, social, cultural, religious, diplomatic, military, economic, and intellectual events, movements, and relationships. Same as CLAS 2804.

**HIST 2805. Majors' Introductory Seminar: Middle East. 0-3 Credits.**

**HIST 2805W. Majors' Introductory Seminar: Middle East. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 2810. Jihad: Love and War in Islamic History. 3 Credits.**

The evolving justifications for war in Islamic history; close readings of classical (Qur'an and hadith), medieval (fatwas, legal treatises), and contemporary sources (writings of ISIS, Bin Laden, and others).

**HIST 2811. The Formation of Islam to 1500. 3 Credits.**

Political, social, and intellectual history of the Islamic world from the seventh to fifteenth centuries; cultural contexts of Southern Europe, North Africa, the Near East, Central Asia, South Asia, and across the Indian Ocean.

**HIST 2812. History of Zionism. 3 Credits.**

Critical historical survey of the development of Jewish nationalist thought in general and Zionism in particular, from its genesis in the 1880s up until the establishment of the State of Israel in May 1948.

**HIST 2850. Modernization in Russia, Turkey, and Iran. 3 Credits.**

Interrelated aspects of modernization, such as social and cultural issues, issues of power, and national identity, in Russia, Turkey, and Iran.

**HIST 3001. Special Topics. 0-4 Credits.**

May be repeated for credit provided the topic differs.

**HIST 3001W. Special Topics. 0-4 Credits.**

May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3030. Military History to 1860. 3 Credits.**

The causes, conduct, and consequences of conflict in the ancient, medieval, renaissance, and early modern world. Examination of the Anglo-Dutch and Anglo-French wars leading to the Seven Years' War, American Revolution (including a "virtual staff ride" of the Saratoga Campaign), French Revolution, and Napoleonic Wars.

**HIST 3031. Military History since 1860. 3 Credits.**

Causes, conduct, and consequences of conflict from the American Civil War through the Austro- and Franco-Prussian Wars, Spanish-American War, Sino- and Russo-Japanese Wars, World Wars I and II (including a "virtual staff ride" of the Normandy Campaign), Korea, Vietnam, and modern "small wars".

**HIST 3033. War and the Military in American Society from the Revolution to the Gulf War. 3 Credits.**

Social and psychological dimensions of war and military service.

**HIST 3035. The United States and the Wars in Indochina, 1945-1975. 3 Credits.**

The American role in the Indochina Wars, emphasizing the period 1961 to 1975, and from the perspectives of the Vietnamese, French, and Americans in Vietnam. Related intellectual and political developments in the United States; Cold War relationships with China and the Soviet Union.

**HIST 3038. Naval History to 1815. 3 Credits.**

Causes, conduct, and consequences of war at sea from the Age of Reconnaissance and Conquest through the War of 1812 (including a "virtual staff ride" of the Battle of Trafalgar). Consideration of issues including technology, the impact of the environment, and theories of warfare associated with each period.

**HIST 3039. Naval History since 1815. 3 Credits.**

Causes, conduct, and consequences of war at sea in the Civil War, counterinsurgency operations of so-called small wars, World Wars I and II, and the post-Cold War period. The transition from sail to steam, asymmetric warfare, and the role of sea power in modern geopolitics. Students participate in a virtual staff ride of the Battle of Leyte Gulf.

**HIST 3044W. The Price of Freedom: Normandy 1944. 4 Credits.**

The causes, conduct, and consequences of warfare, considered through examination of the campaign in Normandy that began with the allied landings on D-Day. Assignments include researching and writing a biography of a member of the military who died in the campaign and presenting a eulogy at the soldier's graveside during a "staff ride" exploration of the battlefield conducted over spring break. The biography paper is to be submitted to and retained in the archives of the American Cemetery in Normandy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Permission of the Office for Study Abroad and interview with the instructor required prior to enrollment. Laboratory fee.

**HIST 3045. International History of the Cold War. 3 Credits.**

Key events and themes of the Cold War, drawing on new evidence from U.S., Soviet, Chinese, German, East European, Vietnamese, Cuban, and other sources. Related historiographical controversies from multiple national perspectives. Why the Cold War began, why it lasted for 45 years, and why it ended.

**HIST 3046. The Cold War in the Third World. 3 Credits.**

The evolution of the Cold War in Asia, Africa, and Latin America. Decolonization and the response of the Great Powers, the political economy of the Third World, and American and Soviet interventions.

**HIST 3047. Writing Cold War History. 3 Credits.**

Seminar. Students prepare a research paper on selected topics in the history of the Cold War.

**HIST 3047W. Writing Cold War History. 3 Credits.**

Seminar. Students prepare a research paper on selected topics in the history of the Cold War. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3061. The Holocaust. 3 Credits.**

The origins, causes, and significance of the Nazi attempt to destroy European Jewry, within the context of European and Jewish history. Related themes include the behavior of perpetrators, victims, and bystanders; literary responses; contemporary implications of the Holocaust for religion and politics.

**HIST 3062. War Crimes Trials. 3 Credits.**

The Nuremberg trial and its legacy in subsequent international and hybrid tribunals. The need for judicial accountability for genocide, crimes against humanity, and war crimes.

**HIST 3095. Internship. 1-3 Credits.**

Study of history through internships in museums, libraries, the U.S. Congress, or other appropriate institutions and agencies. Restricted to students with the approval of a departmental faculty member.

**HIST 3097. Independent Study. 1-3 Credits.**

Permission of instructor required.

**HIST 3101. Topics: Europe. 0-3 Credits.****HIST 3101W. Topics: Europe. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3103. European Intellectual History I. 3 Credits.**

The "Century of Genius" and the Enlightenment; God, nature, man, and society, from Descartes to the French Revolution.

**HIST 3104. European Intellectual History II. 3 Credits.**

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy.

**HIST 3104W. European Intellectual History II. 3 Credits.**

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3111. Topics in Ancient History. 3 Credits.**

May be repeated for credit provided the topic differs. Same as CLAS 3111.

**HIST 3117. Alexander The Great. 3 Credits.**

Close reading of ancient primary sources reveal the complex personality and remarkable deeds of Alexander the Great (356-323 BCE); the nature of Alexander's military success, lasting effects of his conquests, and long-term impact on the varied people and lands of his empire. Prerequisites: AH 3101 or HIST 2112. (Same as CLAS 3117).

**HIST 3118. The Middle Ages: 500-1500. 3 Credits.**

The evolution of European society from the end of the Roman Empire to the Renaissance. The nature of political power, role of religion, place of gender, cultural production, and changing social structures.

**HIST 3126. European Integration: A History. 3 Credits.**

An examination of the origins and development of the European Union.

**HIST 3130. History of England I. 3 Credits.**

Development of English civilization and its impact on Western culture. To 1689.

**HIST 3132. Tudor England. 3 Credits.**

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485-1603.

**HIST 3132W. Tudor England. 3 Credits.**

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485 to 1603. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3134. Stuart England. 3 Credits.**

The civil wars, Restoration, and Glorious Revolution. Political, religious, socioeconomic, and intellectual developments in England, 1603-1714.

**HIST 3135. Victorian Britain. 3 Credits.**

Major themes in nineteenth-century British history: industrialism, democratization, urbanization, imperial expansion, class and gender schisms.

**HIST 3137. The British Empire. 3 Credits.**

The British Empire from its rise in the seventeenth century to its demise in the twentieth century.

**HIST 3139. Twentieth-Century Britain. 3 Credits.**

Major themes of twentieth-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe.

**HIST 3139W. Twentieth-Century Britain. 3 Credits.**

Major themes of twentieth-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3140. History of France. 3 Credits.**

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon.

**HIST 3140W. History of France to 1814. 3 Credits.**

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3145. The French Revolution. 3 Credits.**

Social, political, economic, and cultural history of the decade of revolution, 1789-1799. Attention to its structural consequences in France and in Europe at large.

**HIST 3145W. The French Revolution. 3 Credits.**

Social, political, economic, and cultural history of the decade of revolution, 1789 to 1799. Attention to its structural consequences in France and in Europe at large. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3148. El Camino de Santiago. 3 Credits.**

Walking the Camino de Santiago is a cultural phenomenon that has lasted over a thousand years. An important part of Spain's cultural and political history, the Camino has affected the structures that form Spain's political and institutional systems, society, economy, and ideology as well as artistic forms of expression. Students may earn their Pilgrim's passport by walking the last 100 kilometers of the Camino after the formal classes have ended. Offered at GW Madrid Study Center.

**HIST 3149. History of Spain. 3 Credits.**

Familiarizes students with the important milestones of Spain's history. Discusses the regime of the 40-year dictatorship, concluding with the advent of democracy through an exemplary transition that has served as an example to other nations. Offered only at GW Madrid Study Center.

**HIST 3150. Spain and Its Empire, 1492-1700. 3 Credits.**

Major transformations of the period: from cultural pluralism to ethnic homogeneity, from medieval fragmentation to imperial expansion in Europe and America; from religious reform to Catholic Reformation, from global dominance to decline.

**HIST 3168. Divided and United Germany Since 1945. 3 Credits.**

Why was Germany divided after World War II? Why did it stay divided for 45 years? How was it reunited in 1990? This course examines developments in East and West Germany, relations between the two Germanys during the Cold War, their foreign policies, and how other countries treated them.

**HIST 3173. The Habsburgs in East Central Europe. 3 Credits.**

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I.

**HIST 3173W. The Habsburgs in East Central Europe. 3 Credits.**

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3178. The Making of the Modern Balkans. 3 Credits.**

States of the Balkan peninsula—Slovenia, Croatia, Serbia and Montenegro, Bosnia, Albania, Macedonia, Greece, Bulgaria, and Romania—including developments since the decline of the Ottoman Empire and the emergence of Balkan nationalist movements, and continuing through the collapse of the Soviet bloc.

**HIST 3180. Russia to 1801. 3 Credits.**

Survey of Russian history from the rise of the Kievan confederation in the ninth century to the establishment of Imperial Russia as a European great power. Attention is given to the political, socioeconomic, and cultural history of the East Slavs, especially the Russians.

**HIST 3181. Russia Since 1801. 3 Credits.**

Survey of Russian and Soviet history from the reign of Alexander I to the Stalin era. Attention is given to the contending forces of revolution, reform, and conservatism; diplomatic relations; economic development; and social change.

**HIST 3301. Topics: U.S. History. 0-4 Credits.****HIST 3301W. Topics: U.S. History. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3302. America Before 1764. 3 Credits.**

An examination of prehistory, colonization, and the shifting dynamics among European Americans, African Americans, and Native Americans before 1764.

**HIST 3303. Revolutionary America. 3 Credits.**

The American revolutionary era from the movement for independence through the establishment of the new federal government under the Constitution. Emphasis on changes to the inhabitants of North America, including Native Americans, African Americans, and European Americans, as well as to the broader Atlantic world.

**HIST 3304. George Washington and His World. 3 Credits.**

George Washington's life as soldier, politician, entrepreneur, slave holder, and national icon. Emphasis on the interpretation of original sources, including historical documents and the material culture of Washington's Mount Vernon estate, with tours and lectures by curators and historians. Departmental permission is required for registration.

**HIST 3311. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.**

Focus on 1824 to 1850 as a crucial era in American history. Popular impact of social and political changes caused by the growth of the market economy; emergence of two national political parties; and new reforms focused increasingly on slavery as the country's greatest problem.

**HIST 3311W. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.**

Study of 1824 to 1850 as an era in American history marked by widespread change. Impact of social and political reforms caused by the growth of the market economy; emergence of two national political parties; and new reforms increasingly focused on slavery as America's greatest problem. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3322. The Modern American Presidency. 3 Credits.**

Development of the modern American presidency from Theodore Roosevelt to Barack Obama. Examination of the lives of the presidents, revealing the intersection of personal and impersonal forces in the creation of modern politics and modern America.

**HIST 3324. U.S. Urban History. 3 Credits.**

History of American urban life and culture from the colonial era to the present, focusing on transitions from pre-industrial to industrial and post-industrial forms. The social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender.

**HIST 3332. History of American Foreign Policy Since World War II. 3 Credits.**

Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. World War II to the Vietnam .

**HIST 3333. History of American Foreign Policy Since World War II. 3 Credits.**

Continuation of HIST 3332. Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. Vietnam to the "New World Order."

**HIST 3334. The Nuclear Arms Race. 3 Credits.**

Political, military, diplomatic, scientific, and cultural consequences of the advent of nuclear weapons. The development and uses of the atomic bomb during World War II and the course and legacy of the U.S.-Soviet nuclear arms race during the Cold War.

**HIST 3351. U.S. Social History. 3 Credits.**

Survey of American society and social change from the Civil War to the present. Gender, sexuality, race, ethnicity, and class perspectives. (Same as AMST 3351).

**HIST 3352. U.S. Women's History to 1865. 3 Credits.**

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. Same as AMST 3352/WGSS 3352. (Same as AMST 3352, WGSS 3352).

**HIST 3352W. U.S. Women's History to 1865. 3 Credits.**

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same as AMST 3352W/WGSS 3352W.

**HIST 3353. U.S. Women's History II. 3 Credits.**

Continuation of HIST 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. Same as AMST 3353/WGSS 3353. (Same as AMST 3353, WGSS 3353).

**HIST 3356. Epidemics in American History. 3 Credits.**

Epidemics in American history.

**HIST 3360. African American History to 1865. 3 Credits.**

Major themes and concepts emerging from the early history of the African presence in the Americas and black experiences in the new nation of the United States. Focus on the emergence and evolution of the concept of race, the ways race evolved in concert with Atlantic slavery, and how race intersected with gender, economics, religion, and nationality. (Same as AMST 3360).

**HIST 3361. African American History Since 1865. 3 Credits.**

African American efforts to realize full freedom after emancipation from slavery. Gender politics, cultural expression, labor organizing, and radicalisms; dynamics of racism within major eras of African American activity from Reconstruction through the Great Migration; and the history of civil rights, Black Power, and black feminism. (Same as AMST 3361).

**HIST 3362. African American Women's History. 3 Credits.**

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late twentieth century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. (Same as AMST 3362, AMST 3362W, HIST 3362W, WGSS 3362, WGSS 3362W).

**HIST 3362W. African American Women's History. 3 Credits.**

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late twentieth century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same as AMST 3362W/WGSS 3362W.

**HIST 3363. Race, Medicine, and Public Health. 3 Credits.**

The experiences of African Americans as patients and health care providers; the history of the relationship between race, American medicine, and public health. Emphasis on the importance of understanding the historical roots of contemporary policy dilemmas such as racial and ethnic disparities in health and health care. Restricted to .

**HIST 3366. Immigration, Ethnicity, and the American Experience. 3 Credits.**

Immigrant life in America from 1607 to the present. Focus on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree.

**HIST 3366W. Immigration, Ethnicity, and the American Experience. 3 Credits.**

Immigrant life in America from 1607 to the present, focusing on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3367. The American Jewish Experience. 3 Credits.**

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people.

**HIST 3370. U.S. Constitutional History. 3 Credits.**

Examination of the text and interpretation of the document that is the foundation of the American government, with special attention to the changing character of race and gender as constitutional classes.

**HIST 3501. Topics: Africa. 0-3 Credits.**

A survey of African history from 1880 to the present.

**HIST 3510. African History to 1880. 3 Credits.**

Survey of the history of the African continent with emphasis on the history of sub-Saharan Africa.

**HIST 3520. Africans in the Making of the Atlantic World. 3 Credits.**

The role of Africa and Africans in the Atlantic world with emphasis on links between Africa, Europe, and the Americas.

**HIST 3530. Women in Africa. 3 Credits.**

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Same as WGSS 3530.

**HIST 3530W. Women in Africa. 3 Credits.**

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 3530, WGSS 3530, WGSS 3530W).

**HIST 3540. West Africa to Independence. 3 Credits.**

A thematic survey of West African history, focusing on the diversity of African culture, West African kingdoms and empires, Islam, the trans-Saharan trade, African contact with Europe, slavery and the slave trade, and the colonization of Africa.

**HIST 3601. Topics: Asian History. 0-3 Credits.**

**HIST 3610. China to 1800. 3 Credits.**

Survey of Chinese civilization from its ancient beginnings to the last imperial dynasty.

**HIST 3611. History of Modern China. 3 Credits.**

China since 1840, with particular attention to political developments.

**HIST 3614. Writing Modern Chinese History. 3 Credits.**

Seminar. Students prepare a research paper on selected topics in the history of modern China.

**HIST 3614W. Writing Modern Chinese History. 3 Credits.**

Seminar. Students prepare a research paper on selected topics in the history of modern China. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3615. History of Chinese Communism. 3 Credits.**

Survey of the leadership, ideology, structure, and foreign and domestic policies of the Chinese Communist Party from its inception to the present.

**HIST 3621. History of Modern Japan. 3 Credits.**

Japan's dramatic transformation from an isolated island country to Asia's only modern colonial empire, from unprecedented defeat to postwar "economic miracle." Emphasis on historical, political, economic, and cultural trends.

**HIST 3631. History of Modern Korea. 3 Credits.**

Modern Korean history from 1876 to contemporary society. Emphasis on colonialism, nationalism, the division of peninsula, the Cold War, and globalization.

**HIST 3640. History of Southeast Asia. 3 Credits.**

An examination of Vietnam and its neighbors from the pre-colonial period to the present.

**HIST 3650. Modern South Asia, 1750-Present. 3 Credits.**

The South Asian subcontinent, including Afghanistan, Pakistan, India, and Bangladesh, since the mid-eighteenth century. The period of British rule, from the late eighteenth to the mid-twentieth century. The different trajectories of the independent nation-states of South Asia following decolonization.

**HIST 3701. Topics in Latin American History. 0-3 Credits.**

**HIST 3710. History of Latin America I. 3 Credits.**

Analysis of Spanish and Portuguese imperialism in the New World, 1492-1820.

**HIST 3711. History of Latin America II. 3 Credits.**

Continuation of HIST 3710. A problems approach to Latin America, 1820 to the present; thematic emphasis on neocolonialism, corporatism, liberalism, caudillismo, modernization, populism, and revolution.

**HIST 3801. Topics in Middle Eastern History. 0-3 Credits.**

**HIST 3810. History of the Middle East to 1800. 3 Credits.**

Byzantine, Arab, Persian, and Islamic backgrounds; rise and decline of the Ottoman Empire; action of European powers in the area; Ottoman breakup into the Turkish Republic and other states.

**HIST 3811. The Emergence of the Modern Middle East. 3 Credits.**

The state system established after World War I; effects of colonialism, the rise of nationalism, the Cold War, and the oil industry; modes of identification that accompanied these processes, including pan-Arabism and Islamism.

**HIST 3811W. The Middle East in the Twentieth-Century. 0-3 Credits.**

The state system established after World War I. Effects of colonialism, the rise of nationalism, the Cold War, and the oil industry. The modes of identification that accompanied these processes, including pan-Arabism and Islamism. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3820. History of Israel. 3 Credits.**

Survey of the history of Israel from the origins of Zionism to the present; Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state.

**HIST 3820W. The History of Israel. 3 Credits.**

Survey of the history of Israel from the origins of Zionism to the present. Topics include Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 3825. Land and Power in Israel/Palestine. 3 Credits.**

Intensive reading seminar surveying key debates and turning points in the history of the Zionist-Palestinian conflict. Approach strikes a balance between structure and agency in understanding the ways in which people make their own history, but not under conditions of their choosing.

**HIST 3830. History of Iraq. 3 Credits.**

Modern Iraq's Ottoman background; its incorporation into a world market dominated by Europe, British influence and preconceptions in the creation of Iraq, and the emergence and survival of the Ba'ath dictatorship. Reforms in economic, political, and educational spheres.

**HIST 3840. History of Central Asia. 3 Credits.**

Introduction to the political, cultural, religious, and social history of the region, including Afghanistan, Kazakhstan, Tajikistan, Turkmenistan, and Uzbekistan.

**HIST 3850. Modern Iran. 3 Credits.**

Political, diplomatic, religious, and other developments in Iran from about 1800 to 1989.

**HIST 4098. Thesis Seminar. 3 Credits.**

For history majors only. Preparation of a research paper using primary sources.

**HIST 4098W. Thesis Seminar. 3 Credits.**

History majors identify an original research topic in an area of their interest and complete a major research paper based largely on primary sources. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**HIST 4099. Senior Honors Thesis Tutorial. 3 Credits.**

Required of and open only to undergraduate honors candidates in history. Restricted to Instructor approval required. Prerequisites: HIST 4098W.

**HIST 4099W. Senior Honors Thesis Tutorial. 3 Credits.**

Required of undergraduate honors candidates in the history program. Restricted to undergraduate honors candidates in the history program. Prerequisites: HIST 4098 or HIST 4098W.

**HIST 4135. Folger Seminar. 3 Credits.**

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as ENGL 4135/ FREN 4135.

**HIST 6001. Special Topics. 3-9 Credits.**

Open to doctoral and master's candidates and qualified undergraduates. May be repeated for credit provided the topic differs.

**HIST 6005. History and Historians. 3 Credits.**

Historiography and historical method for graduate students. Readings and discussions on major trends in history; selections from classics of historical literature.

**HIST 6006. Teaching History. 3 Credits.**

Pedagogic techniques and strategies particular to the discipline. Admission by permission of instructor.

**HIST 6011. Reading and Research in History and Public Policy. 3 Credits.**

The use of historical insights and methods in policymaking, with emphasis on domestic issues.

**HIST 6012. Internship in History and Public Policy. 3,6 Credits.**

Supervised participation in an office or agency concerned with the formulation of public policy; terms of the internship are arranged with the director of the history and public policy program. Restricted to students in the history and public policy program.

**HIST 6030. History and Its Uses in International Affairs. 3 Credits.**

The multiple interconnections among history, politics, and international affairs, including how policymakers use or misuse "lessons" of history and how countries attempt to deal with difficult aspects of their past. Specific cases may vary.

**HIST 6031. History of International Economic Systems. 3 Credits.**

Development of arrangements and institutions designed to manage the international economy since the nineteenth century, with a focus on the period since World War II.

**HIST 6032. Reading and Research Seminar: Strategy and Policy. 3 Credits.**

A study of the historical development of strategy and the relationship of military thought to national policy.

**HIST 6040. Topics in Modern Military and Naval History. 3 Credits.**

Discussion, readings, and research in twentieth-century European and American military and naval history.

**HIST 6041. The Age of the Battleship: An Introduction to Modern Naval History. 3 Credits.**

The rich and varied literature of naval history, with emphasis on interactions among technology, nationalism, and domestic political/social developments in the late nineteenth and early twentieth century. The social history of navies is included.

**HIST 6042. Seminar: World War II. 3 Credits.**

Examination of statecraft and the management of force before, during, and after World War II. Special attention to broad aspects of military policy and strategy and their interaction with international politics and diplomacy.

**HIST 6050. Modernization, Imperialism, Globalization. 3 Credits.**

Readings seminar in classic and recent theories of modernization, imperialism, and globalization.

**HIST 6051. Re-thinking Cold War History. 3 Credits.**

A reading and research course that relies heavily on documents from formerly closed communist archives and recently declassified Western materials. Various issues and events of the Cold War; old and new historiographical controversies. Students write a primary-source research paper to elucidate one of the many aspects of the Cold War about which new evidence is available.

**HIST 6097. Independent Readings and Research. 3 Credits.**

Written permission of instructor required. May be repeated for credit with permission.

**HIST 6101. Topics: Europe. 3 Credits.**

**HIST 6105. Seminar: European Intellectual History. 3 Credits.**

Topics in eighteenth- and nineteenth-century European thought, with an emphasis on France. Specific topic announced in the Schedule of Classes.

**HIST 6120. Seminar: Early Modern European History. 3 Credits.**

Topics selected from Western European history of the fourteenth through seventeenth centuries.

**HIST 6121. Reading and Research Seminar: Modern European History. 3 Credits.**

.

**HIST 6122. Reading and Research Seminar: 20th-Century History. 3 Credits.**

Research or readings on selected topics.

**HIST 6128. Europe and the World, 1500-Present. 3 Credits.**

An introduction to some of the key debates and scholarship concerning European imperialism.

**HIST 6130. Early Modern Britain. 3 Credits.**

Analysis of some current issues in early modern historiography; contextualization of recent works in the field; consideration of different methodologies and the types of evidence on which they rely or that they illuminate.

**HIST 6133. English People and Institutions. 3 Credits.**

Selected topics in the political, social, intellectual, and economic history of England. Focus upon one time period and special area of interest. May be taken for research credit with instructor's approval.

**HIST 6135. British Imperialism. 3 Credits.**

Research seminar. Major debates and schools of thought on the history of British imperialism.

**HIST 6138. Folger Institute Seminars I. 3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

**HIST 6139. Folger Institute Seminars II. 3 Credits.**

Continuation of HIST 6138. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

**HIST 6170. Eastern European History I. 3 Credits.**

1772-1918.

**HIST 6171. Eastern European History II. 3 Credits.**

Continuation of HIST 6170. 1919-1945.

**HIST 6180. History of Modern Russia and the Soviet Union. 3 Credits.**

Selected topics in the domestic history of modern Russia and Soviet Union. May be taken as a readings seminar or, with instructor's approval, as a research seminar.

**HIST 6181. Research Seminar: Russian and Soviet Empires. 3 Credits.**

**HIST 6185. Seminar: Russian and Soviet Thought. 3 Credits.**

Selected topics in the intellectual and cultural history of eighteenth to twentieth-century Russia and Soviet Union. May be taken as a readings seminar or, with permission of the instructor, as a research seminar. Permission of the instructor required prior to enrollment.

**HIST 6188. The Soviet Union and the World, 1917 to 1991. 3 Credits.**

Concepts and perceptions guiding Soviet relations with the outside world. From the blockade and intervention, through years of isolation, World War II, the Cold War, to "peaceful coexistence."

**HIST 6301. Topics: U.S. History. 3 Credits.****HIST 6302. Colonial North America. 3 Credits.**

The complex and turbulent world of colonial North America from the late sixteenth century to the late eighteenth century. Inter-cultural negotiations, Atlantic world connections, imperial conflict, gender construction, and race consciousness.

**HIST 6303. Revolutionary America. 3 Credits.**

The political and social conditions of the revolutionary era: the spiral of events that led to the American independence movement, the various meanings of the war to its participants, and the consequences of victory for the nation, its various subgroups, and other peoples of the colonial Atlantic world.

**HIST 6304. American Indian History to 1890. 3 Credits.**

North American Indian history from indigenous societies on the eve of first contact with Europeans until the conclusion of the Great Plains Wars of the late nineteenth century.

**HIST 6310. Readings in Nineteenth-Century American History. 3 Credits.**

Important trends in historical writing about nineteenth-century America.

**HIST 6311. The Era of the Civil War, 1850-1877. 3 Credits.**

Consideration of how and why the issue of slavery led to the American Civil War. Conflict on the battlefield and the political and social impact of the war in both the North and the South. Examination of the Reconstruction period as a means of understanding how the conflict and its aftermath continue to shape American politics and race relations to the present.

**HIST 6312. The Law of Race and Slavery. 3 Credits.**

The role of legal norms and processes in developing patterns of slavery and race relations in the United States and other societies. Admission by permission of instructor. Same as SOC 6286 and LAW 6596.

**HIST 6320. Readings/Research Seminar: Recent U.S. History. 3 Credits.**

Research or readings, depending on students' interests and curricular needs. Prerequisites: 6 credits of upper-level undergraduate American history courses.

**HIST 6321. Readings/Research Seminar: Recent U.S. History. 3 Credits.**

Continuation of HIST 6320. Research or readings, depending on students' interests and curricular needs. Prerequisites: 6 credits of upper-level undergraduate American history courses.

**HIST 6322. American Business History. 3 Credits.**

The history of American business institutions in manufacturing, distribution, transportation, and finance. Particular attention is given to the period since industrialization, with consideration of business institutions in their economic, legal, governmental, and social contexts. (Same as SMPP 6293).

**HIST 6330. Modern U.S. Foreign Policy. 3 Credits.**

Readings, lectures, discussion on major developments in the conduct of American diplomacy from 1898 to 9/11.

**HIST 6350. American Social Thought Since World War II. 3 Credits.**

Consideration of C. Wright Mills, Daniel Bell, Abraham Maslow, Christopher Lasch, Paul Goodman, Martin Luther King, Jr., Barbara Ehrenreich, and other major social critics.

**HIST 6360. Immigration and Ethnicity in the United States. 3 Credits.**

The history of immigrant life in the United States; focus on the mass migration from Europe that began with the Irish Potato Famine of the 1840s and ended with the immigration restrictions of the 1920s that created the concept of the illegal immigrant.

**HIST 6370. U.S. Legal History. 3 Credits.**

The legal history of the United States from the seventeenth century to the present. The course examines legal change within the broader context of political, social, and economic change. Permission of the instructor required prior to enrollment. (Same as LAW 6591).

**HIST 6410. Readings in American Cultural History. 3 Credits.**

Studies in the cultural history of the United States, focusing on major historiographic debates and interventions. Examples of possible topics include cultural contact, the public sphere, and systems of religious and political belief. Same as AmSt 6410.

**HIST 6420. Religion and American Culture. 3 Credits.**

Interdisciplinary analysis of religious beliefs, practices, and representations in the United States, as well as intersections of the religious and the secular. Relationships of religion to race, gender, capitalism, science, mass media, and material culture. Same as AMST 6420.

**HIST 6430. Gender, Sexuality, and American Culture I. 3 Credits.**

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-Columbian settlement to 1876. Same as AMST 6430/ WGSS 6430.

**HIST 6431. Gender, Sexuality, and American Culture II. 3 Credits.**

Continuation of HIST 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/WGSS 6431.

**HIST 6435. Readings on Women in American History. 3 Credits.**

Important works in American women's history; evolution of the field in historiographical context. Same as AMST 6435/WGSS 6435.

**HIST 6450. Race in America. 3 Credits.**

Interdisciplinary analysis of the history of race and its changing political, social, and cultural meanings in the United States. Transnational racial formations, struggles for and against civil rights, multiracialism, and interracialism. Same as AMST 6450.

**HIST 6455. American Social Movements. 3 Credits.**

The history of social movements in the United States, with emphasis on civil rights, feminism, conservatism, and labor in local, national, and transnational contexts; the historical rise and fall of these movements and their larger impact on American life. Same as AMST 6455.

**HIST 6470. Cityscapes. 3 Credits.**

Interdisciplinary examination of the American city, including urban theory, history, planning, architecture, urban politics, and cultural representations of the city. Same as AMST 6470.

**HIST 6475. U.S. Urban History. 3 Credits.**

History of American urban life and culture from the Colonial era to the present, focusing on the transitions from pre-industrial to industrial and post-industrial forms, the social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as AMST 6475.

**HIST 6480. Theory and Practice of Public History. 3 Credits.**

Theoretical and practical dimensions of public history, as illustrated by recent controversies surrounding public exhibitions and debates on revisionist history as well as more traditional means of presenting the past in public forums. Same as AMST 6480.

**HIST 6485. Contemporary Jewish Life. 3 Credits.**

The changing nature of Jewish life, domestically and transnationally, from the 1950s through the present; how contemporary Jews, especially those in the United States, reckon with rupture, dissent, and freedom. Restricted to graduate students. Prerequisite: None. (Same as AMST 6190, JSTD 6001).

**HIST 6495. Historic Preservation: Principles and Methods. 3 Credits.**

The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6495.

**HIST 6496. Historic Preservation: Principles and Methods. 3 Credits.**

Continuation of HIST 6495. The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6496.

**HIST 6501. Topics: Africa. 3 Credits.****HIST 6502. Western Representations of Africa. 3 Credits.**

Representations of Africa by non-Africans from the earliest contact to more recent encounters.

**HIST 6601. Topics: Asian History. 3 Credits.****HIST 6602. Asia: History, Memory, and Violence. 3 Credits.**

Violence has been a defining experience for many of the populations and polities of Asia over the past century and a half. Focusing on the themes of violence and historical memory, the course takes a comparative approach, looking at how these issues have played out in different arenas throughout East, Southeast, and South Asia.

**HIST 6610. Readings Seminar: Late Imperial China. 3 Credits.**

Selected topics in the history of modern China in the late imperial period, with a particular focus on the internal and external challenges to the last Chinese dynasty in the nineteenth century.

**HIST 6611. Readings Seminar: Twentieth-Century China. 3 Credits.**

Selected topics in the history of modern China from the 1911 Revolution to the Cultural Revolution.

**HIST 6621. Readings Seminar: Modern Japanese History. 3 Credits.**

Selected topics in modern Japanese history from the Meiji Restoration of 1868 to the present. Research or readings depending on students' interests. Emphasis on how interpretations of the past are shaped by the present.

**HIST 6625. Japan's Empire and Its Legacies. 3 Credits.**

History of modern Japan's overseas expansion and empire building. Focus on issues including colonial modernity, resistance and collaboration, and postwar legacies such as politics of memory and prospects of reconciliation.

**HIST 6630. Special Topics in Korean History. 3 Credits.**

Intensive exploration of the history of Korea in modern times (1850–present). Korean identity and the challenges of foreign imperialism, industrialization, modernization, and globalization.

**HIST 6641. Modern Southeast Asia. 3 Credits.**

The modern history of Southeast Asia from the 1800s to 1975. Colonialism, rise of postcolonial states, revolutions and persistence of the past.

**HIST 6701. Topics in Latin American History. 3 Credits.****HIST 6801. Topics in Middle Eastern History. 3 Credits.****HIST 6805. The Modern Middle East in World History. 3 Credits.**

Draws on recent works that situate the social, economic, cultural, political, and environmental transformations that have swept the region over the past two centuries within broader global trends.

**HIST 6811. Research Seminar: Modern Middle East. 3 Credits.**

Readings, discussion, and research in selected political, economic, social, cultural, and intellectual trends.

**HIST 6821. Islam and Social Movements. 3 Credits.**

An examination of the relationship of religion and religious symbols to social and political movements in the Islamic world.

**HIST 6822. Nationalism in the Middle East. 3 Credits.**  
Different interpretations of nationalism and their applicability to nationalism in the Middle East.

**HIST 6823. Imperialism in the Middle East. 3 Credits.**  
An exploration of the process of European and American expansion in the Middle East.

**HIST 6824. Reading/Research Seminar: Modern Iran. 3 Credits.**

**HIST 6998. Thesis Research. 3 Credits.**

**HIST 6999. Thesis Research. 3 Credits.**

**HIST 8998. Advanced Reading and Research. 1-12 Credits.**  
May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**HIST 8999. Dissertation Research. 3-12 Credits.**  
May be repeated for credit. Restricted to doctoral candidates.

## BACHELOR OF ARTS WITH A MAJOR IN HISTORY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

A minimum of thirteen history (HIST) courses, including one to three introductory courses, one Majors' Introductory Seminar, eight to ten upper-level courses, and a thesis or capstone project, as described below:

Introductory courses		
Code	Title	Credits
At least one, but no more than three, History (HIST) courses at the 1000 level; these may include, but are not limited to, the following:		
HIST 1011	World History, 1500-Present	
HIST 1020	Approaches to Women's History	
HIST 1110	European Civilization in Its World Context	
HIST 1121	The War of Ideas in European and International History, 1750-Present	
HIST 1310	Introduction to American History	
HIST 1311	Introduction to American History	

The introductory course requirement may be fulfilled by scoring 4 or 5 on Advanced Placement examinations: U.S. history AP (6 credits for HIST 1310 and HIST 1311), European history AP (3 credits for HIST 1120), and world history AP (3 credits for HIST 1011); or scoring 7 or above in an appropriate international baccalaureate program. Alternatively, requirement can be fulfilled by scoring 650 or above on the SAT II world history (HIST 1011) or U.S. history (HIST 1310 and HIST 1311).

Students should consult the Director of Undergraduate Studies for more detailed information regarding this requirement.

### Majors' Introductory Seminar

Code	Title	Credits
To complete requirements for the major, a student must take a Majors' Introductory Seminar, preferably early in their program of study.		
HIST 2005	Majors' Introductory Seminar	
or HIST 2005W	Majors' Introductory Seminar	
HIST 2105	Majors' Introductory Seminar: Europe	
or HIST 2105W	Majors' Introductory Seminar: Europe	
HIST 2305W	Majors' Introductory Seminar: United States	
or HIST 2305W	Majors' Introductory Seminar: United States	
HIST 2505	Majors' Introductory Seminar: Africa	
HIST 2605	Majors' Introductory Seminar: Asia	
or HIST 2605W	Majors' Introductory Seminar: Asia	
HIST 2705	Majors' Introductory Seminar: Latin America	
or HIST 2705W	Majors' Introductory Seminar: Latin America	
HIST 2805	Majors' Introductory Seminar: Middle East	
or HIST 2805W	Majors' Introductory Seminar: Middle East	
Topics vary annually and are announced in the Schedule of Classes.		
Students should consult the Director of Undergraduate for more detailed information regarding this requirement.		

## Upper-level courses

Code	Title	Credits
Eight to ten additional courses numbered from HIST 2000 to HIST 3999 (upper-level courses). The number of upper-level courses must be sufficient, when combined with the required introductory course(s), the Majors' Introductory Seminar, and the thesis or capstone project, to produce a total of thirteen history (HIST) courses.		
One or more of the upper-level courses, including for this purpose the Majors' Introductory Seminar, must be from each of at least three of the following categories:		
Europe: HIST 2100-2900 and HIST 3100-3199 groupings.		
United States: HIST 2300-2399 and HIST 3300-3399 groupings.		
World—the following regions combined count as one category:		
Africa: HIST 2500-2599 and 3500-3599 groupings		
Asia: HIST 2600-2699 and 3600-3699 groupings.		
Latin America: HIST 2700-2799 and 3700-3799 groupings.		
Middle East: HIST 2800-2899 and 3800-3899 groupings		
At least one upper-level course must focus on the period before 1750.		
Dean's Seminars, Honors (HONR) courses taught by members of the Department of History, Majors' Introductory Seminars, and special topics courses taught under HIST 3001 may be used to fulfill this requirement on a case-by-case basis.		
Students should consult the Director of Undergraduate Studies for more detailed information regarding this requirement.		

## Thesis or capstone project

Code	Title	Credits
HIST 4098	Thesis Seminar	
or HIST 4098W	Thesis Seminar	
or		
HIST 4099	Senior Honors Thesis Tutorial	
or HIST 4099W	Senior Honors Thesis Tutorial	
Students fulfill this requirement in their junior or senior year. The requirement may be satisfied by a suitable alternative (e.g., a digital history project or a documentary film) with the permission of the thesis instructor.		

Students should consult the Director of Undergraduate Studies for more detailed information regarding this requirement.

## Optional specialization

Students may choose to pursue an area of specialization by taking two courses beyond the thirteen required, with the expectation that a minimum of six courses will contribute to the student's knowledge of a specific field; these may include a geographic region, chronological period, special topic (e.g., women's history, legal history, or military history), or a combination thereof. The title of the specialization and proposed curriculum must be approved by the Director of Undergraduate Studies or other departmental delegate. A maximum of two courses counting toward the specialization may be taken in other departments of the University.

## Foreign language

While there is no foreign language requirement, students are strongly encouraged to take at least two semesters of a foreign language, particularly if they plan to pursue a graduate degree in history.

# GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

**G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website** (<https://advising.columbian.gwu.edu/general-education-courses>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have an overall GPA of 3.3 and a GPA of 3.5 in the major at the time of graduation; and complete HIST 4099 Senior Honors Thesis Tutorial with a grade of A or A-.

## MINOR IN HISTORY

### REQUIREMENTS

Undergraduate students who select a minor in history must declare their intention to a departmental advisor no later than the beginning of their senior year.

Code	Title	Credits
<b>Required</b>		
One of the following:		
HIST 1011	World History, 1500-Present	

HIST 1110	European Civilization in Its World Context
HIST 1120	European Civilization in Its World Context
HIST 1121	The War of Ideas in European and International History, 1750-Present
HIST 1310	Introduction to American History
HIST 1311	Introduction to American History

At least five upper-division history courses numbered 2000 and higher

## MASTER OF ARTS IN THE FIELD OF HISTORY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Visit the program website (<https://history.columbian.gwu.edu/graduate>) for additional information.

The program consists of a minimum of 36 credits of upper-division undergraduate and graduate-level courses, including at least six graduate-level courses. Students choosing the thesis option take HIST 6998 Thesis Research and HIST 6999 Thesis Research as part of the 36 credits but in addition to the required six graduate-level courses. Students choosing the nonthesis option must write two research papers in the course of completing their program. See the Undergraduate Programs Bulletin for a listing of upper-level undergraduate courses offered by the department. A maximum of 6 credits may be in approved courses outside the History Department. To receive graduate credit for undergraduate courses, master's candidates must arrange for extra work with the instructors. Each student completes a major field in which at least 9 credits of coursework must be taken. Major fields are listed below, under the Doctor of Philosophy in the field of history. Students in all history Master of Arts programs must maintain a GPA of at least 3.3 both to remain in good standing and to earn the degree.

### Concentration in historic preservation

This 36-credit degree program combines courses in United States history and historic preservation. It includes at least 18 credits of U.S. social history, U.S. urban history, man-made America, and the seminar sequence in historic preservation.

## Concentration in imperial and colonial studies

This 36-credit degree program emphasizes the comparative study of empires. HIST 6128 Europe and the World, 1500–Present and HIST 6050 Modernization, Imperialism, Globalization are required, along with a 15-credit major regional field and a minor regional field of 6 to 9 credits. Up to 9 credits may be chosen in related disciplines within the University.

## Concentration in public policy

This 36-credit degree program emphasizes the study of history as it relates to the analysis and conduct of public policy. HIST 6011 Reading and Research in History and Public Policy and an internship done in conjunction with HIST 6012 Internship in History and Public Policy are required. One-third of the coursework is taken outside the History Department in a discipline relevant to the student's policy interests.

## Concentration in U.S. legal history

This 36-credit degree program combines a major field in U.S. history with a focus in U.S. legal history. Students may take up to 9 credits of legal history offered by the Law School.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF AMERICAN RELIGIOUS HISTORY

### REQUIREMENTS

This program is offered in cooperation with the Department of Religion.

The following requirements must be fulfilled:

The requirements for the Doctor of Philosophy Program (p. 87).

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77), and the specific requirements of the Doctor of Philosophy in the field of history (p. 264).

Of the three fields required for the General Examination, one field must come from the list of major American fields noted below and one from the Department of Religion (typically history of religion in America). Major fields in American history include: Early America (to 1815), 19th-century America (1815–1900), and 20th-century America (1900–). The third field is normally topical (e.g., U.S. Cultural History, Historic Preservation, Gender and Women's History).

All candidates may choose to be examined in one minor field other than history if it is relevant to the program of study.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF HISTORY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77), including the satisfactory completion of the General Examination.

The requirements for the Doctor of Philosophy Program (p. 87).

All students must take HIST 6005 History and Historians. Some students must pass language exams appropriate to their field and dissertation topic. Students must maintain a GPA of at least 3.5 to remain in the program.

Candidates in American history must select two major fields from early America (to 1815), 19th-century America (1815–1900), and 20th-century America (1900–). The minor field will normally be topical (e.g., U.S. social, U.S. diplomatic, historic preservation).

Candidates in imperial and colonial history take HIST 6128 Europe and the World, 1500–Present and HIST 6050 Modernization, Imperialism, Globalization and select two major and one minor field. Fields can include, but are not limited to, such combinations as Europe and the Americas (1500–1900), Europe and Asia, Europe and the Middle East, Europe and Africa, the U.S. and Asia, and China and Japan.

Candidates in Asian history select two major fields from modern China, modern Japan, modern Korea, and modern Southeast Asia. The minor field is chosen in consultation with the advisor.

Candidates concentrating in areas other than those outlined above must select one major and two minor fields. Major fields are early modern Europe, modern Europe, Latin America, modern Middle East, modern Eastern Europe, modern Russia, and military history. The minor fields may be either topical (e.g., European intellectual) or chronological (e.g., Tudor and Stuart England, colonial Latin America).

All candidates may choose to be examined in one minor field other than history if it is relevant to the program of study.

Visit the program website (<https://history.columbian.gwu.edu/graduate>) for additional information.

## HUMAN PALEOBIOLOGY

The Columbian College of Arts and Sciences offers an interdisciplinary program leading to the doctor of philosophy in the field of hominid paleobiology. The program features training in molecular and developmental biology, evolutionary anatomy, hominid paleontology, and archaeology. It emphasizes problem-based learning and training and

internships. Participating faculty are drawn from the Departments of Anthropology, Speech and Hearing Science, Biological Sciences, and Anatomy and Regenerative Biology at GW; the Departments of Anthropology and Paleobiology at the National Museum of Natural History, Smithsonian Institution; the Department of Physiology and Biophysics at Howard University; and the National Institutes of Health.

## GRADUATE

### Master's program

- Master of Science in the field of human paleobiology (p. 265)

### Doctoral program

- Doctor of Philosophy in the field of human paleobiology (p. 265)

## FACULTY

**Committee on Human Paleobiology** B. Wood (chair), S. Almécija, K. Behrensmeyer, B. Bradley, D. Braun, A. Brooks, S. McFarlin, C. Murray, B. Pobiner, R. Potts, C. Sherwood, F. Subiaul

## MASTER OF SCIENCE IN THE FIELD OF HUMAN PALEOBIOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits in a program developed in consultation with the advisor.

Code	Title	Credits
<b>Required (13 to 15 credits)</b>		
HOMP 6202	Lab Techniques: Paleoanthropology (Students register for 1 to 3 credits depending on other concurrent courses in order to maintain a 9-credit semester load.)	
ANTH 6413	Analytical Methods in Human Evolutionary Studies	
Three of the following:		
HOMP 6201	Hominid Paleobiology	
ANTH 3411	Primatology (or another approved course in animal/primate behavior and ecology)	

ANTH 6491 Topics in Biological Anthropology

ANTH 6801 Paleolithic Archaeology

Thesis Research (6 credits)

HOMP 6998 Thesis Research

HOMP 6999 Thesis Research

### Electives (15 to 17 credits)

Elective courses should be selected in consultation with the faculty, and may include a combination of the following: independent laboratory or field-based research; a field course; relevant courses in Anatomy, Anthropology, Biological Sciences, Geography, Geology, Human Paleobiology, Psychology, and Speech and Hearing Science available at GW; and/or relevant courses from the Consortium of Universities of the Washington Metropolitan Area.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF HUMAN PALEOBIOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy program (p. 87).

72 credits.

### Recommended Preparatory Courses

Code	Title	Credits
Advanced undergraduate courses in biology, including courses in evolution and any two of the following: genetics, developmental biology/embryology, anatomy, physiology, ethology, ecology, and paleontology. GW courses that correspond to these subjects are:		
BISC 2207	Genetics	
BISC 2208	Genetics Laboratory	
BISC 2214	Developmental Biology	
BISC 2322	Human Physiology	
BISC 2332	Comparative Vertebrate Anatomy	
BISC 2450	Organic Evolution	
BISC 2451	History of Life	

BISC 2452	Animal Behavior
BISC 2454	General Ecology
Advanced undergraduate courses in anthropology, including courses in any two of the following: osteology, human biology, paleoanthropology, primatology, and Paleolithic archaeology corresponding to:	
ANTH 3832	Paleoanthropological Field Program
ANTH 3401	Human Functional Anatomy
ANTH 3402	Human Evolutionary Anatomy
ANTH 3403	Forensic Anthropology Laboratory
ANTH 3404	Human Variation
ANTH 3412	Hominin Evolution
ANTH 3411	Primatology
ANTH 3491	Topics in Biological Anthropology
ANTH 3801	African Roots from Australopithecus to Zimbabwe
ANTH 3802	Human Cultural Beginnings
One course in statistics corresponding to:	
STAT 1127	Statistics for the Biological Sciences
One course in mathematics, including precalculus, corresponding to:	
MATH 1220	Calculus with Precalculus I
MATH 1221	Calculus with Precalculus II
Advanced undergraduate courses in one or more of the following subjects: chemistry, biochemistry, physics, geoscience, and calculus	

## Doctoral Program

Code	Title	Credits
The following requirements must be fulfilled: 72 credits, including 6 to 24 credits in dissertation research.		
Students complete a program of study including a minimum of 48 credits of coursework developed in consultation with the advisor prior to advancing to PhD candidacy.		
<b>Required</b>		
Foundations core (5 to 7 credits)		
HOMP 6202	Lab Techniques: Paleoanthropology	
HOMP 6203	Ethics and Professional Practice I	

HOMP 8301	Problem-Based Learning Seminar
Modern and paleobiology core (12 credits)	
One exemption may be allowed depending upon prior education. Program approval is required.	
ANTH 6407	Anthropological Genetics
ANTH 6801	Paleolithic Archaeology
HOMP 6201	Hominid Paleobiology
and one 3-credit course in animal/primate biology, behavior, or ecology such as ANTH 6404, BISC 6206, or another approved course chosen in consultation with the advisor.	
Statistical methods core (3 credits)	
ANTH 6413	Analytical Methods in Human Evolutionary Studies
or an alternative course selected in consultation with the advisor.	
Engagement and application core (9 credits)	
HOMP 8302	Public Understand Of Science Intern
HOMP 8303	Paleobiology Lab Rotation (taken twice for 3 credits for a total of 6 credits)

### Electives

The remainder of credits in coursework selected in consultation with the advisor from among various interdisciplinary courses, including but not limited to, the following:

ANAT 6212	Neurobiology
ANTH 3401	Human Functional Anatomy
ANTH 3408	The Evolution of Human Families
ANTH 3411	Primatology
ANTH 3413	Evolution of the Human Brain
ANTH 3801	African Roots from Australopithecus to Zimbabwe
ANTH 3802	Human Cultural Beginnings
ANTH 6406	Human Genetic Variation
ANTH 6491	Topics in Biological Anthropology
BISC 6210	Methods of Study of Evolution
BISC 6215	Vertebrate Phylogeny
BISC 6228	Population Genetics

BISC 6230	Human Genetics
BISC 6249	Seminar: Developmental Biology
BMSC 8210	Genes to Cells
GEOL 3126	Sedimentology and Stratigraphy
GEOL 3140	Geochemistry
HOMP 6995	Independent Research
or any 6000-level course in ANAT, ANTH, BISC, BIOCHEM, BIOSTAT, CHEM, GEOL, HOMP, PHYS, or PSYC.	
Dissertation research (6 to 24 credits)	
HOMP 8999	Dissertation Research (6 to 24 credits)

## Advanced Requirements

Students must successfully complete general comprehensive examinations, a dissertation proposal defense and examination, and a final dissertation defense and examination.

### General examinations prior to PhD candidacy

General examinations, including the dissertation proposal defense, must be successfully completed before the end of the third year of the program, prior to advancing to candidacy. These comprise two written comprehensive examinations, and a dissertation proposal defense and examination.

The first comprehensive examination includes written questions that integrate comprehension across all core thematic areas (hominid paleobiology; paleolithic archaeology; anthropological genetics; and primate biology, behavior, and ecology) and tests foundational knowledge, concepts, theory, and/or methods learned in the core curriculum.

The second comprehensive examination is written in the form of an authoritative review of a chosen topic, including a history of previous relevant research, discussion of theoretical issues, and identification of outstanding questions or directions for future research.

For the dissertation proposal defense, students must prepare a research proposal that meets funding agency guidelines and successfully complete an oral defense and examination of this proposal.

### After PhD candidacy

After candidacy, students proceed to completing their doctoral research plan and writing the dissertation. Successful completion of a final dissertation defense and oral examination is required to earn the PhD degree.

# INTERIOR ARCHITECTURE

## OVERVIEW

The goal of the Department of Interior Architecture is to foster an environment that encourages creativity and pushes the boundaries of design with an emphasis on conceptual thinking and the design process. The studio-based curriculum, the core of the program, is where students learn to design three-dimensional space through the use of dynamic concepts, leading-edge materials, and innovative methods and techniques.

Visit the program website (<https://corcoran.gwu.edu/mfa-interior-architecture>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Fine Arts with a major in interior architecture (p. 269)

## GRADUATE

### Master's program

- Master of Fine Arts in the field of interior architecture (p. 270)

## FACULTY

**Associate Professor** S. Travis (*Director*)

**Assistant Professors** E. Speck, N. Evans, C. Anderson, N. Volchansky

**Adjunct Professors** M. Abrams

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Enrollment in interior architecture courses requires candidacy in the degree program or permission of the program director. A course fee is charged for all IA courses.

**IA 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. See the department for more details.

**IA 2100. Studio 1. 6 Credits.**

Introduction to design through study and application of fundamental design principles and elements to two- and three-dimensional projects. Restricted to undergraduate IA majors.

**IA 2125. Introduction to Graphic Communications. 3 Credits.**

Introduction to a variety of techniques used in communicating design ideas; image creation, logo design and branding, rendering, basic layouts, modeling, printed and digital presentation skills.

**IA 2150. Beginning Sketching for Designers. 3 Credits.**

Freehand sketching developed and applied as a tool in all phases of the creative design process.

**IA 3200. Studio 2. 6 Credits.**

All phases of design, from development of a concept through producing a complete presentation; implementing the different aspects of the design process. Restricted to undergraduate IA majors. Prerequisite: IA 2100.

**IA 3225. Understanding Materials and Color. 3 Credits.**

The visual perception and interaction of color; interior and exterior materials for use in residential and commercial environments.

**IA 3250. Introductory Digital Design Tools. 3 Credits.**

Introduction to CAD technology, two-dimensional drawings, plotting, and enhancement of presentations; using CAD for the production of construction drawings. Restricted to undergraduate IA majors.

**IA 3300. Studio 3. 6 Credits.**

Studio course emphasizing continued refinement of the design process as applied to multifaceted and complex problems in non-residential space. Restricted to undergraduate IA majors. Prerequisite: IA 3200.

**IA 3325. History of Modern Architecture and Design. 3 Credits.**

Introduction to the history and concepts of architecture, interiors, and furniture from the Bauhaus movement until the present; creative thinking and cross-cultural perspectives emphasized.

**IA 3350. Basic Sustainability Design Strategies. 3 Credits.**

Introduction to sustainable design and to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating Systems for Interior Design and Construction.

**IA 4400. Studio 4. 6 Credits.**

Continuation and refinement of the design process to further advance conceptual thinking for development of larger-scale and more complex design problems. Restricted to undergraduate IA majors. Prerequisite: IA 3300.

**IA 4425. Fundamentals of Lighting and Acoustics. 3 Credits.**

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to undergraduate IA majors.

**IA 4450. Pre-Design for Studio 5. 3 Credits.**

Research methodology applied to development of the capstone project. Restricted to undergraduate IA majors. Prerequisite: IA 4300.

**IA 4450W. Pre-Design for Studio 5. 3 Credits.**

Research methodology applied to development of the senior project. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate IA majors. Prerequisite: IA 4300.

**IA 4500. Studio 5. 6 Credits.**

Culmination of skills and knowledge gained through the program as demonstrated by the development of an interior design project covering all aspects from conception through presentation. Restricted to undergraduate IA majors. Prerequisite: IA 4400.

**IA 4525. Professional Practice and Internship. 3 Credits.**

Industry professionals provide students with guidance concerning the roles and responsibilities of the professional interior designer; written business procedures and practices, legal implications, ethics, trade relations, and designer-client relations. Restricted to IA majors. Prerequisite: IA 4400.

**IA 4525W. Professional Practice and Internship. 3 Credits.**

Industry professionals provide students with guidance concerning the roles and responsibilities of the professional interior designer; written business procedures and practices, legal implications, ethics, trade relations, and designer-client relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate IA majors.

**IA 4550. Building Systems: Methods and Processes. 3 Credits.**

Organization and preparation of construction documents; methods and materials; application of codes; building systems (mechanical, electrical, plumbing) relevant to function and design of interior spaces. Restricted to undergraduate IA majors.

**IA 4560. Selected Topics. 3 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

**IA 4570. Independent Study. 1-3 Credits.**

Independent research and special projects. Students must submit a written plan of study and obtain approval of the faculty member directing the study prior to enrollment. Restricted to junior and senior IA majors.

**IA 6100. Studio 1 Graduate. 6 Credits.**

Introduction to the theory and application of design principles and elements in the built environment and to two- and three-dimensional projects; understanding the design process while adhering to a concept or parti. Restricted to graduate IA majors.

**IA 6125. Graphic Communications. 3 Credits.**

Concepts and techniques used successfully in communicating design; graphic design principles, including hierarchy, emphasis, balance, rhythm and contrast, tools used in creating two-dimensional communication ideas; image creation, logo design and branding, rendering, basic layouts, three-dimensional modeling, printed and digital presentation skills.

**IA 6150. Sketching Architecture and Design. 3 Credits.**

Three-dimensional mechanical drafting and free-hand sketching developed and applied as a tool in all phases of the creative design process; using line value, 2D and 3D representation of the built environment.

**IA 6200. Studio 2 Graduate. 6 Credits.**

Application of fundamental knowledge of design to complex three-dimensional projects and small scale interior projects. Restricted to graduate IA majors. Prerequisite: IA 6100.

**IA 6225. Interior Materials and Color Theory. 3 Credits.**

Visual perception and interaction of color; interior and exterior materials for residential and commercial environments; interior building methods and materials as they relate to interior build-outs, furniture grade materials, and construction; materials qualities, strengths, weaknesses, and appropriate usage.

**IA 6250. Digital Drafting and Modeling. 3 Credits.**

Introduction to CAD technology, two-dimensional drawings, plotting and enhancement of presentations. Use of CAD for the production of construction drawings. Restricted to graduate IA majors.

**IA 6300. Studio 3 Graduate. 6 Credits.**

Continued exploration of the design process as applied to medium scale projects. Restricted to graduate IA majors. Prerequisite: IA 6200.

**IA 6325. Modern and Contemporary Architecture. 3 Credits.**

Modern and contemporary architectural ideas and concepts explored through key buildings and interiors of the twentieth and twenty-first centuries; focus on modernist works in Washington, DC.

**IA 6350. Sustainability and the Built Environment. 3 Credits.**

The application of sustainable design; introduction to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) rating system, the Living Building Challenge, and the WELL Building Standard.

**IA 6400. Studio 4 Graduate. 6 Credits.**

Continued refinement of the design process to further advance conceptual thinking for development of larger-scaled and more complex design problems. Restricted to graduate IA majors. Prerequisite: IA 6300.

**IA 6425. Lighting and Acoustics. 3 Credits.**

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to graduate IA majors.

**IA 6450. Research Seminar for Studio 5. 3 Credits.**

Students synthesize knowledge and define an area of interest that is well established or newly emerging within the discipline in preparation for the capstone project in Studio 5. Restricted to graduate IA majors. Prerequisite: IA 6300.

**IA 6500. Studio 5 Graduate. 6 Credits.**

Students create and design an individual capstone interior design project that meets the learning objectives, accreditation standards, and requirements of the program. Restricted to graduate IA majors. Prerequisite: IA 6400.

**IA 6525. Practicum and Internship. 3 Credits.**

Students work with professional interior designers, architects, or industry-related professionals participating in a project based setting. Roles and responsibilities of the professional interior designer; business procedures, legal-implications, ethics, trade relations, and designer-client-contractor relations. Restricted to graduate IA majors. Prerequisite: IA 6400.

**IA 6550. Structures and Building Systems. 3 Credits.**

Organization and preparation of construction documents; methods and materials; application of codes; mechanical, electrical, and plumbing building systems as related to function and design of interior spaces. Restricted to graduate IA majors.

**IA 6560. Selected Topics. 3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

# BACHELOR OF FINE ARTS WITH A MAJOR IN INTERIOR ARCHITECTURE

---

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationstext>).

Program-specific curriculum:

Code	Title	Credits
Sophomore year		
Spring semester		

IA 2100	Studio 1
IA 2125	Introduction to Graphic Communications
IA 2150	Beginning Sketching for Designers

#### Junior year

Fall semester

IA 3200	Studio 2
IA 3225	Understanding Materials and Color
IA 3250	Introductory Digital Design Tools

Spring semester

IA 3300	Studio 3
IA 3325	History of Modern Architecture and Design
IA 3350	Basic Sustainability Design Strategies

#### Senior year

Fall semester

IA 4400	Studio 4
IA 4425	Fundamentals of Lighting and Acoustics
IA 4450	Pre-Design for Studio 5
or IA 4450W	Pre-Design for Studio 5

Spring semester

IA 4500	Studio 5
IA 4525	Professional Practice and Internship *
IA 4550	Building Systems: Methods and Processes

#### Additional coursework

9 credits in art or design courses.

9 credits in art, architecture, or design history courses; 3 of these credits may be from IA program short-term summer study abroad.\*\*

#### \*Internship requirement

All students are required to complete a 120-hour internship as part of IA 4525 Professional Practice and Internship. The student's work in the internship counts toward the final grade in the course.

#### Optional courses

\*\*IA 4560 Special Topics: Reserved for enrollment in IA program short-term summer study abroad.

IA 4570 Independent Study: Advanced research proposed by the student, whose proposal must be accepted by the faculty.

## MASTER OF FINE ARTS IN THE FIELD OF INTERIOR ARCHITECTURE

### REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

60 credits in program-specific coursework:

Code	Title	Credits
<b>First year</b>		
Fall semester		
IA 6100	Studio 1 Graduate	
IA 6125	Graphic Communications	
IA 6150	Sketching Architecture and Design	
Spring semester		
IA 6200	Studio 2 Graduate	
IA 6225	Interior Materials and Color Theory	
IA 6250	Digital Drafting and Modeling	
Summer session		
IA 6300	Studio 3 Graduate	
IA 6325	Modern and Contemporary Architecture	
IA 6350	Sustainability and the Built Environment	
<b>Second year</b>		
Fall semester		
IA 6400	Studio 4 Graduate	
IA 6425	Lighting and Acoustics	
IA 6450	Research Seminar for Studio 5	

Spring semester

IA 6500	Studio 5 Graduate
IA 6525	Practicum and Internship
IA 6550	Structures and Building Systems

#### Additional requirements

MFA students also participate in the following three programs:

MFA Design Dialogue Series (all semesters)

MFA Pedagogy Workshops (Studio 2, 3 and 4)

MFA Mentorship to BFA Students (second year)

#### Internship requirement

All students are required to complete a 120-hour internship. Students must be enrolled in the first semester of the program before the internship begins, and it must be completed before the end of their final semester. The internship is a part IA 6525 and counts toward the final grade in the course.

Visit the program website (<https://corcoran.gwu.edu/mfa-interior-architecture>) for additional information.

## JUDAIC STUDIES

At the undergraduate level, the Department of Judaic Studies offers the bachelor of arts with a major in Judaic Studies. The purview of the program extends from the ancient Near East to modern-day America, and showcases and interprets the artistic expression, history, languages, literatures, philosophy, politics, and religion of the Jews over time and place. A minor in the field is also offered.

At the graduate level, students may opt for the master of arts in the field of Jewish cultural arts or master of arts in the field of experiential education and Jewish cultural arts.

Visit the Department of Judaic Studies website (<https://judaic.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in Judaic studies (p. 272)

### Minor

- Minor in Judaic studies (p. 273)

## GRADUATE

### Master's program

- Master of Arts in Education and Human Development in the field of experiential education and Jewish cultural arts (p. 522) (a collaboration between the Graduate School of Education and Human Development and the Columbian College of Arts and Sciences)

### Certificate program

- Graduate certificate in Jewish cultural arts (<http://bulletin.gwu.edu/arts-sciences/judaic-studies/gc-jewish-cultural-arts>)

## FACULTY

**Committee on Judaic Studies** M. Belenky, E. Brown, N. Brown, B. Chiswick, C. Chiswick, E. Cline, A. Dubnov, R. Eisen, E. Finkel, L. Jacobson, J. Weissman Joselit, L. Raphael, W. Reich, C. Rollston, D. Schwartz (*Director*), O. Zakai

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

**A full list of courses for the Judaic Studies Program may be found on the Judaic Studies website** (<http://bulletin.gwu.edu/arts-sciences/judaic-studies/%20http://go.gwu.edu/JSTD>) **and under the designations of CLAS, ENGL, HEBR, HONR, HIST and REL.**

#### JSTD 2001. Topics in Judaic Studies: Pre-modern. 3 Credits.

Focus on the pre-1650 period. Topics vary by semester. See the Schedule of Classes for details.

#### JSTD 2002. Topics in Judaic Studies: Modern. 3 Credits.

Focus on the post-1650 period. Topics vary by semester. See the Schedule of Classes for details.

#### JSTD 2060. Modern Jewish History. 3 Credits.

Survey of Jewish history from the seventeenth century to the present, focusing on Europe, America, and the Middle East. The myriad political, economic, and intellectual challenges of modernity to Jewish life and how Jews responded to these challenges through various religious and secular movements and with new concepts of identity and community.

**JSTD 2812. History of Zionism. 3 Credits.**

Critical historical survey of the development of Jewish nationalist thought in general and Zionism in particular, from its genesis in the 1880s up until the establishment of the State of Israel in May 1948.

**JSTD 4018. Senior Thesis. 1 Credit.**

For Judaic studies majors. Students choose a topic in any major subfield of Judaic studies, select a faculty advisor who specializes in the subfield, conduct research, and produce an annotated bibliography and a proposal that previews the main arguments of the thesis.

**JSTD 4019. Senior Thesis. 3 Credits.**

Continuation of JSTD 4018. For Judaic studies majors. Completion of the thesis and oral presentation before Judaic studies students and faculty.

**JSTD 6001. Topics in Judaic Studies. 3 Credits.**

**JSTD 6097. Independent Readings/Research. 1-3 Credits.**

Written permission of the instructor required prior to enrollment. May be repeated for credit with permission.

**JSTD 6154. Internship. 1-6 Credits.**

Elective internship in areas related to Jewish cultural study.

**JSTD 6201. Jewish Life in Contemporary America. 3 Credits.**

**JSTD 6211. Displaying Jewish Culture: Landmark Exhibitions on Judaism and the Jewish Experience. 3 Credits.**

**JSTD 6298. Capstone Seminar in Jewish Cultural Arts. 3 Credits.**

The culminating experience for graduate students in the Jewish Cultural Arts program, the capstone synthesizes the skills and knowledge gained in the course of the degree program. Students conceptualize, develop, and execute a public cultural event of their own devising. Taken in the final spring semester of the student's program.

# BACHELOR OF ARTS WITH A MAJOR IN JUDAIC STUDIES

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Foreign language requirement</b>		
Two semesters of study in a single foreign language (or the equivalent)		

Code	Title	Credits
<b>Required courses (9 credits):</b>		
REL 2201	Judaism	
HIST 2050	History of Jewish Civilization: From the Bible to Modernity	
JSTD 4019	Senior Thesis	
<b>One course (3 credits) from the following:</b>		
ANTH 3805	Archaeology of Israel and Neighboring Lands	
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.	
CLAS 2804	History of Ancient Israel	
REL 1009	The Hebrew Scriptures	
JSTD 2001	Topics in Judaic Studies: Pre-modern	
REL 2211	Rabbinic Thought and Literature	
REL 3141	Second Temple/Hellenistic Judaism	
REL 3149W	Biblical Issues	
REL 3211	Rabbinic Thought and Literature	
REL 3923	Violence and Peace in Judaism, Christianity, and Islam	
<b>One course (3 credits) from the following:</b>		
ENGL 3970	Jewish American Literature	
HEBR 3101	Modern Hebrew Literary Classics	
HEBR 3301	Modern Hebrew Fiction	
HEBR 3302	The Israeli Media	
HIST 3060	Modern Jewish History	
HIST 3367	The American Jewish Experience	
HIST 3820	History of Israel	
JSTD 2002	Topics in Judaic Studies: Modern	
PSC 2379	Politics and Foreign Policy of Israel	
REL 3221	Issues in Jewish Ethics	
REL 3291	Modern Jewish Thought	
REL 3292	Seminar: Issues in Jewish Thought	

**Five additional courses (15 credits) from the two lists above:**

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Judaic Studies, a candidate must attain a GPA of at least 3.7 in courses counted toward the major in Judaic Studies and 3.3 overall, and earn a grade of A both for JSTD 4018 Senior Thesis–JSTD 4019 Senior Thesis and for the senior thesis. Having fulfilled these requirements, the student may be recommended for graduation with Special Honors.

## MINOR IN JUDAIC STUDIES

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including one 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
HIST 2050	History of Jewish Civilization: From the Bible to Modernity	
or REL 2201	Judaism	
<b>Electives</b>		
Five of the following:		
ANTH 3805	Archaeology of Israel and Neighboring Lands	
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.	
CLAS 2804	History of Ancient Israel	
ENGL 3970	Jewish American Literature	
HEBR 3101	Modern Hebrew Literary Classics	
HEBR 3301	Modern Hebrew Fiction	
HEBR 3302	The Israeli Media	
HIST 2050	History of Jewish Civilization: From the Bible to Modernity	
HIST 3060	Modern Jewish History	
HIST 3367	The American Jewish Experience	
HIST 3820	History of Israel	
JSTD 2001	Topics in Judaic Studies: Pre-modern	

JSTD 2002	Topics in Judaic Studies: Modern
PSC 2379	Politics and Foreign Policy of Israel
PSC 2476	The Arab-Israeli Conflict
REL 1009	The Hebrew Scriptures
REL 2201	Judaism
REL 2211	Rabbinic Thought and Literature
REL 3141	Second Temple/Hellenistic Judaism
REL 3149W	Biblical Issues
REL 3221	Issues in Jewish Ethics
REL 3291	Modern Jewish Thought
REL 3292	Seminar: Issues in Jewish Thought
REL 3923	Violence and Peace in Judaism, Christianity, and Islam
WSTU 3281	Women in Judaism

## MATHEMATICS

The Department of Mathematics, part of the natural and mathematical sciences discipline in the Columbian College of Arts and Sciences, offers the bachelor of arts in mathematics and bachelor of science in mathematics degrees. The undergraduate mathematics major has three concentrations: pure, applied, and interdisciplinary. Each concentration is designed to give students a solid background in the theory and practice of modern mathematics. A minor in mathematics is also available to undergraduate students.

At the graduate level, the department offers the master of arts in mathematics, master of science in applied mathematics, and doctor of philosophy in the field of mathematics. Course offerings are complemented by a generous selection of research seminars and by the department colloquium series. Faculty expertise covers a wide range of research specialties, allowing students to choose from a rich array of potential dissertation areas.

In addition, graduate certificates in mathematics and in financial mathematics are offered for those who seek to strengthen their mathematical backgrounds in order to better position themselves in their careers or to prepare themselves for graduate work in quantitative disciplines.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in mathematics (p. 279)
- Bachelor of Science with a major in mathematics (p. 280)

## Minor

- Minor in mathematics (p. 281)

## GRADUATE

### Master's programs

- Master of Arts in the field of mathematics (p. 281)
- Master of Science in the field of applied mathematics (p. 281)

### Doctoral program

- Doctor of Philosophy in the field of mathematics (p. 282)

## CERTIFICATE

### Certificate programs

- Graduate certificate in financial mathematics (p. 282)
- Graduate certificate in mathematics (p. 282)

## FACULTY

**Professors** F.E. Baginski (Chair), J. Bonin, M.M. Gupta, V. Harizanov, H.D. Junghenn, J.H. Przytycki, X. Ren, E.A. Robinson, Y. Rong, S. Roudenko, D.H. Ullman

**Associate Professors** M. Alekseyev, M. Gualdani, M. Moses, H. Wu

**Assistant Professors** J. Lewis, A. Shumakovitch, Y. Zhao

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: MATH 1220 Calculus with Precalculus I and MATH 1221 Calculus with Precalculus II each cover one-half the material of MATH 1231 Single-Variable Calculus I. Because MATH 1221 Calculus with Precalculus II, MATH 1231 Single-Variable Calculus I, and MATH 1252 Calculus for the Social and Management Sciences are related in their subject matter, credit for only one of the three may be applied toward a degree. The placement exam (<http://math.columbian.gwu.edu/gw-mathematics-placement-test>) is the only option for placing into Math 1051, 1220, 1231, or 1252. Students with appropriate backgrounds may be admitted to any other course in the

department by permission of the instructor in lieu of the listed prerequisites.

### MATH 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

### MATH 1007. Mathematics and Politics. 3 Credits.

A mathematical treatment of fair representation, voting systems, power, and conflict; impossibility theorems of Balinski and Young and of Arrow; the electoral college; the prisoner's dilemma.

### MATH 1008. History of Mathematics. 3 Credits.

The history of mathematics, with emphasis on its importance in the evolution of human thought. Students learn some useful mathematics from areas such as geometry, number theory, and probability and develop an appreciation of the mathematical endeavor.

### MATH 1009. Mathematical Ideas I. 3 Credits.

Elementary mathematical models of growth and decay, scaling, chaos, and fractals.

### MATH 1010. Mathematical Ideas II. 3 Credits.

Continuation of MATH 1009. Elementary graph theory, scheduling, probability theory.

### MATH 1051. Finite Mathematics for the Social and Management Sciences. 3 Credits.

Systems of linear equations, matrix algebra, linear programming, probability theory, and mathematics of finance. Restricted to students with a minimum score of 61 on the ALEKS placement examination.

### MATH 1220. Calculus with Precalculus I. 3 Credits.

An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisites: students with a minimum score of 61 on the ALEKS placement examination.

### MATH 1221. Calculus with Precalculus II. 3 Credits.

Continuation of MATH 1220. An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisite: MATH 1220.

### MATH 1231. Single-Variable Calculus I. 3 Credits.

Limits and continuity; differentiation and integration of algebraic and trigonometric functions with applications. Restricted to students with a minimum score of 76 on the ALEKS placement examination.

### MATH 1232. Single-Variable Calculus II. 3 Credits.

The calculus of exponential and logarithmic functions. L'Hopital's rule. Techniques of integration. Infinite series and Taylor series. Polar coordinates. Prerequisite: MATH 1221 or MATH 1231.

**MATH 1252. Calculus for the Social and Management Sciences. 3 Credits.**

Differential and integral calculus of functions of one variable; applications to business and economics. Prerequisites: students with a minimum test score of 61 on the ALEKS placement examination.

**MATH 2000. Sophomore Colloquium. 3 Credits.**

The Sophomore Colloquia are small, seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. See department for more details.

**MATH 2020. Joint Math and Physics Seminar. 1 Credit.**

**MATH 2184. Linear Algebra I. 3 Credits.**

Linear equations, matrices, inverses, and determinants. Vector spaces, rank, eigenvalues, and diagonalization. Applications to geometry and ordinary differential equations. Credit cannot be earned for both MATH 2184 and MATH 2185. Prerequisites: MATH 1221 or MATH 1231 or MATH 1252; or permission of the instructor.

**MATH 2185. Linear Algebra I for Math Majors. 3 Credits.**

For current or prospective math majors. Introduction to theory and computations involving linear equations, matrices, inverses, determinants, vector spaces, rank, eigenvalues, diagonalization, inner products, norms, and orthogonality. Credit may not be earned for both MATH 2185 and MATH 2184. MATH 2971 or MATH 2971W may be taken as a corequisite. Prerequisites: MATH 1221 or MATH 1231; and MATH 2971 or MATH 2971W.

**MATH 2233. Multivariable Calculus. 3 Credits.**

Partial derivatives and multiple integrals. Vector-valued functions. Line and surface integrals and the theorems of Gauss, Green, and Stokes. Prerequisite: MATH 1232.

**MATH 2971. Introduction to Mathematical Reasoning. 3 Credits.**

Introduction to the fundamental abstract concepts of modern mathematics; various proof techniques demonstrated using examples from discrete and continuous mathematics. MATH 1232 may be taken as a corequisite. Prerequisites: MATH 1232 or permission of the department undergraduate advisor.

**MATH 2971W. Introduction to Mathematical Reasoning. 3 Credits.**

Introduction to the fundamental abstract concepts of modern mathematics; various proof techniques demonstrated using examples from discrete and continuous mathematics. Math 1232 may be taken concurrently; permission of instructor or the departmental undergraduate advisor may substituted for the prerequisite. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MATH 1232.

**MATH 2991. Introductory Special Topics. 1-3 Credits.**

Permission of the instructor required prior to enrollment. May be repeated for credit.

**MATH 3120. Elementary Number Theory. 3 Credits.**

Divisibility of integers, prime numbers, greatest common divisor, the Euclidean algorithm, congruence, the Chinese remainder theorem, number theoretic functions, Möbius inversion, Euler's phi function, and applications to cryptography and primality testing. Prerequisites: MATH 2971 or MATH 2971W.

**MATH 3125. Linear Algebra II. 3 Credits.**

Advanced topics in linear algebra; duality of vector spaces, normal and self-adjoint operators, the singular value decomposition theorem, the spectral theorem, bilinear and quadratic forms, the geometry of orthogonal operators, the Jordan canonical form, and minimal polynomials. Prerequisites: MATH 2971 or MATH 2971W and MATH 2185.

**MATH 3257. Introduction to Complex Variables. 3 Credits.**

Analytic functions and power series; contour integration and the calculus of residues; conformal mapping; physical applications. Prerequisites: MATH 2184 or MATH 2185; MATH 2233; and MATH 2971 or MATH 2971W.

**MATH 3342. Ordinary Differential Equations. 3 Credits.**

A first course in ordinary differential equations, with an emphasis on mathematical modeling: solution curves, direction fields, existence and uniqueness, approximate solutions, first-order and second-order linear equations, linear systems, and phase portraits. Prerequisites: MATH 2233; MATH 2184 or MATH 2185.

**MATH 3343. Partial Differential Equations. 3 Credits.**

A first course in partial differential equations. Fourier series and separation of variables, vibrations of a string, Sturm-Liouville problems, series solutions, Bessel's equation, linear partial differential equations, wave and heat equations. Prerequisite: MATH 3342.

**MATH 3359. Introduction to Mathematical Modeling. 3 Credits.**

Introduction to the fundamental modeling ideas of dimensional analysis, scaling, and elementary approximations of curves and functions; applications to development of models from science and engineering. Prerequisites: CSCI 1011 or CSCI 1012 or CSCI 1041 or CSCI 1111 or CSCI 1121 or CSCI 1131; and MATH 3342.

**MATH 3410. Mathematics of Finance. 3 Credits.**

Mathematical development and analysis of realistic models for financial option pricing; mathematical underpinnings and financial concepts. Prerequisite: MATH 2233.

**MATH 3411. Stochastic Calculus Methods in Finance. 3 Credits.**

Review of probability theory, Brownian motion, Ito integrals, Ito's formula, martingales, stochastic differential equations, boundary value problems, the Dirichlet problem, the Black-Scholes equation, optimal stopping, and American options. Prerequisites: MATH 2184 or MATH 2185; and MATH 3410; or permission of the instructor.

**MATH 3553. Introduction to Numerical Analysis. 3 Credits.**

Accuracy and precision. Linear systems and matrices. Direct and iterative methods for solution of linear equations. Sparse matrices. Solution of nonlinear equations. Interpolation and approximate representation of functions, splines. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233; and CSCI 1011, CSCI 1041, CSCI 1111, CSCI 1121 or CSCI 1131.

**MATH 3613. Introduction to Combinatorics. 3 Credits.**

Introduction to combinatorial enumeration; basic counting techniques, inclusion-exclusion principle, recurrence relations, generating functions, pigeonhole principle, bijective correspondences. Prerequisites: MATH 2971 or MATH 2971W.

**MATH 3632. Introduction to Graph Theory. 3 Credits.**

Fundamental concepts, techniques, and results of graph theory; connectivity, traversability, matchings, coverings, colorability, planarity, networks, and Polya enumeration. Prerequisites: MATH 2971 or MATH 2971W.

**MATH 3710. Introduction to Mathematical Logic. 3 Credits.**

Symbolic logic as a precise formalization of deductive thought; logical correctness of reasoning; formal languages, interpretations, and truth; propositional logic and first-order quantifier logic suited to deductions encountered in mathematics; Goedel's completeness theorem; compactness. Prerequisites: MATH 2971 or MATH 2971W.

**MATH 3720. Axiomatic Set Theory. 3 Credits.**

Cantor's theory of sets. Russell's paradox. Axiomatization of set theory as a framework for a contradiction-free mathematics. The Zermelo-Fraenkel axioms and the axiom of choice. Finite, countable, and uncountable sets; ordinal and cardinal arithmetic. The continuum hypothesis. Prerequisites: MATH 2971 or MATH 2971W or permission of instructor.

**MATH 3730. Computability Theory. 3 Credits.**

The unlimited register machine as a model of an idealized computer. Computable and partial computable functions; Church-Turing thesis. Kleene's recursion theorem. Algorithmic enumerability. Unsolvability of the halting problem and other theoretical limitations on what computers can do. Discussion of Goedel's incompleteness theorem. Prerequisites: MATH 2971 or MATH 2971W or permission of instructor.

**MATH 3740. Computational Complexity. 3 Credits.**

Automata and languages; deterministic and nondeterministic Turing machines; space and time complexity measures and classes; P-versus-NP problem; traveling salesman problem and other NP-complete problems; intractability; circuit complexity; introduction to probabilistic and quantum algorithms. Prerequisites: MATH 2971 or MATH 2971W.

**MATH 3806. Introduction to Topology. 3 Credits.**

Metric spaces: completeness, compactness, continuity. Topological spaces: continuity, bases, subbases, separation axioms, compactness, local compactness, connectedness, product and quotient spaces. Prerequisites: MATH 2971 or MATH 2971W.

**MATH 3848. Differential Geometry. 3 Credits.**

Curves in space, regular surfaces, tensors, fundamental forms of a surface, Gauss-Bonnet theory, minimal surfaces; the geometry of the Gauss map. Prerequisites: MATH 2184 or MATH 2185; MATH 2233; and MATH 2971 or MATH 2971W.

**MATH 4121. Introduction to Abstract Algebra I. 3 Credits.**

Study of groups and associated concepts, including Lagrange's theorem, Cayley's theorem, the fundamental theorem of homomorphisms, and applications to counting. Prerequisites: MATH 2184 or MATH 2185; and MATH 2971 or MATH 2971W.

**MATH 4122. Introduction to Abstract Algebra II. 3 Credits.**

Study of rings, through maximal and prime ideals, and the study of fields, through Galois theory. Prerequisites: MATH 4121 or permission of the instructor.

**MATH 4239. Real Analysis I. 3 Credits.**

Rigorous study of differentiation, integration, and convergence; sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Prerequisites: MATH 1232 and MATH 2971 or MATH 2971W or permission of instructor.

**MATH 4239W. Real Analysis I. 3 Credits.**

A rigorous study of differentiation, integration, and convergence. Topics include sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: MATH 1232; and MATH 2971 or MATH 2971W.

**MATH 4240. Real Analysis II. 3 Credits.**

Continuation of MATH 4239. Topology of n-dimensional space, derivatives of functions of several variables, inverse and implicit function theorems, multiple integrals, generalized Stokes's theorem. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233 and MATH 4239.

**MATH 4981. Seminar: Topics in Mathematics. 3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233.

**MATH 4991. Special Topics. 1-12 Credits.**

Permission of the instructor required prior to enrollment. May be repeated for credit.

**MATH 4995. Reading and Research. 1-6 Credits.**

Under the personal direction of an instructor. Limited to majors with demonstrated capability. May be repeated for credit. Restricted to permission from instructor.

**MATH 6101. Algebra I. 3 Credits.**

Group theory including symmetric groups, free abelian groups, finitely generated abelian groups, group actions, Sylow theorems, solvable groups. Ring theory including factorization in commutative rings, rings of polynomials, chain conditions.

**MATH 6102. Algebra II. 3 Credits.**

Continuation of MATH 6101. Theory of modules, including modules over a principal ideal domain and tensor product of modules. Theory of fields, including finite fields and Galois theory.

**MATH 6120. Topics in Algebra. 3 Credits.**

Topics may include, but are not limited to, Lie groups and Lie algebras, non-associative algebras, abelian groups, classical groups, algebraic number theory, representation theory, algebraic geometry, and ring theory. May be repeated for credit with permission. Prerequisites: MATH 6101 and MATH 6102.

**MATH 6201. Real Analysis I. 3 Credits.**

A rigorous study of the real number system, metric spaces, topological spaces, product topology, convergence, continuity and differentiation. Topics include Dedekind's cuts, Tychonoff's theorem, sequences and series, Abel's theorem, continuity and differentiability of real-valued functions of a real variable. Credit may not be earned for both MATH 6201 and MATH 4239.

**MATH 6202. Real Analysis II. 3 Credits.**

Continuation of MATH 6201. Topics include Riemann-Stieltjes integrals, equicontinuity, Arzela-Ascoli theorem, Stone-Weierstrass theorem, derivatives of functions of several variables, contraction mapping theorem, inverse and implicit function theorems, differential forms, exterior differentiation, Stokes's theorem, differentiable manifolds. Credit may not be earned for both MATH 6202 and MATH 4240.

**MATH 6214. Measure and Integration Theory. 3 Credits.**

Lebesgue measure and integration in abstract spaces. Probability measures. Absolute continuity, the Radon-Nikodym theorem, measures on product spaces, and the Fubini theorem. LP spaces and their properties. Prerequisite: MATH 4239.

**MATH 6215. Introduction to Functional Analysis. 3 Credits.**

Topological and metric spaces; Tychonoff theorem; Banach spaces; linear functionals and operators; Hahn-Banach, closed graph, and open-mapping theorems; uniform boundedness; Hilbert spaces; eigenvalues, projections. Prerequisite: MATH 6214.

**MATH 6225. Ergodic Theory. 3 Credits.**

Ergodicity, mixing, the K-property and the Bernoulli property. Poincaré recurrence, the Rohlin lemma, the ergodic theorem, and entropy theory. Additional topics from isomorphism theory, spectral theory, the theory of joinings, and coding theory. Prerequisites: MATH 6214 or permission of the instructor.

**MATH 6226. Dynamical Systems and Chaos. 3 Credits.**

Linear and nonlinear systems, flows, Poincaré maps, structural stability. Examples of chaotic systems in the physical sciences. Local bifurcations, center manifold theory, normal forms, the averaging theorem. Hyperbolic invariant sets, strange attractors, the Smale horseshoe, symbolic dynamics. Prerequisites: MATH 2184 and MATH 4240; or permission of the instructor.

**MATH 6230. Complex Analysis. 3 Credits.**

Topology of the complex plane; complex differentiation and integration; Cauchy's theorem and its consequences; Taylor and Laurent series; classification of singularities; residue theory; conformal mapping; the Riemann mapping theorem. Prerequisite: MATH 4239.

**MATH 6240. Topics in Real and Functional Analysis. 3 Credits.**

Possible topics include Banach algebras, function algebras, spectral theory for bounded and unbounded operators, harmonic analysis on topological groups and semigroups, topological vector spaces and operator algebras. May be repeated for credit with permission. Prerequisites: Permission of the instructor.

**MATH 6318. Applied Mathematics I. 3 Credits.**

Boundary value problems in one dimension, first order equations, method of characteristics, shock waves, linear elliptic and evolution equations, calculus of variations. In addition to the specified prerequisites, students must have completed an undergraduate course in differential equations prior to enrollment. Prerequisites: MATH 2184 and MATH 2233.

**MATH 6319. Applied Mathematics II. 3 Credits.**

Stability and bifurcation, perturbation methods, Sobolev spaces, wave equation, nonlinear partial differential equations. Students must have taken an undergraduate course in real analysis in addition to the specified prerequisites. Prerequisites: MATH 2184 and MATH 2233.

**MATH 6330. Ordinary Differential Equations. 3 Credits.**

Existence and uniqueness of solutions, continuity and differentiability of solutions with respect to initial conditions. Properties of linear systems, phase portraits, planar systems and Poincaré-Bendixson theory. Prerequisite: MATH 4240.

**MATH 6340. Modern Partial Differential Equations. 3 Credits.**

Emphasis on modern theory and analytical techniques applied to the solution of partial differential equations. Topics include Sobolev spaces, generalized solutions, strong solutions and regularity; Sobolev imbedding theorem; Rellich-Kondrachov theorem; Leray-Schauder fixed-point theorems; nonlinear eigenvalue problems. Prerequisites: MATH 6319 or permission of the instructor.

**MATH 6350. Topics in Applied Mathematics. 3 Credits.**

Possible topics include, but are not limited to, the calculus of variations, control theory, nonlinear partial differential equations, and mathematical programming. May be repeated for credit with permission.

**MATH 6441. Introduction to Financial Mathematics. 3 Credits.**

Elementary finance. Basic probability. Discrete random variables. Forwards, futures, and options. Options and arbitrage. The binomial model. Cox-Ross-Rubinstein formula. Martingales. Continuous random variables. The continuous model as a limit of the binomial model. Prerequisites: MATH 2184 and MATH 2233.

**MATH 6442. Stochastic Calculus Methods in Finance. 3 Credits.**

Review of finance and probability theory. Brownian motion. Ito's formula. Martingales. Stochastic differential equations. The Black-Scholes equation. Optimal stopping. American options. Prerequisites: MATH 2184 and MATH 2233.

**MATH 6522. Introduction to Numerical Analysis. 3 Credits.**

Computer arithmetic and round-off errors. Solution of linear and nonlinear systems. Interpolation and approximations. Numerical differentiation and integration. Eigenvalues and eigenvectors. Prerequisite: MATH 1232 and MATH 2184 and knowledge of a programming language.

**MATH 6523. Numerical Solution of Ordinary and Partial Differential Equations. 3 Credits.**

Initial and boundary value problems for ordinary differential equations. Error propagation, convergence and stability. Finite difference and finite element methods for partial differential equations. Prerequisite: MATH 3342 and knowledge of a programming language.

**MATH 6540. Topics in Numerical Analysis. 3 Credits.**

Numerical methods and software. Introductions to the methods, tools, and ideas of numerical computation. Problem solving using standard mathematical software. Interpolation; linear and nonlinear equations. Differential equations. Prerequisites: MATH 3342 and knowledge of a programming language.

**MATH 6610. Combinatorics. 3 Credits.**

An introduction to fundamental methods and current research problems in partially ordered sets and enumeration. Prerequisites: Undergraduate modern algebra and linear algebra or permission of the instructor.

**MATH 6620. Graph Theory. 3 Credits.**

Graphical enumeration, factors, planarity and graph coloring, algebraic graph theory, extremal graph theory, applications. Prerequisites: Undergraduate modern algebra and linear algebra or permission of the instructor.

**MATH 6630. Topics in Combinatorial Mathematics. 3 Credits.**

Topics selected from a wide range of research subjects in combinatorics, its relations with other areas of mathematics, and applications. Recent selections have included matroid theory, topological methods in ordered sets, algebraic methods in combinatorics, fractional graph theory, combinatorics of polytopes, the symmetric group. May be repeated for credit with permission.

**MATH 6710. Mathematical Logic. 3 Credits.**

Model theory: the relation between a formal language (syntax) and its interpretations (semantics). Consistency, completeness, and compactness. Tarski's theorem on the inexpressibility of truth. Godel's incompleteness theorem and its impact on mathematics.

**MATH 6720. Topics in Logic. 3 Credits.**

Topics selected from a broad spectrum of areas of logic and applications, based on students' suggestions and interests. Recent selections have included computable mathematics, computable model theory, computability theory, set theory, and algorithmic learning theory. May be repeated for credit with permission.

**MATH 6810. General Topology. 3 Credits.**

Topological spaces, bases and subbases, open sets and closed sets; continuous maps and homeomorphisms; connectedness and compactness; metric topology, product topology, and quotient topology; separation axioms; finite topological spaces, covering spaces, and fundamental groups.

**MATH 6820. Algebraic Topology. 3 Credits.**

Fundamental groups and the Van Kampen theorem; simplicial complexes, simplicial homology, and Euler characteristic; singular homology, Mayer-Vietoris sequences. Topics may include cohomology, cup products, and Poincaré duality; classification of surfaces; knots and their fundamental groups. Prerequisites: MATH 6810 or permission of the instructor.

**MATH 6850. Knot Theory and Low Dimensional Topology. 3 Credits.**

Introduction to fundamental methods and current research in knot theory and 3-dimensional topology. Topics include Reidemeister moves, Alexander invariants, Jones-type invariants, skein modules, Khovanov homology, incompressible surfaces, and torus decomposition. Prerequisites: MATH 6810 or permission of the instructor.

**MATH 6860. Topics in Knot Theory and Low Dimensional Topology. 3 Credits.**

Possible topics include, but are not limited to, topology of 3-manifolds and work of Perelman, quantum invariants and their categorizations, topology of 4-manifolds after Freedman and Donaldson, computational complexity in topology, and applications in biology, chemistry, and physics. May be repeated for credit with permission. Prerequisites: MATH 6850 or permission of the instructor.

**MATH 6890. Topics in Topology. 3 Credits.**

Topics may include hyperbolic structures on surfaces and 3-manifolds; knot theory; topology of 3-manifolds; topology of 4-manifolds. Prerequisite: MATH 6820 or permission of the instructor. May be repeated for credit with permission.

**MATH 6991. Graduate Student Experience. 0 Credits.**

Introduction to the experience of studying mathematics as a graduate student at GW. Understanding University rules and regulations, handling the literature in the subject, conducting research and delivering presentations, and pursuing a successful career as a mathematician. Restricted to graduate students in the department.

**MATH 6995. Reading and Research. 0-12 Credits.**

May be repeated for credit.

**MATH 8999. Dissertation Research. 3-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

# BACHELOR OF ARTS WITH A MAJOR IN MATHEMATICS

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
MATH 1231	Single-Variable Calculus I (or equivalent)	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
MATH 2971	Introduction to Mathematical Reasoning	
<b>One course (3 credits) from the following:</b>		
CSCI 1011	Introduction to Programming with Java	
CSCI 1041	Introduction to FORTRAN Programming	
CSCI 1111	Introduction to Software Development	
CSCI 1121	Introduction to C Programming	
CSCI 1131	Introduction to Programming with C	

Students in the pure mathematics concentration may substitute an additional elective, approved by the department, for the CSCI course.

Students select one of the following three concentrations:

### Pure Mathematics Concentration

Code	Title	Credits
<b>Required</b>		
MATH 2185	Linear Algebra I for Math Majors	
or MATH 2184 & MATH 3125	Linear Algebra I and Linear Algebra II	
MATH 4121	Introduction to Abstract Algebra I	
MATH 4239	Real Analysis I	
MATH 4240	Real Analysis II	
MATH 4122	Introduction to Abstract Algebra II	

or MATH 3125      Linear Algebra II

Three additional mathematics (MATH) courses (9 credits) numbered 3000 or above

### Applied Mathematics Concentration

Code	Title	Credits
<b>Required</b>		
MATH 2185	Linear Algebra I for Math Majors	
or MATH 2184	Linear Algebra I	
MATH 3342	Ordinary Differential Equations	
MATH 3343	Partial Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	
MATH 4239	Real Analysis I	

Two additional mathematics (MATH) courses (6 credits) numbered 3000 or above

### Interdisciplinary Mathematics Concentration

Code	Title	Credits
<b>Required</b>		
MATH 2185	Linear Algebra I for Math Majors	
or MATH 2184	Linear Algebra I	
MATH 3342	Ordinary Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	
Four additional mathematics (MATH) courses (12 credits) numbered 3000 or above		

A minor or second major in statistics, economics, physics, finance, or any department in the School of Engineering and Applied Science.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a grade-point average of at least 3.5 in courses in the major; complete 3 credits of MATH 4995 Reading and Research in addition to the other required courses in the major; and present an oral defense of a senior thesis prepared for MATH 4995 Reading and Research.

# BACHELOR OF SCIENCE WITH A MAJOR IN MATHEMATICS

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
MATH 1231	Single-Variable Calculus I (or the equivalent)	
MATH 1232	Single-Variable Calculus II	
MATH 2185	Linear Algebra I for Math Majors	
MATH 2233	Multivariable Calculus	
MATH 2971	Introduction to Mathematical Reasoning	
One course (3 credits) from the following:		
CSCI 1011	Introduction to Programming with Java	
CSCI 1041	Introduction to FORTRAN Programming	
CSCI 1111	Introduction to Software Development	
CSCI 1121	Introduction to C Programming	
CSCI 1131	Introduction to Programming with C	

For students in the pure mathematics concentration, an alternative course may substituted for the CSCI course with the approval of the department.

### Completion of one of the following three concentrations: Pure mathematics concentration

Code	Title	Credits
<b>Required</b>		
MATH 2185	Linear Algebra I for Math Majors	
or MATH 2184 & MATH 3125	Linear Algebra I and Linear Algebra II	
MATH 4121	Introduction to Abstract Algebra I	
MATH 4239	Real Analysis I	
MATH 4240	Real Analysis II	
MATH 4122	Introduction to Abstract Algebra II	

or MATH 3125      Linear Algebra II

Five additional mathematics (MATH) courses (15 credits) numbered 3000 or above. For students who complete the bachelor of science requirements for a major in astronomy and astrophysics, biology, biophysics, chemistry, economics, physics, statistics, finance, or any major in SEAS, this requirement is reduced to three additional MATH courses (9 credits) numbered 3000 or above.

## Applied mathematics concentration

Code	Title	Credits
<b>Required</b>		
MATH 2185	Linear Algebra I for Math Majors	
or MATH 2184 & MATH 3125	Linear Algebra I and Linear Algebra II	
MATH 3342	Ordinary Differential Equations	
MATH 3343	Partial Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	
MATH 4239	Real Analysis I	
Four additional mathematics (MATH) courses (12 credits) numbered 3000 or above. For students who complete the bachelor of science requirements for a major in astronomy and astrophysics, biology, biophysics, chemistry, economics, physics, statistics, finance, or any major in SEAS, this requirement is reduced to two additional MATH courses (6 credits) numbered 3000 or above.		

## Interdisciplinary mathematics concentration

Code	Title	Credits
<b>Required</b>		
MATH 2185	Linear Algebra I for Math Majors	
or MATH 2184 & MATH 3125	Linear Algebra I and Linear Algebra II	
MATH 3342	Ordinary Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	

Six additional mathematics (MATH) courses (18 credits) numbered 3000 or above. For students who complete the bachelor of science requirements for a major in astronomy and astrophysics, biology, biophysics, chemistry, economics, physics, statistics, finance, or any major in SEAS, this requirement is reduced to four additional mathematics MATH courses (12 credits) numbered 3000 or above.

Students also must complete a second minor or major in which mathematics is applied. This includes the major fields of astronomy and astrophysics, biology, biophysics, chemistry, economics, physics, statistics, finance, or any major in SEAS.

## SPECIAL HONORS

To graduate with Special Honors, a student must meet the general requirements stated under University Regulations; maintain a grade-point average of at least 3.5 in courses in the major; complete 3 credits of MATH 4995 Reading and Research in addition to the other required courses in the major; and present an oral defense of a senior thesis prepared for MATH 4995 Reading and Research.

## MINOR IN MATHEMATICS REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including one 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
------	-------	---------

### Required

MATH 2184	Linear Algebra I	
or MATH 2185	Linear Algebra I for Math Majors	

### Electives

15 credits in elective courses with a minimum of 9 credits taken at the 3000 level or above. Courses are selected in consultation with a departmental advisor.

## MASTER OF ARTS IN THE FIELD OF MATHEMATICS REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. ).

30 credits in approved courses in mathematics.

Code	Title	Credits
------	-------	---------

### Required

30 credits of approved graduate coursework in mathematics.

Up to 6 of the required credits may be satisfied through approved upper-level undergraduate courses.

Visit the (<http://math.columbian.gwu.edu/graduate-academic-programs>)p (<http://math.columbian.gwu.edu/graduate-academic-programs>)rogram (<http://math.columbian.gwu.edu/graduate-academic-programs>) website (<http://math.columbian.gwu.edu/graduate-academic-programs>) for additional information.

## MASTER OF SCIENCE IN THE FIELD OF APPLIED MATHEMATICS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs ([http://bulletin.gwu.edu/arts-sciences/#Graduate\\_Degree\\_Requirement](http://bulletin.gwu.edu/arts-sciences/#Graduate_Degree_Requirement)).

30 credits in approved courses divided between mathematics and one of the following areas of application: physics, computer science, statistics, operations research, economics, engineering (civil, electrical, mechanical, or systems). No more than 12 credits may be in non-MATH courses. Students must petition and obtain the approval of the graduate committee in order to register for courses outside the department.

Subject to the approval of the graduate committee (requested via petition) and the agreement of the instructor, mathematics graduate students may take the following undergraduate courses for graduate credit: MATH 3710 Introduction to Mathematical Logic, MATH 3720 Axiomatic Set Theory, MATH 3730 Computability Theory, MATH 3740 Computational Complexity, MATH 3613 Introduction to Combinatorics, MATH 3632 Introduction to Graph Theory, MATH 4239 Real Analysis I, MATH 4240 Real Analysis II, MATH 3848 Differential Geometry, and MATH 4981 Seminar: Topics in Mathematics. Graduate students in such courses must be assigned appropriate additional work to bring the courses up to the graduate level. No more than 6 credits may be satisfied through approved upper-level undergraduate courses.

Students must petition and obtain the approval of the graduate committee in order to register for MATH 6995 Reading and Research.

Up to one-quarter of the work required for the degree may be taken via courses offered by other institutions in the Consortium of Universities of the Washington Metropolitan Area. (<https://registrar.gwu.edu/consortium>) Students wishing

to take such courses must petition and obtain the approval of the graduate committee.

Visit the program website (<http://math.columbian.gwu.edu/graduate-academic-programs>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF MATHEMATICS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

**Required:** The General Examination consists of a preliminary examination in two to four subjects selected from algebra, analysis, topology, and applied math, and a specialty examination in a research area approved by the department.

For a detailed description of the program, visit the departmental web page (<http://math.columbian.gwu.edu/phd-program>).

## GRADUATE CERTIFICATE IN FINANCIAL MATHEMATICS

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Required</b>		
MATH 6201	Real Analysis I	
MATH 6441	Introduction to Financial Mathematics	
MATH 6442	Stochastic Calculus Methods in Finance	
One of the following:		
MATH 6202	Real Analysis II	
MATH 6214	Measure and Integration Theory	
MATH 6318	Applied Mathematics I	
MATH 6330	Ordinary Differential Equations	
MATH 6522	Introduction to Numerical Analysis	

Alternate courses may be selected in consultation with the certificate program advisor.

More information can be found on the mathematics certificate programs (<http://math.columbian.gwu.edu/certificate-programs>) website.

## GRADUATE CERTIFICATE IN MATHEMATICS

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required:</b>		
MATH 6201	Real Analysis I	
MATH 6202	Real Analysis II	
Two of the following:		
MATH 6214	Measure and Integration Theory	
MATH 6215	Introduction to Functional Analysis	
MATH 6318	Applied Mathematics I	
MATH 6319	Applied Mathematics II	
MATH 6810	General Topology	

Alternate courses may be selected in consultation with the certificate advisor.

More information can be found on the mathematics certificate programs (<http://math.columbian.gwu.edu/certificate-programs>) website.

## MEDIA AND PUBLIC AFFAIRS

The School of Media and Public Affairs (SMPA), as part of the Columbian College of Arts and Sciences, is dedicated to the study of media, journalism, and political communication with a focus on the connections between ideas and information and how the media inform and influence policy and politics in a democracy. Students have the opportunity for internships and access to decision makers, community leaders, and power brokers. SMPA offers programs of study leading to the bachelor of arts degree with majors in journalism and mass communication, and in political communication. Entering freshmen may be admitted to majors within SMPA through a highly selective application process. In addition, a limited number of students are admitted through a competitive

application process that begins after the student is accepted to the University.

Visit the School of Media and Public Affairs website (<https://smpa.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in journalism and mass communication (p. 288)
- Bachelor of Arts with a major in political communication (p. 290)

### Combined programs (p. 291)

- Dual Bachelor of Arts in an SMPA major and Master of Arts in the field of Media and Strategic Communication (p. 291)
- Dual Bachelor of Arts in an SMPA major and Master of Professional Studies in the field of Political Management (p. 291)

### Minor

- Minor in journalism and mass communication (p. 291)

## GRADUATE

### Master's program

- Master of Arts in the field of media and strategic communication (p. 292)

## CERTIFICATE

A graduate certificate in documentary filmmaking is offered by the School of Media and Public Affairs. Information is available at The Documentary Center (<https://documentarycenter.columbian.gwu.edu>).

## FACULTY

**Professors** R.M. Entman, L. Huebner, S.L. Livingston, S.V. Roberts, N. Seavey (*Research*), F. Sesno (*Director*), S. Waisbord

**Associate Professors** S. Aday, C.S. Bailard, K.A. Gross, K. Harvey, M. Hindman, D.A. Karpf, P.F. Phalen, R. Russell, J.E. Steele, C.W. Thompson, N. Usher, W.L. Youmans

**Assistant Professors** D. Cenziper, I.M. Cheers, J. Osder, E. Porter

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **SMPA 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **SMPA 1050. Media in a Free Society. 3 Credits.**

The role of mass communication in democratic political systems: informational requirements of democracy, sources of political information and the role of news media and other channels in creating and disseminating it; issues relating to propaganda and public information; and the interaction between information flows and democratic political culture. Not open to SMPA majors.

#### **SMPA 1225. Forensics Practice (Debate). 1 Credit.**

#### **SMPA 2101. Journalism: Theory & Practice. 3 Credits.**

An overview of theories and key issues in journalism in the United States. News and democracy, the historical and social evolution of journalism, news values, journalism as occupation/profession, technologies and changes in journalistic practices. Open only to SMPA majors.

#### **SMPA 2102. Introduction to Political Communication. 3 Credits.**

Basic concepts and theories of political communication; development of a framework for analyzing political communication; applications in the United States, other countries, and the international system. Open only to SMPA majors. Prerequisite: PSC 1002.

#### **SMPA 2110W. Introduction to News Writing and Reporting. 0-3 Credits.**

Fundamentals of news reporting and writing, with emphasis on print media; news judgment, information gathering skills, and crafting news and feature stories. Directly admitted freshmen may enroll in their second semester; all other freshmen require departmental permission. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**SMPA 2111W. Advanced News Reporting. 4 Credits.**

Reporting, writing, and computer skills for covering beats and developing in-depth news stories. Techniques in researching, observing, and interviewing to frame stories of public interest; outside and in-class reporting and writing assignments. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Restricted to journalism and mass communication majors, or students with permission of the instructor. Prerequisite: SMPA 2110W.

**SMPA 2112. Digital Media I: Introduction to Video Production. 3 Credits.**

Foundational introduction to digital media production. Videography and non-linear editing, with emphasis on use in journalism and political communication. Laboratory fee. Restricted to students in the political communication and journalism and mass communication programs.

**SMPA 2113. Digital Media II: Introduction to Web Production and Social Media. 3 Credits.**

Foundational introduction to digital media production. Web content and design; photography and audio applied to the web; and using social media. Emphasis on use in journalism and political communication. Laboratory fee. Restricted to students in the political communication and journalism and mass communication programs.

**SMPA 2120. Public Opinion. 3 Credits.**

Key aspects of the literature on public opinion, with emphasis on the role of media in opinion formation and change. Topics include the meaning of public opinion in a democratic society, a review of methods used to measure opinions, and media effects on opinion.

**SMPA 2151. Research Methods. 3 Credits.**

Processes of inquiry within mediated communication. The concepts of framing research questions, conducting literature reviews, developing a research design, and interpreting results of cultural and social science research within a societal framework. Prerequisites: STAT 1053 or STAT 1051 or STAT 1111 or STAT 1127.

**SMPA 2152. Data Analysis for Journalism and Political Communication. 3 Credits.**

Understanding, critiquing, and performing analysis of data sets with applications to journalism and political communication; using data to tell stories and answer questions. Analyzing A/B tests and field experiments; basics of visualizing data; regression. Laboratory fee. Prerequisites: STAT 1051 or STAT 1053 or STAT 1111 or STAT 1127.

**SMPA 2173. Media Law. 3 Credits.**

Freedom of the press. Changing laws of journalism and mass communication, including defamation, privacy, reporting access, obscenity and indecency, media ownership, intellectual property, advertising, and electronic communication.

**SMPA 2177. Media History. 3 Credits.**

American media from colonial times to the present, set against a backdrop of ongoing political, social, and economic developments. The development of press, radio, television, cable, satellite, and the Internet; government regulation and media relations; journalistic rights and responsibilities.

**SMPA 3150. Journalism Ethics. 3 Credits.**

Principles of media ethics; application to contemporary and developing issues and challenges in journalism. Restricted to juniors and seniors only. Prerequisite: SMPA 2111W.

**SMPA 3193. Selected Topics in Journalism and Mass Communication Skills. 3-4 Credits.**

Topics announced in Schedule of Classes. May be repeated for credit if the topic differs.

**SMPA 3194. Selected Topics in Political Communication. 3-4 Credits.**

Topic announced in the Schedule of Classes. May be repeated if the topic differs, but may only count once toward the political communication major.

**SMPA 3195. Selected Topics in Journalism and Mass Communication. 3-4 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs.

**SMPA 3195W. Selected Topics in Journalism and Mass Communication. 3-4 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**SMPA 3196. Independent Study. 1-3 Credits.**

Students pursue a program of directed reading, research, and writing under the direction of a faculty advisor. Restricted to seniors.

**SMPA 3197. Internship. 1-3 Credits.**

Students spend at least five hours per week per credit with an approved news organization, agency, or office under the general guidance of a faculty advisor. Guidelines are available in the SMPA office and online. May be taken P/NP only. Restricted to SMPA majors and minors in the junior and senior year. May be repeated for up to 6 credits.

**SMPA 3230. Reporting in the Digital Age. 3 Credits.**

Understanding the emerging tools and developing the technological skills needed to analyze data for news. Students learn to find reliable information through social media and other online tools, use spreadsheets as a reporting tool, and download data for analysis, to create graphics, and to report and write stories based on the analysis. Laboratory fee. Prerequisite: SMPA 2110W.

**SMPA 3232. Online Journalism Workshop. 4 Credits.**

Capstone production experience for SMPA majors. Provides advanced journalism and multimedia production skills needed to produce and report for a news website. Laboratory fee. Prerequisites: SMPA 2110W and SMPA 2112.

**SMPA 3233. Photojournalism. 3 Credits.**

Elements of effective news and feature photos, including study and evaluation of slides taken by students. Picture selection, cropping, captions. Student costs include film and developing. Laboratory fee.

**SMPA 3234. Editing and Design for Print and Web. 3 Credits.**

Editing, design, layout, and photo selection for newspapers, magazines, and web. Selecting and editing stories; writing headlines and photo captions; sizing and cropping graphic materials; laying out pages. Ethics of editing. Prerequisites: SMPA 2110W.

**SMPA 3235W. Broadcast News Writing. 3 Credits.**

Introduction to writing television news scripts based on actual events. Using workshop techniques, scripts are evaluated for content, structure, and use of words, pictures, and sound. Extensive writing and rewriting using streaming video from professional newscasts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

**SMPA 3236W. Broadcast News Reporting. 3 Credits.**

Advanced techniques in television news reporting and editing. Students produce, shoot, and edit news packages by teaming up to report in the field. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SMPA 2110W and SMPA 2112.

**SMPA 3239. Television News Practicum. 4 Credits.**

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcast. Laboratory fee. Prerequisites: SMPA 3235W and SMPA 3236W.

**SMPA 3240W. Washington Reporting. 3 Credits.**

Examination of reporting and writing techniques employed in news coverage of the national government, with an emphasis on serving a regional readership or audience. Using Washington as a laboratory, students focus on contemporary issues and news makers in the legislative and executive branches of government. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

**SMPA 3241W. Campaign Reporting. 3 Credits.**

Development of news gathering and writing skills needed for the coverage of political campaigns. Using in-class exercises and outside assignments, students acquire reporting and writing proficiency to illuminate how campaigns work and how politics affects the lives of citizens. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

**SMPA 3242. Investigative Reporting. 3 Credits.**

Hands-on intensive training in reporting and writing in-depth enterprise news stories that expose hidden problems or wrongdoing. Prerequisite: SMPA 2110W.

**SMPA 3243W. Feature Writing. 3 Credits.**

Learn to frame, research, and write a wide range of feature articles, including profiles, interviews and personal memoirs. Weekly writing assignments and a major final project are discussed and scrutinized in a workshop setting. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

**SMPA 3244W. Narrative Journalism. 3 Credits.**

The narrative or story-telling tradition in journalism. Students experiment with narrative techniques in a series of written exercises and a final project. Enrollment limited to 15 students with preference given to upper-class SMPA majors and graduate students. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110.

**SMPA 3245W. Editorial and Persuasive Writing. 3 Credits.**

Techniques of editorial and column writing; editorial page and public affairs programming; function of commentary in a free press. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110.

**SMPA 3246. Specialized Reporting. 3 Credits.**

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Prerequisite: SMPA 2110W.

**SMPA 3246W. Specialized Reporting. 3 Credits.**

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

**SMPA 3247. Documentary Production. 4 Credits.**

Advanced techniques in writing, researching, producing, and editing long-form documentaries. Prerequisites: SMPA 2112 and SMPA 3479; or permission of the instructor.

**SMPA 3333. Media Organizations and Audiences. 3 Credits.**

Organizations and economic relationships in the U.S. entertainment industry, particularly television and film; relationships within and between organizations, how media industries operate, and how media professionals carry out their work.

**SMPA 3350. Public Diplomacy. 3 Credits.**

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

**SMPA 3352. Principles of Public Relations. 3 Credits.**

Principles, problems, ethics, and law of public relations for government, private concerns, educational and other public institutions.

**SMPA 3353. Strategic Political Communication. 3 Credits.**

Origins of strategic approaches to political communication; techniques. Use of strategic communication by individuals, groups, organizations, and governments in both domestic politics and policymaking and in the international system.

Prerequisites: SMPA 2102 or permission of the instructor.

**SMPA 3354. Political Campaign Communication. 3 Credits.**

Communication aspects of political campaigns for candidates and ballot issues. Examination of techniques and channels of communication, role of communication in campaign strategy, ethics and implications of campaign decision making.

**SMPA 3355. Campaign Advertising. 3 Credits.**

Introduction to the theory and practice of campaign advertising. Emphasis on televised political campaign spots, but a range of campaign advertising media are included: radio, direct mail, and the Internet. Prerequisite: SMPA 2112.

**SMPA 3357W. Political Speech Writing. 3 Credits.**

Theory and practice of public speaking in the context of mediated political communication. Students analyze, write, and give speeches. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**SMPA 3358. Strategic Practicum. 3 Credits.**

Working in small groups, students research and develop full-scale plans for hypothetical, reality-based, strategic communication campaigns that test and apply theoretical advances in the field. Prerequisite: SMPA 3353.

**SMPA 3428. Media, Politics, and Government. 3 Credits.**

The impact of mainstream media and online outlets on politics and the governing process. Topics include the role of social media, online advertising, comedy shows, and the changing ways that voters receive information. Same as PSC 2228.

**SMPA 3450. Social Media. 3 Credits.**

Practical and theoretical implications of social media; what it means to be social and how social media has changed how individuals interact and do business; birth and history of social media and why certain forms of social media flourish while others fail.

**SMPA 3459. Language and Politics. 3 Credits.**

Connections between language and the political world. Theory and practice of language in politics and the impact on the creation and consumption of politics.

**SMPA 3460. Race, Media, and Politics. 3 Credits.**

Examination of the place of race in American society and politics, with attention to the role of media reporting in helping to shape understanding of race and racial matters, public opinion about race, and race and electoral politics.

**SMPA 3461. Campaigns and Elections. 3 Credits.**

The role of the news media in campaigns and elections. Offered in even-numbered years.

**SMPA 3463. Media Bias. 3 Credits.**

Exploration of empirical and theoretical understanding of media bias, its effects on power, and implications for democracy.

**SMPA 3467. Globalization and Media. 3 Credits.**

The media have played a central role in shaping the rapidly changing international scene—both its new global connectedness and its intensifying tribal impulses. At the same time, a new category of media has emerged which is truly global in scope, even while national and regional media have retained their own distinctive characteristics. The great challenges confronting media in a time of technological revolution and cultural tension are sometimes broadly shared across national frontiers and sometimes sharply differentiated. These themes are explored in this course which includes a short term abroad component in Paris over spring break. Students meet with journalists, executives, government officials and scholars who bring both an international and European perspective on major media issues.

**SMPA 3468. Communication and Global Social Change. 3 Credits.**

The study and practice of communication, development, and social change; theories and arguments informing debates and communication programs, merits and impact of various approaches, and design and implementation of communication programs.

**SMPA 3469. International Communication. 3 Credits.**

A survey of theoretical themes in international communication and their practical applications: information production and circulation, global media industries, and cultures.

**SMPA 3470. Comparative Media Systems. 3 Credits.**

In-depth study of the developmental, regulatory, political, economic, and cultural dimensions of selected foreign communication systems.

**SMPA 3471. Media in the Developing World. 3 Credits.**

Contemporary views of media roles in developing nations. The role of the press and electronic media in economic, social, and national development, including media as agents of modernization, development journalism, and post-colonial responses to Western "cultural imperialism." Media and Islam; role of the Internet; and theories of media and globalization.

**SMPA 3472. Media and Foreign Policy. 3 Credits.**

The emerging role of news media in international affairs and diplomacy. Globalization of news media advances in digital information and communication technologies and consequences for the international system and diplomacy.

**SMPA 3475. Media Management. 3 Credits.**

Decision making, strategic planning, and daily operations of all types of media organizations. Sales strategies, promotion, and research.

**SMPA 3476. Media, Technology, and Culture. 3 Credits.**

Concepts, principles, and socio-political implications of new and changing media and related technologies. Focus on intersection of new technologies and the anthropology of everyday life, in particular self-governance, policy development, cultural rupture and cohesion, the tension between national security and individual privacy rights, and First Amendment issues.

**SMPA 3477. Information Technology and Politics. 3 Credits.**

The effect of new information technologies on the media, public discourse, and political life; ways in which politics has shaped the development of technology.

**SMPA 3479. Documentary. 3 Credits.**

Origins, genres, and analysis of documentary film. Power, reach, and conceptual frameworks of documentary filmmaking.

**SMPA 3480. The Future of Journalism. 3 Credits.**

Reasons behind the decline of traditional newspaper and broadcast journalism; the impact of the web and other digital tools on traditional journalism values; new business models for news.

**SMPA 4180. Online Journalism Workshop. 4 Credits.**

Capstone experience for journalism majors. Advanced journalism and multimedia production skills needed to produce and report for a news website. Prerequisites: SMPA 2112 and SMPA 2113; and SMPA 2111W. (Same as SMPA 3232).

**SMPA 4181. Television News Workshop. 4 Credits.**

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcasts. Laboratory fee. Prerequisites: SMPA 2111 or SMPA 2111W; and SMPA 2112, SMPA 2113 and SMPA 3236W. (Same as SMPA 3239).

**SMPA 4182. Specialized Journalism Workshop. 4 Credits.**

Capstone experience for journalism majors. In-depth study of advanced journalism skills or specific topic areas. Laboratory fee. Prerequisites: SMPA 2111W; and SMPA 2112 and SMPA 2113.

**SMPA 4198. Special Honors Research Seminar. 3 Credits.**

. Restricted to senior special honors candidates in political communication. Prerequisites: SMPA 4199 and permission of the department.

**SMPA 4199. Senior Seminar. 3 Credits.**

Capstone course limited to SMPA majors.

**SMPA 6201. Strategic Communications Skills. 1.5 Credit.**

Specialized skills, such as crisis communication, political uses of social media, digital PR, web development and strategy, and speechwriting. Topics vary by semester. May be repeated for a maximum of 6 credits provided the topic differs. See department for more details.

**SMPA 6202. Media Effects, Public Opinion, and Persuasion. 3 Credits.**

Theories of media effects and persuasion. Institutional functions and individual effects of mediated communication. Impacts of different textual content and format on individual thinking and emotion; forces that shape content production.

**SMPA 6203. Information, Technology, and Political Communication. 3 Credits.**

Issues pertaining to the political uses of the Internet, social media, and other new media; the effect that new information technologies have on political life and the ways in which politics shape technology development.

**SMPA 6204. Strategic Political Communication. 3 Credits.**

Theory, techniques, and implications of strategic communication as employed by individuals, groups, organizations, and governments to advance their interests; applications to non-electoral politics and policymaking; use of political, psychological, sociological, and other processes; methodological considerations; domestic and international applications.

**SMPA 6205. Media, Development, and Globalization. 3 Credits.**

Theories of media and globalization. The changing role of communication media, including the Internet and other newer technologies as well as traditional books, film, newspapers, telephone, and satellite in establishing closer relationships and interdependencies among people, their cultures, and their organizations in various countries.

**SMPA 6206. Advocacy Communication and Political Networks. 3 Credits.**

Cross-disciplinary approaches to global changes in the nature of governance and collective action. The role of new technology, social movements, NGOs and transnational advocacy networks. Information campaigns and advocacy communication.

**SMPA 6207. Political Persuasion and Public Opinion. 3 Credits.**

Major theories and perspectives in public opinion and persuasion research. Information processing, psychological models applied to politics and media research (cognition, attitudes, resistance, heuristics), public opinion dynamics.

**SMPA 6208. Politics and Public Relations Fundamentals. 3 Credits.**

Basic knowledge of the skills to design, implement, and evaluate public relations activities. Case studies of public relations applied to politics. Techniques and tactics used by public relations professionals.

**SMPA 6210. Media and Foreign Policy. 3 Credits.**

The effects of U.S. media on U.S. and foreign governments, and of foreign media on the U.S.; effects of other countries' media on each other; the impact of the Internet, inexpensive global phoning, CNN, al Jazeera, and other newer technologies and networks on the stuff of international relations: diplomacy, military operations, trade negotiations.

**SMPA 6220. Strategic Practicum. 3 Credits.**

Design of strategy for an information and influence campaign. Research on issues and actors, identification of critical decision-making points and key constituencies, development of communication strategies more likely to achieve stated objectives of a campaign. Prerequisite: SMPA 6204. For students doing a strategic communication capstone project, this course replaces SMPA 6297.

**SMPA 6230. Principles and Methods of Documentary Filmmaking. 6 Credits.**

Analytical and practical exploration of the elements of documentary filmmaking. The genres of nonfiction filmmaking; fundamentals of film conceptualization, documentary screenwriting, story structure, and production theory; and basic practical elements of production. Permission of the instructor required prior to enrollment.

**SMPA 6231. Documentary Filmmaking Practicum. 3 Credits.**

Intensive practical experience in documentary film production. Students produce a 10 to 15-minute documentary film on a selected topic. Emphasis on major markers in film production: treatment and script writing, location shooting, Final Cut Pro editing, graphics, music, and final sound mix. Prerequisites: SMPA 6230 and permission of the instructor.

**SMPA 6241. Research Design. 3 Credits.**

Design, applications, and limitations of quantitative research as applied to the field of media and strategic communication. Framing of research questions, identification of variables and formulation of hypotheses, measurement, sampling, data gathering techniques, and preparation of research reports. Brief exposure to qualitative research.

**SMPA 6242. Analytics and Data Analysis for Strategic Communication. 3 Credits.**

Familiarity with major data analytic and analysis techniques used by strategic communication practitioners. Topics covered include basic statistical analysis, multivariate regression, experiments, focus groups, and survey research. Prerequisite: An undergraduate statistics course.

**SMPA 6250. Topics in Media Processes and Institutions. 3 Credits.**

Topics address such issues as the history of media content, institutions, and process; impact of changing communication technology on culture; history and development of mass-produced culture; and professional ideology and practice of journalism. May be repeated for credit provided the topic differs.

**SMPA 6270. Special Topics in Media and Public Affairs. 3 Credits.**

Topics vary by semester. Consult the Schedule of Classes for more details.

**SMPA 6272. Media Bias, Power, and Democracy. 3 Credits.**

Consideration of the available scholarly evidence in order to develop a more sophisticated empirical and theoretical understanding of what constitutes media bias. How do we recognize and measure bias? Are there patterns in decisions about news coverage that indicate bias? Which political parties and economic interests benefit from patterns of news coverage?.

**SMPA 6274. Media and War. 3 Credits.**

Historic and contemporary examination of the media's role in wartime. Topics include covering war, the role of the media in generating support for foreign intervention, propaganda, effects of war coverage on public opinion, media and genocide, and public diplomacy. Ethical, philosophical and political implications of the media's role.

**SMPA 6275. Public Diplomacy. 3 Credits.**

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

**SMPA 6295. Internship. 3 Credits.**

Students identify a suitable employer for an internship relevant to program themes and goals. Permission of the director of graduate studies required prior to enrollment.

**SMPA 6296. Directed Readings and Research. 3 Credits.**

Independent research with SMPA faculty member. Must be approved in advance by supervising professor and director of graduate studies.

**SMPA 6297. Capstone Project. 3 Credits.****SMPA 6298. Capstone Project. 3 Credits.****SMPA 6998. Thesis Research. 3 Credits.****SMPA 6999. Thesis Research. 3 Credits.**

## BACHELOR OF ARTS WITH A MAJOR IN JOURNALISM AND MASS COMMUNICATION

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits		
<b>Required courses (34 credits):</b>				
PSC 1002	Introduction to American Politics and Government		SMPA 3233	Photojournalism
or PSC 1002W	Introduction to American Politics and Government		SMPA 3234	Editing and Design for Print and Web
STAT 1053	Introduction to Statistics in Social Science		SMPA 3236W	Broadcast News Reporting
SMPA 2101	Journalism: Theory & Practice		SMPA 3240W	Washington Reporting
SMPA 2110W	Introduction to News Writing and Reporting (minimum grade of B required)		SMPA 3241W	Campaign Reporting
SMPA 2111W	Advanced News Reporting		SMPA 3243W	Feature Writing
SMPA 2112	Digital Media I: Introduction to Video Production		SMPA 3244W	Narrative Journalism
SMPA 2113	Digital Media II: Introduction to Web Production and Social Media		SMPA 3245W	Editorial and Persuasive Writing
SMPA 2151	Research Methods		SMPA 3246	Specialized Reporting
SMPA 2152	Data Analysis for Journalism and Political Communication		SMPA 3247	Documentary Production
SMPA 2173	Media Law		SMPA 3428	Media, Politics, and Government
SMPA 3150	Journalism Ethics		SMPA 3450	Social Media
<b>One required advanced writing/reporting course (3 credits) from the following:</b>			SMPA 3460	Race, Media, and Politics
SMPA 3230	Reporting in the Digital Age		SMPA 3463	Media Bias
SMPA 3235W	Broadcast News Writing		SMPA 3469	International Communication
SMPA 3242	Investigative Reporting		SMPA 3470	Comparative Media Systems
<b>Five additional courses (15-18 credits) from the advanced writing/reporting courses listed above or from the following:</b>			SMPA 3471	Media in the Developing World
SMPA 2120	Public Opinion		SMPA 3472	Media and Foreign Policy
SMPA 2177	Media History		SMPA 3475	Media Management
SMPA 3193	Selected Topics in Journalism and Mass Communication Skills		SMPA 3476	Media, Technology, and Culture
SMPA 3195	Selected Topics in Journalism and Mass Communication		SMPA 3477	Information Technology and Politics
SMPA 3196	Independent Study		SMPA 3479	Documentary
SMPA 3197	Internship (Only one, three-credit internship can count toward the major)		SMPA 3480	The Future of Journalism
			SMPA 4198	Special Honors Research Seminar
			<b>One capstone course (4 credits) from the following:</b>	
			SMPA 4180	Online Journalism Workshop
			SMPA 4181	Television News Workshop
			SMPA 4182	Specialized Journalism Workshop

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained a 3.7 GPA in all courses completed at GW and in all courses required for the major. Students intending to apply for Special Honors must

consult their advisor at the start of the senior year. Application must be made by the mid-point of the student's final semester (October 15 or March 15), and must include a letter of application and a portfolio of published or broadcast work. The journalism and mass communication faculty evaluates the work on the basis of professional standards as outlined by the department. Students interested in pursuing Special Honors through writing a research thesis should consult their advisor.

## BACHELOR OF ARTS WITH A MAJOR IN POLITICAL COMMUNICATION

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required courses (30 credits):</b>		
PSC 1001 or PSC 1003	Introduction to Comparative Politics Introduction to International Politics	
PSC 1002	Introduction to American Politics and Government	
STAT 1053	Introduction to Statistics in Social Science	
SMPA 2102	Introduction to Political Communication (which requires a minimum grade of C to remain in the major)	
SMPA 2110W	Introduction to News Writing and Reporting	
SMPA 2112	Digital Media I: Introduction to Video Production	
SMPA 2113	Digital Media II: Introduction to Web Production and Social Media	
SMPA 2151	Research Methods	
SMPA 2152	Data Analysis for Journalism and Political Communication	
SMPA 4199	Senior Seminar	
<b>Electives</b>		
Seven courses (21 credits) from the following:		
SMPA 2173	Media Law	

SMPA 3194 Selected Topics in Political Communication (May be repeated once for credit)

SMPA 3196 Independent Study

SMPA 3197 Internship (only one, 3-credit internship may be taken for credit toward the major)

SMPA 3245W Editorial and Persuasive Writing

SMPA 3240W Washington Reporting

SMPA 3241W Campaign Reporting

SMPA 3350 Public Diplomacy

SMPA 3352 Principles of Public Relations

SMPA 3353 Strategic Political Communication

SMPA 3354 Political Campaign Communication

SMPA 3355 Campaign Advertising

SMPA 3357 Political Speech Writing

SMPA 3358 Strategic Practicum

SMPA 3428 Media, Politics, and Government

SMPA 3450 Social Media

SMPA 3459 Language and Politics

SMPA 3460 Race, Media, and Politics

SMPA 3461 Campaigns and Elections

SMPA 3463 Media Bias

SMPA 3469 International Communication

SMPA 3470 Comparative Media Systems

SMPA 3471 Media in the Developing World

SMPA 3472 Media and Foreign Policy

SMPA 3476 Media, Technology, and Culture

SMPA 3477 Information Technology and Politics

SMPA 4198 Special Honors Research Seminar

Two political science (PSC) courses (6 credits) numbered 2000 or above

Students must achieve specified grades in some courses. Consult the School of Media and Public Affairs (<http://>)

sm pa.gwu.edu) for particular grade and course sequencing requirements.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students with a 3.7 GPA in all courses completed at GW and in all courses required for the major may declare for Special Honors in political communication at the beginning of the senior year. Students take SMPA 4199 Senior Seminar in the first semester of the senior year and SMPA 4198 Special Honors Research Seminar in the second semester. To achieve Special Honors, the student must maintain the required GPA and present a successful oral defense of a research paper prepared for the Honors Research Seminar before a committee that includes the seminar instructor and two other faculty members nominated by the student and approved by the seminar instructor.

## COMBINED BACHELOR OF ARTS AND MASTER OF ARTS AND BACHELOR OF ARTS AND MASTER OF PROFESSIONAL STUDIES

### REQUIREMENTS

The combined bachelor of arts and master of arts (BA/MA) and bachelor of arts and master of professional studies (BA/MPS) degree programs allow students to double-count a specified number of credits of graduate course work toward both the BA and the MA degrees. Interested students should consult their advisor.

#### Combined Bachelor of Arts in an SMPA major and Master of Arts in the field of media and strategic communication

Visit the program website (<http://sm pa.gwu.edu/combined-degree-programs>) for additional information.

#### Combined Bachelor of Arts in an SMPA major and Master of Professional Studies in the field of political management

Visit the program website (<http://sm pa.gwu.edu/combined-degree-programs>) for additional information.

## DUAL BACHELOR OF ARTS IN AN SMPA MAJOR AND MASTER OF ARTS OR MASTER OF PROFESSIONAL STUDIES DEGREE PROGRAMS

The School of Media and Public Affairs, in cooperation with the Graduate School of Political Management, offer two options for a dual bachelor's/master's degree:

- B (p. 283)achelor of Arts with an SMPA major (<https://sm pa.gwu.edu/journalism-and-mass-communication>) and Master of Arts in the field of media and strategic communication (p. 292)
- Bachelor of Arts with an SMPA majo (p. 283)r and Master of Professional Studies in the field of political management (p. 980)

The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year . Visit the program website (<https://sm pa.gwu.edu/combined-degree-program-admissions>) for additional information.

## MINOR IN JOURNALISM AND MASS COMMUNICATION

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
SMPA 1050	Media in a Free Society	
SMPA 2110W	Introduction to News Writing and Reporting	
9 credits from the following:		
SMPA 2111W	Advanced News Reporting	
SMPA 3230	Reporting in the Digital Age	
SMPA 3232	Online Journalism Workshop	
SMPA 3233	Photojournalism	

SMPA 3234	Editing and Design for Print and Web
SMPA 3235	Broadcast News Writing
SMPA 3235W	Broadcast News Writing
SMPA 3236W	Broadcast News Reporting
SMPA 3237W	Broadcast News Studio Production
SMPA 3238	Television Magazine
SMPA 3239	Television News Practicum
SMPA 3240W	Washington Reporting
SMPA 3241W	Campaign Reporting
SMPA 3242	Investigative Reporting
SMPA 3243W	Feature Writing
SMPA 3244W	Narrative Journalism
SMPA 3245W	Editorial and Persuasive Writing
SMPA 3246	Specialized Reporting
SMPA 3246W	Specialized Reporting
SMPA 3247	Documentary Production
SMPA 3193	Selected Topics in Journalism and Mass Communication Skills
SMPA 3197	Internship (Students are limited to 3 credits of SMPA 3197 toward the minor)
3 credits from the following:	
SMPA 2173	Media Law
SMPA 2177	Media History
SMPA 3428	Media, Politics, and Government
SMPA 3450	Social Media
SMPA 3469	International Communication
SMPA 3470	Comparative Media Systems
SMPA 3471	Media in the Developing World
SMPA 3472	Media and Foreign Policy
SMPA 3474	Electronic Media Policy
SMPA 3475	Media Management
SMPA 3476	Media, Technology, and Culture
SMPA 3479	Documentary

SMPA 3480	The Future of Journalism
SMPA 3195	Selected Topics in Journalism and Mass Communication

## MASTER OF ARTS IN THE FIELD OF MEDIA AND STRATEGIC COMMUNICATION

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including, 18 credits in required courses, 12 credits in elective courses, and 6 credits in capstone courses.

Code	Title	Credits
<b>Required <sup>1</sup></b>		
SMPA 6202	Media Effects, Public Opinion, and Persuasion	
SMPA 6204	Strategic Political Communication	
SMPA 6208	Politics and Public Relations Fundamentals	
SMPA 6241	Research Design	
SMPA 6242	Analytics and Data Analysis for Strategic Communication	
SMPA 6201	Strategic Communications Skills (taken twice for a total of three credits) <sup>2</sup>	
<b>Electives <sup>3</sup></b>		
12 credits of elective courses selected with the approval of the advisor.		
<b>Capstone <sup>4</sup></b>		
6 credits in one of three options selected with the approval of the advisor.		
Research thesis		
SMPA 6998 & SMPA 6999	Thesis Research and Thesis Research	
Media project		
SMPA 6297 & SMPA 6298	Capstone Project and Capstone Project	
Strategic communication project		

<sup>1</sup>On the basis of academic or professional preparation, students may petition to waive any required course with substitution of another approved course.

<sup>2</sup>Taken on different topics.

<sup>3</sup>Students may take an additional 3 credits of SMPA 6201 Strategic Communications Skills as electives. Students who select the strategic communication capstone option may not count SMPA 6220 Strategic Practicum as an elective.

With permission of the advisor, a limited number of upper-division undergraduate courses may be taken for graduate credit; additional coursework is required.

<sup>4</sup>Students should consult with their advisor regarding the capstone in the second semester of the program.

Visit the program website (<https://smpa.gwu.edu/media-strategic-communication>) for additional information.

## MUSEUM STUDIES

The Corcoran School of the Arts and Design in the Columbian College of Arts and Sciences offers an interdepartmental program leading to the degree of master of arts in the field of museum studies. Courses in museum studies are supplemented by additional courses offered by departments such as American Studies, Anthropology, History, Educational Leadership, Fine Arts and Art History, Interior Architecture and Design, and Theatre and Dance.

The program is designed for those who seek a deepening of their primary academic interest along with training in the broad range of talents required in the successful operation of museums. The goal of the program is to produce graduates who are prepared to assume museum positions that require both scholarship and functional skills.

In addition to the master's degree, the program offers graduate certificates (<http://bulletin.gwu.edu/arts-sciences/museum-studies/#certificatetext>) in museum studies and museum collections management.

Students whose career interests are primarily in museum education should refer to the master of arts in teaching in the field of museum education (p. 526) program in the Graduate School of Education and Human Development.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the Museum Studies program website (<https://corcoran.gwu.edu/museum-studies>) for additional information.

## GRADUATE

### Master's program

- Master of Arts in the field of museum studies (p. 295)

## CERTIFICATE

### Certificate programs

- Graduate certificate in museum studies
- Graduate certificate in museum collections management and care (p. 295)

## FACULTY

**Committee on Museum Studies** S. Anderson, M. Coughlin, K.S. Rice, L. Schiavo, M. van Balgooy, J. Wetenhall

**Assistant Professors** S. Anderson, M. Coughlin, K.S. Rice, L.B. Schiavo, M. van Balgooy

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **MSTD 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **MSTD 6101. Museum Management. 3 Credits.**

Overall operation of the museum: legal status of the museum and its obligations to the public; governance, staffing, policymaking as a nonprofit organization. Theory applied to practical situations.

#### **MSTD 6102. Nonprofit Fiscal Management. 3 Credits.**

Basic concepts of general accounting; fund accounting for nonprofit organizations; budgets and budget systems; use of the budget as a management tool; long-range planning; income sources; other financial management concepts.

#### **MSTD 6103. Leading Change. 3 Credits.**

Leadership challenges and styles as they relate to organizational change efforts. Case studies of museums undergoing change; best practices in leadership at all levels of the museum.

**MSTD 6104. Managing People and Projects. 3 Credits.**

Organizational development and modern management concepts as applied to museums. Managing people in the organization; the importance of project management systems to museum administration.

**MSTD 6105. Museum Fundraising. 3 Credits.**

Introductory topics in museum fundraising, including sources of funds, best practices and approaches, annual funds and capital campaigns, and the internal management of the fundraising effort. Restricted to graduate students.

**MSTD 6201. Introduction to Museum Collections. 3 Credits.**

Establishing collection management policies. Laws, regulations, conventions, and codes that affect acquisitions; deaccessions, loans, and collection care; accountability; and access problems.

**MSTD 6202. Museum Collections Management. 3 Credits.**

The implementation of collections policies: establishing and managing collections, management procedures and systems, documentation of collections, records preservation, collections access and storage, handling, packing and shipping, and inventory control.

**MSTD 6203. Preventive Conservation Concepts. 3 Credits.**

Historical development of preventive conservation in museums, conservation ethics, team approaches to conservation, interactions of various materials with agents of deterioration. Basics of materials testing, preparation of condition reports, choosing museum storage and exhibition materials, and risk assessment. Same as ANTH 6203 and AH 6286.

**MSTD 6204. Preventive Conservation Techniques. 3 Credits.**

Practical applications of preventive conservation of materials, monitoring environmental conditions, conducting risk assessments, evaluation of exhibit and storage areas; developing plans, policies, and procedures for collections care; grant proposal preparation for collections care initiatives. Same as ANTH 6204 and AH 6287.

**MSTD 6205. Archival Practice. 3 Credits.**

An introduction for museum professionals to the core ideas and practices of archivists and archival institutions. Restricted to graduate students.

**MSTD 6301. Museum Exhibitions: Curatorial Research. 3 Credits.**

Museum research from a curatorial point of view, with emphasis on exhibit theory and practice. Research techniques, information sources, and script production.

**MSTD 6302. Museum Exhibition Design. 3 Credits.**

The processes of research, conceptualization, planning, and evaluation from a designer's point of view. Focus is on individual projects with some group collaboration. The designer's vocabulary, visual thinking, design documentation, and specifications.

**MSTD 6303. Advanced Exhibition Design. 3 Credits.**

The processes of research, conceptualization, planning, and evaluation from a designer's point of view. Focus is on individual projects with some group collaboration. The designer's vocabulary, visual thinking, design documentation, and specifications.

**MSTD 6304. Museum Exhibition Development. 3 Credits.**

Research techniques; information sources; script production from a content perspective.

**MSTD 6305. Visitor Perspectives: Museum Evaluation in Exhibitions. 3 Credits.**

Theory and practice of museum evaluation, especially as related to exhibition development. (Same as EDUC 6706).

**MSTD 6306. Race, Gender, Sexuality, and the Museum. 3 Credits.**

Exploration of the role that museums play in the construction, reification, and representation of ideas about race and gender. Restricted to graduate students.

**MSTD 6403. Museums and Digital Technology. 3 Credits.**

The history and impact of digital technology in modern museum practice; variety of uses and functions of digital technology in modern museums; effects of culture on technology adoption; basic digital strategy and user experience skills. Restricted to graduate students.

**MSTD 6501. Museum Internship. 1-3 Credits.**

Individual work experience in museums of the Washington area and possibly elsewhere. Each student should make arrangements with the Museum Studies Program staff. Museum internships are supervised by one or more members of the cooperating museum staff in the areas of museum management, object care and conservation, and exhibiting.

**MSTD 6502. Directed Research. 3 Credits.**

Individual research on special topics in the museum field. Topics must be approved by the director of the Museum Studies Program. May be repeated for credit.

**MSTD 6601. Special Topics. 3 Credits.**

May be repeated for credit provided the topic differs.

**MSTD 6701. Museum History and Theory. 3 Credits.**  
More often than not, museum practitioners and theorists speak at cross purposes. This course will take steps to bridge that gap. We will first explore the origins of the modern museum and the history of (mainly) American museums. Then, using U.S. and non-U.S. examples, we will engage with theorists whose ideas have been accessed to inform our understanding of museums as places of meaning making, power and empowerment, cultural authority, and as “contact zones” (James Clifford, 1997). As the theory informs our understanding of how museums have functioned – both in the past and in more contemporary examples – we will be better prepared to engage critically with our own work as museum practitioners. Historian Steven Conn has categorized museums “as places uniquely situated at the intersection of objects, ideas, and public space.” (Do Museums Still Need Objects? 2010) The exploration of theoretical approaches to museums in this course borrows this useful classification – exploring ideas (nation, race), issues of publicity, and the status of the object.

**MSTD 6702. Museums and the Public: Exhibiting Culture. 3 Credits.**  
An introduction to the wide range of problems, possibilities, and choices that are part of the cultural landscape of how museums interact with their audiences through public programs. (Same as ANTH 6202).

## MASTER OF ARTS IN THE FIELD OF MUSEUM STUDIES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: 42 credits, as outlined below, fulfillment of a graduate writing requirement, and successful completion of a master’s comprehensive examination.

Code	Title	Credits
<b>Required</b>		
MSTD 6101 and MSTD 6201 for students focusing their studies on collections management or museum management.		
MSTD 6101 or MSTD 6201 for students focusing their studies on exhibitions and visitor engagement.		
<b>Elective curriculum requirements</b>		
12 to 18 credits in a content area discipline such as American studies, anthropology, biological science, history, art history, or an appropriate interdisciplinary combination.		

18 to 27 credits in Museum Studies (MSTD) courses that concern such functions as museum administration, collections management, curatorial practice, and interpretation.

**Other requirements**

3-6 credits in museum internships.

Fulfillment of a graduate writing requirement.

Successful completion of a master's comprehensive examination.

## GRADUATE CERTIFICATE IN MUSEUM COLLECTIONS MANAGEMENT AND CARE

The graduate certificate in museum collections management and care is offered online to qualified domestic applicants who have museum experience and staff-level access to a museum and its collection. It includes 12 credits of coursework in collections management and preventive conservation.

Visit the Museum Studies Program (<http://museumstudies.columbian.gwu.edu>) website for additional information.

### REQUIREMENTS

The graduate certificate in museum collections management and care is offered online to qualified domestic applicants who have museum experience and staff-level access to a museum and its collection.

The following requirements must be fulfilled: 12 credits in required courses.

Code	Title	Credits
<b>Required</b>		
MSTD 6201	Introduction to Museum Collections	
MSTD 6202	Museum Collections Management	
MSTD 6203	Preventive Conservation Concepts	
MSTD 6204	Preventive Conservation Techniques	

## GRADUATE CERTIFICATE IN MUSEUM STUDIES

The graduate certificate in museum studies is intended primarily for international museum professionals who wish to study museum administration, collections management, or exhibition development in the United States. The certificate program also is available to U.S. students who hold at least a master’s degree in an appropriate subject.

Visit the program website (<https://corcoran.gwu.edu/graduate-certificate-museum-studies>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in elective courses and two 3-credit internships.

Code	Title	Credits
<b>Required</b>		
12 credits from the following		
MSTD 6101	Museum Management	
MSTD 6102	Nonprofit Fiscal Management	
MSTD 6103	Leading Change	
MSTD 6104	Managing People and Projects	
MSTD 6201	Introduction to Museum Collections	
MSTD 6202	Museum Collections Management	
MSTD 6203	Preventive Conservation Concepts	
MSTD 6204	Preventive Conservation Techniques	
MSTD 6301	Museum Exhibitions: Curatorial Research	
MSTD 6302	Museum Exhibition Design	
MSTD 6304	Museum Exhibition Development	
MSTD 6305	Visitor Perspectives: Museum Evaluation in Exhibitions	
MSTD 6701	Museum History and Theory	
MSTD 6710	Museums and Technology	
Internship requirement:		
MSTD 6501	Museum Internship (taken for 6 credits)	

## MUSIC

The music program of the Corcoran School of Arts & Design within the Columbian College of Arts and Sciences offers a broad base for understanding music as an art form and as a social, economic, and political practice. All students, regardless of their major, may perform in vocal, instrumental jazz, and chamber music groups; in choruses, orchestras, and bands; and in opera and musical theater productions.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in music (p. 300)

### Minors

- Minor in music (p. 301)
- Minor in jazz studies (p. 301)

## FACULTY

**Associate Professors** K. Ahlquist, D. Boyce,

**Assistant Professors** R. Baker (*Chair*), E. Montague

**Adjunct Professors** C. Lornell, M. Scarlett (*Voice*)

**Adjunct Instructor** A.B. Clark (*Choral*), A.S. Wood (*Orchestra*)

**Professorial Lecturers** J. Albertson (*Guitar*), L. Barnett (*Cello*), R. Birch (*Trumpet*), M. Duhagon (Classical Guitar), M. Findley (*Violin*), P. Fraize (*Jazz Performance/Saxophone*), J.D. Levy (*Jazz*), P. O'Donnell (Piano), M. Orlando (Piano), J. Ozment (Jazz Piano), M. Peris (*Piano*)

**Lecturers** J. Connell (Percussion), G. Corella (*Tuba*), A. Crockett (*Voice*), E. Dirksen (Bassoon), S.M. Fearing (*French Horn*), L. Ferguson (*Clarinet*), E. Field (*Violin*), E. Guenther (*Pipe Organ*), D. Jones (*Clarinet*), C. Libelo (*Oboe*), A. Lucini (*Latin Percussion*), A. Reiff (*Voice*), BR. Seidman (*Harp*), S. Stang (*Flute*), U. Wassertzug (*Viola*), S. Wellman (*Voice*), T. Wilson (*Jazz Trumpet*)

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

### Performance Study

Performance study courses are offered both fall and spring, and may be repeated for credit. Music majors and minors, Presidential Arts Scholarship (<http://departments.columbian.gwu.edu/music/scholarships>) students, and other students with skills or potential appropriate to the department's select ensembles are eligible for private lessons. Eligibility and placement for students new to private performance study are determined at a placement fair held at the beginning of each semester. For courses numbered in

the 1500s, students may not register in the same semester for both the 1- and 2-credit course in the same instrument or in voice. Some performance study courses include individual lessons and require a supplementary fee. Supplementary fees for private performance courses are nonrefundable after the first two weeks of the fall and spring semesters; consult the Music Department (<http://departments.columbian.gwu.edu/music>) for details. The supplementary fee is waived during the fall and spring semesters for full-time music majors and minors and for music Presidential Scholars in the Arts (<http://departments.columbian.gwu.edu/music/scholarships>).

Required practice: a minimum of three hours a week for 1-credit courses and six hours a week for 2-credit courses.

**MUS 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

**MUS 1061. Instrumental Ensemble. 1 Credit.**

Chamber ensemble groups are approved by audition. Section numbers are .11 guitar ensemble, .12 percussion ensemble, .13 jazz combo, .14 keyboard ensemble, .15 string ensemble, .16 woodwind ensemble, .17 brass ensemble, .18 Baroque ensemble, .19 Latin band, .20 blues band.

**MUS 1071. Jazz Band. 1 Credit.**

Preparation and performance of classic and contemporary "big band" literature. Prerequisite: audition before director.

**MUS 1081. Orchestra. 0-1 Credits.**

Preparation and performance of orchestral literature. Prerequisite: audition before director.

**MUS 1083. University Band. 0-1 Credits.**

Consisting of two ensembles: The University Symphonic Band and GW Colonial Brass. See schedule of classes for section information. Audition before director required.

**MUS 1091. University Singers. 0-1 Credits.**

Preparation and performance of choral literature. Prerequisite: audition before director. Section .10 is University Singers; Section .11 is Chamber Choir.

**MUS 1093. University Singers/Chamber Choir. 1 Credit.**

Preparation and performance of choral literature. Section .10 is University Singers; Section .11 is Chamber Choir. Prerequisites: audition before director.

**MUS 1095. Vocal Theater Workshop. 1 Credit.**

Development of body awareness for the stage, acting improvisations, and character development. Scenes chosen from the opera, operetta, and musical theater repertoire. Musical coaching, use of makeup, and audition preparation.

**MUS 1101. Elements of Music Theory. 3 Credits.**

Elements necessary for the study of music, including practical musicianship and musical notations; develops skills in music reading, writing, and aural acuity. Concurrent registration in a music reading lab is required.

**MUS 1102. Comprehensive Musicianship I. 3 Credits.**

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard. Prerequisite: MUS 1101.

**MUS 1103. Music in the Western World. 3 Credits.**

Introductory history of musical styles, related to listening; study of music materials and media. Not open to music majors.

**MUS 1104. Topics in Music. 3 Credits.**

A rotating set of classes; topics may include: American music, a composer, the opera, and musical life in Washington, DC.

**MUS 1105. Introduction to Musical Thought and Practice. 3 Credits.**

Introduction to concepts, methods, and practices that guide the study and performance of music. Old and new paradigms of musical thought are subject to discussion and critical investigation.

**MUS 1106. Introduction to Musical Performance and Experience. 3 Credits.**

Through discussion, writing, and performance, students engage with issues such as the putative transcendent character of music, the false divisions between interpretation, improvisation, and composition, and the impact of modernity on expressive culture. Placing their own processes of musical decision making within these conceptual frames allows students to interrogate and develop their performative and social selves. Restricted to Register for this course in the Music department.

**MUS 1107. Music of the World. 3 Credits.**

Introduction to music in culture through comparative study of music from a variety of cultures worldwide.

**MUS 1108. History of Jazz. 3 Credits.**

Introduction to the styles, composers, and performers of jazz music from its origins to the present.

**MUS 1151. Conducting. 3 Credits.**

Technique of conducting, score reading, rehearsal procedures, analysis, and interpretation of selected musical literature; practice in conducting. Prerequisite: MUS 2101.

**MUS 1511. Piano. 1 Credit.**  
**MUS 1512. Piano. 2 Credits.**  
**MUS 1513. Voice. 1 Credit.**  
**MUS 1514. Voice. 2 Credits.**  
**MUS 1515. Organ. 1 Credit.**  
**MUS 1516. Organ. 2 Credits.**  
**MUS 1517. Classical Guitar. 1 Credit.**  
**MUS 1518. Classical Guitar. 2 Credits.**  
**MUS 1519. Violin. 1 Credit.**  
**MUS 1520. Violin. 2 Credits.**  
**MUS 1521. Viola. 1 Credit.**  
**MUS 1522. Viola. 2 Credits.**  
**MUS 1523. Cello. 1 Credit.**  
**MUS 1524. Cello. 2 Credits.**  
**MUS 1525. Bass. 1 Credit.**  
**MUS 1526. Bass. 2 Credits.**  
**MUS 1527. Flute. 1 Credit.**  
**MUS 1528. Flute. 2 Credits.**  
**MUS 1529. Recorder. 1 Credit.**  
**MUS 1530. Recorder. 2 Credits.**  
**MUS 1531. Oboe. 1 Credit.**  
**MUS 1532. Oboe. 2 Credits.**  
**MUS 1533. Clarinet. 1 Credit.**  
**MUS 1534. Clarinet. 2 Credits.**  
**MUS 1535. Saxophone. 1 Credit.**  
**MUS 1536. Saxophone. 2 Credits.**  
**MUS 1537. Bassoon. 1 Credit.**  
**MUS 1538. Bassoon. 2 Credits.**  
**MUS 1539. French Horn. 1 Credit.**  
**MUS 1540. French Horn. 2 Credits.**  
**MUS 1541. Trumpet. 1 Credit.**  
**MUS 1542. Trumpet. 2 Credits.**  
**MUS 1543. Trombone. 1 Credit.**  
**MUS 1544. Trombone. 2 Credits.**  
**MUS 1545. Tuba. 1 Credit.**  
**MUS 1546. Tuba. 2 Credits.**  
**MUS 1547. Harp. 1 Credit.**  
**MUS 1548. Harp. 2 Credits.**  
**MUS 1549. Percussion. 1 Credit.**  
**MUS 1550. Percussion. 2 Credits.**  
**MUS 1555. Lute. 1 Credit.**  
**MUS 1556. Lute. 2 Credits.**  
**MUS 1557. Harpsichord. 1 Credit.**

**MUS 1572. Jazz Performance Techniques. 2 Credits.**

**MUS 2012. Piano. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2014. Voice. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2016. Organ. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2018. Classical Guitar. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2020. Violin. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2022. Viola. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2024. Cello. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2026. Bass. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2028. Flute. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2030. Recorder. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2032. Oboe. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2034. Clarinet. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2036. Saxophone. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2038. Bassoon. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2040. French Horn. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2042. Trumpet. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2044. Trombone. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2046. Tuba. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2048. Harp. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2050. Percussion. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2058. Harpsichord. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2071. Jazz Performance Techniques. 1-3 Credits.**

**MUS 2072. Jazz Performance Techniques. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2101. Harmony. 3 Credits.**

Study of tonal harmonic practice from Baroque, Classical, Romantic, and twentieth-century repertoires. Concurrent registration in the weekly keyboard lab is required.

Prerequisite: MUS 1102.

**MUS 2102. Comprehensive Musicianship II. 3 Credits.**

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard.

Prerequisite: MUS 2101.

**MUS 2105. Introduction to Ethnomusicology. 3 Credits.**

Models of understanding music as a cultural endeavor.

Application and critique of models in the design and execution of student independent field research. Prerequisites: MUS 1101 or ANTH 1002 or ANTH 1004; or permission of the instructor.

**MUS 2105W. Introduction to Ethnomusicology. 3 Credits.**

Models of understanding music as a cultural endeavor.

Application and critique of models in the design and execution of student independent field research. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: MUS 1101 or ANTH 1002 or ANTH 1004; or permission of the instructor.

**MUS 2106. Music History III: Twentieth-Century Art Traditions. 3 Credits.**

Western musical traditions and styles since Romanticism and approaches to music as art in contemporary society.

Prerequisite: MUS 1101.

**MUS 2122. Music in the U.S.. 3 Credits.**

History of music and musical life in the United States, emphasizing relationships among traditions of diverse origin.

Prerequisites: MUS 1101 or permission of the instructor.

**MUS 2122W. Music in the U.S.. 3 Credits.**

History of music and musical life in the United States, emphasizing relationships among traditions of diverse origin.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: MUS 1101 or permission of the instructor.

**MUS 2123. Musical Cultures of Black Americans. 3 Credits.**

Musical genres and styles developed by African Americans since Reconstruction in their historical and cultural contexts. Emphasis on black musical contributions to the cultural life of Washington, DC.

**MUS 2134. Composition. 3 Credits.**

Introduction to twenty-first-century compositional practice; concepts of post-tonal analysis; emphasis on style studies and original student works. May be repeated for credit.

Prerequisite: MUS 2101.

**MUS 2140. Pedagogy. 3 Credits.**

Principles, materials, and methods of teaching in selected areas. Permission of the instructor required prior to enrollment.

**MUS 2173. Comprehensive Musicianship for Jazz. 2 Credits.**

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard, with emphasis given to skills associated with jazz performance.

Prerequisite: MUS 1102.

**MUS 2174. Introduction to Jazz Harmony. 3 Credits.**

Analysis and composition of tunes in jazz/pop styles. Study of rhythmic characteristics, voice-leading, and chord/scale relationships within a jazz context. Prerequisite: MUS 1102.

**MUS 2318. Orchestral Instrument. 2 Credits.**

Prerequisite: Open by examination.

**MUS 2661. Electronic and Computer Music I. 3 Credits.**

Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee.

**MUS 2662. Electronic and Computer Music II. 3 Credits.**

Continuation of MUS 2661. Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee. Prerequisite: MUS 2661.

**MUS 3126. Music History I: Antiquity through Early Baroque. 3 Credits.**

The development of Western European music from its earliest traceable roots to the end of the early, experimental Baroque period. Prerequisite: MUS 1102 and sophomore standing.

**MUS 3127. Music History II: The Tonal Era. 3 Credits.**

Styles, structures, social foundations and aesthetic change in European music of the late 17th through the late 19th centuries. Prerequisite: MUS 1102.

**MUS 3127W. Music History II: Tonal Era. 3 Credits.**

Styles, structures, social foundations and aesthetic change in European music of the late seventeenth through the late nineteenth centuries. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MUS 1102.

**MUS 3139. Form and Analysis. 3 Credits.**

Analysis of musical forms in representative musical literature. Prerequisite: MUS 2101.

**MUS 3139W. Form and Analysis. 3 Credits.**

Analysis of musical forms in representative musical literature. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MUS 2101.

**MUS 3174. Topics in Music Theory and Composition. 3 Credits.**

A seminar on variable topics in the discipline of music theory, analysis, and composition. Topics may include analysis of post-tonal music, advanced jazz arranging, analysis of fourteenth-century vocal music, developments in extended instrumental techniques since 1950. Prerequisites depend on the topic; consult the department.

**MUS 3175. Topics in Music History and Literature. 3 Credits.**

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, DC. Prerequisites depend on the topic; consult the department.

**MUS 3175W. Topics in Music History and Literature. 3 Credits.**

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, DC. Prerequisites depend on the topic; consult the department. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**MUS 4085. Senior Capstone Project. 2-4 Credits.**

Research, composition, or performance project. Students must consult with a faculty mentor and present a written proposal prior to enrollment and meet regularly with their mentor throughout the semester. Restricted to senior music majors. Recommended background: prior completion of MUS 4198.

**MUS 4184. Advanced Composition. 3 Credits.**

Private instruction in composition in tutorial format. Prerequisite: MUS 2134.

**MUS 4198. Senior Seminar. 3 Credits.**

Methodologies of musical research, including studies in performance, composition, history, bibliography, and cultural theory. Recommended for students completing senior capstone projects. Restricted to music majors.

**MUS 4199. Independent Research. 1-4 Credits.**

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite.

**MUS 4199W. Independent Research. 1-4 Credits.**

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

# BACHELOR OF ARTS WITH A MAJOR IN MUSIC

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required courses in the major		
MUS 1102	Comprehensive Musicianship I	
MUS 2101	Harmony	
MUS 2106	Music History III: Twentieth-Century Art Traditions	
One of the following		
MUS 3126	Music History I: Antiquity through Early Baroque	
MUS 3127	Music History II: The Tonal Era	
Electives		
15 credits in courses in the following groupings: MUS 1100-1199, MUS 2100-2199, MUS 3100-3199, and MUS 4100-4199. These are to include (1) a maximum of 6 credits in courses in the MUS 1100-1199 grouping, and (2) a minimum of 3 credits in the 3100-3199 or 4100-4199 groupings.		
4 credits in courses selected from the following groupings: MUS 1000-1099 (ensembles), MUS 1500-1599, MUS 2000-2099, and MUS 2500-2599 (private study).		
6 credits in unrestricted electives selected from courses offered by the Music Department.		
Senior Experience		
MUS 4198	Senior Seminar	
MUS 4085	Senior Capstone Project	

All majors are expected to attend departmental lectures, master classes, and concerts, as appropriate.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in music, a student must maintain a 3.5 grade-point average in music courses and at least a 3.0 average overall. The student must complete the required senior

independent project for at least 3 credits with a minimum grade of A-.

## MINOR IN JAZZ STUDIES

### REQUIREMENTS

The following requirements must be fulfilled: 23 credits, including 17 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
MUS 1101	Elements of Music Theory	
MUS 1102	Comprehensive Musicianship I	
MUS 1108	History of Jazz	
MUS 2173	Comprehensive Musicianship for Jazz	
MUS 1051	Class Piano for Music Majors and Minors	
MUS 2174	Introduction to Jazz Harmony	
MUS 2661	Electronic and Computer Music I	
4 credits of jazz performance techniques from the following:		
MUS 1571	Jazz Performance Techniques	
MUS 1572	Jazz Performance Techniques	
MUS 2072	Jazz Performance Techniques	
2 credits of ensemble participation:		
MUS 1061	Instrumental Ensemble	
or MUS 1071	Jazz Band	

All minors are expected to attend departmental lectures, master classes, and concerts, as appropriate.

## MINOR IN MUSIC

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including one 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
MUS 1102	Comprehensive Musicianship I	
<b>Electives</b>		

Two courses (5–6 credits) from among the MUS 1100, MUS 2100, and MUS 3100 groupings; only one course in the 1100 grouping may be counted toward this requirement.

Additional electives selected from among all Music (MUS) courses, including academic, performance study, and ensemble courses.

All minors are expected to attend departmental lectures, master classes, and concerts, as appropriate.

## ORGANIZATIONAL SCIENCES AND COMMUNICATION

The Department of Organizational Sciences and Communication provides a multidisciplinary home for faculty and undergraduate, master's, and doctoral students interested in the study, interpretation, and improvement of organizational and communication phenomena. The department seeks to increase understanding of communication and organizations at the individual, interpersonal, group, organizational, societal, and global levels, by incorporating a variety of epistemological and methodological approaches. The department comprises three programs:

### Communication

The Communication program explores how people constitute and share meaning in an abstract world. Current curricular offerings probe communication events as media-bound occurrences, studying the verbal and nonverbal, oral or written, live or mass media nature of communication phenomena. A major in communication, two minors (communication and organizational communication), and a master's degree in communication management are offered.

### Organizational Sciences

Centered within a social systems framework, Organizational Sciences offers undergraduate and graduate programs that focus on the for-profit, nonprofit, government, military, service, and other sectors. The premise of the program's offerings is that success comes with a deep understanding of the theory and practice underlying individual and organizational effectiveness. Major, minor, and master's degree in organizational sciences are offered.

### I/O Psychology (industrial and organizational psychology)

I/O Psychology offers a doctoral program in areas such as personnel selection, training and development, work motivation, leadership, and work teams. The program of study is designed in accordance with guidelines established by the Society for Industrial and Organizational Psychology.

In addition, the Department of Organizational Sciences and Communication, through the Columbian College of Arts and Sciences, offers an interdisciplinary program leading to the degree of master of arts in leadership education and

development (LEAD) to a cohort of designated officers from the U.S. Naval Academy (USNA). The Department awards the degree in partnership with the Division of Leadership at USNA.

Visit the Department of Organizational Sciences and Communication website (<https://orgsciandcomm.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in communication (p. 302)
- Bachelor of Arts with a major in organizational sciences (p. 303)

### Minors

- Minor in communication (p. 305)
- Minor in organizational communication (p. 306)
- Minor in organizational sciences (p. 306)

## GRADUATE

### Master's programs

- Master of Arts in the field of communication management (<http://bulletin.gwu.edu/arts-sciences/organizational-sciences-communication/ma-communication-management>)
- Master of Arts in the field of leadership education and development (p. 306)
- Master of Arts in the field of organizational sciences (p. 307)

### Doctoral program

- Doctor of Philosophy in the field of industrial/organizational psychology (<http://bulletin.gwu.edu/arts-sciences/organizational-sciences-communication/phd-io-psychology>)

## FACULTY

**Professors** L. Offermann (*Chair*), C. Warren

**Associate Professors** T. Behrend, D.P. Costanza, G. Debebe, M. Liu

**Assistant Professors** J.C. Miller, J. Mote, N. Olsen, K. Pariera

**Adjunct Professor** M. Brindle, K. Ball, L. Lu, J. Procopio, C. Wood

**Professorial Lecturers** Q. Ahmed, M.A. DiMola, D. Getter, T. Hayes, E. Hoffman, L. Karimova, J. MacDoniels, R. Tovaes, E. van Iersel

**Lecturers** S. Bergman, N. Chaaban, D. Coultice-Christian, D. Jackson, C. Kennedy, M. Lally, F. Latif, B. McConnell, J. McDonald, G. Nair, B. Piatt, P. Scott, S. Tomasovic, A. Weiner

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Within the Department of Organizational Sciences and Communication, any course counted toward the major may not also be counted toward the minor. Students taking more than one minor in the department may not double-count electives.

- Communication (COMM) (p. 1185)
- Organizational Sciences (ORSC) (p. 1451)

## BACHELOR OF ARTS WITH A MAJOR IN COMMUNICATION

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required (21 credits)</b>		
COMM 1025	Introduction to Communication Studies	
COMM 1040	Public Communication	
COMM 1041	Interpersonal Communication	
COMM 2100	Communication Theory	
COMM 3110	Research Methods-Communication	
COMM 4150	Persuasion	
COMM 4199W	Senior Seminar	
<b>Electives (18 credits)</b>		
Six additional Communication (COMM) courses at the 2000 level or above.		
<b>Courses in related areas (15 credits)</b>		

15 credits in upper-division courses in one other department, program, or field of study, as approved by the major advisor. This requirement may be fulfilled by completion of a second major, a minor, or a field of study other than organizational communication.

## SPECIAL HONORS

Students may graduate with Special Honors if they meet the following criteria:

1. Special Honors requirements stated under University Regulations;
2. Selection to Lambda Pi Eta, the National Communication Association Honor Society, which maintains a chapter in the GW Communication Program (i.e., open to majors who have completed a minimum of 24 hours in communication coursework, who hold a grade-point average of 3.3 in communication courses and a grade-point average of 3.0 overall, and who are recommended by a majority of the full-time communication faculty); and,
3. A minimum grade of A- on the thesis required in COMM 4199W Senior Seminar.

## BACHELOR OF ARTS WITH A MAJOR IN ORGANIZATIONAL SCIENCES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required courses (24 credits):</b>		
COMM 3170	Organizational Communication	
ECON 1011	Principles of Economics I	
or ECON 1012	Principles of Economics II	
ORSC 1109	Introduction to Organizational Sciences*	
ORSC 2046	Global Organizations	
ORSC 2544	Industrial/Organizational Psychology	
ORSC 4161	Research Methods in Organizational Sciences	
ORSC 4197W	Senior Research Seminar	

STAT 1053 Introduction to Statistics in Social Science

#### Five courses (15 credits) from the following:

ORSC 2116	Leading Change
ORSC 2123	Negotiation and Conflict Resolution
ORSC 2143	Leadership and Performance
ORSC 2560	Group Dynamics
ORSC 3141	Strategy in Organizations
ORSC 3159	Extreme Decisions
ORSC 3165	Organizational Network Analysis
ORSC 3190	Special Topics
ORSC 4195	Independent Study

#### Two courses (6 credits) both within the same department, from the following:

AMST 2010	Early American Cultural History
or HIST 2010	Early American Cultural History
AMST 2011	Modern American Cultural History
or HIST 2011	Modern American Cultural History
AMST 2020	Washington, DC: History, Culture, and Politics
or AMST 2020W	Washington, DC: History, Culture, and Politics
or HIST 2020	Washington, DC: History, Culture, and Politics
or HIST 2020W	Washington, DC: History, Culture, and Politics
AMST 2320	U.S. Media and Cultural History
or HIST 2320	U.S. Media and Cultural History
AMST 2490	Themes in U.S. Cultural History
or AMST 2490W	Themes in U.S. Cultural History
or HIST 2490	Themes in U.S. Cultural History
or HIST 2490W	Themes in U.S. Cultural History
AMST 2520	American Architecture I
or AH 2154	American Architecture I
AMST 2521	American Architecture II
or AH 2155	American Architecture II
AMST 2533	Material Culture in America

or ANTH 2533	Material Culture in America
AMST 3900	Critiquing Culture
AMST 3901	Examining America
ANTH 2008	Foundations of Anthropological Thought
or ANTH 2008W	Foundations of Anthropology
ANTH 3501	Anthropology of Development
ANTH 3502	Cultural Ecology
ANTH 3503	Psychological Anthropology
ANTH 3506	Politics, Ethnicity, and Nationalism
ANTH 3513	Anthropology of Human Rights
or ANTH 3513W	Anthropology of Human Rights
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3601	Language, Culture, and Cognition
or LING 3601	Language, Culture, and Cognition
ANTH 3802	Human Cultural Beginnings
or ANTH 3802W	Human Cultural Beginnings
COMM 2120	Small Group Communication
COMM 2140	Nonverbal Behavior
COMM 3171	Professional Communication
COMM 3173	Communication in a Mediated World
COMM 3174	Intercultural Communication
COMM 3176	Issues and Image Management
COMM 4150	Persuasion
ECON 2136	Environmental and Natural Resource Economics
ECON 2157	Urban and Regional Economics
ECON 2158	Industrial Organization
ECON 2159	Government Regulation of the Economy
ECON 2169	Introduction to the Economy of China
ECON 2170	Introduction to the Economy of Japan
ECON 2180	Survey of International Economics
ECON 3142	Labor Economics

ECON 3165	Economics of Human Resources
ECON 3191	Game Theory
GEOG 2127	Population Geography
GEOG 2133	People, Land, and Food
GEOG 2134	Energy Resources
or GEOG 2134W	Energy Resources
GEOG 2140	Cities and Societies
or GEOG 2140W	Urban Geography
GEOG 2141	Cities in the Developing World
GEOG 2148	Economic Geography
GEOG 3143	Urban Sustainability
or GEOG 3143W	Urban Sustainability
HIST 2321	U.S. History, 1890-1945
HIST 2340	U.S. Diplomatic History
or HIST 2340W	U.S. Diplomatic History
HIST 2440	The American City
or AMST 2440	The American City
HIST 3033	War and the Military in American Society from the Revolution to the Gulf War
or AMST 3324	U.S. Urban History
HIST 3324	U.S. Urban History
or AMST 3324	U.S. Urban History
HIST 3351	U.S. Social History
or AMST 3351	U.S. Social History
HIST 3366	Immigration, Ethnicity, and the American Experience
or HIST 3366W	Immigration, Ethnicity, and the American Experience
HIST 3611	History of Modern China
HIST 3621	History of Modern Japan
PSC 2216	The American Presidency
PSC 2217	Executive Branch Politics
or PPPA 2117	Executive Branch Politics

PSC 2218	Legislative Politics
or PSC 2218W	Legislative Politics
PSC 2219	Political Parties and Interest Groups
PSC 2224	Issues in Domestic Public Policy
PSC 2228	Media, Politics, and Government
PSC 2229	Media and Politics
PSC 2334	Global Perspectives on Democracy
PSC 2337	Development Politics
PSC 2439	International Political Economy
PSC 2442	International Organizations
PSC 2449	International Security Politics
PSYC 2012	Social Psychology
PSYC 2014	Cognitive Psychology
PSYC 3125	Cross-Cultural Psychology
PSYC 3153	Social Psychology of Learning and Motivation
SOC 2104	Contemporary Sociological Theory
or SOC 2104W	Contemporary Sociological Theory
SOC 2105	Social Problems in American Society
or SOC 2105W	SocialProblems in Amer Society
SOC 2161	Sociology of Complex Organizations
SOC 2163	Sociology of Education
SOC 2168	Economic Sociology
SOC 2173	Social Movements
SOC 2175	Sociology of Sex and Gender
or SOC 2175W	Sociology of Sex and Gender

\*If a grade below C- is earned in ORSC 1109, the course must be repeated; credit for the repetition will not count toward the degree.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must submit an application to the department before the beginning of their senior year, take a graduate-level seminar with permission of the department, complete an independent study project in ORSC 4195

Independent Study with a minimum grade of A–, and have a grade-point average of 3.5 for courses required for the major.

## MINOR IN COMMUNICATION REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
COMM 1025	Introduction to Communication Studies	
COMM 1040	Public Communication	
or COMM 1041	Interpersonal Communication	
<b>One course from the following:</b>		
COMM 2120	Small Group Communication	
COMM 3171	Professional Communication	
COMM 3174	Intercultural Communication	
<b>Three courses from the following:</b>		
COMM 2000	Sophomore Colloquium	
COMM 2100	Communication Theory	
COMM 2140	Nonverbal Behavior	
COMM 2162	Sociology of the Family	
or SOC 2162	Sociology of the Family	
COMM 3110	Research Methods-Communication	
COMM 3170	Organizational Communication	
COMM 3172	Health Communication	
COMM 3173	Communication in a Mediated World	
COMM 3175	Strategic Communication	
COMM 3176	Issues and Image Management	
COMM 3177	Corporate Ethical Communication	
COMM 3179	Sexual Communication	
COMM 3180	Communication Criticism	
COMM 3190	Selected Topics	

COMM 4196 Independent Study

COMM 4197 Internship

Visit the program website (<https://orgsciandcomm.columbian.gwu.edu/communication-minors>) for additional information.

## MINOR IN ORGANIZATIONAL COMMUNICATION

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
------	-------	---------

#### Required (12 credits):

COMM 3170	Organizational Communication
COMM 3171	Professional Communication
ORSC 1109	Introduction to Organizational Sciences
ORSC 2544	Industrial/Organizational Psychology

#### Electives

Two courses (6 credits) from the following:

COMM 2120	Small Group Communication
COMM 2140	Nonverbal Behavior
COMM 3173	Communication in a Mediated World
COMM 3174	Intercultural Communication
COMM 3175	Strategic Communication
COMM 3176	Issues and Image Management
COMM 3177	Corporate Ethical Communication
ORSC 2046	Global Organizations
ORSC 2560	Group Dynamics

This minor is not available to communication majors.

## MINOR IN ORGANIZATIONAL SCIENCES

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
------	-------	---------

#### Required (6 credits):

ORSC 1109	Introduction to Organizational Sciences
ORSC 2046	Global Organizations

#### Electives

Four courses (12 credits) from the following:

ORSC 2116	Leading Change
ORSC 2123	Negotiation and Conflict Resolution
ORSC 2143	Leadership and Performance
ORSC 2544	Industrial/Organizational Psychology
ORSC 2560	Group Dynamics
ORSC 3141	Strategy in Organizations
ORSC 3159	Extreme Decisions
ORSC 3165	Organizational Network Analysis
ORSC 3190	Special Topics
COMM 3170	Organizational Communication
COMM 3171	Professional Communication
COMM 3173	Communication in a Mediated World

## MASTER OF ARTS IN THE FIELD OF LEADERSHIP EDUCATION AND DEVELOPMENT

The Department of Organizational Sciences and Communication, part of the Columbian College of Arts and Sciences, offers an interdisciplinary degree program leading to the degree of master of arts in leadership education and development (LEAD) to a cohort of designated officers from the U.S. Naval Academy (USNA). The Department awards the degree in partnership with the Division of Leadership at the USNA.

Students complete the 33-credit program in one year across three academic terms (a summer session and fall and spring

semesters). These credits are delivered through 10 courses and a research capstone—GW teaches 18 of the 33 credits and the USNA teaches the remaining 15 credits.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

33 credits, including 18 credits taken at GW and 15 credits taken at the U.S. Naval Academy (USNA)

Code	Title	Credits
Required		
COMM 6171	Professional Communication	
COMM 6190	Leadership Communication	
COMM 6242	Organizational Communication and Conflict Management	
LEAD 6001	The Academy and the Brigade *	
LEAD 6003	Foundations of Moral Reasoning *	
LEAD 6004	LEAD Fellows Teaching Practicum *	
LEAD 6005	LEAD Fellows Counseling Practicum *	
LEAD 6006	LEAD Research Capstone *	
ORSC 6209	Management Systems	
ORSC 6245	Seminar: Organizational Behavior	
ORSC 8261	Research Methods in Organizational Sciences	

\*Course taken at the USNA

## MASTER OF ARTS IN THE FIELD OF ORGANIZATIONAL SCIENCES

The Department of Organizational Sciences and Communication offers an interdisciplinary program leading to the degree of master of arts in the field of organizational sciences. The program is designed for public, private, and nonprofit sector professionals who wish to increase their managerial competence, enhance their leadership ability, and improve their career potential. The curriculum provides knowledge and skills in the social and behavioral sciences.

Visit the program website (<https://orgsciandcomm.columbian.gwu.edu/organizational-sciences-ma>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 27 credits in required courses, 9 credits in elective courses, and successful completion of a master’s comprehensive examination.

Code	Title	Credits
Required		
ORSC 6104	Statistics in Management, Administration, and Policy Studies	
ORSC 6209	Management Systems	
ORSC 6216	Theories and Management of Planned Change	
ORSC 6219	Managerial Economics	
ORSC 6241	Strategic Management and Policy Formation	
ORSC 6242	Organizational Communication and Conflict Management	
or COMM 6242	Organizational Communication and Conflict Management	
ORSC 6243	Seminar: Leadership in Complex Organizations	
ORSC 6245	Seminar: Organizational Behavior	
ORSC 6259	Psychology of Individual and Group Decision Making	
Electives		
9 credits from the following:		
ORSC 6212	Current Issues in Personnel Testing and Selection	
ORSC 6214	Personnel Training and Performance Appraisal Systems	
ORSC 6217	Productivity and Human Performance	
ORSC 6222	Theory and Practice of Compensation Management	
ORSC 6223	Collective Bargaining	
ORSC 6224	Persuasion and Negotiation	
or COMM 6150	Persuasion	

ORSC 6246	Comparative Management
ORSC 6248	Strategic Human Resource Planning
ORSC 6250	Leadership Coaching: Principles and Practices
ORSC 6251	Team Coaching and Facilitation
ORSC 6295	Directed Research
ORSC 6297	Special Topics
ORSC 6298	Directed Readings
Successful completion of a master's comprehensive examination.	

## PEACE STUDIES

The Peace Studies program is designed to strengthen a student's ability to explore the multiple meanings of peace, the relationship between peace and conflict, and the role of peace on local and global levels. The program fosters the study of peace in its philosophical and religious dimensions, as an important aspect of international affairs, and as a vital part of social, economic, and environmental justice. Peace Studies focuses on the examination of peace and conflict through the lens of the humanities and the liberal arts. Housed within the Department of Religion (<http://religion.columbian.gwu.edu>) in the Columbian College of Arts and Sciences, the Peace Studies program emphasizes the role of world religions in peace building and conflict resolution.

Visit the Peace Studies Program website (<https://religion.columbian.gwu.edu/peace-studies-program>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in peace studies (p. 308)

### Minor

- Minor in peace studies (p. 310)

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

### PSTD 1010. Introduction to Peace Studies and Conflict Resolution. 3 Credits.

Major thinkers and themes in the field of peace studies and conflict resolution. Focus on philosophical and religious foundations of peace and justice movements in the twentieth century. Examination of peace and conflict through an interdisciplinary lens and on personal, local, and international levels.

### PSTD 3190. Capstone Seminar. 3 Credits.

Capstone seminar for peace studies majors and minors in their junior or senior year. Taken concurrently with a relevant internship or as part of a long-term research project to probe the relationship between peace studies and conflict resolution in practice and in theory. Offered in the fall semester only. Restricted to peace studies majors and minors.

### PSTD 3191. Special Topics Peace Studies. 1-6 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

### PSTD 3999. Independent Study. 1-3 Credits.

Tutorial designed by an undergraduate student under the guidance of a faculty member to pursue an academic topic in the area of Peace Studies and Conflict Resolution outside available course offerings.

## BACHELOR OF ARTS WITH A MAJOR IN PEACE STUDIES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below)

Two years of a single foreign language, or placement into the third year of a foreign language by examination, or one year each of two modern foreign languages.\*

Code	Title	Credits
<b>Required (6 credits)</b>		
PSTD 1010	Introduction to Peace Studies and Conflict Resolution	
PSTD 3190	Capstone Seminar (Offered only in the fall semester)	
<b>Electives (24 credits)</b>		
Eight courses (24 credits) from the following categories as indicated:		

Philosophical and religious approaches to peace: two courses (6 credits)	
PHIL 2132	Social and Political Philosophy
or PHIL 2132W	Social and Political Philosophy
PHIL 2133	Philosophy and Nonviolence

PSC 2108	Freedom and Equality
PSC 2221	African-American Politics

PSC 2225	Women and Politics
PSC 2240	Poverty, Welfare, and Work
PSC 2337	Development Politics
PSC 2367 or PSC 2367W	Human Rights
PSYC 3125	Cross-Cultural Psychology
PSYC 3126 or PSYC 3126W	Multicultural Psychology
PSYC 3151	Theory and Practice of Women's Leadership
PSYC 3173	Community Psychology
PUBH 2114	Environment, Health, and Development
PUBH 2115	Health, Human Rights, and Displaced Persons
PUBH 3132	Health and Environment
PUBH 3133	Global Health and Development
PUBH 3150	Sustainable Energy and Environmental Health
SMPA 3460	Race, Media, and Politics
SMPA 3471	Media in the Developing World
SMPA 3472	Media and Foreign Policy
SOC 2170 or SOC 2170W	Class and Inequality in American Society
SOC 2173	Social Movements
SOC 2175 or SOC 2175W	Sociology of Sex and Gender
SOC 2177	Sociology of the Sex Industry
SOC 2179	Race and Minority Relations
SOC 2184	Violence and the Family
One additional elective	
An internship in a relevant agency may also count for 3 credits, with advisor's prior approval, through the following:	
CCAS 2154	Elective Internship

\* Lists of courses that can fulfill each category (<http://religion.columbian.gwu.edu/undergraduate-academic-programs>) are available in the Department of Religion.

## PHILOSOPHY

From reading the works of Plato and Aristotle to studying logic and phenomenology, the Department of Philosophy provides a broad-based learning experience. One of the arts and humanities disciplines in the Columbian College of Arts and Sciences, the program also examines the intersection of philosophy with other subjects, including law, biomedicine, science, and politics.

Two options are offered for the major, both of which are designed to give a broad background in philosophy, but with somewhat different emphases. The first option reflects the traditional structure of the discipline and its subfields; it is especially (but not exclusively) recommended for those considering graduate study in philosophy. The second option is designed for those primarily interested in the relationship of philosophy to public affairs.

Visit the program website (<https://philosophy.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in philosophy (p. 318)
- Bachelor of Arts with a major in philosophy (public affairs focus) (p. 319)

### Minors

- Minor in applied ethics (p. 321)
- Minor in linguistics (p. 67) (interdisciplinary)
- Minor in logic (p. 321)
- Minor in mind-brain studies (p. 322)
- Minor in philosophy (p. 322)

### Combined programs

- Dual Bachelor of Arts with a major in philosophy and Master of Arts in the field of philosophy (p. 320)
- Dual Bachelor of Arts with a major in philosophy and Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 320)
- Dual Bachelor of Arts with a major in philosophy (public affairs focus) and Master of Arts in the field of philosophy (p. 321)
- Dual Bachelor of Arts with a major in philosophy (public affairs focus) and Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 320)

# GRADUATE

## Master's programs

- Master of Arts in the field of philosophy (p. 323)
- Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 323)

## FACULTY

**Professors** D. DeGrazia, G. Weiss

**Associate Professors** J.C. Brand-Ballard, M. Friend, T. Zawidzki (*Chair*)

**Assistant Professors** A. Archer, L. Papish, M. Ralkowski, E.J. Saidel, J. Trullinger, V.C. Wills

**Adjunct Professors** M. Sigrist, C. Venner

**Affiliated Faculty** D. Malone-France

**Professorial Lecturers** R. Carr, M. Davis, L. Eby, D. Kirilov, C. Meyers, S. Renault-Steele

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **PHIL 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **PHIL 1051. Introduction to Philosophy. 3 Credits.**

Readings from major philosophers and study of their positions on the most basic questions of human life. Topics include such issues as: What is justice? What is knowledge? What is reality? Does God exist? What is the mind? Do humans have free will?.

#### **PHIL 1062. Philosophy and Film. 3 Credits.**

Philosophical problems and theories of perception, meaning, personal identity, and moral agency and their illustration in the context of cinema. Cinema and its derivatives (TV, video) as prime routes to experience of the natural and social worlds in an age of communication. Readings in classical and contemporary philosophy and in film theory; screening of a series of films.

#### **PHIL 1153. The Meaning of Mind. 3 Credits.**

Introductory course for students with no background in philosophy or the sciences of the mind. The central questions, assumptions, and hypotheses about the human mind. The nature of thought, consciousness, and self; knowledge of other minds; implications of the sciences of the mind for freedom of the will and responsibility; and the relationship between the mind and the brain.

#### **PHIL 1193. Introduction to Existentialism. 3 Credits.**

The philosophical themes of selfhood, mortality, authenticity, and ethical responsibility from an existentialist perspective, including the writings of Kierkegaard, Heidegger, Nietzsche, Camus, and Sartre. The place of existentialism in the history of philosophy.

#### **PHIL 2045. Introduction to Logic. 3 Credits.**

Introduction to informal logic, scientific argument, and formal logic. The informal logic component focuses on fallacies of reasoning and practical applications of logic. The formal logic component focuses on translation from English into propositional logic, truth tables, and proofs in propositional logic.

#### **PHIL 2111. History of Ancient Philosophy. 3 Credits.**

History of Western philosophy from the Pre-Socratics to the Stoics (sixth century BCE to first century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy.

#### **PHIL 2111W. History of Ancient Philosophy. 3 Credits.**

History of Western philosophy from the Pre-Socratics to the Stoics (sixth century BCE to first century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **PHIL 2112. History of Modern Philosophy. 3 Credits.**

History of Western philosophy of the 16th through 18th centuries; Continental Rationalism and British Empiricism from the scientific revolution through the Enlightenment; major emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Prerequisite: PHIL 1051 .

#### **PHIL 2124. Philosophies of Disability. 3 Credits.**

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability –historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights.

**PHIL 2124W. Philosophies of Disability. 3 Credits.**

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PHIL 2125. Philosophy of Race and Gender. 3 Credits.**

Differing theoretical perspectives on how race, sexuality, gender, class, and ethnicity inform (and re-form) individual as well as group identities; consequences of being marginalized because one is associated with an allegedly inferior race, sex, and/or gender.

**PHIL 2125W. Philosophy of Race and Gender. 3 Credits.**

A theoretical examination of the bodily, social, discursive, and political effects of patriarchy, racism, and classism. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PHIL 2131. Ethics: Theory and Applications. 3 Credits.**

Examination of leading ethical theories (e.g., utilitarianism, deontology, virtue ethics), and methodology in ethics. Engagement with contemporary problems.

**PHIL 2132. Social and Political Philosophy. 3 Credits.**

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy.

**PHIL 2132W. Social and Political Philosophy. 3 Credits.**

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PHIL 2133. Philosophy and Nonviolence. 3 Credits.**

Violence and nonviolence in the personal and social struggle for meaningful, just, and peaceful existence; philosophical foundations of pacifism and nonviolent resistance in the thought of Tolstoy, Gandhi, King, and others; philosophical inquiry into war, terrorism, genocide, and ethnic conflict, as well as human rights, humanitarian intervention, and just war theory.

**PHIL 2134. Philosophy of Human Rights. 3 Credits.**

Conceptual, ethical, and theoretical analyses of human rights with emphasis on the justification of human rights, the debate over cultural relativism, and the application of human rights norms in domestic and global contexts.

**PHIL 2135. Ethics in Business and the Professions. 3 Credits.**

Ethical theories and basic concepts for analysis of moral issues arising in business and in professional practice.

**PHIL 2136. Contemporary Issues in Ethics. 3 Credits.**

Introduction to a range of debates in applied ethics, including both classic debates concerning topics such as the permissibility of abortion, animal treatment, and suicide as well as more current debates concerning our interactions with the environment and our obligations to the poor in a global context.

**PHIL 2140. Philosophy of Love, Sex, and Friendship. 3 Credits.**

Introduction to the philosophy of love, sex, and friendship through historical and contemporary texts; the differences between love and friendship, whether love and friendship require an ethical justification, and feminist approaches to sex and sexuality.

**PHIL 2281. Philosophy of the Environment. 3 Credits.**

Three models of environmental sustainability: the current paradigm in economic and cultural thinking (neoclassical economics); redistribution of resources toward greater global equity (a macroeconomic perspective); and de-growth in the developed economies (ecological economics). The models offer different perspectives on what environmental sustainability means and how it can impact the cultural, religious, moral, metaphysical, and existential situation.

**PHIL 3100. Selected Topics. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**PHIL 3100W. Selected Topics. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PHIL 3113. Nineteenth-Century Philosophy. 3 Credits.**

European philosophy of the nineteenth century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Prerequisite: PHIL 1051.

**PHIL 3113W. Nineteenth-Century Philosophy. 3 Credits.**

European philosophy of the 19th century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Prerequisite: PHIL 1051.

**PHIL 3121. Symbolic Logic. 3 Credits.**

Analysis and assessment of deductive arguments, using propositional, predicate, and other logics; philosophical basis and implications of logical analysis; metatheory of logic; modal and non-standard logics. Prerequisites: Permission of the instructor.

**PHIL 3142. Philosophy of Law. 3 Credits.**

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality.

**PHIL 3142W. Philosophy of Law. 3 Credits.**

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PHIL 3151. Philosophy of Science. 3 Credits.**

Philosophical issues raised by the sciences. The distinction between scientific and non-scientific explanations, the nature of causality and natural laws, the role of empirical evidence in science, the status of unobservable, theoretical posits in science, and the historical sources of scientific hypotheses. A 2000-level philosophy course may be substituted for the prerequisite. Prerequisite: PHIL 1051.

**PHIL 3151W. Philosophy and Science. 3 Credits.**

Analysis of the structure and meaning of science, including scientific progress and theory change, objectivity in science, the drive for a unified science, and ways science relates to everyday understandings of the world. Attention given to various sciences, including physics, biology, and neuroscience. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 1051 or two semesters of college-level science.

**PHIL 3152. Theory of Knowledge. 3 Credits.**

Inquiry into the basis and structure of knowledge, the problems of skepticism and justification, the relations between subjectivity and objectivity, and the contributions of reason, sense experience, and language. Prerequisite: PHIL 1051. Recommended background: PHIL 2112.

**PHIL 3153. Mind, Brain, and Artificial Intelligence. 3 Credits.**

Investigation of the nature of mind from a variety of perspectives, including neuroscience, cognitive psychology, and artificial intelligence, as well as traditional philosophy of mind. Possible additional topics include consciousness, mental disorders, animal minds, and the nature and meaning of dreams. Prerequisites: PHIL 1051 or PHIL 1153 or PHIL 2112 or permission of the instructor.

**PHIL 3161. Philosophy and Literature. 3 Credits.**

Critical investigation of the sociopolitical commitments that inform the practices of reading and writing as discussed by Sartre, Barthes, Foucault, and others. Focus on the development of existentialist themes, including authenticity, freedom, temporality, and death in the work of Kafka, Tolstoy, Mann, Woolf, and others.

**PHIL 3162. Philosophy of Art. 3 Credits.**

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Prerequisite: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113.

**PHIL 3162W. Philosophy of Art. 3 Credits.**

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113.

**PHIL 3172. American Philosophy. 3 Credits.**

A survey of American philosophical thought, focusing on the late 19th through mid-20th centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty.

**PHIL 3172W. American Philosophy. 3 Credits.**

A survey of American philosophical thought, focusing on the late nineteenth through mid-twentieth centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PHIL 3251. Philosophy of Biology. 3 Credits.**

An introduction to conceptual and methodological issues raised by contemporary biology, including teleology, reductionism, units of selection, the structure of evolutionary theory, genetics, taxonomy, and the nature of scientific explanation. Other issues may include the nature-nurture debate, creationism/intelligent design, the evolution of altruism, and the relevance of evolutionary theory to ethical questions.

**PHIL 4000. Special Topics in the History of Philosophy. 3 Credits.**

In-depth reading of two Kantian masterpieces, *Critique of Pure Reason* (1781; second edition 1787) and *Groundwork for the Metaphysics of Morals*. Restricted to juniors. Prerequisites: PHIL 2111, or PHIL 2112, or PHIL 3113 or PHIL 4193.

**PHIL 4192. Analytic Philosophy. 3 Credits.**

The dominant movements of twentieth-century Anglo-American philosophy, including logical positivism, British ordinary language philosophy, and neopragmatism, as represented by Russell, G.E. Moore, Wittgenstein, Ayer, Quine, Kripke, et al. Students must have completed one other upper-division philosophy course prior to enrollment. Recommended background: PHIL 2112 and PHIL 3121.

**PHIL 4193. Twentieth-Century Continental Philosophy. 3 Credits.**

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Prerequisites: PHIL 2112 or PHIL 3113.

**PHIL 4193W. Twentieth-Century Continental Philosophy. 3 Credits.**

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 2112 or PHIL 3113.

**PHIL 4195. Topics in Value Theory. 3 Credits.**

Variable topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

**PHIL 4195W. Topics in Value Theory. 3 Credits.**

Various topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy, such as contemporary philosophy of religion. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PHIL 4196. Topics in Theory of Knowledge. 3 Credits.**

Variable topics in epistemology, philosophy of science and mathematics, philosophy of mind, and similar subfields. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

**PHIL 4198. Proseminar. 3 Credits.**

Variable topics; preparation and presentation of a major research paper. May be repeated for credit. Restricted to juniors and seniors in the philosophy program with permission of the major advisor.

**PHIL 4198W. Proseminar in Philosophy. 3 Credits.**

Preparation and presentation of a major research paper. May be repeated for credit provided the topic differs. Topics vary by semester. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors in the philosophy program with permission of the major advisor.

**PHIL 4199. Readings and Research. 1-3 Credits.**

Independent study to be arranged with a faculty sponsor. Permission of the department required prior to enrollment.

**PHIL 6000. Topics in Advanced Analytic Philosophy. 3 Credits.**

The application of the methods and insights of twentieth and twenty-first century analytic philosophy to contemporary questions and/or social issues; philosophy of language, philosophy of mind, epistemology, and value theory. Topics vary by semester. See department for details. Restricted to graduate students; undergraduate students may enroll only with the permission of the instructor.

**PHIL 6201. Readings and Research. 3 Credits.**

Advanced readings and reports. Investigation of special problems.

**PHIL 6202. Readings and Research. 3 Credits.**

Advanced readings and reports. Investigation of special problems.

**PHIL 6211. Topics in the History of Ancient Philosophy. 3 Credits.**

Topic announced in the Schedule of Classes. Restricted to graduate students.

**PHIL 6212. Topics in the History of Modern Philosophy. 3 Credits.**

Topic announced in the Schedule of Classes. Restricted to graduate students.

**PHIL 6221. Advanced Logic. 3 Credits.**

Intensive reading of a difficult text in an advanced logical system or a series of logical systems. Focus on analyzing reasoning under partial information, using the formal system to analyze fallacies of reasoning and analyzing quantum phenomena using the formal system. Restricted to graduate students. Recommended background: Good formal training in logic - propositional logic: natural deduction, tables and trees; first-order logic: language (translation from English), trees and natural deduction; some limitative results, eg, decidability, compactness, completeness, Lovenheim-Skolem properties, soundness, etc.

**PHIL 6222. Philosophy of Mathematics. 3 Credits.**

Examination of several philosophies of mathematics, with in-depth concentration on Field's "fictionalism." A fictionalist believes that all of the ontology of mathematics is favorably compared to a fictional object, so it does not literally exist. Students develop reactions to Field's philosophical position using the resources of alternative philosophical positions. Restricted to graduate students. Recommended background: Basic understanding of first-order logic.

**PHIL 6223. Philosophy of Logic. 3 Credits.**

Central concepts in the philosophy of logic, including truth, reasoning, inference, deduction, induction, judgment, assertion, warrant, proof, demonstration, meaning, semantics, syntax, paradox, mathematical models, and the relationship between a formal representation of logical reasoning and the philosophical ideal of the practice of reasoning. Recommended background: Some grounding in first-order logic is presupposed.

**PHIL 6225. Queer(ing) Philosophy. 3 Credits.**

Examination of how queer theory, which emerged as a field in its own right in the early 1990s, has posed significant challenges to traditional, taken-for-granted understandings of time, space, the body, race, sexuality, normality, culture, violence, and disability. Restricted to graduate students.

**PHIL 6230. Ethical Issues in Policy Arguments. 3 Credits.**

Critical analysis of ethical foundations of public policy arguments, e.g., about protection of the environment or health and safety, equality of opportunity. Case studies of appeals to “welfare improvements,” to norms of duty, to “the social contract,” and to rights-claims. Attention to historical contexts and biases. May be taken for undergraduate credit with permission of the instructor.

**PHIL 6231. Seminar: Economic Justice. 3 Credits.**

Ethical and economic analysis of equity and efficiency of current U.S. income distribution patterns. Theories of justice; economic theories of distribution; assessment of redistribution policies. May be taken for undergraduate credit with permission of the instructor.

**PHIL 6232. Topics in Contemporary Political Philosophy. 3 Credits.**

Topic announced in the Schedule of Classes. Restricted to graduate students.

**PHIL 6233. Contemporary Moral Philosophy. 3 Credits.**

Investigation of contemporary debates in normative ethics and/or metaethics. Topics may include the virtue ethics revival in the twentieth century, the distinction between the right and the good, or important metaethical positions such as fictionalism, expressivism, and constitutivist accounts of moral principles. Restricted to graduate students.

**PHIL 6234. Consequentialism and Its Critics. 3 Credits.**

An overview of the debate over consequentialism, culminating in discussion of recent literature. Forms of consequentialism (act, rule, motive, cooperative); direct versus indirect; classic objections and replies; partiality; friendship; agent-relative considerations; doctrine of doing and allowing; doctrine of double effect. Restricted to graduate students.

**PHIL 6236. Moral Status. 3 Credits.**

Examination of the question of what sorts of beings matter morally in their own right and how much they matter. While the paradigm bearers of moral status are persons, the course considers competing ways of thinking about the possible moral status of human nonpersons, nonhuman persons, great apes, dolphins, other sentient animals, nonsentient lifeforms, the environment, future people, and advanced forms of artificial intelligence. Restricted to graduate students.

**PHIL 6237. Animal Ethics. 3 Credits.**

The moral status of animals and the ethics of human use of animals. Major topics include models of moral status, animals' mental life, and specific ethical issues associated with the eating of animal products, the use of animals in research, and the keeping of animals in homes and zoos. Restricted to graduate students.

**PHIL 6238. Feminist Ethics and Policy Implications. 3 Credits.**

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems, such as respecting cultural differences, dependency, disability. Prerequisites: PHIL 2125 or PHIL 2131. (Same as WGSS 6238).

**PHIL 6239. Virtue Ethics. 3 Credits.**

Historical and/or contemporary approaches to virtue ethics and key readings in the virtue ethical tradition. Topics include empirical work on virtue in philosophy and psychology, the divide between “radical” virtue ethics and contemporary virtue ethics, “hybrid” approaches to virtue ethics (e.g., consequentialist virtue ethics), and meta-ethical issues relevant to the study of virtue. Restricted to graduate students.

**PHIL 6242. Philosophy, Law, and Social Policy. 3 Credits.**

Consideration of the relationship between legal interpretation and policy goals. Theories concerning the role of the judiciary in a constitutional democracy and methods of constitutional and statutory interpretation. Representative policy topics include capital punishment, pornography, affirmative action, welfare, property rights, racial gerrymandering, gun control.

**PHIL 6245. Biomedical Ethics. 3 Credits.**

An in-depth introduction to the field of biomedical ethics. Following a brief review of ethical theory, the course proceeds to several central topics in biomedical ethics before ending with students' presentations of their original research. The emphasis is on normative ethical reasoning, with considerable attention to the empirical assumptions underlying particular ethical judgments and to policy dimensions of several of the central topics.

**PHIL 6250. Topics in Health Policy. 3 Credits.**

Topics in health policy from the perspective of philosophical ethics, including human and animal research, the enhancement of human traits, justice and health care allocation.

**PHIL 6251. Advanced Introduction to Philosophy of Mind. 3 Credits.**

Critical examination of classical philosophical arguments pertaining to the mind/body problem, the problem of consciousness, the problem of intentionality, the problem of freedom of the will, and the problem of personal identity. Focus on careful analysis of classical philosophical writings on these topics. Restricted to graduate students.

**PHIL 6252. Advanced Introduction to Philosophy of Cognitive Science. 3 Credits.**

The emergence of cognitive phenomena in phylogeny and ontogeny, social cognition, nativist vs. empiricist approaches to cognition, models of reasoning and decision-making, representationalist vs. embodied/embedded/enactive approaches to cognition, and theories of perception, memory, and concepts. Restricted to graduate students.

**PHIL 6253. Cognitive Science and Public Policy. 3 Credits.**

The cognitive sciences are providing new insights into the nature of human decision making at an accelerating pace. Cognitive psychology, cognitive neuroscience, neuroeconomics, evolutionary psychology, and developmental and comparative psychology are rewriting theories about human nature with significant implications for public policy. The course examines recent work in the cognitive sciences with the intent of drawing out its public policy implications.

**PHIL 6254. Mental Representation. 3 Credits.**

Thoughts are like pictures of the world in that they represent the world. But thoughts sometimes represent the world in ways that don't correspond to the way it actually is. How do thoughts come to have representational content? Why do we have thoughts? Such questions are considered through the careful reading of recent work on the subject. Restricted to graduate students.

**PHIL 6257. The Nature of Animal Minds. 3 Credits.**

Do nonhuman animals have minds? If so, what are they like? How are they similar and how are they different from our minds? What might count as evidence that an animal has a mind? Consideration of some of the questions philosophers and scientists have been asking and issues these questions raise when we think about the possibility that nonhuman animals are thinking creatures. Restricted to graduate students.

**PHIL 6262. Normative Issues in Foreign Policy. 3 Credits.**

Selected issues on foreign policy from a normative perspective; emphasis on human rights, economic globalization, global poverty, sustainable development, and the ethics of military intervention.

**PHIL 6281. Environmental Philosophy and Policy. 3 Credits.**

Examination of philosophical frameworks for assessing policy approaches to environmental problems. Representative topics include duties to future generations, environmental justice, legal rights for natural objects, critiques of cost-benefit analysis, sustainability, risk measurement, the intrinsic value of nature.

**PHIL 6290. Special Topics in Public Policy. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**PHIL 6293. Contemporary Continental Philosophy. 3 Credits.**

Focus on several powerful philosophical concepts introduced by late twentieth/early twenty-first-century continental scholars, and the influence these scholars have had upon one another. Critical examination of the theoretical resources the works provide in articulating some of the most urgent ethical, social, and political demands of contemporary human existence. Restricted to graduate students.

**PHIL 6294. Special Topics in Continental Philosophy. 3 Credits.**

Topic announced in the Schedule of Classes. Restricted to graduate students.

**PHIL 6998. Thesis Research. 3 Credits.****PHIL 6999. Thesis Research. 3 Credits.**

## BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Recommended</b>		
PHIL 1051	Introduction to Philosophy	
or PHIL 1051W	Hist Intro-Western Philosophy	
<b>Required</b>		
The following three courses (9 credits):		
PHIL 2045	Introduction to Logic	
PHIL 2111	History of Ancient Philosophy	
or PHIL 2111W	History of Ancient Philosophy	
PHIL 2112	History of Modern Philosophy	
One of the following courses (3 credits) :		
PHIL 3113	Nineteenth-Century Philosophy	
or PHIL 3113W	Nineteenth-Century Philosophy	
PHIL 3172	American Philosophy	
or PHIL 3172W	American Philosophy	
PHIL 4192	Analytic Philosophy	
or PHIL 4192W	Analytical Philosophy	
PHIL 4193	Twentieth-Century Continental Philosophy	
or PHIL 4193W	Twentieth-Century Continental Philosophy	
Four additional philosophy (PHIL) courses (12 credits) numbered 2000 or above.		
One of the following options:		
A: Two Proseminar courses		
PHIL 4198	Proseminar (6 credits)	

B: Honors thesis option (requires departmental approval and a senior thesis)

PHIL 4198	Proseminar (3 credits)
PHIL 4199	Readings and Research (3 credits)

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must

1. have at least a 3.7 grade-point average in the major and a 3.3 average overall;
2. submit an honors paper prepared under the supervision of a faculty advisor in the department.

Only if a committee of three faculty members in the department approves the honors paper are Special Honors recommended.

## BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY (PUBLIC AFFAIRS FOCUS)

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Recommended</b>		
PHIL 1051	Introduction to Philosophy	
or PHIL 1051W	Hist Intro-Western Philosophy	
<b>Required</b>		
PHIL 2045	Introduction to Logic (3 credits)	
One course from the following (3 credits):		
PHIL 2111	History of Ancient Philosophy	
or PHIL 2111W	History of Ancient Philosophy	
PHIL 2112	History of Modern Philosophy	
Two courses from the following (6 credits):		
PHIL 2131	Ethics: Theory and Applications	
PHIL 2132	Social and Political Philosophy	

or PHIL 2132W Social and Political Philosophy

PHIL 2136 Contemporary Issues in Ethics

Four additional philosophy (PHIL) courses numbered 2000 or above (12 credits)

One of the following options:

A: Two Proseminar Courses

PHIL 4198 Proseminar (6 credits)

B: Honors Thesis option (requires departmental approval and a senior thesis)

PHIL 4198 Proseminar (3 credits)

or PHIL 4198W Proseminar in Philosophy

PHIL 4199 Readings and Research (3 credits)

## GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

**G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website** (<https://advising.columbian.gwu.edu/general-education-courses>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or

interpretation of artistic traditions or knowledge of art in a contemporary context.

- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must: have at least a 3.7 grade-point average in the major and a 3.3 average overall; and submit an honors paper prepared under the supervision of a faculty advisor in the department.

Only if a committee of three faculty members in the department approves the honors paper are Special Honors recommended.

## DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY AND MASTER OF ARTS IN THE FIELD OF PHILOSOPHY

The Department of Philosophy offers a dual bachelor of arts with a major in philosophy (p. 318) and master of arts in the field of philosophy (p. 323) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early

in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy>) for additional information.

## DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY AND MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN PHILOSOPHY AND SOCIAL POLICY

The Department of Philosophy and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in philosophy (p. 318) and master of arts in the field of public policy with a concentration in philosophy and social justice (p. 323) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy>) for additional information.

## DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY (PUBLIC AFFAIRS FOCUS) AND MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN PHILOSOPHY AND SOCIAL POLICY

The Department of Philosophy and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in philosophy (public affairs focus) (p. 319) and master of arts in the field of public policy with a concentration in philosophy and social justice (p. 323) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early

in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy>) for additional information.

## DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY (PUBLIC AFFAIRS FOCUS) AND MASTER OF ARTS IN THE FIELD OF PHILOSOPHY

The Department of Philosophy offers a dual bachelor of arts with a major in philosophy (public affairs focus) (p. 319) and master of arts in the field of philosophy (p. 323) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy>) for additional information.

## MINOR IN APPLIED ETHICS REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 9 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
<b>Required courses (9 credits):</b>		
PHIL 2131	Ethics: Theory and Applications	
PHIL 2135	Ethics in Business and the Professions	
PHIL 2136	Contemporary Issues in Ethics	
<b>Three additional courses (9 credits) from the following:</b>		
PHIL 2124	Philosophies of Disability	
or PHIL 2124W	Philosophies of Disability	
PHIL 2125	Philosophy of Race and Gender	
or PHIL 2125W	Philosophy of Race and Gender	
PHIL 2132	Social and Political Philosophy	
or PHIL 2132W	Social and Political Philosophy	
PHIL 2133	Philosophy and Nonviolence	

PHIL 2134	Philosophy of Human Rights
PHIL 2281	Philosophy of the Environment
PHIL 3142	Philosophy of Law
or PHIL 3142W	Philosophy of Law
PHIL 4195	Topics in Value Theory
or PHIL 4195W	Topics in Value Theory

Visit the program website (<https://philosophy.columbian.gwu.edu/undergraduate-minor-applied-ethics>) for additional information.

## MINOR IN LOGIC REQUIREMENTS

The following requirements must be fulfilled: 18 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
One course (3 credits) from the following:		
PHIL 2045	Introduction to Logic	
PHIL 3121	Symbolic Logic	
One course (3 credits) from the following:		
MATH 3710	Introduction to Mathematical Logic	
MATH 3720	Axiomatic Set Theory	
MATH 3730	Computability Theory	
or MATH 3730W	Computability Theory	
MATH 3740	Computational Complexity	
or MATH 3740W	Computational Complexity	
Four additional courses (12 credits) from the lists above or from the following:		
CSCI 1112	Algorithms and Data Structures	
CSCI 3313	Foundations of Computing	
CSCI 4222	Theory of Computer Translators	
LING 2601	Language & Linguistic Analysis	
or ANTH 2601	Language & Linguistic Analysis	

No more than two courses may count toward both the student's major and the minor in logic.

For more information, contact the Philosophy Department.  
(<http://philosophy.columbian.gwu.edu>)

## MINOR IN MIND-BRAIN STUDIES REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
PHIL 3153	Mind, Brain, and Artificial Intelligence	
PSYC 3122	Cognitive Neuroscience	
<b>Electives</b>		
Four courses from the following, with a maximum of two courses from any one department:		
ANTH 1005	The Biological Bases of Human Behavior	
ANTH 3413	Evolution of the Human Brain	
ANTH 3601	Language, Culture, and Cognition	
or LING 3601	Language, Culture, and Cognition	
ANTH 3603	Psycholinguistics	
or LING 3603	Psycholinguistics	
BISC 2220	Developmental Neurobiology	
BISC 2452	Animal Behavior	
BISC 3320	Human Neurobiology	
PHIL 1153	The Meaning of Mind	
PHIL 3151	Philosophy of Science	
or PHIL 3151W	Philosophy and Science	
PHIL 3152	Theory of Knowledge	
PHIL 3251	Philosophy of Biology	
PSYC 2014	Cognitive Psychology	
PSYC 3118	Neuropsychology	
PSYC 3121	Memory and Cognition	
PSYC 3124	Visual Perception	

SPHR 1071	Foundations of Human Communication
or SPHR 1071W	Foundations of Human Communication
SPHR 2104	Speech and Language Disorders
or SPHR 2104W	Speech and Language Disorders
SPHR 2106	Neural Substrates of Speech, Language, and Hearing
SPHR 2131	Language Acquisition and Development
SPHR 3116	Brain and Language

For more information, contact Dr. Tad Zawidzki (Philosophy) at [zawidzki@gwu.edu](mailto:zawidzki@gwu.edu).

## MINOR IN PHILOSOPHY REQUIREMENTS

The following requirements must be fulfilled: 15 credits in elective courses.

Code	Title	Credits
<b>Electives</b>		
Two of the following:		
PHIL 2111	History of Ancient Philosophy	
or PHIL 2111W	History of Ancient Philosophy	
PHIL 2112	History of Modern Philosophy	
PHIL 3113	Nineteenth-Century Philosophy	
or PHIL 3113W	Nineteenth-Century Philosophy	
PHIL 3172	American Philosophy	
or PHIL 3172W	American Philosophy	
PHIL 4192	Analytic Philosophy	
or PHIL 4192W	Analytical Philosophy	
PHIL 4193	Twentieth-Century Continental Philosophy	
or PHIL 4193W	Twentieth-Century Continental Philosophy	

Four additional PHIL courses, only one of which may be numbered below 2000.

# MASTER OF ARTS IN THE FIELD OF PHILOSOPHY

The master of arts in philosophy is intended to prepare students for admission to doctoral programs in philosophy and related disciplines such as political theory, biomedical ethics, and gender studies; train students to do research from either a contemporary or historical perspective; develop students' abilities in critical thinking, close reading, publishable writing, and oral communication; and prepare students to teach philosophy.

The curriculum focuses on the following areas:

- Practical philosophy, including ethics, political philosophy, philosophy of law, and the philosophy of action
- Philosophies of gender, race, ethnicity, sexual orientation, and disability
- Core analytic philosophy, including philosophy of language, epistemology, metaphysics, and philosophy of mind
- Continental philosophy of the twentieth and twenty-first centuries
- The history of philosophy

Visit the program website (<https://philosophy.columbian.gwu.edu/ma-philosophy-0>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits in philosophy coursework at the 6000 level. A thesis option is available at the discretion of the faculty; if this option is approved, the student's program of study must include 3 credits in PHIL 6998, Thesis Research.

Code	Title	Credits
<b>Required</b>		
One of the following:		
PHIL 6211	Topics in the History of Ancient Philosophy	
PHIL 6212	Topics in the History of Modern Philosophy	
For thesis option:		
PHIL 6998	Thesis Research	
Remaining coursework is selected in consultation with the advisor.		

# MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN PHILOSOPHY AND SOCIAL POLICY

The interdisciplinary program in public policy with a concentration in philosophy and social policy brings the normative, historical, and analytical-logical skills of philosophical inquiry to bear upon contemporary problems of social policy. The program is affiliated with the Trachtenberg School of Public Policy and Public Administration (<https://tspppa.gwu.edu>).

Visit the program website (<https://philosophy.columbian.gwu.edu/ma-philosophy-and-social-policy>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

Two options are available at the discretion of the faculty. Thesis option—30 credits, including 24 credits in required courses and 6 credits in thesis; non-thesis option—36 credits, including 24 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
Four of the following:		
PHIL 6230	Ethical Issues in Policy Arguments	
PHIL 6231	Seminar: Economic Justice	
PHIL 6238	Feminist Ethics and Policy Implications	
PHIL 6242	Philosophy, Law, and Social Policy	
PHIL 6250	Topics in Health Policy	
PHIL 6262	Normative Issues in Foreign Policy	
PHIL 6281	Environmental Philosophy and Policy	
One course from each of the following groups:		
Group A		
PPPA 6010	Politics and The Policy Process	
PSC 8212	Urban Policy Problems	

#### Group B

ECON 6217 Survey of Economics I

ECON 6237 Economics of the Environment and Natural Resources

ECON 6248 Health Economics

#### Group C

PSC 6103 Approaches to Public Policy Analysis

PPPA 6006 Policy Analysis

SOC 6248 Race and Urban Redevelopment

WSTU 6240 Women and Public Policy

WSTU 6265 Women, Welfare, and Poverty

HIST 6011 Reading and Research in History and Public Policy

#### Group D

PPPA 6002 Research Methods and Applied Statistics (or substitute as approved by the advisor)

For thesis option:

PHIL 6998 Thesis Research

PHIL 6999 Thesis Research

#### Electives

Electives may focus on a particular policy area (e.g., biomedical/health care, urban/welfare, or environmental policy), or may explore varied approaches and policy issues.

#### Other requirements

Successful completion of a master's comprehensive examination.

## PHYSICS

The physics program offers instruction in the fundamental laws of the discipline as it strengthens a student's ability to see how these laws apply to all the sciences and everyday occurrences. Physics is part of the natural, mathematical, and biomedical sciences discipline in the Columbian College of Arts and Sciences. Through courses ranging from classical mechanics to electromagnetic theory, the physics program prompts students to use mathematical logic, deductive reasoning, developed intuition, and careful observation.

Visit the Department of Physics website (<https://physics.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in physics (p. 325)
- Bachelor of Science with a major in astronomy and astrophysics
- Bachelor of Science with a major in physics (p. 326)
- Bachelor of Science with a major in biophysics (p. 325)

### Minors

- Minor in astronomy and astrophysics (<http://bulletin.gwu.edu/arts-sciences/physics/minor-astronomy-astrophysics>)
- Minor in biophysics (p. 327)
- Minor in physics (p. 327)

## GRADUATE

### Master's program

- Master of Science in the field of physics (p. 328)

### Doctoral program

- Doctor of Philosophy in the field of physics (p. 328)

## FACULTY

**Professors** W.J. Briscoe (*Chair*), A. Eskandarian, G. Feldman, C. Kouveliotou, F.X. Lee, M.E. Reeves, I. Strakovsky (*Research*), C. Zeng

**Associate Professors** A. Afanasev, A. Alexandru, K.S. Dhuga, E.J. Downie, H. Griesshammer, H. Haberzettl, W. Peng, R.L. Workman (*Research*)

**Assistant Professors** M. D#ring, S. Guiriec, O. Kargaltsev, B.C. Kung, G. Lan, X. Qiu, A.J. van der Horst

**Adjunct Professors** I. Moskowitz, G. White

**Professorial Lecturers** N. Jha, L. Medsker, M. Lujan, C. O'Donnell

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: Consent of a departmental graduate advisor is required for admission to all graduate courses in physics.

- Astronomy (ASTR) (p. 1153)
- Physics (PHYS) (p. 1468)

# BACHELOR OF ARTS WITH A MAJOR IN PHYSICS

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
Introductory courses (30 credits):		
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	
PHYS 1022	University Physics II	
or PHYS 1026	University Physics II with Biological Applications	
PHYS 2023	Modern Physics	
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
MATH 2184	Linear Algebra I	
MATH 3342	Ordinary Differential Equations	
CHEM 1111	General Chemistry I	
or CHEM 1112	General Chemistry II	
or BISC 1111	Introductory Biology: Cells and Molecules	
or BISC 1112	Introductory Biology: The Biology of Organisms	
Advanced courses (21 credits):		
PHYS 2151	Intermediate Laboratory I: Techniques and Methods	
or PHYS 2151W	Intermediate Laboratory I: Techniques and Methods	

PHYS 3161	Mechanics
PHYS 3164	Thermal and Statistical Physics
PHYS 3165	Electromagnetic Theory I
PHYS 4195	Physics Capstone
or PHYS 4195W	Physics Capstone

Two additional Physics (PHYS) courses numbered 3000 or higher or Astronomy (ASTR) courses numbered 2000 or higher for a total of 6 credits.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

# BACHELOR OF SCIENCE WITH A MAJOR IN BIOPHYSICS

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required introductory courses (48 credits):</b>		
PHYS 1025	University Physics I with Biological Applications	
or PHYS 1021	University Physics I	
PHYS 1026	University Physics II with Biological Applications	
or PHYS 1022	University Physics II	
PHYS 2023	Modern Physics	
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
MATH 2184	Linear Algebra I	
MATH 3342	Ordinary Differential Equations	

BISC 1115 & BISC 1125	Introductory Biology: Cells and Molecules and Introduction to Cells and Molecules Laboratory *
--------------------------	--

BISC 1116 & BISC 1126	Introductory Biology: The Biology of Organisms and Introduction to Organisms Laboratory
--------------------------	---

CHEM 1111	General Chemistry I
-----------	---------------------

CHEM 1112	General Chemistry II
-----------	----------------------

CSCI 1111	Introduction to Software Development
or CSCI 1041	Introduction to FORTRAN Programming
or CSCI 1121	Introduction to C Programming
or CSCI 1131	Introduction to Programming with C

APSC 3115	Engineering Analysis III
or STAT 1127	Statistics for the Biological Sciences

Code	Title	Credits
------	-------	---------

Other required (9 credits):

BISC 3209	Molecular Biology
or CHEM 3165	Biochemistry I
or BISC 3261	Introductory Medical Biochemistry

CHEM 2151	Organic Chemistry I
-----------	---------------------

CHEM 2152	Organic Chemistry II
-----------	----------------------

Advanced required (25 credits):

PHYS 2151	Intermediate Laboratory I: Techniques and Methods
or PHYS 2151W	Intermediate Laboratory I: Techniques and Methods

PHYS 3127	Biophysics: Macroscopic Physics in the Life Sciences
-----------	--

PHYS 3128	Biophysics: Microscopic Physics in the Life Sciences
-----------	--

PHYS 3161	Mechanics
-----------	-----------

PHYS 3164	Thermal and Statistical Physics
-----------	---------------------------------

PHYS 3165	Electromagnetic Theory I
-----------	--------------------------

PHYS 4195	Physics Capstone
-----------	------------------

or PHYS 4195W	Physics Capstone
---------------	------------------

One course (3 credits) from the following:

PHYS 4196	Undergraduate Research in Biophysics (One 3000 or higher biology or medical sciences (3 hrs))
-----------	---

or PHYS 4197	Undergraduate Research in Nuclear Physics
--------------	---

or ASTR 4195	Undergraduate Research in Astrophysics
--------------	--

PHYS 4200	Physics Symposium
-----------	-------------------

\*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

## BACHELOR OF SCIENCE WITH A MAJOR IN PHYSICS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
------	-------	---------

#### Required introductory courses (36 credits):

PHYS 1021	University Physics I
or PHYS 1025	University Physics I with Biological Applications

PHYS 1022	University Physics II
or PHYS 1026	University Physics II with Biological Applications

PHYS 2023	Modern Physics
-----------	----------------

MATH 1231	Single-Variable Calculus I
-----------	----------------------------

MATH 1232	Single-Variable Calculus II
-----------	-----------------------------

MATH 2233	Multivariable Calculus
-----------	------------------------

MATH 2184	Linear Algebra I
MATH 3342	Ordinary Differential Equations
MATH 3343	Partial Differential Equations
CSCI 1111	Introduction to Software Development
or CSCI 1041	Introduction to FORTRAN Programming
or CSCI 1121	Introduction to C Programming
or CSCI 1131	Introduction to Programming with C
CHEM 1111	General Chemistry I
or CHEM 1112	General Chemistry II
or BISC 1111	Introductory Biology: Cells and Molecules
or BISC 1112	Introductory Biology: The Biology of Organisms

Code	Title	Credits
PHYS 2151	Intermediate Laboratory I: Techniques and Methods	
or PHYS 2151W	Intermediate Laboratory I: Techniques and Methods	
PHYS 3161	Mechanics	
PHYS 3164	Thermal and Statistical Physics	
PHYS 3165	Electromagnetic Theory I	
PHYS 3167	Principles of Quantum Physics	
PHYS 3181	Computational Physics	
PHYS 4195	Physics Capstone	
or PHYS 4195W	Physics Capstone	
PHYS 4196	Undergraduate Research in Biophysics	
or PHYS 4197	Undergraduate Research in Nuclear Physics	
or ASTR 4195	Undergraduate Research in Astrophysics	
PHYS 4200	Physics Symposium	
Two additional physics (PHYS) courses (6 credits) numbered 3000 or above or ASTR course numbered 2000 or above		

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research

project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

## MINOR IN BIOPHYSICS

### REQUIREMENTS

The following requirements must be met: 17 credits in required courses.

Code	Title	Credits
<b>Required</b>		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	
PHYS 1022	University Physics II	
or PHYS 1026	University Physics II with Biological Applications	
or PHYS 1022W	University Physics II	
PHYS 2023	Modern Physics	
PHYS 3127	Biophysics: Macroscopic Physics in the Life Sciences	
PHYS 3128	Biophysics: Microscopic Physics in the Life Sciences	

Visit the program website (<https://physics.columbian.gwu.edu/minor-requirements>) for additional information.

## MINOR IN PHYSICS

### REQUIREMENTS

The following requirements must be fulfilled: 17 credits, including 11 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
PHYS 1021	University Physics I	

or PHYS 1025	University Physics I with Biological Applications
PHYS 1022	University Physics II
or PHYS 1022W	University Physics II
or PHYS 1026	University Physics II with Biological Applications
PHYS 2023	Modern Physics
or PHYS 1023W	Modern Physics

### Electives

Two PHYS courses (6 credits) at the 3000 level or above approved by the department.

## MASTER OF SCIENCE IN THE FIELD OF PHYSICS

### REQUIREMENTS

Prerequisite: a bachelor's degree with a major in physics at this University, or an equivalent degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 30 credits in required courses and 6 credits in either elective courses or thesis.

Code	Title	Credits
<b>Required</b>		
PHYS 6110	Mathematical Methods of Theoretical Physics	
PHYS 6120	Advanced Mechanics	
PHYS 6210	Electrodynamics and Classical Field Theory	
PHYS 6220	Quantum Mechanics I	
PHYS 6310	Statistical Mechanics	
PHYS 6510	Communications in Physics	
PHYS 6130	Computational Physics I	
PHYS 6230	Computational Physics II	
PHYS 6330	Computational Physics III	
PHYS 6590	Seminar	
DATS 6202	Machine Learning I: Algorithm Analysis	

Non-thesis option—two of the following:

PHYS 6610	Nuclear and Particle Physics I
PHYS 6710	Nuclear and Particle Physics II
PHYS 6720	Biophysics II
PHYS 6630	Astrophysics I
PHYS 6730	Astrophysics II

or

Thesis option

PHYS 6998 Thesis Research

PHYS 6999 Thesis Research

Visit the program website (<https://physics.columbian.gwu.edu/graduate-academic-programs>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF PHYSICS

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Students must pass a general examination and an oral defense of the doctoral research program.

Code	Title	Credits
<b>Required</b>		
PHYS 6110	Mathematical Methods of Theoretical Physics	
PHYS 6120	Advanced Mechanics	
PHYS 6210	Electrodynamics and Classical Field Theory	
PHYS 6220	Quantum Mechanics I	
PHYS 6310	Statistical Mechanics	
PHYS 6320	Quantum Mechanics II	
PHYS 6130	Computational Physics I	
PHYS 6230	Computational Physics II	
PHYS 6330	Computational Physics III	

One of the following options:

Option A

PHYS 6610 Nuclear and Particle Physics I

PHYS 6710 Nuclear and Particle Physics II

Option B

PHYS 6620 Biophysics I

PHYS 6720 Biophysics II

Option C

PHYS 6630 Astrophysics I

PHYS 6730 Astrophysics II

Specific course requirements can be waived on a case-by-case basis upon approval of the department's graduate advisor.

## Research fields

- Nuclear physics—experimental and theoretical studies on the structure, electromagnetic, weak and strong interactions, and scattering of few-body systems at low and intermediate energies;
- Biophysics and condensed-matter physics—experimental, theoretical, and computational studies of structures and functions of cells, biological networks and biomolecules, deciphering information encoded in genome;
- Theoretical and observational astrophysics—high-energy astrophysics, multi-wavelength studies of extreme energy-density environments and huge energy releases in astrophysical objects;
- Interdisciplinary physics, including energy research and physics education research.

Visit the program website (<https://physics.columbian.gwu.edu/graduate-academic-programs>) for additional information.

## POLITICAL SCIENCE

The Department of Political Science, part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, offers a program that examines politics in depth on both a national and international scale. Classroom study is supplemented by opportunities to intern on Capitol Hill or at government agencies.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in political science (p. 338)
- Bachelor of Arts with a major in political science (public policy focus) (p. 341)
- Bachelor of Science with a major in political science (<http://bulletin.gwu.edu/arts-sciences/political-science/bs>)

### Minors

- Minor in political science (p. 343)
- Minor in public policy (p. 344)

### Combined programs

- Dual Bachelor of Arts with a major in political science and Master of Arts in the field of political science (<http://bulletin.gwu.edu/arts-sciences/political-science/dual-ba-ma-political-science>)
- Dual Bachelor of Arts with a major in political science and Master of Public Administration (<http://bulletin.gwu.edu/arts-sciences/political-science/dual-ba-mpa>)
- Dual Bachelor of Arts with a major in political science (public policy focus) and Master of Public Policy (<http://bulletin.gwu.edu/arts-sciences/political-science/dual-ba-public-policy-mpp>)
- Dual Bachelor of Arts with a major in political science and Master of Professional Studies in the field of legislative affairs (p. 963)
- Dual Bachelor of Arts with a major in political science and Master of Professional Studies in the field of political management (p. 964)

## GRADUATE

### Master's program

- Master of Arts in the field of political science (p. 344)

### Doctoral program

- Doctor of Philosophy in the field of political science (p. 347)

## FACULTY

**University Professors** M. Barnett, M. Finnemore

**Professors** S. Binder, M.E. Brown, N.J. Brown, C.J. Deering, B. Dickson (*Chair*), H. Farrell, H.B. Feigenbaum, C. Glaser, H.E. Hale, J.H. Lebovic, M. Lynch, F. Maltzman, C. McClintock, K.J. Morgan, H.R. Nau, D. Shambaugh, J.M. Sides, M.J. Sodaro, R.P. Stoker, P. Wahlbeck, S.L. Wolchik

**Associate Professors** S.J. Balla, B. Bartels, A. Bowie, I. Creppell, A. Downes, E. Grynawski, D. Hayes, S. Kaplan, E.D. Lawrence, Y. Lupu, C. McConaughy, M. Miller, M.M. Mochizuki, C. Mylonas, E.J. Teitelbaum, S. Wiley

**Assistant Professors** M. Allendoerfer, C. Arrington, A. Dean, S. Goldman, E. Kramon, R. Stein, D. Szakonyi, Y. Velez, C. Warshaw, W.J. Winstead

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: PSC 1001 Introduction to Comparative Politics is prerequisite to Group A courses (comparative politics), PSC 1002 Introduction to American Politics and Government is prerequisite to Group B courses (American government and politics), and PSC 1003 Introduction to International Politics is prerequisite to Group C courses (international politics, law, and organizations). Honors course equivalents are acceptable substitutes. Students who have taken PSC 1011 Introduction to Politics I-PSC 1012W Introduction to Politics II have fulfilled prerequisites to all three groups. Elliott School students substitute IAFF 1005 Introduction to International Affairs for PSC 1003 Introduction to International Politics as a prerequisite to Group C courses.

#### **PSC 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **PSC 1001. Introduction to Comparative Politics. 3 Credits.**

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries.

#### **PSC 1001W. Introduction to Comparative Politics. 0-3 Credits.**

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **PSC 1002. Introduction to American Politics and Government. 3 Credits.**

Structure, powers, and processes of the American political system and the impact on public policy.

#### **PSC 1002W. Introduction to American Politics and Government. 3 Credits.**

Structure, powers, and processes of the American political system and the impact on public policy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **PSC 1003. Introduction to International Politics. 3 Credits.**

Analysis of world politics, focusing on the role of nation-states and international organizations and on selected foreign policy issues.

#### **PSC 1011. Introduction to Politics I. 6 Credits.**

Role of personal and social values in politics. Problems in the Western (especially American) tradition of political science. Admission by special selection process.

#### **PSC 1012W. Introduction to Politics II. 6 Credits.**

Continuation of PSC 1011. Role of personal and social values in politics. Thinking outside the Western state: culture, nationalism, ethnic conflict, democratization, international conflict. Admission by special selection process. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **PSC 2000. Sophomore Colloquium. 3 Credits.**

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester; see department for more details. Permission of the instructor required prior to enrollment.

#### **PSC 2101. Scope and Methods of Political Science. 3 Credits.**

Nature of political inquiry, approaches to the study of politics and government, empirical methods of research.

#### **PSC 2102. Visualizing and Modeling Politics. 3 Credits.**

The class builds on PSC 2101, Scope and Methods of Political Science, with emphasis on working with data to examine political questions. Prerequisites: PSC 2101 or STAT 1051 or STAT 1053 or STAT 1111.

#### **PSC 2105. Major Issues of Western Political Thought I. 3 Credits.**

Foundations of Western political thought—Plato to Aquinas.

#### **PSC 2106. Major Issues of Western Political Thought II. 3 Credits.**

History of political thought from the sixteenth through the late nineteenth century, as set forth in the works of representative thinkers.

#### **PSC 2106W. Major Issues of Western Political Thought II. 3 Credits.**

History of political thought from the sixteenth through the late nineteenth century, as set forth in the works of representative thinkers. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PSC 2107. Twentieth-Century Political Thought. 3 Credits.**

Recent Western political thought; analysis and critique of the legacies of modern political theories and ideologies.

**PSC 2108. Freedom and Equality. 3 Credits.**

Case analysis of major ideas related to freedom and equality in the Western political tradition.

**PSC 2110. American Political Thought. 3 Credits.**

Political thought in the U.S. from colonial times to the present as seen through major representative writings.

**PSC 2120W. Freedom in American Thought and Popular Culture. 3 Credits.**

An inquiry into definitions of freedom through examination of American political thought and popular culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement (Same as AMST 2120, AMST 2120W, PSC 2120).

**PSC 2211. State and Urban Politics. 3 Credits.**

Comparative analysis of context, institutions, processes, and policies of state and urban political systems. Prerequisite: PSC 1002.

**PSC 2212. State and Urban Policy Problems. 3 Credits.**

Selected issues in state and urban policymaking, with emphasis on urban and metropolitan settings. Prerequisite: PSC 1002.

**PSC 2213. Judicial Politics. 3 Credits.**

An examination of judicial process and behavior. Emphasis on judicial selection, decision making, interaction with the political environment, and impact and implementation of decisions. Prerequisite: PSC 1002.

**PSC 2214. U.S. Constitutional Law and Politics I. 3 Credits.**

Separation of powers, federal-state relationships, economic regulation. Prerequisites: PSC 1002.

**PSC 2215. U.S. Constitutional Law and Politics II. 3 Credits.**

Political and civil rights. Prerequisites: PSC 1002.

**PSC 2216. The American Presidency. 3 Credits.**

Examination of the politics of presidential selection, the authority of the contemporary institution, the mechanisms and processes for formulating public policy, and the influences of personality on performance in office. Prerequisite: PSC 1002.

**PSC 2217. Executive Branch Politics. 3 Credits.**

Basic concepts in public administration; influence of bureaucratic politics on policy formulation and implementation. Prerequisite: PSC 1002. Same as PPPA 2117.

**PSC 2218. Legislative Politics. 3 Credits.**

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Prerequisite: PSC 1002.

**PSC 2218W. Legislative Politics. 3 Credits.**

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1002.

**PSC 2219. Political Parties and Interest Groups. 3 Credits.**

The emergence and evolution of political parties in the United States; role of parties as a linkage between mass preferences and government policies; organization, nominations, voting, and activities in legislative and executive branches. Prerequisite: PSC 1002.

**PSC 2220. Public Opinion. 3 Credits.**

How public opinion is measured, how it is shaped, and its consequences for policymaking. Prerequisite: PSC 1002.

**PSC 2221. African-American Politics. 3 Credits.**

The evolution, nature, and role of African Americans within the U.S. political system. How the African American experience has shaped American politics (specifically public opinion, political behavior, political institutions, and salient public policy debates) and how black Americans have come to understand their position within the American political system. Prerequisites: PSC-1002 or PSC-002 or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

**PSC 2222. Science, Technology, and Politics. 3 Credits.**

Multiple impacts of scientific and technological developments on the political systems. Discussion of public policies for support, use, and control of science and technology. Prerequisite: PSC 1002.

**PSC 2223. Campaigns and Elections. 3 Credits.**

Examination of the various forms of American political participation in electoral and governmental politics and their effects on the political process. Prerequisite: PSC 1002.

**PSC 2224. Issues in Domestic Public Policy. 3 Credits.**

Examination of the decision-making process and the substance of various issues in domestic public policy in such areas as crime, economics, education, energy, the environment, poverty, and health. Prerequisite: PSC 1002.

**PSC 2225. Women and Politics. 3 Credits.**

An examination of the role and impact of women in politics, including women's interests and access to the political system; specific public policy issues with a particular focus on the role of women. Prerequisite: PSC 1002.

**PSC 2228. Media, Politics, and Government. 3 Credits.**

The impact of mainstream media and online outlets on politics and the governing process; the role of social media, online advertising, and comedy shows; the changing ways in which voters receive information. Prerequisites: PSC 1002.

**PSC 2229. Media and Politics. 3 Credits.**

The impact of the media on American politics, including the nature of coverage of political issues and campaigns, dynamics of selecting and presenting news stories, and consequences of media messages for public opinion and action. Prerequisite: PSC 1002.

**PSC 2230. Law and Justice: The View from Hollywood. 3 Credits.**

Analysis of films that focus on justice, the law, and the legal system. Consideration of what they tell us about political and legal culture and what messages they may have for contemporary legal issues. Focus on the relationship between law and justice, the practice of law, and the role of courts and trials in a political system. Prerequisites: PSC 1002.

**PSC 2240. Poverty, Welfare, and Work. 3 Credits.**

The elements and politics of America's welfare state. Social welfare policies and how they relate to work and poverty. Prerequisites: PSC 1002.

**PSC 2330. Comparative Politics of Western Europe. 3 Credits.**

Comparative political analysis with primary focus on the principal states of Western Europe. Prerequisite: PSC 1001.

**PSC 2331. Comparative Politics of Central and Eastern Europe. 3 Credits.**

Specific countries vary, to include nations of central and Eastern Europe and/or the newly independent states of the former Soviet Union. Prerequisite: PSC 1001.

**PSC 2332. European Integration. 3 Credits.**

The history of the European Union, its accomplishments as an international actor, and the vibrant debates over its future. Prerequisite: PSC 1001.

**PSC 2334. Global Perspectives on Democracy. 3 Credits.**

International experiences with the historical evolution and current nature of democratic political systems. Prerequisite: PSC 1001.

**PSC 2336. State-Society Relations in the Developing World. 3 Credits.**

Historically informed exploration of enduring issues of concern in state-society relations, with an empirical focus on selected countries and regions of the developing world. Prerequisite: PSC 1001.

**PSC 2337. Development Politics. 3 Credits.**

An examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions? Prerequisite: PSC 1001.

**PSC 2338. Nationalism. 3 Credits.**

Causes and the effects of nationalism, covering cases from around the world. Prerequisite: PSC 1001.

**PSC 2339. Comparative Political Economy. 3 Credits.**

The interaction of politics and economy from a comparative perspective. Prerequisite: PSC 1001.

**PSC 2366. Russian Politics. 3 Credits.**

An examination of political institutions, processes, and issues of Russian politics. Prerequisite: PSC 1001.

**PSC 2367. Human Rights. 3 Credits.**

Human rights theory, the various movements for human, religious, civil, political, and other rights. Prerequisite: PSC 1001.

**PSC 2367W. Human Rights. 3 Credits.**

Human rights theory, the various movements for human, religious, civil, political, and other rights. Writing intensive. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1001.

**PSC 2368. Politics in the Two Koreas. 3 Credits.**

An examination of political institutions, processes, and issues in South Korea and North Korea as well as in inter-Korean relations and major-power involvement in peninsular affairs. Prerequisites: PSC-1001 or PSC-001 or PSC-1001W or PSC-001W or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

**PSC 2369. Comparative Politics of South Asia. 3 Credits.**

A comparative examination of colonialism, economic development, and identity politics in South Asia. Prerequisite: PSC 1001.

**PSC 2370. Comparative Politics of China and Northeast Asia. 3 Credits.**

Political institutions and processes of China (including Taiwan), Japan, and Korea since World War II. Influence of indigenous traditions and foreign contacts. Prerequisite: PSC 1001.

**PSC 2371. Politics and Foreign Policy of China. 3 Credits.**

An examination of political institutions, processes, history, and issues of Chinese politics and foreign policy. Prerequisites: IAFF 1005 or PSC 1001 or PSC 1001W or PSC 1003.

**PSC 2373. Comparative Politics of Southeast Asia. 3 Credits.**

Political forces, processes, and outcomes, using empirical examples from Southeast Asia. Prerequisite: PSC 1001.

**PSC 2374. Politics and Foreign Policy of Japan. 3 Credits.**

An examination of political institutions, processes, and issues of Japanese politics and foreign policy. Prerequisite: PSC 1001.

**PSC 2377. Comparative Politics of the Middle East. 3 Credits.**

Politics of the eastern Arab states, Turkey, Iran, and Israel. Prerequisite: PSC 1001.

**PSC 2377W. Comparative Politics of the Middle East. 3 Credits.**

Politics of the eastern Arab states, Turkey, Iran, and Israel. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1001.

**PSC 2379. Politics and Foreign Policy of Israel. 3 Credits.**

Examination of the institutions, processes, and issues of Israeli politics and foreign policy. Prerequisites: IAFF 1005 or PSC 1001 or PSC 1001W or PSC 1003.

**PSC 2381. Comparative Politics of Sub-Saharan Africa. 3 Credits.**

Comparative analysis of political systems in selected countries of Sub-Saharan Africa. Prerequisite: PSC 1001.

**PSC 2383. Comparative Politics of Latin America. 3 Credits.**

Exploration of the democratic advances in Latin America in recent decades as well as the continuing severe social, economic, and political challenges to democracy. Prerequisite: PSC 1001.

**PSC 2439. International Political Economy. 3 Credits.**

Analysis of the political aspects of global economic relationships, focusing on such issues as economic hegemony, interdependence, trade relations, development assistance, multinational corporations, and the role of international organizations. Prerequisite: PSC 1003.

**PSC 2440. Theories of International Politics. 3 Credits.**

Exploration of alternative theoretical approaches to understanding world politics in its historical and contemporary dimensions. Prerequisite: PSC 1003.

**PSC 2442. International Organizations. 3 Credits.**

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Prerequisite: PSC 1003.

**PSC 2442W. International Organizations. 3 Credits.**

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

**PSC 2444. Public International Law. 3 Credits.**

Survey of essential principles and concepts of public international law through case analysis and with reference to political factors. Prerequisite: PSC 1003.

**PSC 2446. U.S. Foreign Policy. 3 Credits.**

Constitutional, political, and international factors that determine the formulation, execution, and substance of U.S. foreign policy. Prerequisite: PSC 1003.

**PSC 2446W. U.S. Foreign Policy. 3 Credits.**

Constitutional, political, and international factors that determine the formulation, execution, and substance of U.S. foreign policy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSC 1003 or IAFF 1005.

**PSC 2447. American Presidents at War. 3 Credits.**

How American presidents have thought about and conducted wars using an analytical and historical approach. Prerequisites: PSC 1003 or IAFF 1005.

**PSC 2449. International Security Politics. 3 Credits.**

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Prerequisite: PSC 1003.

**PSC 2449W. International Security Politics. 3 Credits.**

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

**PSC 2451. Theory of War. 3 Credits.**

The nature, purposes, and conduct of war. Strategy and its relationship to politics. Major strategic variants for continental warfare, maritime conflict, strategic bombing, insurgency/counterinsurgency, and nuclear war. Prerequisites: PSC 1003.

**PSC 2451W. Theory of War. 3 Credits.**

The nature, purposes, and conduct of war. Strategy and its relationship to politics. Major strategic variants for continental warfare, maritime conflict, strategic bombing, insurgency and counterinsurgency, and nuclear war. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

**PSC 2453. U.S. Foreign Policy Perspectives. 3 Credits.**

Examination of alternative historical and contemporary perspectives on U.S. foreign policy. Prerequisite: PSC 1003.

**PSC 2454. Humanitarianism. 3 Credits.**

Norms, principles, and institutions designed to alleviate suffering and improve the welfare of vulnerable populations. Prerequisite: PSC 1003.

**PSC 2455. Global Governance. 3 Credits.**

The creation, revision, and enforcement of the rules that are intended to govern the world. Prerequisite: PSC 1003.

**PSC 2461. European-Atlantic Relations. 3 Credits.**

International politics of the North Atlantic area, the European Union, and U.S.-European relations. Prerequisite: PSC 1003.

**PSC 2468. Post-Soviet Foreign Policy. 3 Credits.**

External problems and policies of Russia and the other successor states of the former USSR (especially the Baltics, Ukraine, and southern rim of the former Soviet Union). Prerequisite: PSC 1003.

**PSC 2475. International Relations of East Asia. 3 Credits.**

Analysis of the foreign policies of selected East Asian countries and the foreign policies of major powers toward the region. Prerequisite: PSC 1003.

**PSC 2476. The Arab-Israeli Conflict. 3 Credits.**

History and current state of the Arab-Israeli Conflict; the Jewish and Arab nationalism movements; Palestine under the British Mandate and after the establishment of the State of Israel; the peace process and its collapse; and recent political developments. Prerequisite: PSC 1003.

**PSC 2476W. The Arab-Israeli Conflict. 3 Credits.**

The history and current state of the Arab-Israeli conflict; the Jewish and Arab nationalism movements; Palestine under the British Mandate and after the establishment of the State of Israel; the peace process and its collapse; and recent political developments. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSC 1003.

**PSC 2478. International Relations of the Middle East. 3 Credits.**

Analysis of the regional and international relations of the Middle East. Prerequisite: PSC 1003.

**PSC 2482. African International Politics. 3 Credits.**

Analysis of interstate relations in Africa and of selected aspects of African relations with the outside world. Prerequisite: PSC 1003. Recommended prerequisite: PSC 2381.

**PSC 2484. International Relations of Latin America. 3 Credits.**

Emphasis on U.S. foreign policy toward Latin America. Prerequisite: PSC 1003.

**PSC 2987. Internship: Political Science. 1-3 Credits.**

Study of political behavior and institutions through internship experience. Open to departmental majors only. Admission requires departmental approval and junior standing.

**PSC 2990. Selected Topics. 3 Credits.**

.

**PSC 2990W. Selected Topics. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**PSC 2991. Special Topics in Political Thought. 3 Credits.****PSC 2992. Special Topics in American Politics and Government. 3 Credits.**

Prerequisite: PSC 1002.

**PSC 2993. Special Topics in Comparative Politics. 3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisite: PSC 1001.

**PSC 2994. Special Topics in International Relations. 3 Credits.**

Prerequisite: PSC 1003.

**PSC 2994W. Special Topics in International Relations. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

**PSC 3192W. Proseminar: Political Science. 3 Credits.**

Examination of selected problems in political science. May be repeated once for credit. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors in the political science program.

**PSC 3500. Advanced Topics in Political Science. 3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. See department for details. Students must have completed four PSC courses at the 2000 level in addition to the prerequisite courses prior to enrollment. Prerequisites: PSC 1001, PSC 1002 and PSC 1003; and PSC 2101 or PSC 2102.

**PSC 4991. Independent Study. 1-3 Credits.**

Permission of the undergraduate program advisor and the faculty member who will direct the study required prior to enrollment. Restricted to seniors in the political science program. Prerequisite: 15 credits of upper-division political science courses.

**PSC 6103. Approaches to Public Policy Analysis. 3 Credits.**

Primarily for master's students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

**PSC 6113. The Constitution: History and Ideas. 3 Credits.**

With a focus on the history and ideas that influenced James Madison, consideration of ideas that formed the common heritage of all the framers of the Constitution. The separate traditions of liberty that were fused together in the Constitution. Early changes in American society that placed one of those traditions at the center of America's self-understanding.

**PSC 6114. Theories of Judicial Review. 3 Credits.**

How and why the U.S. Supreme Court interprets the Constitution. The theory behind the practice of judicial review. Consideration of such questions as whether the Constitution intended judicial review and how the two wings of today's Court justify their own position on judicial review.

**PSC 6187. Selected Topics in Political Theory. 3 Credits.**

In-depth study of significant issues in political theory. Topics vary by semester. Consult the Schedule of Classes for more details. For advanced students.

**PSC 6330. Comparative Government and Politics. 3 Credits.**

Examination of basic approaches to comparative politics. Restricted to students in the Elliott School.

**PSC 6333. Comparative Politics of Russia and Eurasia. 3 Credits.**

Comparative analysis of politics in the post-Soviet region. Theoretical and methodological approaches to understanding important issues, frequently including democracy/autocracy, ethnic conflict, political economy, center-periphery relations, and state building.

**PSC 6336. Political Economy of Developing Areas. 3 Credits.**

Comparative analysis of how development problems have been defined from both political and economic perspectives and the solutions proposed by outsiders and insiders. Emphasis on the rise, demise, and recovery of development orthodoxies.

**PSC 6338. U.S. Foreign Economic Policy. 3 Credits.**

Exploration of ideas and issues involved in U.S. foreign economic policy, including relationship of economic and security issues, interdependence, protectionism, role of the dollar, industrial policy, and the debt crisis.

**PSC 6345. Comparative Foreign Policy. 3 Credits.**

The relationship of international actors with one another and with their external environment analyzed in a comparative framework. Focus on nation-states as well as non-state actors, such as international organizations. Differences and similarities in policies on economics, diplomacy, security, and global issues.

**PSC 6346. The Politics of U.S. Foreign Policy. 3 Credits.**

Patterns and problems in contemporary U.S. foreign policy. Special attention given to the domestic political factors shaping foreign policy.

**PSC 6347. U.S. Foreign Policy Traditions. 3 Credits.**

Contemporary debate about the substance of American foreign policy through the lens of alternative theoretical approaches to the study of international relations. Classical realist (national interest), neorealist (balance of power), neoliberal (international interdependence and institutions), and constructivist (national identity) interpretations are compared.

**PSC 6348. Politics of U.S. National Security Policy. 3 Credits.**

Examines competing theoretical approaches to the study of national security policy and tests these on a variety of substantive issue areas in the United States. (May include such topics as nuclear non-proliferation, responses to regional conflicts, definition of new security goals, etc.).

**PSC 6349. International Security Politics. 3 Credits.**

Overview of the major theoretical debates in international security. How different theoretical approaches inform policy decisions and options.

**PSC 6350. Foreign Policy Analysis—Selected Topics. 3 Credits.**

Analysis of U.S. foreign policy toward selected world regions.

**PSC 6351. Civil-Military Relations. 3 Credits.**

Substantive and theoretical issues and debates in the study of civil-military relations.

**PSC 6360. Western European Politics. 3 Credits.**

Examination of the principal characteristics of the British, French, German, and Italian political systems, comparing their institutional and behavioral adaptations to the problems of advanced industrial democracies.

**PSC 6361. Politics of European Integration. 3 Credits.**

The origins, institutions, and politics of West European integration, with emphasis on theories of regional integration and the development of the European Union.

**PSC 6362. Nation-Building in the Balkans. 3 Credits.**

The various nation-building policies Balkan nation-states have pursued toward different non-core groups over the nineteenth and twentieth centuries.

**PSC 6364. Comparative Governments and Politics of Central And Eastern Europe. 3 Credits.**

Comparative analysis of domestic political processes and policies in Central and Eastern Europe.

**PSC 6366. Government and Politics of Russia. 3 Credits.**

The politics and development of the Russian state.

**PSC 6367. Post-Soviet Politics. 3 Credits.**

How the study of former Soviet countries contributes to major debates in comparative politics. Focus includes regimes, political economy, revolutions, ethnic politics, nationalism.

**PSC 6368. Japanese Politics and Foreign Policy. 3 Credits.**

Japan's path to modernity and the impact its pattern of development has had on the nation's democratization, political economy, and political institutions in the post-1945 period.

**PSC 6370. Politics of China I. 3 Credits.**

Readings and discussion of the political dynamics and policy process in contemporary China.

**PSC 6371. Politics of China II. 3 Credits.**

Research seminar on selected topics in Chinese politics, using official and other primary sources. Prerequisites: PSC 6370 or permission of the instructor.

**PSC 6372. Foreign Policy of China. 3 Credits.**

Readings and research on the main approaches to analyzing China's foreign policy and foreign relations.

**PSC 6373. Political Economy of Industrializing Asia. 3 Credits.**

Comparative analysis of the relationship between economic interests and politics in East and Southeast Asia. Emphasis on industrializing economies and their integration into global trade and investment networks.

**PSC 6374. Korean Politics. 3 Credits.**

An examination of Korean politics from the perspectives of four major research areas: authoritarian regime and economic growth; democratic transition and consolidation; the Asian financial crisis and its consequences; and the two Koreas and international relations.

**PSC 6377. Comparative Politics of the Middle East. 3 Credits.**

Readings and research on selected problems of the governments and politics of the Middle East.

**PSC 6379. Government and Politics of Africa. 3 Credits.**

Major theories and themes of African politics considering the context shaping political and economic reforms, formal and informal institutions, and prospects for political reform.

**PSC 6383. Comparative Politics of Latin America. 3 Credits.**

Readings and discussion on the politics of selected countries in South America, Central America, and the Caribbean. Emphasis on the possibilities for democracy and revolution.

**PSC 6388. Topics in Comparative Politics. 3 Credits.****PSC 6390. Politics and Culture. 3 Credits.**

Study of the intersection of culture and politics.

**PSC 6439. International Political Economy. 3 Credits.**

Research seminar exploring alternative theoretical approaches to the study of international political economy and their application to the explanation and interpretation of historical and contemporary events in world political and economic affairs. Primarily for Elliott School degree candidates.

**PSC 6440. Theory in International Relations. 3 Credits.**

Theories of international relations. Restricted to students in the Elliott School.

**PSC 6442. Politics and Practice of International Institutions. 3 Credits.**

The politics of international institutions in the areas of collective security, peace keeping, trade, money, development, environment, human rights.

**PSC 6444. Politics of International Law. 3 Credits.**

The political sources and consequences of international law and norms.

**PSC 6456. Origins of Major Wars and Terrorism. 3 Credits.**

An examination of the origins of major wars, including terrorism, from the eighteenth to the twentieth centuries from the theoretical perspectives of realism, liberalism, and constructivism/identity.

**PSC 6457. Arms Control and Disarmament. 3 Credits.**

Major issues and trends in the postwar development of U.S. arms control and disarmament policy.

**PSC 6465. The International Politics of Central and Eastern Europe. 3 Credits.**

Major historical, political, social, and regional factors that have shaped the interwar, World War II, and postwar evolution of Eastern Europe; emphasis on foreign relations with outside powers and on regional East-West contacts.

**PSC 6467. Asian Security. 3 Credits.**

An examination of the major issues in Asian Security using various theoretical perspectives involving a mix of political science and policy analysis.

**PSC 6475. International Politics of East Asia. 3 Credits.**

Foreign policies and international behavior of the regional states (especially China, Japan, and Vietnam) and the extraregional powers (especially the U.S. and Russia).

**PSC 6476. The Arab-Israeli Conflict. 3 Credits.**

Readings and research on the origins, evolution, and issues of the Arab-Israeli conflict.

**PSC 6478. International Relations of the Middle East. 3 Credits.**

Readings and research on the regional and international relations of the Middle East.

**PSC 6484. International Relations of Latin America. 3 Credits.**

Readings and discussion on U.S.-Latin American relations and the foreign policies of selected states.

**PSC 6489. Topics in International Relations. 3 Credits.****PSC 6987. Legal Internship. 3 Credits.**

Study of the interior workings of legal institutions and related organizations through an approved internship with a court, law firm, legal advocacy group, public defender's office, or legal think tank. A research paper is required.

**PSC 6996. Reading. 3 Credits.**

Written permission of the instructor required prior to enrollment. Restricted to graduate degree candidates.

**PSC 6997. Research. 3 Credits.**

Written permission of the instructor required prior to enrollment. Restricted to graduate students in the political science program.

**PSC 6998. Thesis Research. 3 Credits.****PSC 6999. Thesis Research. 3 Credits.****PSC 8101. Introduction to Empirical Political Analysis. 3 Credits.**

Statistical foundations of empirical political analysis and computer applications. Basic probability theory, exploratory and descriptive data analysis, statistical inference, and introduction to linear regression.

**PSC 8102. Empirical Political Analysis. 3 Credits.**

Techniques of social science data analysis. Model building, estimation, and interpretation. Linear models and extensions. Introduction to discrete choice models. Prerequisite: PSC 8101 or permission of the instructor.

**PSC 8103. Approaches to Policy Analysis. 3 Credits.**

Primarily for doctoral students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

**PSC 8104. Qualitative Research Methods. 3 Credits.**

Theoretical, practical, and ethical aspects of conducting qualitative research.

**PSC 8105. Readings in Political Theory. 3 Credits.**

Selected major works, both ancient and modern, that illuminate basic problems and questions of political theory.

**PSC 8106. Topics in Political Theory. 3 Credits.**

Advanced readings and group discussions. Analysis and interpretation of selected concepts and schools of thought.

**PSC 8107. Modern Political Thought and Ideologies. 3 Credits.**

Analysis of some main currents in modern political thought and ideologies.

**PSC 8108. Craft of Political Inquiry. 3 Credits.**

Logic of inquiry in political science: theories of knowledge, inference, and research methods.

**PSC 8109. Dissertation Development Workshop. 3 Credits.**

Design and development of dissertation research proposal for political science PhD Students.

**PSC 8120. Nonlinear Models. 3 Credits.**

Introduction to maximum likelihood estimation interpretation of non-linear statistical models. Statistical inference, appropriate use, and presentation and interpretation of results.

**PSC 8122. Logitudinal Analysis. 3 Credits.**

Examination of two classes of statistical models for longitudinal data—(1) models for time-series, cross-sectional and panel data and (2) modeling event history (i.e., duration, survival, hazard).

**PSC 8124. Multilevel Modeling. 3 Credits.**

Statistical issues and models for multilevel (hierarchical) data structures, including the variance components, random intercept, and random coefficient models. Handling cross-level interactions.

**PSC 8130. Game Theory I. 3 Credits.**

Introduction to the core elements of game theory and how it has been utilized in political science. Applications of formal models to political phenomena and the major insights that have come from this work. Restricted to graduate students in the political science program.

**PSC 8131. Game Theory II. 3 Credits.**

Builds on the introductory material in Game Theory I to focus on examples of formal work in political science. Students expand their knowledge of advanced games and learn the principles behind exemplary published research. Restricted to graduate students in the political science program.

**PSC 8132. Network Analysis. 3 Credits.**

Sociological and psychological foundations of network theory; network measurement and inferential tools; applications of these tools and concepts to political science. Restricted to graduate students in the political science program.

**PSC 8185. Topics in Empirical and Formal Political Analysis. 3 Credits.**

Selected topics in quantitative political methodology and formal political theory with varying emphasis on maximum likelihood estimation, nonlinear models, causal inference, formal theories, and mathematical/computational tools for the social sciences. May be repeated for credit provided the topic differs. Prerequisite: PSC 8120.

**PSC 8187. Selected Topics in Political Theory. 3 Credits.**

In-depth coverage of significant issues in political theory, including such topics as justice, toleration, and political community. For advanced students.

**PSC 8210. American Political Process. 3 Credits.**

A survey of American political institutions, processes, and behavior.

**PSC 8211. Urban Politics. 3 Credits.**

Comparative analysis of the context, institutions, processes, and policies of urban political systems.

**PSC 8212. Urban Policy Problems. 3 Credits.**

Analysis of public policy issues confronting urban governments; emphasis on the theoretical roots and empirical impact of past and present programs in such areas as housing, education, poverty, and crime.

**PSC 8213. Judicial Politics. 3 Credits.**

Introduction to the literature of judicial process and behavior studies; specific focus on selected topics. Emphasis on the major subfields of law, courts, and judicial process.

**PSC 8215. Law, Politics, and Society. 3 Credits.**

Role of the judiciary in policy formulation; emphasis on the U.S. Supreme Court and civil liberties issues.

**PSC 8216. American Presidency. 3 Credits.**

Personalized and institutionalized aspects of the presidency, with particular emphasis on the politics of contemporary policymaking.

**PSC 8217. Executive Branch Politics. 3 Credits.**

Structure and operation of governmental bureaucracy with particular emphasis on the politics of formulating and implementing public policy.

**PSC 8218. Legislative Politics. 3 Credits.**

Theory, structure, and process of the U.S. Congress, with emphasis on member-constituency relations, individual and collective decision making, party and committee activities, executive-legislative relations, and interest-group activities.

**PSC 8219. Political Parties and Elections. 3 Credits.**

Nature and functions of American political parties: organizational status, nominating and electoral politics, and role in governing.

**PSC 8220. Public Opinion and Political Psychology. 3 Credits.**

Sources and dynamics of public opinion and political socialization.

**PSC 8221. Interest-Group Politics. 3 Credits.**

Theory, structure, and activities of interest groups in American politics.

**PSC 8226. Politics and Organizations. 3 Credits.**

Theoretical approaches to understanding organizational behavior and change; applications to specific political problems in U.S., international, and comparative politics.

**PSC 8229. Politics and Public Policy. 3 Credits.**

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis.

**PSC 8286. Selected Topics in American Politics. 3 Credits.**

In-depth coverage of significant theoretical and empirical issues in American politics, including such topics as political behavior, electoral politics, and race and politics. For advanced students. (Offered as the demand warrants).

**PSC 8331. Advanced Theories of Comparative Politics. 3 Credits.**

Major concepts, methods, and theoretical debates in comparative politics, including cultural, rational, and institutional approaches.

**PSC 8333. Political Violence. 3 Credits.**

Theoretical and methodological approaches to studying violence, such as civil wars, ethnic riots, suicide bombings, and genocide, and the impact of violence on societies and people. Restricted to graduate students in the political science program.

**PSC 8334. Democracy and Democratization in Comparative Perspective. 3 Credits.**

Theoretical approaches to processes of democratization. Evaluation of cultural, economic, institutional, and international-actor approaches. Case analysis of recently transitioned or transitioning nations. Primarily for PhD students in political science.

**PSC 8337. Theories of Political Development. 3 Credits.**

Examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions?.

**PSC 8338. Nationalism and Nation-Building. 3 Credits.**

Nationalism, ethnic conflict, and nation-building; the effects of nationalism on political identities, state formation, patterns of political violence, definitions of citizenship, migration policies, and voting behavior.

**PSC 8340. Authoritarianism and Democratization. 3 Credits.**

The political science scholarship on authoritarian regimes, including their institutional features, strategies for survival, and prospects for change.

**PSC 8341. Theories of Ethnic Politics. 3 Credits.**

Focus on cutting-edge interdisciplinary theories of ethnicity's role in politics. Ethnicity's relationship to democracy, economy, psychology, conflict, and solutions. Cases worldwide.

**PSC 8388. Selected Topics in Comparative Politics. 3 Credits.**

In-depth coverage of significant theoretical and empirical issues in comparative politics, including such topics as democratization, the politics of development, the role of the state in advanced industrial societies, gender and ethnicity, and the politics of nationalism. (Offered as the demand warrants).

**PSC 8441. Advanced Theories of International Politics. 3 Credits.**

Perspectives examined range from realism to critical theory and focus upon a variety of explanatory variables.

**PSC 8450. Topics in International Relations. 3 Credits.**

.

**PSC 8452. Theories of International Security. 3 Credits.**

Focus on conflict in different systems and scenarios and on causes and consequences of different strategies. The role of ethics in international security.

**PSC 8453. Advanced Theories of Political Economy. 3 Credits.**

Major theories of political economy, from classical perspectives on problems of international cooperation to modern treatments of trade, finance, investment, and regulation.

**PSC 8454. Domestic Politics and International Relations. 3 Credits.**

Theoretical and empirical approaches to exploring the relationship between domestic politics and international relations. Restricted to PhD students in the political science program and MA students with permission of the instructor.

**PSC 8460. Military Intervention. 3 Credits.**

Theoretical and empirical approaches to the study of military interventions. The challenges of designing political science research on a complex and policy-relevant topic like military intervention.

**PSC 8461. Military Effectiveness. 3 Credits.**

Theories of military effectiveness in conventional wars. Case studies of several conflicts and brief exploration of effectiveness in unconventional wars.

**PSC 8462. Civil War. 3 Credits.**

Theories of causes, conduct, and termination of civil wars. Consideration of violence against civilians, rebel recruitment, counterinsurgency, and civil war outcomes.

**PSC 8489. Selected Topics in International Politics. 3 Credits.**

In-depth coverage of significant theoretical and empirical issues in international politics, including such topics as comparative foreign policy, ethics and norms in international politics, the politics of military intervention, and theories of security in a post-Cold War environment. For advanced students. (Offered as the demand warrants).

**PSC 8997. Advanced Reading. 1-3 Credits.**

Advanced reading course. Restricted to doctoral candidates preparing for the general examination.

**PSC 8998. Advanced Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**PSC 8999. Dissertation Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

## BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite</b>		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 1003	Introduction to International Politics (or the equivalent)	
Two courses in either economics or history,* and an additional four courses in the social sciences selected from the following departments: ANTH (excluding ANTH 1001, ANTH 1005, and courses in the 3400 range), COMM, GEOG, HMSR, LING, SMPA (excluding SMPA 2112, SMPA 3236, and SMPA 2117), ORSC, PSYC, SPHR, SOC, IAFF, PSTD,* and WGSS.* Students also may choose from the following courses:		
HONR 2043	Honors Microeconomics	
HONR 2044	Honors Macroeconomics	
NSC 2126	Sea Power and Maritime Affairs	
NSC 2160	Evolution of Warfare	
NSC 2180	Amphibious Warfare	

The program strongly recommends that students take 12 credits in introductory foreign language and statistics.

Code	Title	Credits
<b>Required</b>		
Ten upper-division political science courses for a total of 30 credits, including one course from each of the following groups:		
Group A (comparative politics)		
PSC 2330	Comparative Politics of Western Europe	
PSC 2331	Comparative Politics of Central and Eastern Europe	
PSC 2332	European Integration	
PSC 2334	Global Perspectives on Democracy	
PSC 2336	State-Society Relations in the Developing World	
PSC 2337	Development Politics	
PSC 2338	Nationalism	
PSC 2339	Comparative Political Economy	

PSC 2366	Russian Politics
PSC 2367	Human Rights
or PSC 2367W	Human Rights
PSC 2368	Politics in the Two Koreas
PSC 2369	Comparative Politics of South Asia
PSC 2370	Comparative Politics of China and Northeast Asia
PSC 2371	Politics and Foreign Policy of China
PSC 2373	Comparative Politics of Southeast Asia
PSC 2374	Politics and Foreign Policy of Japan
PSC 2377	Comparative Politics of the Middle East
or PSC 2377W	Comparative Politics of the Middle East
PSC 2379	Politics and Foreign Policy of Israel
PSC 2381	Comparative Politics of Sub-Saharan Africa
PSC 2383	Comparative Politics of Latin America
PSC 2993	Special Topics in Comparative Politics
Group B (American government and politics)	
PSC 2211	State and Urban Politics
PSC 2212	State and Urban Policy Problems
PSC 2213	Judicial Politics
PSC 2214	U.S. Constitutional Law and Politics I
PSC 2215	U.S. Constitutional Law and Politics II
PSC 2216	The American Presidency
PSC 2217	Executive Branch Politics
PSC 2218	Legislative Politics
or PSC 2218W	Legislative Politics
PSC 2219	Political Parties and Interest Groups
PSC 2220	Public Opinion
PSC 2221	African-American Politics
PSC 2222	Science, Technology, and Politics
PSC 2223	Campaigns and Elections
PSC 2224	Issues in Domestic Public Policy

PSC 2225	Women and Politics
PSC 2228	Media, Politics, and Government
PSC 2229	Media and Politics
PSC 2230	Law and Justice: The View from Hollywood
PSC 2240	Poverty, Welfare, and Work
PSC 2992	Special Topics in American Politics and Government
Group C (international politics, law, and organizations)	
PSC 2439	International Political Economy
PSC 2440	Theories of International Politics
PSC 2442	International Organizations
or PSC 2442W	International Organizations
PSC 2444	Public International Law
PSC 2446	U.S. Foreign Policy
PSC 2447	American Presidents at War
PSC 2449	International Security Politics
or PSC 2449W	International Security Politics
PSC 2451	Theory of War
or PSC 2451W	Theory of War
PSC 2453	U.S. Foreign Policy Perspectives
PSC 2454	Humanitarianism
PSC 2455	Global Governance
PSC 2461	European-Atlantic Relations
PSC 2468	Post-Soviet Foreign Policy
PSC 2475	International Relations of East Asia
PSC 2476	The Arab-Israeli Conflict
or PSC 2476W	The Arab-Israeli Conflict
PSC 2478	International Relations of the Middle East
PSC 2482	African International Politics
PSC 2484	International Relations of Latin America
PSC 2994	Special Topics in International Relations
Group D (research methods)	

PSC 2101 Scope and Methods of Political Science

PSC 2102 Visualizing and Modeling Politics

Group E (political thought)

PSC 2105 Major Issues of Western Political Thought I

PSC 2106 Major Issues of Western Political Thought II

or PSC 2106W Major Issues of Western Political Thought II

PSC 2107 Twentieth-Century Political Thought

PSC 2108 Freedom and Equality

PSC 2110 American Political Thought

PSC 2120 Freedom in American Thought and Popular Culture

or PSC 2120W Freedom in American Thought and Popular Culture

PSC 2991 Special Topics in Political Thought

#### Proseminar

PSC 3192W Proseminar: Political Science (taken in the junior or senior year) \*\*

\*In addition to the CCAS General Education Requirements (<http://columbian.gwu.edu/undergraduate/advising/gpac>) list of courses in social and behavioral sciences, courses in history, peace studies, and women's, gender, and sexuality studies are considered social sciences for this requirement.

\*\*Students in the major must take at least one offering of PSC 3192W Proseminar: Political Science, which counts toward the 30-credit requirement but does not satisfy group distribution requirements.

NOTE: No more than 3 credits of PSC 2987 Internship: Political Science may be credited toward the major. Additionally, PSC 2987 Internship: Political Science does not satisfy the upper-division distribution requirement.

Specific group credit for offerings of PSC 2990 Selected Topics is determined by the undergraduate advisor.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a GPA in upper level Political Science courses of 3.7 or higher.

The GPA in upper level PSC classes is calculated using only PSC upper level or 2000, 3000, and 4000 level classes with no substitution classes and no transfer classes.

The designation of Honors appears on the student's transcript, not on the diploma.

# BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE (PUBLIC POLICY FOCUS)

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite</b>		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 1003	Introduction to International Politics	
<b>Required</b>		
30 credit of upper-division courses in political science distributed as follows:		
Three courses (9 credits) in policy-oriented courses from the following:		
PSC 2212	State and Urban Policy Problems	
PSC 2213	Judicial Politics	
PSC 2216	The American Presidency	
PSC 2217	Executive Branch Politics	
PSC 2218 or PSC 2218W	Legislative Politics Legislative Politics	
PSC 2219	Political Parties and Interest Groups	
PSC 2240	Poverty, Welfare, and Work	
PSC 2222	Science, Technology, and Politics	
PSC 2224	Issues in Domestic Public Policy	
PSC 2446	U.S. Foreign Policy	
PSC 2468	Post-Soviet Foreign Policy	

One policy-oriented proseminar (3 credits):

PSC 3192W	Proseminar: Political Science (topic must be policy oriented)
-----------	---

One course (3 credits) from each of the following groups:

Group A (comparative politics)	
PSC 2330	Comparative Politics of Western Europe
PSC 2331	Comparative Politics of Central and Eastern Europe
PSC 2332	European Integration
PSC 2334	Global Perspectives on Democracy
PSC 2336	State-Society Relations in the Developing World
PSC 2337	Development Politics
PSC 2338	Nationalism
PSC 2339	Comparative Political Economy
PSC 2366	Russian Politics
PSC 2367 or PSC 2367W	Human Rights Human Rights
PSC 2368	Politics in the Two Koreas
PSC 2369	Comparative Politics of South Asia
PSC 2370	Comparative Politics of China and Northeast Asia
PSC 2371	Politics and Foreign Policy of China
PSC 2373	Comparative Politics of Southeast Asia
PSC 2374	Politics and Foreign Policy of Japan
PSC 2377 or PSC 2377W	Comparative Politics of the Middle East Comparative Politics of the Middle East
PSC 2379	Politics and Foreign Policy of Israel
PSC 2380	Govts & Politics- North Africa
PSC 2381	Comparative Politics of Sub-Saharan Africa
PSC 2383	Comparative Politics of Latin America
PSC 2993	Special Topics in Comparative Politics

Group B (American government and politics)

PSC 2211	State and Urban Politics
PSC 2213	Judicial Politics
PSC 2214	U.S. Constitutional Law and Politics I
PSC 2215	U.S. Constitutional Law and Politics II
PSC 2216	The American Presidency
PSC 2218	Legislative Politics
or PSC 2218W	Legislative Politics
PSC 2219	Political Parties and Interest Groups
PSC 2220	Public Opinion
PSC 2221	African-American Politics
PSC 2223	Campaigns and Elections
PSC 2225	Women and Politics
PSC 2228	Media, Politics, and Government
PSC 2229	Media and Politics
PSC 2230	Law and Justice: The View from Hollywood
PSC 2992	Special Topics in American Politics and Government
Group C (international politics, law, and organizations)	
PSC 2439	International Political Economy
PSC 2440	Theories of International Politics
PSC 2442	International Organizations
or PSC 2442W	International Organizations
PSC 2444	Public International Law
PSC 2446	U.S. Foreign Policy
PSC 2447	American Presidents at War
PSC 2449	International Security Politics
or PSC 2449W	International Security Politics
PSC 2451	Theory of War
or PSC 2451W	Theory of War
PSC 2453	U.S. Foreign Policy Perspectives
PSC 2454	Humanitarianism
PSC 2455	Global Governance

PSC 2461	European-Atlantic Relations
PSC 2468	Post-Soviet Foreign Policy
PSC 2475	International Relations of East Asia
PSC 2476	The Arab-Israeli Conflict
or PSC 2476W	The Arab-Israeli Conflict
PSC 2478	International Relations of the Middle East
PSC 2482	African International Politics
PSC 2484	International Relations of Latin America
PSC 2994	Special Topics in International Relations
Group D (research methods)	
PSC 2101	Scope and Methods of Political Science
PSC 2102	Visualizing and Modeling Politics
Group E (political thought)	
PSC 2105	Major Issues of Western Political Thought I
PSC 2106	Major Issues of Western Political Thought II
or PSC 2106W	Major Issues of Western Political Thought II
PSC 2107	Twentieth-Century Political Thought
PSC 2108	Freedom and Equality
PSC 2110	American Political Thought
PSC 2120	Freedom in American Thought and Popular Culture
or PSC 2120W	Freedom in American Thought and Popular Culture
PSC 2991	Special Topics in Political Thought
One elective upper-division political science course (3 credits).	

Code	Title	Credits
<b>Six courses (18 credits) in other social sciences and statistics, which must include:</b>		
Four required courses:		
ECON 1011	Principles of Economics I	
ECON 1012	Principles of Economics II	

ECON 2101	Intermediate Microeconomic Theory
STAT 1051	Introduction to Business and Economic Statistics
or STAT 1053	Introduction to Statistics in Social Science
or STAT 1111	Business and Economic Statistics I

and two of the following:

ECON 2151	Economic Development
ECON 2158	Industrial Organization
ECON 2159	Government Regulation of the Economy
ECON 3161	Public Finance: Expenditure Programs
ECON 3162	Public Finance: Taxation
ECON 3181	International Trade Theory
ECON 3190	Law and Economics
SOC 2105	Social Problems in American Society
SOC 2112	Evaluation Research
SOC 2135	Youth and Delinquency
SOC 2136	Criminology
SOC 2137	Transnational Crime
SOC 2145	Criminal Law
SOC 2146	The Bill of Rights and Criminal Justice
SOC 2161	Sociology of Complex Organizations
SOC 2170	Class and Inequality in American Society
STAT 1129	Introduction to Computing
STAT 2118	Regression Analysis
STAT 2123	Introduction to Econometrics
STAT 2183	Intermediate Statistics Lab/Packages

12 credits in introductory foreign language and statistics courses is strongly recommended.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with

Special Honors, a student must have a GPA in upper level Political Science courses of 3.7 or higher.

The GPA in upper level PSC classes is calculated using only PSC upper level or 2000, 3000, and 4000 level classes with no substitution classes and no transfer classes.

The designation of Honors appears on the student's transcript, not on the diploma.

## COMBINED PROGRAMS, POLITICAL SCIENCE

### REQUIREMENTS

The bachelor of arts with a major in political science may be taken as a combined degree with the following seven master's programs:

- Master of Arts in the field of political science (<http://bulletin.gwu.edu/arts-sciences/political-science/ma>)
- Master of Professional Studies in the field of legislative affairs (p. 963)
- Master of Professional Studies in the field of political management (p. 964)
- Master of Public Policy (<http://bulletin.gwu.edu/arts-sciences/public-policy-administration/mpp>) (available only to majors in the public policy focus)
- Master of Public Administration (<http://bulletin.gwu.edu/arts-sciences/public-policy-administration/mpa>)

The program allows students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

Departmental majors who are interested in pursuing a combined bachelor's/master's program should consult the undergraduate program advisor at the beginning of their junior year (after completing 60 credits at GW).

The combined degree program leading to the master of arts in the field of political science is available only to students who qualify for Special Honors. Interested students should consult the undergraduate program advisor as soon as possible in order to select courses appropriately.

Visit the Department of Political Science website (<https://politicalscience.columbian.gwu.edu/combined-degree-programs>) for additional information.

## MINOR IN POLITICAL SCIENCE REQUIREMENTS

The following requirements must be fulfilled: 18 credits in political science (PSC) courses.

Code	Title	Credits
<b>Required</b>		
One course from the following:		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 1003	Introduction to International Politics	
One course from the following:		
PSC 2105	Major Issues of Western Political Thought I	
PSC 2106	Major Issues of Western Political Thought II	
or PSC 2106W	Major Issues of Western Political Thought II	
PSC 2107	Twentieth-Century Political Thought	
PSC 2108	Freedom and Equality	
PSC 2110	American Political Thought	
PSC 2120	Freedom in American Thought and Popular Culture	
or PSC 2120W	Freedom in American Thought and Popular Culture	
or AMST 2120W	Freedom in American Thought and Popular Culture	
PSC 2991	Special Topics in Political Thought	
Four additional PSC courses.		

## MINOR IN PUBLIC POLICY

The following requirements must be fulfilled: 24 credits, including 15 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 2101	Scope and Methods of Political Science	
or PSC 2102	Visualizing and Modeling Politics	
ECON 1011	Principles of Economics I	

ECON 1012	Principles of Economics II	
<b>Electives</b>		
Three courses (9 credits) from the following:		
PSC 2212	State and Urban Policy Problems	
PSC 2213	Judicial Politics	
PSC 2216	The American Presidency	
PSC 2217	Executive Branch Politics	
PSC 2218	Legislative Politics	
PSC 2219	Political Parties and Interest Groups	
PSC 2222	Science, Technology, and Politics	
PSC 2224	Issues in Domestic Public Policy	
PSC 2240	Poverty, Welfare, and Work	
PSC 2446	U.S. Foreign Policy	
PSC 2468	Post-Soviet Foreign Policy	

## MASTER OF ARTS IN THE FIELD OF POLITICAL SCIENCE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

33 credits, including a minimum 15 credits (five courses) selected according to departmental guidelines in one of the following three tracks: American politics, world politics, and law and politics; and 18 credits (six courses) selected from among all tracks.

Code	Title	Credits
<b>Required</b>		
15 credits (five courses) in one of the three tracks listed below and 18 credits (six courses) selected from among all tracks.		
American politics track		
PSC 6103	Approaches to Public Policy Analysis	
PSC 6114	Theories of Judicial Review	
PSC 6222	Executive Legislative Relation	
PSC 6224	Domestic Policy Analysis	

PSC 6228	Media and Politics
PSC 6346	The Politics of U.S. Foreign Policy
PSC 6347	U.S. Foreign Policy Traditions
PSC 6348	Politics of U.S. National Security Policy
PSC 8210	American Political Process
PSC 8211	Urban Politics
PSC 8212	Urban Policy Problems
PSC 8213	Judicial Politics
PSC 8215	Law, Politics, and Society
PSC 8216	American Presidency
PSC 8217	Executive Branch Politics
PSC 8218	Legislative Politics
PSC 8219	Political Parties and Elections
PSC 8220	Public Opinion and Political Psychology
PSC 8221	Interest-Group Politics
PSC 8226	Politics and Organizations
PSC 8229	Politics and Public Policy
PSC 8286	Selected Topics in American Politics
SMPA 6207	Political Persuasion and Public Opinion
SMPA 6210	Media and Foreign Policy
SMPA 6272	Media Bias, Power, and Democracy

## Other requirements

Successful completion of a comprehensive examination.

# DOCTOR OF PHILOSOPHY IN THE FIELD OF POLITICAL SCIENCE REQUIREMENTS

Students of outstanding ability are admitted to the doctoral program upon recommendation of a departmental graduate committee and the concurrence of Columbian College.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Code	Title	Credits
------	-------	---------

## Required

PSC 8101	Introduction to Empirical Political Analysis
PSC 8108	Craft of Political Inquiry
PSC 8109	Dissertation Development Workshop
PSC 8210	American Political Process
PSC 8331	Advanced Theories of Comparative Politics
PSC 8441	Advanced Theories of International Politics

Four additional major field courses.

Three additional minor field courses.

## Additional requirements

In addition to required coursework, program requirements consists of two research tools, two comprehensive examinations covering a primary and supporting field, an original research paper, and a dissertation demonstrating the capacity to undertake original and significant research. The research tools may be selected from reading knowledge of a modern foreign language, a specified level of knowledge in statistics, or two graduate-level courses in a cognate discipline. The research paper, to be completed by the second year in the program, must reflect the student's ability to conduct original research. Students prepare for the comprehensive exams by taking at least five courses in their primary field and at least four courses in their supporting field, selected according to departmental guidelines. Three primary fields are available: American politics, international relations, and comparative politics. In addition, political theory, public policy, and research methodology are available as supporting fields. Petitions for a self-designed minor field (e.g., political communications) composed primarily of courses not offered by the established fields can be jointly proposed by students and faculty. All students must complete a sequence of courses in research methodology comprising PSC 8101, PSC 8108, and PSC 8109. Completion of PSC 8120 with a minimum grade of *B* will be taken as evidence that a student has achieved the level of knowledge in statistics necessary to satisfy one of the research tool requirements as outlined above.

A recommendation to the Dean for admission to candidacy, or the dissertation research stage, will be considered upon

satisfactory completion of all coursework, tool requirements, research paper, field examinations, and successful defense of the dissertation prospectus. Students must pass their primary field examination with a satisfactory pass or above and must pass their supporting field examination with a bare pass or above in order to be considered eligible for promotion to candidacy. Admission to candidacy is permitted only if the student's performance on the examinations and in the coursework gives a good indication of success in the second unit. Passing the field examinations does not in itself ensure admission to candidacy.

The dissertation prospectus must outline the central research question(s), relate the proposed research to the existing literature, detail a research methodology, and explain the nature of the original contribution that the completed project will provide. The prospectus must be presented and defended in an open forum, which all faculty and doctoral students are invited to attend. The full dissertation must be similarly defended. A dual degree program enables students to earn the master of public policy along with the PhD in the field of political science.

## PROFESSIONAL PSYCHOLOGY

Offered through the Columbian College of Arts and Sciences social and behavioral sciences discipline, the professional psychology program offers the graduate degrees master of arts in the field of forensic psychology and doctor of psychology (PsyD) in the field of clinical psychology.

The MA degree program is designed to address a growing need for criminal profilers, competency experts, psychological evaluators, and counselors. Students are immersed in courses ranging from the psychopathology of serial criminals and terrorist agents to the treatment of sex offenders and ethical issues involving interrogation. The forensic psychology degree program offers two tracks; the applied forensics track prepares students for careers in law enforcement or homeland security, while the applied psychology track prepares students for careers as providers of direct services to clients in organizations such as rehabilitational facilities and community action organizations, and can serve as a springboard for clinical work at the doctoral level. Students are required to complete 250 hours of externship training, tailored to their professional interests.

The PsyD program offers a substantive introduction to the basic science aspects of psychology and the skills required of a clinical psychologist. Students take a series of foundation courses outlining biological, cognitive, social, and cultural foundations; basic and more advanced clinical courses, such as psychopathology, group dynamics, assessment, psychotherapy, supervision, and consultation; and research methods, statistics, history and systems, and ethics courses. The advanced curriculum offers courses tailored within three broad tracks: adult, assessment, and child. In addition to didactic courses, students work with a diverse patient population

at different public and private agencies as well as at the department's in-house clinic. Upon completion of coursework and prior to receiving the PsyD, students perform a one-year, full-time internship.

The professional psychology program also offers the graduate certificate in LGBT health policy and practice.

Visit the Professional Psychology Program website (<https://psyd.columbian.gwu.edu>) for additional information.

## GRADUATE

### Master's program

- Master of Arts in the field of forensic psychology (p. 349)

### Doctoral program

- Doctor of Psychology in the field of clinical psychology (p. 349)

## CERTIFICATE

- Graduate Certificate in LGBT health policy and practice (p. 350)

## FACULTY

**Professor** L.J. Ingraham (*Director*)

**Associate Professors** R. Cooter, P. Gedo (Deputy Director and Director of Clinical Training), C. Marmarosh, R. Ruth

**Assistant Professor** R. Lopez Sharifi, J. Sexton, S. Hedlund

**Adjunct Professors** Y.E. Aleshina, H. Devinney, K. Marshall-Woods, K. Weise

**Professorial Lecturers** M. Forbes, S. Forssell, A. Gartner, D. Grasso, J. Gorin, C. Holl, S. Kane, P. Magaletta, B. McConnell, J. McNamara, B. Sheppard, P. Snejevski, A. Washington, N. Xenakis, H. Zelle

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: PSYD courses are limited to students enrolled in the Professional Psychology program except by permission of the director. See the Department of Psychology for the degree

program leading to the Doctor of Philosophy in the field of clinical psychology.

- Forensic Psychology (FORP) (p. 1336)
- Professional Psychology (PSYD) (p. 1503)

# MASTER OF ARTS IN THE FIELD OF FORENSIC PSYCHOLOGY

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

37 credits, including 25 credits in required courses and 12 credits in elective courses, and successful completion of a master's comprehensive examination.

Code	Title	Credits
<b>Required</b>		
FORP 6101	Psychology and the Legal System I	
FORP 6102	Psychology and the Legal System II	
FORP 6103	Theories of Criminal Behavior	
FORP 6104	Psychopathology	
FORP 6105	Basics of Psychological Assessment	
FORP 6106	Ethics in Forensic Psychology	
FORP 6107	Research and Statistics	
FORP 6108	Consultation and Testimony	
FORP 6130	Practicum/Externship	
<b>Optional tracks:</b>		
<b>Applied forensics track</b>		
Four of the following recommended elective courses:		
FORP 6117	Interrogation and Interviewing	
FORP 6118	Psychological Profiling	
FORP 6119	Police Psychology	
FORP 6120	Counterintelligence	
FORP 6128	Terrorism and Counterterrorism	

### Applied psychology track

FORP 6109	Evaluation and Treatment of Offenders
-----------	---------------------------------------

FORP 6110	Forensic Psychological Assessment
And two of the following recommended elective courses:	
FORP 6111	Evaluation and Treatment of Sex Offenders
FORP 6112	Substance Abuse Evaluation and Treatment
FORP 6113	Victimology
FORP 6114	Issues in Family Law
FORP 6115	Children and Adolescents in the Legal System

# DOCTOR OF PSYCHOLOGY IN THE FIELD OF CLINICAL PSYCHOLOGY

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Satisfactory completion of at least 83 credits of approved graduate coursework. A maximum of 12 credits may be taken in courses offered by the other affiliated members of the Consortium of Universities of the Washington DC Metropolitan Area (<https://www.consortium.org>). Doctor of psychology students must complete all degree requirements within five years of matriculation in the program.

Successful completion of all required coursework and practical requirements and the general examination.

### The Degree of Master of Psychology

Students who have earned 53 credits toward the PsyD may receive the MPsy degree. Further information on the requirements of the Doctor of Psychology degree appears under Professional Psychology in the Courses of Instruction.

Code	Title	Credits
<b>The three-year program includes:</b>		
The core curriculum:		
PSYD 8201	Psychological Assessment I	
PSYD 8202	Psychological Assessment II	

PSYD 8270	Current Topics in Clinical Psychology (Courses offered each year under PSYD 8270 include: Psychological Assessment III, Empirical Research, Prevention, Supervision)
PSYD 8203	Practicum in Clinical Psychology
PSYD 8204	Biological Bases of Clinical Psychology
PSYD 8205	Psychodynamic Psychopathology
PSYD 8206	Cognitive Bases of Clinical Psychology
PSYD 8207	Group and Organizational Dynamics
PSYD 8209	Statistics and Research Design
PSYD 8210	Professional Issues
PSYD 8220	Psychodynamic Psychotherapy
PSYD 8221	Psychodynamic Psychotherapy
PSYD 8222	Behavioral-Cognitive Therapies
PSYD 8225	Theories of Mind
PSYD 8226	Ego Psychology/Object Relations Theory
PSYD 8227	History and Systems of Clinical Psychology
PSYD 8260	Lifespan Development
PSYD 8231	Short-Term Psychotherapy (PSYD 8231/ Short-Term Psychotherapy or PSYD 8240/Group Psychotherapy is required)
PSYD 8240	Group Psychotherapy (PSYD 8231/ Short-Term Psychotherapy or PSYD 8240/Group Psychotherapy is required)
PSYD 8246	Community Intervention (Consultation)
Completion of the practicum seminar/PSYD 8203 for each fall and spring semester as well as two practicum during the summers	
Courses chosen from the areas of adult and child psychotherapy or psychological assessment to total 83 credits	
Satisfactory completion of the General Examination	

In addition, successful completion of an externship—a year-long, part-time supervised clinical assignment—is required in two years of the program. A failed externship may, in exceptional circumstances and with the approval of the

program director, be repeated. If the student fails a second time, no further opportunity will be provided, and the student's degree candidacy is terminated.

A one-year, full-time internship at an institution approved by the program faculty is required for completion of the degree program. If the student fails the internship, no further opportunity will be provided, and the student's degree candidacy is terminated.

### Transfer of Credit

Provisions are the same as those of the Doctor of Philosophy Program, above, except that up to 27 credits may be transferred into the program.

### The General Examination

Students are required to complete the general examination no later than the beginning of the final semester of the program. A student who fails to pass any part of the general examination may, in exceptional circumstances, and with the approval of the program, repeat the examination at the next scheduled date. If the student fails a second time, no further opportunity to take the examination is permitted and the student's degree candidacy is terminated.

Visit the program website (<https://psychology.columbian.gwu.edu/clinical>) for additional information.

## GRADUATE CERTIFICATE IN LGBT HEALTH POLICY AND PRACTICE

The graduate certificate in LGBT health policy and practice focuses on applied care. It is designed specifically for those who work on the front lines with clients and patients as well as professionals who work with policy and health care system delivery and management to administer programs that serve the physical and mental health needs of the LGBT population. The program is delivered as a combination of distance learning and on-campus residencies and may be pursued in either a one- or two-year track.

Visit the program website (<https://lgbt.columbian.gwu.edu>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 9 credits in required courses, a 3-credit capstone course, and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
PSYD 6201	Multi-disciplinary LGBT Health	
PSYD 6202	LGBT Mental Health	

PSYD 6203	LGBT Health Policy
PSYD 6211	LGBT Health Capstone
<b>Electives</b>	
6 credits in elective courses selected from the following:*	
AMST 6430	Gender, Sexuality, and American Culture I
PSYC 8275	Women and Health
or WGSS 8275	Women and Health
PSYD 6221	Topics in LGBT Health
PSYD 8270	Current Topics in Clinical Psychology
PUBH 6099	Topics in Public Health (Designing and Evaluating HIV Prevention Programs)
PUBH 6514	Preventing Health Disparities
SOC 6268	Race, Gender, and Class
SOC 6273	The Sex Industry
WGSS 6257	Gender and Sexuality

\*Students may petition the Program Director to include other courses as electives. Electives should be graduate-level courses offered at GW that pertain to the LGBT population (specifically, not the broader minority population), physical or mental health with a focus on minority/underserved populations, or public policy with a focus on health and/or minority/underserved populations.

## PSYCHOLOGY

The Department of Psychology, part of the social and behavioral sciences division within the Columbian College of Arts and Sciences, seeks to advance the science and practice of psychology through research and its dissemination, and to provide outstanding education and training to undergraduate and doctoral students. The faculty encourages a scientist/applied approach to psychology, which is achieved through research and coursework that emphasize psychological knowledge, theories and methods, and apply psychological science to important issues individuals, communities, and society face.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in cognitive neuroscience (<http://bulletin.gwu.edu/arts-sciences/psychology/ba-cognitive-neuroscience>)
- Bachelor of Arts with a major in psychology (p. 358)

## Minor

- Minor in psychology (p. 359)

## Combined program

- Dual Bachelor of arts with a major in psychology and master of arts in the field of art therapy (p. 358)

## GRADUATE

### Doctoral programs

- Doctor of Philosophy in the field of applied social psychology (<http://bulletin.gwu.edu/arts-sciences/psychology/applied-social-psychology-phd>)
- Doctor of Philosophy in the field of clinical psychology (<http://bulletin.gwu.edu/arts-sciences/psychology/phd-clinical-psychology-2>)
- Doctor of Philosophy in the field of cognitive neuroscience (<http://bulletin.gwu.edu/arts-sciences/psychology/cognitive-neuroscience-phd>)
- Doctor of Philosophy in the field of industrial/organizational psychology (<http://bulletin.gwu.edu/arts-sciences/organizational-sciences-communication/phd-io-psychology>)

## FACULTY

**Professors** P. Barratt, I.A. Bowleg, J.M. Ganiban, G. Howe, H.N. Le, S. Mitroff, L.R. Offermann, J.W. Philbeck (*Chair*), P.J. Poppen, L.A. Rothblat, S. Shomstein, C.K. Sigelman, P. Wirtz, M.C. Zea

**Associate Professors** D.P. Costanza, T.L. Dodge, S. Dopkins, C. Gee, S. Lambert, S.D. Molock, P.J. Moore, C.A. Rohrbeck, M.H. Sohn, M. Stock

**Assistant Professors** C. Beil (*Research*), S. K. Calabrese, D.J. Kravitz, D.E. Schell, G.K. Wu

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: PSYC 1001 General Psychology is prerequisite to all undergraduate psychology courses.

**PSYC 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

**PSYC 1001. General Psychology. 3 Credits.**

Fundamental principles underlying human behavior.

**PSYC 2011. Abnormal Psychology. 3 Credits.**

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Prerequisite: PSYC 1001.

**PSYC 2011W. Abnormal Psychology. 3 Credits.**

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSYC 1001.

**PSYC 2012. Social Psychology. 3 Credits.**

Social foundations of behavior: cognition, motivation, role behavior, communication, small-group processes, and attitudes. Prerequisite: PSYC 1001.

**PSYC 2013. Developmental Psychology. 3 Credits.**

Introduction to the study of human development; theory and research concerning changes in physical, cognitive, and social functioning and influences on the developing individual. Prerequisite: PSYC 1001.

**PSYC 2014. Cognitive Psychology. 3 Credits.**

Introduction to the study of cognition; review of data and theories on the topics of perception, attention, memory, language, reasoning, and decision making. Prerequisite: PSYC 1001.

**PSYC 2015. Biological Psychology. 3 Credits.**

Introduction to the biological basis of behavior; review of data and empirical methods on the topics of neural structure and function, brain damage, neuroanatomy, genes, hormones, and their influence on behavior. Prerequisite: PSYC 1001.

**PSYC 2101. Research Methods in Psychology. 3 Credits.**

Survey of research designs (e.g., case studies, correlational designs, experiments), methods (e.g., questionnaires, observations), and measurement issues (e.g., reliability and validity). PSYC 1001 and STAT 1053 may be taken as a corequisite. Prerequisites: PSYC 1001 and STAT 1053.

**PSYC 2199. Special Topics in Psychology. 3 Credits.**

Special topics in psychology for students without advanced psychology background. Topics vary by semester. May be repeated once for credit provided the topic differs. See department for more details. Prerequisite: PSYC 1001.

**PSYC 2508. Humanistic Psychology. 3 Credits.**

Critical examination of humanistic psychology. Emphasis on role of consciousness in human behavior. Philosophic foundations, existential, phenomenological, and transpersonal psychology. (Formerly PSYC 3108) Prerequisites: PSYC 1001.

**PSYC 2514. Adult Development and Aging. 3 Credits.**

Psychological aging and development during the adult years, with an emphasis on theories of adult development and research on changes in cognitive functioning and social adjustment in early, middle, and later adulthood. (Formerly PSYC 3114) Prerequisites: PSYC 1001.

**PSYC 2529. Theories of Personality. 3 Credits.**

Survey of personality theories; emphasis on their application to problems of individuals. (Formerly PSYC 3129) Prerequisites: PSYC 1001.

**PSYC 2531. Psychological Tests. 3 Credits.**

Survey of psychological tests and their more common uses in business, industry, government, law, medicine, and education. Material fee. (Formerly PSYC 3131) Prerequisites: PSYC 1001.

**PSYC 2533. Autism. 3 Credits.**

How the study of autism and related disorders may shed light on the characteristics of the mind; broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment. Prerequisite: PSYC 1001.

**PSYC 2541. Language Acquisition and Development. 3 Credits.**

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisites: PSYC 1001; and SPHR 1071 or SPHR 2135.

**PSYC 2544. Industrial/Organizational Psychology. 3 Credits.**

Psychological concepts and methods applied to problems of personnel management, employee motivation and productivity, supervisory leadership, and organizational development. Formerly PSYC 2144. Prerequisites: ORSC 1109 or PSYC 1001. (Same as ORSC 2544).

**PSYC 2550. Psychology of Sex Differences. 3 Credits.**

Relevant biological, psychological, and sociological influences on males and females in the development of sex differences; hormonal differences, gender identity, differential socialization of sons and daughters, masculinity/femininity, cultural evaluation of male and female roles. Survey of relevant psychological theory. Emphasis on empirical research and hypothesis testing. (Formerly PSYC 3150) Prerequisites: PSYC 1001.

**PSYC 2554. Psychology of Crime and Violence. 3 Credits.**

Examination of many psychological aspects of criminal behavior; personality of criminals and of psychological processes affecting behavior. (Formerly PSYC 3154) Prerequisites: PSYC 1001.

**PSYC 2556. Psychology of Attitudes and Public Opinion. 3 Credits.**

Psychology of opinion formation, measurement of opinion, social determinants of attitudes, psychological processes in propaganda, bases of receptivity to propaganda, psychological warfare. (Formerly PSYC 3156) Prerequisites: PSYC 1001.

**PSYC 2570. Peer Education. 3 Credits.**

This is a course designed to train George Washington University undergraduate students to be health peer educators. Students are trained in various topics related to mental health, physical health, and alcohol and/or other drugs, and gain the skills needed for outreach programming. Prerequisite: PSYC 1001.

**PSYC 2571. Helping Skills. 3 Credits.**

Training for undergraduate students preparing to be entry-level support professionals as a part of the GW Listens program or similar programs offering support to individuals who have mental and physical health issues. Prerequisite: PSYC 1001.

**PSYC 2588. Attitudes Toward Death and Dying. 3 Credits.**

Exploration of the many different aspects, attitudes, and experiences associated with the process of death and dying. (Formerly PSYC 3188) Prerequisites: PSYC 1001.

**PSYC 2596. History and Systems of Psychology. 3 Credits.**

A survey and integration of the major viewpoints and concepts of psychology. Recommended for students planning graduate study. (Formerly PSYC 4196) Prerequisites: PSYC 1001.

**PSYC 2945. Psychological Study of Spirituality. 3 Credits.**

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Formerly PSYC 3945. Prerequisite: PSYC 1001.

**PSYC 3112. Psychology of Adolescence. 3 Credits.**

Psychological characteristics and problems peculiar to adolescence, with emphasis on application of psychology to the solution of such problems. Prerequisite: PSYC 2101 and PSYC 2013.

**PSYC 3115. Developmental Psychopathology. 3 Credits.**

The origins of child psychopathology, including developmental perspectives and the potential contributions of child-, family-, and community-based characteristics to the emergence of psychopathology. The development of specific childhood disorders. Prerequisites: PSYC 2011 and PSYC 2101; or PSYC 2013.

**PSYC 3116. Brain and Language. 3 Credits.**

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. Same as SPHR 3116; however, psychology students are not required to take SPHR 2106 as a prerequisite or corequisite. Prerequisites: PSYC 1001 and PSYC 2101. Prerequisites: PSYC 1001 and PSYC 2101.

**PSYC 3118. Neuropsychology. 3 Credits.**

Analysis of neural processes underlying behavior. Basic structure and functions of the nervous system, with emphasis on sensory processes, learning and memory, motivation, and emotion. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

**PSYC 3121. Memory and Cognition. 3 Credits.**

An examination of the psychological processes underlying human memory and cognition. Topics cover theoretical and experimental issues involving a range of cognitive function from attention and pattern recognition to learning and memory. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

**PSYC 3122. Cognitive Neuroscience. 3 Credits.**

How the structure and functions of the brain are related to cognitive processes and their associated behaviors. The biological bases of behavior and mental activity. Research and case studies by cognitive psychologists, neuroscientists, psychiatrists, and linguists, focusing on how the brain affects pattern recognition, attention, short-term and long-term memory processes, and language. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

**PSYC 3124. Visual Perception. 3 Credits.**

An overview of human perception, ranging from the detection of simple stimuli to the identification of objects and events; perceptions of color, motion, and spatial layout; research methodology, biological foundations, and theoretical issues. Prerequisites: PSYC 1001, PSYC 2101, and PSYC 2014 or PSYC 2015.

**PSYC 3125. Cross-Cultural Psychology. 3 Credits.**

Introduction to the theory, methods, and research of cross-cultural psychology, with emphasis on immigrants and ethnic minorities in the United States and on other cultures. Prerequisites: PSYC 2101 and PSYC 2011 or PSYC 2012.

**PSYC 3126. Multicultural Psychology. 3 Credits.**

The influence of culture on major psychology concepts Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Prerequisite: PSYC 2101 and PSYC 2011 or PSYC 2012.

**PSYC 3126W. Multicultural Psychology. 3 Credits.**

The influence of culture on major psychology concepts. Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSYC 2011 or PSYC 2012; and PSYC 2101.

**PSYC 3128. Health Psychology. 3 Credits.**

Current research in the area of health psychology, with special attention to psychological factors related to health and illness, psychological intervention with medical patients, and psychological approaches to illness prevention and health promotion. Prerequisite: PSYC 2101.

**PSYC 3132. Social and Personality Development. 3 Credits.**

Examination of personal, emotional, and social development from infancy to adolescence and influences on that development. Prerequisites: PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

**PSYC 3170. Clinical Psychology. 3 Credits.**

An exploration of the history, functions, and concerns of the clinical psychologist. Assessment, treatment, community approaches, ethics. Prerequisite: PSYC 2011 and PSYC 2101.

**PSYC 3172. Psychopathology and the Media. 3 Credits.**

How abnormal behaviors and mental disorders are portrayed in film and the media, including analysis of the accuracy of these portrayals, focusing on symptomatology, etiology, and treatment of adult psychopathology. Prerequisites: PSYC 2011 and PSYC 2101.

**PSYC 3173. Community Psychology. 3 Credits.**

Origins and current practice of community psychology, and comparison of community psychological approaches with traditional clinical perspectives; the role of psychology in addressing social issues facing communities; methods for research and intervention targeting communities. Prerequisites: PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

**PSYC 3180. Seminar in Cognitive Science. 3 Credits.**

Advanced seminar for undergraduate students focusing on recent developments in cognitive science. Topics vary and may include perception, attention, memory, representation, and cognitive control, as well as neural bases of cognitive processes. Prerequisites: PSYC 3118 or PSYC 3121 or PSYC 3122 or PSYC 3124 or PSYC 4106W or PSYC 4107W.

**PSYC 3193. Seminar in Industrial/Organizational Psychology. 3 Credits.**

Selected specialized topics in the field of psychology and work behavior, such as human ability and personality, decisions and risk behavior, organizational change, and leadership. May be repeated for credit. (Formerly PSYC 4193). Prerequisites: PSYC 1001 and PSYC 2544; or permission of the instructor.

**PSYC 3198. Current Research Issues. 3 Credits.**

Recent studies in psychology, including studies performed by members of the class; emphasis on student participation. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101.

**PSYC 3199. Current Topics in Psychology. 3 Credits.**

Topics vary. May be repeated once for credit provided the topic differs. Prerequisites: PSYC 1001 and PSYC 2101.

**PSYC 3591. Supervised Research Internship. 1-3 Credits.**

Open to qualified students with permission of a supervising faculty member. Arrangements must be made with the faculty supervisor prior to registration; a list of participating faculty members and their research specialties is available from the department. May be repeated for credit; PSYC 3591 and PSYC 4591 combined may be taken for a total of 9 credits maximum. Prerequisites: PSYC 1001 and PSYC 2101.

**PSYC 3592. Field Internship. 3 Credits.**

Advanced psychology majors spend a minimum of six hours per week in a supervised internship in a local mental health, rehabilitation, school, or community setting. Students must have weekly blocks of time available. May be repeated for credit, but the repeat enrollment does not count toward the major. Restricted to psychology majors. Prerequisites: PSYC 1001 and PSYC 2101.

**PSYC 4106W. Research Lab in Sensation and Perception. 4 Credits.**

Capstone course focused on the study of sensation and perception. Students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015.

**PSYC 4107W. Research Lab in Cognitive Neuroscience. 4 Credits.**

A capstone course focused on the study of cognitive neuroscience in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015.

**PSYC 4201W. Research Lab in Clinical/Community Psychology. 4 Credits.**

A capstone course focused on the study of clinical/community psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

**PSYC 4202W. Research Lab in Applied Social Psychology. 4 Credits.**

A capstone course focused on the study of topics in applied social psychology, such as discrimination and health, in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

**PSYC 4203W. Research Lab in Developmental Psychology. 4 Credits.**

A capstone course focused on the study of developmental psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

**PSYC 4591. Independent Research. 1-3 Credits.**

Open to qualified students by permission to pursue an independent research project with the supervision of a faculty member ; arrangements must be made with the sponsoring faculty member prior to registration. May be repeated for credit; PSYC 3591 and PSYC 4591 may be taken for a total of 9 credits maximum. (Formerly PSYC 4191) Restricted to . Prerequisites: PSYC 1001 and PSYC 2101.

**PSYC 4997. Honors Seminar. 3 Credits.**

Selected topics in psychology that change each semester. Intended primarily for students in the Special Honors program in psychology. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101. (Formerly PSYC 4197).

**PSYC 6998. Thesis Research. 3 Credits.**

**PSYC 6999. Thesis Research. 3 Credits.**

**PSYC 8202. Psychological Research Methods and Procedures. 3 Credits.**

Required in all graduate psychology programs. Includes philosophy of science, types of research design, and methods of data collection. Restricted to graduate students. Prerequisites: One laboratory course in psychology, and a course in statistics.

**PSYC 8203. Experimental Foundations of Psychology: Learning, Memory, and Cognition. 3 Credits.**

Current conceptions of learning, memory, and cognition; the research upon which these conceptions are based; applications to practical contexts. Restricted to graduate students.

**PSYC 8204. Experimental Foundations of Psychology: Biological Basis of Behavior. 3 Credits.**

Introduction to the structure and function of the nervous system. Topics include neural communication, sensory processes, memory, neuroendocrinology of sex differences and stress, psychiatric and neurodegenerative disorders. Restricted to graduate students.

**PSYC 8207. Psychological Assessment I. 3 Credits.**

Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory–diagnostic work at clinical facilities. Material fee. Restricted to students in the PhD in clinical psychology program.

**PSYC 8208. Psychological Assessment II. 3 Credits.**

Continuation of PSYC 8207. Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory–diagnostic work at clinical facilities. Material fee. Restricted to students in the clinical psychology program.

**PSYC 8210. Developmental Theories and Issues. 3 Credits.**

Orientation to the field of developmental psychology, with emphasis on traditional and contemporary theories, fundamental concepts and issues, and methodological approaches. Restricted to graduate students.

**PSYC 8211. Community Psychology I. 3 Credits.**

Survey of the history, theories, and values guiding community psychology; models of service delivery. Restricted to graduate students.

**PSYC 8212. Community Psychology II. 3 Credits.**

Continuation of PSYC 8211. Applications of the principles and theories of community psychology to interventions and research. Restricted to graduate students. Prerequisite: PSYC 8211.

**PSYC 8218. Evidence-Based Interventions. 3 Credits.**

Introduction to theory and technique of psychotherapeutic approaches of proven effectiveness. Restricted to graduate students.

**PSYC 8219. Group Dynamics. 3 Credits.**

**PSYC 8220. Ethics and Professional Issues. 3 Credits.**

The foundations of ethics and ethical decision making, with an emphasis on the APA Ethics Code. Ethical conflicts and issues in the areas of research and practice. Restricted to graduate students.

**PSYC 8223. Seminar: Human Memory. 3 Credits.**

Selected topics of current research interest in the area of human memory. Emphasis on encoding and retrieval processes, amnesia, and disorders of memory. Restricted to graduate students.

**PSYC 8225. Behavioral Approaches to Child Assessment and Therapy. 3 Credits.**

Child assessment and treatment from a behavioral viewpoint. The application of conditioning, reinforcement, and shaping principles with reference to specific disorders of childhood. Restricted to graduate students.

**PSYC 8227. Seminar: Principles of Psychotherapy. 3 Credits.**

For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

**PSYC 8228. Seminar: Principles of Psychotherapy. 3 Credits.**

Continuation of PSYC 8227. For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

**PSYC 8231. Development of Psychometric Instruments. 3 Credits.**

Quantitative techniques and principles used in construction, standardization, and evaluation of personality and ability measures for research and practice; quantification of human judgment for measurement purposes. Restricted to graduate students. Prerequisites: course in tests and measurements and an elementary course in statistics.

**PSYC 8236. Ethnic and Racial Diversity in Psychology. 3 Credits.**

Basic theoretical models of research in ethnic, racial, and cultural diversity and new directions in the field. The impact of being an ethnic minority in the United States. Restricted to graduate students.

**PSYC 8237. The Practice of General Psychology I. 3 Credits.**

Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to students in the clinical psychology program.

**PSYC 8238. The Practice of General Psychology II. 3 Credits.**

Continuation of PSYC 8237. Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to students in the clinical psychology program.

**PSYC 8239. Lifespan Developmental Psychopathology I. 3 Credits.**

Infancy, childhood, and adolescence. Restricted to graduate students.

**PSYC 8240. Lifespan Developmental Psychopathology II. 3 Credits.**

Continuation of PSYC 8239. Restricted to graduate students.

**PSYC 8243. Seminar: Psychology of Leadership in Organizations. 3 Credits.**

Theories and issues related to the emergence and effectiveness of leaders, with focus on leadership behaviors and processes in organizations. Restricted to graduate students.

**PSYC 8244. Theories and Processes of Organizational Management. 3 Credits.**

Basic functions and techniques of organizational management—design, control, direction, and decision making—examined from the viewpoint of behavioral science. Restricted to graduate students.

**PSYC 8245. Seminar: Organizational Behavior. 3 Credits.**

Analysis of organizational behavior; emphasis on motivation and productivity. Recent research on employee attitudes, primary group, supervisory leadership, formal and informal organization, job design. Restricted to graduate students.

**PSYC 8246. Seminar: Personnel Evaluation Techniques. 3 Credits.**

Techniques of personnel selection and performance evaluation. Employment tests, personal data, assessment interviews, performance ratings, and assessment centers. Federal guidelines in employee selection. Includes practicum. Restricted to graduate students.

**PSYC 8248. Research Applications to Organizational Intervention and Change. 3 Credits.**

Emphasis on development of models of organizational effectiveness; design of valid diagnostic instruments; implementation of research strategies; establishment of program evaluation criteria. Restricted to graduate students.

**PSYC 8250. Seminar in Cognitive Neuroscience. 3 Credits.**

Advanced topics in the fundamentals of cognitive neuroscience; attention, memory, scene processing, space perception, decision making, and social and affective functioning. Restricted to graduate students. Recommended background: a working knowledge of cognitive psychology concepts and core neuronal physiology.

**PSYC 8251. Behavioral Neuroscience. 3 Credits.**

The neural basis of behavior, with special focus on the psychobiological determinants of learning, memory, and cognition. Methodologies used for different levels of analysis with normal and brain-impaired subjects. Restricted to graduate students.

**PSYC 8253. Social Cognition. 3 Credits.**

Social psychology theories, conceptual approaches, and their applications. Social cognition, person perception, attribution, information processing, attraction, stereotyping. Restricted to graduate students.

**PSYC 8254. Social Influence. 3 Credits.**

Social psychology theories, conceptual approaches, and their applications. Analysis of intentional and unintentional social influence processes and their effects on behavior. Current research on conformity, social power, social exchange, and impression management. Restricted to graduate students.

**PSYC 8255. Attitudes and Attitude Change. 3 Credits.**

Current theory and research on attitudes and attitude change. Restricted to graduate students.

**PSYC 8256. Introduction to Survey Research. 3 Credits.**

Theory and practice of face-to-face telephone and mail surveys. Practical experience with all stages from the formulation of research questions and hypotheses to questionnaire design, sampling, pilot, testing, interviewing, coding, and data cleaning. Prerequisite: STAT 2105 .

**PSYC 8257. Current Topics in Social Psychology. 3 Credits.**

Advanced seminar with focus on major theoretical approaches, research, or problem areas within field of social psychology. Topic changes each semester. Restricted to graduate students.

**PSYC 8258. Qualitative Research and Analysis. 3 Credits.**

Qualitative research and analysis with a focus on theory, didactic material relevant to qualitative methodologies, and applied qualitative research design and analysis. Restricted to graduate students.

**PSYC 8259. Psychology of Individual and Group Decision Making. 3 Credits.**

Examination of processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Restricted to graduate students.

**PSYC 8260. Psychology of Work Group Development. 3 Credits.**

Examination of theory and research on groups as task performance systems. Approaches to team development as a means of improving work group effectiveness, including goal setting, role clarification, increasing interpersonal skills, and conflict resolution. Restricted to graduate students.

**PSYC 8268. Seminar: Neuropsychology. 3 Credits.**

Selected problems in research relating the brain and behavior. Independent topics each semester, such as sensory processing, brain development and behavior, clinical aspects of nervous system function. Restricted to graduate students.

**PSYC 8275. Women and Health. 3 Credits.**

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. Restricted to graduate students. (Same as WGSS 8275).

**PSYC 8277. Health Psychology. 3 Credits.**

Social psychological theories and research that relate to health and illness. Application of theories of social learning, attribution, attitude change, and social influence to topics such as health promotion and disease prevention, health compliance, and coping with illness and disability. Restricted to graduate students.

**PSYC 8279. Special Topics in Health Psychology. 3 Credits.**

May be repeated for credit provided the topic differs. Admission by permission of instructor. Restricted to graduate students.

**PSYC 8280. Theories and Practice of Clinical Supervision. 0 Credits.**

Theory and practice of clinical supervision through instruction and a supervision practicum in the clinical facilities. Restricted to clinical psychology graduate students.

**PSYC 8283. First Year Seminar I: Motivational Interviewing. 0 Credits.**

This course develops in clinical psychology doctoral students basic skills necessary for therapeutic effectiveness through motivational interviewing and familiarizes them with goals and values in their clinical training. Restricted to students in the clinical psychology program.

**PSYC 8284. First Year Seminar II: Introduction to Therapy. 0 Credits.**

Clinical psychology doctoral students gain basic familiarity with assessment and psychotherapy practices and understanding of the inner workings of the Meltzer Center clinic. Restricted to students in the clinical psychology program.

**PSYC 8285. History and Systems of Psychology. 0 Credits.**

Clinical psychology doctoral students engage in self-study of the history and systems of psychology. Restricted to students in the clinical psychology program.

**PSYC 8286. Clinical Psychology Externship. 0 Credits.**

Clinical psychology doctoral students participate in externship placements in clinical settings to develop their clinical skills and competencies. Restricted to students in the clinical psychology program.

**PSYC 8287. Current Topics in Clinical Psychology. 3 Credits.**

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to Graduate students only.

**PSYC 8288. Current Topics in Industrial/Organizational Psychology. 3 Credits.**

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to graduate students.

**PSYC 8289. Seminar: Current Topics in Experimental Psychology. 3 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Restricted to graduate students.

**PSYC 8291. Theories of Organizational Behavior. 3 Credits.**

Examination of current theoretical models and research. Restricted to Graduate students only.

**PSYC 8295. Independent Research. 3 Credits.**

Individual library or experimental research under supervision of staff member. Arrangements must be made with sponsoring faculty member prior to registration. May be repeated for credit. Restricted to Psychology graduate students only.

**PSYC 8998. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the major field examination.

**PSYC 8999. Dissertation Research. 3-12 Credits.**

May be repeated for credit. Restricted to PhD students in the psychology program.

## BACHELOR OF ARTS WITH A MAJOR IN PSYCHOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
PSYC 1001	General Psychology	
STAT 1053	Introduction to Statistics in Social Science (or equivalent)	
PSYC 2101	Research Methods in Psychology	
Two survey courses (6 credits) from the following:		
PSYC 2011	Abnormal Psychology	
or PSYC 2011W	Abnormal Psychology	
PSYC 2012	Social Psychology	
PSYC 2013	Developmental Psychology	
One survey course (3 credits) from the following:		
PSYC 2014	Cognitive Psychology	
PSYC 2015	Biological Psychology	
One course (3 credits) from the following:		
PSYC 3112	Psychology of Adolescence	
PSYC 3115	Developmental Psychopathology	
PSYC 3125	Cross-Cultural Psychology	
PSYC 3126	Multicultural Psychology	

or PSYC 3126W	Multicultural Psychology
PSYC 3128	Health Psychology
PSYC 3132	Social and Personality Development
PSYC 3170	Clinical Psychology
PSYC 3173	Community Psychology
One course (3 credits) from the following:	
PSYC 3118	Neuropsychology
PSYC 3121	Memory and Cognition
PSYC 3122	Cognitive Neuroscience
PSYC 3124	Visual Perception
Two advanced research lab courses (8 credits) from the following:	
PSYC 4106W	Research Lab in Sensation and Perception
or PSYC 4107W	Research Lab in Cognitive Neuroscience
PSYC 4201W	Research Lab in Clinical/Community Psychology
or PSYC 4202W	Research Lab in Applied Social Psychology
or PSYC 4203W	Research Lab in Developmental Psychology

**Electives**

Three additional psychology (PSYC) courses (9 credits) numbered 2000 or above

Only 3 credits of PSYC 3591 or PSYC 4591 may be applied toward the major.

## SPECIAL HONORS

In addition to meeting the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, the student must submit an application to the Psychology Department before the beginning of the senior year, take an honors seminar (PSYC 4997 Honors Seminar) and a graduate-level seminar, and complete a research experience (PSYC 3591 Supervised Research Internship or PSYC 4591 Independent Research). The grade-point average in psychology required for graduation with Special Honors is 3.5.

## COMBINED PROGRAM, PSYCHOLOGY

The Department of Psychology offers a combined bachelor of arts with a major in psychology (p. 358) and a master of

arts in the field of art therapy (p. 126) program. The program allows students to take a specified number of graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://psychology.columbian.gwu.edu/bachelors-psychologymasters-art-therapy-bama>) for additional information.

## MINOR IN PSYCHOLOGY REQUIREMENTS

The following requirements must be fulfilled: 9 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
PSYC 1001	General Psychology	
Two survey courses (6 credits) from the following, including at least one of PSYC 2014 or PSYC 2015:		
PSYC 2011	Abnormal Psychology	
or PSYC 2011W	Abnormal Psychology	
PSYC 2012	Social Psychology	
PSYC 2013	Developmental Psychology	
PSYC 2014	Cognitive Psychology	
PSYC 2015	Biological Psychology	

**Electives**

At least three additional psychology (PSYC) courses (9 credits) numbered 2000 or above, not including PSYC 3591 or PSYC 4591

Students considering graduate study in psychology are advised to take PSYC 2101, which is a prerequisite for 3000 and 4000 level courses.

## PUBLIC POLICY AND PUBLIC ADMINISTRATION

Through its Trachtenberg School of Public Policy and Public Administration, Columbian College of Arts and Sciences offers master of public policy, master of public administration, and doctor of philosophy in the field of public policy and administration degree programs. The master's programs provide academic preparation toward professional careers

in government, business, and the nonprofit sector. The PhD program is designed to help students master subjects in multiple academic disciplines, including politics, economics, and quantitative and qualitative methods in policy research. In addition, a graduate certificate in nonprofit management provides an overview of central concepts in managing nonprofit organizations.

The Environmental Resource Policy (ENRP) program within the Trachtenberg School of Public Policy and Public Administration offers a multidisciplinary approach to environmental and sustainability studies. The master of arts degree prepares students to enter environmental policy careers in government, nonprofit organizations, the private sector, and environmental advocacy. In addition to the MA degree program, ENRP offers two graduate certificate programs. The graduate certificate in environmental resource policy provides an alternative to the MA for working professionals who may not have the need for or the time to commit to the full master's; however, once completed, the credits earned toward the certificate may be applied to the master's degree requirements. The graduate certificate in the contexts of environmental policy is designed to help support the professional development of current and future leaders of the National Park Service who are responsible for the preservation and protection of public lands and cultural heritage.

Visit the Trachtenberg School of Public Policy and Public Administration website (<https://tspppa.gwu.edu>) for additional information.

## GRADUATE Master's programs

- Master of arts in the field of environmental resource policy (p. 365)
- Master of public policy (p. 367)
- Master of public administration (p. 366)

## Combined programs

- Dual Master of arts in the field of environmental resource policy and graduate certificate in geographical information systems (p. 367)
- Dual Master of public administration and graduate certificate in homeland security emergency preparedness and response (p. 368)

## Doctoral program

- Doctor of Philosophy in the field of public policy and administration (p. 369)

## CERTIFICATE

- Graduate certificate in budget and public finance (p. 370)
- Graduate certificate in contexts of environmental policy (p. 370)
- Graduate certificate in environmental resource policy (p. 372)
- Graduate certificate in nonprofit management (p. 372)

## FACULTY

**University Professor** S.J. Trachtenberg

**Professors** W.C. Adams, B.S. Barnow, E. Berkowitz, J.M. Brinkerhoff, G. Brock, J.J. Cordes, S. Dudley (*Research*), A. Dor, D.L. Infeld, K.E. Newcomer (*Director*), S. Pace, S. Pandey, D.E. Rigby, A. Ronen (*Teaching*), S. Rosenbaum, G.D. Squires, R.P. Stoker, S.A. Tuch, N. Vonortas, P.W. Wirtz, M.J. Worth

**Associate Professors** S.J. Balla, L.A. Brainard, S. Cellini, D. Conger, C. Deitch, E.J. Englander, J.F. Kasle, P. Linquti, A.S. Malik, Y. Nakib,

**Assistant Professors** L. Brooks, C.M. Carrigan, J. McGinnis

**Adjunct Professors** N. Augustine, J. Dudik-Gayoso

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Programs in Public Administration are offered at the graduate level by the Trachtenberg School of Public Policy and Public Administration. Courses with 2000 designations are open to undergraduates.

#### **PPPA 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **PPPA 2000. Justice and the Legal System I. 3 Credits.**

The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country.

#### **PPPA 2001. Justice and the Legal System II. 3 Credits.**

Continuation of PPPA 2000. The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country. Prerequisite: PPPA 2000.

#### **PPPA 2117. Executive Branch Politics. 3 Credits.**

Contemporary concepts and issues in public administration and management. Major trends and approaches to governmental administration in the U.S., including the changing federal role, roles of the public sector in relation to the private sector, and managing public agencies at all levels. Same as PSC 2217.

#### **PPPA 2701. Sustainability and Environmental Policy. 3 Credits.**

A survey of the intersection of the principles of sustainability and the set of public policies that affect environmental management in the United States. Consideration of the idea that environmental policy is inevitably implemented in a complex interaction of both natural and human systems. Topics applicable to most environmental policy debates, such as the the balance between costs and benefits of environmental protection. Introduction to a "toolkit" of environmental policy instruments ranging from highly prescriptive command-and-control regulations to flexible market-based policies.

#### **PPPA 6000. Perspectives on Public Values. 1 Credit.**

The underpinnings and skills necessary for a functioning democratic society; empathy and the ability to have civil discourse to create, analyze, pass, implement, and evaluate policy and programs.

#### **PPPA 6001. Introduction to Public Service and Administration. 3 Credits.**

Introduction to the discipline of public administration. The intellectual traditions and theoretical frames of reference that inform public administration as a field of professional practice and study. Current and continuing challenges and controversies.

#### **PPPA 6002. Research Methods and Applied Statistics. 0-3 Credits.**

Development of skills and knowledge for conducting original research and critically evaluating empirical studies. Various research designs and data collection techniques are examined. Focus on computerizing data sets for quantitative analysis, analyzing strength of relationships, selecting appropriate statistical techniques, and testing statistical hypotheses.

#### **PPPA 6003. Economics for Public Decision Making. 3 Credits.**

The basic tools and concepts in microeconomic analysis; how these tools can be useful in public decision making.

#### **PPPA 6004. Managing Public Organizations. 3 Credits.**

Organizational dynamics, management approaches, and workplace relationships that affect behavior in public organizations. Prerequisite: PPPA 6001.

**PPPA 6005. Public Budgeting, Revenue, and Expenditure Analysis. 3 Credits.**

Survey course that focuses on the institutions and analytical tools associated with raising revenue and allocating/managing resources at all levels of government. Hands-on budgeting skills and communication of analysis to decision makers. Prerequisite: PPPA 6003.

**PPPA 6006. Policy Analysis. 3 Credits.**

Development of skills in conducting and critiquing policy analyses. Application of methodologies used in analyzing possible consequences of specified alternatives as applied in the public policy decision-making process. Appropriate applications and limitations of policy analysis and its relationship to politics and the policy process.

**PPPA 6007. Microeconomics for Public Policy I. 3 Credits.**

Intermediate microeconomics with a focus on policy-related topics and examples. Restricted to MPA and MPP students.

**PPPA 6008. MPA/MPP Capstone. 3 Credits.**

For MPA and MPP students completing their degree program at the end of the fall semester. This course substitutes for PPPA 6009 and PPPA 6119, respectively.

**PPPA 6009. MPA Capstone. 3 Credits.**

Review of concepts and issues; analysis and integration of ethical, political, economic, managerial, and personal values and issues in the field.

**PPPA 6010. Politics and The Policy Process. 3 Credits.**

The role of policy analysts in public policymaking. The impact that the political, economic, cultural, and bureaucratic context has on the policymaking process and outcomes. Political and ethical issues raised by the intricate interface of the private, not-for-profit, and public sectors in public policy formulation and implementation.

**PPPA 6011. Politics and Policy Analysis. 3 Credits.**

Foundations of the public policy field; the role of policy analysts in the policy making process; agenda setting, decision making, policy implementation, program evaluation, and policy feedback.

**PPPA 6013. Econometrics for Policy Research I. 3 Credits.**

Multivariate research methods in policy analysis.

**PPPA 6014. Microeconomics for Public Policy II. 3 Credits.**

The application of intermediate microeconomic theory to the study of public policy; models of individual choice in policy analysis, policy aspects of models of the firm, theory of market failure and welfare economics, and resource allocation decisions in the public sector. Credit cannot be earned for both PPPA 6014 and SMPP 6206. Prerequisite: PPPA 6007.

**PPPA 6015. Benefit-Cost Analysis. 3 Credits.**

The application of microeconomic theory and welfare economics to the empirical evaluation of public policies and programs. Applied welfare economics as a framework for policy analysis; empirical measures of welfare change; techniques of benefit-cost analysis. Prerequisite: PPPA 6014.

**PPPA 6016. Public and Nonprofit Program Evaluation. 3 Credits.**

Theory and practice of program evaluation and evaluative research. Exploration of scope and limitations of current practice in evaluation, considering economic, political, social, and administrative factors. Examination of methodological considerations for design, data collection, analysis, and dissemination. Prerequisite: PPPA 6002.

**PPPA 6017. Introductory Microeconomics for Public Policy. 3 Credits.**

Intermediate microeconomics with a focus on policy-relevant topics and examples. Restricted to MPA and MPP degree candidates.

**PPPA 6018. Public Policy, Governance, and the Global Market. 3 Credits.**

The socioeconomic foundations of government regulation and public policy cooperation for the governance of firms, markets, and globalization. The evolution of national, transatlantic, and multilateral frameworks for market and civil society governance, international competition policy cooperation, regulatory harmonization, and industry standards.

**PPPA 6019. MPP Capstone. 3 Credits.**

Policy theory and typologies; policy formulation, implementation, and evaluation; ethics and practice in policy analysis, processes, content, and contexts; policy linkages to multiple disciplines. Students submit an analysis of a substantive policy primarily utilizing resources in the DC region.

**PPPA 6020. Decision Modeling for Public Policy. 3 Credits.**

Practical modeling approaches used by policy analysts to explain and assess complex problems, bound a solution space, or determine what data is needed to support policy decisions; using spreadsheets (specifically, Microsoft Excel) to begin modeling policy problems. Prerequisite: PPPA 6002.

**PPPA 6024. Leadership in Complex Organizations. 3 Credits.**

What the manager must know and do to provide leadership and guidance in large, complex organizations. An exploration of leadership theories and the factors and processes that condition effective leadership.

**PPPA 6025. Ethics and Public Values. 3 Credits.**

Ethical dimensions of personal and professional judgments of public officials. Cases are used to consider the ethos of public organizations and the moral foundations of public policy.

**PPPA 6027. Program Management. 1 Credit.**

Program management as a basis for developing policy and evaluating programs; how managers look at problems, the competing demands they face, what (and who) influences their decisions and actions, and how they get things done.

**PPPA 6031. Governing and Managing Nonprofit Organizations. 3 Credits.**

Historical, legal, and social foundations of the nonprofit sector. Developing organizational strategy and capacity; managing staff, boards, and volunteers; financial management; fund raising, marketing, public advocacy, and other external relations; partnerships and entrepreneurial activities; measuring performance; and policy issues.

**PPPA 6032. Managing Fund Raising and Philanthropy. 3 Credits.**

Fund-raising for nonprofit organizations and the management of relationships between donors and recipient organizations. Positioning the organization for fund raising; roles of staff and volunteers; principal techniques for identifying, cultivating, and soliciting donors; ethical principles; emerging trends; and relevant policy issues.

**PPPA 6033. Nonprofit Enterprise. 3 Credits.**

The use of business methods by nonprofit organizations, commercialization in the nonprofit sector, and the relationship between nonprofit and for-profit entities in pursuing social purposes. Case studies.

**PPPA 6034. Managing Nonprofit Boards. 3 Credits.**

Overview of the responsibilities, roles, and management of nonprofit boards. The emphasis is on governing boards, but advisory councils and boards of other types are also considered.

**PPPA 6042. Managing State and Local Governments. 3 Credits.**

Examination of state and local governmental structures and functions, their place within the federal system, their revenue sources, their limitations, and the alternatives available to encourage more effective administration to meet public and private demands.

**PPPA 6043. Land Use Planning and Community Development. 3 Credits.**

Theory and practice of land use planning. Issues of competing land uses in an era of increased sprawl, population pressure, and environmental threat. Growth management techniques and practices in states and localities; the use of various regulatory controls and economic incentives to achieve desired outcomes. The idea of "sustainable community."

**PPPA 6044. State Politics and Policy. 3 Credits.**

Important concepts of state politics and government with emphasis on how those concepts affect the formulation and implementation of policy. The functions of state government and the political, economic, and legal factors that shape state public policies.

**PPPA 6048. Financing State and Local Government. 3 Credits.**

Analysis of the theory and practice of public finance in state and local governments. Includes the financing of services through municipal taxation, intergovernmental funds, debt instruments, and other revenue sources. Review of expenditures as well as financial management practices.

**PPPA 6049. Urban and Regional Policy Analysis. 3 Credits.**

Examination of selected national policies and their effects on urban areas and governments. Emphasis on policy dimensions of urban systems and their relationship to the social, political, and economic context. Against the background of urban politics and administration, areas of health, education, welfare, manpower, transportation, and housing are addressed.

**PPPA 6051. Governmental Budgeting. 3 Credits.**

Survey of the actors, institutions, and processes in the federal budgeting system. Executive budget preparation/execution, legislative review and approval of budget requirements, and independent audit of government spending.

**PPPA 6052. Tax Policy Analysis. 3 Credits.**

This course provides a guided, critical study of budgeting by the U.S. Government: its conceptual foundations, structure, processes, accounting, scoring, and results. This process is evaluated, as a system and by its component elements, using the criteria of performance with respect to its fundamental objectives; fiscal and economic stability and efficiency, including for those programs aimed at promoting equity. Because of the dominant role of the Congress in the budget process, attention is focused on the system and process created by the Congressional Budget Act of 1974.

**PPPA 6053. Financial Management for Public and Nonprofit Organizations. 3 Credits.**

Intensive analysis, using the case study approach, of concepts and principles used in the not-for-profit sector for financial management purposes. Disciplines of accounting, budgeting, operations control, management, and auditing are integrated into comprehensive management control systems and include issues of system design and implementation.

**PPPA 6054. Issues in Federal Budgeting. 3 Credits.**

Policy tools available to pursue social objectives, including grants, loans, contracting out, regulation, tax credits, and tax expenditures. Focus on criteria such as effectiveness, efficiency, equity, legitimacy, and administrative ease.

**PPPA 6055. Contracting Out and Public-Private Partnerships. 3 Credits.**

Contracting out and public-private partnerships as methods of delivering government goods and services. Policy and implementation issues, including when and how contracting out may provide a more efficient and effective method of delivering government goods and services.

**PPPA 6056. Regulatory Comment Clinic. 3 Credits.**

Survey of regulatory theories, institutions, policies, and procedures. Application of economic tools to analyze the effect of existing and proposed regulations on social welfare. Communication of analysis to decision makers and the public.

**PPPA 6057. International Development Administration. 3 Credits.**

An institutional and policy context for work in the international development industry. Mainstream policies, reform efforts, and alternative approaches. Major actors, selected policy areas, and regional and comparative perspectives.

**PPPA 6058. International Development NGO Management. 3 Credits.**

Provides an understanding of the primary implementers of international development assistance. Overview of NGO management, highlighting those features that are particular to NGOs active in international development, including NGO relations with government and donors. Recommended background: PPPA 6057 or permission of the instructor.

**PPPA 6059. International Development Management Processes and Tools. 3 Credits.**

Training in development management tools and processes; application of international development approaches specific to the development management profession. Key theories and perspectives of community development and development management. Recommended background: PPPA 6057 or permission of the instructor.

**PPPA 6060. Policy Formulation and Administration. 3 Credits.**

Impact of economic and political factors on public policy formulation and implementation; intensive analysis of the analytical, normative, and decision-making models of the policy process with special emphasis on their relationship to current policy problems.

**PPPA 6061. Banking and Financial Institutions Policy. 3 Credits.**

This course examines the broad range of policy issues applicable to banking and financial institutions – including those related to monetary policy, financial stability, consumer protection, and community reinvestment. This area includes a number of questions that are at the forefront of the current national policy debate about the appropriate role of government and how best to regulate financial institutions and financial markets.

**PPPA 6062. Community Development Policy and Management. 3 Credits.**

This course examines the policy and practice of community development, including how private sector developers and lenders work with nonprofits, foundations, and the public sector to promote sustainable affordable housing, economic development, and other community-based projects that meet both financial as well as social impact criteria. This category of finance and development is intended to help people and communities just outside the margins of conventional, mainstream finance join the economic mainstream – and to help the economic mainstream enter emerging opportunity markets. The course explores different types of community development opportunities, including affordable housing, charter school, community facility, small business lending, and nonprofit real estate projects. The course also addresses emerging trends that are likely to affect community development policymakers and practitioners, including transportation oriented development, “green” development, use of technology, comprehensive community initiatives, and new ways of raising capital for community development projects.

**PPPA 6063. Policy Issues in Corporate Social Responsibility (CSR) and Impact Investing. 3 Credits.**

This course examines the role of the public and nonprofit sectors in supporting corporate and investor activities that are intended to have social and environmental, in addition to financial, benefits. These activities – often referred to as “corporate Social Responsibility” (CSR) and “impact investing” – have been described as having significant potential to create social benefits in addition to being in the financial best interests of the corporation or investor. At the same time, some critics of these activities have said that they are less about producing social benefits and more about marketing private sector activities that are primarily designed to produce corporate financial gains. The course explores what is meant by these two terms, what steps the public and nonprofit sectors have taken to support the wide range of activities that these terms encompass, and what have been the results of this work both in the United States and in other countries. The course also addresses emerging trends that are likely to affect the public and nonprofit role in CSR and impact investing in the future.

**PPPA 6065. Federalism and Public Policy. 3 Credits.**

**PPPA 6066. U.S. Environmental Policy. 3 Credits.**

Current issues in environmental policy; biodiversity, land use including wilderness protection, climate change, environmental justice, economic growth, and ecological sustainability.

**PPPA 6067. Environment, Energy, Technology, and Society. 3 Credits.**

The identification, examination, and evaluation of how environment, energy, and technology are interrelated and how these interactions influence policy formulation and implementation at the international, national, regional, industrial, and organizational levels. Same as SMPP 6207.

**PPPA 6072. Legislative Management and Congress. 3 Credits.**

Analysis of Congress as a management system; examination of its internal administration and its role in formulating policy through legislation. Staffing practices, leadership, rules and procedures, oversight functions, and coalition building.

**PPPA 6075. Law and the Public Administrator. 3 Credits.**

Exploration and analysis of the functions of law in a democratic society. Emphasis is placed upon the procedural, historical, and jurisprudential dimensions of American law. This broad perspective seeks to convey understanding of the law as a legal and moral force guiding and constraining public decision making.

**PPPA 6076. Federal Government Regulation of Society. 3 Credits.**

Analysis of the federal regulatory process as it affects the public and private sectors. The regulatory process from legal, economic, administrative, and political perspectives.

**PPPA 6077. Case Studies in Public Policy. 1-3 Credits.**

Critical analysis of topical issues in public policy, using a case-study approach. Specific issues covered vary.

**PPPA 6081. Poverty and Social Policy. 3 Credits.**

Introduction to analytical and political issues surrounding the ongoing American and British debates on poverty and social policy; evaluating social assistance programs; the complementary roles of policy analysis and public management.

**PPPA 6085. Special Topics in Public Policy. 3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit, provided the topic differs.

**PPPA 6097. Practicum in Public Policy and Public Administration. 0 Credits.****PPPA 6098. Independent Research. 1-12 Credits.**

Permission of the instructor and program director required prior to enrollment.

**PPPA 6140. Introduction to Environmental Law. 3 Credits.**

Federal environmental statutes, implementing regulations, state regulatory programs, international environmental agreements; environmental governance tools; strengths, weaknesses of legal, administrative, private approaches to environmental threats; the role of federal courts, administrative law in environmental protection.

**PPPA 6145. Global Environmental Justice and Policy. 3 Credits.**

Environmental justice, considered as both a movement and a public policy. Examination of environmental injustices—both perceived and actual—affecting individuals, communities, and populations. Adherence to, and enforcement of, environmental laws and regulations that affect the allocation of environmental benefits and the distribution of sources of toxic pollution and other hazards.

**PPPA 6198. Environmental Resource Policy Capstone. 3 Credits.**

Team development of a project sponsored by an external entity, such as a government or nongovernmental agency, or participation in an aspect of a research project directed by a faculty member. The student team functions as an external consultant tasked with analysis of the chosen issue.

**PPPA 6207. Program Management. 1 Credit.****PPPA 6295. Research Topics in Environmental Resource Policy. 1-3 Credits.**

May be repeated for credit to a maximum of 6 credits.

**PPPA 8022. Econometrics for Policy Research II. 3 Credits.**

For doctoral students who wish to use econometric tools in their research. An equivalent course in introductory econometrics may be substituted for the prerequisite with permission. Prerequisite: PPPA 6013.

**PPPA 8023. Mixed Methods in Research Design. 3 Credits.**

The historical and philosophical foundations of mixed method research design; review of canonical designs; developing and honing skills to implement mixed methods research designs.

**PPPA 8100. Seminar: Literature of Public Administration. 3 Credits.**

Contemporary and historical literature in the institutional and intellectual development of public administration.

**PPPA 8101. Research Methods. 3 Credits.**

Doctoral seminar on theory and practice in research methodology. Data sources and gathering, research models and designs. Critical evaluation of research studies. Emphasis on application of research methods to policy questions.

**PPPA 8105. Public Finance and Human Capital. 3 Credits.**

The many facets of budgeting and finance and the research approaches used to study issues in this field.

**PPPA 8111. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.**

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Restricted to doctoral candidates.

**PPPA 8123. Seminar: The Policy Organization. 3 Credits.**

Unique problems of complex organizations: public, private, and mixed. Emerging concepts and theories. Selected issues.

**PPPA 8164. Seminar on Program Evaluation. 3 Credits.**

Doctoral seminar on theory and practice in public and nonprofit program evaluation. The broad range of approaches undertaken, current controversies in the field, and the political and ethical context for evaluators.

**PPPA 8174. Seminar: Public Management. 3 Credits.**

Public organization theory and behavior. Organizational behavior, organization theory, and public management. Key traditions of inquiry in the study of public organizations.

Restricted to students in the PhD in public policy and administration program.

**PPPA 8183. Current Topics and Research. 1 Credit.**

Current scholarship discussed in a seminar setting. The conduct of research and presentation of research findings. May be repeated for credit.

**PPPA 8190. Philosophical Foundations of Policy and Administrative Research. 3 Credits.**

Philosophy of science as applied to research in public policy and public administration. The nature of and current problems related to epistemology, development and role of theories, and relationships among theory, methodology, and empirical data. Credit for this course may be applied toward the dissertation credit requirement. Restricted to public policy and administration doctoral candidates who have taken and passed the qualifying examination and completed all required course work in a policy or public administration field.

**PPPA 8191. Dissertation Workshop. 3 Credits.**

Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies. Credit for this course may be applied toward the dissertation credit requirement. Restricted to public policy and administration doctoral candidates who have taken and passed the qualifying examination and completed all required course work in a policy or public administration field.

**PPPA 8197. Doctoral Seminar: Special Topics. 1-3 Credits.**

.

**PPPA 8998. Advanced Reading and Research. 1-12 Credits.**

Restricted to doctoral candidates preparing for the general examination.

**PPPA 8999. Dissertation Research. 3-12 Credits.**

Doctoral candidates in dissertation research. Restricted to doctoral candidates.

**ENRP 6085. Topics in Environmental Resource Policy. 1-3 Credits.**

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**ENRP 6097. Practicum in Environmental Resource Policy. 0 Credits.**

International students engage in an unpaid internship. Restricted to students enrolled in the MA in environmental resource policy program.

**ENRP 6101. Environmental Sciences I: Physical Sciences. 3 Credits.**

Basic physical sciences crucial to environmental issues, including chemistry, geology, hydrology, climate science, and cross-media interactions; land, air, and water pollution, climate change, production and consumption of energy, sea level rise, and anthropogenic changes in the cryosphere. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

**ENRP 6102. Environmental Sciences II: Life Sciences. 3 Credits.**

Basic life sciences crucial to environmental issues, including biology, ecology, environmental health and toxicology, epidemiology, and agriculture; biodiversity, ecosystem services, habitat preservation, deforestation, conservation biology, nutrient cycling, and the impacts of climate change on living systems. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

**ENRP 6140. Introduction to Environmental Law. 3 Credits.**

Federal environmental statutes, implementing regulations, state regulatory programs, international environmental agreements; environmental governance tools; strengths, weaknesses of legal, administrative, private approaches to environmental threats; the role of federal courts, administrative law in environmental protection.

**ENRP 6145. Global Environmental Justice and Policy. 3 Credits.**

Environmental justice, considered as both a movement and a public policy. Examination of environmental injustices—both perceived and actual—affecting individuals, communities, and populations. Adherence to, and enforcement of, environmental laws and regulations that affect the allocation of environmental benefits and the distribution of sources of toxic pollution and other hazards.

**ENRP 6295. Research Topics in Environmental Resource Policy. 1-3 Credits.**

May be repeated for credit to a maximum of 6 credits.

**ENRP 6298. Seminar in Environmental Resource Policy. 3 Credits.**

The capstone seminar involves team development of a project sponsored by an external entity, such as a government agency or non-governmental organization, or participation in an aspect of a research project directed by a faculty member. The student team functions as an external consultant tasked with analysis of the chosen issue.

## MASTER OF ARTS IN THE FIELD OF ENVIRONMENTAL RESOURCE POLICY

---

The master of arts in environmental resource policy (ENRP) degree program offers a multidisciplinary approach to environmental and sustainability studies, blending theory and practical experience with a curriculum that includes environmental economics, environmental law, public policy, research methods, and environmental science. Elective courses can be taken in almost any department at the University, including, but not limited to, biology, chemistry, geography, international affairs, public policy, economics, political science, engineering management and systems engineering, business administration, and public health. Students graduate prepared to enter environmental policy careers in government, nonprofit organizations, the private sector, and environmental advocacy groups.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 24 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
ENRP 6101	Environmental Sciences I: Physical Sciences	
ENRP 6102	Environmental Sciences II: Life Sciences	
ENRP 6140	Introduction to Environmental Law	
ENRP 6298	Seminar in Environmental Resource Policy	
ECON 6237	Economics of the Environment and Natural Resources	
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6007	Microeconomics for Public Policy I	
PPPA 6006	Policy Analysis	
<b>Electives</b>		
12 credits of approved elective drawn from a number of departments throughout the University.		

Students who previously completed required courses may be allowed to substitute additional elective courses with program approval. Students may substitute PPPA 6017, PPPA 6014, or Econ 6217 for PPPA 6007.

## MASTER OF PUBLIC ADMINISTRATION

The master of public administration degree (MPA) is the recognized professional degree in public administration, public management, and public service. It is designed principally, but not exclusively, for those who are pursuing careers in public service. Graduates are employed in government agencies at all levels, national associations, public interest groups, research and consulting firms, and in the private sector.

The MPA degree program provides an opportunity to study management and policy issues in an intergovernmental and intersectoral context. The program focuses on developing critical intellectual capacities, sound analytical skills, and a sensitivity to the ethical and value concerns that are central to the traditions of the field of public administration.

Visit the program website (<https://tspppa.gwu.edu/master-public-administration-mpa>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

40 credits, including 22 credits in required courses, 9 to 12 credits in a selected policy field, and 3 to 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
PPPA 6000	Perspectives on Public Values	
PPPA 6001	Introduction to Public Service and Administration	
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6003	Economics for Public Decision Making	
PPPA 6004	Managing Public Organizations	
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis	
PPPA 6006	Policy Analysis	
PPPA 6016	Public and Nonprofit Program Evaluation	
PPPA 6009	MPA Capstone	

### Policy field

Completion of a 9- or 12-credit policy field.

Policy fields include budget and public finance; federal policy, politics, and management; international development management; managing state and local governments; homeland security and emergency management; nonprofit management; policy analysis and evaluation; public-private policy and management. With approval, a special field may be constructed, tailored to the student's academic interests and career objectives. Students should consult the GWSPH website for additional information.

### Electives

3 to 6 credits in elective courses selected in consultation with the advisor. Courses may be from any related program or discipline

# MASTER OF PUBLIC POLICY

## REQUIREMENTS

Prerequisite: a bachelor's degree from a regionally accredited college or university.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Code	Title	Credits
<b>Required: 40 credits consisting of:</b>		
Policy Core:		
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6007	Microeconomics for Public Policy I	
PPPA 6011	Politics and Policy Analysis	
PPPA 6013	Econometrics for Policy Research I	
PPPA 6014	Microeconomics for Public Policy II	
PPPA 6019	MPP Capstone	
Tools of Analysis (Two of the following):		
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis	
PPPA 6015	Benefit-Cost Analysis	
PPPA 6016	Public and Nonprofit Program Evaluation	
PPPA 6020	Decision Modeling for Public Policy	
PPPA 8022	Econometrics for Policy Research II	
PPPA 8023	Mixed Methods in Research Design	
Field of Study:		
Students complete a policy field of at least nine credits. Policy fields include public finance, education policy, environmental policy, health policy, national security and foreign policy, international policy development, program and policy evaluation, regulatory policy, social policy, and urban policy. With approval of faculty adviser, students can design a specialized field focused on the student's academic interests and career objectives.		

The master of public policy is available in a dual degree program with the PhD in the field of political science and a joint degree program with the JD in the Law School.

Visit the program website (<https://tspppa.gwu.edu/master-public-policy-mpp>) for additional information.

# MASTER OF ARTS IN THE FIELD OF ENVIRONMENTAL RESOURCE POLICY AND GRADUATE CERTIFICATE IN GEOGRAPHICAL INFORMATION SYSTEMS

The combined master of arts in environmental resource policy (ENRP) degree and graduate certificate in geographical information systems (GIS) program offers a multidisciplinary approach to environmental and sustainability studies, blending theory and practical experience with a curriculum that includes environmental economics, environmental law, public policy, research methods, and environmental science. Elective courses can be taken in almost any department at the University, including, but not limited to, biology, chemistry, geography, international affairs, public policy, economics, political science, engineering management and systems engineering, business administration, and public health. Students graduate prepared to enter environmental policy careers in government, nonprofit organizations, the private sector, and environmental advocacy groups. The GIS certificate curriculum guides students through all aspects of GIS theory and practice, from the science of cartography to analyzing geographical statistics to database design and geospatial modeling. Students are equipped with a solid grounding in geospatial theory and techniques as well as its practical applications.

## REQUIREMENTS

The MA in Environmental Resource Policy requires 36 credits of appropriate graduate-level coursework. Coursework usually takes four semesters to complete on a full-time basis, and six to eight semesters on a part-time basis. Coursework is divided into 24 credits of core requirements (eight courses) and 12 credits of electives (typically four courses).

### REQUIRED COURSES:

ENRP 6101	Environmental Science I – Physical Sciences (Year 1, Fall)
ENRP 6102	Environmental Science II – Life Sciences (Year 1, Spring)
ENRP 6140	Introduction to Environmental Law (Year 1, Spring)
PPPA 6017	Introductory Microeconomics for Public Policy (Year 1, Spring)
ECON 6237	Economics of the Environment and Natural Resources (Year 2, Fall)

PPPA 6006	Policy Analysis (Year 1, Fall, Spring, or Summer)
PPPA 6002	Research Methods & Applied Statistics (Year 1, Fall or Spring)
ENRP 6298	Capstone Course (Year 2, Spring)

ELECTIVES:

Electives are usually selected either to broaden familiarity with several environmental policy issues or to specialize in a particular environmental or resource issue. They offer students the chance to tailor the ENRP program to their specific needs and interests. Elective courses can be taken in almost any department at The George Washington University, including, but not limited to, biology, chemistry, geography, international affairs, public policy, economics, political science, engineering management and systems engineering, business administration, and public health, as well as at Consortium Schools. Students enrolled in the dual program would take GIS courses as their electives.

GIS CERTIFICATE PROGRAM REQUIREMENTS

The Certificate program requires the completion of 12 graduate credits (typical). Students take 2 required courses (GEOG 6304 (GIS 1), GEOG 6305 (Geospatial Statistics)), and 2 elective classes.

REQUIRED COURSES:

GEOG 6304: GIS I (Fall, Spring, Summer)

GEOG 6305: Spatial Statistics (Fall, Spring)

ELECTIVES

- GEOG 6306: Advanced Geospatial Analysis (Spring) (Prerequisite: GEOG 6304)
- GEOG 6307: Digital Image Processing (Spring) (Prerequisite: GEOG 6303, GEOG 6304 & GEOG 6305)
- GEOG 6308: Programing for geographic applications (Fall) (Prerequisite: GEOG 6304 & GEOG 6305)
- GEOG 6309: GIS for Emergency Management (Fall) (Prerequisite: GEOG 6304)
- GEOG 6310: Geo-visualization & Cartography (Fall) (Prerequisite: GEOG 6304)
- GEOG 6311: Open Source GIS (Spring) (Prerequisite: GEOG 6304)

DUAL MASTER OF PUBLIC ADMINISTRATION AND GRADUATE CERTIFICATE IN HOMELAND SECURITY EMERGENCY PREPAREDNESS AND RESPONSE

REQUIREMENTS

Master of public administration students can earn a graduate certificate in homeland security emergency preparedness and response in the school of engineering and applied science.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Code	Title	Credits
Required		
PPPA 6000	Perspectives on Public Values	
PPPA 6001	Introduction to Public Service and Administration	
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6003	Economics for Public Decision Making	
PPPA 6004	Managing Public Organizations	
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis	
PPPA 6006	Policy Analysis	
PPPA 6009	MPA Capstone	

Policy field

Three or four courses

Policy fields include budget and public finance; federal policy, politics, and management; international development management; managing state and local governments; homeland security and emergency management; nonprofit management; policy analysis and evaluation; public-private policy and management. With approval, a special field may be constructed, tailored to the student’s academic interests and career objectives.

Requirements toward the graduate certificate fulfill the elective credits toward the Master of Public Administration degree and are as follows:

EMSE 6300	Homeland Security: The National Challenge
Five additional courses from the following:	
EMSE 6305	Crisis and Emergency Management
EMSE 6310	Information Technology in Crisis and Emergency Management
EMSE 6315	Management of Risk and Vulnerability for Hazards and Terrorism
EMSE 6320	International Disaster Management
EMSE 6325	Medical and Public Health Emergency Management
EMSE 6330	Management of Terrorism Preparedness and Response
EMSE 6992	Special Topics
EMSE 6345	Disaster Recovery and Organizational Continuity
EMSE 6350	Hazard Mitigation in Disaster Management
EMSE 6240	Environmental Hazard Management

Visit the program website (<https://tspppa.gwu.edu/master-public-administration-mpa>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF PUBLIC POLICY AND ADMINISTRATION

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Completion of 72 credits beyond the baccalaureate or a minimum of 48 credits beyond the master's degree. Students who have completed graduate coursework judged to satisfy program requirements may be granted advanced standing of up to 24 credits toward the overall 72 credits required for the PhD.

Code	Title	Credits
<b>Required</b>		
Prequalifying core curriculum		
PPPA 6013	Econometrics for Policy Research I	
PPPA 6014	Microeconomics for Public Policy II	
PPPA 8100	Seminar: Literature of Public Administration	
PPPA 8101	Research Methods	
PSC 8229	Politics and Public Policy	
A written qualifying examination		
<b>Core courses</b>		
PPPA 8105	Public Finance and Human Capital	
One of the following to fulfill the quantitative course requirement:		
PPPA 8022	Econometrics for Policy Research II	
ECON 8376	Econometrics II	
ECON 8377	Econometrics III	
DNSC 6275	Advanced Statistical Modeling and Analysis	
One of the following to fulfill the qualitative course requirement:		
PPPA 8023	Mixed Methods in Research Design	
PSC 8104	Qualitative Research Methods	
EDUC 8122	Qualitative Research Methods	
EDUC 8131	Case Study Research Methods	
PUBH 8417	Qualitative Research Methods and Analysis	
or equivalent course as approved by the program director.		
A minimum of 18 credits in one of the following fields:		
Education policy; budgeting and public finance; program evaluation; administration and management; science and technology policy; social policy with specialization in gender, poverty and inequality, race and ethnicity, or urban policy.		
A written examination in a policy or public administration field.		
<b>Dissertation research</b>		

12 to 18 credits in the following courses:

PPPA 8190	Philosophical Foundations of Policy and Administrative Research
PPPA 8191	Dissertation Workshop
PPPA 8199	Dissertation Research (repeated as needed to fulfill dissertation credit requirement)

Students must maintain a minimum grade-point average of 3.3 to remain in the program.

Visit the program website (<https://tspppa.gwu.edu/phd-public-policy-and-administration>) for additional information.

## GRADUATE CERTIFICATE IN BUDGET AND PUBLIC FINANCE

The certificate in budgeting and public finance provides coursework in the theoretical and practical foundations of public budgeting and in the formulation and evaluation of public budgets, as well as the complex choices of economic reasoning in response to resource allocation in the process of formulating and implementing public budgets.

The courses in the certificate provide a background in budget policy and process, characteristics of public revenue and expenditure, and governmental accounting and financial reporting. This certificate is particularly suited for those who are, or envision becoming, budget analysts or financial management officers in public agencies at any level of government.

Certificate students enroll in regular courses of the Trachtenberg School and earn graduate credit. Regular graduate tuition and fees apply.

The Budget and Public Finance certificate program is available at the George Washington University's main campus in downtown Washington, DC. It is also available as a distance learning program.

Visit the program webpage (<https://tspppa.gwu.edu/certificate-budget-and-public-finance>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: 12 credits, including 3 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis	
<b>Electives</b>		
Three of the following:		
PPPA 6048	Financing State and Local Government	
PPPA 6051	Governmental Budgeting	
PPPA 6052	Tax Policy Analysis	
or PPPA 6054	Issues in Federal Budgeting	
PPPA 6053	Financial Management for Public and Nonprofit Organizations	
PPPA 6055	Contracting Out and Public-Private Partnerships	

## GRADUATE CERTIFICATE IN CONTEXTS OF ENVIRONMENTAL POLICY

### National Park Service Roger Kennedy Fellows Program

**Graduate certificate in contexts of environmental policy for National Park Service (NPS) employees who have served for three or more years**

The NPS graduate certificate in contexts of environmental policy program is designed to help prepare current and future leaders who are responsible for the preservation and protection of public lands and cultural heritage. Inspired by a gift from Roger and Frances Kennedy and made possible by the Friends of Roger Kennedy, this program funds NPS students to undertake a course of study that strengthens their knowledge of the natural and cultural resources that lie at the heart of the NPS mission. Offering a wide range of courses that contextualize environmental policy, the program allows both flexibility and purpose to NPS students.

### Program Overview

Students are required to complete 12 credits taken in four 3-credit graduate-level courses. Students may take one or two courses per semester; some courses are also offered in the summer. Program courses are offered by the Columbian College of Arts and Sciences (CCAS) on GW's Foggy Bottom campus in downtown Washington, D.C. All courses are taught by GW faculty members who are experts in their field.

Applicants must meet GW admission requirements and are enrolled as degree students upon admission. Once admitted to

the program, students do not need to reapply for subsequent semesters as long as they remain in good academic standing as defined by Columbian College of Arts and Sciences standards (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

Students are required to take one policy course as they enter the program and then can choose among a large number of electives that fall under either policy or culture categories. By special permission, students may also enroll in graduate courses in the sciences.

The admissions process for this program comprises a two-tiered review:

- The first level of review is conducted by an NPS review committee to ensure that NPS employees meet all eligibility requirements and are appropriate candidates to be considered for participation. The review committee ranks each nominee based on the information provided in the nominee's application materials. The ranking process consists of an evaluation of the nominee's education, work experience, personal and professional goals, and writing ability.
- The second level of review is the actual selection of participants by a CCAS admissions committee. This committee conducts its selections based on the admission policies of CCAS and GW.

Visit the program website (<https://enrp.columbian.gwu.edu/national-park-service-contexts-environmental-policy-graduate-certificate>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including one 3-credit required course and 9 credits in elective courses.

Code	Title	Credits
<b>Required:</b>		
PPPA 6006	Policy Analysis	
or PPPA 6066	U.S. Environmental Policy	
<b>Electives</b>		
9 credits in elective courses selected from the following:		
AMST 6530	Field Methods in Architectural Documentation	
ANTH 6101	Proseminar in Biological Anthropology	
ANTH 6807	Public Archaeology	
ENGL 6510	Writing, Race, and Nation	

ENGL 6520	Ethnicity and Identity
ENRP 6101	Environmental Sciences I: Physical Sciences
ENRP 6140	Introduction to Environmental Law
GEOG 6219	Seminar: Climatology
GEOG 6230	Seminar: Environmental Issues in Development
HIST 6011	Reading and Research in History and Public Policy
HIST 6302	Colonial North America
HIST 6304	American Indian History to 1890
HIST 6420	Religion and American Culture
HIST 6480	Theory and Practice of Public History
HIST 6495	Historic Preservation: Principles and Methods
MSTD 6101	Museum Management
MSTD 6103	Leading Change
MSTD 6203	Preventive Conservation Concepts
PHIL 6281	Environmental Philosophy and Policy
PPPA 6010	Politics and The Policy Process
PPPA 6031	Governing and Managing Nonprofit Organizations
PPPA 6043	Land Use Planning and Community Development
PPPA 6067	Environment, Energy, Technology, and Society
PSC 6103	Approaches to Public Policy Analysis
SMPA 6201	Strategic Communications Skills
SOC 6250	Urban Sociology
STAT 6104	Statistics in Management, Administration, and Policy Studies
Students may be permitted to take alternative electives with permission of the advisor.	

Students should consult with Environmental and Resource Policy Director of Graduate Studies to construct an individualized curriculum best suited to their needs and interests.

## GRADUATE CERTIFICATE IN ENVIRONMENTAL RESOURCE POLICY

The graduate certificate in environmental resource policy helps students develop the skills to design, analyze, implement, and evaluate environmental policy; gain knowledge regarding relevant international, federal, state, and local environmental policies, processes, and tools; understand basic aspects of environmental science and how scientific principles govern the natural behavior of the earth's environment; and identify the economic factors that drive the decisions of firms and consumers when it comes to environmentally-relevant behavior. Certificate students may apply to the master of arts in the field of environmental resource policy degree program and, if accepted, may count the 12 credits from the certificate program toward the MA degree.

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits in required courses.

Code	Title	Credits
<b>Required</b>		
PPPA 6017	Introductory Microeconomics for Public Policy	
or ECON 6237	Economics of the Environment and Natural Resources	
ENRP 6101	Environmental Sciences I: Physical Sciences	
or ENRP 6102	Environmental Sciences II: Life Sciences	
PPPA 6006	Policy Analysis	
PPPA 6066	U.S. Environmental Policy	
or ENRP 6140	Introduction to Environmental Law	

If a student can demonstrate, by virtue of prior coursework, competency in all of the topics covered by a required course, that student may substitute another graduate course relevant to environmental policy, with the permission of the Environmental Resource Policy Program Director or Director of Graduate Studies.

## GRADUATE CERTIFICATE IN NONPROFIT MANAGEMENT

The graduate certificate in nonprofit management provides an overview of central concepts in managing nonprofit organizations for students who are seeking to prepare for, or advance in, careers in the nonprofit sector. The certificate

serves as an alternative for students who wish to expand their knowledge in the field without committing to a master's degree program.

Visit the program webpage (<http://tspppa.gwu.edu/graduate-certificate-nonprofit-management>) for additional information.

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
PPPA 6031	Governing and Managing Nonprofit Organizations	
PPPA 6032	Managing Fund Raising and Philanthropy	
<b>Elective</b>		
Two of the following		
PPPA 6016	Public and Nonprofit Program Evaluation	
PPPA 6033	Nonprofit Enterprise	
PPPA 6034	Managing Nonprofit Boards	
PPPA 6053	Financial Management for Public and Nonprofit Organizations	
PPPA 6058	International Development NGO Management	

Other Trachtenberg School of Public Policy and Public Administration nonprofit courses may be offered periodically. With prior approval of the field advisor, certain non-Trachtenberg School courses at GW may be counted toward the elective group.

### RELIGION

The study of religion at GW promotes analysis rather than advocacy of religion or a particular tradition. At the undergraduate level, the Department of Religion offers the bachelor of arts with a major in religion. The program curriculum fosters knowledge of the world's religions, as well as their history, literature, and community structure. Areas of study include Biblical literature, Judaism, Christianity, Islam, Hinduism, ethics, sociology of religion, contemporary movements in theology, and religion in American culture. A minor in religion is also offered.

At the graduate level, the cross-disciplinary master of arts in the field of Islamic studies program focuses on the study of Islam

in its classical and contemporary formations, with an emphasis on developing competence in classical Islamic intellectual traditions.

The graduate certificate in Islamic studies is also offered for professionals in related fields who benefit from instruction in critical aspects of Islam.

The doctor of philosophy in the field of American religious history is offered by the Department of History in cooperation with the Department of Religion.

Visit the Department of Religion website (<https://religion.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in religion (p. 378)

### Minor

- Minor in religion (p. 379)
- Minor in linguistics (p. 67) (interdisciplinary)

## GRADUATE

### Master's program

- Master of Arts in the field of Islamic studies (p. 380)

### Doctoral program

- Doctor of Philosophy in the field of American religious history (p. 264)

## CERTIFICATE

### Certificates

- Graduate certificate in Islamic studies (p. 381)

## FACULTY

**University Professor** S.H. Nasr

**Professors** P.B. Duff, R.J. Eisen (*Chair*), R.W. Tuttle

**Associate Professors** X. Kang, I. Oh-Koukios, D. Malone-France, K. Pemberton

**Assistant Professors** E. Aviv, J.D. Wood

**Adjunct Professors** M. Faghfoory

**Professorial Lecturers** B.N. Hebbar, E.C. Hostetter

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **REL 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### **REL 1001. Introduction to World Religions: West. 3 Credits.**

Examination of the religions of the ancient Mediterranean and the major religions of the West. Religious foundations of Western civilizations. The development of Judaism, Christianity, and Islam and their confrontations with secularization and political upheaval in the modern world.

#### **REL 1002. Introduction to World Religions: East. 3 Credits.**

Examination of the major religions of the East and comparison with religions in the West. Approaches to the cross-cultural study of religion. Hinduism, Buddhism, and the religions of Tibet, China, and Japan are studied with respect to their history and their encounter with modernity.

#### **REL 1003. Introduction to World Religions. 3 Credits.**

Introduction to the major religions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, and Daoism. Examination of the central aspects of these religions including the doctrinal, ethical, ritual, experiential, and social dimensions. Exploration of similarities and differences between these religious traditions.

#### **REL 1009. The Hebrew Scriptures. 3 Credits.**

The literature, history, and religious thought represented by the Hebrew Scriptures (Old Testament). Continuities and contrasts between Israel and the ancient Near East are considered through study of the world view, oral and literary tradition, main religious ideas, and chief figures and movements of the biblical literature.

#### **REL 1010. The New Testament. 3 Credits.**

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement.

**REL 1010W. The New Testament. 3 Credits.**

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 2165. The Gospels. 3 Credits.**

Study of the four canonical gospels (traditionally those of Matthew, Mark, Luke, and John) in terms of each presenting a distinct literary portrait of Jesus of Nazareth and each being the product of a religious community that shared at least some beliefs and practices with surrounding "pagan" and Jewish communities.

**REL 2169. Lost Gospels. 3 Credits.**

Examination of some of the gospels not included in the Christian canon. These include, among others, Q, the Gospel of Thomas, the Gospel of Mary, and the Gospel of Judas. These lost gospels provide a fresh perspective on the development and diversity of early Christianity.

**REL 2201. Judaism. 3 Credits.**

A survey of Jewish thought and practice from the biblical to the modern period; introduction to the Hebrew Bible, rabbinic Judaism, Jewish philosophy and mysticism, Judaism in the modern period; an examination of the central rituals in Judaism, including Sabbath, dietary laws, and major festivals.

**REL 2211. Rabbinic Thought and Literature. 3 Credits.**

The thought-world of rabbinic Judaism in its formative period, 100 to 500 CE, through a close reading of primary texts in translation selected from Mishnah, Talmud, and Midrash. Topics include Oral Torah, the mechanics of rabbinic law, conceptions of God, views on suffering. The influence of rabbinic Judaism on modern Jewish ethics and thought.

**REL 2301. Christianity. 3 Credits.**

Typical themes, patterns, and points of diversity within the Christian religion; commonly shared and contested features and complex relationship with broader culture.

**REL 2314. Contemporary Philosophy of Religion. 3 Credits.**

The arguments of major figures in contemporary schools of thought within the philosophy of religion, including analytic, continental, deconstructionist, and process philosophy.

**REL 2401. Islam. 3 Credits.**

Islam as both a religion and a civilization. The basic Islamic beliefs and practices: the Qur'an, Hadith, and Islamic intellectual legacy; and the history of Islam from 632 to the present with particular attention to its encounter with the West.

**REL 2501. Hinduism. 3 Credits.**

Study of continuity and change in Hinduism, with emphasis on historical development and the consolidating features of the religion. Attention to relations between classical and popular living forms.

**REL 2506. Religion, Myth, and Magic. 3 Credits.**

Theories of religion developed by anthropologists; survey of world religions with emphasis on non-Western societies; religious processes and change. (Same as ANTH 2506).

**REL 2562. Mythologies of India. 3 Credits.**

The lore of Indian gods (Vedic, Puranic), heroes (epics), and holy men (Hindu, Buddhist, Jain, Tantric); ties with Indian art, caste, cult, cosmology, and spiritual ideals.

**REL 2601. Buddhism. 3 Credits.**

Consideration of the Buddhist tradition both thematically and historically, focusing on topics such as Buddhist doctrine, meditation, and rituals. The lived tradition in the pre-modern and modern periods.

**REL 2802. Introduction to Chinese Religions. 3 Credits.**

General introduction to Chinese religions focusing on religious doctrines and institutions; religious practices, including ancestor worship, family and communal rituals, spirit possession, fengshui theories, pilgrimage, popular worship of ghosts and gods. (Same as EALL 2802).

**REL 2811. Confucian Literature in East Asia. 3 Credits.**

Introduction to Confucian literature in China and other parts of East Asia, from its beginnings to the present day. The various historical, philosophical, and religious dimensions of Confucian texts and practices; the role of Confucianism in the formation and development of Chinese and East Asian political systems, family systems, and gender relationships; recent intellectual debates on Confucianism in East Asia. (Same as EALL 3811, EALL 6811).

**REL 2814. Religion and Philosophy in East Asia. 3 Credits.**

Historical introduction to the major religious and philosophical traditions in China, Japan, and Korea, with focuses on ancestor worship, shamanistic cults, Confucianism, Buddhism, Daoism, and Shinto. The interactions of common East Asian religious and philosophical traditions how these traditions evolved over time, and the way each cultures assimilates foreign elements. How the very ideas of religion and philosophy are formulated and practiced differently in East Asia from those in the Western tradition. (Same as EALL 3814, REL 3814).

**REL 2921. The Religions Wage Peace. 3 Credits.**

Resources in various world religions that contribute to peacemaking in interpersonal relations and in domestic and international politics. Consideration of ways in which religions contribute to intolerance and violence. Case-based approach to religions as related to peace and conflict resolution.

**REL 2922. Ethics and World Religions. 3 Credits.**

Modern concepts of ethics and their relation to major world religions, religion as stimulus and barrier to moral change, and modern moral issues ranging from bioethics to war.

**REL 2945. Psychological Study of Spirituality. 3 Credits.**

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Formerly REL 3945. Recommended background: Prior completion of a religion (REL) course.

**REL 2981. Women in Western Religion. 3 Credits.**

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity; special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. Same as WSTU 3981.

**REL 3141. Second Temple/Hellenistic Judaism. 3 Credits.**

History of Judaism from the time of Ezra through the destruction of Jerusalem in 70 CE—canonization of the Pentateuch, Hellenism, Maccabean revolt, growth of sectarian movements, Herod, ferment against Rome in context of Eastern and Western political currents. Use of primary sources, especially the Bible, Josephus, and noncanonical writings.

**REL 3149. Biblical Issues. 3 Credits.**

May be repeated for credit provided the topic differs.

**REL 3149W. Biblical Issues. 3 Credits.**

May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 3151. The Historical Jesus. 3 Credits.**

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus.

**REL 3151W. The Historical Jesus. 3 Credits.**

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 3161. The Life and Thought of Paul. 3 Credits.**

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith.

**REL 3161W. The Life and Thought of Paul. 3 Credits.**

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 3221. Issues in Jewish Ethics. 3 Credits.**

Exploration of current debates about major ethical issues among Jewish thinkers in the Orthodox, Conservative, and Reform denominations; issues in bioethics, feminism, attitudes towards non-Jews, social action, the ethics of war.

**REL 3291. Modern Jewish Thought. 3 Credits.**

Jewish thought from 1800 to the present through an exploration of six preeminent Jewish theologians: Moses Mendelssohn, Hermann Cohen, Martin Buber, A.J. Heschel, J.B. Soloveitchik, and Mordecai Kaplan. The relationship between these thinkers and the major Jewish denominations: Orthodox, Conservative, Reform, and Reconstructionist.

**REL 3292. Seminar: Issues in Jewish Thought. 3 Credits.**

In-depth exploration of a selected thinker or issue in Jewish thought. Recommended for students with academic background in the study of religion or Judaic studies. May be repeated for credit provided the topic differs.

**REL 3310. Apocalypse and Social Change. 3 Credits.**

Investigation of typical ideas, patterns, and areas of social engagement associated with the genre of religious literature known as apocalypse. Why and how diverse groups within Jewish, Christian, and Muslim traditions crafted apocalypses that have shaped cultures across the globe from past to present.

**REL 3321. Christian Ethics and Modern Society. 3 Credits.**

Nature and principles of Christian life as developed by the Christian community; problems of personal conduct; application to various social institutions.

**REL 3341. Christianity in the Ancient World. 3 Credits.**

Rise and development of Christianity in relation to the culture, philosophy, mystery religions, and general religious life of the Greco-Roman world to A.D. 500.

**REL 3342. Medieval Faith and Symbolism. 3 Credits.**

Christian life and thought in the Middle Ages; mystics, saints, popes, and philosophers.

**REL 3343. Religion in the Renaissance and Reformation. 3 Credits.**

Transformation of the Western understanding of human identity and destiny from the end of the Middle Ages to the Age of Reason.

**REL 3344. Christianity in the Modern World. 3 Credits.**

Changes in Christian life and thought since 1700, as seen in theology, literature, political life, and religious institutions.

**REL 3405. Shi'ite Islam. 3 Credits.**

This course examines the emergence and development of Shi'ism as a branch of Islamic orthodoxy with particular emphasis on its doctrine, practices, theology, the law, politics, and the geographical and political context within which a distinct Shi'i identity developed.

**REL 3414. Islamic Philosophy and Theology. 3 Credits.**

The major schools of Islamic philosophy and theology, considered in both a morphological and historical manner. The relation between revelation and reason, determination and free will, and divine and human knowledge as well as the relation among science, philosophy, and religion. The development of various schools of thought, from the classical period to the present.

**REL 3419. Islamic Civilization and the West. 3 Credits.**

Interaction between Islamic and Western civilization during the past fourteen centuries. Christian contact with and development of views about Islam; formation of Islamic civilization and the influence of Islamic ideas upon the West; encroachment upon and subsequent colonization of the Islamic world by the West; the spread of Western ideas among Muslims; and Islamic responses to the advent of modernism coming from the West. Present day relations.

**REL 3425. Islamic Political Thought. 3 Credits.**

In contrast to many courses on this topic that focus on modern period, this course investigates Islamic political thought from its inception during the lifetime of the Prophet to its elaboration and expansion by philosophers, theologians and political theorists, and to its encounter with political thought coming from the Western world in modern period.

**REL 3431. Sufism (Islamic Mysticism). 3 Credits.**

The foundation of Sufism in the Quranic revelation, its subsequent development, and its significance within Islamic civilization. Doctrines and practices of Sufism; history of the Sufi orders; Sufi literature, particularly in Arabic and Persian. The influence of Sufism upon social and political life and its state and role in the contemporary world, both Islamic and non-Islamic.

**REL 3432. Persian Sufi Literature East and West. 3 Credits.**

The teachings of Sufism as reflected in the history of Persian Sufi literature. The influence of that literature on literary figures outside of the Islamic world, especially in the West, but also in India and China, from the 18th to the 20th centuries.

**REL 3475. Islamic Religion and Art. 3 Credits.**

Investigation of major forms of Islamic art, such as calligraphy, architecture, and urban design; Quranic chanting, poetry, and music in relation to the principles of Islamic revelation. Same as AH 4119.

**REL 3481. Women in Islam. 3 Credits.**

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. (Same as WGSS 3481).

**REL 3482. Gender and Piety in Islam. 3 Credits.**

Issues related to gender, sainthood, and piety in Islam. Reading of classical primary texts and historical, ethnographic, and philosophical works. Focus on mysticism and metaphysics in Sufi and Shi'i traditions. Final projects are creative or research oriented.

**REL 3566. Dharma in Hinduism and Buddhism. 3 Credits.**

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

**REL 3611. South Asian Buddhism. 3 Credits.**

The life of Buddha, the Buddhist Councils, doctrines of the schools of Hinayana Buddhism, philosophies of the schools of Indian Mahayana Buddhism, history of Buddhism in Sri Lanka, early history of Tibetan Buddhism, and the decline of Buddhism in India.

**REL 3614. Buddhist Philosophy. 3 Credits.**

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

**REL 3666. The Book of Revelation and Other Apocalypses. 3 Credits.**

Examination of the Book of Revelation in its original historical context. This includes investigation of the origins of apocalyptic thought within Judaism and comparison of the Book of Revelation with other apocalypses such as Daniel, 1 Enoch, and 4 Ezra.

**REL 3701. Religion in the United States. 3 Credits.**

Growth of religious groups and institutions in relation to American culture, development of religious thought, and analysis of the contemporary religious scene.

**REL 3711. Religion in Contemporary America. 3 Credits.**

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States.

**REL 3711W. Religion in Contemporary America. 3 Credits.**

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 3814W. Religion and Philosophy in East Asia. 3 Credits.**

General introduction to the religions and philosophical tradition of China, Japan, and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as EALL 3814).

**REL 3831. Daoism in East Asia. 3 Credits.**

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Same as EALL 3831.

**REL 3831W. Daoism in East Asia. 3 Credits.**

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as EALL 3831).

**REL 3832. Myth, Ritual, and Popular Religion in China. 3 Credits.**

Key aspects of popular religious myths, symbols, rituals, and practices in China, such as ancestor worship, spirit possession, fengshui theories, and pilgrimage.

**REL 3841. Religion in Modern China. 3 Credits.**

The changes, destructions, and reconstructions of Chinese religions from the late nineteenth century to the present day. The relationship between the (re)making of Chinese religions and the making of a modern Chinese nation-state. (Same as CHIN 3841).

**REL 3881. Women, Gender, and Religion in China. 3 Credits.**

Historical introduction to women and men as gendered subjects and the construction of gender and power in Chinese religions. May be taken for graduate credit with extra work assigned. Same as EALL 3881/WGSS 3811. (Same as EALL 3881, WGSS 3881).

**REL 3901. Thinking About Religion: Classic and Contemporary Approaches. 3 Credits.**

Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

**REL 3910. Perennial Philosophy. 3 Credits.**

The meaning of the concept of 'perennial philosophy' as understood by various scholars of thought throughout Eastern and Western history, including its contemporary significance. Perennial philosophy as it concerns the nature of the 'divine reality,' the human state, the cosmos, the arts, and relations between religions.

**REL 3912. Religion and Science. 3 Credits.**

The relationship between religion and science globally and over time. Egypt, Greece, the Far East, India, and the Islamic world; the West during the Renaissance, with a focus on alchemy and the hermetical tradition; and the Scientific Revolution in the 17th century and biological revolution in the 19th century. Issues and various currents of thought in the contemporary world.

**REL 3915. Islam and Hinduism in South Asia. 3 Credits.**

Investigation of the historical development and contemporary practice of Islam in South Asia (India, Nepal, Pakistan, Bangladesh, and Afghanistan). Particular attention to devotional traditions within Sufism and Bhakti Hinduism.

**REL 3920. Man and the Natural Environment. 3 Credits.**

The religious, philosophical, and historical causes of the modern environmental crisis; examination of the relationship between human beings and the natural environment in the West and in major non-Western civilizations from Graeco-Roman antiquity to modern times. Emphasis on the religious and philosophical issues involved in the relationship between man and nature.

**REL 3923. Violence and Peace in Judaism, Christianity, and Islam. 3 Credits.**

Historical analysis of the violent and peaceful dimensions of the three Abrahamic faiths, with focus on the relationship of the scriptures of each of the three traditions to the later interpretations that supported both violent and peaceful readings of those texts.

**REL 3930. Mysticism East and West. 3 Credits.**

Mysticism and its various meanings in Eastern and Western religious and spiritual traditions. Comparative study of major figures and works. What schools of mysticism teach about the nature of God and the world and the human state. The rapport between mysticism and various forms of sacred and traditional art.

**REL 3931. Interfaith Dialogue in World Religions. 3 Credits.**

Comparison of certain families of religions and the doctrinal debates in which they have engaged, including Hindu-Buddhist, inter-Hindu, inter-Buddhist, Buddhist-Confucian, Jewish-Christian, inter-Christian (Catholic-Protestant), Christian-Islamic, and inter-Islamic debates.

**REL 3951. Myth, Epic, and Novel. 3 Credits.**

Religious themes and images of the hero and their cultural significance in literature: e.g., Indo-European, Biblical, Babylonian narrative traditions; Greek epic and drama; Dante, Milton, Dostoevsky, Kafka, Hesse, Faulkner, Beckett.

**REL 3989. The Goddess in India and Beyond. 3 Credits.**

The goddess traditions of Hinduism, with some attention to goddess traditions in the ancient Near East and the Mediterranean. Classical Sanskrit, Tantric, and popular expressions of Hindu goddess worship. Comparative studies and issues of gender.

**REL 3990. Selected Topics in Religion. 3 Credits.**

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**REL 3990W. Selected Topics in Religion. 3 Credits.**

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 3999. Readings and Research. 2-3 Credits.**

**REL 4101. Senior Capstone Seminar. 3 Credits.**

Required of and open to students majoring in religion.

**REL 4101W. Senior Capstone Seminar. 3 Credits.**

Required of religion majors. Students refine and consolidate what they have learned over the course of their studies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 4191W. Senior Honors Thesis. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**REL 5701. Selected Topics. 0-4 Credits.****REL 6201. Special Topics in Religion. 3 Credits.**

May be repeated for credit provided the topic differs.

**REL 6401. Islamic Historiographies. 3 Credits.**

Muslim historiographic traditions from the 7th to 15th centuries, including what they looked like and how they developed; the development of scholarly methods used to evaluate the source materials for these traditions in the formative and classical periods of Islam; key developments in postclassical, non-Arabic Muslim historiographic traditions in the Indian Subcontinent, Ottoman Turkey, and the Persian lands.

**REL 6402. Qur'an and Hadith. 3 Credits.**

The structure, major themes, and literary aspects of the twin sources of Islam. Commentaries written by Muslim scholars and their part in spreading the teachings of the sacred book of Islam. The general principle elements of Islamic theology, law, politics, ethics, philosophy, and art and architecture. The science of Hadith, its types, its relation to the Qur'an, and methods used for authentication of the sayings of the Prophet. The historical role of the Qur'an and Hadith both in classical as well as modern period with particular emphasis on its part in forming Muslim perception of society, history, and politics.

**REL 6441. Islamic Law. 3 Credits.**

Islamic positive law in the contemporary context. The family law of Islam (marriage, dowry, custody, guardianship and various forms of divorce); the law of inheritance and public trust (waqf) as two selected topics of Islamic private law. Examination of theories of jihad and siyar in the contemporary context of nation-state systems of international relationships. Islamic rituals ('ibadat) whose spirituality prevails the totality of the Islamic set of laws and regulations.

**REL 6460. Topics in the Study of Islam. 3 Credits.**

Study of topics in Islam, as selected by the instructor, that may include philosophy, theology, mysticism, law, and/or literature. Prerequisites: A course on Islam or permission of the instructor.

**REL 6461. Topics in Islamic Thought. 3 Credits.**

Perennial major issues in Islamic theology, philosophy, and Sufism such as Divine Unity, prophetology, eschatology, religious knowledge, sacred law, and ethics. Prerequisites: A course on Islam or permission of the instructor.

**REL 6511. Currents of Modern Hinduism. 3 Credits.**

Hinduism since the early seventeenth century. Colonialism, the impact of missionaries, orientalism, reform, relations between Brahmanical and popular Hinduism, Sanskrit and vernacular traditions, regionalism, communalism, nationalism, fundamentalism, politicized "syndicated" Hinduism, and secularism.

**REL 6557. India's Great Epics. 3 Credits.**

The Mahabharata and the Ramayana are treated in alternate offerings of the course. These founding epic texts of devotional (bhakti) Hinduism are taught in English translation. Vernacular and performative versions of the epics and Western adaptations.

**REL 6771. American Religion to 1830. 3 Credits.**

Religious thought and life during the Colonial and early National periods.

**REL 6773. American Religion Since 1830. 3 Credits.**

Religious thought and life from the Civil War to the present.

**REL 6901. Thinking about Religion: Classic and Contemporary Approaches. 3 Credits.**

Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

**REL 6911. Myth, Ritual, and Language. 3 Credits.**

Method and theory in the interpretation of myth and narrative, ritual and sacrifice, and symbolism, with primary reference to the history of religions.

**REL 6997. Readings and Research. 2-3 Credits.**

Investigation of special problems.

**REL 6998. Thesis Research. 3 Credits.****REL 6999. Thesis Research. 3 Credits.**

## BACHELOR OF ARTS WITH A MAJOR IN RELIGION

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite courses</b>		
REL 1003	Introduction to World Religions	
<b>Required</b>		
REL 3901	Thinking About Religion: Classic and Contemporary Approaches	
REL 4101	Senior Capstone Seminar	
<b>Electives</b>		
Three REL courses at the 2000 level.		
Six additional REL courses.		

See course listing (p. 1536) for a complete list of course offerings in the Religion Department.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a grade-point average of 3.5 in courses in the major, and receive a minimum grade of A- in REL 4101 Senior Capstone Seminar.

## MINOR IN RELIGION REQUIREMENTS

The following requirements must be fulfilled: 18 credits in elective courses, of which no more than 9 credits may be taken in any one of the major religious traditions listed below:

Code	Title	Credits
Buddhism		
REL 2601	Buddhism	
REL 3566	Dharma in Hinduism and Buddhism	
REL 3614	Buddhist Philosophy	
Christianity		
REL 2165	The Gospels	
REL 2169	Lost Gospels	
REL 2301	Christianity	
REL 3151	The Historical Jesus	
or REL 3151W	The Historical Jesus	
REL 3161	The Life and Thought of Paul	
or REL 3161W	The Life and Thought of Paul	
REL 3321	Christian Ethics and Modern Society	
REL 3341	Christianity in the Ancient World	
REL 3342	Medieval Faith and Symbolism	
REL 3343	Religion in the Renaissance and Reformation	
REL 3344	Christianity in the Modern World	
REL 3666	The Book of Revelation and Other Apocalypses	
Hinduism		
REL 2562	Mythologies of India	

REL 3566	Dharma in Hinduism and Buddhism
REL 3915	Islam and Hinduism in South Asia
REL 3989	The Goddess in India and Beyond
Islam	
REL 2401	Islam
REL 3405	Shi'ite Islam
REL 3414	Islamic Philosophy and Theology
REL 3425	Islamic Political Thought
REL 3431	Sufism (Islamic Mysticism)
REL 3475	Islamic Religion and Art
REL 3481	Women in Islam
REL 3482	Gender and Piety in Islam
REL 3915	Islam and Hinduism in South Asia
Judaism	
REL 2201	Judaism
REL 2211	Rabbinic Thought and Literature
REL 3141	Second Temple/Hellenistic Judaism
REL 3221	Issues in Jewish Ethics
REL 3291	Modern Jewish Thought
REL 3292	Seminar: Issues in Jewish Thought
East Asian Religions	
REL 2811	Confucian Literature in East Asia
or EALL 3811	Confucian Literature in East Asia
REL 2814	Religion and Philosophy in East Asia
REL 3831	Daoism in East Asia
or REL 3831W	Daoism in East Asia
REL 3832	Myth, Ritual, and Popular Religion in China
or EALL 3832	Myth, Ritual, and Popular Religion in China
REL 3841	Religion in Modern China
or CHIN 3841	Religion in Modern China
REL 3881	Women, Gender, and Religion in China

or EALL 3881 Women, Gender, and Religion in China

or WSTU 3881 Women, Gender, and Religion in China

REL 3901 is recommended.

View the religion course listings (p. 1536) for a complete list of courses offered by the department.

## MASTER OF ARTS IN THE FIELD OF ISLAMIC STUDIES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 18 credits in required courses and 18 credits in pre-approved elective courses.

A concentration in Islam and Hinduism is available through GW's participation in the Consortium of Universities (<http://www.consortium.org/%20consortium>). For the concentration, students take 12 credits in required courses and 24 credits in pre-approved elective courses.

All students must complete at least four semesters of Arabic, which do not count toward the 36 credits required for the program. Alternatively, students may demonstrate competence in Arabic through examination. Depending on their focus of study, students may also be asked to take courses in other languages, which do not count toward the degree. In rare instances, students may substitute another language for Arabic, such as Persian, Turkish, or Urdu, if their research focuses on texts composed in one of these languages.

Code	Title	Credits
<b>Islamic Studies program</b>		
<b>Required</b>		
REL 6401	Islamic Historiographies	
REL 6402	Qur'an and Hadith	
REL 6441	Islamic Law	
REL 6460	Topics in the Study of Islam	
REL 6998	Thesis Research	
REL 6999	Thesis Research	
<b>Electives</b>		

6 additional courses (18 credits) selected from a pre-approved list in a variety of disciplines. Most of the selected courses should focus on Islam in the contemporary world.

Code	Title	Credits
<b>Concentration in Islam and Hinduism</b>		
<b>Required</b>		
REL 3901	Thinking About Religion: Classic and Contemporary Approaches	
REL 3915	Islam and Hinduism in South Asia	
REL 6998	Thesis Research	
REL 6999	Thesis Research	

#### Electives

8 additional courses (24 credits) selected from a pre-approved list in consultation with the graduate program advisor(s). Islam or Hinduism should be either the focus of such courses or a major component in a comparative course that treats multiple religious traditions. Elective courses may be taken at GW or at another participating school through the Consortium of Universities.

Visit the program website (<http://religion.columbian.gwu.edu/master-arts-islamic-studies>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF AMERICAN RELIGIOUS HISTORY

### REQUIREMENTS

This program is offered in cooperation with the Department of Religion.

The following requirements must be fulfilled:

The requirements for the Doctor of Philosophy Program (p. 87).

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77), and the specific requirements of the Doctor of Philosophy in the field of history (p. 264).

Of the three fields required for the General Examination, one field must come from the list of major American fields noted below and one from the Department of Religion (typically history of religion in America). Major fields in American history include: Early America (to 1815), 19th-century America (1815-1900), and 20th-century America (1900-). The third field is normally topical (e.g. U.S. Cultural History, Historic Preservation, Gender and Women's History).

All candidates may choose to be examined in one minor field other than history if it is relevant to the program of study.

## GRADUATE CERTIFICATE IN ISLAMIC STUDIES

The graduate certificate in Islamic studies provides valuable insight into the world of Islam, both Sunni and Shi'ite. The conflict between these two factions lies at the root of many contemporary issues in the Middle East and beyond. This turmoil has made the Islamic world a priority in foreign affairs, and knowledge of the faith's complex cultural intricacies is more important than ever. This certificate program guides professionals in related fields through critical aspects of Islam. Students graduate with the expertise needed to advance their careers and effectively navigate projects involving the Islamic world.

Visit the program website (<https://religion.columbian.gwu.edu/islamic-studies-graduate-certificate>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
REL 6401	Islamic Historiographies	
REL 6402	Qur'an and Hadith	
REL 6441	Islamic Law	
REL 6460	Topics in the Study of Islam	
<b>Electives</b>		

Two additional courses chosen from an approved list in a variety of disciplines, most of which focus on Islam in the contemporary world

## ROMANCE, GERMAN, AND SLAVIC LANGUAGES AND LITERATURES

The Department of Romance, German, and Slavic Languages and Literatures offers undergraduate instruction in French, German, Italian, Portuguese, Russian, and Spanish. In general, Romance language courses are conducted entirely in the language concerned. The proficiency-based curriculum emphasizes skills in aural comprehension, speaking, reading, and writing. Culture, an essential dimension of language acquisition, is integrated from the start.

The undergraduate program is designed to strengthen a student's ability to communicate, reason, and understand the linguistic, social, cultural, and physical environments that inform the lives of the people who speak the target language. Course work fosters critical thinking, based in the linguistic, cultural, and historical roots of the locations where the language is spoken. The curriculum prepares students for careers in academia, business, diplomacy, government, medicine, and law, among other fields.

Classroom and laboratory study is supplemented by the diverse resources of Washington, DC, through field trips, foreign films, lectures, and cultural programs at embassies.

Visit the department's website (<http://rgsll.columbian.gwu.edu>) for information concerning eligibility, requirements, and procedures for the wide variety of opportunities to study abroad (<https://studyabroad.gwu.edu>).

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in French language, literature, and culture (p. 382)
- Bachelor of Arts with a major in German language and literature (p. 383)
- Bachelor of Arts with a major in Russian language and literature (p. 384)
- Bachelor of Arts with a major in Spanish and Latin American languages, literatures, and cultures (p. 385)

### Minors

- Minor in French language, literature, and culture (p. 386)
- Minor in German language and literature (p. 387)
- Minor in Italian language and literature (p. 387)
- Minor in Russian language and literature (p. 388)
- Minor in Spanish and Latin American languages, literatures, and cultures (p. 388)

### Combined program

- Dual Bachelor of Arts with a major in Spanish and Latin American languages, literatures, and cultures, and Master of Education in Secondary Education, with a concentration in foreign language education (p. 532)

## FACULTY

**Professors** P. Rollberg, R. Robin (*Chair*), S. Waisman

**Associate Professors** M. Belenky, C. Britt, Y. Captain-Hidalgo, L. Chang, M. de la Fuente, M.R. Gonglewski, D.B. Marshall (*Teaching*), M.B. Stein, L.L. Westwater

**Assistant Professors** H. Bamford, J. Brant, K. Kleppinger, G. Shatalina, A. Waberi

**Adjunct Professors** I. Alameda-Nieto, B. Bridaa, M. Camps-Calbet, S. Erradi, S. Hoepfl-Wellenhofer, B. Marguerre, B. Mazurkiewicz, L. Michael, E. Ovtcharenko, R.I. Pozos

**Instructors** A. Longoni, E. Parker, D.G. Perillan (*Teaching*), A. Suarez-Touzon

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Placement examinations: A student who has not been granted advanced standing and who wishes to continue in college the language begun in high school must take a placement examination (<http://departments.columbian.gwu.edu/rgsII>) before registration. Upon completion of the examination, assignment is made to the appropriate course.

Note: In general, Romance language courses are conducted entirely in the language concerned. Oral comprehension, speaking, reading, and writing are the basis of all courses through FREN 2006 Language, Culture, and Society II/ITAL 2006 Language, Culture, and Society II/PORT 2006 Applied Portuguese Grammar/SPAN 2006 Advanced Spanish II, with culture integrated from the start as an essential dimension of language acquisition.

- French (FREN) (p. 1341)
- Germanic Language and Literature (GER) (p. 1349)
- Italian (ITAL) (p. 1401)
- Portuguese (PORT) (p. 1487)
- Slavic Language and Literature (SLAV) (p. 1548)
- Spanish (SPAN) (p. 1554)

## BACHELOR OF ARTS WITH A MAJOR IN FRENCH LANGUAGE, LITERATURE, AND CULTURE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite courses:</b>		
FREN 1001	Basic French I	
FREN 1002	Basic French II	
FREN 1003	Intermediate French I	
FREN 1004	Intermediate French II	
FREN 2005	Language, Culture, and Society I	

Code	Title	Credits
<b>Required for the major:</b>		
30 credits including:		
FREN 3100	Introduction to French Literature	
FREN 4910	Proseminar: Readings for the Major	
FREN 4920W	Proseminar II	
Select seven additional upper-division courses numbered 2006 and above, of which four must be in French literature and culture and, with approval of the major advisor, two may be in a related field. Two of the six additional courses must be from the French 4000 series.		

FREN 3010W	Advanced French Grammar and Style	
FREN 3020	Contemporary France	
FREN 3100W	Introduction to French Literature	
FREN 3210	Medieval and Early Modern French Literature in Context	
FREN 3220	Modern French Literature	
FREN 3290	Textual Analysis	
FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation	
FREN 3400	Studies in Genre	
FREN 3520	The Age of Classicism	
FREN 3530	The Age of Enlightenment	
FREN 3550	Studies in Twentieth-Century French Literature	
FREN 3560	Topics in Contemporary Francophone Literature and Cinema	
FREN 3600	Special Topics in French Literature	
FREN 3700	History of French Cinema	

FREN 4135	Folger Seminar
FREN 4470	Writing Women
FREN 4500	Studies in Medieval French Literature
FREN 4510	French Literature of the Renaissance
FREN 4540	Nineteenth-Century French Literature and Culture
FREN 4600	Special Topics in French Literature

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in French language, literature, and culture, candidates must have attained a 3.75 GPA in the major and at least a 3.0 average overall. Qualified students may be invited to write an honors thesis by their major advisor and proseminar professor by the beginning of the fall semester of the senior year.

## BACHELOR OF ARTS WITH A MAJOR IN GERMAN LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisites</b>		
One of the following options:		
Option A:		
GER 1005 & GER 1006	Intensive Beginning German I and Intensive Beginning German II	
Option B:		
GER 1001 & GER 1002	First-Year German I and First-Year German II	
GER 1003 & GER 1004	Second-Year German I and Second-Year German II	

Code	Title	Credits
<b>Required</b>		
GER 2009 & GER 2101	Intermediate German I and Intermediate German II	
GER 2109 & GER 2110	Advanced Conversation and Composition and German Today	
Two courses from the following:		
GER 2091 & GER 2092	Introduction to German Literature—in English I and Introduction to German Literature—in English II	
GER 2161 & GER 2162	German Culture—in English I and German Culture—in English II	
<b>Electives</b>		
Two courses from the following:		
GER 2111	Business German	
GER 2161 & GER 2162	German Culture—in English I and German Culture—in English II (if not taken above)	
GER 2165	Twentieth-Century German Literature—in English	
GER 3181	History of German Cinema—in English	
GER 3182	The Fairy Tale from the Grimms to Disney	
GER 3183	Berlin Before and After the Wall (in English)

GER 4174	Inside/Outside the Third Reich (in German)
GER 4175	Literature of two Germanies (in German)
GER 4176	Contemporary German Literature (in German)

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, candidates must have attained a 3.5 grade-point average in the major and at least a 3.0 average overall. Students must apply for honors candidacy by the end of the first semester of the junior year; must attain speaking proficiency at the advanced level, as measured by the ACTFL (American Council on the Teaching of Foreign Languages) Oral Proficiency Interview; and must successfully complete an honors thesis (GER 4197 Senior Honors Thesis I-GER 4198 Senior Honors Thesis II).

## BACHELOR OF ARTS WITH A MAJOR IN RUSSIAN LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Prerequisite</b>		
All courses in one of the following options:		
Option A:		
SLAV 1012	Intensive Basic Russian I	
SLAV 1034	Intensive Basic Russian II	
Option B:		
SLAV 1001	First-Year Russian I	
SLAV 1002	First-Year Russian II	

SLAV 1003	Second-Year Russian I
SLAV 1004	Second-Year Russian II

Code	Title	Credits
<b>Required in the major</b>		
SLAV 1391	Introduction to Russian Literature I	
SLAV 1392	Introduction to Russian Literature II	
SLAV 2005	Intermediate Russian I	
SLAV 2006	Intermediate Russian I	
SLAV 2007	Russia Today: Topics in Advanced Russian I	
SLAV 2008	Russia Today: Topics in Advanced Russian II	
SLAV 2361	Russian Culture	
SLAV 2362	Russian Culture	
Two of the following:		
SLAV 2471	Nineteenth-Century Russian Prose	
SLAV 2472	Nineteenth-Century Russian Poetry	
SLAV 2473	20th-Century Russian Prose	
SLAV 2474	Twentieth-Century Russian Poetry	
Two of the following:		
SLAV 2365	Twentieth-Century Russian Literature to World War II	
SLAV 2366	Russian Literature from World War II to the Present	
SLAV 2785	Introduction to Russian Cinema I	
SLAV 2786	Introduction to Russian Cinema II	
SLAV 4595W	Special Topics	

Proficiency requirements for the Russian major: After completing SLAV 2006 Intermediate Russian I, students consult their advisor to choose one of the following two proficiency tracks:

1. Emphasis on proficiency in speaking—students choosing this track must attain speaking proficiency at the Intermediate High level, as measured by the ACTFL Oral Proficiency Interview; a semester of intensive language study in Russia on an approved program is required unless waived by the department.

2. Emphasis on proficiency in reading—students choosing this track must attain reading proficiency at the Advanced level on the ACTFL scale, as measured by a departmental examination; SLAV 2015 Readings in the Russian Press I and SLAV 2016 Readings in the Russian Press II are required unless waived by the department.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a candidate must have attained a 3.5 grade-point average in the major and at least a 3.0 average overall. Students must apply for honors candidacy by the end of the first semester of the junior year; must attain speaking proficiency at the advanced level, as measured by the ACTFL (American Council on the Teaching of Foreign Languages) Oral Proficiency Interview; and must successfully complete an honors thesis (SLAV 4597 Senior Honors Thesis I–SLAV 4598 Senior Honors Thesis II).

## BACHELOR OF ARTS WITH A MAJOR IN SPANISH AND LATIN AMERICAN LANGUAGES, LITERATURES, AND CULTURES

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Introductory language sequence (17 credits or equivalent):</b>		
SPAN 1001 & SPAN 1002	Elementary Spanish I and Elementary Spanish II	
or SPAN 1012	Intensive Elementary Spanish: the Spanish-speaking world	
SPAN 1003 & SPAN 1004	Intermediate Spanish I and Intermediate Spanish II	
or SPAN 1034	Intensive Intermediate Spanish	
SPAN 2005	Advanced Spanish I	
Code	Title	Credits
<b>Required</b>		
SPAN 2006	Advanced Spanish II	

or SPAN 2056	Intensive Advanced Spanish
SPAN 3100	Readings in Spanish and Latin American Literature
SPAN 4910W	Proseminar I (required of all Spanish majors in the fall semester of the senior year)

#### Two courses (6 credits) from the following:

SPAN 3500	Medieval Iberia in the Modern World
SPAN 3510	Heresy and the Other in Early Modern Iberia
SPAN 3520	Latin American Colonial Literature
SPAN 3530	The Limits of Enlightenment in Spain and Latin America
SPAN 3600	Special Topics
SPAN 4510	Cervantes Don Quixote

#### Two courses (6 credits) from the following:

SPAN 3410	Latin American Short Fiction
SPAN 3420	The Essayist Tradition in Latin America
SPAN 3650	Literature and Dictatorship
SPAN 3700	Cinema of Spain and Latin America
SPAN 4410	Contemporary Narrative in Latin America

SPAN 4550	1898–1998: Spain's First Century without Empire
SPAN 4560	Modern Poetry of Spain and Latin America
SPAN 4600	Special Topics
SPAN 4700	Film as Text in Latin America

#### Three additional courses from those listed above or from the following:

SPAN 3010W	Advanced Spanish Writing
SPAN 3022	Advanced Oral Proficiency: Environmental and Social Sustainability in Latin America

SPAN 3040	Advanced Spanish Service Learning
SPAN 3400	Theatre of Spain and Latin America
SPAN 3430	Afro-Latin America in the Diaspora
SPAN 3440	Caribbean Literature and Culture
SPAN 3540	Major Authors of Spain and Latin America
SPAN 3570	Women Writers of Spain and Latin America
SPAN 4450	Mexican Literature and Culture
SPAN 4650	Literary Translation
SPAN 4800	Independent Study

Excluding courses taught at GW Study Centers abroad, no more than four courses taken abroad or at another institution may count toward the major.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Spanish and Latin American languages, literatures, and cultures, candidates must have attained a 3.75 GPA in the major and at least a 3.0 average overall. Qualified students may be invited to write an honors thesis by their major advisor and proseminar professor by the beginning of the fall semester of the senior year.

## MINOR IN FRENCH LANGUAGE, LITERATURE, AND CULTURE

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, as follows:

Code	Title	Credits
<b>Prerequisites</b>		
FREN 1001	Basic French I	
FREN 1002	Basic French II	
FREN 1003	Intermediate French I	
FREN 1004	Intermediate French II (AP credit may be substituted)	
<b>Minor curriculum</b>		
Required		
FREN 3100W	Introduction to French Literature	

One course from the following:

FREN 3210	Medieval and Early Modern French Literature in Context
FREN 3520	The Age of Classicism
FREN 3530	The Age of Enlightenment
FREN 4500	Studies in Medieval French Literature
FREN 4510	French Literature of the Renaissance

Four courses from the following:

FREN 2005	Language, Culture, and Society I **
FREN 2006	Language, Culture, and Society II
FREN 3010	Advanced Fren Grammar & Style
FREN 3020	Contemporary France
FREN 3210	Medieval and Early Modern French Literature in Context
FREN 3220	Modern French Literature
FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation
FREN 3400	Studies in Genre
FREN 3520	The Age of Classicism
FREN 3530	The Age of Enlightenment
FREN 3550	Studies in Twentieth-Century French Literature
FREN 3560	Topics in Contemporary Francophone Literature and Cinema
FREN 3560	Topics in Contemporary Francophone Literature and Cinema
FREN 3600	Special Topics in French Literature
FREN 3700	History of French Cinema
FREN 4470	Writing Women
FREN 4500	Studies in Medieval French Literature
FREN 4510	French Literature of the Renaissance
FREN 4540	Nineteenth-Century French Literature and Culture
FREN 4600	Special Topics in French Literature

\*AP credit for FREN 2005 allows students to place into higher-level FREN courses, but those credits do not count toward the total required for the minor.

## MINOR IN GERMAN LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled: 34 credits, including 28 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
One of the following options:		
Option A:		
GER 1001	First-Year German I	
GER 1002	First-Year German II	
GER 1003	Second-Year German I	
GER 1004	Second-Year German II	
Option B		
GER 1005	Intensive Beginning German I	
GER 1006	Intensive Beginning German II	
One of the following:		
GER 2009 & GER 2010	Intermediate German I and Intermediate German II	
GER 2101 & GER 2102	Readings in Contemporary German I and Readings in Contemporary German II	
One of the following:		
GER 2091 & GER 2092	Introduction to German Literature—in English I and Introduction to German Literature—in English II	
GER 2109 & GER 2110	Advanced Conversation and Composition and German Today	
GER 2161 & GER 2162	German Culture—in English I and German Culture—in English II	
<b>Electives</b>		

Two additional upper-division German (GER) courses excluding:

GER 2101	Readings in Contemporary German I
GER 2102	Readings in Contemporary German II

## MINOR IN ITALIAN LANGUAGE AND LITERATURE

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
ITAL 2005	Language, Culture, and Society I	
ITAL 2006	Language, Culture, and Society II	
<b>Electives</b>		
Four of the following:		
ITAL 3201	History of Italian Literature from the Middle Ages Through the Seventeenth Century	
ITAL 3202W	History of Italian Literature from the Eighteenth Through the Twentieth Century	
ITAL 3290	Textual Analysis	
ITAL 3300	Italian Literature and Culture in Translation	
ITAL 3600	Special Topics in Italian Literature and Culture	
ITAL 4183	History of Italian Film	
ITAL 4380	Italian Journeys Medieval to Postmodern	
ITAL 4500	Studies in Medieval and Early Renaissance Literature	
ITAL 4560	Modern Italian Novel	
ITAL 4800	Independent Study	
ITAL 3010	Advanced Italian Grammar and Style	
ITAL 3100W	Introduction to Italian Literature	

# MINOR IN RUSSIAN LANGUAGE AND LITERATURE

## REQUIREMENTS

The following requirements must be fulfilled: 38 credits in required courses.

Code	Title	Credits
<b>Required courses:</b>		
One of the following options:		
Option A:		
SLAV 1001	First-Year Russian I	
SLAV 1002	First-Year Russian II	
SLAV 1003	Second-Year Russian I	
SLAV 1004	Second-Year Russian II	
Option B		
SLAV 1012	Intensive Basic Russian I	
SLAV 1034	Intensive Basic Russian II	
And also:		
SLAV 2005 & SLAV 2006	Intermediate Russian I and Intermediate Russian I	
And four courses from the following:		
SLAV 1391	Introduction to Russian Literature I	
SLAV 1392	Introduction to Russian Literature II	
SLAV 2361	Russian Culture	
SLAV 2362	Russian Culture	
SLAV 2365	Twentieth-Century Russian Literature to World War II	
SLAV 2366	Russian Literature from World War II to the Present	
SLAV 2471	Nineteenth-Century Russian Prose	
SLAV 2472	Nineteenth-Century Russian Poetry	
SLAV 2473	20th-Century Russian Prose	
SLAV 2474	Twentieth-Century Russian Poetry	
SLAV 2785	Introduction to Russian Cinema I	
SLAV 2786	Introduction to Russian Cinema II	

# MINOR IN SPANISH AND LATIN AMERICAN LANGUAGES, LITERATURES, AND CULTURES

## REQUIREMENTS

The following requirements must be fulfilled: 18 credits in courses for the minor and satisfactory completion of the prerequisite introductory language sequence.

Code	Title	Credits
<b>Required</b>		
Introductory language sequence (12 to 14 credits or equivalent)		
<b>Minor courses</b>		
SPAN 3100	Readings in Spanish and Latin American Literature	
Three courses (9 credits) from the following:		
SPAN 2005	Advanced Spanish I	
SPAN 2006	Advanced Spanish II	
SPAN 2056	Intensive Advanced Spanish	
SPAN 2100	Spain/LatinAm:Culture DC	
SPAN 3005	Experiencing Cuba: Past and Present	
SPAN 3010W	Advanced Spanish Writing	
SPAN 3015	Spanish for Heritage Speakers	
SPAN 3021	Advanced Spanish for Oral Communication—Latin America	
SPAN 3022	Advanced Oral Proficiency: Environmental and Social Sustainability in Latin America	
SPAN 3035	Spanish Language and Culture: Advanced	
SPAN 3040	Advanced Spanish Service Learning

SPAN 4700	Film as Text in Latin America

**Note:** No more than three courses taken abroad may count toward the minor (excluding GW Study Centers in Chile and Spain).

## SOCIOLOGY

One of the social and behavioral sciences disciplines in the Columbian College of Arts and Sciences, the sociology program offers undergraduate and graduate degree programs and a range of courses, from deviant behavior to sociology of sport. It is designed to strengthen a student's knowledge about human social structure and activity. By living in a city that offers a rich social laboratory, students gain real-life

experience conducting quantitative and qualitative research and developing skills in sociological observation and analysis.

Visit the Department of Sociology website (<http://sociology.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in sociology (p. 391)
- Bachelor of Arts with a major in criminal justice (p. 390)
- Bachelor of Arts with a major in human services and social justice (p. 390)
- Combined programs (p. 392)

### Minors

- Minor in sociology (p. 393)
- Minor in criminal justice (p. 392)
- Minor in law and society (p. 393)
- Minor in human services and social justice (p. 392)

## GRADUATE

### Master's programs

- Master of Arts in the field of sociology (p. 394)
- Master of Arts in the field of criminology (p. 394)

## FACULTY

**University Professor** A. Etzioni

**Professors** R.J. Cottrol, X. Mangcu, H. Silver (Chair), G.D. Squires, S.A. Tuch, R. Weitzer

**Associate Professors** D.S. Eglitis, H. Ishizawa, A. Jones, I. Ken

**Assistant Professors** F. Buntman, M. Kelso, E. Morrison

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Human Services and Social (HSSJ) (p. 1384)
- Sociology (SOC) (p. 1549)

# BACHELOR OF ARTS WITH A MAJOR IN CRIMINAL JUSTICE

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below).

Achievement of a minimum grade of C- in any course that counts toward the degree.

Code	Title	Credits
------	-------	---------

### Prerequisites

SOC 1001	Introduction to Sociology	
or SOC 1002	The Sociological Imagination	
SOC 1003	Introduction to Criminal Justice	

Code	Title	Credits
------	-------	---------

### Required

SOC 2101	Social Research Methods (recommended to be taken before the senior year)	
SOC 2102	Techniques of Data Analysis (recommended to be taken before the senior year)	
SOC 2135	Youth and Delinquency	
SOC 2136	Criminology	
SOC 2145	Criminal Law	
SOC 4192	Advanced Seminar in Criminal Justice	

### Electives

Five of the following, including at least one Sociology (SOC) course and at least one non-Sociology course:

ANTH 3513	Anthropology of Human Rights	
ECON 2167	Economics of Crime	
FORS 2104	Introduction to Forensic Sciences II	
FORS 2151	Crime Scene Investigation	
HIST 2341	History of F.B.I. Counterintelligence	
HIST 3370	U.S. Constitutional History	

PSC 2213	Judicial Politics	
----------	-------------------	--

PSC 2215	U.S. Constitutional Law and Politics II	
----------	---	--

PSC 2217	Executive Branch Politics	
----------	---------------------------	--

or PPPA 2117	Executive Branch Politics	
--------------	---------------------------	--

PSYC 2011	Abnormal Psychology	
-----------	---------------------	--

SOC 2137	Transnational Crime	
----------	---------------------	--

SOC 2139	Alternatives to Imprisonment	
----------	------------------------------	--

SOC 2146	The Bill of Rights and Criminal Justice	
----------	---	--

SOC 2164	Sociology of the Holocaust and Genocide	
----------	---	--

SOC 2167	Sociology of Law	
----------	------------------	--

SOC 2177	Sociology of the Sex Industry	
----------	-------------------------------	--

SOC 2178	Deviance and Control	
----------	----------------------	--

SOC 2184	Violence and the Family	
----------	-------------------------	--

SOC 2189	Special Topics in Criminal Justice	
----------	------------------------------------	--

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered for 3 credits of SOC 3195 Research during the senior year, and must receive a grade of A on the research paper.

# BACHELOR OF ARTS WITH A MAJOR IN HUMAN SERVICES AND SOCIAL JUSTICE

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below).

Achievement of a minimum grade of C- in all courses that count toward the degree.

Code	Title	Credits
<b>Prerequisites</b>		
SOC 1001	Introduction to Sociology	
or SOC 1002	The Sociological Imagination	
HSSJ 1100	Introduction to Human Services and Social Justice	
<b>Required</b>		
HSSJ 1177	Organizing for Social Justice in Human Services	
HSSJ 2170	Interpersonal Relationships in Human Services	
HSSJ 2171	Human Interactions: Child and Adolescent Development	
HSSJ 2172	Human Interactions: Adult Development	
HSSJ 2200	Principles of Ethical Leadership	
HSSJ 3100W	Program Planning and Evaluation	
HSSJ 3110W	Nonprofit and Organizational Management	
HSSJ 3152	Fact, Field & Fiction in Human Services & Social Justice	
HSSJ 4193	Research and Independent Study (Only required for Special Honors)	
HSSJ 4195	Capstone Seminar in Human Services and Social Justice	
SOC 2101	Social Research Methods	
SOC 2170	Class and Inequality in American Society	
or SOC 2179	Race and Minority Relations	
<b>Elective</b>		
One of the following:		
SOC 2104	Contemporary Sociological Theory	
SOC 2175	Sociology of Sex and Gender	

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with

Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered in HSSJ 4193 Research and Independent Study during the senior year (fall and spring), and must receive an A grade on the research paper.

## BACHELOR OF ARTS WITH A MAJOR IN SOCIOLOGY

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below)

Achievement of a minimum grade of C- in all courses that count toward the degree.

Code	Title	Credits
<b>Prerequisites</b>		
SOC 1001	Introduction to Sociology	
or SOC 1002	The Sociological Imagination	
<b>Required</b>		
SOC 2101	Social Research Methods (recommended to be taken before the senior year)	
SOC 2102	Techniques of Data Analysis (recommended to be taken before the senior year)	
SOC 2103	Classical Sociological Theory	
SOC 2104	Contemporary Sociological Theory	
SOC 4195	Senior Research Seminar	
<b>Electives</b>		
Seven additional upper-division Sociology (SOC) courses, including at least two courses in the 2160s or 2170s.		

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations (<http://bulletin.gwu.edu/university-regulations>), in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the

major, must be registered in SOC 4195 Senior Research Seminar during the senior year, and must receive an A grade on the research paper.

## COMBINED PROGRAMS, SOCIOLOGY

### REQUIREMENTS

The Department of Sociology offers four programs leading to combined bachelor's and master's degrees. The programs allow students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

- Bachelor of Arts and Master of Arts in Sociology
- Bachelor of Arts and Master of Arts in Criminal Justice/Criminology
- Bachelor of Arts in Criminal Justice and Master of Public Administration
- Bachelor of Arts in Human Services and Social Justice and Master of Arts in Public Administration

Interested students should contact their advisor. Visit the D (<https://sociology.columbian.gwu.edu/combined-bama-sociology>) Department of Sociology website (<http://sociology.columbian.gwu.edu/combined-degree-bama-programs>) for application deadlines and other program information.

## MINOR IN CRIMINAL JUSTICE REQUIREMENTS

The following requirements must be fulfilled:

Achievement of a minimum grade of C- in any course that counts toward the minor.

18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
SOC 1001	Introduction to Sociology	
or SOC 1002	The Sociological Imagination	
SOC 1003	Introduction to Criminal Justice	
SOC 2136	Criminology	
SOC 2145	Criminal Law	
<b>Electives</b>		

Two of the following courses (6 credits), at least one of which must be a Sociology (SOC) course.

ANTH 3513	Anthropology of Human Rights
FORS 2104	Introduction to Forensic Sciences II
HIST 3370	U.S. Constitutional History
PPPA 2117	Executive Branch Politics
PSC 2213	Judicial Politics
PSC 2215	U.S. Constitutional Law and Politics II
PSC 2217	Executive Branch Politics
PSYC 2011	Abnormal Psychology
SOC 2135	Youth and Delinquency
SOC 2137	Transnational Crime
SOC 2139	Alternatives to Imprisonment
SOC 2146	The Bill of Rights and Criminal Justice
SOC 2164	Sociology of the Holocaust and Genocide
SOC 2167	Sociology of Law
SOC 2177	Sociology of the Sex Industry
SOC 2178	Deviance and Control
SOC 2184	Violence and the Family
SOC 2189	Special Topics in Criminal Justice

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

Visit the program website (<https://sociology.columbian.gwu.edu/ba-criminal-justice>) for additional information.

## MINOR IN HUMAN SERVICES AND SOCIAL JUSTICE REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 9 credits in required courses and 9 credits in elective courses.

Achievement of a minimum grade of C- in any course that counts toward the degree.

Code	Title	Credits
<b>Required</b>		
HSSJ 1100	Introduction to Human Services and Social Justice	
HSSJ 3152	Fact, Field & Fiction in Human Services & Social Justice (taken for 6 credits)	
<b>Electives</b>		
Three HSSJ courses (at least 9 credits total), with no more than one elective course at the 1000 level, selected in consultation with the program director.		

## MINOR IN LAW AND SOCIETY REQUIREMENTS

Admission to this minor requires a minimum 3.3 GPA based on at least 30 credits of coursework at GW.

The following requirements must be fulfilled:

Achievement of a minimum grade of C- in any course that counts toward the minor.

19 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
SOC 2167	Sociology of Law	
UW 2031	Equality and the Law	
or UW 2031W	Equality and the Law	
One of the following:		
AMST 1160	Race, Gender, and Law	
PHIL 3142	Philosophy of Law	
PSC 2214	U.S. Constitutional Law and Politics I	
PSC 2215	U.S. Constitutional Law and Politics II	
Three courses (9 credits), which may include any of the three remaining courses listed immediately above and/or the courses listed below.		
BADM 4101	Business Ethics and the Legal Environment	
ECON 3190	Law and Economics	
HIST 3370	U.S. Constitutional History	

MAE 3171	Patent Law for Engineers
PSC 2213	Judicial Politics
PSC 2444	Public International Law
PUBH 3136	Health Law
SMPA 2173	Media Law
SOC 2145	Criminal Law
SOC 2146	The Bill of Rights and Criminal Justice
SOC 2988	Internship in Law and Society
or PSC 2988	Internship in Law & Society
WSTU 3470	Sexuality and Law (or Selected Topic: Sexuality and Law)
or WSTU 3170	Selected Topics

A student may take a maximum of two courses from any one department (except for SOC 2988). No more than two courses may be counted both for this minor and any other major or minor.

## MINOR IN SOCIOLOGY REQUIREMENTS

The following requirements must be fulfilled:

Achievement of a minimum grade of C- in any course that counts toward the minor.

18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
SOC 1001	Introduction to Sociology	
or SOC 1002	The Sociological Imagination	
SOC 2103	Classical Sociological Theory	
or SOC 2104	Contemporary Sociological Theory	
<b>Electives</b>		
Four courses (12 credits) at the 2000 level or above; these may not include SOC 4192 or SOC 4195.		

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

# MASTER OF ARTS IN THE FIELD OF CRIMINOLOGY

## REQUIREMENTS

This program is a joint offering of the Department of Sociology and the Department of Forensic Sciences.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: Non-thesis option—36 credits, including 21 credits in required courses and 15 credits in elective courses; thesis option—36 credits, including 27 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
SOC 6230	Sociological Research Methods	
SOC 6231	Data Analysis	
SOC 6232	Qualitative Methodology: Doing Field Research	
or SOC 6240	Field Research in Organizational Settings	
SOC 6238	Development of Sociological Theory	
or SOC 6239	Contemporary Sociological Theory	
SOC 6257	Criminal Law for Forensic Scientists	
SOC 6258	Deviance and Control	
SOC 6259	Criminology	
<b>Electives</b>		
Five elective courses in criminology, of which at least two are in forensic sciences and at least one is selected from the following:		
SOC 6260	Special Topics in Criminology	
SOC 6261	Sociology of Law	
SOC 6262	Corrections	
SOC 6263	Race and Crime	
SOC 6264	Organized Crime	
SOC 6266	Gender and Criminal Justice	
SOC 6273	The Sex Industry	
<b>Thesis option</b>		

Students choosing the thesis option substitute the following for two elective courses:

SOC 6998	Thesis Research
SOC 6999	Thesis Research

# MASTER OF ARTS IN THE FIELD OF SOCIOLOGY

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 86).

36 credits, including 15 credits in required courses, 9 credits in primary and secondary field courses, six credits in elective courses, and 6 credits of thesis.

Code	Title	Credits
<b>Required</b>		
SOC 6230	Sociological Research Methods	
SOC 6231	Data Analysis	
SOC 6232	Qualitative Methodology: Doing Field Research	
or SOC 6240	Field Research in Organizational Settings	
SOC 6238	Development of Sociological Theory	
SOC 6239	Contemporary Sociological Theory	

### Primary and secondary fields

Students take two courses in a primary field of specialization and one course in a secondary field of specialization. Fields of specialization are criminology, social inequality, and urban sociology. With the consent of an advisor, one graduate course in a related department or program can be used for either one of the primary required courses or for the the secondary required course.

### Electives

Any two other Sociology (SOC) courses at the 6000 level or above..

SOC 6295 may be taken once (3 credits) toward degree requirements

### Thesis

Six credits of the following taken in the final two semesters:

SOC 6998 Thesis Research

SOC 6999 Thesis Research

Visit the program website (<https://sociology.columbian.gwu.edu/ma-sociology>) for additional information.

## SPEECH, LANGUAGE, AND HEARING SCIENCES

Whether learning about communication sciences, the relationship between language and society, or preparing to become a speech-language pathologist, students studying in the Department of Speech, Language, and Hearing Sciences at GW receive in-depth knowledge of all aspects of communication and its disorders. As part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the program provides deep knowledge of language and communication, including the consequences of speech and hearing challenges to individuals and society, and the treatment of communication delays and disorders.

Visit the Department of Speech, Language, and Hearing Sciences website (<https://speechhearing.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Arts with a major in speech, language, and hearing sciences (p. 399)

### Minor

- Minor in speech, language, and hearing sciences (p. 401)
- Minor in linguistics (p. 67) (interdisciplinary)

## GRADUATE

### Master's programs

- Master of Arts in the field of speech-language pathology (p. 401) (For students with an undergraduate degree in speech-language pathology.)
- Master of Arts in the field of speech-language pathology post-baccalaureate (p. 402) (For students with an undergraduate degree in a field other than speech-language pathology.)

## FACULTY

**Professors** L. Bernstein, S. Brundage, C.W. Linebaugh, J. Mahshie (*Chair*), G.M. Schulz

**Associate Professors** C. Core, A.B. Hancock, F. Subiaul, M. Thothathiri

**Assistant Professors** S. Campbell (*Teaching*), W. Krok, M.E. O'Donnell (*Teaching*), G. Wallace

**Adjunct Professors** Melanie Dorn, Sandy Martin, Laura Ball, A. Clare, K. Comer, R. Dewey, M. Hernandez

**Professorial Lecturers** M. Bamdad

**Clinical Instructors** L. Barrett, A. Clare, M. Dorn, K. Comer, G. Greenman, N. Jordan, J. Kumar, J. McHugh, L. Siegfriedt, D. Smiley, P. Taylor-Alonso

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### SPHR 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

#### SPHR 1011. Voice and Diction. 3 Credits.

Development of naturalness, correctness, and clarity in conversation through the study of phonetics, rate, volume, pitch, and quality in preparation for performance. Laboratory fee.

#### SPHR 1071. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

#### SPHR 1071W. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**SPHR 1072. Multicultural Issues in Human Communication. 3 Credits.**

The influences of culture and bilingualism on language development and use, and on communicative interaction; experimental and ethnographic methods for studying language and communication in a multicultural society.

**SPHR 1081. American Sign Language I. 3 Credits.**

Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills.

**SPHR 1082. American Sign Language II. 3 Credits.**

Continuation of SPHR 1081. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1081.

**SPHR 1084. Perspectives in Deaf Culture. 3 Credits.**

Introduction to the Deaf community as a linguistic and cultural minority group. The roles of deaf people in the larger society, including political activism. Generational differences concerning education, socioeconomic status, medical issues, and language.

**SPHR 2083. American Sign Language III. 3 Credits.**

Continuation of SPHR 1082. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1082.

**SPHR 2101. Research Methods. 3 Credits.**

Introduction to fundamental research principles (e.g., hypothesis testing, sampling, validity and reliability), designs (e.g., experiments, case studies), and methods (e.g., behavioral observations, acoustic and physiologic measurements, neuro-imaging) used in the study of speech, language, and hearing. Prerequisites: SPHR 1071.

**SPHR 2102. Neural Substrates-SpHr & Lang. 3 Credits.**

**SPHR 2104. Speech and Language Disorders. 3 Credits.**

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

**SPHR 2104W. Speech and Language Disorders. 3 Credits.**

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**SPHR 2105. Anatomy and Physiology for Speech and Hearing. 3 Credits.**

Anatomy and physiology of the respiratory, phonatory, articulatory, and resonatory subsystems of speech; swallowing; cranial nerves.

**SPHR 2106. Neural Substrates of Speech, Language, and Hearing. 3 Credits.**

Neuroanatomy and neurophysiology for speech, language and hearing. Anatomy of the auditory and vestibular systems; physiology of hearing.

**SPHR 2107. Acoustics. 3 Credits.**

This course focuses on speech acoustics, with emphasis on how the speech signal is produced and the elements of speech important for speech perception. Recommended background: Prior or concurrent registration in SPHR 2105 and SPHR 2136.

**SPHR 2108. Introduction to Audiology. 3 Credits.**

Survey of the field of audiology, including the measurement of hearing, the nature and causes of hearing impairment, hearing aids and habilitation/rehabilitation of the hearing impaired. SPHR 2106 may be taken as a corequisite. Laboratory fee. Prerequisites: SPHR 2106 and SPHR 2107.

**SPHR 2117. Hearing and Perception. 3 Credits.**

Consideration of the psychoacoustics of the normal auditory system in terms of auditory sensitivity, loudness, pitch, masking, and binaural hearing. Topics in speech perception that build upon psychoacoustics and speech acoustics. Prerequisite: SPHR 2108.

**SPHR 2130. Phonetics and Phonological Development. 3 Credits.**

Detailed study of English phonetics and phonology; prespeech vocalization and phonological development; multicultural issues in phonological development; intensive practice in phonetic transcription. SPHR 2105 may be taken as a corequisite. Laboratory fee. Prerequisite: SPHR 2105.

**SPHR 2131. Language Acquisition and Development. 3 Credits.**

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisite: SPHR 2135.

**SPHR 2132. Literacy. 3 Credits.**

An overview of literacy development (thinking, listening, speaking, reading, spelling, writing) with emphasis on reading and writing development. Prerequisites: SPHR 1071 or SPHR 1071W.

**SPHR 2133. Autism. 3 Credits.**

How the study of autism and related disorders may shed light on the characteristics of the mind. The broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment.

**SPHR 2135. Language: Structure, Meaning, and Use. 3 Credits.**

A survey of basic linguistic terminology and the components of language structures. Major topics include language structure (syntax, morphology, phonology), meaning (semantics), and the use of language as a means of communication among individuals (pragmatics).

**SPHR 2136. Phonetics. 2 Credits.**

An overview of phonetics of American English and an introduction to sounds of languages of the world. General principles of phonetic description and analysis, speech production mechanisms, classification of consonants and vowels of English and other languages, suprasegmental aspects of speech, and acoustic characteristics of speech sounds. Allophonic variation and phonetic characteristics of connected speech and social and regional phonetic variation. Instruction and practice in transcription using the International Phonetic Alphabet.

**SPHR 3109. Auditory Learning/Aural Rehabilitation. 3 Credits.**

Introduction to theories and procedures used to provide aural and audiological (re)habilitation to children and adults who have hearing loss and to provide concomitant services to their family members; assessment and prosthetic management of children and adults with hearing loss; effects of hearing loss on conversational fluency and everyday speech communication; and means for developing aural rehabilitation plans and assessing their effectiveness. Corequisite: SPHR 2108. Prerequisite: none. Recommended background: major in speech, language and hearing sciences.

**SPHR 3116. Brain and Language. 3 Credits.**

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. SPHR 2106 may be taken as a corequisite. Prerequisite: SPHR 2106.

**SPHR 3199. Selected Topics. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**SPHR 4118. Senior Seminar. 3 Credits.**

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Laboratory fee. Prerequisite: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

**SPHR 4118W. Senior Seminar. 3 Credits.**

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

**SPHR 4119. Analysis and Modification of Communication Disorders. 3 Credits.**

For department majors in their senior year. Assessment of speaker-listener behavior; acoustic, behavioral, and linguistic properties of speaker intelligibility and credibility; observation, analysis, and modification of speech and language comprehension and expression. Laboratory fee. Restricted to seniors.

**SPHR 4120. Senior Research Seminar in Speech, Language, and Hearing Sciences. 3 Credits.**

Introduction to the speech, language, and hearing sciences (SLHS) research literature and how to critically evaluate it; the process of scientific writing and analysis; the creation of presentations for different audiences on research-based topics; and how SLHS research can be applied in a variety of research and clinical domains. Restricted to seniors in the speech, language, and hearing sciences program, neuroscience of language and communication and language across cultures and the life span concentrations. Prerequisites: SPHR 1071 or SPHR 1071W, SPHR 2101, and SPHR 2104 or SPHR 2104W.

**SPHR 4120W. Senior Research Seminar in Speech, Language, and Hearing Sciences. 3 Credits.**

Introduction to the speech, language, and hearing sciences (SLHS) research literature and how to critically evaluate it; the process of scientific writing and analysis; the creation of presentations for different audiences on research-based topics; and how SLHS research can be applied in a variety of research and clinical domains. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to seniors in the speech, language, and hearing sciences program, neuroscience of language and communication and language across cultures and the life span concentrations. Prerequisites: SPHR 1071 or SPHR 1071W, SPHR 2101, and SPHR 2104 or SPHR 2104W.

**SPHR 4196. Independent Study. 1-6 Credits.**

Independent research and special projects. Before students are permitted to register for SPHR 4196, they must submit a written proposal of the plan of study and obtain approval of the staff member who directs the study and of the department chair.

**SPHR 4201. Early Social and Cognitive Development. 3 Credits.**

Infants' understanding of social concepts and how these concepts influence the development of memory, attention, and executive functions; children's ability to imitate across different domains and how children's social concepts and social learning abilities underlie language and culture. Prerequisites: SPHR 1071 or SPHR 1071W.

**SPHR 4221. Language and Communication in Aging. 2 Credits.**

Communication and swallowing abilities in older adults; distinguishing the normal changes of aging from pathological symptoms to better assess older patients' capabilities and provide more effective intervention.

**SPHR 6201. Clinical Practicum in Speech-Language Pathology. 1-6 Credits.**

Supervised clinical practice in the evaluation and treatment of speech and language disorders; counseling of clients and families; development of treatment plans and writing of evaluation and progress reports. Permission of the instructor required prior to enrollment. May be repeated for up to 6 credits.

**SPHR 6202. Clinical Practicum in Audiology. 1-6 Credits.**

Supervised clinical practice in behavioral and electrophysiologic assessment of hearing, hearing aid assessment and fitting, and aural rehabilitation; counseling clients and families; writing evaluation and progress reports. Permission of the instructor required prior to enrollment. May be repeated, but may not be taken for more than 6 credits.

**SPHR 6205. Professional and Clinical Issues in Speech and Hearing. 1 Credit.**

**SPHR 6207. Diagnostic Procedures in Speech and Hearing. 3 Credits.**

Fundamental philosophical and conceptual issues in the assessment of speech-language functioning across a wide range of disorders and diverse populations. Consideration of how assessment procedures guide treatment decisions.

**SPHR 6210. Research in Communication Sciences and Disorders. 1,3 Credit.**

Fundamental issues and methods in clinical research; group and single-subject experimental designs; application of clinical research methodology and findings to assessment and treatment. Non-thesis students register for 3 credits; thesis students register for 1 credit concurrent with SPHR 6211. Restricted to graduate students in the speech and hearing science program.

**SPHR 6211. Preparing the Thesis Prospectus. 2 Credits.**

For first-year graduate students. Introduction to the fundamentals of quantitative research design and procedures in the speech and hearing sciences. Critical evaluation of research in speech and hearing sciences; scientific writing skills; the process and expectations for conducting thesis research. Students register for SPHR 6210 for 1 credit. Restricted to speech and hearing sciences master's thesis students.

**SPHR 6220. Disorders of Articulation and Phonology. 3 Credits.**

Survey of the nature and causes of impairments of speech sound production in children and adults. Differential diagnosis of oral motor versus phonological disorders; treatment approaches; identification and modification of regional dialects and foreign accents. Laboratory fee.

**SPHR 6221. Neurodevelopmental Disorders of Speech Production. 2 Credits.**

Evaluation and treatment of infants and children with neurodevelopmental speech disorders, including cerebral palsy. Emphasis on management of prespeech oral motor and feeding impairments. Laboratory fee.

**SPHR 6222. Acquired Neuromotor Disorders of Speech Production. 2 Credits.**

Examination of the neuroanatomical and neurophysiological bases and acoustic and perceptual characteristics of acquired dysarthrias and apraxia of speech. Evidence-based approaches to the assessment, differential diagnosis, and treatment of these disorders. Laboratory fee.

**SPHR 6230. Pediatric Language and Speech Disorders I. 3 Credits.**

Survey of current approaches for assessing and treating language delays and disorders in infants, toddlers, preschoolers, school-age children, and adolescents. Review of standardized, observational, and ethnographic approaches used in language assessment; current models of intervention and service delivery. Laboratory fee.

**SPHR 6231. Pediatric Language and Speech Disorders II. 3 Credits.**

**SPHR 6240. Neurogenic Communication Disorders. 3 Credits.**

Differential diagnosis of acquired speech and language disorders, with an emphasis on the aphasia acquired in adulthood. Evidence-based approaches to the assessment and treatment of adult neurogenic language disorders. Laboratory fee.

**SPHR 6241. Applied Neuroanatomy. 3 Credits.**

Neuroanatomy and neurophysiology of systems underlying speech, language, and hearing. Neuroimaging techniques and investigations. Applications to the assessment and treatment of communication disorders. Laboratory fee.

**SPHR 6250. Eval/Treatment-Speech Disorder. 3 Credits.**

**SPHR 6251. Seminar: Speech Fluency Disorders. 3 Credits.**

Consideration of stuttering and other disorders of speech rate and rhythm from developmental, linguistic, physiological, and psychosocial points of view. Investigation of evidence-based approaches to assessment and treatment.

**SPHR 6260. Voice Disorders: Evaluation and Treatment. 3 Credits.**

Normal anatomy and physiology of the human vocal mechanism. Nature, causes, and clinical management of functional and organic voice disorders, including laryngectomy. Laboratory fee.

**SPHR 6261. Seminar: Voice Disorders. 2 Credits.**

**SPHR 6276. Aural Rehabilitation. 3 Credits.**

Habilitation/rehabilitation of the hearing impaired, including auditory training, speech reading, hearing aids, assistive listening devices, communication strategies, and counseling. Laboratory fee.

**SPHR 6277. Psychoeducational Management of Children With Hearing Impairment. 3 Credits.**

**SPHR 6281. Dysphagia. 2 Credits.**

Anatomy and physiology of normal swallowing. Nature and causes of dysphagia in adults. Assessment, including clinical examination and radiologic methods; treatment. Laboratory fee.

**SPHR 6282. Augmentative Communication and Computer Applications in Communication Disorders. 2 Credits.**

Principles of assessment, development, and selection of augmentative and alternative communication systems; application through case studies. Computer applications, including review of selected hardware and software and selection criteria. Laboratory fee.

**SPHR 6283. Multicultural Perspectives in Communication Development and Disorders. 2 Credits.**

Application of culturally appropriate and theoretically based speech and language procedures to clinical assessment and intervention with multilingual/multicultural populations.

**SPHR 6284. Autism. 2 Credits.**

The various facets of Autism Spectrum Disorder (ASD); clinical aspects and how speech-language pathologists are involved in the assessment, diagnosis, and treatment of ASD; the relationship between typical cognitive and brain development throughout the lifespan and how it is manifested in ASD. Restricted to graduate students.

**SPHR 6290. Selected Topics in Clinical Audiology. 1-3 Credits.**

Advanced study of selected theoretical and clinical issues. May be repeated, but may not be taken for more than a total of 6 credits.

**SPHR 6291. Selected Topics in Speech-Language Pathology. 1-3 Credits.**

Advanced study of selected theoretical and clinical issues regarding various aspects of practice in speech-language pathology. May be repeated but not for more than a total of 6 credits.

**SPHR 6295. Independent Research in Speech, Language, and Hearing. 1-12 Credits.**

**SPHR 6998. Thesis Research. 2 Credits.**

**SPHR 6999. Thesis Research. 2 Credits.**

Needs to be added:

SPHR 6211: Preparing the Thesis Prospectus (2)

SPHR 6284: Autism (2)

# BACHELOR OF ARTS WITH A MAJOR IN SPEECH, LANGUAGE, AND HEARING SCIENCES

## REQUIREMENTS

The following requirements must be fulfilled for the major:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

44 credits, including 9 credits in core courses, and 35 credits in a concentration.

### Core Curriculum

Code	Title	Credits
Required		
SPHR 1071	Foundations of Human Communication	
SPHR 2101	Research Methods	
SPHR 2135	Language: Structure, Meaning, and Use	

### Communication Sciences and Disorders Concentration

Code	Title	Credits
Required		
SPHR 2104	Speech and Language Disorders	
or SPHR 2104W	Speech and Language Disorders	
SPHR 2105	Anatomy and Physiology for Speech and Hearing	
SPHR 2106	Neural Substrates of Speech, Language, and Hearing	
SPHR 2107	Acoustics	
SPHR 2108	Introduction to Audiology	
SPHR 2131	Language Acquisition and Development	
SPHR 2136	Phonetics	
SPHR 3109	Auditory Learning/Aural Rehabilitation	
SPHR 4118W	Senior Research Seminar in Communication Sciences and Disorders	
SPHR 4119	Analysis and Modification of Communication Disorders	

STAT 1053	Introduction to Statistics in Social Science
-----------	--

### Electives

One course from the following:

SPHR 1072	Multicultural Issues in Human Communication
SPHR 1082	American Sign Language II
SPHR 2132	Literacy
SPHR 2133	Autism
SPHR 3116	Brain and Language
SPHR 4201	Early Social and Cognitive Development
SPHR 4221	Language and Communication in Aging

## Neuroscience of Language and Communication Concentration

Code	Title	Credits
<b>Required</b>		
PSYC 2014	Cognitive Psychology	
SPHR 2106	Neural Substrates of Speech, Language, and Hearing	
SPHR 2117	Hearing and Perception	
SPHR 3116	Brain and Language	
SPHR 4201	Early Social and Cognitive Development	
SPHR 4221	Language and Communication in Aging	
SPHR 4120W	Senior Research Seminar in Speech, Language, and Hearing Sciences	
STAT 1053	Introduction to Statistics in Social Science	

### Electives

Three courses from the following:

SPHR 2104	Speech and Language Disorders
SPHR 2105	Anatomy and Physiology for Speech and Hearing
SPHR 2106	Neural Substrates of Speech, Language, and Hearing
SPHR 2107	Acoustics

SPHR 2132	Literacy
-----------	----------

SPHR 2133 Autism

One course from the following:

PSYC 2013	Developmental Psychology
PSYC 2015	Biological Psychology
PSYC 3118	Neuropsychology
PSYC 3121	Memory and Cognition

## Language Across Cultures and the Life Span Concentration

Code	Title	Credits
<b>Required</b>		
SPHR 1072	Multicultural Issues in Human Communication	
SPHR 1082	American Sign Language II	
SPHR 1084	Perspectives in Deaf Culture	
SPHR 2131	Language Acquisition and Development	
SPHR 2132	Literacy	
SPHR 4201	Early Social and Cognitive Development	
SPHR 4221	Language and Communication in Aging	
SPHR 4120W	Senior Research Seminar in Speech, Language, and Hearing Sciences	

### Electives

Three courses from the following:

SPHR 2104	Speech and Language Disorders
SPHR 2105	Anatomy and Physiology for Speech and Hearing
SPHR 2106	Neural Substrates of Speech, Language, and Hearing
SPHR 2107	Acoustics
SPHR 2108	Introduction to Audiology
SPHR 2133	Autism
SPHR 2136	Phonetics
SPHR 3109	Auditory Learning/Aural Rehabilitation

SPHR 3116	Brain and Language
One course from the following:	
ANTH 1004	Language in Culture and Society
ANTH 3601	Language, Culture, and Cognition
ANTH 3602	Ethnographic Analysis of Speech
ANTH 3603	Psycholinguistics
PSYC 2514	Adult Development and Aging

## SPECIAL HONORS

To qualify for graduation with Special Honors, the student must fulfill the general requirements stated under University Regulations, submit an application to the department before the beginning of the senior year, register for at least 1 credit of SPHR 4196 Independent Study, and complete an independent study honors project with distinction. Students must confer with an advisor before beginning the work. A 3.75 grade-point average in the major and overall is required both for acceptance and for graduation with Special Honors.

## MINOR IN SPEECH, LANGUAGE, AND HEARING SCIENCES

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
SPHR 1071 or SPHR 1071W	Foundations of Human Communication	
SPHR 2105	Anatomy and Physiology for Speech and Hearing	
SPHR 2107	Acoustics	
SPHR 2135	Language: Structure, Meaning, and Use	
<b>Electives</b>		
Two of the following:		
SPHR 2104 or SPHR 2104W	Speech and Language Disorders	
SPHR 2106	Neural Substrates of Speech, Language, and Hearing	

SPHR 2108	Introduction to Audiology
SPHR 2131	Language Acquisition and Development
SPHR 2132	Literacy
SPHR 2133	Autism
SPHR 2136	Phonetics
SPHR 3116	Brain and Language

## MASTER OF ARTS IN THE FIELD OF SPEECH-LANGUAGE PATHOLOGY

### REQUIREMENTS

The master of arts in the field of speech-language pathology degree program is for students with an undergraduate degree in speech-language pathology.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

42 credits: Non-thesis option—38 credits in required courses and 4 credits in elective courses; thesis option—36 credits in required courses and 6 credits of thesis. For all students, satisfactory completion of supervised practica and a master's summative assessment is required.

Code	Title	Credits
<b>Required</b>		
SPHR 6201	Clinical Practicum in Speech-Language Pathology (taken once each semester for a total of 5 credits)	
SPHR 6205	Professional and Clinical Issues in Speech and Hearing	
SPHR 6207	Diagnostic Procedures in Speech and Hearing	
SPHR 6210	Research in Communication Sciences and Disorders (students selecting the thesis option register for 1 credit)	
SPHR 6220	Disorders of Articulation and Phonology	
SPHR 6230	Pediatric Language and Speech Disorders I	
SPHR 6231	Pediatric Language and Speech Disorders II	

SPHR 6240	Neurogenic Communication Disorders
SPHR 6241	Applied Neuroanatomy
SPHR 6251	Seminar: Speech Fluency Disorders
SPHR 6260	Voice Disorders: Evaluation and Treatment
SPHR 6276	Aural Rehabilitation
SPHR 6281	Dysphagia

### Electives

Students selecting the non-thesis option take 4 credits in elective courses.

### Thesis

Students selecting the thesis option take the following in place of elective courses.

SPHR 6211	Preparing the Thesis Prospectus
SPHR 6998	Thesis Research
SPHR 6999	Thesis Research

All students must satisfy the academic and supervised practicum requirements of the Certificate of Clinical Competence awarded by the American Speech-Language-Hearing Association and satisfactorily complete a master's comprehensive examination.

## SPEECH-LANGUAGE PATHOLOGY POST-BACCALAUREATE PROGRAM

The Master of Arts in the field of speech-language pathology post-baccalaureate program is designed for persons wishing to enter the profession of speech-language pathology, but whose undergraduate major was in another field.

Students wishing to participate in the post-baccalaureate program apply to the master's degree program and may be granted "conditional admission" to the graduate program. Conditional admission requires that students complete nine prerequisite courses (scheduled on Tuesdays and Thursdays). Completion of the post-baccalaureate program, including the master's degree, usually requires 33 months of full-time study. The courses of the post-baccalaureate program must be completed with a minimum grade of *B-* in each course and a cumulative GPA of 3.0, within a student's first year of the graduate program. No other grades, including *I* (incomplete), *W* (authorized withdraw), or *Z* (unauthorized withdraw) are acceptable for these courses. Failure to meet these conditions will result in the termination of a student's degree candidacy.

The post-baccalaureate program of study includes the following courses:

Code	Title	Credits
<b>Required</b>		
SPHR 2104	Speech and Language Disorders	
SPHR 2105	Anatomy and Physiology for Speech and Hearing	
SPHR 2106	Neural Substrates of Speech, Language, and Hearing	
SPHR 2107	Acoustics	
SPHR 2131	Language Acquisition and Development	
SPHR 2135	Language: Structure, Meaning, and Use	
SPHR 2136	Phonetics	
SPHR 4119	Analysis and Modification of Communication Disorders	

SPHR 2108 Introduction to Audiology also required.

Visit the Speech-Language Pathology Post-Baccalaureate Program website (<https://speechhearing.columbian.gwu.edu/ma-nonslp>) for additional information.

## STATISTICS

Statistics is one of the natural, mathematical, and biomedical sciences programs in the Columbian College of Arts and Sciences. The curriculum emphasizes the important role of statistics as it provides methodologies for making advances in medicine, genetics, and other research arenas and supports decision making in business and public policy. Students learn reasoning skills and methods for analyzing and understanding data and how these skills can be applied to develop new initiatives.

Visit the Department of Statistics website (<https://statistics.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Science with a major in statistics (p. 407)

### Minor

- Minor in statistics (p. 408)

# GRADUATE

## Master's programs

- Master of Science in the field of biostatistics (p. 1044) (jointly administered by the Department of Statistics in CCAS and the Department of Epidemiology and Biostatistics in SPH)
- Master of Science in the field of statistics (p. 408)

## Combined program

- Dual Master of Professional Studies in the field of political management and graduate certificate in survey design and analysis (p. 988) (p. 988) (jointly administered by the Department of Statistics in CCAS and the Graduate School of Political Management in CPS)

## Doctoral programs

- Doctor of Philosophy in the field of biostatistics (p. 1048) (jointly administered by the Department of Statistics in CCAS and the Department of Epidemiology and Biostatistics in SPH)
- Doctor of Philosophy in the field of statistics (p. 409)

## FACULTY

**Professors** E. Bura, J.L. Gastwirth, F. Hu, J.M. Lachin III, Y. Lai, Z. Li, H. Liang, H.M. Mahmoud, R. Modarres, T.K. Nayak (*Chair*), H.J. Wang

**Associate Professors** T. Apanasovich, S. Bose, S. Kundu, Q. Pan

**Assistant Professors** S. Balaji, A.E. Barut, J. Landon, X. Zhang

**Adjunct Professors** A. Amini, T. Vadakkeveetil

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: STAT 1051 Introduction to Business and Economic Statistics, STAT 1053 Introduction to Statistics in Social Science, STAT 1111 Business and Economic Statistics I, and STAT 1127 Statistics for the Biological Sciences are related in their subject matter, and credit for only one of these courses may be applied toward a degree. One entrance unit in algebra is prerequisite to all courses in statistics.

### STAT 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

### STAT 1051. Introduction to Business and Economic Statistics. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, probability distributions, sampling, estimation, tests of hypotheses, regression and correlation, with applications to business.

### STAT 1053. Introduction to Statistics in Social Science. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, sampling, estimation, tests of hypotheses, regression and correlation, with applications to social sciences.

### STAT 1111. Business and Economic Statistics I. 3 Credits.

Descriptive statistics, graphical methods, probability, special distributions, random variables, sampling, estimation and confidence intervals, hypothesis testing, correlation and regression.

### STAT 1127. Statistics for the Biological Sciences. 3 Credits.

Introduction to statistical techniques and reasoning applicable to the biomedical and related sciences. Properties of basic probability functions: binomial, Poisson, and normal. Data analysis, inference, and experimental design.

### STAT 1129. Introduction to Computing. 3 Credits.

Introduction to elements of computer programming and problem-solving using a computer programming language. Hands-on experience is acquired through computer programming projects, including some simple statistical applications.

### STAT 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

### STAT 2112. Business and Economic Statistics II. 3 Credits.

Continuation of STAT 1111. Emphasis on techniques of regression, chi-square, nonparametric inference, index numbers, time series, decision analysis, and other topics relevant to economics and business. Prerequisites: STAT 1051 or STAT 1053 or STAT 1111.

### STAT 2118. Regression Analysis. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Simple and multiple linear regression, partial correlation, residual analysis, stepwise model building, multicollinearity and diagnostic methods, indicator variables. Prerequisites: STAT 1111 or equivalent.

### STAT 2123. Introduction to Econometrics. 3 Credits.

Same as Econ 2123.

**STAT 2183. Intermediate Statistics Lab/Packages. 3 Credits.**

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisites: An introductory statistics course.

**STAT 2183W. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.**

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: An introductory statistics course.

**STAT 3119. Analysis of Variance. 3 Credits.**

Lecture (3 hours), laboratory (1 hour). Introduction to the design of experiments and analysis of variance; randomized block, factorial, Latin square designs, and analysis of covariance. Prerequisite: STAT 2118.

**STAT 3187. Introduction to Sampling. 3 Credits.**

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051 .

**STAT 3187W. Introduction to Sampling. 3 Credits.**

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: STAT 1051.

**STAT 4157. Introduction to Mathematical Statistics I. 3 Credits.**

Basic concepts of probability theory, including random variables, independence, distribution theory, and sampling theory. Prerequisite: MATH 1232 .

**STAT 4158. Introduction to Mathematical Statistics II. 3 Credits.**

Continuation of STAT 4157. Inference procedures, including estimation, hypothesis testing, regression analysis, and experimental design. Prerequisite: MATH 1232 .

**STAT 4181. Applied Time Series Analysis. 3 Credits.**

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate time series. Estimation of spectral density functions, white noise tests, and tests for periodicities. Theory and applications using statistical software. Prerequisites: STAT 4157 and STAT 4158 or STAT 2118.

**STAT 4188. Nonparametric Statistics Inference. 3 Credits.**

Statistical inference when the form of the underlying distribution is not fully specified. Nonparametric procedures for estimation and testing hypotheses. An introduction to robust procedures. Prerequisite: STAT 1051.

**STAT 4189. Mathematical Probability and Applications I. 3 Credits.**

Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

**STAT 4190. Mathematical Probability and Applications II. 3 Credits.**

Continuation of STAT 4189. Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

**STAT 4195. Reading and Research. 1-12 Credits.**

May be repeated once for credit. Permission of the department chair required prior to enrollment.

**STAT 4197. Fundamentals of SAS Programming for Data Management. 3 Credits.**

Fundamentals of Statistical Analysis System (SAS) software for data management, statistical analysis, and report writing; data modification, programming, file handling, and macro writing. Students are expected to have knowledge of computer programming and to have completed an introductory statistics course. Credit cannot be earned for both STAT 4197 and STAT 6197.

**STAT 4198. Special Topics. 3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

**STAT 6104. Statistics in Management, Administration, and Policy Studies. 3 Credits.**

Introductory study of statistical techniques for research problems. For graduate students in fields other than statistics who have no previous statistics training. May not be taken by graduate students in statistics.

**STAT 6197. Fundamentals of SAS Programming for Data Management. 3 Credits.**

Fundamentals of Statistical Analysis System (SAS) software for data management, statistical analysis, and report writing. Data modification, programming, file handling, and macro writing. Recommended background: An introductory statistics course and knowledge of computer programming.

**STAT 6201. Mathematical Statistics I. 3 Credits.**

Basic Probability theory, Random variables and transformations, Common families of distribution, Conditional expectations and distributions, Bivariate and Multivariate distributions and transformations, Sampling distributions. Prerequisites: MATH 2233 and MATH 2184.

**STAT 6202. Mathematical Statistics II. 3 Credits.**

Continuation of STAT 6201. Order Statistics, Convergence concepts, Sufficient and Complete statistics, Likelihood Principle, Point and Interval Estimation, Hypothesis Testing, Bayesian Tests and Intervals. Prerequisites: MATH 2233, MATH 2184 and STAT 6201.

**STAT 6207. Methods of Statistical Computing I. 3 Credits.**

Error analysis, computational aspects of linear models, sweep operator, random number generation, simulation, resampling. Optimization, numerical integration (Gaussian quadrature, Simpson's rule); E-M algorithm. Prerequisites: STAT 2118, STAT 4157 and STAT 4158; and MATH 2184; and knowledge of a programming language.

**STAT 6208. Methods of Statistical Computing II. 3 Credits.**

Numerical linear algebra, matrix decomposition and eigenvalue problems. Smoothing and density estimation. Graphics, interactive and dynamic techniques for data display. Object-oriented programming. Prerequisites: STAT 2118, STAT 4157 and STAT 4158; and MATH 2184; and knowledge of a programming language.

**STAT 6210. Data Analysis. 3 Credits.**

Review of statistical principles of data analysis, using computerized statistical procedures. Multiple regression and the general linear model, analysis of contingency tables and categorical data, logistic regression for qualitative responses. Prerequisites: STAT 2118 or STAT 4157 or STAT 6201; and STAT 2183.

**STAT 6213. Intermediate Probability and Stochastic Processes. 3 Credits.**

Discrete and continuous random variables and their distributions, conditional distributions and conditional expectation, generating functions and their applications, convergence of random variables; introduction to Brownian motion, homogeneous and nonhomogeneous Poisson processes and martingales. Prerequisites: STAT 6201 and STAT 6202.

**STAT 6214. Applied Linear Models. 3 Credits.**

Introduction to regression techniques for discrete and continuous response variables. The course includes a computing component using SAS and S> Prerequisite: MATH 2233 and MATH 2184.

**STAT 6215. Applied Multivariate Analysis I. 3 Credits.**

Statistical analysis of several variables, possibly dependent, following a joint normal distribution. matrix algebra and random vectors, multivariate sample geometry, multivariate normal distribution, inferences about a mean vector, and comparisons of several population means. Applications of multivariate techniques to the analysis of data from the behavioral, social, medical, and physical sciences. Prerequisites: STAT 3119, STAT 4157 and STAT 4158; and MATH 2184.

**STAT 6216. Applied Multivariate Analysis II. 3 Credits.**

Continuation of STAT 6215. Statistical analysis of random vectors, following a multivariate normal distribution. multivariate linear regression models, principal components, factor analysis, inference for structured covariance matrices, canonical correlations, discrimination and classification, clustering and distance methods. Applications of multivariate techniques to the analysis of data from the behavioral, social, medical, and physical sciences. Prerequisites: STAT 3119, STAT 4157 and STAT 4158; and MATH 2184.

**STAT 6217. Design of Experiments. 3 Credits.**

Design and analysis of single- and multiple-factor experiments. Includes block designs, repeated measures, factorial and fractional factorial experiments, response surface experimentation. Prerequisites: STAT 4157 and STAT 4158; and MATH 2184.

**STAT 6218. Linear Models. 3 Credits.**

Theory of the general linear parametric model. Includes least squares estimation, multiple comparisons procedures, variance components estimation. Prerequisites: STAT 6201, STAT 6202, STAT 2118 and MATH 2184.

**STAT 6223. Bayesian Statistics: Theory and Applications. 3 Credits.**

An overview of Bayesian statistics, including its foundational issues, decision under uncertainty, linear models, expert opinion, and computational issues. Prerequisites: STAT 6201 and STAT 6202.

**STAT 6225. Longitudinal Data Analysis. 3 Credits.**

Introduction to the statistical models, estimation methods, and inferences for the analysis of longitudinal data; modern methods for the analysis of repeated measures as well as parametric and nonparametric regression models for longitudinal analysis. Restricted to master of science and doctoral program candidates. Prerequisites: Stat 2118, Stat 6201 and Stat 6202.

**STAT 6227. Survival Analysis. 3 Credits.**

Parametric and nonparametric methods for the analysis of events observed in time (survival data), including Kaplan-Meier estimate of survival functions, logrank and generalized Wilcoxon tests, the Cox proportional hazards model and an introduction to counting processes. Prerequisites: STAT 6201 and STAT 6202; or permission of the instructor.

**STAT 6231. Contingency Table Analysis. 3 Credits.**

A study of the theoretical bases underlying the analysis of categorical data. Measures and tests of association; Mantel-Haenszel procedure; weighted least squares and maximum likelihood estimators in linear models; estimating equations; logistic regression; loglinear models. Prerequisites: STAT 6201 or STAT 6202 or STAT 2118 or STAT 6214.

**STAT 6233. Questionnaire Design. 3 Credits.**

Questionnaire development from the perspective of cognitive techniques. Questionnaire issues range from choosing the mode of data collection (mail, telephone, or in-person) to selecting the respondent to the differences between asking attitude and factual questions. Pretesting the instrument chosen.

**STAT 6234. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.**

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. This course is specifically designed for SDDA program  
Prerequisites: An introductory statistics course.

**STAT 6236. Applied Sampling Techniques. 3 Credits.**

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051.

**STAT 6238. Survey Management. 3 Credits.**

Tools used in the management of a survey operation from the initial customer contacts through training, fieldwork, data processing, data analysis, report writing, and presentation of results. Issues in budgeting, staffing, and scheduling, with emphasis on quality management.

**STAT 6240. Statistical Data Mining. 3 Credits.**

Introduction to basic data mining concepts and techniques for discovering interesting patterns hidden in large-scale data sets, focusing on issues relating to effectiveness and efficiency. Students are expected to be familiar with R programming. Restricted to statistics majors or with the permission of the instructor. Prerequisites: STAT 6201, STAT 6202, and STAT 6214 or equivalents. Recommended background: coursework in mathematical statistics, applied linear models, and multivariate statistics.

**STAT 6242. Modern Regression Analysis. 3 Credits.**

Methodology, major software tools and applications of modern nonparametric methods. Regularized regression: shrinkage, ridge and lasso; nonparametric regression: kernels and splines; nonparametric classification: K-Nearest Neighbors and Decision Trees; resampling methods: bootstrap, boosting and bagging. Prerequisites: STAT 6201 or STAT 6202 or STAT 6214 or STAT 6218.

**STAT 6245. Statistical Consulting. 3 Credits.**

This course focuses on the following themes: (i) understanding the statistical consulting process; (ii) developing effective verbal and written communication skills; (iii) comprehending consulting environments in different industries; and (iv) obtaining consulting experience through case studies. Prerequisites: STAT 6201, STAT 6202, STAT 6214 and STAT 6215. Recommended background: second-year status in the graduate statistics or biostatistics program.

**STAT 6252. Statistical Methods in Bioinformatics and Computational Biology. 3 Credits.****STAT 6253. Legal Statistics. 3 Credits.****STAT 6254. Statistical Genetics. 3 Credits.**

Theories of population genetics and Mendelian genetics, Hardy-Weinberg equilibrium and linkage disequilibrium, statistical software (R or SAS) for linkage analysis and association analysis, research in statistical genetics. Prerequisites: STAT 6201 and STAT 6202.

**STAT 6287. Sample Surveys. 3 Credits.**

Application of statistical theory to the sampling of finite populations. Simple, stratified, cluster, double and subsampling. Special topics, including super-populations and randomized response. Prerequisites: STAT 4157 and STAT 4158.

**STAT 6289. Topics in Statistics. 3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

**STAT 6290. Principles of Demography. 3 Credits.**

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290.

**STAT 6291. Methods of Demographic Analysis. 3 Credits.**

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291.

**STAT 6295. Reading and Research. 3 Credits.**

May be repeated once for credit.

**STAT 6298. Seminar: Special Topics. 3 Credits.****STAT 6998. Thesis Research. 3 Credits.****STAT 6999. Thesis Research. 3 Credits.****STAT 8226. Advanced Biostatistical Methods. 3 Credits.**

Statistical methods for the analysis of longitudinal data: nonparametric, fixed effects, mixed effects, generalized estimating equations. Methods for the analysis of emerging data: group sequential analysis, Brownian motion, Bayesian methods, and stochastic curtailment. Other advanced topics of current research in biostatistics. Prerequisites: STAT 6201 and STAT 6202; or permission of the instructor.

**STAT 8257. Probability. 3 Credits.**

Probabilistic foundations of statistics, probability distributions, random variables, moments, characteristic functions, modes of convergence, limit theorems, probability bounds. Prerequisites: STAT 6201 and STAT 6202; and knowledge of calculus through functions of several variables and series.

**STAT 8258. Distribution Theory. 3 Credits.**

Special distributions of statistics, small and large sample theory, order statistics, and spacings. Prerequisite: STAT 8257.

**STAT 8259. Advanced Probability. 3 Credits.**

Conditional expectation and martingales; weak convergence in general metric spaces and functional central limit theorems for i.i.d. random variables and martingales; applications to biostatistics. Prerequisite: STAT 8257 or an equivalent measure-theoretic introduction to probability.

**STAT 8262. Nonparametric Inference. 3 Credits.**

Inference when the form of the underlying distribution is unspecified. Prerequisites: STAT 6201 and STAT 6202.

**STAT 8263. Advanced Statistical Theory I. 3 Credits.**

Decision theoretic estimation, classical point estimation, hypothesis testing. Prerequisites: STAT 6201 and STAT 6202.

**STAT 8264. Advanced Statistical Theory II. 3 Credits.**

Asymptotic theory, hypothesis testing, confidence regions. Prerequisites: STAT 8257 and STAT 8263.

**STAT 8265. Multivariate Analysis. 3 Credits.**

Characterization and properties of the multivariate normal distribution, conditional distributions, multiple correlation, partial correlation, estimation of the mean vector and the covariance matrix, Wishart and Hotelling distributions and applications to hypothesis testing, discrimination, classification, and principle component analysis. Prerequisites: STAT 6201 and STAT 6202.

**STAT 8266. Topics-Multivariate Analysis. 3 Credits.**

Multivariate analysis of variance, principal component analysis, canonical correlation, factor analysis. Prerequisites: STAT 6201, STAT 6202 and STAT 8265.

**STAT 8271. Foundational and Philosophical Issues in Statistics. 3 Credits.**

Axiomatic underpinnings of Bayesian statistics, including subjective probability, belief, utility, decision and games, likelihood principle, and stopping rules. Examples from legal, forensic, biological, and engineering sciences. Students are expected to have a background in computer science, economics, mathematics, or operations research. Prerequisites: STAT 6201 and STAT 6202.

**STAT 8273. Stochastic Processes I. 3 Credits.**

Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201 and STAT 6202.

**STAT 8274. Stochastic Processes II. 3 Credits.**

Continuation of STAT 8273. Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201 and STAT 6202.

**STAT 8281. Advanced Time Series Analysis. 3 Credits.**

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate and multivariate time series. Statespace or Kalman filter models, spectral analysis of multiple time series. Theory and applications using the University computer. Prerequisites: MATH 2233, STAT 6201 and STAT 6202.

**STAT 8288. Topics in Sample Surveys. 3 Credits.**

Advanced topics and research in sample surveys. Prerequisite: STAT 6287.

**STAT 8289. Seminar. 3 Credits.**

Admission by permission of instructor. May be repeated for credit provided the content differs.

**STAT 8375. Econometrics I. 3 Credits.**

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as ECON 8375.

**STAT 8376. Econometrics II. 3 Credits.**

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as ECON 8376. Prerequisite: STAT 8375.

**STAT 8998. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**STAT 8999. Dissertation Research. 3-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

# BACHELOR OF SCIENCE WITH A MAJOR IN STATISTICS

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum—all courses in the major, including prerequisites, must be completed with a minimum grade of C-:

Code	Title	Credits
Prerequisite courses:		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
STAT 1051	Introduction to Business and Economic Statistics (or equivalent)	
or STAT 1053	Introduction to Statistics in Social Science	

STAT 1129	Introduction to Computing (or equivalent)
or CSCI 1121	Introduction to C Programming

Code	Title	Credits
------	-------	---------

#### Required courses in the major:

MATH 2184	Linear Algebra I
or MATH 2185	Linear Algebra I for Math Majors

STAT 2118	Regression Analysis
-----------	---------------------

STAT 3119	Analysis of Variance
-----------	----------------------

STAT 4157	Introduction to Mathematical Statistics I
-----------	---

STAT 4158	Introduction to Mathematical Statistics II
-----------	--

STAT 2183	Intermediate Statistics Lab/Packages
or STAT 4197	Fundamentals of SAS Programming for Data Management

Four approved upper-division courses, some of which, in special circumstances, may be taken in other departments. To assure a balanced program, departmental approval of electives is required for all majors. Some suggested electives are:

STAT 2112	Business and Economic Statistics II
-----------	-------------------------------------

STAT 3187	Introduction to Sampling
-----------	--------------------------

STAT 4181	Applied Time Series Analysis
-----------	------------------------------

STAT 4188	Nonparametric Statistics Inference
-----------	------------------------------------

STAT 4189	Mathematical Probability and Applications I
-----------	---

STAT 4198	Special Topics
-----------	----------------

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students who seek Special Honors in statistics should check with the Department.

## MINOR IN STATISTICS

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 9 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
------	-------	---------

#### Required:

One of the following introductory courses:

STAT 1051	Introduction to Business and Economic Statistics
-----------	--

STAT 1053	Introduction to Statistics in Social Science
-----------	--

STAT 1111	Business and Economic Statistics I
-----------	------------------------------------

STAT 1127	Statistics for the Biological Sciences
-----------	--

Both of the following courses:

STAT 2118	Regression Analysis
or STAT 2123	Introduction to Econometrics

STAT 2183	Intermediate Statistics Lab/Packages
-----------	--------------------------------------

or STAT 4197	Fundamentals of SAS Programming for Data Management
--------------	---

#### Electives

Three courses (9 credits) of approved Statistics (STAT) courses.

## MASTER OF SCIENCE IN THE FIELD OF STATISTICS

### REQUIREMENTS

General prerequisite: coursework in multivariate calculus, matrix theory, and at least two undergraduate statistics courses.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits. For the non-thesis option—6 credits in required courses and 24 credits in elective courses; thesis option—6 credits in required courses, 18 credits in elective courses, and 6 credits of thesis.

Code	Title	Credits
------	-------	---------

#### Required

STAT 6201	Mathematical Statistics I
-----------	---------------------------

STAT 6202	Mathematical Statistics II
-----------	----------------------------

Required for students pursuing the thesis option

STAT 6998	Thesis Research
-----------	-----------------

STAT 6999	Thesis Research
-----------	-----------------

### Electives

24 credits for non-thesis option, 18 credits for thesis option

Elective courses may be taken in related fields, such as economics, mathematics, finance, management, computer science, engineering, public health, and data science. All electives are selected in consultation with the advisor.

\*Students must have departmental approval in order to pursue the thesis option.

Visit the program website (<https://statistics.columbian.gwu.edu/masters-statistics>) for additional information.

## DOCTOR OF PHILOSOPHY IN THE FIELD OF STATISTICS

### REQUIREMENTS

Prerequisite: a master's degree in statistics or a related discipline. The main requirement is a strong background in mathematics, including courses in advanced calculus, linear algebra, probability and mathematical statistics. Some deficiencies may be made up concurrently during the student's first year. In some instances, a student may enter the PhD program with a bachelor's degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87)

Code	Title	Credits
<b>Required</b>		
STAT 6201	Mathematical Statistics I	
STAT 6202	Mathematical Statistics II	
STAT 6223	Bayesian Statistics: Theory and Applications	
STAT 8257	Probability	
STAT 8258	Distribution Theory	
STAT 8263	Advanced Statistical Theory I	
STAT 8264	Advanced Statistical Theory II	

At least two of the following:

STAT 6218	Linear Models
-----------	---------------

STAT 8226 Advanced Biostatistical Methods

STAT 8259 Advanced Probability

STAT 8262 Nonparametric Inference

STAT 8265 Multivariate Analysis

STAT 8273 Stochastic Processes I

STAT 8274 Stochastic Processes II

STAT 8281 Advanced Time Series Analysis

A minimum of 21 additional credits as determined by consultation with the departmental doctoral committee

The General Examination, consisting of two parts:

A. A written qualifying examination that must be taken within 24 months from the date of enrollment in the program and is based on:

STAT 6201 Mathematical Statistics I

STAT 6202 Mathematical Statistics II

STAT 8257 Probability

STAT 8263 Advanced Statistical Theory I

B. An examination to determine the student's readiness to carry out the proposed dissertation research

A dissertation demonstrating the candidate's ability to do original research in one area of probability or statistics.

Visit the program website (<https://statistics.columbian.gwu.edu/phd-statistics>) for additional information.

## THEATRE AND DANCE

The Department of Theatre and Dance, an interdisciplinary liberal arts program, offers instruction in how to acquire the tools and knowledge to fully appreciate the value of these performance art forms. Students strengthen their ability to apply critical thinking and discussion to the creation and understanding of theatre and dance, as well as the understanding of other peoples and cultures. The curriculum is supplemented as students create live performances and original productions that stimulate and involve the university community, as well as the community beyond the campus. Through creative endeavor and scholarly research, the program also develops the interests and talents of students seeking careers or advanced study in theatre and dance.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in theatre (p. 416)
- Bachelor of Arts with a major in dance (p. 415)

### Minors

- Minor in theatre (p. 417)
- Minor in dance (p. 416)

## GRADUATE

### Master's programs

- Master of Fine Arts in the field of dance (p. 418)
- Master of Fine Arts in the field of production design (p. 418)

## FACULTY

**Professors** DT.S. Burgess (*Chair*), C.F. Gudenius, L.B. Jacobson, M.R. Withers

**Associate Professors** M.A. Buckley, J.I. Kanter

**Assistant Professors** S. Johannesdottir, J. Traub, T.W. Wetenhall

**Adjunct Professors** E. Kitsos-Kang, A.C. Stokes

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Courses in the 1000s series are primarily for nonmajors.

Departmental prerequisite: Prerequisite to all graduate TRDA courses: M.F.A. candidacy and permission of instructor.

#### **TRDA 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details.

#### **TRDA 1015. Understanding the Dance. 3 Credits.**

The art of dance—a lecture and experiential approach to its cultural importance, history, and creative processes. The contributions of the choreographer and dancer to society. Attendance at performances and presentations, and viewing video. Laboratory fee.

#### **TRDA 1020. Women and the Creative Process. 3 Credits.**

Consideration of questions of aesthetics and creativity through the study of art produced by women since the mid-twentieth century. The creation, meaning, and impact of work across the fields of visual art, dance, theatre, and music.

#### **TRDA 1025. Understanding the Theatre. 3 Credits.**

The art of the theatre; its literature, history, aesthetics, and mechanics. Contributions of the playwright, actor, director, and designer. Attendance at assigned theatrical performances.

#### **TRDA 1035. Theatre Production. 3 Credits.**

Understanding of the basic elements of theatrical production (performance, technical and management) and the collaborative artist/artisan process through discussion, observation, and practical application. Laboratory fee.

#### **TRDA 1151. Beginning/Intermediate Ballet. 1 Credit.**

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

#### **TRDA 1152. Beginning Modern/Postmodern Dance. 1 Credit.**

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

#### **TRDA 1153. Beginning/Intermediate Modern/Postmodern Dance. 1 Credit.**

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

#### **TRDA 1170. Intermediate Modern/Postmodern Dance I. 2-3 Credits.**

Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Laboratory fee.

#### **TRDA 1171. Intermediate Modern/Postmodern Dance II. 2-3 Credits.**

Continuation of TRDA 1170. Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Laboratory fee. Prerequisites: TRDA 1170 or permission of the instructor.

#### **TRDA 1214. Beginning Acting. 3 Credits.**

An introduction to the process of acting. Students learn to make choices using various acting techniques to create characters and learn about the process.

**TRDA 1240. Performance Theory. 3 Credits.**

Examination of the ways in which the practices and heuristics of performance have been used to understand a wide range of cultural activities; expansion of the notion of aesthetic performance proper to include sources, subjects, and forms historically considered non-dramatic; and underlying questions concerning what performance is, what it does, and what value it holds.

**TRDA 1330. Basics of Production Design. 3 Credits.**

Basic elements of production design and technical execution. Laboratory required. Laboratory fee.

**TRDA 2160. Intermediate Ballet. 2-3 Credits.**

Training in movements and steps within the intermediate level ballet lexicon, emphasizing technical skills, stamina, mastery of longer dance sequences, presentation, musicality, and artistry. Permission of the instructor required prior to enrollment. May be repeated for credit. Laboratory fee. Recommended background: mastery of low intermediate level ballet steps and vocabulary, ability to perform short combinations of dance steps, and competence in basic elements of ballet technique.

**TRDA 2172. Intermediate/Advanced Modern/Postmodern Dance I. 2-3 Credits.**

May be repeated for credit. Laboratory fee. Prerequisites: TRDA 1171 or permission of the instructor.

**TRDA 2173. Intermediate/Advanced Modern/Postmodern Dance II. 2-3 Credits.**

Continuation of TRDA 2172. May be repeated for credit. Laboratory fee. Prerequisites: TRDA 2172 or permission of the instructor.

**TRDA 2179. Contact Improvisation. 2 Credits.**

A movement form that arises from the point of contact between partners who explore gravity, space, and timing in the spontaneous moment-to-moment exchange of the dance. Exploring the improvisational state of body/mind through the use of imagery, tuning the senses, mindfulness practices, and play. Laboratory fee.

**TRDA 2180. Movement Improvisation/Performance. 3 Credits.**

Exploring the body and its surroundings in movement, use of language, narrative, environments and contexts for creative expression, developing event and performance structures from improvisation. May be repeated for credit. Laboratory fee.

**TRDA 2185. Trends in Performance. 3 Credits.**

Study of the theory and practice of contemporary performance art movements and artists; political and artistic activism; scripting and scoring to create performance works based on a single art discipline or interdisciplinary arts. Laboratory fee.

**TRDA 2188. African Dance. 1 Credit.**

African/Caribbean dance styles and techniques, with warm-ups and center floor work of long and short movement phrases. Basic/modern/jazz terminology and definitions appropriate to intermediate/advanced/African dance are used. Emphasis on alignment, execution, musical phrasing, and the importance of rhythmic timing and nuance.

**TRDA 2189. World Dance. 3 Credits.****TRDA 2190. Gender/Indian Classical Dance. 3 Credits.****TRDA 2191. Dance History. 3 Credits.**

The history of Western theatrical dance from the late eighteenth century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion.

**TRDA 2191W. Dance History. 3 Credits.**

The history of Western theatrical dance from the late eighteenth century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**TRDA 2192. Repertory/Performance. 1,2 Credit.**

Participation in the processes of learning and performing dance repertory or new dance works. Audition required. Laboratory required. May be repeated for credit. Laboratory fee.

**TRDA 2193. Dance Styles I. 1-12 Credits.**

Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

**TRDA 2194. Dance Styles II. 1-12 Credits.**

Continuation of TRDA 2193. Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

**TRDA 2195. Global Dance History. 3 Credits.**

The role of dance globally in relation to socio-cultural and artistic histories. Importance of certain artists and dance forms contextualized by major world events as seen through the geography of immigration. Perspectives from the Americas, Africa, the Middle East, and Asia.

**TRDA 2195W. Global Dance History. 3 Credits.**

The role of dance globally in relation to socio-cultural and artistic histories. Importance of certain artists and dance forms contextualized by major world events as seen through the geography of immigration. Perspectives from the Americas, Africa, the Middle East, and Asia. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**TRDA 2215. Intermediate Acting. 3 Credits.**

Students continue to develop acting techniques introduced in TRDA 1214 through scripted scene work. Students learn to make choices through text exploration, use various acting techniques to create characters and develop clear character relationships, and stage completed scenes. Prerequisite: TRDA 1214.

**TRDA 2240. Play Analysis. 3 Credits.**

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature; literary and theatrical techniques used by playwrights. Same as ENGL 2240.

**TRDA 2250. Dramatic Writing. 3 Credits.**

A workshop in playwriting and screenwriting, with emphasis on dramatic structure. Same as ENGL 2250. Recommended preparation: ENGL 1210 and two semesters of literature courses.

**TRDA 2339. Theatre Practicum. 1 Credit.**

Participation in department mainstage productions in a production or management capacity under the supervision of a member of the faculty. Prerequisite: TRDA 1330. After two practicums have been completed, participation may also include performance positions, for which TRDA 1214 is prerequisite. May be repeated for a total of 6 credits. Laboratory fee.

**TRDA 3131W. Theatre of Social Change. 3 Credits.**

Focuses on theatre of social change as practiced in the second half of the twentieth century and in the early twenty-first century; exploring additional case studies from South Africa, Europe, and the United States. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**TRDA 3157. Career Strategies for the Dance Artist. 3 Credits.**

Introduction to career opportunities in the performing arts, from performance to arts management. Students undertake a short-term, unpaid internship with a dance artist or dance organization in the greater Washington metropolitan area and design a project that supports advancement of their career goals.

**TRDA 3174. Advanced Modern/Postmodern Dance I. 2-3 Credits.**

May be repeated for credit. Laboratory fee. Prerequisites: TRDA 2173 or permission of the instructor.

**TRDA 3175. Advanced Modern/Postmodern Dance II. 2-3 Credits.**

Continuation of TRDA 3174. May be repeated for credit. Laboratory fee. Prerequisites: TRDA 3174 or permission of the instructor.

**TRDA 3182. Dance Composition I. 3 Credits.**

Problems in structural and conceptual aspects of constructing dances and shaping and forming movement materials. Laboratory fee. Prerequisite: TRDA 2180. Recommended background: TRDA 2185.

**TRDA 3183. Dance Composition II. 3 Credits.**

Continuation of TRDA 3182. Emphasis on intention and content in making dances. Prerequisite: TRDA 2180; recommended: TRDA 2185. Laboratory fee.

**TRDA 3186. Embodied Kinesis for Dance. 3 Credits.**

Exploration of bodies in movement through theoretical, experimental, and personal research; techniques for embodiment in the somatic arts. Laboratory fee.

**TRDA 3222. Topics in Advanced Acting. 3 Credits.**

The actor's approach to various styles and genres and to non-literary theatrical forms. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Studio fee. Prerequisite: TRDA 2215.

**TRDA 3240. Introduction to Dramaturgy. 3 Credits.**

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as ENGL 3240.

**TRDA 3245. History of the Theatre I. 4 Credits.**

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the seventeenth century.

**TRDA 3245W. History of the Theatre I. 3 Credits.**

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the seventeenth century. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**TRDA 3246. History of the Theatre II. 3 Credits.**

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The eighteenth century through the present.

**TRDA 3246W. History of the Theatre II. 3 Credits.**

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The eighteenth century through the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**TRDA 3250. Intermediate Dramatic Writing. 3 Credits.**

A workshop developing scripts for both theatre and film. Same as ENGL 3250. Prerequisite: ENGL 2250 or equivalent. May be repeated for credit with departmental approval.

**TRDA 3331. Introduction to Lighting. 3 Credits.**

Theories and practical application of lighting for theatre and dance. Laboratory fee. Prerequisite: TRDA 1330.

**TRDA 3332. Theatrical Makeup Design. 3 Credits.**

Theory and practice in the art of stage makeup design, including latex and crepe hair. Materials fee. Prerequisite: TRDA 1330.

**TRDA 3333. Stage Management. 3 Credits.**

The role and function of the stage manager in theatrical production. The basic skills needed to begin work in stage management. Emphasis on organization, documentation, and dissemination of information. Prerequisite: TRDA 1330. Laboratory fee.

**TRDA 3334. Introduction to Audio Design. 3 Credits.**

The basic elements of audio design and production through discussion, observation, and practical application. Laboratory required. Laboratory fee. Prerequisites: TRDA 1330.

**TRDA 3335. Introduction to Scene Design. 3 Credits.**

Fundamental study of scenic design, including historic overview, basic draw-ing, and rendering techniques, through the use of various mediums and script analysis. Laboratory fee. Prerequisite: TRDA 1330.

**TRDA 3336. Introduction to Costuming. 3 Credits.**

History of fashion in Western civilization from ancient Greece to the twentieth century. Fundamental study of costume construction through specific projects. Costume construction. Laboratory fee. Prerequisite: TRDA 1330.

**TRDA 3710W. Contemporary Drama. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**TRDA 4184. Choreography and Performance. 1-3 Credits.**

Create a dance or a performance work of individual design, including casting, rehearsal procedures, staging aspects, and public presentation. Prerequisite: TRDA 3182; recommended: TRDA 1330, TRDA 2185. May be repeated for credit. Laboratory fee.

**TRDA 4204. Personal Aesthetics II: The Environment. 3 Credits.**

This course fosters individual investigation of movement research and studio practice in order to develop an individual dance aesthetic. TRDA 6204 Personal Aesthetics – Environment (2-3) engages the artist/student in creative activities general related to alternative spaces and events related to “live” art, performance art, dance and related arts with less formal production/presentation elements. Prerequisites: M.F.A. candidacy or permission of instructor. (Same as TRDA 6204).

**TRDA 4275. Directing for the Theatre. 3 Credits.**

Fundamentals of script analysis, staging, casting, and rehearsal techniques. Laboratory fee. Prerequisites: TRDA 1214 and TRDA 1330; and TRDA 2240/ ENGL 2240 or TRDA 3240/ ENGL 3240.

**TRDA 4338. Scene Painting. 3 Credits.**

The techniques and materials used in creating character in the various elements of set design. Methods include set preparation, coating, mixing, palette preparation, spraying, transfer, texturing, finishing, and wallpapering. Prerequisite: TRDA 1330. Laboratory fee.

**TRDA 4595. Selected Topics. 1-3 Credits.**

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

**TRDA 4595W. Selected Topics. 1-3 Credits.**

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee.

**TRDA 4596. Independent Study. 1-6 Credits.**

Independent research and special projects. Open to qualified juniors or seniors majoring or minoring in theatre or dance. Before students are permitted to register for TRDA 4596, they must submit a written proposal of the plan of study and obtain approval of the faculty member who is directing the study and the department chair.

**TRDA 4597. Senior Project. 3 Credits.**

A capstone project related to the student's particular concentration. The project may be in the form of a performance, theoretical or realized design for the theatre, directorial project, playscript, stage management experience, dramaturgical project, choreographic project, or other approved area. Restricted to TRDA majors with senior standing.

**TRDA 4598. Internship. 3-6 Credits.**

Open to qualified seniors majoring or minoring in theatre or dance. Work placements with not-for-profit and commercial theatre and dance organizations for an approved number of hours per week. May be taken for a maximum of 6 credits. Restricted to permission from the department.

**TRDA 4599. Honors Thesis. 3 Credits.**

Directed research and/or creative project. Open to qualified seniors by permission. Arrangements must be made with a sponsoring faculty member in the department and applications must be completed early in the second semester of the junior year.

**TRDA 6200. Portfolio I: Performance. 1-5 Credits.**

Portfolio I: Performance Prerequisites: M.F.A. candidacy and permission of instructor.

**TRDA 6201. Personal Aesthetics I: The Body. 5 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6202. Contemporary Dance History and Criticism. 4 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6203. Portfolio II: Choreography/Creativity. 1-5 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6204. Personal Aesthetics II: The Environment. 2 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6205. Choreography. 4 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6206. Dance Pedagogy. 4 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6207. Portfolio III: Artistic Initiative. 1-5 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6208. New Media and Dance. 5 Credits.**

. Prerequisites: M.F.A. candidacy and permission of instructor.

**TRDA 6209. Cultural Communities of Dance. 4 Credits.**

Cultural Communities of Dance Prerequisites: M.F.A. candidacy and permission of instructor.

**TRDA 6210. Personal Aesthetics III: Integration. 4 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6211. Career Networks in Dance. 4 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6212. Portfolio Review I: Performance. 1-5 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6213. Portfolio Review II: Choreography/Creativity. 1-5 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6214. Portfolio Review III: Artistic Initiatives. 1-5 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6296. Research Project I. 4 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6299. Research Project II. 5 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6330. Materials and Methods. 3 Credits.**

Fundamentals of building materials, tools, fabrication techniques, and methodology used in modern stagecraft. Restricted to students in the MFA in production design program or with the permission of the instructor. Recommended background: basic knowledge of theatre production; TRDA1330.

**TRDA 6331. Intermediate Lighting Design. 3 Credits.**

Theory and execution of lighting design for theatre and dance. May be repeated for credit. Laboratory fee. Restricted to MFA candidates; permission of the instructor may be substituted.

**TRDA 6335. Intermediate Scene Design. 3 Credits.**

Development of advanced skills of scenic design, including script analysis, needs assessment, research techniques, conceptual design development, drawing and rendering techniques, preparation of construction documentation and fabrication management. Laboratory fee. Restricted to MFA candidates except by permission of the instructor.

**TRDA 6336. Intermediate Costume. 3 Credits.**

Basic techniques of costume design through specific projects. Various rendering techniques consistent with the historical period concerned. Laboratory fee. Restricted to MFA candidates; permission of the instructor may be substituted.

**TRDA 6338. Scene Painting. 3 Credits.**

Development the painting skills needed for the reproductive craft of theatrical painting. Restricted to MFA candidacy or permission of instructor.

**TRDA 6340. Period Styles. 3 Credits.**

A broad perspective of major European and American cultures through analysis of the interiors, furniture, textiles, fashion, and architecture of major civilizations and historical periods from Egypt to the present. Laboratory fee. Restricted to MFA candidates except by permission of the instructor.

**TRDA 6342. Pattern Making. 3 Credits.**

Pattern drafting and draping methods based on contemporary and historical clothing. Laboratory fee. Restricted to MFA candidacy or permission of instructor.

**TRDA 6344. Production Drafting. 3 Credits.**

Development of drafting skills for production. Ground plans and shop documents. Traditional hand drafting and computer assisted design. Laboratory fee. Restricted to MFA candidacy or permission of instructor.

**TRDA 6346. Advanced Studies in Design: Collaborative Studies. 3 Credits.**

Development of the skills needed to design and work within a collaborative or team-based environment through visual and verbal communication, script analysis, concept development, and research techniques. Laboratory fee. Restricted to MFA candidates or instructor's permission.

**TRDA 6348. Techniques in Design Presentation. 3 Credits.**

The various techniques used in costume and scenic design presentations, such as rendering with paint, pencil, ink, and electronic media. Restricted to MFA candidates; permission of instructor may be substituted.

**TRDA 6595. Selected Topics. 1-3 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See the Schedule of Classes for more details. Restricted to MFA candidates; permission of instructor may be substituted.

**TRDA 6596. Independent Research in TRDA. 1-12 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor. May be repeated for credit.

**TRDA 6598. Internship. 1-12 Credits.**

Internships with theatre companies or arts organizations, including conference and/or seminar. May be taken for a total of 9 credits. Prerequisites: M.F.A. candidacy and permission of the instructor.

**TRDA 6997. Production Design Practicum. 1 Credit.**

Guided advanced individual laboratory training and experience; planning and executing complex production assignments with an emphasis on the management of subordinate crew. MFA production design candidates enroll in this course each semester of their program. Restricted to MFA production design students or permission of the instructor.

**TRDA 6998. Thesis Research. 3 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

**TRDA 6999. Thesis Research. 3 Credits.**

Prerequisite: M.F.A. candidacy and permission of instructor.

# BACHELOR OF ARTS WITH A MAJOR IN DANCE

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
Production design		
3 credits from the following:		
TRDA 1330	Basics of Production Design	
Dance technique		
15 credits from the following:		
TRDA 1152	Beginning Modern/Postmodern Dance	
TRDA 1153	Beginning/Intermediate Modern/Postmodern Dance	
TRDA 1170	Intermediate Modern/Postmodern Dance I	
TRDA 1171	Intermediate Modern/Postmodern Dance II	
TRDA 2172	Intermediate/Advanced Modern/Postmodern Dance I	
TRDA 2173	Intermediate/Advanced Modern/Postmodern Dance II	
TRDA 3174	Advanced Modern/Postmodern Dance I	
TRDA 3175	Advanced Modern/Postmodern Dance II	
Creative process, performance, and theory		
17 credits from the following:		
TRDA 2180	Movement Improvisation/Performance	
TRDA 2185	Trends in Performance	
TRDA 2192	Repertory/Performance	
TRDA 3157	Career Strategies for the Dance Artist	
TRDA 3182	Dance Composition I	

TRDA 3183	Dance Composition II
TRDA 4184	Choreography and Performance
Elective credits in theatre and dance	
4 credits from the following:	
TRDA 1000	Dean's Seminar
TRDA 1015	Understanding the Dance
TRDA 1150	Beginning Ballet
TRDA 1151	Beginning/Intermediate Ballet
TRDA 2160	Intermediate Ballet
TRDA 2188	African Dance
TRDA 2189	World Dance
TRDA 2191	Dance History
or TRDA 2191WDance History	
TRDA 2193	Dance Styles I
TRDA 2194	Dance Styles II
TRDA 2195	Global Dance History
TRDA 2339	Theatre Practicum
TRDA 3186	Embodied Kinesis for Dance
TRDA 3331	Introduction to Lighting
TRDA 4204	Personal Aesthetics II: The Environment
TRDA 4595	Selected Topics
or TRDA 4595WSelected Topics	
TRDA 4596	Independent Study
TRDA 4598	Internship
TRDA 4599	Honors Thesis

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Theatre or Dance, students must have a grade-point average of 3.4 in the major and complete TRDA 4599 Honors Thesis with a grade of A. They must consult a faculty advisor at the beginning of the second semester of the junior year to determine eligibility, area of study, and the director of the research or creative project.

# BACHELOR OF ARTS WITH A MAJOR IN THEATRE

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (minimum of 39 credits):

Code	Title	Credits
<b>Required</b>		
TRDA 1214	Beginning Acting	
TRDA 1240	Performance Theory and Criticism	
TRDA 1330	Basics of Production Design	
TRDA 2339	Theatre Practicum (taken six times for a total of 6 credits)*	
TRDA 3131W	Theatre of Social Change	
TRDA 3240	Introduction to Dramaturgy	
TRDA 3245	History of the Theatre I	
or TRDA 3245W	History of the Theatre I	
TRDA 3246	History of the Theatre II	
or TRDA 3246W	History of the Theatre II	
TRDA 4275	Directing for the Theatre	
3 credits in design/technical theatre courses selected from the following:		
TRDA 3331	Introduction to Lighting	
TRDA 3332	Theatrical Makeup Design	
TRDA 3333	Stage Management	
TRDA 3334	Introduction to Audio Design	
TRDA 3335	Introduction to Scene Design	
TRDA 3336	Introduction to Costuming	
TRDA 4338	Scene Painting	
6 additional credits in the department selected from the following in consultation with the advisor:		
TRDA 2215	Intermediate Acting	
TRDA 2240	Play Analysis	

TRDA 2250	Dramatic Writing
or ENGL 2250	Dramatic Writing
TRDA 3222	Topics in Advanced Acting
TRDA 4595	Selected Topics
TRDA 4596	Independent Study
TRDA 4598	Internship
TRDA 4597	Senior Project
or TRDA 4599	Honors Thesis

\*The first three enrollments in TRDA 2339, totaling 3 credits, must be in production design.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Theatre, candidates must have a grade-point average of 3.4 in the major and complete TRDA 4599 Honors Thesis with a grade of A. They must consult with a faculty advisor at the beginning of the second semester of the junior year to determine eligibility, area of study, and the director of the research or creative project.

## MINOR IN DANCE

### REQUIREMENTS

The following requirements must be fulfilled: 18 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
Technique courses -- no more than 9 credits from the following:		
TRDA 1152	Beginning Modern/Postmodern Dance	
TRDA 1153	Beginning/Intermediate Modern/Postmodern Dance	
TRDA 1170	Intermediate Modern/Postmodern Dance I	
TRDA 1171	Intermediate Modern/Postmodern Dance II	
TRDA 2172	Intermediate/Advanced Modern/Postmodern Dance I	
TRDA 2173	Intermediate/Advanced Modern/Postmodern Dance II	

TRDA 3174	Advanced Modern/Postmodern Dance I
TRDA 3175	Advanced Modern/Postmodern Dance II
9 or more credits from the following:	
TRDA 1000	Dean's Seminar
TRDA 1015	Understanding the Dance
TRDA 1330	Basics of Production Design
TRDA 1150	Beginning Ballet
TRDA 1151	Beginning/Intermediate Ballet
TRDA 2160	Intermediate Ballet
TRDA 2161	Intermediate Ballet II
TRDA 2180	Movement Improvisation/Performance
TRDA 2185	Trends in Performance
TRDA 2188	African Dance
TRDA 2189	World Dance
TRDA 2191	Dance History
	or TRDA 2191WDance History
TRDA 2193	Dance Styles I
TRDA 2194	Dance Styles II
TRDA 2192	Repertory/Performance
TRDA 2195	Global Dance History
TRDA 2339	Theatre Practicum
TRDA 3157	Career Strategies for the Dance Artist
TRDA 3182	Dance Composition I
TRDA 3183	Dance Composition II
TRDA 3186	Embodied Kinesis for Dance
TRDA 3331	Introduction to Lighting
TRDA 4184	Choreography and Performance
TRDA 4204	Personal Aesthetics II: The Environment
TRDA 4595	Selected Topics
TRDA 4596	Independent Study
TRDA 4598	Internship

## MINOR IN THEATRE

### REQUIREMENTS

The following requirements must be fulfilled: 21 credits in required and elective courses.

Code	Title	Credits
<b>Required</b>		
TRDA 1330	Basics of Production Design	
TRDA 2339	Theatre Practicum	
TRDA 3245	History of the Theatre I	
or TRDA 3245W	History of the Theatre I	
TRDA 3246	History of the Theatre II	
or TRDA 3246W	History of the Theatre II	
Three additional courses (9 credits), at least one of which must be numbered 2000 or above, from the following (Other Corcoran School courses may be accepted through advance petition):		
TRDA 1035	Theatre Production	
TRDA 1214	Beginning Acting	
TRDA 1240	Performance Theory and Criticism	
TRDA 2215	Intermediate Acting	
TRDA 2240	Play Analysis	
TRDA 2250	Dramatic Writing	
or ENGL 2250	Dramatic Writing	
TRDA 3131W	Theatre of Social Change	
TRDA 3222	Topics in Advanced Acting	
TRDA 3240	Introduction to Dramaturgy	
or ENGL 3240	Introduction to Dramaturgy	
TRDA 3331	Introduction to Lighting	
TRDA 3332	Theatrical Makeup Design	
TRDA 3333	Stage Management	
TRDA 3334	Introduction to Audio Design	
TRDA 3335	Introduction to Scene Design	
TRDA 3336	Introduction to Costuming	
TRDA 4275	Directing for the Theatre	

TRDA 4338 Scene Painting

TRDA 4596 Independent Study

TRDA 4598 Internship

## MASTER OF FINE ARTS IN THE FIELD OF DANCE

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

60 credits in required courses.

Code	Title	Credits
<b>Required</b>		
TRDA 6200	Portfolio I: Performance	
TRDA 6201	Personal Aesthetics I: The Body	
TRDA 6202	Contemporary Dance History and Criticism	
TRDA 6203	Portfolio II: Choreography/Creativity	
TRDA 6204	Personal Aesthetics II: The Environment	
TRDA 6205	Choreography	
TRDA 6206	Dance Pedagogy	
TRDA 6207	Portfolio III: Artistic Initiative	
TRDA 6208	New Media and Dance	
TRDA 6209	Cultural Communities of Dance	
TRDA 6210	Personal Aesthetics III: Integration	
TRDA 6211	Career Networks in Dance	
TRDA 6296	Research Project I	
TRDA 6299	Research Project II	

#### Portfolio review

Up to 15 credits of accelerated placement for high-level work is possible through three portfolio review courses:

TRDA 6212	Portfolio Review I: Performance (for TRDA 6200)
TRDA 6213	Portfolio Review II: Choreography/Creativity (for TRDA 6203)

TRDA 6214 Portfolio Review III: Artistic Initiatives (for TRDA 6207)

A committee consisting of dance faculty and an outside professional administer the portfolio review, using a strict assessment rubric to assist students with tracking their growth and placement level. Students who qualify for the full 5 credits for any or all of the portfolio review courses (TRDA 6212 Portfolio Review I: Performance, TRDA 6213 Portfolio Review II: Choreography/Creativity, and TRDA 6214 Portfolio Review III: Artistic Initiatives) are not required to take the corresponding portfolio course (TRDA 6200 Portfolio I: Performance, TRDA 6203 Portfolio II: Choreography/Creativity, and TRDA 6207 Portfolio III: Artistic Initiative); students who receive fewer than 5 credits in any review courses must enroll for the remaining credits in the portfolio course(s). Visit the department website (<http://theatredance.gwu.edu>) for additional information.

## MASTER OF FINE ARTS IN THE FIELD OF PRODUCTION DESIGN

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

60 credits planned in consultation with the advisor.

The program of study consists of 60 credits of graduate and upper-division undergraduate coursework in theatre and dance and in art, planned in consultation with the advisor, including a creative thesis (TRDA 6998 Thesis Research and TRDA 6999 Dance Thesis Research). The program may emphasize scenery, lighting, costume, or other relevant production design concentrations. For listings of upper-division undergraduate courses, see the Undergraduate Programs Bulletin.

## UNIVERSITY WRITING

The University Writing Program (<http://www.gwu.edu/~uwp>) provides comprehensive writing instruction to all bachelor's degree-seeking students in all schools and colleges of the University. In their freshman year, undergraduate students take UW 1020 University Writing, which is offered in a variety of topic-specific sections. Students subsequently take two Writing in the Disciplines (WID) courses—regular, content-area courses of 3 or 4 credits that include a writing component and are offered by departments and programs throughout the University. Ideally, students complete WID courses during their sophomore and junior years. Courses indicated with “W” in the Schedule of Classes fulfill the WID University Writing Program requirements. WID courses must total a minimum of 6 credits.

## FACULTY

**Professor** R. Riedner (*Executive Director*)

**Associate Professors** L. Abrams, J. Donovan, C. Gamber, G. Mantler, D. Malone-France, M. Mullen, P. Ryder, C. Smith, A. Wilkerson

**Assistant Professors** J. Barlow, S. Friedman, C. Hayes, R. Kristensen, J. McCaughey, K. Quave, S. Salchak, H. Schell, M. Svoboda, P. Troutman, Z. Wolfe, C. Zink

**Specialized Faculty** W. Fletcher, K. Larsen, R. Marcus, D. Myers, P. Presser, M. Riley

**Adjunct Professors** L. Jacoby, L. McReynolds, R. Pollack, B. Tomilson

**Teaching Instructors** C. Bieda, E. Botts, A. Greenberg, L. Herer, E. Johnston, D. Lumans, M. Martinez, B. Miller, S. Pears, T. Ravy

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

**UW 1010. College Academic English. 3 Credits.**

**UW 1015. Writing Seminar Summer Scholars. 3 Credits.**

**UW 1020. University Writing. 4 Credits.**

University-level, independent research and writing. Learning to frame research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Developing strategies to draft and revise clear, engaging prose for a variety of purposes and audiences. Thematically oriented seminars; texts and course topics vary among instructors. For topics see [www.gwu.edu/~uwp/fyw/uw20-courses.html](http://www.gwu.edu/~uwp/fyw/uw20-courses.html).

**UW 2020. Advanced Topics in Writing. 3 Credits.**

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions.

**UW 2020W. Advanced Topics in Writing. 3 Credits.**

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**UW 2031. Equality and the Law. 3 Credits.**

Introduction to how lawyers and legal scholars research and write about specific disputes that arise in the context of complex social issues. The institutional assumptions about the content and style of legal writings. Briefs, legal memoranda, law review articles, resolutions, and many other specialized legal writing forms.

**UW 2031W. Equality and the Law. 3 Credits.**

Introduction to how lawyers and legal scholars research and write about specific disputes that arise in the context of complex social issues. The institutional assumptions about the content and style of legal writings. Briefs, legal memoranda, law review articles, resolutions, and many other specialized legal writing forms. Include a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**UW 2111. Preparation for Peer Tutors in Writing. 3 Credits.**

For undergraduates accepted as tutors in the Writing Center: study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Limited to 15 students.

**UW 2111W. Preparation for Peer Tutors in Writing. 3 Credits.**

For undergraduate students accepted as tutors in the Writing Center. Study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Corequisite: UW 2112. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**UW 2112. Preparation for Peer Tutors in Writing Lab. 1 Credit.**

Through required hours scheduled at the Writing Center, students observe and interview peer tutors and conduct peer tutoring sessions to gain experience working with a range of student texts from multiple disciplines across the University, assist peer writers working on a variety of genres, and develop writing consulting techniques from best practices in the field. Concurrent enrollment in UW 2111W is required. Restricted to undergraduate students accepted as tutors in the Writing Center.

## WOMEN'S, GENDER, AND SEXUALITY STUDIES

---

Part of the Columbian College of Arts and Sciences' arts and humanities programs, the Women's, Gender, and Sexuality Studies program examines women's lives, literature, histories, and cultures through the lens of feminist theory and practice, establishing gender and sexuality as fundamental categories of analysis. Gender and sexuality are examined as they intersect with race, class, nationality, and ethnicity. The program strengthens a student's ability to gain knowledge of contemporary feminist theories and research methods, and provides interdisciplinary perspectives from which to study the diversity of the human experience. Classroom study is supplemented by the diverse resources of the nation's capital.

Visit the Women's, Gender, and Sexuality Studies Program website (<https://wgss.columbian.gwu.edu>) for additional information.

## UNDERGRADUATE

### Bachelor's programs

- Bachelor of Arts with a major in women's, gender, and sexuality studies (p. 424)

### Combined programs

- Dual Bachelor of Arts with a major in women's, gender, and sexuality studies and Master of Arts in the field of women's, gender, and sexuality studies (p. 426)
- Dual Bachelor of Arts with a major in women's, gender, and sexuality studies and Master of Arts in the field of public policy-women's, gender, and sexuality studies degree programs. (p. 426)

### Minors

- Minor in LGBT and sexuality studies (p. 426)
- Minor in women's, gender, and sexuality studies (p. 427)

## GRADUATE

### Master's programs

- Master of Arts in the field of public policy with a concentration in women's, gender, and sexuality studies (p. 427)
- Master of Arts in the field of women's, gender, and sexuality studies (p. 428)

## CERTIFICATE

### Certificate program

- Graduate certificate in women's, gender, and sexuality studies (p. 429)

## FACULTY

**Associate Professors:** K. Daiya (*Director*), C. Deitch, C. Heap, D. Moshenberg, K. Pemberton, R. Riedner

**Assistant Professors:** S. Matthiesen, E. Strader

**Executive Committee:** A. Ahmad, N. Blyden, E. Chapman, C. Deitch, C. Heap, I. Ken, S. Matthiesen, R. McRuer, D. Moshenberg, K. Pemberton, R. Riedner, E. Strader, G. Weiss

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Excluding students enrolled in the Women's, Gender, and Sexuality Studies Program, completion of WGSS 2120 and WGSS 2125 or equivalent, or permission of instructor, is prerequisite to all graduate-level women's studies courses.

#### **WGSS 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details.

#### **WGSS 1020. Approaches to Women's History. 3 Credits.**

Introduction to major methodological and conceptual debates in women's and gender history, focusing on the United States. (Same as HIST 1020).

#### **WGSS 2120. Introduction to Women's, Gender, and Sexuality Studies. 3 Credits.**

Key concepts, theories, and perspectives in women's studies, placing women's experiences at the center of interpretation; historical and contemporary perspectives on women's lives, experiences, and thoughts and how gender interacts with race, class, religion, sexual orientation, culture, and politics.

**WGSS 2120W. Introduction to Women's, Gender, and Sexuality Studies. 3 Credits.**

A multidisciplinary examination of historical conditions, cultural norms, and social institutions that define women, gender and sexuality in different cultures. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**WGSS 2121. The Anthropology of Gender: Cross-Cultural Perspectives. 3 Credits.**

Anthropological representations of gender relations in "other" cultures have provided important case material for feminist theorizing of sex differences and gender roles and statuses. How a cross-cultural approach can inform our understanding of gender. (Same as ANTH 2501).

**WGSS 2125. Varieties of Feminist Theory. 3 Credits.**

Classical and contemporary texts on feminist explanations of women's status. Relationships within the sex/gender system and arrangements based on class and race. Evaluation, through the lens of feminist theory, of several academic disciplines in the sciences, social sciences, and humanities. Prerequisites: WGSS 1020 or WGSS 2120.

**WGSS 2135. A Study of Women and Media. 3 Credits.**

The role media plays in women's lives; limits and effects of a "dominant" media; representations of women in print media and television, especially advertising, and in books and film; how women have attempted to articulate a culture that serves their personal, political, and social interests.

**WGSS 2225. Philosophy of Race And Gender. 3 Credits.**

Differing theoretical perspectives on how race, sexuality, gender, class, and ethnicity inform (and re-form) individual as well as group identities; consequences of being marginalized because one is associated with an allegedly inferior race, sex, and/or gender. (Same as PHIL 2125).

**WGSS 2380. Sexuality in U.S. History. 3 Credits.**

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. (Same as AMST 2380, HIST 2380).

**WGSS 2385. Sex and Citizenship. 3 Credits.**

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics.

**WGSS 2385W. Sex and Citizenship. 3 Credits.**

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same AMST 2385W.

**WGSS 3136. Chinese Women in Myth, Literature, and Film. 3 Credits.**

Women's position in Chinese cultural and political life from prehistoric myth to the present time. Conducted in English. (Same as CHIN 3136).

**WGSS 3136W. Chinese Women in Myth, Literature, and Film. 3 Credits.**

Women's position in Chinese cultural and political life from prehistoric myth to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Taught in English. (Same as CHIN 3136W, WGSS 3136).

**WGSS 3170. Special Topics in Women's, Gender, and Sexuality Studies. 1-3 Credits.**

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

**WGSS 3170W. Selected Topics. 1-3 Credits.**

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**WGSS 3195. Undergraduate Research. 1-3 Credits.**

A written proposal approved by the faculty member who supervises the research is required prior to registration.

**WGSS 3235. Women and the Law. 3 Credits.**

Contemporary legal issues that affect women in the United States; theories and documents relevant to issues such as violence against women, marriage and divorce, employment, immigration, and reproductive rights.

**WGSS 3352. U.S. Women's History to 1865. 3 Credits.**

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as AMST 3352, HIST 3352).

**WGSS 3352W. U.S. Women's History to 1865. 3 Credits.**

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same as AMST 3352W/HIST 3352W.

**WGSS 3353. U.S. Women's History II. 3 Credits.**

Continuation of WGSS 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. (Same as AMST 3353, HIST 3353).

**WGSS 3362. African American Women's History. 3 Credits.**

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. (Same as AMST 3362, AMST 3362W, HIST 3362, HIST 3362W, WGSS 3362W).

**WGSS 3362W. African American Women's History. 3 Credits.**

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 3362W, AMST 3362W).

**WGSS 3410. Lesbian History and Culture. 3 Credits.**

Examination of lesbian identity, community, and legal rights from a scholarly feminist perspective.

**WGSS 3435. Queer Politics. 3 Credits.**

The history of lesbian, gay, bisexual, transgender, and queer (LGBTQ) politics in the United States; influences and intersections of race and ethnicity, class, gender identity and expression, sexuality, sex, and age; contemporary policy debates relevant to queer politics.

**WGSS 3470. Sexuality and the Law. 3 Credits.**

Exploration of the ways in which the law has affected individuals' ability to express their sexuality, with a primary focus on sexual orientation and issues such as marriage, adoption, voting rights, sexual harassment, and military service.

**WGSS 3481. Women in Islam. 3 Credits.**

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. (Same as REL 3481).

**WGSS 3530. Women in Africa. 3 Credits.**

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. (Same as WGSS 3530W, HIST 3530, HIST 3530W).

**WGSS 3530W. Women in Africa. 3 Credits.**

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as WGSS 3530, HIST 3530, HIST 3530W).

**WGSS 3820. Global Domestic Labor. 3 Credits.**

Consideration of women's paid and unpaid domestic labor, including care work, in the context of global and globalizing political and cultural economies.

**WGSS 3845. Global Women's Prison. 3 Credits.**

Examination of women's confinement and incarceration in the context of global and globalizing political and cultural economies.

**WGSS 3881. Women, Gender, and Religion in China. 3 Credits.**

Historical introduction to women and men as gendered subjects and the construction of gender and power in Chinese religions. May be taken for graduate credit with extra work assigned. (Same as EALL 3881, REL 3881).

**WGSS 3890W. Black Women in the Twenty-First Century. 3 Credits.**

An interdisciplinary approach to critical inquiry into the scholarship on, and status of, Black women in North America, the Caribbean, Latin America, and Africa in the twenty-first century; historical, national, and transnational linkages between Black women; responses to intersectionality; analyses, strategies, and actions being deployed by and about Black women in action and scholarship. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**WGSS 3981. Women in Western Religion. 3 Credits.**

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity. Special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. (Same as REL 2981).

**WGSS 4183. Practicum in Women's, Gender, and Sexuality Studies. 3 Credits.**

Study of the changing status of women, gender, sexuality and social change through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Usually for seniors. Placement arrangements must be made the semester prior to registration; departmental permission is required.

**WGSS 4199. Senior Seminar. 3 Credits.**

Examination and analysis of the writings of contemporary scholars and writers whose work provides critical frameworks for feminist scholarship and research. Restricted to juniors and seniors.

**WGSS 6220. Fundamentals of Feminist Theory. 3 Credits.**

Historical theories significant to feminist thought, such as liberalism, socialism, evolution, psychoanalysis, and gendered spheres of social action; how these theories were revived and revised by the second wave of feminism since the 1960s; brief examination of postmodernist and third-wave feminist theorizing.

**WGSS 6221. Research Issues in Women's, Gender, and Sexuality Studies. 3 Credits.**

The contribution of feminist or gender-relations perspectives from humanities and social science disciplines to the issues and methods of social research, policy, and practice; feminist frameworks; critique and re-evaluation of traditional academic disciplines; and analysis of current research on women, gender, and sexuality.

**WGSS 6225. Contemporary Feminist Theory. 3 Credits.**

Recent developments in feminist theory, with a primary focus on feminism in the United States and its relationship to queer theory and sexuality studies.

**WGSS 6230. Global Feminisms. 3 Credits.**

The individuals, groups, and policies that shape global agenda for women; local and international fora in which global feminisms are forged.

**WGSS 6238. Feminist Ethics and Policy Implications. 3 Credits.**

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems (e.g., respecting cultural differences, dependency, disability). Prerequisites: PHIL 2125 or PHIL 2131. (Same as PHIL 6238).

**WGSS 6240. Gender and Public Policy. 3 Credits.**

Analysis of gender-related policy issues, primarily in the United States, such as domestic violence, military service, abortion rights, equal employment opportunity, child and dependent care, welfare, social security, and international development assistance.

**WGSS 6241. Gender, Law, and Politics. 3 Credits.**

The treatment of gender in U.S. law and its implications for public policy; factors that influence the ways in which individuals view and encounter the law; discrimination in the workplace and educational institutions, single-sex education, domestic violence, same-sex marriage, and reproductive rights and responsibilities; legal analysis, and public policy writing. Restricted to graduate students; open to upper-level undergraduates on a case-by-case basis.

**WGSS 6251. Women and Writing. 3 Credits.**

Selected topics in the traditions, theory, and texts of women's literary production and culture.

**WGSS 6257. Gender and Sexuality. 3 Credits.**

Study of new theoretical and methodological approaches developed in the anthropology of gender; postcolonialism, sexuality, and literary representations of gender. (Same as ANTH 6501).

**WGSS 6265. Women, Welfare, and Poverty. 3 Credits.**

How the causes and consequences of poverty differ for women and men; how race, class, and gender shape policy responses to poverty. The history of family assistance policy in the United States and the impact of various welfare reform efforts. (Same as SOC 6265).

**WGSS 6266. Gender and Criminal Justice. 3 Credits.**

How understandings, practices, and theories of gender shape the workings of criminal justice systems, including issues of criminality and responses to crime, victimization and violence, and definitions of illegal behaviors. (Same as SOC 6266).

**WGSS 6268. Race, Gender, and Class. 3 Credits.**

How social structures are constructed through race, gender, and class and how they shape experience; the intersections of race, gender, and class in education, science, politics, labor markets, and social welfare policies. (Same as SOC 6268).

**WGSS 6270. Seminar: Selected Topics. 3 Credits.**

Investigation of a current policy issue of particular concern to women, or consideration of women's status in a particular social system. Topics have included women and health; sexualities; women and Judaism; black women; gender, race, and class. May be repeated for credit.

**WGSS 6271. Gender and Society. 3 Credits.**

Current empirical and theoretical work on gender as an organizing principle of social relations; the relationship of gender to sex and sexuality. (Same as SOC 6271).

**WGSS 6280. Independent Study. 3 Credits.**

May be repeated for credit. Arrangements must be made with sponsoring faculty member prior to registration.

**WGSS 6283. Practicum in Women's, Gender and Sexuality Studies. 3,6 Credits.**

Study of the changing status of women, gender, sexuality, and social change through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Placement arrangements must be made the semester prior to registration; departmental permission is required. Graduate students may take the course for either 3 or 6 credits, with substantial additional research and writing of a case study required for 6 credits. (Same as WGSS 4183).

**WGSS 6295. Independent Research in Women's Studies. 1-3 Credits.**

Individual library or field research. Arrangements must be made with the sponsoring faculty member prior to registration; a written proposal is required.

**WGSS 6430. Gender, Sexuality, and American Culture I. 3 Credits.**

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-Columbian settlement to 1876. Same as AMST 6430/ HIST 6430.

**WGSS 6431. Gender, Sexuality, and American Culture II. 3 Credits.**

Continuation of WGSS 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/ HIST 6431.

**WGSS 6435. Readings on Women in American History. 3 Credits.**

Important works in American women’s history; evolution of the field in historiographical context. Same as AMST6435/HIST 6435.

**WGSS 6998. Thesis Research. 3 Credits.**

.

**WGSS 6999. Thesis Research. 3 Credits.**

.

**WGSS 8275. Women and Health. 3 Credits.**

Theoretical and empirical analyses of women’s health: how women’s health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women’s health problems; and identification of conditions that lead to optimal health and well-being. (Same as PSYC 8275).

**BACHELOR OF ARTS WITH A MAJOR IN WOMEN’S, GENDER, AND SEXUALITY STUDIES**

**REQUIREMENTS**

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
<b>Required</b>		
WGSS 2120	Introduction to Women’s, Gender, and Sexuality Studies	
or WGSS 2120W	Introduction to Women's, Gender, and Sexuality Studies	
WGSS 2125	Varieties of Feminist Theory	
or AMST 2125	Varieties of Feminist Theory	
WGSS 4199	Senior Seminar	
One course from each of the following five groups:		
Race, ethnicity, and class		
AMST 2410	Twentieth Century U.S. Immigration	

or HIST 2410	Twentieth-Century U.S. Immigration
AMST 3360	African American History to 1865
or HIST 3360	African American History to 1865
AMST 3361	African American History Since 1865
or HIST 3361	African American History Since 1865
ENGL 1610	Introduction to Black American Literature I
or ENGL 1610W	Introduction to Black American Literature I
ENGL 1611	Introduction to Black American Literature II
or ENGL 1611W	Introduction to Black American Literature II
ENGL 3570	Nineteenth-Century Black Literature
ENGL 3960	Asian American Literature
or ENGL 3960W	Asian American Literature
PHIL 2125	Philosophy of Race and Gender
or PHIL 2125W	Philosophy of Race and Gender
WGSS 3362	African American Women's History
or WGSS 3362W	African American Women's History
or AMST 3362	African American Women's History
or AMST 3362W	African American Women's History
or HIST 3362	African American Women’s History
or HIST 3362W	African American Women’s History

Global/transnational	
ENGL 1710	Introduction to Postcolonial Literature and Film I
or ENGL 1710W	Introduction to Postcolonial Literature and Film I
ENGL 1711	Introduction to Postcolonial Literature and Film II
or ENGL 1711W	Introduction to Postcolonial Literature and Film II
ENGL 3730	Topics in Global Postcolonial Literature and Film
or ENGL 3730W	Topics in Global Postcolonial Literature and Film

SPAN 3570	Women Writers of Spain and Latin America
WGSS 2121	The Anthropology of Gender: Cross-Cultural Perspectives
or ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives
WGSS 3136	Chinese Women in Myth, Literature, and Film
or WGSS 3136W	Chinese Women in Myth, Literature, and Film
or CHIN 3136	Chinese Women in Myth, Literature, and Film
or CHIN 3136W	Chinese Women in Myth, Literature, and Film
WGSS 3481	Women in Islam
or REL 3481	Women in Islam
WGSS 3530	Women in Africa
or HIST 3530	Women in Africa
WGSS 3820	Global Domestic Labor
WGSS 3845	Global Women's Prison
WGSS 3881	Women, Gender, and Religion in China
or EALL 3881	Women, Gender, and Religion in China
or REL 3881	Women, Gender, and Religion in China
<b>Sexualities</b>	
ENGL 3910	Disability Studies
ENGL 3980	Queer Studies
or ENGL 3980W	Queer Studies
WGSS 2380	Sexuality in U.S. History
or HIST 2380	Sexuality in U.S. History
or AMST 2380	Sexuality in U.S. History
WGSS 3410	Lesbian History and Culture
WGSS 3435	Queer Politics
WGSS 3470	Sexuality and the Law
<b>Humanities</b>	
ENGL 3730	Topics in Global Postcolonial Literature and Film
or ENGL 3730W	Topics in Global Postcolonial Literature and Film

ENGL 3840	Gender and Literature
or ENGL 3840W	Gender and Literature
ENGL 3980	Queer Studies
or ENGL 3980W	Queer Studies
PHIL 2125	Philosophy of Race and Gender
or PHIL 2125W	Philosophy of Race and Gender
SPAN 3570	Women Writers of Spain and Latin America
WGSS 1020	Approaches to Women's History
or HIST 1020	Approaches to Women's History
WGSS 2135	A Study of Women and Media
WGSS 2380	Sexuality in U.S. History
or AMST 2380	Sexuality in U.S. History
or HIST 2380	Sexuality in U.S. History
WGSS 3136	Chinese Women in Myth, Literature, and Film
or WGSS 3136W	Chinese Women in Myth, Literature, and Film
or CHIN 3136W	Chinese Women in Myth, Literature, and Film
WGSS 3352	U.S. Women's History to 1865
or WGSS 3352W	U.S. Women's History to 1865
or AMST 3352	U.S. Women's History to 1865
or AMST 3352W	U.S. Women's History to 1865
or HIST 3352	U.S. Women's History to 1865
or HIST 3352W	U.S. Women's History to 1865
WGSS 3353	U.S. Women's History II
or AMST 3353	U.S. Women's History II
or HIST 3353	U.S. Women's History II
WGSS 3362	African American Women's History
or WGSS 3362W	African American Women's History
or AMST 3362	African American Women's History
or AMST 3362W	African American Women's History
or HIST 3362	African American Women's History
or HIST 3362W	African American Women's History

# DUAL BACHELOR'S AND MASTER'S PROGRAMS IN WOMEN'S, GENDER, AND SEXUALITY STUDIES

The Department of Women's, Gender, and Sexuality Studies offers two options for a dual bachelor's/master's degree:

- Bachelor of Arts with a major in women's, gender, and sexuality studies (p. 424) and Master of Arts in the field of women's, gender, and sexuality studies (p. 428)
- Combined Bachelor of Arts/Master of Arts in Public Policy, Women's, Gender, and Sexuality Studies Concentration (<https://wgss.columbian.gwu.edu/combined-bama-public-policy-womens-gender-and-sexuality-studies-concentration>)

The program allows students to take up to 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://wgss.columbian.gwu.edu/combined-degree-bama>) for additional information.

## MINOR IN LGBT AND SEXUALITY STUDIES

### REQUIREMENTS

The following requirement must be fulfilled: 18 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
At least two courses (6 credits) from the following:		
WGSS 2120	Introduction to Women's, Gender, and Sexuality Studies	
or WGSS 2120W	Introduction to Women's, Gender, and Sexuality Studies	
WGSS 2380	Sexuality in U.S. History	
or AMST 2380	Sexuality in U.S. History	
or HIST 2380	Sexuality in U.S. History	
ENGL 3830	Topics in Literary Theory and Cultural Studies	
or ENGL 3830W	Topics in Literary Theory and Cultural Studies	

WGSS 3481	Women in Islam
or REL 3481	Women in Islam
WGSS 3530	Women in Africa
or HIST 3530	Women in Africa
WGSS 3981	Women in Western Religion
or REL 2981	Women in Western Religion
<b>Social science</b>	
ANTH 3504	Illness, Healing, and Culture
ANTH 3507	Kinship, Family, and Community
ANTH 3513	Anthropology of Human Rights
or ANTH 3513W	Anthropology of Human Rights
PSC 2225	Women and Politics
PSYC 2550	Psychology of Sex Differences
SOC 2175	Sociology of Sex and Gender
or SOC 2175W	Sociology of Sex and Gender
WGSS 2121	The Anthropology of Gender: Cross-Cultural Perspectives
or ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives
WGSS 4183	Practicum in Women's, Gender, and Sexuality Studies

### Electives

Three additional courses (9 credits) from any of the above lists, any women's, gender, and sexuality studies (WGSS) course, or courses approved by an advisor.

No one course may count for more than one category.

At least 27 of the required 33 credits must be taken in courses at the 2000 level or above.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must attain a minimum grade-point average of 3.7 in courses counted for the Women's, Gender, and Sexuality Studies major and 3.3 overall; receive a grade of A in WGSS 4199; and submit an honors paper to the Program. Upon faculty review of the honors paper, students may be recommended for graduation with Special Honors.

ENGL 3980	Queer Studies
or ENGL 3980W	Queer Studies
Four additional courses (12 credits) chosen from the courses listed above or from the following:	
ENGL 3840	Gender and Literature
or ENGL 3840W	Gender and Literature
PHIL 2125	Philosophy of Race and Gender
or PHIL 2125W	Philosophy of Race and Gender
PSYC 2550	Psychology of Sex Differences
SOC 2175	Sociology of Sex and Gender *
WSTU 2121	The Anthropology of Gender: Cross-Cultural Perspectives
or ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives
WGSS 3410	Lesbian History and Culture
WGSS 3435	Queer Politics
WGSS 3470	Sexuality and the Law

\*Course requires prerequisites or permission of instructor.

**Note:** No more than two courses (6 credits) may count towards a student's major and the LGBT and sexuality studies minor.

# MINOR IN WOMEN'S, GENDER, AND SEXUALITY STUDIES

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
WGSS 2120	Introduction to Women's, Gender, and Sexuality Studies	
or WGSS 2120W	Introduction to Women's, Gender, and Sexuality Studies	
WGSS 2125	Varieties of Feminist Theory	
or AMST 2125	Varieties of Feminist Theory	
<b>Electives</b>		

Four additional courses (12 credits), which may include WGSS courses, any of the courses listed below, or courses approved by an advisor. At least three courses (9 credits) must be at the 2000-level or above.

ENGL 3560	American Realism
or ENGL 3560W	American Realism
ENGL 3730	Topics in Global Postcolonial Literature and Film
or ENGL 3730W	Topics in Global Postcolonial Literature and Film
ENGL 3840	Gender and Literature
or ENGL 3840W	Gender and Literature
PHIL 2125	Philosophy of Race and Gender
or PHIL 2125W	Philosophy of Race and Gender
PSC 2225	Women and Politics
PSYC 2550	Psychology of Sex Differences
SPAN 3570	Women Writers of Spain and Latin America
SOC 2175	Sociology of Sex and Gender

# MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN WOMEN'S, GENDER, AND SEXUALITY STUDIES

## OVERVIEW

Along with courses in feminist theory and empirical knowledge about women, gender, and sexuality in the United States and around the world, students take at least four policy courses in the GW Trachtenberg School of Public Policy and Public Administration. Through the program's interdisciplinary curriculum, students learn to analyze policies and structures of power, particularly as they are grounded in gender, race, sexuality, ethnicity and nationality.

Graduates of the program apply their knowledge and skills to careers in government and as teachers, researchers, lobbyists, public affairs specialists, and advocacy organizations staff members; approximately one-third of program graduates go on to earn doctoral or other professional degrees. Credits earned in this program may be applied toward the PhD in public policy, gender and social policy

(<https://womensstudies.columbian.gwu.edu/phd-public-policy-gender-and-social-policy>) degree program.

Visit the program website (<https://womensstudies.columbian.gwu.edu/masters-program>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

36 credits. Students must complete either a thesis or practicum and a master's comprehensive examination.

Code	Title	Credits
<b>Required (36 credits of coursework with or without a thesis)</b>		
WGSS 6220	Fundamentals of Feminist Theory	
WGSS 6240	Gender and Public Policy	
WGSS 6221	Research Issues in Women's, Gender, and Sexuality Studies	
Public Policy Core		
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6003	Economics for Public Decision Making	
PPPA 6006	Policy Analysis	
And one of the following: an additional PPPA course, PHIL 6230, PHIL 6242, WGSS 6265, or SOC 6265.		
<b>6 credits from one of the following options:</b>		
WGSS 6283	Practicum in Women's, Gender and Sexuality Studies	
or		
WGSS 6283 & WGSS 6295	Practicum in Women's, Gender and Sexuality Studies and Independent Research in Women's, Gender, and Sexuality Studies	
or		
WGSS 6998 & WGSS 6999	Thesis Research and Thesis Research	
<b>Electives (9 credits)</b>		

All candidates are required to pass a Master's Comprehensive Examination

This program is affiliated with the Trachtenberg School of Public Policy and Public Administration (<https://tspppa.gwu.edu>).

## MASTER OF ARTS IN THE FIELD OF WOMEN'S, GENDER, AND SEXUALITY STUDIES

### OVERVIEW

A master's degree program in women's, gender, and sexuality studies offers a grounding in both feminist theory and empirical knowledge about the condition of women in the United States and around the world. Students may tailor an interdisciplinary program to meet a wide array of interests in either applied women's, gender, and sexuality studies or in advanced interdisciplinary or discipline-based scholarship.

Graduates of the program apply their knowledge and skills to careers in government and as teachers, researchers, lobbyists, public affairs specialists, and advocacy organizations staff members; approximately one-third of program graduates go on to earn doctoral or other professional degrees.

Visit the program website (<https://womensstudies.columbian.gwu.edu/masters-program>) for additional information.

### REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

The following requirements must be fulfilled: 36 credits, including 15 credits in required courses and 21 credits in elective courses. Successful completion of a comprehensive examination is also required.

Code	Title	Credits
<b>Required</b>		
WGSS 6220	Fundamentals of Feminist Theory	
WGSS 6221	Research Issues in Women's, Gender, and Sexuality Studies	
WGSS 6225	Contemporary Feminist Theory	
6 credits from one of the following options:		
WGSS 6283	Practicum in Women's, Gender and Sexuality Studies	

or

WGSS 6283 & WGSS 6295	Practicum in Women's, Gender and Sexuality Studies and Independent Research in Women's, Gender, and Sexuality Studies
--------------------------	---

or

WGSS 6998 & WGSS 6999	Thesis Research and Thesis Research (taken for 3 credits each)
--------------------------	--

### Electives

With the advisor's approval, students develop a four-course (12 credit) concentration. In addition, they take three elective courses (9 credits) that may or may not be related to their chosen concentration.

All candidates are required to pass a Master's Comprehensive Examination

\*Another course may be substituted with the advisor's approval.

## GRADUATE CERTIFICATE IN WOMEN'S, GENDER, AND SEXUALITY STUDIES

### OVERVIEW

The graduate certificate in women's, gender, and sexuality studies is offered to students currently enrolled in MA and PhD degree programs at GW other than women's studies and to qualified non-degree students who have at least a bachelor's degree. The program provides students with an opportunity to think and learn about gender in a systematic and integrated manner from a variety of methodological approaches. The certificate is designed to provide an interdisciplinary course of study on women and gender to enrich a student's disciplinary or professional training.

Visit the program website (<https://womensstudies.columbian.gwu.edu/graduate-certificate-womens-gender-and-sexuality-studies>) for additional information.

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
------	-------	---------

#### Required

WGSS 6220	Fundamentals of Feminist Theory
-----------	---------------------------------

WGSS 6221	Research Issues in Women's, Gender, and Sexuality Studies
-----------	---

### Electives

6 credits in elective courses selected from graduate-level Women's, Gender, and Sexuality Studies (WGSS) courses and/or courses from other departments in consultation with the advisor.

# SCHOOL OF BUSINESS

**Dean** A. Mehrotra

**Associate Deans** V. Choudhury, G. Jabbour, L. Moersen, V. Perry, L. Riddle

The School of Business was founded in 1928 on the premise that business and government might become partners in promoting national prosperity and international development. Initially known as the School of Government, with degree programs that integrated business and politics at national and international levels, the School of Business has a history of professional development of individuals assuming leadership roles in society. The School has eight departments—Accountancy, Decision Sciences, Finance, Information Systems and Technology Management, International Business, Management, Marketing, and Strategic Management and Public Policy. The use of a multidisciplinary approach in educational programming helps prepare both the generalist and specialist for professional careers in today's complex organizational society.

The School of Business's undergraduate and graduate programs in business administration and accounting are accredited by AACSB International.

## Mission Statement

The mission of the School of Business is to have a lasting intellectual impact by offering quality education through innovative programs that provide theoretical frameworks and real-world learning experiences; engaging in rigorous scholarship that advances knowledge in the management of organizations in the global environment; and contributing as a local, national, and global citizen. The School accomplishes this within a community built upon respect, integrity, and active engagement.

## Vision

The School of Business sets itself apart as a thought leader at the nexus of the private, public, and nonprofit sectors. Recognized for advancing knowledge on the role of organizations in the global arena, its graduates possess the multidisciplinary knowledge, critical-thinking skills, and ethical standards to make a positive impact on economies and societies.

## Strategic Goals

The School of Business's strategic goals address three themes; enhancing global focus, leveraging location, and creating multidisciplinary opportunities:

- The School seeks to enhance its global focus, encouraging prosperity globally by leveraging existing strengths and building on the School's significant global reputation and reach.
- The School leverages its location by developing competitive advantage and differentiation, building on the distinctive

capabilities associated with the School's unique position in the heart of the nation's capital.

- The School creates multidisciplinary opportunities, advancing innovation and the School's impact on economies and societies by being a catalyst for cross-functional programs and research that create new prospects for students and cutting-edge research.

## Educational Goals

The School of Business offers a distinctive educational experience to prepare global business leaders through a portfolio of niche programs that emphasize academic rigor, learning outcomes, and teaching excellence in both delivery and content.

### Intellectual Contribution Goal

The School of Business engages in scholarly research that contributes to the body of knowledge related to improving the management and performance of organizations.

### Service and Outreach Goal

The School of Business engages as citizen-leaders in the communities of which it is a part.

## REGULATIONS

---

## Undergraduate Programs

At the undergraduate level, the GW School of Business (GWSB) offers programs leading to the degrees of bachelor of accountancy (BAccy), bachelor of business administration (BBA), and bachelor of science (BS). The programs include

foundational knowledge for business in accounting, economics, mathematics, and statistics. Program curricula are designed to provide perspectives on ethical and global issues, the influence of political, social, legal and regulatory, environmental, and technological issues, and the impact of demographic diversity on organizations. BBA students select a field of concentration from among accountancy; business analytics; business economics and public policy; finance; information systems and technology management; innovation and entrepreneurship; international business; marketing; sport, event, and hospitality management; or, with faculty approval, may structure an individualized field of concentration reflecting a specific interest in management. Additionally, a minor in a non-business field is required. The BS program integrates the University's emphasis on interdisciplinary study at the undergraduate level by requiring one major (Finance) in the School of Business and a second major in a non-business field. Students must apply and be admitted to this competitive program.

## Advising

The GWSB Advising Center (<https://business.gwu.edu/current-students/undergraduate/advising-center>) operates under a team advising model, where students can schedule appointments with a professional advisor of their choice. Advisors empower students to take ownership of and responsibility for their educational experience. Students partner with advisors to successfully navigate their academic careers through conversations that range from understanding University and School requirements, exploring degree and major possibilities, overcoming academic challenges, setting goals, and finding appropriate campus resources.

Students should meet with a GWSB advisor each semester so that they remain on track for fulfilling all degree requirements. To help ensure academic success, students also are encouraged to build a support system that includes professors, faculty mentors, professional advisors, tutors, and/or counselors. In addition, assistance is available through the Division of Student Affairs (<http://students.gwu.edu>), Mental Health Services (<http://counselingcenter.gwu.edu>), Multicultural Student Services Center (<https://mssc.gwu.edu>), International Services Office (<http://internationalservices.gwu.edu>), and Writing Center (<http://writingprogram.gwu.edu/writing-center>).

## Graduation Requirements

A student must achieve the following in order to graduate:

1. A minimum of 120 credits;
2. A minimum overall grade-point average of 2.0
3. A grade-point average of at least 2.0 in all required upper-division BBA, BAccy, or BS courses and concentration-related courses (i.e., major field grade-point average).

All courses taken at GW are included in the overall grade-point average calculation.

## Academic Standing

Rules governing academic probation and suspension, described under University Regulations (p. 25), are applicable to undergraduate students in the School of Business. Students who do not meet these requirements are placed on academic probation and may be suspended from the University.

## Undergraduate Policies

**Pass/No Pass Option**—A junior or senior student who has a cumulative grade-point average of 2.5 or above, with approval of the instructor, the advisor, and the director of the GWSB Advising Center (<https://business.gwu.edu/current-students/undergraduate/advising-center>), may take one elective per semester and receive a grade of *P* (Pass) or *NP* (No Pass) which is recorded on the student's transcript but is not reflected in the grade-point average. Students may not take more than one course per semester and four courses total graded on a *P/ NP* basis. Under no circumstances may a student change from *P/NP* status to graded status in a course, or vice versa, after the eighth week of the semester for full term courses or after the fourth week for half term/summer courses. Courses taken under the *P/NP* option are not counted toward the general education requirements, WID requirements, prerequisites, business core, or the requirements for any major or minor field. A transfer student may not choose this option until their second semester of enrollment in the University.

**Incomplete Grades**—Conditions under which the symbol *I* (Incomplete) may be assigned are described under University Regulations (p. 25). Incomplete coursework must be completed no later than one calendar year from the last day of the examination period of the semester or summer session in which the indication of *I* was assigned. When work for the course is complete, the *I* will be replaced by the grade earned. An indication of *I* that is not changed within this period automatically becomes an *F*. The *I* cannot be changed by re-registering for the course at GW or by taking its equivalent elsewhere. In the School of Business, the conditions for granting a notation of *I* should be documented by a written contract between the faculty member and the student. The Incomplete Contract form can be found at the GWSB Advising Center (<https://business.gwu.edu/current-students/undergraduate/advising-center>), where completed contracts are kept in a student's file.

**Independent Study**—A junior or senior of demonstrated capacity, with a special interest in the subject matter of a course, may be permitted to undertake study under the personal direction of a regular, full-time faculty member, in accordance with the rules of the relevant department. A petition outlining the student's specific study plan must be submitted to the GWSB Advising Center (<https://business.gwu.edu/current-students/undergraduate/advising-center>) prior to beginning any independent study. Generally, a maximum of two independent studies in two separate semesters is permitted.

**Concentration Regulations**—A student may pursue up to two concentrations in the BBA degree. When double counting courses between concentrations, and other degree requirements such as the minor, each concentration must have at least four unique courses. Additionally, a maximum of six credits may transfer into each concentration, including study abroad credits.

**Signature Courses**—Signature courses for the School of Business undergraduate degrees must be taken in residence at GW. These courses include BADM 1001 and 1002; BADM 1003; BADM 1004; BADM 2001W; BADM 3001; and BADM 4101.

## Graduate Programs

At the graduate level, GWSB offers programs leading to the degrees of master of accountancy (MAccy), master of business administration (MBA), master of science in business analytics (MSBA), master of science in finance (MSF), master of science in government contracts (MSGC), master of science in information systems technology (MSIST), master of science in project management (MSPM), master of tourism administration (MTA), and doctor of philosophy (PhD).

## Entrance Requirements

To be considered for admission, applicants must hold a bachelor's degree from a regionally accredited college or university. Admission to master's programs is highly competitive. Previous academic history, performance on the applicable entrance examination, letters of recommendation, demonstrated motivation and aptitude to undertake graduate-level work, and professional experience are all taken into consideration.

Applicants for admission to programs leading to the MAccy, MBA, MSBA, MSF, and MTA degrees must submit scores on the Graduate Management Admission Test or the Graduate Record Examination. Test scores that are more than five years old are not accepted for admissions review.

## English Language Requirements for International Students

Applicants who are not citizens of countries where English is the official language or who do not hold a degree from a regionally accredited U.S. institution of higher learning are required to submit scores from the Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS), or the Pearson Test of English–Academic (PTE). Exemptions from this policy (<https://graduate.admissions.gwu.edu/international-student-application-requirements>) may be possible.

The MSF program requires a minimum score of 550 paper-based or 80 Internet-based on the TOEFL, or an overall band score of 6.5 on the IELTS with no individual band score below 5.5. All other GWSB graduate degree programs require a minimum TOEFL score of 600 paper-based or 100 Internet-

based, or an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE. In some instances, an interview is required of applicants.

Applicants for graduate teaching assistantships must have a minimum score of 600 paper-based or 100 Internet-based on the TOEFL, an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE.

Students with the following English language test scores are exempt from taking English for Academic Purposes (EAP) courses: TOEFL, 600 paper-based or 100 Internet-based; IELTS, overall band score of 7.0 with no individual band score below 6.0; or a score of 68 on the PTE. Students with test scores below these minimums must register for an EAP course during their first semester. Students assigned EAP courses should anticipate additional tuition expenses as well as a possible extended period of time required to complete their degree program. EAP courses do not count toward degree requirements.

## Transfer Within the School

Currently enrolled students wishing to transfer from one graduate degree program to another within the School must complete a new application for admission through the appropriate degree program office. Applicants for transfer are subject to requirements in effect at the time of transfer. In addition, students must submit all required credentials by posted application deadlines for the program of application. Students must be in good academic standing (3.0 grade-point average) for transfer consideration.

## Readmission

A student who withdraws, is suspended, or otherwise is absent without authorization from the University for one semester or more must make formal application for readmission to the director of the student's degree program and resubmit all supporting credentials including transcripts from previous schools attended, including George Washington University, and entrance examination scores. If readmitted, the student is subject to the rules and regulations in force at the time of return. If the student has attended one or more regionally accredited colleges or universities during absence from the University, complete official transcripts must accompany the application for readmission.

The application fee is waived (<https://graduate.admissions.gwu.edu/step-step-application-process>) for a student applying for readmission who was registered as a degree candidate at the time of last registration at the University and has not since registered at another college or university.

## General Requirements

All students must complete the prescribed minimum number of credits of graduate coursework. A maximum of 6 credits of graduate coursework may be approved for transfer to the School of Business from enrollment at GW in non-degree status

or from another degree-granting school of this University or another regionally accredited college or university under the following conditions: the coursework must be approved as part of the student's program of studies; it must not have been applied to the completion of requirements for another degree; it must be at the graduate level; it must have been taken within the three years prior to acceptance into the program; and the student must have received a minimum grade of *B*.

A transcript and description of the coursework must be on file before the petition can be considered. Should transfer credit be granted, the credit for a course will count but not the grade.

Although work counted toward a bachelor's degree may not be counted toward a master's degree, a student who has completed the equivalent of a Master of Accountancy core prerequisite course with a minimum grade of *B* as part of the bachelor's degree may request a waiver of that course. A minimum grade of *B* is required to waive remaining core prerequisite courses on the basis of equivalent graduate-level courses completed at GW or another AACSB-accredited college or university prior to admission to the program. All courses presented for waiver consideration must have been taken within five years prior to the first semester of enrollment in the graduate program. Students should contact their degree program director for specific waiver criteria and deadlines for requesting waivers.

MBA students may register for a maximum of 18 credits each semester. All work for a master's degree must be completed within five years.

Students who expect to continue studies for a doctoral degree after receiving the master's degree should consult with the advisor to plan their program of study.

No credit is granted for work done in absentia or without formal instruction, except for supervised field experience, independent study, and the thesis, which may be completed in absentia with the permission of the department, designated faculty advisor, or committee concerned.

## Independent Study Plan

A graduate student of demonstrated capacity, with a special interest in the subject matter of a course, may be permitted to undertake study under the personal direction of an instructor, in accordance with the rules of the appropriate department or degree program. A petition outlining the student's specific study plan must be submitted to the student's degree program director prior to beginning any independent study. The student may petition to complete a maximum of two independent studies in two separate semesters.

## Students from Other Schools Within the University

Degree candidates from other schools of the University cannot register for more than a total 12 credits in GWSB courses.

## Academic Standing

A graduate student who is not on academic probation or suspension for poor scholarship is considered to be in good standing. The University's general scholarship requirements, including information on grades and computing the grade-point average, appear under University Regulations (p. 25) in this Bulletin. A minimum grade-point average of 3.0 must be maintained and is required for award of a graduate degree. All graduate courses and undergraduate courses taken for graduate credit after matriculation as a degree candidate (except those audited or taken for the grade of *CR*) will be used in the calculation of the grade-point average.

## Academic Probation

Students whose GPA falls below 3.0 at any point after completing 9 credits are placed on academic probation.

While on academic probation, a student:

1. Must achieve at least a 3.0 (term) GPA in each subsequent semester.
2. Must be continuously enrolled or on an approved Leave of Absence or Continuous Enrollment.
3. Must not receive a grade of *F* (Failure) in any course.
4. Must not receive the designation Incomplete (*I*) in any course.

A student who fails to meet the above four conditions will be suspended from their program.

A student may request reinstatement from a suspension by completing and submitting the Request for Reinstatement form to the Associate Dean for Graduate Programs. The request should offer a clear explanation of changed circumstances and how the student plans to raise their cumulative GPA to 3.0. The request must be submitted within one semester of the suspension. Thus, a student suspended in the fall semester must request reinstatement no later than the last day of the spring semester immediately following their suspension and a student suspended in the spring semester or during a summer session must request reinstatement no later than the last day of the fall semester immediately following their suspension.

In order to achieve the 3.0 minimum cumulative GPA, the student will be allowed to take up to 6 credits of graduate-level coursework beyond the program requirement.

A student who is below a 3.0 cumulative GPA and does not have enough credits remaining in their program to achieve the minimum GPA—including the additional 6 credits referenced above—will be dismissed. There is no appeal possible following a dismissal.

## Grades of F

A master's degree candidate who receives a grade of *F* in a core, required, or elective course must repeat the course and earn a passing grade on the next attempt. Students should refer to the requirements of their degree program for

additional minimum grade requirements. Once a grade of *F* is earned in a core, required, or elective course, it remains a part of the student's permanent record and is calculated into the grade-point average.

## Incompletes

Conditions under which the symbol *I* (Incomplete) may be assigned and changed are described under University Regulations (p. 25). The symbol *I* must be changed by a date agreed on by the instructor and the student but usually no later than the last day of the examination period within one calendar year for the fall or spring semester or summer session in which the symbol *I* is assigned. An Incomplete that is not changed within this period automatically becomes an *F*. In cases of well-documented extenuating circumstances, an instructor and a student may jointly petition the director of the student's degree program for additional time in which to complete the work of the course. Such petitions should be submitted within the same period. The symbol of *I* cannot be changed by re-registering for the course here or by taking its equivalent elsewhere. Upon submission of the assigned grade, the *I* is removed from the transcript.

## Withdrawing From a Course

The School of Business requires that students requesting to withdraw from a course after the eighth week of classes (or after the fourth week for modules) must present a petition to the Dean and receive written permission. The student must be passing the class and obtain the written approval of the instructor in order for the request for withdrawal to be approved. If approved, the symbol *W* (Authorized Withdrawal) will appear on the transcript. Tuition will not be refunded.

## Thesis

Students contemplating doctoral study are strongly encouraged to include the thesis as an elective in their master's program. The thesis subject should be selected as early as possible to permit effective integration with the coursework. The subject must be approved by the professor in charge of the student's field. The thesis in its final form must have the approval of the professor in charge. All theses must be submitted electronically and meet the formatting and other requirements set forth on line at GW's Electronic Theses and Dissertations Submission website (<http://library.gwu.edu/etds>)

Payment of tuition for the thesis entitles the candidate, during the semesters in which registered for thesis seminar and/or thesis research, to the advice and direction of the member of the faculty under whom the thesis is to be written. In case a thesis is unfinished, additional time is granted. The student must, however, be enrolled continuously in the program. If the preparation of the thesis extends more than three semesters beyond the date of registration for thesis research, the student must register for the total required thesis credits again and pay additional tuition.

# UNDERGRADUATE

## Bachelor's programs

- Bachelor of Accountancy (p. 436)
- Bachelor of Business Administration (p. 440)
  - concentration in accountancy (p. 444)
  - concentration in business analytics (p. 444)
  - concentration in business economics and public policy (p. 445)
  - concentration in finance (p. 446)
  - concentration in information systems and technology management (p. 447)

### Master's programs

- Master of Accountancy (p. 458)
- Master of Human Resource Management (p. 463)
- Master of Science in Business Analytics (p. 459)
- Master of Science in Finance (p. 459)
- Master of Science in Information Systems Technology (p. 460)
- Master of Science in Government Contracts (p. 460)
- Master of Science in Project Management (p. 461)
- Master of Science in Sport Management (p. 462)
- Master of Tourism Administration (p. 463)

### Master of Business Administration programs

- Global Master of Business Administration (p. 465)
- Health Care Master of Business Administration (p. 466)
- Professional Master of Business Administration (p. 467)
- World Executive Master of Business Administration (p. 467)

### Combined programs (p. 468)

- Dual Master of Business Administration and Master of Arts in Education and Human Development in the field of Higher Education Administration (p. 465)
- Dual Master of Business Administration and Master of Science in Government Contracts (<http://bulletin.gwu.edu/business/graduate-programs/dual-mba-ms>)
- Dual Master of Business Administration and Master of Science in Information Systems Technology (p. 494)
- Dual Master of Business Administration and Master of Science in Project Management (<http://bulletin.gwu.edu/business/graduate-programs/dual-mba-ms-project-management>)
- Joint Master of Business Administration and Master of Arts with a focus on international business
- Joint Master of Business Administration and Juris Doctor
- Joint Master of Business Administration and Master of Science in Finance
- Joint Master of Business Administration and Master of Science in Government Contracts
- Joint Master of Business Administration and Master of Science in Project Management

## Doctoral program

- Doctor of Philosophy in the field of business administration (p. 469)

## CERTIFICATES

### Post-Master's Certificate Program for School of Business Alumni

The School of Business offers a post-master's graduate certificate designed to assist master's degree alumni of the school in keeping apace of an ever-changing business climate. Participants may undertake a 12-credit program of study in an existing School of Business field or from a series of specially designed program offerings. Further information is available from the Office of the Dean (<https://business.gwu.edu/about-gwsb/meet-the-dean>).

### Graduate Certificate Programs

In addition, the School of Business offers graduate certificate programs of study in the following fields:

- Graduate certificate in accountancy (p. 470)
- Graduate certificate in business analytics (p. 470)
- Graduate certificate in business information systems (p. 471)
- Graduate certificate in business foundations (p. 471)
- Graduate certificate in digital marketing and communications (p. 472)
- Graduate certificate in financial management (p. 472)
- Graduate certificate in hospitality management (p. 473)
- Graduate certificate in human capital (p. 473)
- Graduate certificate in innovation, creativity and entrepreneurship (p. 473)
- Graduate certificate in international business (p. 474)
- Graduate certificate in investments and portfolio management (p. 474)
- Graduate certificate in management leadership (p. 475)
- Graduate certificate in management of technology and innovation (p. 477)
- Graduate certificate in marketing and brand management (p. 475)
- Graduate certificate in nonprofit management (p. 475)
- Graduate certificate in project management (p. 476)
- Graduate certificate in responsible management (p. 476)
- Graduate certificate in sports management (p. 477)
- Graduate certificate in walkable urban development (p. 478)

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Accountancy (ACCY) (p. 1124)
- Business Administration (BADM) (p. 1164)
- Decision Sciences (DNSC) (p. 1268)
- Government Contracts (GCON) (p. 1351)
- Finance (FINA) (p. 1327)
- Information Systems and Technology Management (ISTM) (p. 1387)
- International Business (IBUS) (p. 1399)
- Management (MGT) (p. 1410)
- Marketing (MKTG) (p. 1412)
- Master of Business Administration (MBAD) (p. 1414)
- Strategic Management and Public Policy (SMPP) (p. 1571)
- Tourism Studies (TSTD) (p. 1578)

## UNDERGRADUATE PROGRAMS

### Bachelor's programs

- Bachelor of Accountancy (p. 436)
- Bachelor of Business Administration (p. 440)
  - concentration in accountancy (p. 444)
  - concentration in business analytics (p. 444)
  - concentration in business economics and public policy (p. 445)
  - concentration in finance (p. 446)
  - concentration in information systems and technology management (p. 447)
  - concentration in innovation and entrepreneurship (p. 448)
  - concentration in international business (p. 449)
  - concentration in marketing (p. 450)
  - concentration in real estate (p. 450)
  - concentration in sport, event, and hospitality management (p. 451)
  - individualized concentration (p. 447)
- Bachelor of Science with a major in finance (p. 452)

## Combined programs

- Dual Bachelor of Accountancy and Master of Accountancy (<http://bulletin.gwu.edu/business/dual-ba-ma-accountancy/>)
- Dual Bachelor of Business Administration and Master of Accountancy (<http://bulletin.gwu.edu/business/dual-bba-ma-accountancy/>)
- Dual Bachelor of Business Administration and Master of Human Resource Management (<http://bulletin.gwu.edu/business/dual-bba-mhrm/>)
- Dual Bachelor of Business Administration and Master of Science in Business Analytics (<http://bulletin.gwu.edu/business/dual-bba-msba/>)
- Dual Bachelor of Business Administration and Master of Science in Information Systems Technology (<http://bulletin.gwu.edu/business/dual-bba-msist/>)
- Dual Bachelor of Business Administration and Master of Science in Sports Management (<http://bulletin.gwu.edu/business/dual-bba-mssm/>)
- Dual Bachelor of Business Administration and Master of Tourism Administration (<http://bulletin.gwu.edu/business/dual-bba-mta/>)
- Dual Bachelor of Business Administration with a major in project management and Master of Science in the field of project management (<http://bulletin.gwu.edu/business/dual-bba-ms-project-management/>)

## Minor

- Minor in business administration (p. 457)
- Minor in creativity, innovation, and entrepreneurship (<http://bulletin.gwu.edu/business/undergraduate-programs/cie-minor/>)

## BACHELOR OF ACCOUNTANCY

The bachelor of accountancy degree program offers both specialized knowledge in accounting and a general education leading to a broad understanding of the business world. The program is designed to prepare students for a professional career in accounting in the public or private sector as well as for graduate study in business, finance, information systems, or law. Students are provided with multiple opportunities to gain practical experience, such as the ability to study the stock market in a classroom resembling a Wall Street trading venue.

Visit the program website (<http://business.gwu.edu/undergraduate/baccy/>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled:

Code	Title	Credits
<b>General education and pre-business courses</b>		
BADM 1001 & BADM 1002	First Year Development Course I and First Year Development Course II <sup>1</sup>	
or BADM 1003	Transfer Student Development	
BADM 1004	The Age of Globalization	
ECON 1011	Principles of Economics I <sup>2</sup>	
ECON 1012	Principles of Economics II <sup>2</sup>	
STAT 1051	Introduction to Business and Economic Statistics <sup>2</sup>	
or STAT 1053	Introduction to Statistics in Social Science	
or STAT 1111	Business and Economic Statistics I	
or APSC 3115	Engineering Analysis III	
UW 1020	University Writing <sup>2</sup>	
One humanities course <sup>3</sup>		
Two science courses <sup>3</sup>		
A sequence of two courses in mathematics from the following:		
MATH 1051 & MATH 1252	Finite Mathematics for the Social and Management Sciences and Calculus for the Social and Management Sciences <sup>1</sup>	
Or		
MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II <sup>2</sup>	
<b>Business core courses</b>		
ACCY 2001	Introduction to Financial Accounting	
ACCY 2002	Introductory Managerial Accounting	
BADM 2001	Markets and Politics	
or BADM 2001W	Markets and Politics	
BADM 2301	Management Information Systems Technology	
or BADM 2301W	Management Information Systems Technology	
BADM 3001	Career Management Strategy	
BADM 3103	Human Capital in Organizations	
BADM 3401	Basic Marketing Management	

or BADM 3401W Basic Marketing Management

BADM 3501	Financial Management and Markets
BADM 4801	Strategy Formulation and Implementation

#### Accountancy major courses

ACCY 3101	Intermediate Accounting I
ACCY 3102	Intermediate Accounting II
ACCY 3401	Federal Income Tax: Individuals
ACCY 3403	Advanced Tax
ACCY 3601	Business Law: Contracts, Torts, and Property
ACCY 4107	Advanced Accounting
ACCY 4301	Auditing
ACCY 4501	Accounting Systems
ACCY 4601	Business Law: Enterprise Organization
ACCY 4801	Financial Accounting Capstone

#### International field course

One of the following:

ECON 2180	Survey of International Economics
ECON 2181	International Trade Theory and Policy
IBUS 3001	Introduction to International Business
IBUS 3101	Global Financial Environment
IBUS 3301	International Business Finance
IBUS 4401	Managing the Multinational Enterprise
SMPP 4900W	Special Topics (Strategy and International Political Economy )

#### Electives <sup>4</sup>

6 credits in non-business courses numbered 1000 to 4999. Courses cannot be in MATH, STAT, ECON, CSCI, LSPA, or any School of Business departmental designation.

9 credits in upper-level non-business courses numbered 2000 to 4999. Courses cannot be in MATH, STAT, ECON, CSCI, LSPA, or any School of Business departmental designation.

3 credits in an unrestricted elective course numbered 1000 to 4999.

12 credits in unrestricted upper-level elective courses numbered 2000 to 4999.

<sup>1</sup> Freshmen are required to take BADM 1001 and BADM 1002; transfer students are required to take BADM 1003.

<sup>2</sup> Course satisfies the University General Education Requirement (p. 40) in social science, quantitative reasoning, or written communication.

<sup>3</sup> See the University General Education Requirement (p. 40) page in this Bulletin for a list of approved courses that meet this requirement.

<sup>4</sup> Elective courses may include a maximum of one HLWL (Health and Wellness) course.

Note: Students who intend to take the CPA examination should be aware that the coursework required for admission to the examination varies from state to state. Students are advised to consult the Board of Accountancy for the state in which they plan to take the examination and choose courses that meet that state's requirements.

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **ACCY 2001. Introduction to Financial Accounting. 3 Credits.**

Fundamental concepts underlying financial statements and the informed use of accounting information; analysis and recording of business transactions; preparation and understanding of financial statements; measurement of the profitability and financial position of a business. Restricted to sophomores.

#### **ACCY 2002. Introductory Managerial Accounting. 3 Credits.**

The use of accounting information to plan and control the activities of a business. Several widely used methods of determining the cost of business activities for use in making business decisions. Prerequisite: ACCY 2001.

#### **ACCY 3101. Intermediate Accounting I. 3 Credits.**

Financial accounting concepts underlying the preparation and interpretation of financial statements. Topics include revenue and expense recognition; accounting for receivables, inventories, fixed assets, intangible assets, and liabilities. Prerequisite: ACCY 2001.

#### **ACCY 3102. Intermediate Accounting II. 3 Credits.**

Financial accounting concepts underlying the preparation and interpretation of financial statements; accounting for stockholders' equity, earnings per share, debt and equity investments, income taxes, pensions and other postretirement benefits, accounting changes, statements of cash flows, financial statement analysis, and disclosure. Prerequisites: ACCY 3101 or permission of instructor.

#### **ACCY 3106. Financial Statement Analysis. 3 Credits.**

Introduction to the analysis and interpretation of corporate financial statements within the context of a company's industry and economic environment. Cash flow analysis, profitability and risk analysis, accounting policy analysis, forecasting and performance analysis, elements of equity valuation, and decision perspectives of creditors. Students cannot earn credit for both this course and ACCY 4801. Prerequisite: ACCY 2002.

#### **ACCY 3401. Federal Income Tax: Individuals. 3 Credits.**

A study of federal income tax concepts, including what shall be taxed, and when, and at what rate. Taxable entities, income measurement, the use of different tax rates for different types of income, and the use of the tax laws to motivate taxpayer behavior to achieve economic goals.

#### **ACCY 3403. Advanced Tax. 3 Credits.**

Taxation of partnerships, corporations, and their owners. Formation, operation, and liquidation of each type of entity. Financial and tax accounting for each type of transaction, with the goal of gaining a better understanding of each system by comparing and contrasting it with the other one. Prerequisites: ACCY 2001 and ACCY 3401.

#### **ACCY 3601. Business Law: Contracts, Torts, and Property. 3 Credits.**

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

#### **ACCY 4107. Advanced Accounting. 3 Credits.**

Accounting for corporate combinations, foreign currency financial statements, and derivative financial instruments. Governmental and not-for-profit accounting. Prerequisites: ACCY 3101 and ACCY 3102.

#### **ACCY 4301. Auditing. 3 Credits.**

A study of generally accepted auditing standards and accepted professional auditing practices and procedures, including reviewing and evaluating financial controls, auditing financial statements, and testing financial data of manual and automated accounting systems. Prerequisite: ACCY 3102.

**ACCY 4501. Accounting Systems. 3 Credits.**

Introduction to the design and operation of accounting systems and data management controls. Principles and applications of internal control applicable to manual and automated accounting systems. Prerequisite: ACCY 3102.

**ACCY 4601. Business Law: Enterprise Organization. 3 Credits.**

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, secured credit financing, and commercial paper. Prerequisite: ACCY 2001.

**ACCY 4801. Financial Accounting Capstone. 3 Credits.**

Synthesis and application of knowledge of financial accounting to specific contexts, using the perspectives of the preparer and user of financial statements. Students cannot earn credit for both this course and ACCY 3106. Restricted to seniors only.

**ACCY 4900. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. Restricted to department approval.

**ACCY 4995. Independent Study. 3 Credits.**

Assigned topics. Admission by permission of the department chair.

**ACCY 6101. Financial Accounting. 3 Credits.**

The basic concepts and methods used in financial reports for understanding their content and context. The income statement, balance sheet, and statement of cash flows. Detailed accounting procedures and choices. How the most important accounting procedures are calculated and how different choices impact financial statements. Same as MBAD 6211.

**ACCY 6104. Intermediate Accounting I. 3 Credits.**

Accounting principles and concepts for financial accounting and reporting; emphasis on the preparation of general-purpose financial statements. Restricted to School of Business graduate degree students. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6105. Intermediate Accounting II. 3 Credits.**

Revenue recognition, employee compensation and pension plans, income tax expense, and earnings per share. Prerequisites: ACCY 6101 and ACCY 6104.

**ACCY 6106. Financial Statement Analysis. 3 Credits.**

Analysis and interpretation of financial statements for managers, stockholders, creditors, and financial analysts; ratio-driven financial analysis; earnings-based and cash-flow-based equity valuation; sales and EPS forecasting; preparation of projected financial statements. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6110. International Reporting and Control. 1.5 Credit.**

International comparisons of forces that shape financial management, such as corporate governance mechanisms, tax policies, economic development, and privatization. Same as IBUS 6308.

**ACCY 6112. International Financial Reporting Standards. 1.5 Credit.**

Financial reporting standards that are used throughout most of the world other than the United States. Comparisons of these standards with those of the United States. Prerequisites: ACCY 6101 and MBAD 6211. (Same as IBUS 6310).

**ACCY 6113. Financial Decision-Making by Consumers and Professionals. 3 Credits.**

Tools and applications necessary to evaluate the wide range of financial decisions individuals, both consumers and professionals, make throughout their lifetime. The course is also intended for those interested in becoming financial advisors and/or CPAs.

**ACCY 6201. Cases in Management Accounting I. 1.5 Credit.**

Effective use of internal generation, communication and interpretation of information for both operational and strategic decision-making purposes. Prerequisites: ACCY 6101 and MBAD 6211. (Same as MBAD 6213).

**ACCY 6202. Cases in Management Accounting II. 1.5 Credit.**

Further topics in applying concepts of control and decision analysis to optimize the financial management of organizations. Prerequisites: ACCY 6201 and MBAD 6213.

**ACCY 6203. Controls, Alignment and the Organization. 1.5 Credit.**

This course looks at the role accounting plays in decision making and control issues within organizations. Good decisions require good information: accounting provides information on budgets, costs, inventory and financial statements. Control involves aligning the interests of employees with interests of the shareholders. Performance measures, compensation and incentive contracts and internal audit constitute important control mechanisms.

**ACCY 6204. Managerial Accounting for Government and Nonprofits. 1.5 Credit.**

Builds on basic understanding of managerial accounting concepts and examines issues in the government and nonprofit realm; leveraging core concepts to analyze and report on real world scenarios. Prerequisite: None.

**ACCY 6301. Contemporary Auditing Theory. 3 Credits.**

A comprehensive survey of contemporary auditing as practiced by external auditors (primarily certified public accountants) and internal auditors (those employed within government and corporate entities). Generally accepted auditing standards; government auditing standards. Planning, directing, and reporting on various audits. Corequisite: ACCY 6104. Prerequisites: ACCY 6101 or MBAD 6211.

**ACCY 6302. Fraud Examination and Forensic Accounting. 3 Credits.**

Financial statement fraud, misappropriation of assets, and methods of deterrence, prevention, detection, and investigation. Prerequisites: ACCY 6101 and MBAD 6211. Recommended background: One auditing course.

**ACCY 6401. Federal Income Taxation. 3 Credits.**

A study of federal income taxation, covering gross income, deductions and credits, sales and other disposition of property, capital gains and losses, and timing of income and deductions.

**ACCY 6402. Federal Income Taxation of Partnerships. 3 Credits.**

Financial and tax accounting for partnerships; formation and operation, distribution to partners, liquidation, and transfer of partnership interests. S corporations are also considered. Prerequisite: ACCY 6401.

**ACCY 6403. Federal Income Taxation of Corporations. 3 Credits.**

Federal income taxation of C corporations, covering formation, capital structure, nonliquidating distributions, complete liquidations, corporate accumulations, and the alternative minimum tax.

**ACCY 6404. Taxation of Financial Instruments. 3 Credits.**

Overview of the economics and taxation of financial instruments; transactions in stock, debt instruments, commodities, options, short sales, wash sales, straddles, futures, foreign currency transactions, swaps, hedging, mark to market tax accounting, and time value of money. An equivalent course may be substituted for prerequisite ACCY 6101. Prerequisites: ACCY 6101 and ACCY 6401.

**ACCY 6501. Accounting Information Systems and Electronic Data Processing. 3 Credits.**

Development and application of accounting system theory, including analysis, design, control concepts, and implementation; integration of electronic data processing, accounting systems, and management information systems. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6601. Business Law: Contracts, Torts, and Property. 3 Credits.**

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

**ACCY 6602. Business Law: Enterprise Organization. 3 Credits.**

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, suretyship, secured credit financing, and commercial paper.

**ACCY 6701. Government and Nonprofit Accounting and Auditing. 3 Credits.**

The budgeting, accounting, financial reporting, and auditing required of federal, state, and local governments, nonprofit organizations, and colleges and universities. The financial practices and requirements applicable to organizations receiving governmental financial assistance and those subject to governmental audits. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6801. Corporate Governance and Ethics. 3 Credits.**

The theory, practice, and public policy environment of corporate governance. Purpose, functioning, and responsibilities of boards of directors. Power, control, and compensation of corporate management. Shareholders and stakeholders. Corporate governance in comparative national settings. Same as SMPP 6215.

**ACCY 6900. Special Topics. 1-3 Credits.**

Experimental offering; new course topics and teaching methods.

**ACCY 6998. Directed Readings and Research. 1-3 Credits.****ACCY 8001. Doctoral Seminar. 1-12 Credits.**

Reasoning and research in technical areas of accounting; theoretical issues and their application to practice; conceptual themes in professional literature; comparative accounting research analyses.

**ACCY 8009. Dissertation Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

**ACCY 8999. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

## BACHELOR OF BUSINESS ADMINISTRATION

The bachelor of business administration (BBA) degree program offers general management preparation with an opportunity for specialization in a specific field of business. It represents a careful balance of structure and choice, with flexibility that allows students to tailor their programs to reflect their individual career goals. While each student takes the same basic business core classes, many of the general education courses and courses in the field of concentration may be selected to suit the individual student.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 120 credits

Code	Title	Credits
<b>General education and pre-business</b>		
BADM 1001 & BADM 1002	First Year Development Course I and First Year Development Course II (*)	
or BADM 1003	Transfer Student Development	
BADM 1004	The Age of Globalization	
ECON 1011 & ECON 1012	Principles of Economics I and Principles of Economics II	

STAT 1051	Introduction to Business and Economic Statistics	
or STAT 1053	Introduction to Statistics in Social Science	
or STAT 1111	Business and Economic Statistics I	
or APSC 3115	Engineering Analysis III	
STAT 2112	Business and Economic Statistics II	
or STAT 2118	Regression Analysis	
or ECON 2123	Introduction to Econometrics	
or STAT 2123	Introduction to Econometrics	
UW 1020	University Writing	
One humanities course**		
Two science courses**		
A sequence of two math courses from the following:		
MATH 1051 & MATH 1252	Finite Mathematics for the Social and Management Sciences and Calculus for the Social and Management Sciences	
Or		
MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II	
<b>Code</b>	<b>Title</b>	<b>Credits</b>

BADM 3601	Operations Management	

BADM 4101	Business Ethics and the Legal Environment
or BADM 4101W	Business Ethics and the Legal Environment

BADM 4801	Strategy Formulation and Implementation
-----------	---

\*Freshmen are required to take BADM 1001 and 1002; transfer students are required to take BADM 1003.

\*\*A list of approved courses can be found on the University General Education Requirement (<http://bulletin.gwu.edu/university-regulations/general-education>) page.

## Business concentration courses

A business concentration is required for all bachelor of business administration students. Students select a field of concentration from among accountancy; business analytics; business economics and public policy; finance; information systems and technology management; innovation and entrepreneurship; international business; marketing; sport, event, and hospitality management; or, with faculty approval, may structure an individualized field of concentration reflecting a specific interest in management. The concentration consists of five field courses plus an international field course designated by the department. The concentration must be selected no later than the second semester of the sophomore year; students should contact the advising center to declare a concentration. Students may declare two concentrations, but they should note that this may increase the number of credits required to complete the BBA When double counting courses between concentrations (and other degree requirements such as the minor), each concentration must have at least four unique courses. Additionally, the maximum number of credits may transfer into each concentration, including study abroad credits, is two courses (six credits). In all cases, students must consult the academic advisor for an appropriate international focus field course. Concentration requirements are available at the School of Business website (<http://business.gwu.edu/ugrad>) or at the Undergraduate Advising Center (<http://business.gwu.edu/ugrad/advising-center>).

### Required BBA concentration options:

- accountancy (p. 444)
- business analytics (p. 444)
- business economics and public policy (p. 445)
- innovation and entrepreneurship (p. 448)
- finance (p. 446)
- information systems and technology management (p. 447)
- international business (p. 449)
- marketing (p. 450)
- sport, event, and hospitality management (p. 451)
- individualized field of concentration (p. 447)

Individualized field of concentration—A BBA student with a minimum GPA of 3.2 and a specific interest in an area of management not reflected by the standard BBA concentrations may design and seek approval for an individualized concentration drawing upon courses across the University. Such a concentration consists of five field courses and one international focus field course selected with the guidance of faculty with expertise in the area of interest. All individualized concentration proposals must be submitted by the end of the junior year and must be approved in advance by the individualized concentration faculty review committee. Interested students should discuss their proposed concentration with their academic advisor in the GWSB Advising Center (<http://business.gwu.edu/ugrad/advising-center>).

## Minor courses

A minor outside of the School of Business is required for this degree. Courses vary according to minor and typically require a minimum of 18 credits. Students should reference this Bulletin and consult their academic advisor for assistance and additional information.

## Elective courses

Elective courses may be numbered 1000 to 4999; at least 6 credits must be upper-level (numbered 2000 to 4999). Electives may not include LSPA (Lifestyle, Sport, and Physical Activity) courses and may include a maximum of one HLWL (Health and Wellness) course. In general, students complete 18 credits of electives, or the minimum necessary to reach 120 credits for the degree.

# COURSES

## Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

### **BADM 1001. First Year Development Course I. 1 Credit.**

Required of all first-year students in School of Business. This course is designed to enhance students' education and begin preparation for business careers. The course meets periodically during the semester. Course fee. Restricted to students in the first year of enrollment in School of Business.

### **BADM 1002. First Year Development Course II. 1 Credit.**

Continuation of BADM 1001. Required of all first-year students in School of Business. This course is designed to enhance students' education and begin preparation for business careers. The course meets periodically during the semester. Course fee. Restricted to students in the first year of enrollment in School of Business.

### **BADM 1003. Transfer Student Development. 1 Credit.**

Required for all transfer students entering the School of Business. Provides information on University and School resources to assist with the student's transition. Helps students develop career-based knowledge; begin preparation for business careers; and learn the importance of civility and integrity in business discourse. Students perform service within the District of Columbia in order to apply business concepts and entrepreneurship skills. Restricted to GW School of Business students.

### **BADM 1004. The Age of Globalization. 3 Credits.**

A multidisciplinary foundation in the globalization of people, markets, and firms. Required for all School of Business students.

### **BADM 1900. Special Topics. 1-3 Credits.**

### **BADM 2001. Markets and Politics. 3 Credits.**

Economic and political resource allocation; social and political influences on business organizations; contemporary problems and issues.

### **BADM 2001W. Markets and Politics. 3 Credits.**

Economic and political resource allocation; social and political influences on business organizations; contemporary problems and issues. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

### **BADM 2301. Management Information Systems Technology. 3 Credits.**

An introduction to data and information processing concepts and systems viewed from a contemporary management perspective. Emphasis on uses and applications as well as emerging managerial issues with the potential to reshape the form and function of information systems. Lab required. Prerequisites: Basic knowledge of Microsoft Word, Excel, and PowerPoint.

### **BADM 2301W. Management Information Systems Technology. 3 Credits.**

An introduction to data and information processing concepts and systems viewed from a contemporary management perspective. Emphasis on uses and applications as well as emerging managerial issues with the potential to reshape the form and function of information systems. Lab required. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: Basic knowledge of Microsoft Word, Excel, and PowerPoint.

**BADM 3001. Career Management Strategy. 1 Credit.**

Restricted to School of Business students in their junior year. The career development process, including job search strategies and formulation of a career management plan, with practice in producing a resume and interviewing for a position.

**BADM 3101. Human Resource Management. 3 Credits.**

Global and strategic implications of human capital policies and practices, including human resource planning, recruitment, selection, training, development, compensation, and collective bargaining. Prerequisite: PSYC 1001.

**BADM 3102. Business and Government Relations. 3 Credits.**

Economic and legal environment of business enterprise; social and political influences; contemporary problems and issues.

**BADM 3102W. Business/Government Relations. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**BADM 3103. Human Capital in Organizations. 3 Credits.**

An introduction and integration of concepts drawn from human resource management and organizational behavior. Application of these concepts to individual, group/team, and organizational scenarios through experiential exercises, cases, and projects. Development of skills in analyzing and evaluating human capital problems and determining appropriate solutions.

**BADM 3401. Basic Marketing Management. 3 Credits.**

Consumer and organizational buying behavior. Strategic marketing processes (market research, segmentation, targeting, positioning, and relationship-building). Product development and brand management, valuation and pricing, channel and logistics management, integrated marketing communications, e-commerce. Prerequisite: ECON 1012 or HONR 2044.

**BADM 3401W. Basic Marketing Management. 3 Credits.**

Consumer and organizational buying behavior. Strategic marketing processes (market research, segmentation, targeting, positioning, and relationship-building). Product development and brand management, valuation and pricing, channel and logistics management, integrated marketing communications, e-commerce. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ECON 1012 or HONR 2044.

**BADM 3501. Financial Management and Markets. 3 Credits.**

Introduction to financial markets, investment analysis, and financial management. Financial analysis, risk management, working capital management, capital budgeting, financial structure, cost of capital, and dividend policy. Prerequisites: ECON 1012 or HONR 2044; MATH 1221 or MATH 1231 or MATH 1252; and APSC 3115 or DNSC 1001 or STAT 1051 or STAT 1053 or STAT 1111.

**BADM 3601. Operations Management. 3 Credits.**

Production planning concepts and analytical tools. Designing and managing production processes: facilities, equipment, process control systems. Design issues, demand forecasting, material planning, acquisition techniques. Managing the factory floor: scheduling, total quality management, continuous improvement concepts and methods. Prerequisites: STAT 1051, STAT 1053, STAT 1111 or APSC 3115 or DNSC 1001.

**BADM 4101. Business Law and Ethics. 3 Credits.**

An introduction to practical reasoning at the intersection of business and society. Emphasis on application of ethics frameworks and core principles of business law to problems of individual, organizational, and social responsibility in business.

**BADM 4101W. Business Law and Ethics. 3 Credits.**

An introduction to practical reasoning at the intersection of business and society. Emphasis on application of ethics frameworks and core principles of business law to problems of individual, organizational, and social responsibility in business. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**BADM 4801. Strategy Formulation and Implementation. 3 Credits.**

An integrative capstone course to develop skills in diagnosing organizational problems, formulating and selecting strategic alternatives, and recognizing problems inherent in strategy implementation. BA, BAccy, and SEAS business concentration programs. Restricted to seniors in the B.

**BADM 4900. Special Topics. 0-3 Credits.**

Experimental offering; new course topics and teaching methods.

**BADM 4900W. Special Topics. 0-3 Credits.**

Experimental offering; new course topics and teaching methods. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**BADM 4950. Internship. 0 Credits.**

School of Business undergraduates may register for this course when they wish to have an internship recorded on the transcript. The supervisor must verify that the internship has been completed for a minimum of six hours per week. An administrative fee is charged. May be repeated each semester if desired.

**BADM 4995. Independent Study. 1-6 Credits.**

Assigned topics with interdisciplinary focus. Admission by prior permission of advisor. May be repeated once for credit but in a separate semester.

# BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN ACCOUNTANCY

The bachelor of business administration (BBA) with a concentration in accountancy degree program provides undergraduate students with the analytical tools and conceptual framework needed to understand and record financial transactions.

The School of Business offers two degree options for students to study accountancy: the BBA with a concentration in accountancy and the bachelor of accountancy (<http://business.gwu.edu/undergraduate/baccy>) (BAccy). The BBA degree with an accountancy concentration is intended to be paired with a second, complementary field of concentration. For students who plan to work as an accountant, often with a CPA designation, the BAccy degree program is more appropriate as it offers substantially more preparation in accounting.

Accountancy is an ideal second concentration for BBA students who plan to pursue careers in finance as it provides a strong background in information that underlies many financial decisions. Likewise, a second concentration in accountancy is an excellent choice for BBA students with a concentration in information systems as such students often pursue jobs related to accounting information systems.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/accountancy>) for more information.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (p. 440) the concentration in accountancy requires five field courses and one international field course:

Code	Title	Credits
<b>Field</b>		
ACCY 3101	Intermediate Accounting I	
ACCY 3102	Intermediate Accounting II	
ACCY 3106	Financial Statement Analysis *	
or ACCY 4501	Accounting Systems	

Two of the following:

ACCY 3106	Financial Statement Analysis *
ACCY 3401	Federal Income Tax: Individuals

ACCY 3403	Advanced Tax
ACCY 4107	Advanced Accounting
ACCY 4301	Auditing
ACCY 4501	Accounting Systems *
<b>International field</b>	
One of the following:	
ECON 2180	Survey of International Economics
ECON 2181	International Trade Theory and Policy
IBUS 3001	Introduction to International Business
IBUS 3101	Global Financial Environment
IBUS 3301	International Business Finance
IBUS 4401	Managing the Multinational Enterprise
ISTM 4900	Special Topics

\*ACCY 3106 Financial Statement

Analysis and ACCY 4501 Accounting Systems are options for both the required and additional field course categories. If only one is taken, it will apply to the required field course category; if both are taken, one will apply to the required field courses, and one will apply to the additional field course category.

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 440) that apply to this concentration

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN BUSINESS ANALYTICS

The bachelor of business administration with a concentration in business analytics degree program provides students with the analytical tools and conceptual framework needed to understand and apply data and decision modeling in real life settings. Analytics is defined as the extensive use of data, statistical and quantitative models, and fact-based management to drive decisions and actions. More than just modeling and data manipulation, it is a process of transforming data into actions through analysis and insights in the context of organizational decision making and problem solving. Combining the business analytics concentration with any other area in business, such as finance or marketing, or in other fields, such as engineering, public policy, and international affairs, may give graduates expanded career opportunities.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (p. 440) the concentration in business analytics requires five field courses and one international field course:

Code	Title	Credits
<b>Field</b>		
DNSC 3403	Decision Models	
DNSC 4211	Programming for Analytics	
DNSC 4279	Data Mining	
Two of the following:		
DNSC 4404	Essentials of Project Management	
DNSC 4900	Special Topics (Forecasting; Marketing Analytics; or Supply Chain Analytics)	
ISTM 3119	Introduction to Programming	
ISTM 4121	Database Principles and Applications	
<b>International field</b>		
One of the following:		
IBUS 3001	Introduction to International Business	
IBUS 3101	Global Financial Environment	
IBUS 4401	Managing the Multinational Enterprise	
IBUS 4203	Foreign Market Analysis	
IBUS 4402	Managing in Developing Countries	
ORSC 2046	Global Organizations	
PSC 2992	Special Topics in American Politics and Government (Politics of the Internet)	
SMPP 4900W	Special Topics (Strategy and International Political Economy)	

Students should consult with the advisor for specific bachelor of business administration general education courses (p. 440) that apply to this concentration.

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN BUSINESS ECONOMICS AND PUBLIC POLICY

The bachelor of business administration with a concentration in business economics and public policy degree program is

concerned with the continuing business-government dialogue that leads to effective decision making and equitable relations between the public and private sectors. The program is designed to help students develop the knowledge and skills useful for a wide variety of positions in public, private, for-profit, and nonprofit organizations. Students deepen their understanding of the social and legal environments that influence business and its relationships with government at all levels. Students also receive in-depth training in micro- and macroeconomic analysis; this key element of the field prepares students to perform rigorous and sophisticated analyses of the economic impacts of policy decisions on various types of institutions and organizations.

Study in this concentration also serves to ensure that students understand the workings of political systems and institutions, particularly those of the U.S. federal government. This understanding includes recognizing not only what government can do and achieve, but also the limits of its power and the role of private interests in driving political decision making in Congress and government agencies.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/business-economics-and-public-policy>) for more information.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (p. 440) (p. 440) the concentration in business economics and public policy requires five field courses and one international field course:

Code	Title	Credits
<b>Field</b>		
ECON 2101	Intermediate Microeconomic Theory	
One of the following:		
ECON 2102	Intermediate Macroeconomic Theory	
ECON 2158	Industrial Organization	
One of the following:		
PSC 2211	State and Urban Politics	
PSC 2214	U.S. Constitutional Law and Politics I	
PSC 2215	U.S. Constitutional Law and Politics II	
PSC 2219	Political Parties and Interest Groups	
PSC 2220	Public Opinion	
PSC 2228	Media, Politics, and Government	
PSC 2229	Media and Politics	

One of the following:

PSC 2216 The American Presidency

PSC 2218 Legislative Politics

PSC 2213 Judicial Politics

One of the following:

ECON 2136 Environmental and Natural Resource Economics

ECON 2148 Survey of Health Economics

ECON 3190 Law and Economics

GEOG 2120 World Regional Geography

IAFF 3190 Special Topics in International Affairs (Human Rights and Ethics)

MGT 3305 Human Capital Sustainability

PSC 2222 Science, Technology, and Politics

TSTD 4900 Special Topics (Advocacy and Lobbying)

#### International field

One of the following:

ECON 2181 International Trade Theory and Policy

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3301 International Business Finance

SMPP 4900W Special Topics (Strategy and International Political Economy)

Students should consult with the advisor for specific bachelor of business administration general education courses (p. 440) that apply to this concentration

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN FINANCE

The bachelor of business administration (BBA) with a concentration in finance degree program provides students with the analytical tools and conceptual framework needed to evaluate financial transactions and make financial decisions within firms. The academic program allows students to understand finance from three interrelated perspectives:

- Financial management related to capital budgeting, financial structure, financial analysis, working capital management, and dividend policy.
- Investment and portfolio management related to the valuation of stocks, bonds, and derivative contracts and the construction of efficient portfolios.
- The money and capital market related to the issuance and investment in financial instruments by banking organizations with emphasis on the consequence of interest rates and interest rate structure on valuation and risk.

Upon successful completion of the program, students might apply for professional positions such as credit analyst, equity analyst, or financial analyst with governmental agencies, for-profit corporations, and investment banks. Finance also provides an excellent foundation for graduate study in business, economics, public policy, and law.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/business-economics-and-public-policy>) for more information.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (p. 440) the concentration in finance requires five field courses and one international field course:

Code	Title	Credits
<b>Field</b>		
FINA 3001	Intermediate Finance	
FINA 3101	Investment and Portfolio Management	
FINA 4001	Advanced Financial Management	
or FINA 4001W	Advanced Financial Management	
Two of the following:		
FINA 3201	Exploring Finance with Simulation	
or FINA 3201W	Exploring Finance with Simulation	
FINA 3301	Money and Capital Markets	
FINA 4101	Applied Financial Securities Analysis	
FINA 4201	Real Estate Investment	
FINA 4301	Financial Derivatives	
FINA 4900	Special Topics (Applied Financial Security Analysis: Real Estate)	
FINA 4900	Special Topics (Investment Analysis Venture Capital)	
<b>International field</b>		

One of the following:

ECON 2180 Survey of International Economics

ECON 2181 International Trade Theory and Policy

ECON 2182 International Macroeconomic Theory and Policy

FINA 3401 A Brief History of Finance

or FINA 3401W A Brief History of Finance

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3301 International Business Finance

IBUS 4302 International Banking

IBUS 4303 International Monetary and Financial Issues

SMPP 4900W Special Topics (Strategy and International Political Economy)

TSTD 3302 Financial Management in Tourism and Hospitality

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 440) that apply to this concentration

## BACHELOR OF BUSINESS ADMINISTRATION, INDIVIDUALIZED CONCENTRATION

The purpose of the individualized concentration is to assist bachelor of business administration (BBA) students who have a clear career objective that falls outside of the ten standard BBA concentrations (p. 434). The career objectives of most BBA students easily can be met by one of these concentrations, in which case pursuing an individualized program of study is not recommended.

## REQUIREMENTS

### Program of study

The program of study for the bachelor of business administration (BBA) individualized concentration varies greatly depending on the individual student's objectives. Past individualized concentrations pursued include entrepreneurship and/or small business management, health administration, human resource management, real

estate development, strategic management, and supply chain management.

### Proposal and application process

As part of the application process, students must create a proposal that includes five field courses and one international field course.

Students develop their full proposal based on extensive research and with the assistance of faculty members who focus in related fields. Complete criteria and application directions can be found in the Individualized Field Application Packet ([http://business.gwu.edu/wp-content/uploads/2016/08/Individualized\\_Field\\_Concentration\\_Packet\\_AUG-2016.pdf](http://business.gwu.edu/wp-content/uploads/2016/08/Individualized_Field_Concentration_Packet_AUG-2016.pdf)). GWSB students must have a minimum 3.2 GPA in order to submit an individualized concentration proposal. Proposals must be submitted before the start of senior year.

The individualized concentration application process typically takes 10 to 12 weeks from initial research to receiving the faculty committee's final decision; therefore, students should start this process no later than spring of their junior year. Students are advised not to take proposed courses prior to approval of the individualized field.

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN INFORMATION SYSTEMS AND TECHNOLOGY MANAGEMENT

The bachelor of business administration (BBA) with a concentration in information systems and technology management (ISTM) enables undergraduate students to acquire an in-depth understanding of information technology (IT) and the skills and analytical methods needed to design and develop the information systems (IS) that businesses find indispensable. The IT overview covers areas ranging from data communications, including the Internet and the World Wide Web, to data management. Students also learn about and have opportunities for practical experience in the structured development of information systems, programming, database design, and other techniques needed for successful IS design and develop. These IS/IT-specific skills and knowledge, coupled with an understanding of the other aspects of business acquired in the program, give students a competitive start in their chosen careers.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/information-systems-and-technology-management>) for more information.

## REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 440) the concentration in Information

Systems and Technology Management requires five courses in the field and one course in the international field:

Code	Title	Credits
<b>Field</b>		
ISTM 3119	Introduction to Programming	
ISTM 4120	Business Systems Development	
ISTM 4121	Database Principles and Applications	
Two of the following:		
ISTM 4123	Business Data Communications	
ISTM 4130W	Writing On The Ethics of Technology	
ISTM 4215	Human-Computer Interaction	
ISTM 4223	Innovation Ventures	
ISTM 4233	Emerging Technologies	
ISTM 4900	Special Topics *	
<b>International field</b>		
One of the following:		
IAFF 6141	International Science and Technology Policy Cornerstone	
IAFF 6158	Special Topics in International Science and Technology Policy	
IBUS 3101	Global Financial Environment	
IBUS 4401	Managing the Multinational Enterprise	
IBUS 4402	Managing in Developing Countries	
ISTM 4223	Innovation Ventures	
ORSC 2046	Global Organizations	
PSC 2992	Special Topics in American Politics and Government (Politics of the Internet)	

\*Enrollment in ISTM 4900 on topics announced in the Schedule of Classes requires ISTM program director approval.

\*\*ISTM 4223 Innovation Ventures may be used toward either the Field course requirement or the International Field course requirement, but not both.

Students should consult with the program director for specific Bachelor of Business Administration general education courses (p. 440) that apply to this concentration

## BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN INNOVATION AND ENTREPRENEURSHIP

The bachelor of business administration (BBA) with a major in innovation and entrepreneurship (INEN) provides students with a broad spectrum of skills that enable them to start, manage, and grow new and/or existing businesses. Graduates are equipped to work in major organizations that develop new products, procedures, and services. The program provides students with opportunities to explore new organizational types, both for-profit and nonprofit, and to develop the skills needed to become effective consultants. The INEN concentration emphasizes practical learning and encourages students to excel in the classroom while participating in field-related activities. Exposure to scenarios designed to sharpen their ability to use fast-paced decision making, INEN students are challenged to operate with success in turbulent environments.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/innovation-and-entrepreneurship>) for more information.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (p. 440) the concentration in innovation and entrepreneurship requires five field courses and one international field course:

Code	Title	Credits
<b>Field</b>		
MGT 3300	Entrepreneurship	
or MGT 3300W	Entrepreneurship	
MGT 4003	Management of the Growing Entrepreneurial Venture	
Three of the following:		
MGT 3301	Small Business Management	
MGT 3302	e-Entrepreneurship	
MGT 3303	Women's Entrepreneurial Leadership	
MGT 3305	Human Capital Sustainability	
MGT 4900	Special Topics (Innovation and Creativity)	
DNSC 4404	Essentials of Project Management	
<b>International field</b>		

One of the following:

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3201 International Marketing Management

IBUS 3301 International Business Finance

PSC 1003 Introduction to International Politics

SMPP 4900W Special Topics (Strategy and International Political Economy)

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 440) that apply to this concentration.

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN INTERNATIONAL BUSINESS

The bachelor of business administration (BBA) with a concentration in international business provides students with the analytical tools and conceptual framework needed to understand the international financial, political, and economic environment; how that environment influences a firm's strategy and performance; how culture plays a role in guiding a firm's strategic activities; and how a firm can leverage home and host country resources to overcome challenges inherent in managing a multinational enterprise. The academic program allows students to understand international business from three interrelated perspectives: international economics and finance, international marketing, and international corporate strategy.

This field provides the basic academic foundations for entry-level positions in international business, particularly in multinational corporations, international banks, and governmental agencies. Such organizations include the Export-Import Bank, Overseas Private Investment Corporation, and the Departments of Commerce, State, and Treasury, in addition to international institutions such as the World Bank and the International Finance Corporation.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/international-business>) for more information.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (p. 440) the concentration in international business requires five field courses, one international field course, one foreign language course, and one upper-level course.

Code	Title	Credits
<b>Field</b>		
IBUS 3001	Introduction to International Business	
IBUS 3101	Global Financial Environment	
Three of the following:		
IBUS 3201	International Marketing Management	
IBUS 3301	International Business Finance	
IBUS 4202	Regional Strategy for Multinationals	
IBUS 4203	Foreign Market Analysis	
IBUS 4302	International Banking	
IBUS 4303	International Monetary and Financial Issues	
IBUS 4401	Managing the Multinational Enterprise	
IBUS 4402	Managing in Developing Countries	
IBUS 4403	Oil: Industry, Economy, and Society	
IBUS 4404	Global Energy	
IBUS 4900	Special Topics	
IBUS 4995	Independent Study	
<b>International field</b>		
One of the following:		
ECON 2169	Introduction to the Economy of China	
ECON 2181	International Trade Theory and Policy	
ECON 2182	International Macroeconomic Theory and Policy	
ECON 2185	Economic History and Problems of Latin America	
GEOG 2145	Cultural Geography	
or GEOG 2145W	Cultural Geography	
GEOG 2146	Political Geography	
GEOG 3154	Geography of the Middle East and North Africa	
PSC 2330	Comparative Politics of Western Europe	
PSC 2442	International Organizations	
PSYC 3125	Cross-Cultural Psychology	

SMPP 4900W Special Topics (Strategy and International Political Economy)

SOC 2168 Economic Sociology

Additional options Include:

One foreign language course at the intermediate part I level or above.

One upper-level course numbered 2000 to 4999 from any department with the exception of Art History (AH), Fine Arts (FA), Exercise and Nutrition Sciences (EXNS), International Business (IBUS), Music (MUS), or Theatre and Dance (TRDA)

Students should consult with the advisor for specific bachelor of business administration general education courses (p. 440) that apply to this concentration.

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN MARKETING

The bachelor of business administration (BBA) with a concentration in marketing degree program provides students with the analytical and conceptual foundations for strategic marketing processes. These processes include market research, segmentation, targeting, positioning, integrated marketing communications, and relationship building. Students develop competencies and skills in identifying customer needs and wants; making decisions about which markets organizations should serve; designing product, service, and program offerings for these markets; planning and implementing strategies to communicate with and sell to these markets; and creating value through profitable relationships with customers as well as channel partners, suppliers, and other stakeholders.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/marketing>) for more information.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (p. 440) the concentration in marketing requires five field courses and one international field course:

Code	Title	Credits
------	-------	---------

Field

MKTG 3142	Consumer Behavior
-----------	-------------------

MKTG 3143	Marketing Research
-----------	--------------------

Three of the following:

MKTG 4148	Advertising and Marketing Communications
-----------	--

MKTG 4149W	Advanced Advertising Campaigns
------------	--------------------------------

MKTG 4150	Salesmanship and Sales Management
-----------	-----------------------------------

MKTG 4152	Retailing Management
-----------	----------------------

MKTG 4154	Digital Marketing
-----------	-------------------

MKTG 4156	Integrated Marketing Communications
-----------	-------------------------------------

MKTG 4159	Marketing Strategy
-----------	--------------------

MKTG 4900	Special Topics **
-----------	-------------------

### International field

One of the following:

IBUS 3001	Introduction to International Business <sup>†</sup>
-----------	---

IBUS 3101	Global Financial Environment
-----------	------------------------------

IBUS 3201	International Marketing Management
-----------	------------------------------------

SMPP 4900W	Special Topics (Strategy and international Political Economy)
------------	---

\* Students with a specific interest in advertising may apply to take MKTG 4149W Advanced Advertising Campaigns. If accepted, they must also register for MKTG 4151W Marketing Communications Planning. MKTG 4151W cannot be used to fulfill a field course, but can be used to fulfill an elective requirement, if needed. Note that if two writing in the disciplines (WID) courses are taken in the same semester, only one WID course will count towards the University WID requirement.

\*\*MKTG 4900 Special Topics may be taken multiple times as a field course provided that the topics differ.

†BADM 3001 Career Management Strategy ideally should be completed by the end of sophomore year and when marketing-specific sections are available. Register for a section that aligns with your career goals.

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 440) that apply to this concentration.

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN REAL ESTATE

The undergraduate concentration in real estate provides students with the knowledge base in finance, real estate

investment, development, valuation, and strategic planning to help prepare them for an entry-level position in the real estate industry. Most of the electives in this concentration are at the graduate level, which may give students who complete the program a competitive advantage vis-a-vis students from other universities. For GW students interested in real estate who already are taking such courses, this concentration provides a vehicle to help quantify their commitment to real estate to potential employers.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/real-estate/>) for more information.

## REQUIREMENTS

In addition to the requirements for the bachelor of business administration (<http://bulletin.gwu.edu/business/undergraduate-programs/business-administration/#requirementstext>) the concentration in real estate requires five field courses and one international field course:

Code	Title	Credits
<b>Field</b>		
FINA 4201	Real Estate Investment	
FINA 6240	Real Estate Development	
Three of the following:		
AH 2154	American Architecture I	
or AMST 2520	American Architecture I	
ECON 2157	Urban and Regional Economics	
FINA 4900	Special Topics (Applied Financial Securities Analysis: Real Estate)	
FINA 6242	Real Estate Valuation and Investment	
FINA 6290	Special Topics (Strategic Planning for Real Estate Companies)	
FINA 6290	Special Topics (Walkable Urban Place Development and Management)	
GEOG 2140	Cities and Societies	
SUST 2002	The Sustainable City	
<b>International Field</b>		
One of the following:		
GEOG 2124	Urban Transportation	
GEOG 2125	Transportation Systems and Networks	
GEOG 2127	Population Geography	

GEOG 2141	Cities in the Developing World
IBUS 3001	Introduction to International Business
IBUS 3101	Global Financial Environment

## BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN SPORT, EVENT, AND HOSPITALITY MANAGEMENT

The bachelor of business administration (BBA) with a concentration in sport, event, and hospitality management degree program provides students with a theoretical and practical understanding of these industries through three different tracks:

- Sport management track focuses on the management and marketing of sport events, organizations, products, and athletes, as well as in special events, conferences, meetings, expositions, festivals, and other entertainment properties including sport and event facilities.
- Event management track focuses on the marketing and management of businesses related to conventions, meetings, special events, conferences, expositions, and festivals.
- Hospitality management track focuses on the marketing, management, and financing of both hotels and those businesses related to tourism, including cities, attractions, restaurants, and airlines.

Typical entry-level positions include those in collegiate and professional sport organizations, sport marketing agencies, sport manufacturers, sport and event facilities, hotels and resorts, restaurants and food service operations, visitor and convention bureaus, theme parks and recreation centers, museums, tour operators, travel management firms, destination management companies, event producers, associations, corporate sponsors, and consulting firms.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba/sport-event-hospitality-management/>) for more information.

## REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 440), the concentration in Sport, Event, and Hospitality Management requires completion of two courses in the field, all courses in one track, and one course in the international field.

Code	Title	Credits
<b>Field</b>		
TSTD 3001	Introduction to Tourism and Hospitality Management	
TSTD 4102	Practicum	
or MGT 3305	Human Capital Sustainability	
<b>Tracks</b>		
All courses in one of the following tracks:		
<b>Sport Management Track</b>		
TSTD 3101	Sport and Event Business Management	
TSTD 3102W	Sport and Event Marketing	
TSTD 4101	Issues in Sport and Event Management	
<b>Event Management Track</b>		
TSTD 3301	Hospitality Industry Management	
or TSTD 3101	Sport and Event Business Management	
TSTD 4301	Travel Marketing Communication	
or TSTD 3102W	Sport and Event Marketing	
TSTD 4900	Special Topics (Convention and Meeting Management)	
<b>Hospitality Management Track</b>		
TSTD 3301	Hospitality Industry Management	
TSTD 3302	Financial Management in Tourism and Hospitality	
TSTD 4301	Travel Marketing Communication	
<b>International field</b>		
One of the following:		
GEOG 2145	Cultural Geography	
or GEOG 2145W	Cultural Geography	
IBUS 3001	Introduction to International Business	
IBUS 3101	Global Financial Environment	
IBUS 3201	International Marketing Management	

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 440) that apply to this concentration

## BACHELOR OF SCIENCE WITH A MAJOR IN FINANCE

Emphasizing a finance-focused education, the bachelor of science with a major in finance degree program directly targets the financial industry including commercial banks, investment banks, investment companies, and insurance companies.

The degree is offered by the School of Business both to its own students and to those enrolled in other GW schools. School of Business students enrolled in the program are required to take a second major in another GW school, while those from other GW schools take the program as a second major. Having two majors that span the School of Business and another school ensures the breadth and depth of a student's program while integrating the University's emphasis on interdisciplinary study.

Visit the (<http://business.gwu.edu/undergraduate/bs-finance>)program website (<https://business.gwu.edu/academics/programs/undergraduate/bs-finance>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 120 credits.

Code	Title	Credits
<b>General education and pre-business courses</b>		
UW 1020	University Writing	
One humanities course from approved list *		
Two science courses from approved list *		
<b>Prerequisite Courses</b>		
MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II	
ECON 1011 & ECON 1012	Principles of Economics I and Principles of Economics II	
STAT 1051	Introduction to Business and Economic Statistics	
or STAT 1053	Introduction to Statistics in Social Science	
or STAT 1111	Business and Economic Statistics I	
or APSC 3115	Engineering Analysis III	
or DNSC 1001	Business Analytics I: Statistics for Descriptive and Predictive Analytics	
STAT 2118	Regression Analysis	
or ECON 2123	Introduction to Econometrics	
or STAT 2123	Introduction to Econometrics	

or DNSC 2001 Business Analytics II: Predictive and Prescriptive Analytics

### Signature Courses

BADM 1001 & BADM 1002	First Year Development Course I and First Year Development Course II **	
-----------------------	---	--

or BADM 1003	Transfer Student Development	
--------------	------------------------------	--

BADM 1004	The Age of Globalization	
-----------	--------------------------	--

BADM 2001W	Markets and Politics	
------------	----------------------	--

BADM 3001	Career Management Strategy	
-----------	----------------------------	--

BADM 4101	Business Ethics and the Legal Environment	
-----------	---	--

or BADM 4101W	Business Ethics and the Legal Environment	
---------------	---	--

### Major Courses

ACCY 2001	Introduction to Financial Accounting	
-----------	--------------------------------------	--

ACCY 3106	Financial Statement Analysis	
-----------	------------------------------	--

BADM 3501	Financial Management and Markets	
-----------	----------------------------------	--

FINA 3001	Intermediate Finance	
-----------	----------------------	--

FINA 3101	Investment and Portfolio Management	
-----------	-------------------------------------	--

FINA 4001	Advanced Financial Management	
-----------	-------------------------------	--

or FINA 4001W	Advanced Financial Management	
---------------	-------------------------------	--

Four of the following:

FINA 3201	Exploring Finance with Simulation	
-----------	-----------------------------------	--

or FINA 3201W	Exploring Finance with Simulation	
---------------	-----------------------------------	--

FINA 3301	Money and Capital Markets	
-----------	---------------------------	--

FINA 3401	A Brief History of Finance	
-----------	----------------------------	--

or FINA 3401W	A Brief History of Finance	
---------------	----------------------------	--

FINA 4101	Applied Financial Securities Analysis	
-----------	---------------------------------------	--

FINA 4201	Real Estate Investment	
-----------	------------------------	--

FINA 4301	Financial Derivatives	
-----------	-----------------------	--

FINA 4900	Special Topics (Applied Financial Security Analysis: Real Estate)	
-----------	---	--

FINA 4900	Special Topics (Investment Analysis Venture Capital)	
-----------	--	--

One of the following:

ECON 2180	Survey of International Economics
-----------	-----------------------------------

ECON 2181	International Trade Theory and Policy
-----------	---------------------------------------

ECON 2182	International Macroeconomic Theory and Policy
-----------	---

IBUS 3001	Introduction to International Business
-----------	--

IBUS 3101	Global Financial Environment
-----------	------------------------------

IBUS 3301	International Business Finance
-----------	--------------------------------

IBUS 4302	International Banking
-----------	-----------------------

IBUS 4303	International Monetary and Financial Issues
-----------	---

SMPP 4900W	Special Topics (Strategy and International Political Economy)
------------	---

TSTD 3302	Financial Management in Tourism and Hospitality
-----------	---

\*A list of approved courses can be found on the General Education Requirement page (p. 40).

\*\*Freshmen are required to take BADM 1001 and BADM 1002; transfer students are required to take BADM 1003.

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### FINA 3001. Intermediate Finance. 3 Credits.

Theory and practice of acquiring and using funds. Simulations of business decisions by cases and/or models to assess the risk/return interaction of investment, financing, and dividend decisions. Prerequisite: BADM 3501.

#### FINA 3101. Investment and Portfolio Management. 3 Credits.

Theory and principles of security analysis and portfolio management, including analysis of the national economy, industry, company, and security markets. Risk-reward and computer-aided analysis. Prerequisite: BADM 3501.

**FINA 3201. Exploring Finance with Simulation. 3 Credits.**

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Prerequisite: BADM 3501.

**FINA 3201W. Exploring Finance with Simulation. 3 Credits.**

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: BADM 3501.

**FINA 3301. Money and Capital Markets. 3 Credits.**

The process of capital formation in a free enterprise economy, with special emphasis on factors affecting the level and structure of interest rates. Money market, capital market, and derivative contracts (futures and swaps) are evaluated from both investment and financing perspectives. Prerequisite: BADM 3501.

**FINA 3401. A Brief History of Finance. 3 Credits.**

History of financial events and practices and how finance has changed over time; how these events have shaped current practices and the impact of ethical issues.

**FINA 3401W. A Brief History of Finance. 3 Credits.**

History of financial events and practices and how finance has changed over time; how these events have shaped current practices and the impact of ethical issues. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**FINA 4001. Advanced Financial Management. 3 Credits.**

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

**FINA 4001W. Advanced Financial Management. 3 Credits.**

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

**FINA 4101. Applied Financial Securities Analysis. 3 Credits.**

Practical security analysis techniques and investing approaches employed by professional investment managers. Prerequisite: BADM 3501.

**FINA 4121W. Exploring Finance with Simulation. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**FINA 4201. Real Estate Investment. 3 Credits.**

Principles of real estate investment, including valuation, appraisal, financing, and development, in addition to a discussion of the mortgage market and its institutions. Prerequisite: BADM 3501.

**FINA 4301. Financial Derivatives. 3 Credits.**

The defining properties of and uses for financial derivatives. Institutional features; forward and futures contracts, option contracts, and swap agreements; and valuation methodologies. The proper use of financial derivatives and the potential for unintended consequences. Prerequisites: BADM 3501. Recommended background: undergraduate students in finance with exposure to another discipline such as mathematics, physics, computer science, economics, or statistics.

**FINA 4900. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. Prerequisite: BADM 3501.

**FINA 4900W. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**FINA 4995. Independent Study. 1-15 Credits.**

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: BADM 3501.

**FINA 6220. Business Financial Management. 3 Credits.****FINA 6221. Financial Decision Making. 3 Credits.**

Theory and practice of business finance, emphasizing the impacts of long- and short-term uses and sources of funds on the firm's market value. Prerequisite: MBAD 6234 or MBAD 6235.

**FINA 6222. Capital Formation. 3 Credits.**

Determinants of saving and investment and resultant funds flow are evaluated. Special emphasis on the level and risk structure and term structure of interest rates. The role and management of financial institutions is stressed. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6223. Investment Analysis and Portfolio Management. 3 Credits.**

Risk-reward analysis of security investments, including analysis of national economy, industry, company, and market; introduction to portfolio management; emphasis on theory and computer methods. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6224. Financial Management. 3 Credits.**

Advanced case studies in domestic and international financial management; working capital policy, capital budgeting, financing with debt and equity, dividend policy, valuation, project finance, venture capital, and mergers and acquisitions. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6230. Urban Development Economics. 3 Credits.**

**FINA 6231. Seminar: Investment and Portfolio Management. 3 Credits.**

**FINA 6234. New Venture Financing: Due Diligence and Valuation Issues. 3 Credits.**

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Prerequisites: MBAD 6234 or MBAD 6235. (Same as MGT 6293).

**FINA 6235. Futures Markets: Trading and Hedging. 3 Credits.**

Organization and regulation of futures markets. Alternative strategies for trading of futures contracts for possible hedging uses. High risk-high return investment alternatives. The use of futures markets to manage risks. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6236. Options. 3 Credits.**

Pricing of options on financial instruments. Role of options in risk management, trading strategies, hedging implications for national and international investors, financial engineering, and structure and regulation of option markets. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6237. Private Wealth Management and Personal Financial Advising. 3 Credits.**

Income and estate taxation, retirement plans and pensions, life and disability insurance, investment portfolio management, and personal finances. Prerequisites: MBAD 6234 or MBAD 6235. Recommended background: ACCY 6401 and knowledge of Excel.

**FINA 6238. Financial Engineering. 3 Credits.**

Valuation and risk management theory for bonds, forward contracts, swaps, options, exotic options, and interest rate options. Development of financial software, including Monte Carlo simulation modeling. Case studies of innovative solutions to investment, corporate finance, and financial institution management problems. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6239. Applied Portfolio Management. 3 Credits.**

Synthesis of the theoretical concepts of securities analysis and portfolio management with the application of analyzing securities and building an actual portfolio. Prerequisites: (MBAD 6234 or MBAD 6235) and permission of instructor.

**FINA 6240. Real Estate Development. 3 Credits.**

Examination of the forces that shape real estate development; market analysis methods and techniques to evaluate project feasibility; the institutional and legal framework within which real estate development occurs and that influences controls, land value, and development potential. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6241. Financing Real Estate. 3 Credits.**

Principles of real estate finance; evaluating different methods of financing real estate; sources of real estate funding with emphasis on securitization. Incentives provided by governments. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6242. Real Estate Valuation and Investment. 3 Credits.**

Understanding the valuation of different types of real estate from different viewpoints. Analysis of the risks and opportunities of investing. Solid theoretical framework is augmented with practical examples and applications. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6245. Land Development Law. 3 Credits.**

**FINA 6247. Urban Development Economics. 3 Credits.**

**FINA 6248. Real Estate Development Cases. 3 Credits.**

Case study analysis of large-scale commercial real estate developments to gain comprehension of financial, political, legal, and technical complexities and constraints inherent in the real estate development process. Prerequisite: FINA 6221 or permission of instructor.

**FINA 6250. Securities Regulation and Financial Scandals. 3 Credits.**

Philosophy and framework of laws governing the sale of securities, including stocks, bonds, and investment contracts; financial scandals and the role that changes in securities law and housing policy has played in such events.

**FINA 6271. Financial Modeling and Econometrics. 4 Credits.**

Applied statistical and econometric analysis and modeling in finance. Methodologies include descriptive and inferential statistics, multivariate regression, and time series analysis. Empirical studies are reviewed, and a series of research projects are undertaken. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6272. Global Financial Markets. 4 Credits.**

Theories explaining domestic and international interest rate and exchange rate structures. Roles of financial institutions and markets are investigated and forecasting methodologies are applied. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6273. Cases in Financial Management and Investment Banking. 4 Credits.**

Computer modeling for analysis and forecasting of a firm's financial statements to reflect possible future performance. Application and integration of financial accounting and financial analysis, using a different case study each week. Financial issues faced by companies and their commercial and investment bankers as tactical and strategic decisions are made about organic growth, growth through merger and acquisition, and corporate reorganization. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6274. Corporate Financial Management and Modeling. 4 Credits.**

Causal connections between decisions made by business firms, their expected performance, and the resulting current valuation of the firm's common stock. Factors affecting the level and structure of interest rates, which are incorporated by many financial models, theories, and decisions. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6275. Investment Analysis and Global Portfolio Management. 4 Credits.**

Financial markets and instruments viewed from the investor's perspective. Analysis of the value of equity and fixed-income securities and the construction of efficient portfolios in a global financial market. Issues of market efficiency, tax structures, and investment funds; computer-based models. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6276. Financial Engineering and Derivative Securities. 4 Credits.**

Mathematical and theoretical foundations to value-derivative securities, including options, futures, and swaps; hedging and trading applications of these contracts. Arbitrage trading across cash and derivative markets and its role in maintaining equilibrium prices. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6277. Comparative Financial Market Regulation and Development. 4 Credits.**

Theory and current status of comparative regulation of domestic and international financial institutions and markets. Effects on country economic development and international trade. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6278. Financial Theory and Research. 4 Credits.**

Theoretical constructs of business investment and financing decisions and of financial asset pricing structures in domestic and international environments. Analytical and numerical models are developed, and empirical studies are evaluated. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6279. Real Estate Finance and Fixed-Income Security Valuation. 4 Credits.**

Application of financial theory to real estate investment: the housing market, mortgage valuation and securitization, commercial properties, CMBS, and REITs. Fixed-income security valuation with focus on theory and data applications on interest rate movements, fixed-income security and derivative pricing, and credit risk. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6280. Financial Institution Management and Modeling. 4 Credits.**

Analysis of the financial performance and condition of a bank, toward understanding of the financial environment in which banks operate and regulation of the banking system. Application of asset/liability management principles and statistical and mathematical models employed in bank risk management. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6281. Cases in Financial Modeling and Engineering. 4 Credits.**

Through the use of real-world examples from various aspects of finance, students are exposed to the modeling of complex financial instruments and techniques used in market and credit risk management. Underlying mathematics and theoretical constructs are explored and solidified through modeling exercises that make use of analytical solutions and numerical methods. As a practical course, students are asked to implement models. Examples may be motivated by corporate finance, corporate and investment banking, asset management, or other activities. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6282. Advanced Financial Econometrics and Modeling. 0-4 Credits.**

Testing of several types of applied financial econometric models typically used in practice. Advanced quantitative techniques applied to aspects of financial markets, the behavior of agents, and market and credit risk management. Various software packages used to implement and program models. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6290. Special Topics. 0-3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

**FINA 6297. International Management Experience. 3 Credits.**

Same as IBUS 6297/ MGT 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

**FINA 6298. Directed Readings and Research. 2-4 Credits.**

**FINA 6299. Thesis Seminar. 3 Credits.**

**FINA 6999. Thesis Research. 3 Credits.**

**FINA 8311. Seminar: Public and Private Sector Institutions and Relationships. 3 Credits.**

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

**FINA 8321. Seminar: Financial Markets Research. 3 Credits.**

Market efficiency, utility testing, the capital asset pricing model, the arbitrage pricing theory, the option pricing model, and aggregate market volatility.

**FINA 8322. Seminar: Corporate Finance Research. 3 Credits.**

Capital budgeting, capital structure issues, dividend policy, microeconomic foundations, mergers, and agency theory.

**FINA 8323. Seminar: Continuous-Time Finance. 3 Credits.**

Review of the stochastic calculus methods needed for continuous-time pricing models. The most important continuous-time models, including pricing of derivative securities, consumption-portfolio selection models, continuous-time capital asset pricing models, consumption-based capital asset pricing models, continuous-time arbitrage pricing theory, and different yield curve models.

**FINA 8324. Seminar: Financial Markets and Institutions. 3 Credits.**

Multi-period asset pricing, term structure of interest rates, market imperfections and institutional factors, auctions, manipulation, derivative markets, market microstructure, and financial institutions.

**FINA 8397. Doctoral Seminar. 1-3 Credits.****FINA 8998. Advanced Reading and Research. 1-12 Credits.**

Doctoral candidates preparing for general examination.

**FINA 8999. Dissertation Research. 1-12 Credits.**

Doctoral candidates performing research. Restricted to doctoral candidates.

## MINOR IN BUSINESS ADMINISTRATION

### REQUIREMENTS

The School of Business offers a minor in business administration for students from other schools of the University.

The following requirements must be fulfilled: 27 credits, including 15 credits in required courses and 12 credits in pre-approved elective courses.

Code	Title	Credits
<b>Required</b>		
ECON 1011	Principles of Economics I	
ECON 1012	Principles of Economics II	
STAT 1051	Introduction to Business and Economic Statistics	
or STAT 1053	Introduction to Statistics in Social Science	
or STAT 1111	Business and Economic Statistics I	
or APSC 3115	Engineering Analysis III	
MATH 1221	Calculus with Precalculus II	
or MATH 1231	Single-Variable Calculus I	

or MATH 1252      Calculus for the Social and Management Sciences

ACCY 2001      Introduction to Financial Accounting

At least four of the following:

BADM 2301      Management Information Systems Technology

BADM 3103      Human Capital in Organizations

BADM 3401      Basic Marketing Management

or BADM 3401W      Basic Marketing Management

BADM 3501      Financial Management and Markets

BADM 3601      Operations Management

IBUS 3001      Introduction to International Business

School of Business students may pursue a minor in another GW school after receiving approval from the appropriate minor program or department.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/bba>) for additional information.

## GRADUATE PROGRAMS

### Master's programs

- Master of Accountancy (p. 458)
- Master of Human Resource Management (p. 463)
- Master of Science in Business Analytics (p. 459)
- Master of Science in Finance (p. 459)
- Master of Science in Information Systems Technology (p. 460)
- Master of Science in Government Contracts (p. 460)
- Master of Science in Project Management (p. 461)
- Master of Science in Sport Management (p. 462)
- Master of Tourism Administration (p. 463)

### Master of Business Administration programs

- Global Master of Business Administration (p. 465)
- Health Care Master of Business Administration (p. 466)
- Professional Master of Business Administration (p. 467)
- World Executive Master of Business Administration (p. 467)

### Combined programs (p. 468)

- Dual Master of Business Administration and Master of Arts in Education and Human Development in the field of Higher Education Administration (p. 465)

- Dual Master of Business Administration and Master of Science in Government Contracts (<http://bulletin.gwu.edu/business/graduate-programs/dual-mba-ms>)
- Dual Master of Business Administration and Master of Science in Information Systems Technology (p. 494)
- Dual Master of Business Administration and Master of Science in Project Management (<http://bulletin.gwu.edu/business/graduate-programs/dual-mba-ms-project-management>)
- Joint Master of Business Administration and Master of Arts with a focus on international business
- Joint Master of Business Administration and Juris Doctor
- Joint Master of Business Administration and Master of Science in Finance
- Joint Master of Business Administration and Master of Science in Government Contracts
- Joint Master of Business Administration and Master of Science in Project Management

## Doctoral program

- Doctor of Philosophy in the field of business administration (p. 469)

## MASTER OF ACCOUNTANCY

GW's 30-credit master of accountancy (MAccy) degree program is tailored to the student's individual interests and career objectives in accounting, financial management, and tax practice. In addition to required courses in accounting, finance, and economics, students can choose from a wide range of specialized accounting subjects and other topics to help them prepare for their professional certification. If not completed prior to matriculation, students might be required to take prerequisite courses while in the program. No business background is necessary prior to joining the program.

The MAccy may be pursued on a full-time or part-time basis. Day and evening classes are available to accommodate working professionals, although prior work experience is not required.

Visit the program website (<http://business.gwu.edu/current-students-2/specialized-masters-programs/maccy-degree-requirements>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 30 credits, including 15 credits in required courses and 15 credits in elective courses.

In addition, students must fulfill preparatory courses in financial accounting, managerial accounting, micro- or macroeconomics, and statistics.

Code	Title	Credits
------	-------	---------

### Preparatory courses

ACCY 6101	Financial Accounting	
or ACCY 2001	Introduction to Financial Accounting	

ACCY 2002	Introductory Managerial Accounting	
-----------	------------------------------------	--

MBAD 6242	Microeconomics for the World Economy	
or MBAD 6243	Macroeconomics for the World Economy	

STAT 1051	Introduction to Business and Economic Statistics	
-----------	--	--

Students that have not completed these courses prior to matriculation may be able to take them concurrently with the program requirements.

### Required

ACCY 6104	Intermediate Accounting I	
-----------	---------------------------	--

ACCY 6105	Intermediate Accounting II	
-----------	----------------------------	--

ACCY 6201	Cases in Management Accounting I	
-----------	----------------------------------	--

ACCY 6202	Cases in Management Accounting II	
-----------	-----------------------------------	--

ACCY 6301	Contemporary Auditing Theory	
-----------	------------------------------	--

MBAD 6235	Finance	
-----------	---------	--

### Electives

15 credits in elective courses, including 9 credits in accountancy (ACCY) courses.

Students who intend to take the C.P.A. examination should be aware that the coursework required for admission to the examination varies from state to state. Students are advised to consult the Board of Accountancy for the state in which they plan to take the examination and choose electives that meet that state's requirements.

Preparatory courses may be waived *without* substitution for other coursework. Required classes, except for ACCY 6201 and ACCY 6202, may be waived *with* substitution for other coursework for students who:

- Have already completed these courses with a minimum grade of *B-*
- Have taken these courses at an AACSB - accredited institution
- Have taken these courses within five years prior to the first semester of enrollment into the program

Students should consult with the advisor concerning course substitution.

# MASTER OF SCIENCE IN BUSINESS ANALYTICS

The master of science in business analytics (MSBA) degree program is designed for students with quantitative backgrounds looking to gain a competitive edge before entering the job market as well as those working in the field and looking to further develop their skills.

The curriculum is a blend of foundation courses in descriptive, predictive, and prescriptive analytics; elective courses in analytics applied to a specific functional area or industry; workshops in communication, team, and project management; and hands-on exposure to industry-standard analytics tools/software. The program culminates in a project whereby students work in teams on an actual industry-related problem and present their findings to the client firm.

The MSBA degree program is offered in a two year format to accommodate working professionals. The program can be completed faster if students choose to take courses in the summer or take more than nine (9) credits during the fall and spring semesters.

Visit the program website (<http://business.gwu.edu/current-students-2/specialized-masters-programs/msba-degree-requirements>) (<http://business.gwu.edu/programs/specialized-masters/m-s-in-business-analytics>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 33 credits, including 25.5 credits in required courses and 7.5 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
DNSC 6203	Statistics for Analytics I	
DNSC 6206	Stochastic Foundation: Probability Models	
DNSC 6210	Decision and Risk Analytics	
DNSC 6211	Programming for Analytics	
DNSC 6212	Optimization Methods and Applications	
DNSC 6213	Statistics for Analytics II	
DNSC 6216	Business Analytics Skills Workshops	
DNSC 6217	Business Analytics Practicum	
DNSC 6219	Time Series Forecasting for Analytics	

DNSC 6231 Consulting for Analytics

DNSC 6279	Data Mining
ISTM 6212	Data Management for Analytics

<b>Electives</b>	
7.5 credits in elective courses selected from the following:	
DNSC 6214	Pricing and Revenue Management
DNSC 6215	Social Network Analytics
DNSC 6225	Business Process Simulation
DNSC 6278	Big Data Analytics
DNSC 6290	Special Topics (Machine Learning)
DNSC 6290	Special Topics (Supply Chain Analytics)
DNSC 6290	Special Topics (Natural Language Processes)
DNSC 6401	Sustainable Supply Chains
DNSC 6403	Visualization for Analytics
DNSC 6404	Sports Analytics

# MASTER OF SCIENCE IN FINANCE

The master of science in finance degree program is designed to prepare students with specific career interests in the areas of financial management and research. The program of study emphasizes the theoretical foundations of finance and quantitative methods in financial management. Students engage in applied research and modeling using a variety of data sets and computer software packages. The curriculum provides in-depth study of the international and federal government regulatory dimensions of finance.

The degree program is designed to be completed in either 12 months of intensive study including a summer session or in 24 months of regular study including two summer sessions.

Visit the program website (<http://business.gwu.edu/programs/specialized-masters/m-s-in-finance>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 48 credits in required courses

Code	Title	Credits
<b>Required:</b>		
FINA 6271	Financial Modeling and Econometrics	
FINA 6272	Global Financial Markets	
FINA 6273	Cases in Financial Management and Investment Banking	
FINA 6274	Corporate Financial Management and Modeling	
FINA 6275	Investment Analysis and Global Portfolio Management	
FINA 6276	Financial Engineering and Derivative Securities	
FINA 6277	Comparative Financial Market Regulation and Development	
FINA 6278	Financial Theory and Research	
FINA 6279	Real Estate Finance and Fixed-Income Security Valuation	
FINA 6280	Financial Institution Management and Modeling	
FINA 6281	Cases in Financial Modeling and Engineering	
FINA 6282	Advanced Financial Econometrics and Modeling	

## MASTER OF SCIENCE IN INFORMATION SYSTEMS TECHNOLOGY

The master of science in information systems technology is designed to provide an in-depth understanding of management information systems and information technology. The curriculum offers an innovative mix of information and technology management courses and specialized electives. Students are challenged to think critically, analyze problems, and effectively acquire and integrate knowledge, strategies, and key technologies to solve the business problems faced by IT management.

Visit the program website (<http://business.gwu.edu/current-students-2/specialized-masters-programs/msist-degree-requirements>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 33 credits, including 21 credits in core courses and 12 credits in elective courses.

In addition, students must complete up to 6 credits in prescribed foundation requirements in the areas of computer programming language and database design and applications. If a foundation courses was not completed with a minimum grade of *B* at an accredited institution within five years of matriculation, it must be completed before beginning the program, or within the first year of study in the program.

Code	Title	Credits
<b>Required Core Courses</b>		
ISTM 6201	Information Systems Development and Applications	
ISTM 6202	Relational Databases	
ISTM 6204	Information Technology Project Management	
ISTM 6205	Internet Computing	
ISTM 6206	Information Systems Security	
ISTM 6209	Web and Social Analytics	
ISTM 6210	Integrated Information Systems Capstone	

### Electives

12 credits in elective courses selected from the following: any ISTM courses (excluding ISTM 6200), DNSC courses at the 6000 level or above, DATS courses at the 6000 level, or other graduate courses with the permission of advisor.

## MASTER OF SCIENCE IN GOVERNMENT CONTRACTS

The master of science in government contracts (MSGC) degree program is designed to give working professionals the knowledge and skills necessary to excel in the world of federal acquisition and is intended for professionals from a variety of acquisition-related jobs in both government and private industry. The 36-credit program blends the study of government procurement law and policy, taught by the Law School, with a core business curriculum taught by the School of Business. The innovative curriculum balances practice and theory, developing the skills that acquisition professionals need to become effective professionals, managers, and leaders. The MSGC program can be completed in as little as 24 months or as long as five years. Courses are offered in the evening and online.

Visit the program website (<http://business.gwu.edu/current-students-2/specialized-masters-programs/msgc-degree-requirements>)for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 36 credits, including 25 credits in required courses and 11 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
DNSC 6202	Statistics for Managers	
DNSC 6261	Introduction to Project and Program Management	
GCON 6502	Formation of Government Contracts	
GCON 6503	Performance of Government Contracts	
GCON 6505	Marketing for the Government Marketplace	
GCON 6506	Pricing Issues in Government Contracts	
GCON 6515	Advanced Writing for Government Contracts	
MBAD 6211	Financial Accounting	
<b>Electives</b>		
Students take 11 credits in elective courses selected from the list below*. One of the following courses must be included: GCON 6508, GCON 6509, GCON 6510, or GCON 6513.		
GCON 6508	Comparative Public Procurement	
GCON 6509	State and Local Procurement	
GCON 6510	Foreign Government Contracting	
GCON 6513	Procurement Reform	
GCON 6511	Federal Grants Law	
GCON 6512	Government Procurement of Intellectual Property Seminar	
GCON 6514	Anti-Corruption and Compliance	
GCON 6290	Special Topics (Interagency Acquisition Strategy)	
PPPA 6051	Governmental Budgeting	

\*Other graduate-level courses offered by GWSB may count toward the elective requirement with program approval.

## MASTER OF SCIENCE IN PROJECT MANAGEMENT

The master of science in project management (MSPM) degree program is designed for professionals who wish to enhance their ability to motivate people, integrate complex projects, and achieve cost-effective results. The curriculum focuses on traditional and modern project management techniques in an industry-independent manner. The curriculum goes beyond the project management body of knowledge and exposes students to international methodologies, decision sciences, advanced project management applications, and management. The MSPM program is offered both on campus and through distance learning.

Visit the program website (<http://business.gwu.edu/current-students-2/specialized-masters-programs/mspm-degree-requirements>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 33 credits, including 27 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
DNSC 6202	Statistics for Managers	
DNSC 6247	Organization, Management, and Leadership	
DNSC 6250	Project Management Finance	
DNSC 6254	Risk Management	
DNSC 6257	Cost Estimation and Control	
DNSC 6258	Executive Decision Making	
DNSC 6259	Project Portfolio Management	
DNSC 6261	Introduction to Project and Program Management	
DNSC 6262	Directed Computational Project Management	
DNSC 6267	Planning and Scheduling	
DNSC 6269	Project Management Application	
<b>Electives</b>		
A 3-credit, graduate-level elective course from the Department of Decision Sciences (DNSC) and a 3-credit, graduate-level elective course approved by the advisor.		

# MASTER OF SCIENCE IN SPORT MANAGEMENT

The master of science in the field of sport management (MSSM) degree program is designed to develop leaders and entrepreneurs to facilitate the continued growth of the global sport industry. Students gain knowledge of key skill sets as well as issues and insights of the industry from cutting-edge professors, leading sport professionals, and through hands-on experiences. The MSSM program prepares students through practical assignments to manage and market athletes, sports media, facilities, events, and products using the latest analytic tools and strategies.

Students who earn a MSSM from GW School of Business (GWSB) will be able to:

1. Recognize issues facing sport leaders and know how to make sound business decisions without compromising ethics and/or values.
2. Demonstrate strong written communication skills that include being succinct and persuasive.
3. Identify revenue streams and expenses for sport organizations and be able to implement strategies to increase revenues and decrease expenses.
4. Understand legal terms, operational structures, contract clauses, and related ramifications most common in the sport industry.
5. Apply analytical and research skills to solve problems and increase performance for a sport-related business.

Visit the GW School of Business website (<https://business.gwu.edu/academics/programs>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 36 credits, including 21 credits in required courses and 15 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
TSTD 6251	Applied Quantitative Methods	
TSTD 6264	Sport Marketing	
TSTD 6265	Sport Law: Contracts and Negotiations	
TSTD 6266	Sport and Event Facility Management	
TSTD 6267	Sport Media and Communications	
TSTD 6270	Research Methods and Applications	
TSTD 6283	Practicum	

## Electives

15 credits in elective courses. Students may elect to use these credits to focus in one specific area, earn a specialized graduate certificate, or choose courses from different business areas with guidance from the advisor.

DNSC 6214	Pricing and Revenue Management
DNSC 6279	Data Mining
DNSC 6404	Sports Analytics
FINA 6224	Financial Management

TSTD 6998 Thesis Research

TSTD 6999 Thesis Research

## MASTER OF HUMAN RESOURCE MANAGEMENT

*Offered online or on campus*

The master of human resource management (MHRM) degree program is designed for human resource generalists and those individuals looking to focus specifically on careers in human resources or related professions such as management consulting. The program will focus on formal and informal organizational dynamics as they relate to leading and managing human capital.

The curriculum maps into the professional competencies of the Human Resource and Human Capital Professions yet draws on the unique strengths of GW School of Business (GWSB). The program also complements GW's MBA program by cross-listing many of the courses with the MBA and specialized master's programs. This allows students to pursue a professional degree targeted towards the HR profession, while gaining the benefits of learning in a business school.

Students who earn the MHRM from GWSB will:

1. Comprehend the role organizational dynamics and human resource concepts play in the successful pursuit of organizational goals.
2. Critically examine, evaluate, and integrate organizational and human resource concepts and dynamics.
3. Develop skills relevant to performing organizational roles in human resource management as outlined by the Society of Human Resource Management.
4. Understand how behavioral sciences impact the effective working of organizations and the role that the profession of human resources plays in applying behavioral sciences to organizations.

Visit the GW School of Business website (<https://business.gwu.edu/academics/programs>) for additional information.

## REQUIREMENTS

Code	Title	Credits
<b>Required</b>		
MGT 6252	Global Human Resource Management	
MGT 6210	Leading Teams	

MGT 6257 Performance Management and Development

MGT 6290 Special Topics (People Analytics, taken for 3 credits)

MBAD 6263 Organizations and Human Capital

One of the following:

MGT 6253 Leadership and Executive Development

MGT 6277 Critical Thinking Skills for Executive Leadership

MGT 6290 Special Topics (Perspectives on Leadership, 3 credits)

### Electives

12 credits in elective courses, selected from the following:

MGT 6215 Conflict Management and Negotiations

MGT 6259 Employment Law and Ethics

MGT 6270 Consulting Processes

MGT 6280 Entrepreneurship

MGT 6286 Creativity and Innovation

MGT 6290 Special Topics (Human Capital Sustainability, 3 credits)

## MASTER OF TOURISM ADMINISTRATION

The master of tourism administration degree program is designed to prepare students for competitive professional management positions in public, commercial, or nonprofit organizations, providing visitor services at the local, national, or international level. In addition to coursework, students have opportunities to learn from culturally diverse colleagues and from a wide range of visitor-service organizations. Students may choose one of the three formal concentration areas: sustainable tourism, event and meeting management, or hospitality management. They also may develop an individualized studies program.

Visit the program website (<http://business.gwu.edu/current-students-2/specialized-masters-programs/mta-degree-requirements>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 36 credits, including 18 credits in required courses, 9 to 12 credits in courses taken in one area of specialization, and 9 to 12 credits

in elective courses. Alternatively, the student may propose a 36-credit individualized plan of study for consideration.

TSTD 6296	Hospitality Digital Marketing Strategies

#### Individualized plan of study

The student designs a 36-credit plan of study and provides a brief proposal specifying the courses to be taken. The student submits the proposal through the faculty advisor.

## DUAL MASTER OF BUSINESS ADMINISTRATION AND MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF HIGHER EDUCATION ADMINISTRATION

The School of Business in cooperation with the Graduate School of Education and Human Development (GSEHD) offers a dual master of business administration (p. 435) (MBA) and master of education and human development (MAEd&HD) in the field of higher education administration (p. 522). Students must fulfill all requirements for each program. The School of Business accepts up to 15 credits of higher education administration courses toward requirements for the MBA and GSEHD accepts up to 6 credits in School of Business courses towards requirements for the MAEd&HD.

Visit the School of Business (<http://business.gwu.edu/programs/masters-of-business-administration/joint-dual-degree-mba>) and Graduate School of Education and Human Development (<https://gsehd.gwu.edu/programs/mbamasters-higher-education-administration>) websites for additional information.

## GLOBAL MASTER OF BUSINESS ADMINISTRATION

The global master of business administration (Global MBA) is a 55.5-credit degree program emphasizing the quantitative and qualitative aspects of business practice with a curriculum that incorporates the application of concepts and analytical tools to current management problems. Teamwork and communication skills are taught through team projects with an emphasis on private and public sector issues.

Visit the program website (<http://business.gwu.edu/current-students-2/mba-programs-and-concentrations/global-mba-degree-requirements>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 55.5 credits, including 28.5 credits in required courses, 3 credits in the consulting abroad project, and 24 credits in elective courses. Students may choose to complete a 12-credit concentration using elective credits.

Code	Title	Credits
<b>Required</b>		
MBAD 6211	Financial Accounting	
MBAD 6213	Cases in Management Accounting	
MBAD 6223	Operations Management	
MBAD 6224	Decision Making and Data Analysis	
MBAD 6235	Finance	
MBAD 6242	Microeconomics for the World Economy	
MBAD 6245	Global Perspectives	
MBAD 6263	Organizations and Human Capital	
MBAD 6274	Marketing	
MBAD 6288	Strategic Management	
MBAD 6289	Business Ethics and Public Policy	

#### Consulting abroad project

MBAD 6294	Consulting Abroad Project	
-----------	---------------------------	--

Students must complete two enrollments in MBAD 6294, one on-campus and the other as the study abroad component of the Consulting Abroad Project.

#### Electives

24 credits in elective courses. Electives may be taken in courses at the 6000 level and above in any GWSB department; up to 12 of these credits may be taken in courses outside of GWSB with the advisor's approval.

MBAD 6298 may not be applied toward the MBA degree requirements.

## HEALTH CARE MASTER OF BUSINESS ADMINISTRATION

Offered in a distance learning format, the master of business administration degree program in health care (Health Care MBA) is designed for working health care professionals who wish to develop the practical business skills and leadership expertise needed to take an active role in transforming the future of the health care industry. The 55.5 credit program can be completed in as little as two years and as many as five.

Visit the School of Business website (<http://business.gwu.edu/current-students-2/mba-programs-and-concentrations/healthcare-mba-degree-requirements>) for additional information.

## REQUIREMENTS

The following requirements must be fulfilled: 55.5 credits, including 31.5 credits in required courses, 12 credits health care-focused elective courses, and 12 credits in general elective courses. Additional information regarding curriculum requirements is provided below.

Code	Title	Credits
<b>Required</b>		
MBAD 6202	Foundational Management Topics in Health Care	
MBAD 6211	Financial Accounting	
MBAD 6213	Cases in Management Accounting	
MBAD 6223	Operations Management	
MBAD 6224	Decision Making and Data Analysis	
MBAD 6235	Finance	
MBAD 6242	Microeconomics for the World Economy	
MBAD 6245	Global Perspectives	
MBAD 6263	Organizations and Human Capital	
MBAD 6274	Marketing	
MBAD 6288	Strategic Management	
MBAD 6289	Business Ethics and Public Policy	

#### Health care-focused electives

12 credits in health care-focused courses taken in the School of Business (GWSB) and School of Medicine and Health Sciences (SMHS). A list of approved courses is available on the Health Care MBA Program website and in DegreeMAP.

#### General electives

12 credits of general electives in courses offered by any GWSB department; courses must be numbered 6000 and above.

Students may apply to waive up to 6 credits in designated required courses. If approved, the student does not need to complete the waived course at GWSB. However, the total number of credits required to complete the program will not be reduced and the student must replace the waived course with general elective credits to fulfill graduation requirements. See the course waiver policy (<http://business.gwu.edu/current-students-2/academic-policies/core-course-waivers>) for details.

Health care-focused and general elective courses must be taken for a letter grade, with the exception of courses taken in

the Law School; Law School courses are given a letter grade, which is converted to a grade of *CR* on the transcript.

Up to 12 credits in general electives may be completed in courses taken outside of GWSB/SMHS; up to 6 of those credits may be taken outside of the University. This 12-credit maximum may include approved transfer credit, credit earned through the Consortium, and credit earned in graduate-level courses completed at GW outside of GWSB/SOMHS.

## PROFESSIONAL MASTER OF BUSINESS ADMINISTRATION

The professional master of business administration degree program helps students to achieve proficiency in the fundamentals of business and to see the growing value in ethical leadership, globalization, sustainability, and social responsibility.

This flexible part-time program is offered in on-campus (self-paced or cohort options), online, and hybrid formats, allowing students to design a course schedule that meets their individual needs. With 27 credits in elective courses included in the program of study, students also are able to tailor the degree to meet their professional goals. The cohort option is structured to be completed in three years; however, students may take up to five years to complete any of the three program options.

Visit the program website for additional program information.

### REQUIREMENTS

The following requirements must be fulfilled: 55.5 credits, including 28.5 credits in required courses and 27 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
MBAD 6211	Financial Accounting	
MBAD 6213	Cases in Management Accounting	
MBAD 6223	Operations Management	
MBAD 6224	Decision Making and Data Analysis	
MBAD 6235	Finance	
MBAD 6242	Microeconomics for the World Economy	
MBAD 6245	Global Perspectives	
MBAD 6263	Organizations and Human Capital	
MBAD 6274	Marketing	

MBAD 6288	Strategic Management
MBAD 6289	Business Ethics and Public Policy
<b>Electives</b>	
Electives may be in courses numbered 6000 and above in any GWSB department. Up to 12 credits in elective courses may be from outside GWSB.	
MBAD 6298 may not be applied toward PMBA degree requirements.	

## WORLD EXECUTIVE MASTER OF BUSINESS ADMINISTRATION

The world executive master of business administration degree program is designed for accomplished managers and professionals to enhance their organizational effectiveness. The program has a general management focus, with a strong emphasis on leadership, global and local environments, and mastery of key business functions. The 16-month, 52.5-credit program includes core courses, integrative topical courses, electives, residencies, consulting practicums, and a leadership coaching component.

Visit the program website (<http://business.gwu.edu/programs/executive-education/world-executive-mba>) for additional information.

### REQUIREMENTS

The following requirements must be fulfilled: 52.5 credits in required courses.

Code	Title	Credits
<b>Required</b>		
IBUS 6901		
IBUS 6990		
MBAD 6211	Financial Accounting	
MBAD 6213	Cases in Management Accounting	
MBAD 6221	Judgment, Uncertainty, and Decisions	
MBAD 6222	Data Analysis and Decisions

MBAD 6291	Business Communications
MBAD 6296	Business Challenge
MBAD 6297	Business and Innovation
MGT 6301	Negotiations

## GRADUATE COMBINED PROGRAMS

### Dual degrees

- Dual Master of Business Administration and Master of Science in Government Contracts (<http://bulletin.gwu.edu/business/graduate-programs/dual-mba-ms>)
- Dual Master of Business Administration and Master of Science in Information Systems Technology (p. 494)

In the dual MBA/MSIST program, 16.5 to 21 credits may be shared between degree programs, allowing students to graduate more quickly and at a lower cost than if they pursued the two degrees separately. Students take courses for both programs simultaneously and the degrees may be conferred sequentially.

- Dual Master of Business Administration and Master of Science in Project Management (<http://bulletin.gwu.edu/business/graduate-programs/dual-mba-ms-project-management>)
- Dual Master of Business Administration and Master of Arts in Education and Human Development in the Field of Higher Education Administration (p. 465)

In the dual MBA/MAEDHD program, the School of Business accepts up to 15 credits in higher education administration courses toward the MBA degree and GSEHD accepts up to 6 credits in GWSB courses towards the the MAEDHD. Students take courses for both programs simultaneously and the degrees may be conferred sequentially.

### Joint degrees

For joint degree programs, students must be admitted to both schools and/or programs. The two degrees are pursued simultaneously. Students must complete the requirements for both degree programs before either degree can be conferred.

- Joint Master of Business Administration and Master of Science in Finance
- Joint Master of Business Administration and Master of Science in Government Contracts
- Joint Master of Business Administration and Master of Science in Project Management

Students in the above joint programs offered within the School of Business may choose to participate in one of three MBA programs: the full-time cohort Global MBA (<http://business.gwu.edu/programs/masters-of-business-administration/global-mba>) (GMBA), the evening Professional MBA (<http://business.gwu.edu/programs/masters-of-business-administration/professional-mba>) (PMBA), or the Healthcare MBA (<http://www.mbahc.info>) (HCMBA). The joint degree program curriculum includes all required courses for both degrees. Because courses can be taken and counted toward both degrees, students complete anywhere from 16.5 to 21 fewer credits (depending on the specific program) in the joint degree program than if they were completing each degree independently

- Master of Business Administration and Juris Doctor (with the Law School)

Students may apply up to 14 credits of Law School coursework toward the MBA and 12 credits of School of Business coursework toward the JD.

- Master of Business Administration and Master of Arts (with the Elliott School of International Affairs)

Students pursue the MBA in international business and may choose to pursue the MA in any graduate program offered by the Elliott School. The School of Business and the Elliott

school both allow 12 credits to be applied to the other school's degree.

Specific admission requirements is shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the School of Business website (<http://business.gwu.edu/programs/masters-of-business-administration/joint-dual-degree-mba>) for more information on joint degree programs.

## DOCTOR OF PHILOSOPHY IN BUSINESS ADMINISTRATION

---

The doctor of philosophy in business administration is designed to prepare students who wish to pursue academic careers in business. The program consists of two major stages: the pre-candidacy stage and the dissertation stage. During the pre-candidacy stage, students complete coursework and a comprehensive examination, under the guidance of a committee of three faculty members (faculty advisory group). Upon admission to candidacy, students prepare, submit, and defend a dissertation.

### Curriculum requirements

The doctoral curriculum involves two years of formal courses established by each Department and approved by the Doctoral Committee. Students take a minimum of 45 credits during their program (including core courses and a summer paper). Students should consult their Faculty Advisory Group about the required courses and electives for which they should register. The following 30 credits constitute the core requirements for the degree:

- Four required courses in research methods and quantitative analysis (12 credits).
- Four required doctoral seminars that cover important studies in the student's area of interest (12 credits).
- An additional doctoral level seminar from outside the student's area of interest (3 credits).
- A summer research paper during the first or first and second summer, as required by the student's area of interest (3 credits).

The remaining 15 elective credits are chosen in consultation with the student's faculty advisory group. Students should complete at least 39 credits within the first two years from matriculation, and the remaining 6 credits should be completed during the third year.

### Policies for core courses

In general, all core courses should be doctoral courses, i.e., those at the 8000 level. All courses must be taken for letter grades. Required courses cannot be waived without substitution except in unusual circumstances as determined on a case-by-case basis. Examples of unusual circumstances include students holding a specialized master's or doctoral degree where equivalent core courses were taken in a

particular area (such as statistics or mathematics). Students may petition the Associate Dean of Research and Doctoral Programs to substitute up to 12 credits of required courses with alternative courses approved by the faculty advisory group.

### Comprehensive examination

After the student completes the coursework and the summer paper requirements, the faculty advisory group and department faculty administer a comprehensive examination. The format of the comprehensive examination is at the discretion of the advisory committee, subject to approval by the doctoral committee when evaluating the study plan. The comprehensive examination establishes the student's mastery of the current and classic literature. The comprehensive exam can be written, in-class or take-home, and may include an oral component. Failure to pass the comprehensive examination in two attempts leads to termination from the program.

### Dissertation

Following successful completion of the comprehensive examination, the student is considered a doctoral candidate, and may form a dissertation committee, and develop a dissertation proposal. During this stage, students prepare, submit, and defend a dissertation.

### Other policies

All course work and required comprehensive examination must be completed within five years of matriculation. All program requirements must be completed within seven years of the date of matriculation.

The doctoral program is administered and supervised by the Associate Dean and the committee on doctoral studies. For more detailed information on the program, please see the Doctoral Program Handbook, available in the GWSB Doctoral Program Office

Visit the program website (<https://business.gwu.edu/academics/programs/doctoral>) for additional information.

## CERTIFICATE PROGRAMS

---

### Post-Master's Certificate Program for School of Business Alumni

The School of Business offers a post-master's graduate certificate designed to assist master's degree alumni of the school in keeping apace of an ever-changing business climate. Participants may undertake a 12-credit program of study in an existing School of Business field or from a series of specially designed program offerings. Further information is available from the Office of the Dean (<https://business.gwu.edu/about-gwsb/meet-the-dean>).

### Graduate Certificate Programs

In addition, the School of Business offers graduate certificate programs of study in the following fields:

- Graduate certificate in accountancy (p. 470)
- Graduate certificate in business analytics (p. 470)

- Graduate certificate in business information systems (p. 471)
- Graduate certificate in business foundations (p. 471)
- Graduate certificate in digital marketing and communications (p. 472)
- Graduate certificate in financial management (p. 472)
- Graduate certificate in hospitality management (p. 473)
- Graduate certificate in human capital (p. 473)
- Graduate certificate in innovation, creativity and entrepreneurship (p. 473)
- Graduate certificate in international business (p. 474)
- Graduate certificate in investments and portfolio management (p. 474)
- Graduate certificate in management leadership (p. 475)
- Graduate certificate in management of technology and innovation (p. 477)
- Graduate certificate in marketing and brand management (p. 475)
- Graduate certificate in nonprofit management (p. 475)
- Graduate certificate in project management (p. 476)
- Graduate certificate in responsible management (p. 476)
- Graduate certificate in sports management (p. 477)
- Graduate certificate in walkable urban development (p. 478)

## GRADUATE CERTIFICATE IN BUSINESS ANALYTICS

The Master of Science in Business Analytics (MSBA) program offers a stand-alone graduate certificate in business analytics. The graduate certificate is available to current GWSB and GW graduate students as well as interested professionals who are not currently enrolled at the University. The credits earned for this certificate are directly transferable towards earning the MSBA degree for up three years after completion of the certificate.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-business-analytics>) for additional program information.

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits total, including 10.5 credits in required courses and 1.5 credits in an elective course.

Code	Title	Credits
<b>Required</b>		
DNSC 6203	Statistics for Analytics I	
DNSC 6206	Stochastic Foundation: Probability Models	

DNSC 6211	Programming for Analytics
DNSC 6279	Data Mining
<b>Electives</b>	
3 credits of the following:	
DNSC 6209	Forecasting for Analytics
DNSC 6214	Pricing and Revenue Management
DNSC 6215	Social Network Analytics
DNSC 6225	Business Process Simulation
DNSC 6251	Optimization Models for Decision Making
DNSC 6252	Risk Analysis for Decision Making
DNSC 6403	Visualization for Analytics
DNSC 6404	Sports Analytics
DNSC 6290	Special Topics (Big Data)
DNSC 6290	Special Topics (Digital Analytics)
DNSC 6290	Special Topics (Machine Learning)
DNSC 6290	Special Topics (Supply Chain Analytics)
DNSC 6290	Special Topics (Social Networking Analysis for Managers)

Students who successfully complete MBAD 6224 or DNSC 6202 with a minimum grade of B+ may substitute this coursework for DNSC 6203 and DNSC 6206.

## GRADUATE CERTIFICATE IN ACCOUNTANCY

The graduate certificate in accountancy offers students a deeper understanding of accounting information. Although the certificate does not qualify students for a CPA, the program is designed to provide a solid understanding of the fundamentals of accounting. Program graduates will be informed users of accounting information, able to apply accounting knowledge in their current disciplines and make more informed decisions.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-accounting>) for additional program information.

# REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
ACCY 6101	Financial Accounting (or equivalent course/experience)	
or MBAD 6211	Financial Accounting	
ACCY 6104	Intermediate Accounting I	
or ACCY 6106	Financial Statement Analysis	
Electives		
6 credits in elective courses from the following:		
SMPP 6215	Corporate Governance and Ethics	
ACCY 6104	Intermediate Accounting I	
ACCY 6105	Intermediate Accounting II	
ACCY 6106	Financial Statement Analysis	
ACCY 6110	International Reporting and Control	
ACCY 6112	International Financial Reporting Standards	
ACCY 6201	Cases in Management Accounting I	
ACCY 6202	Cases in Management Accounting II	
ACCY 6203	Controls, Alignment and the Organization	
ACCY 6302	Fraud Examination and Forensic Accounting	
ACCY 6401	Federal Income Taxation	
ACCY 6402	Federal Income Taxation of Partnerships	
ACCY 6501	Accounting Information Systems and EDP	
ACCY 6701	Government and Nonprofit Accounting and Auditing	
ACCY 6900	Special Topics (Nonprofit Accounting)	
ACCY 6900	Special Topics (Management Accounting: Government and Nonprofit)	

ACCY 6900	Special Topics (Taxation for Financial Instruments)
-----------	---

## GRADUATE CERTIFICATE IN BUSINESS INFORMATION SYSTEMS

This certificate provides an overview to the field of information systems. By formal definition information systems is “the study, design, development, application, implementation, support or management of computer-based information systems.” Any specific information system aims to support operations, management, and decision-making. An information system is the technology that an organization uses and the way in which people interact with this technology in support of business processes.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-business-information-systems>)for additional program information.

# REQUIREMENTS

Code	Title	Credits
Required		
ISTM 6200	Python Program Database Applications*	
ISTM 6201	Information Systems Development and Applications	
ISTM 6202	Relational Databases	
Elective		
Students complete 3 credits in any 6000 level ISTM course.		

\*Students may apply for a course waiver for ISTM 6200 based on previous coursework or professional experience. Students who are approved for the waiver must complete 6 credits of electives. See academic advisor for more information.

## GRADUATE CERTIFICATE IN BUSINESS FOUNDATIONS

Designed for students without a prior degree in business, the graduate certificate in business foundations program provides students with a basic foundation in the essential functional disciplines of business: accounting, marketing, finance, and organizational behavior/design.

Visit the School of Business website (<https://business.gwu.edu/academics/programs/certificate>)for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits in required courses.

Code	Title	Credits
<b>Required</b>		
MBAD 6211	Financial Accounting	
MBAD 6235	Finance	
MBAD 6263	Organizations and Human Capital	
MBAD 6274	Marketing	

## GRADUATE CERTIFICATE IN DIGITAL MARKETING AND COMMUNICATION

The graduate certificate in digital marketing and communication is designed to provide students with an understanding of the practice of digital marketing, how it relates to marketing communication and marketing strategy, and the role of analytics. As this area is inherently multidisciplinary, the certificate draws from coursework within various sub-disciplines offered by the Department of Marketing as well as coursework in web analytics and information systems offered by the Departments of Information Systems and Technology Management and Decision Sciences.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-digital-marketing-communications>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Required</b>		
MBAD 6274	Marketing	
MKTG 6252	Digital Marketing	
MKTG 6256	Integrated Marketing Communication	
or MKTG 6248	Advertising and Marketing Communications Strategy	
<b>Elective</b>		
One course from the following:		

DNSC 6279	Data Mining
DNSC 6290	Special Topics (Social Network Analysis for Managers)
ISTM 6209	Web and Social Analytics
ISTM 6211	Data Warehousing and Online Analytical Processing

## GRADUATE CERTIFICATE IN FINANCIAL MANAGEMENT

The graduate certificate in financial management provides background and training in the financial aspects of three broad principal business functions: obtaining necessary capital, investing the capital into the firm's asset and operations, with the purpose of ethically maximizing the value to shareholders, and distributing the profits resulting from product/service sales to shareholders.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-financial-management>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Pre-Requisite</b>		
MBAD 6211	Financial Accounting	
<b>Required</b>		
MBAD 6235	Finance	
FINA 6221	Financial Decision Making	
FINA 6223	Investment Analysis and Portfolio Management	
<b>Elective</b>		
One course from the following:		
ACCY 6106	Financial Statement Analysis	
FINA 6224	Financial Management	
FINA 6250	Securities Regulation and Financial Scandals	
FINA 6290	Special Topics (Exploring Finance with Simulation)	

# GRADUATE CERTIFICATE IN HOSPITALITY MANAGEMENT

The graduate certificate in hospitality management provides students with specialized knowledge in hotel development and operations; the former serves ownership groups by providing investment advice in market analysis, feasibility studies, and asset management and the latter focuses on hospitality management functions using different business models, including management contract, franchise agreement, and leasehold.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-hospitality-management>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
TSTD 6221	Hospitality Market Analysis	
TSTD 6249	Sustainable Destination Development	
Electives		
Two courses from the following:		
TSTD 6220	International Hospitality Management	
TSTD 6270	Research Methods and Applications	
TSTD 6282	International Experiences	
TSTD 6296	Hospitality Digital Marketing Strategies	

# GRADUATE CERTIFICATE IN HUMAN CAPITAL

The Graduate Certificate in Human Capital provides deep knowledge of the practices and research based disciplines of Human Capital and Human Resource Management. Participants learn how human capital contributes to the core strategy of an organization. Courses cover key areas associated with human resource competencies as well as knowledge associated with the psychology of people, organizations, and careers. Human capital theory is presented in a practical way, targeted towards HR generalists or non-human resource managers interested in understanding the strategic function of HR in organizations. The program builds on the strengths of GWSB in the areas of human capital development.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-human-capital>)for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and one 3-credit elective course.

Code	Title	Credits
Required		
MBAD 6263	Organizations and Human Capital	
MGT 6290	Special Topics (People Analytics, 3 credits)	
MGT 6290	Special Topics (Strategic Human Resources Management, 3 credits)	
Electives		
One of the following courses:		
MGT 6210	Leading Teams	
MGT 6253	Leadership and Executive Development	
MGT 6259	Employment Law and Ethics	

# GRADUATE CERTIFICATE IN INNOVATION, CREATIVITY, AND ENTREPRENEURSHIP

The graduate certificate in innovation, creativity, and entrepreneurship broadens the field of study from beyond the primary focus of starting a new venture to include exploring how one acts more entrepreneurial, takes risks, and creatively introduces new innovations and combinations in organizations both large and small. The foundation of the graduate certificate is the core introductory course, MGT 6280 Entrepreneurship, which introduces students to the concentration and the importance and benefits of entrepreneurship

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-innovation-creativity-entrepreneurship>)for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including one 3-credit required course and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
MGT 6280	Entrepreneurship	
<b>Electives</b>		
Three courses from the following:		
MGT 6281	Small Business Management	
MGT 6282	New Venture Initiation	
MGT 6283	Strategic Entrepreneurship	
MGT 6284	Family Business Management	
MGT 6285	Social Entrepreneurship	
MGT 6286	Creativity and Innovation	
ISTM 6234	New Venture Financing	

## GRADUATE CERTIFICATE IN INTERNATIONAL BUSINESS

The graduate certificate in international business is designed to prepare students to succeed and lead in today's global economy. Upon completion of the program, participants should expect to have the skills and knowledge to assess and act upon the opportunities and challenges in the global business environment.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-international-business>) for additional program information.

### REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including one 3-credit required course and 9 credits in elective courses.

Code	Title	Credits
<b>Program prerequisite</b>		
Must be completed before beginning the certificate program.		
MBAD 6245	Global Perspectives	
<b>Required</b>		
ACCY 6900	Special Topics (Macroeconomics for the Global Economy)	
<b>Electives</b>		

9 credits in elective courses in any 6000 level IBUS course and the following:

ACCY 6110	International Reporting and Control
ACCY 6112	International Financial Reporting Standards
ECON 6269	Economy of China I
ECON 6285	Economic Development of Latin America
ECON 6292	Topics in International Trade
ECON 6293	Topics in International Finance
ECON 6294	Topics in Economic Development
IAFF 6158	Special Topics in International Science and Technology Policy
PSC 6439	International Political Economy

## GRADUATE CERTIFICATE IN INVESTMENTS AND PORTFOLIO MANAGEMENT

### REQUIREMENTS

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-investments-portfolio-management>) for additional program information.

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Required</b>		
MBAD 6235	Finance	
FINA 6223	Investment Analysis and Portfolio Management	
FINA 6239 or FINA 6290	Applied Portfolio Management * Special Topics	
FINA 6242	Real Estate Valuation and Investment	

\*If FINA 6290 is taken, it must be on the topic of Investment Analysis Venture Capital.

# GRADUATE CERTIFICATE IN MANAGEMENT LEADERSHIP

## REQUIREMENTS

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-management-leadership>)for additional program information.

The following requirements must be fulfilled: 12 credits, including 6 credits in required course and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
MBAD 6263	Organizations and Human Capital	
MGT 6210	Leading Teams	
<b>Electives</b>		
6 credits from the following:		
MGT 6215	Conflict Management and Negotiations	
MGT 6253	Leadership and Executive Development	
MGT 6277	Critical Thinking Skills for Executive Leadership	
MGT 6290	Special Topics (Leadership Practices and Perspectives)	

# GRADUATE CERTIFICATE IN MARKETING AND BRAND MANAGEMENT

The graduate certificate program in marketing and brand management program is designed for entry- and mid-level managers as well as top executives who are interested in learning how to manage brands strategically to help their organizations create customer value, building loyalty and name recognition. The program also emphasizes how organizations design brand identity, manage customer experience, measure and analyze brand performance, and differentiate brand communication strategies.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-marketing-brand-management>)for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and one 3-credit elective course.

Code	Title	Credits
<b>Required</b>		
MBAD 6274	Marketing	
MKTG 6248	Advertising and Marketing Communications Strategy	
or MKTG 6256	Integrated Marketing Communication	
MKTG 6255	Strategic Brand Management	
<b>Elective</b>		
One course from the following:		
IBUS 6201	International Marketing	
MKTG 6242	Buyer Behavior	
MKTG 6243	Marketing Research	
MKTG 6246	Marketing of Services	
MKTG 6251	Product Management	

# GRADUATE CERTIFICATE IN NONPROFIT MANAGEMENT

The graduate certificate in nonprofit management provides an overview of central concepts in managing nonprofit organizations and is intended to meet the needs of students seeking a focused experience in order to prepare for or advance their careers in the nonprofit sector. Certificate students enroll in regular courses of the Trachtenberg School of Public Policy and Public Administration and earn graduate credit.

Visit the School of Business website (<https://business.gwu.edu/academics/programs/certificate>)for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits.

Code	Title	Credits
<b>Required</b>		
PPPA 6031	Governing and Managing Nonprofit Organizations	

PPPA 6032 Managing Fund Raising and Philanthropy

### Elective

Two of the following

PPPA 6016 Public and Nonprofit Program Evaluation

PPPA 6033 Nonprofit Enterprise

PPPA 6034 Managing Nonprofit Boards

PPPA 6053 Financial Management for Public and Nonprofit Organizations

PPPA 6058 International Development NGO Management

Other Trachtenberg School of Public Policy and Public Administration nonprofit courses may be offered periodically. With prior approval of the field advisor, certain non-Trachtenberg School courses at GW may be counted toward the elective group.

## GRADUATE CERTIFICATE IN PROJECT MANAGEMENT

The master of science in project management program (MSPM) is enhanced by its related graduate certificate in project management. The certificate is available to current GWSB students as well as those not enrolled in a graduate degree program. The certificate program is designed to provide students with detailed coverage of basic concepts and theories of project management and related skills, preparing students to succeed in a project environment. Up to the total 12 credits earned for the certificate may count toward requirements for the MSPM degree.

Visit the program website (<https://business.gwu.edu/graduate-certificate-project-management>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled 12 credits, including one 3-credit required course and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
DNSC 6261	Introduction to Project and Program Management	
<b>Electives</b>		

9 credits of elective coursework chosen from the following options:

DNSC 6202	Statistics for Managers
or MBAD 6224	Decision Making and Data Analysis
DNSC 6247	Organization, Management, and Leadership
or MBAD 6263	Organizations and Human Capital
DNSC 6254	Risk Management
DNSC 6257	Cost Estimation and Control
DNSC 6258	Executive Decision Making
DNSC 6267	Planning and Scheduling

## GRADUATE CERTIFICATE IN RESPONSIBLE MANAGEMENT

The graduate certificate in responsible management (CRM) program is designed to enhance the preparation of students as responsible leaders. Students participate in seminars, projects, courses, and service in a variety of topic areas, including global strategy, ethics, corporate social responsibility, international development, peace, energy, and the environment. These academic opportunities provide students with the knowledge, proficiencies, and skills needed to succeed as leaders in governmental, industry, and consumer oversight.

The CRM program is open only to GW graduate students. Students often begin the CRM program as early as their first semester and at least one year prior to graduation.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-in-responsible-management>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including one required 3-credit course, one required 0-credit course, and 9 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
MBAD 6289	Business Ethics and Public Policy	
<b>Electives</b>		
9 credits from the following:		
DNSC 6401	Sustainable Supply Chains	

FINA 6290	Special Topics (Microfinance: Fin. Services for Poor)
IAFF 6138	Special Topics in International Development Studies (M&E for Foreign Assistance Programs)
IBUS 6402	Managing in Developing Countries
MGT 6285	Social Entrepreneurship
MGT 6290	Special Topics (Global Entrepreneurship)
PPPA 6085	Special Topics in Public Policy
PUBH 6004	Environmental and Occupational Health in a Sustainable World
SMPP 6202	Business-Government Relations
SMPP 6210	Strategic Environmental Management
SMPP 6211	Corporate Environmental Management in Developing Nations
SMPP 6215	Corporate Governance and Ethics
SMPP 6216	Public Policy, Governance, and the Global Market
SMPP 6218	Topics in Business and Society
SMPP 6241	Global Corporate Responsibility
SMPP 6290	Special Topics (Public Private Partnerships)
SMPP 6290	Special Topics (Strategic Management & Environmental Analysis Within a Development Context)
SMPP 6290	Special Topics (Strategy, Global Markets and Politics)
SMPP 6290	Special Topics (Sustainable and Responsible Investing)

In addition to completing curriculum requirements, students are expected to:

Attend two seminars, panel discussions, conferences, or other events related to the CRM mission, and write a short summary of each event;

Complete 20 hours of extracurricular activities by participating in a qualifying student organization and/or performing community service; and,

Complete a research paper that examines one or more CSR issues as described in a corporation's sustainability report. The research project is submitted as a 10-page paper and a 10-minute PowerPoint presentation.

## GRADUATE CERTIFICATE IN SPORTS MANAGEMENT

The sport and recreation industry is estimated to be almost \$500 billion with more than \$60 billion derived from professional sports alone. The industry includes the management and marketing of youth to professional sport organizations and athletes as well as sport media, sporting goods, health/sport clubs, and venues. The graduate certificate in sport management helps prepare student to enter all areas of the field with a strong understanding of sport marketing, sport media, sport law, and sport facilities.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-in-responsible-management>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits in required courses.

Code	Title	Credits
<b>Required</b>		
TSTD 6264	Sport Marketing	
TSTD 6265	Sport Law: Contracts and Negotiations	
TSTD 6266	Sport and Event Facility Management	
TSTD 6267	Sport Media and Communications	

## GRADUATE CERTIFICATE IN MANAGEMENT OF TECHNOLOGY AND INNOVATION

This graduate certificate program provides a broad treatment of the management of science and technology as well as innovation. The curriculum focuses on the management of organizations and the professional workforce involved in conceiving, developing, and delivering products and services involving technology of all kinds.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/graduate-certificate-management-technology-innovation>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
<b>Required</b>		
ISTM 6224	Management of Technology and Innovation	
ISTM 6233	Emerging Technologies	
or ISTM 6223	Technology Entrepreneurship	
<b>Electives</b>		
Two courses from the following: *		
ISTM 6204	Information Technology Project Management	
ISTM 6222	IS/IT Strategy and Implementation	
ISTM 6223	Technology Entrepreneurship	
ISTM 6234	New Venture Financing	
ISTM 6239	Seminar: Competitiveness/Technology	

\*Students may take other elective courses from the MSIST curriculum or from other departments with the advisor's approval.

## GRADUATE CERTIFICATE IN WALKABLE URBAN DEVELOPMENT

The graduate certificate in walkable urban development program provides coursework in the practical foundations of walkable urban real estate development and place management. Real estate development in the United States has been transitioning from building and financing single-use properties in the suburbs to building, financing, and managing complex mixed-use projects in walkable urban cores. This program provides students with the tools necessary to finance, develop, and manage these emerging communities.

Visit the program website (<https://business.gwu.edu/academics/programs/certificate/walkable-urban-real-estate-development>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including one 3-credit required course and 9 credits in selected courses.

Code	Title	Credits
<b>Required</b>		
FINA 6290	Special Topics	
One of the following:		
FINA 6240	Real Estate Development	
FINA 6290	Special Topics (Foundations in Real Estate Law)	
FINA 6290	Special Topics (Strategic Planning for Real Estate Companies)	
PSUS 6204	Land Use Law	
One of the following:		
FINA 6241	Financing Real Estate	
FINA 6242	Real Estate Valuation and Investment	
One of the following:		
PSUS 6202	Urban and Environmental Economics	
PSUS 6235	Advanced Topics in Urban Sustainability	

## ACCOUNTANCY

The GW School of Business' bachelor of accountancy and master of accountancy degree programs prepare students to make significant contributions to both private and public organizations in the global economy. In addition to a rigorous program of study, students gain practical experience through internships and the opportunity to study the stock market in a classroom outfitted like a Wall Street trading venue. The faculty coordinates access to executives in high-profile firms and agencies and government officials to help students further their exposure to, and training in, the discipline.

Visit the department website (p. 478) for more information.

## UNDERGRADUATE

### Bachelor's program

- Bachelor of Accountancy (p. 436)
- Bachelor of Business Administration (p. 444)

### Combined programs

- Combined Bachelor of Accountancy and Master of Accountancy (BAccy/MAccy) (<http://bulletin.gwu.edu/business/dual-ba-ma-accountancy>)
- Combined Bachelor of Business Administration and Master of Accountancy (BBA/MAccy) (<http://bulletin.gwu.edu/business/dual-bba-ma-accountancy>)

# GRADUATE

## Graduate Certificate

- Graduate Certificate in accountancy (p. 470)

## Master's program

- Master of Accountancy (p. 458)

## FACULTY

**Professors** S.H. Kang, C. Linsley (*Teaching*), A. Lusardi

**Associate Professors** A. Gore, C.L. Jones (*Teaching*), S. Kulp, F. Lindahl, L.C. Moersen, R.L. Tarpley (*Chair*), Y. Xue, Y. Zhang

**Assistant Professors** J. Potepa, O. Rozenbaum, E. Sul, L. Tan, K. Welch, J. Zha Giedt, Y. Zou

**Teaching Instructors** S. Lancaster

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **ACCY 2001. Introduction to Financial Accounting. 3 Credits.**

Fundamental concepts underlying financial statements and the informed use of accounting information; analysis and recording of business transactions; preparation and understanding of financial statements; measurement of the profitability and financial position of a business. Restricted to sophomores.

#### **ACCY 2002. Introductory Managerial Accounting. 3 Credits.**

The use of accounting information to plan and control the activities of a business. Several widely used methods of determining the cost of business activities for use in making business decisions. Prerequisite: ACCY 2001.

#### **ACCY 3101. Intermediate Accounting I. 3 Credits.**

Financial accounting concepts underlying the preparation and interpretation of financial statements. Topics include revenue and expense recognition; accounting for receivables, inventories, fixed assets, intangible assets, and liabilities. Prerequisite: ACCY 2001.

#### **ACCY 3102. Intermediate Accounting II. 3 Credits.**

Financial accounting concepts underlying the preparation and interpretation of financial statements; accounting for stockholders' equity, earnings per share, debt and equity investments, income taxes, pensions and other postretirement benefits, accounting changes, statements of cash flows, financial statement analysis, and disclosure. Prerequisites: ACCY 3101 or permission of instructor.

#### **ACCY 3106. Financial Statement Analysis. 3 Credits.**

Introduction to the analysis and interpretation of corporate financial statements within the context of a company's industry and economic environment. Cash flow analysis, profitability and risk analysis, accounting policy analysis, forecasting and performance analysis, elements of equity valuation, and decision perspectives of creditors. Students cannot earn credit for both this course and ACCY 4801. Prerequisite: ACCY 2002.

#### **ACCY 3401. Federal Income Tax: Individuals. 3 Credits.**

A study of federal income tax concepts, including what shall be taxed, and when, and at what rate. Taxable entities, income measurement, the use of different tax rates for different types of income, and the use of the tax laws to motivate taxpayer behavior to achieve economic goals.

#### **ACCY 3403. Advanced Tax. 3 Credits.**

Taxation of partnerships, corporations, and their owners. Formation, operation, and liquidation of each type of entity. Financial and tax accounting for each type of transaction, with the goal of gaining a better understanding of each system by comparing and contrasting it with the other one. Prerequisites: ACCY 2001 and ACCY 3401.

#### **ACCY 3601. Business Law: Contracts, Torts, and Property. 3 Credits.**

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

#### **ACCY 4107. Advanced Accounting. 3 Credits.**

Accounting for corporate combinations, foreign currency financial statements, and derivative financial instruments. Governmental and not-for-profit accounting. Prerequisites: ACCY 3101 and ACCY 3102.

#### **ACCY 4301. Auditing. 3 Credits.**

A study of generally accepted auditing standards and accepted professional auditing practices and procedures, including reviewing and evaluating financial controls, auditing financial statements, and testing financial data of manual and automated accounting systems. Prerequisite: ACCY 3102.

#### **ACCY 4501. Accounting Systems. 3 Credits.**

Introduction to the design and operation of accounting systems and data management controls. Principles and applications of internal control applicable to manual and automated accounting systems. Prerequisite: ACCY 3102.

**ACCY 4601. Business Law: Enterprise Organization. 3 Credits.**

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, secured credit financing, and commercial paper. Prerequisite: ACCY 2001.

**ACCY 4801. Financial Accounting Capstone. 3 Credits.**

Synthesis and application of knowledge of financial accounting to specific contexts, using the perspectives of the preparer and user of financial statements. Students cannot earn credit for both this course and ACCY 3106. Restricted to seniors only.

**ACCY 4900. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. Restricted to department approval.

**ACCY 4995. Independent Study. 3 Credits.**

Assigned topics. Admission by permission of the department chair.

**ACCY 6101. Financial Accounting. 3 Credits.**

The basic concepts and methods used in financial reports for understanding their content and context. The income statement, balance sheet, and statement of cash flows. Detailed accounting procedures and choices. How the most important accounting procedures are calculated and how different choices impact financial statements. Same as MBAD 6211.

**ACCY 6104. Intermediate Accounting I. 3 Credits.**

Accounting principles and concepts for financial accounting and reporting; emphasis on the preparation of general-purpose financial statements. Restricted to School of Business graduate degree students. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6105. Intermediate Accounting II. 3 Credits.**

Revenue recognition, employee compensation and pension plans, income tax expense, and earnings per share. Prerequisites: ACCY 6101 and ACCY 6104.

**ACCY 6106. Financial Statement Analysis. 3 Credits.**

Analysis and interpretation of financial statements for managers, stockholders, creditors, and financial analysts; ratio-driven financial analysis; earnings-based and cash-flow-based equity valuation; sales and EPS forecasting; preparation of projected financial statements. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6110. International Reporting and Control. 1.5 Credit.**

International comparisons of forces that shape financial management, such as corporate governance mechanisms, tax policies, economic development, and privatization. Same as IBUS 6308.

**ACCY 6112. International Financial Reporting Standards. 1.5 Credit.**

Financial reporting standards that are used throughout most of the world other than the United States. Comparisons of these standards with those of the United States. Prerequisites: ACCY 6101 and MBAD 6211. (Same as IBUS 6310).

**ACCY 6113. Financial Decision-Making by Consumers and Professionals. 3 Credits.**

Tools and applications necessary to evaluate the wide range of financial decisions individuals, both consumers and professionals, make throughout their lifetime. The course is also intended for those interested in becoming financial advisors and/or CPAs.

**ACCY 6201. Cases in Management Accounting I. 1.5 Credit.**

Effective use of internal generation, communication and interpretation of information for both operational and strategic decision-making purposes. Prerequisites: ACCY 6101 and MBAD 6211. (Same as MBAD 6213).

**ACCY 6202. Cases in Management Accounting II. 1.5 Credit.**

Further topics in applying concepts of control and decision analysis to optimize the financial management of organizations. Prerequisites: ACCY 6201 and MBAD 6213.

**ACCY 6203. Controls, Alignment and the Organization. 1.5 Credit.**

This course looks at the role accounting plays in decision making and control issues within organizations. Good decisions require good information: accounting provides information on budgets, costs, inventory and financial statements. Control involves aligning the interests of employees with interests of the shareholders. Performance measures, compensation and incentive contracts and internal audit constitute important control mechanisms.

**ACCY 6204. Managerial Accounting for Government and Nonprofits. 1.5 Credit.**

Builds on basic understanding of managerial accounting concepts and examines issues in the government and nonprofit realm; leveraging core concepts to analyze and report on real world scenarios. Prerequisite: None.

**ACCY 6301. Contemporary Auditing Theory. 3 Credits.**

A comprehensive survey of contemporary auditing as practiced by external auditors (primarily certified public accountants) and internal auditors (those employed within government and corporate entities). Generally accepted auditing standards; government auditing standards. Planning, directing, and reporting on various audits. Corequisite: ACCY 6104. Prerequisites: ACCY 6101 or MBAD 6211.

**ACCY 6302. Fraud Examination and Forensic Accounting. 3 Credits.**

Financial statement fraud, misappropriation of assets, and methods of deterrence, prevention, detection, and investigation. Prerequisites: ACCY 6101 and MBAD 6211. Recommended background: One auditing course.

**ACCY 6401. Federal Income Taxation. 3 Credits.**

A study of federal income taxation, covering gross income, deductions and credits, sales and other disposition of property, capital gains and losses, and timing of income and deductions.

**ACCY 6402. Federal Income Taxation of Partnerships. 3 Credits.**

Financial and tax accounting for partnerships; formation and operation, distribution to partners, liquidation, and transfer of partnership interests. S corporations are also considered. Prerequisite: ACCY 6401.

**ACCY 6403. Federal Income Taxation of Corporations. 3 Credits.**

Federal income taxation of C corporations, covering formation, capital structure, nonliquidating distributions, complete liquidations, corporate accumulations, and the alternative minimum tax.

**ACCY 6404. Taxation of Financial Instruments. 3 Credits.**

Overview of the economics and taxation of financial instruments; transactions in stock, debt instruments, commodities, options, short sales, wash sales, straddles, futures, foreign currency transactions, swaps, hedging, mark to market tax accounting, and time value of money. An equivalent course may be substituted for prerequisite ACCY 6101. Prerequisites: ACCY 6101 and ACCY 6401.

**ACCY 6501. Accounting Information Systems and Electronic Data Processing. 3 Credits.**

Development and application of accounting system theory, including analysis, design, control concepts, and implementation; integration of electronic data processing, accounting systems, and management information systems. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6601. Business Law: Contracts, Torts, and Property. 3 Credits.**

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

**ACCY 6602. Business Law: Enterprise Organization. 3 Credits.**

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, suretyship, secured credit financing, and commercial paper.

**ACCY 6701. Government and Nonprofit Accounting and Auditing. 3 Credits.**

The budgeting, accounting, financial reporting, and auditing required of federal, state, and local governments, nonprofit organizations, and colleges and universities. The financial practices and requirements applicable to organizations receiving governmental financial assistance and those subject to governmental audits. Prerequisites: ACCY 6101 and MBAD 6211.

**ACCY 6801. Corporate Governance and Ethics. 3 Credits.**

The theory, practice, and public policy environment of corporate governance. Purpose, functioning, and responsibilities of boards of directors. Power, control, and compensation of corporate management. Shareholders and stakeholders. Corporate governance in comparative national settings. Same as SMPP 6215.

**ACCY 6900. Special Topics. 1-3 Credits.**

Experimental offering; new course topics and teaching methods.

**ACCY 6998. Directed Readings and Research. 1-3 Credits.**

**ACCY 8001. Doctoral Seminar. 1-12 Credits.**

Reasoning and research in technical areas of accounting; theoretical issues and their application to practice; conceptual themes in professional literature; comparative accounting research analyses.

**ACCY 8009. Dissertation Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

**ACCY 8999. Advanced Reading and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

## MASTER OF ACCOUNTANCY

GW's 30-credit master of accountancy (MAccy) degree program is tailored to the student's individual interests and career objectives in accounting, financial management, and tax practice. In addition to required courses in accounting, finance, and economics, students can choose from a wide range of specialized accounting subjects and other topics to help them prepare for their professional certification. If not completed prior to matriculation, students might be required to take prerequisite courses while in the program. No business background is necessary prior to joining the program.

The MAccy may be pursued on a full-time or part-time basis. Day and evening classes are available to accommodate working professionals, although prior work experience is not required.

Visit the program website (<http://business.gwu.edu/current-students-2/specialized-masters-programs/maccy-degree-requirements>) for additional program information.

## REQUIREMENTS

The following requirements must be fulfilled: 30 credits, including 15 credits in required courses and 15 credits in elective courses.

In addition, students must fulfill preparatory courses in financial accounting, managerial accounting, micro- or macroeconomics, and statistics.

Code	Title	Credits
<b>Preparatory courses</b>		
ACCY 6101	Financial Accounting	
or ACCY 2001	Introduction to Financial Accounting	
ACCY 2002	Introductory Managerial Accounting	

MBAD 6242	Microeconomics for the World Economy
or MBAD 6243	Macroeconomics for the World Economy

STAT 1051 Introduction to Business and Economic Statistics

Students that have not completed these courses prior to matriculation may be able to take them concurrently with the program requirements.

#### Required

ACCY 6104	Intermediate Accounting I
ACCY 6105	Intermediate Accounting II
ACCY 6201	Cases in Management Accounting I
ACCY 6202	Cases in Management Accounting II
ACCY 6301	Contemporary Auditing Theory
MBAD 6235	Finance

#### Electives

15 credits in elective courses, including 9 credits in accountancy (ACCY) courses.

Students who intend to take the C.P.A. examination should be aware that the coursework required for admission to the examination varies from state to state. Students are advised to consult the Board of Accountancy for the state in which they plan to take the examination and choose electives that meet that state's requirements.

Preparatory courses may be waived *without* substitution for other coursework. Required classes, except for ACCY 6201 and ACCY 6202, may be waived *with* substitution for other coursework for students who:

- Have already completed these courses with a minimum grade of B-
- Have taken these courses at an AACSB - accredited institution
- Have taken these courses within five years prior to the first semester of enrollment into the program

Students should consult with the advisor concerning course substitution.

## DECISION SCIENCES

### UNDERGRADUATE

#### Bachelor's program

- Bachelor of Business Administration (p. 444)

## Combined programs

- Dual Bachelor of Business Administration and Master of Science in the Field of Business Analytics (<http://bulletin.gwu.edu/business/dual-bba-msba>)
- Dual Bachelor of Business Administration with a Major in Project Management and Master of Science in the Field of Project Management (<http://bulletin.gwu.edu/business/dual-bba-ms-project-management>)

## GRADUATE

### Master's programs

- Master of Science in Business Analytics (p. 459)
- Master of Science in Project Management (p. 461)

## FACULTY

**Professors** P.K. Bagchi, E.H. Forman, M.A. Lejeune, T.A. Mazzuchi, R. Soyer, M.M. Tarimcilar, J.R. van Dorp, P.W. Wirtz

**Associate Professors** P. Delquie (*Teaching*), S. Jain (*Teaching*), H. Khamooshi (*Teaching*), A. Jarrah, S. Kanungo (*Chair*), Y.H. Kwak, S.Y. Prasad,

**Assistant Professors** M. Altug, J.S. Kettunen, M.E. Matta (*Teaching*)

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

#### **DNCS 1001. Business Analytics I: Statistics for Descriptive and Predictive Analytics. 3 Credits.**

Foundations of probability and statistical methodologies used in business analytics; probability laws, probability models, univariate and bivariate models and their applications, sampling, hypothesis testing, contingency table analysis, simple and multiple linear regression models.

**DNSC 2001. Business Analytics II: Predictive and Prescriptive Analytics. 3 Credits.**

Builds on the foundations of probability and statistical methodologies covered in DNSC 1001. Categorical data analysis; design of experiments and analysis of variants (ANOVA); multiple regression; parameter estimation and testing; residual analysis; indicator variables; model selection procedures; logistic regression; and applications of optimization models. Prerequisites: DNSC 1001 or STAT 1051 or STAT 1053 or STAT 1111.

**DNSC 3401. Introduction to Business Analytics. 3 Credits.**

Fundamentals of business analytics: what information it provides, how and when that information is used, and how it affects decision making. Working with uncertainty; understanding the dynamic nature of decision making; using data, regardless of its size; and making decisions with incomplete data. The simulation of real-life scenarios to support optimal decision making. Prerequisites: APSC 3115 or STAT 1051 or STAT 1053 or STAT 1111.

**DNSC 3402. Data Mining. 3 Credits.**

The practice of exploring and discovering actionable business intelligence from large amounts of data; concepts, methods, and tools; supervised and unsupervised data mining techniques for discovering relationships in large data sets and building predictive models; regression models, decision trees, neural networks, clustering, and association analysis. Prerequisites: APSC 3115 or STAT 1051 or STAT 1053 or STAT 1111; Math 1231 or Math 1252.

**DNSC 3403. Decision Models. 3 Credits.**

Designing and developing decision models using Microsoft Excel and specialized decision support add-ins; interpreting the models' outputs. Equivalent courses may be substituted for the prerequisites. Prerequisites: DNSC 2001 or STAT 2112 or STAT 2118 or ECON 2123 or STAT 2123.

**DNSC 4211. Programming for Analytics. 3 Credits.**

Handling and preparing data for business analytics; descriptive, predictive and prescriptive analytics; creating data stories in collaboration with and for end users and information consumers; scripting, publishing, and collaborating for data products. Prerequisites: DNSC 1001 and DNSC 2001. Recommended background: Some prior knowledge of a programming.

**DNSC 4279. Data Mining. 3 Credits.**

The practice of exploring and discovering actionable business intelligence from large amounts of data. Equivalent courses may be substituted for prerequisites DNSC 1001 and DNSC 2001. Prerequisites: DNSC 1001 and DNSC 2001; and Math 1231 or Math 1252.

**DNSC 4403. Decision Models. 3 Credits.**

Design and development of decision models using spreadsheet software with decision support add-ins; interpreting decision model outputs; commonly used classes of models; decision analysis spanning business disciplines. Restricted to juniors and seniors.

**DNSC 4404. Essentials of Project Management. 3 Credits.**

Theoretical foundations of and practical insights into project management; the role of project management in contemporary business and government organizations; the link between projects and strategy. Project design and development.

**DNSC 4900. Special Topics. 0-3 Credits.****DNSC 6201. Introduction to Business Analytics. 1.5 Credit.**

An introduction to business analytic concepts, methods, and tools with concrete examples from industry applications; Big Data and the opportunities it has created for businesses to store, organize, and analyze vast amounts of information. Completion of a basic course in statistics prior to enrollment is recommended.

**DNSC 6202. Statistics for Managers. 3 Credits.**

Mathematical and statistical concepts employed in the solution of managerial problems. Applications of functions, elements of calculus, and linear algebra. Introduction to probability, frequency distributions, statistical inference, and regression and correlation.

**DNSC 6203. Statistics for Analytics I. 1.5 Credit.**

The foundations of statistical methodologies used in business analytics; statistical inference and probability models; methods of estimation, hypothesis testing, contingency table analysis, analysis of regression models and logit and probit analysis. Corequisite: DNSC 6206. Restricted to students in the MS in business analytics and graduate certificate in business analytics programs or with departmental permission.

**DNSC 6206. Stochastic Foundation: Probability Models. 1.5 Credit.**

Introduces the foundations of probability, along with the commonly used probability models (binomial, normal, and poisson) in predictive analytics. Restricted to students in the MS in business analytics and graduate certificate in business analytics programs or with departmental permission.

**DNSC 6207. Applied Probability Models. 1.5 Credit.****DNSC 6208. Computational Optimization. 3 Credits.****DNSC 6209. Forecasting for Analytics. 1.5 Credit.**

Predictive analysis and use of blackbox models for time-series forecasting. Identifying hidden patterns and structures in the data and exploiting these for forecasting. Prerequisites: MBAD 6224 or DNSC 6202.

**DNSC 6210. Decision and Risk Analytics. 1.5 Credit.**

Concepts, methods, and practical tools to analyze managerial decisions involving risk and uncertainty. For the prerequisites, DNSC 6206 must be taken before DNSC 6203. DNSC 6206 and DNSC 6203; and DNSC 6202 OR MBAD 6224 Restricted to students in the master of science in business analytics degree program or with program approval. Prerequisites: DNSC 6206 and DNSC 6203; and DNSC 6202 OR MBAD 6224.

**DNSC 6211. Programming for Analytics. 3 Credits.**

Accessing, preparation, handling, and processing data that differ in variety, volume, and velocity. The ability to handle and process data is a core capability in the context of any analytics position in the industry. Development of a theoretical grounding in emerging paradigms like schema-less data. The programming environments typically employed include Python and R.

**DNSC 6212. Optimization Methods and Applications. 3 Credits.**

Linear, network, integer, and nonlinear models and their fundamental underlying analytic concepts and solution methods; model development, formulation, solution and interpretation of results using powerful commercial software; intuitive understanding of solution methods and their underpinning theoretical paradigms for effective use of optimization models. Restricted to students in the master of science in business analytics degree program or with the permission of the instructor.

**DNSC 6213. Statistics for Analytics II. 1.5 Credit.**

Statistical methodologies for business analytics in real world scenarios; introduction of high-level analytical techniques such as hierarchical linear modeling and mixed-effects modeling. Restricted to students in the MS in business analytics and graduate certificate in business analytics programs or with permission of the department. Prerequisite: DNSC 6203.

**DNSC 6214. Pricing and Revenue Management. 1.5 Credit.**

Methodologies for addressing pricing issues; tactical optimization of pricing and capacity allocation decisions; quantitative models of consumer behavior and constrained optimization. For the prerequisites, DNSC 6206 must be taken before DNSC 6203. Prerequisites: DNSC 6206 and DNSC 6203; and DNSC 6202 or MBAD 6224.

**DNSC 6215. Social Network Analytics. 1.5 Credit.**

Concepts, methods, and applications of network science; analyzing real networks and related phenomena such as organizational analysis, social power, fraud detection, and disease propagation. For the prerequisites, DNSC 6206 must be taken before DNSC 6203. Prerequisites: DNSC 6206 and DNSC 6203; and DNSC 6202 or MBAD 6224. Recommended background: Prior exposure to Python and R scripts.

**DNSC 6216. Business Analytics Skills Workshops. 0-1.5 Credits.**

A series of workshops covering project management techniques for analytics projects, team dynamics skills, communicating quantitative information, and ethics, security, and privacy policies in analytics.

**DNSC 6217. Business Analytics Practicum. 1.5 Credit.**

Working in small teams, students apply their analytics skills to projects sponsored by public or private institutions. Each team is advised by a faculty member, and the practicum sponsor designates a mentor to provide guidance to the team for the duration of the project. Prerequisite: MSBA degree candidacy.

**DNSC 6219. Time Series Forecasting for Analytics. 3 Credits.**

Predictive analysis and blackbox models for time series and econometric forecasting; identifying hidden patterns and structures in the univariate and multivariate time series data and exploiting these for forecasting; use of SAS to apply different forecasting models and methodologies to real life time-series data. For the prerequisites, DNSC 6206 must be taken before DNSC 6203. Restricted to students in the master of science in business analytics degree program or with the permission of the department. Prerequisites: DNSC 6206 and DNSC 6203; and DNSC 6202 or MBAD 6224.

**DNSC 6225. Business Process Simulation. 1.5 Credit.**

Introduction to the approaches and issues involved in business process design; basic tools used to analyze and improve processes; process modelings using a powerful discrete-event simulation tool. For the prerequisites, DNSC 6206 must be taken before DNSC 6203. Restricted to students in the master of science in business analytics degree program or with program approval. Prerequisites: DNSC 6206 and DNSC 6203; and DNSC 6202 or MBAD 6224.

**DNSC 6230. Management of Technology Innovation. 3 Credits.**

.

**DNSC 6231. Consulting for Analytics. 1.5 Credit.**

Practical tools used by analysts and managing analysts, within an organization or for an external consulting-focused organization, for integrating analytical skills into problem solving. Prerequisites: DNSC 6203, or DNSC 6206 or DNSC 6211.

**DNSC 6234. Procurement and Contracting. 3 Credits.**

Principles and concepts essential to effecting large procurement programs. Planning, sourcing, and contractual design for diverse acquisitions. Emphasis on federal government policy with comparison of buying at other governmental levels and the private sector.

**DNSC 6235. Communication Strategies in Project Management. 3 Credits.**

Communication leadership and management practices that facilitate successful project management; strategies and practices related to communication, change management, and performance reporting.

**DNSC 6236. Project Quality Management. 3 Credits.**

Current theories and practices regarding quality management as applied to manufacturing and the service industry, the application to project systems, and the application to individual projects. Prerequisite: None.

**DNSC 6237. International Project Management. 1.5 Credit.**

Augments the basics of project management with theory, practice, and methodology related to global project environment; practical investigation of the cultural environment in the context of managing global projects.

**DNSC 6238. Project Management and Organizational Context. 1.5 Credit.**

Organizational influences on project management practices; definition and classification of organizations; organizational culture; organizational strategy; project management practices that take place during initiation, planning, execution, monitoring and controlling, and closing processes.

**DNSC 6239. Project Governance. 1.5 Credit.**

An overview of project governance; models, practices and case studies.

**DNSC 6247. Organization, Management, and Leadership. 3 Credits.**

Fundamentals of human resource management for project managers. Tools and techniques for success in managing and leading people in a project environment.

**DNSC 6250. Project Management Finance. 3 Credits.**

**DNSC 6251. Optimization Models for Decision Making. 1.5 Credit.**

Optimization modeling techniques, including linear programming, sensitivity analysis, networks, integer programming, multiple objective optimization, and nonlinear and evolutionary programming. Prerequisites: DNSC 6202 or MBAD 6224.

**DNSC 6252. Risk Analysis for Decision Making. 1.5 Credit.**

Probabilistic modeling techniques with spreadsheet implementation, focusing on the concept of risk and methods for its analysis; risk attitudes, risk measures, decision trees, simulation models, game theory, real options approach, and risk communication. An equivalent course may be substituted for the prerequisite. Prerequisites: DNSC 6202 or DNSC 6224.

**DNSC 6254. Risk Management. 1.5 Credit.**

Basic principles of risk management practices. Developing a risk management plan, including identifying, analyzing, mitigating, and monitoring projects risks. Prerequisites: DNSC 6202 or MBAD 6224 or MBAD 6221, MBAD 6222.

**DNSC 6257. Cost Estimation and Control. 1.5 Credit.**

Methods of developing project estimates during the planning stages and updating the estimates throughout the life of the project; monitoring, reporting, controlling, and managing project cost; relationships between project cost and other parameters, including scope, time, quality, reliability and procurement risk. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

**DNSC 6258. Executive Decision Making. 1.5 Credit.**

Concepts and methods for making complex decisions in business and government; identifying objectives and alternatives, setting priorities, and making collaborative decisions.

**DNSC 6259. Project Portfolio Management. 1.5 Credit.**

Management of an organization's portfolio of projects for the overall success of the enterprise; alignment of projects with an organization's strategy and goals and consistency with values and culture. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

**DNSC 6261. Introduction to Project and Program Management. 3 Credits.**

Practical examination of how projects can be managed from start to finish, including specific emphasis on planning and controlling to avoid common pitfalls. Identifying needs, defining requirements, project costing, scheduling, resource allocation, and project politics.

**DNSC 6262. Directed Computational Project Management. 3 Credits.**

Practical examination of project management concepts by quantitative application using various software tools. Research in real cost data to support project calculations. Prerequisite: DNSC 6254, DNSC 6257, DNSC 6261, DNSC 6267.

**DNSC 6263. Managing External Projects. 3 Credits.**

Fundamentals of contract management from a project manager's perspective. The outsourcing process, associated project strategies, and legal elements. Acquisition planning, vendor selection, contract formulation, and performance control.

**DNSC 6267. Planning and Scheduling. 3 Credits.**

Integrated planning, scheduling, and control systems for planning the scope of a project; optimizing time, cost, and resources; and monitoring and controlling schedules, including those for delayed projects. Prerequisites: DNSC 6202 and DNSC 6261.

**DNSC 6269. Project Management Application. 3 Credits.**

Students are expected to demonstrate integration of the knowledge accumulated in their study plan and apply integrated knowledge and experience to best practices, a project case history, and a handbook. Prerequisites: MSPM candidacy or permission of instructor/advisor.

**DNSC 6274. Statistical Modeling and Analysis. 3 Credits.**

The process of specifying, analyzing, and testing models of human and systemic behavior. Formalization of models; statistical test comparison and selection; computer implementation of univariate, bivariate, and multivariate tests. General linear model: linear regression, analysis of variance, and analysis of covariance. Prerequisite: MBAD 6221 and MBAD 6222.

**DNSC 6275. Advanced Statistical Modeling and Analysis. 3 Credits.**

Advanced topics associated with the general linear model. Testing for and remediation of assumption violations. Detection of outliers, influential observations, and multicollinearity. Alternative design strategies in the analysis of variance; latent growth analysis; hierarchical linear modeling; testing for interactions and parallelism. Prerequisite: DNSC 6274 or permission of instructor.

**DNSC 6276. Exploratory and Multivariate Data Analysis. 3 Credits.**

Methods for exploratory and multivariate data analysis. Application and comparison of advanced multivariate analytical procedures. Multivariate and discriminant analysis, LISREL analysis, and canonical correlation. Prerequisite: DNSC 6274 or permission of instructor.

**DNSC 6277. Applied Forecasting and Time-Series Analysis for Managers. 3 Credits.**

Introduction to various forecasting techniques, including time-series regression models, cyclical trends, exponential smoothing methods, seasonal and nonseasonal ARIMA processes, and the Box-Jenkins approach. Application of forecasting methods in economics, finance, and marketing. Prerequisite: MBAD 6222 or permission of instructor.

**DNSC 6278. Big Data Analytics. 3 Credits.**

Practical workshop focusing on the use of cloud computing resources for analysis and manipulation of datasets; Hadoop ecosystem, Spark and MapReduce, and other tools. Permission of the instructor may substitute for the prerequisites. Prerequisites: DNSC 6211 and ISTM 6212. Recommended background: Understanding and experience with Linux/OSX; programming concepts; R, Python, SQL or other programming language; remote computing via ssh; shell executables; version control tools such as git/github.

**DNSC 6279. Data Mining. 3 Credits.**

How organizations make better use of increasing amounts of collected data and convert that data into information to support managerial decision making; data mining and data analysis methods and tools for exploring and analyzing data sets; state-of-the-art software tools for developing novel applications. Prerequisite: MBAD 6224.

**DNSC 6290. Special Topics. 0-3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

**DNSC 6298. Directed Readings and Research. 0-3 Credits.****DNSC 6300. Thesis Seminar. 3 Credits.****DNSC 6401. Sustainable Supply Chains. 1.5 Credit.**

Introduction to integrating environmental management and sustainability concepts into the operations and supply chain management fields.

**DNSC 6403. Visualization for Analytics. 1.5 Credit.**

Use of data visualization software technology in the context of exploratory and reporting capabilities; SAS Visual Analytics/Statistics and other methodologies; various graphical approaches to preparing and visualizing data. Prerequisites: DNSC 6206; and DNSC 6202, or DNSC 6203 or MBAD 6224.

**DNSC 6404. Sports Analytics. 1.5 Credit.**

Analyzing and leveraging information throughout a sports organization; strategies for gaining competitive advantage on the field of play; player analysis; and business operations. For the prerequisites, DNSC 6206 must be taken before DNSC 6203. Prerequisites: DNSC 6206 and DNSC 6203; and DNSC 6202 or MBAD 6224.

**DNSC 8328. Special Topics in Decision Making. 3 Credits.**

Special topics and advanced applications, such as catastrophe theory, Markovian decision processes, and Bayesian statistics. May be repeated once for credit.

**DNSC 8385. Special Topics in Research Methods. 3 Credits.**

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

**DNSC 8392. Computational Optimization. 3 Credits.**

The description, design, and programming of efficient computational methods for large-scale optimization problems; introduction to software, optimization solvers, and programming languages used by professionals to code and model industry-size optimization problems.

**DNSC 8393. Applied Stochastic Models for Business. 3 Credits.**

In-depth coverage of stochastic models and their applications in business and industry; applications to marketing, call center modeling, finance, queuing systems, and operations.

**DNSC 8394. Stochastic Programming. 3 Credits.**

The intersection of probability theory and statistics with mathematical programming for modeling optimization problems that involve uncertainty. Basic knowledge of linear programming, elementary analysis and probability. Emphasis on algorithmic methods to solve stochastic programming instances.

**DNSC 8397. Advanced Special Topics. 1-3 Credits.**

Current research and scholarly issues in management science.

**DNSC 8998. Advanced Readings and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**DNSC 8999. Dissertation Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates.

## FINANCE

### UNDERGRADUATE

#### Bachelor's programs

- Bachelor of Business Administration (p. 440)
- Bachelor of Science with a major in finance (p. 452)

# GRADUATE

## Master's program

- Master of Science in the field of finance (p. 459)

## FACULTY

**Professors** W. Handorf, G.M. Jabbour, G. Jostova, M.S. Klock, R. Van Order (*Chair*)

**Associate Professors** S. Agca, A. Baptista, N.G. Cohen, T. Geurts (*Teaching*), B.J. Henderson, M. Hwang, R. Savickas, A.J. Wilson

**Assistant Professors** V. Bhagwat, Rodney Lake (*Teaching*), J. Lee, M. Medlej (*Teaching*), B.K. Renganatharaja

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: MBAD 6234 Financial Management is prerequisite to FINA 6221 Financial Decision Making through FINA 6248 Real Estate Development Cases.

#### **FINA 3001. Intermediate Finance. 3 Credits.**

Theory and practice of acquiring and using funds. Simulations of business decisions by cases and/or models to assess the risk/return interaction of investment, financing, and dividend decisions. Prerequisite: BADM 3501.

#### **FINA 3101. Investment and Portfolio Management. 3 Credits.**

Theory and principles of security analysis and portfolio management, including analysis of the national economy, industry, company, and security markets. Risk-reward and computer-aided analysis. Prerequisite: BADM 3501.

#### **FINA 3201. Exploring Finance with Simulation. 3 Credits.**

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Prerequisite: BADM 3501.

#### **FINA 3201W. Exploring Finance with Simulation. 3 Credits.**

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: BADM 3501.

#### **FINA 3301. Money and Capital Markets. 3 Credits.**

The process of capital formation in a free enterprise economy, with special emphasis on factors affecting the level and structure of interest rates. Money market, capital market, and derivative contracts (futures and swaps) are evaluated from both investment and financing perspectives. Prerequisite: BADM 3501.

#### **FINA 3401. A Brief History of Finance. 3 Credits.**

History of financial events and practices and how finance has changed over time; how these events have shaped current practices and the impact of ethical issues.

#### **FINA 3401W. A Brief History of Finance. 3 Credits.**

History of financial events and practices and how finance has changed over time; how these events have shaped current practices and the impact of ethical issues. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **FINA 4001. Advanced Financial Management. 3 Credits.**

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

#### **FINA 4001W. Advanced Financial Management. 3 Credits.**

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

#### **FINA 4101. Applied Financial Securities Analysis. 3 Credits.**

Practical security analysis techniques and investing approaches employed by professional investment managers. Prerequisite: BADM 3501.

#### **FINA 4121W. Exploring Finance with Simulation. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **FINA 4201. Real Estate Investment. 3 Credits.**

Principles of real estate investment, including valuation, appraisal, financing, and development, in addition to a discussion of the mortgage market and its institutions. Prerequisite: BADM 3501.

**FINA 4301. Financial Derivatives. 3 Credits.**

The defining properties of and uses for financial derivatives. Institutional features; forward and futures contracts, option contracts, and swap agreements; and valuation methodologies. The proper use of financial derivatives and the potential for unintended consequences. Prerequisites: BADM 3501. Recommended background: undergraduate students in finance with exposure to another discipline such as mathematics, physics, computer science, economics, or statistics.

**FINA 4900. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. Prerequisite: BADM 3501.

**FINA 4900W. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

**FINA 4995. Independent Study. 1-15 Credits.**

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: BADM 3501.

**FINA 6220. Business Financial Management. 3 Credits.****FINA 6221. Financial Decision Making. 3 Credits.**

Theory and practice of business finance, emphasizing the impacts of long- and short-term uses and sources of funds on the firm's market value. Prerequisite: MBAD 6234 or MBAD 6235.

**FINA 6222. Capital Formation. 3 Credits.**

Determinants of saving and investment and resultant funds flow are evaluated. Special emphasis on the level and risk structure and term structure of interest rates. The role and management of financial institutions is stressed. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6223. Investment Analysis and Portfolio Management. 3 Credits.**

Risk-reward analysis of security investments, including analysis of national economy, industry, company, and market; introduction to portfolio management; emphasis on theory and computer methods. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6224. Financial Management. 3 Credits.**

Advanced case studies in domestic and international financial management; working capital policy, capital budgeting, financing with debt and equity, dividend policy, valuation, project finance, venture capital, and mergers and acquisitions. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6230. Urban Development Economics. 3 Credits.****FINA 6231. Seminar: Investment and Portfolio Management. 3 Credits.**

.

**FINA 6234. New Venture Financing: Due Diligence and Valuation Issues. 3 Credits.**

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Prerequisites: MBAD 6234 or MBAD 6235. (Same as MGT 6293).

**FINA 6235. Futures Markets: Trading and Hedging. 3 Credits.**

Organization and regulation of futures markets. Alternative strategies for trading of futures contracts for possible hedging uses. High risk-high return investment alternatives. The use of futures markets to manage risks. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6236. Options. 3 Credits.**

Pricing of options on financial instruments. Role of options in risk management, trading strategies, hedging implications for national and international investors, financial engineering, and structure and regulation of option markets. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6237. Private Wealth Management and Personal Financial Advising. 3 Credits.**

Income and estate taxation, retirement plans and pensions, life and disability insurance, investment portfolio management, and personal finances. Prerequisites: MBAD 6234 or MBAD 6235. Recommended background: ACCY 6401 and knowledge of Excel.

**FINA 6238. Financial Engineering. 3 Credits.**

Valuation and risk management theory for bonds, forward contracts, swaps, options, exotic options, and interest rate options. Development of financial software, including Monte Carlo simulation modeling. Case studies of innovative solutions to investment, corporate finance, and financial institution management problems. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6239. Applied Portfolio Management. 3 Credits.**

Synthesis of the theoretical concepts of securities analysis and portfolio management with the application of analyzing securities and building an actual portfolio. Prerequisites: (MBAD 6234 or MBAD 6235) and permission of instructor.

**FINA 6240. Real Estate Development. 3 Credits.**

Examination of the forces that shape real estate development; market analysis methods and techniques to evaluate project feasibility; the institutional and legal framework within which real estate development occurs and that influences controls, land value, and development potential. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6241. Financing Real Estate. 3 Credits.**

Principles of real estate finance; evaluating different methods of financing real estate; sources of real estate funding with emphasis on securitization. Incentives provided by governments. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6242. Real Estate Valuation and Investment. 3 Credits.**

Understanding the valuation of different types of real estate from different viewpoints. Analysis of the risks and opportunities of investing. Solid theoretical framework is augmented with practical examples and applications. Prerequisites: MBAD 6234 or MBAD 6235.

**FINA 6245. Land Development Law. 3 Credits.**

**FINA 6247. Urban Development Economics. 3 Credits.**

**FINA 6248. Real Estate Development Cases. 3 Credits.**

Case study analysis of large-scale commercial real estate developments to gain comprehension of financial, political, legal, and technical complexities and constraints inherent in the real estate development process. Prerequisite: FINA 6221 or permission of instructor.

**FINA 6250. Securities Regulation and Financial Scandals. 3 Credits.**

Philosophy and framework of laws governing the sale of securities, including stocks, bonds, and investment contracts; financial scandals and the role that changes in securities law and housing policy has played in such events.

**FINA 6271. Financial Modeling and Econometrics. 4 Credits.**

Applied statistical and econometric analysis and modeling in finance. Methodologies include descriptive and inferential statistics, multivariate regression, and time series analysis. Empirical studies are reviewed, and a series of research projects are undertaken. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6272. Global Financial Markets. 4 Credits.**

Theories explaining domestic and international interest rate and exchange rate structures. Roles of financial institutions and markets are investigated and forecasting methodologies are applied. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6273. Cases in Financial Management and Investment Banking. 4 Credits.**

Computer modeling for analysis and forecasting of a firm's financial statements to reflect possible future performance. Application and integration of financial accounting and financial analysis, using a different case study each week. Financial issues faced by companies and their commercial and investment bankers as tactical and strategic decisions are made about organic growth, growth through merger and acquisition, and corporate reorganization. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6274. Corporate Financial Management and Modeling. 4 Credits.**

Causal connections between decisions made by business firms, their expected performance, and the resulting current valuation of the firm's common stock. Factors affecting the level and structure of interest rates, which are incorporated by many financial models, theories, and decisions. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6275. Investment Analysis and Global Portfolio Management. 4 Credits.**

Financial markets and instruments viewed from the investor's perspective. Analysis of the value of equity and fixed-income securities and the construction of efficient portfolios in a global financial market. Issues of market efficiency, tax structures, and investment funds; computer-based models. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6276. Financial Engineering and Derivative Securities. 4 Credits.**

Mathematical and theoretical foundations to value-derivative securities, including options, futures, and swaps; hedging and trading applications of these contracts. Arbitrage trading across cash and derivative markets and its role in maintaining equilibrium prices. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6277. Comparative Financial Market Regulation and Development. 4 Credits.**

Theory and current status of comparative regulation of domestic and international financial institutions and markets. Effects on country economic development and international trade. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6278. Financial Theory and Research. 4 Credits.**

Theoretical constructs of business investment and financing decisions and of financial asset pricing structures in domestic and international environments. Analytical and numerical models are developed, and empirical studies are evaluated. Prerequisite: Master of Science in Finance degree candidacy.

**FINA 6279. Real Estate Finance and Fixed-Income Security Valuation. 4 Credits.**

Application of financial theory to real estate investment: the housing market, mortgage valuation and securitization, commercial properties, CMBS, and REITs. Fixed-income security valuation with focus on theory and data applications on interest rate movements, fixed-income security and derivative pricing, and credit risk. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6280. Financial Institution Management and Modeling. 4 Credits.**

Analysis of the financial performance and condition of a bank, toward understanding of the financial environment in which banks operate and regulation of the banking system. Application of asset/liability management principles and statistical and mathematical models employed in bank risk management. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6281. Cases in Financial Modeling and Engineering. 4 Credits.**

Through the use of real-world examples from various aspects of finance, students are exposed to the modeling of complex financial instruments and techniques used in market and credit risk management. Underlying mathematics and theoretical constructs are explored and solidified through modeling exercises that make use of analytical solutions and numerical methods. As a practical course, students are asked to implement models. Examples may be motivated by corporate finance, corporate and investment banking, asset management, or other activities. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6282. Advanced Financial Econometrics and Modeling. 0-4 Credits.**

Testing of several types of applied financial econometric models typically used in practice. Advanced quantitative techniques applied to aspects of financial markets, the behavior of agents, and market and credit risk management. Various software packages used to implement and program models. Prerequisites: Master of Science in Finance degree candidacy.

**FINA 6290. Special Topics. 0-3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

**FINA 6297. International Management Experience. 3 Credits.**

Same as IBUS 6297/ MGT 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

**FINA 6298. Directed Readings and Research. 2-4 Credits.**

**FINA 6299. Thesis Seminar. 3 Credits.**

**FINA 6999. Thesis Research. 3 Credits.**

**FINA 8311. Seminar: Public and Private Sector Institutions and Relationships. 3 Credits.**

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

**FINA 8321. Seminar: Financial Markets Research. 3 Credits.**

Market efficiency, utility testing, the capital asset pricing model, the arbitrage pricing theory, the option pricing model, and aggregate market volatility.

**FINA 8322. Seminar: Corporate Finance Research. 3 Credits.**

Capital budgeting, capital structure issues, dividend policy, microeconomic foundations, mergers, and agency theory.

**FINA 8323. Seminar: Continuous-Time Finance. 3 Credits.**

Review of the stochastic calculus methods needed for continuous-time pricing models. The most important continuous-time models, including pricing of derivative securities, consumption-portfolio selection models, continuous-time capital asset pricing models, consumption-based capital asset pricing models, continuous-time arbitrage pricing theory, and different yield curve models.

**FINA 8324. Seminar: Financial Markets and Institutions. 3 Credits.**

Multi-period asset pricing, term structure of interest rates, market imperfections and institutional factors, auctions, manipulation, derivative markets, market microstructure, and financial institutions.

**FINA 8397. Doctoral Seminar. 1-3 Credits.**

**FINA 8998. Advanced Reading and Research. 1-12 Credits.**

Doctoral candidates preparing for general examination.

**FINA 8999. Dissertation Research. 1-12 Credits.**

Doctoral candidates performing research. Restricted to doctoral candidates.

## INFORMATION SYSTEMS AND TECHNOLOGY MANAGEMENT

### UNDERGRADUATE

#### Bachelor's program

- Bachelor of Business Administration with a concentration in information systems and technology management (p. 440)

#### Combined program

- Dual Bachelor of Business Administration and Master of Science in Information Systems Technology (p. 494)

### GRADUATE

#### Master's program

- Master of Science in Information Systems Technology (p. 460)

#### Combined program

- Dual Master of Business Administration and Master of Science in Information Systems Technology (p. 494)

### FACULTY

**Professors** E.G. Carayannis, V. Choudhury, M.J. Granger

**Associate Professors** J. Artz, S. Dasgupta, R.G. Donnelly (Chair), W. Duan, R.A. Lumley

**Assistant Professors** Y.C. Ho, Y. Lu, Y. Park, Z. Sun

## COURSES

### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: MSIST candidacy or departmental approval is prerequisite to ISTM 6201 Information Systems Development and Applications-ISTM 6225 Enterprise Architecture.

#### **ISTM 3119. Introduction to Programming. 3 Credits.**

Introductory course in writing simple computer programs using Python; data-analytic thinking and business applications through hands-on practices. No prior knowledge or experience in programming is required.

#### **ISTM 4120. Business Systems Development. 3 Credits.**

Analysis, design, and implementation of management information systems (MIS). Structured methodologies and techniques for various stages of the MIS development process. Computer-aided software engineering tools. May be taken for graduate credit with permission of the program director and instructor and extra assigned work.

#### **ISTM 4121. Database Principles and Applications. 3 Credits.**

Theory, architecture, and implementation of database management systems in corporate and organization information systems; fundamental concepts of database management and processing; hands-on experience with database management packages.

#### **ISTM 4123. Business Data Communications. 3 Credits.**

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Prerequisite: BADM 2301.

#### **ISTM 4123W. Business Data Communications. 3 Credits.**

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: BADM 2301.

#### **ISTM 4130W. Writing On The Ethics of Technology. 3 Credits.**

Complex ethical dilemmas inherent in the introduction of new technologies and the influence human behavior asserts on these problems. Students write stories to explore and evaluate specific ethical problems relative to technology from various perspectives. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **ISTM 4215. Human-Computer Interaction. 3 Credits.**

An introduction to and overview of the field of human-computer interaction (HCI), an interdisciplinary field that integrates theories and methodologies from computer science, cognitive psychology, design, and other areas. Readings cover current theory and practice in interface specification, design, and evaluation, and include current and classic research papers in the field.

#### **ISTM 4223. Innovation Ventures. 3 Credits.**

Process of innovation entrepreneurship used to launch and build new ventures; technology ventures; organizing for innovation, raising venture capital, wealth creation, managing the growing innovation venture, marketing technology products and services. Students enrolled at the graduate level are expected to do additional work. (Same as ISTM 6223).

#### **ISTM 4233. Emerging Technologies. 3 Credits.**

New developments in scientific and technological innovation, including automation, energy, medicine, bioengineering, social science, information technology, and space; forecasting technological advances and assessing their economic and social effects. Students enrolled at the graduate level are expected to do additional work. (Same as ISTM 6233).

#### **ISTM 4900. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

#### **ISTM 4900W. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

#### **ISTM 4995. Independent Study. 3 Credits.**

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit.

#### **ISTM 6200. Python Program Database Applications. 3 Credits.**

Introduction to Python programming language, Structured Query Language (SQL), relational database design, data wrangling, and rudimentary data analysis.

**ISTM 6201. Information Systems Development and Applications. 3 Credits.**

The information systems life cycle evaluated in terms of technologies, impact, and management. Structured and object-oriented analysis, prototyping, software reuse, testing, life-cycle costs, software development environments, and organizational and behavioral aspects of development projects. Restricted to students in the MS in information systems technology program or with permission of the department.

**ISTM 6202. Relational Databases. 3 Credits.**

Introduction to the theory of relational databases and commences an in-depth discussion of Relational database theory and design at the conceptual, logical, and physical levels. Structured query language (SQL) is covered in depth. Completion of an undergraduate database course with a grade of B or above may be accepted for the prerequisite. Restricted to students in the MS in information systems technology program or with permission of the department. Prerequisites: ISTM 4121 or ISTM 6200.

**ISTM 6203. Telecommunications and Enterprise Networks. 3 Credits.**

The technologies and applications of telecommunication systems in the commercial and public sectors with emphasis on wireless, mobile, and Internet communication protocols. Systems technology and configurations to support business application requirements. Functional characteristics of network technologies. Restricted to students in the MS in information systems technology program or permission of the department.

**ISTM 6204. Information Technology Project Management. 3 Credits.**

Project and program management practices with an emphasis on information technology projects. The basic tools of project management: work breakdown structure, cost, schedule and performance goal setting, and risk analysis. Restricted to students in the MS in information systems technology program or with permission of the department.

**ISTM 6205. Internet Computing. 3 Credits.**

Concepts, architectures, frameworks, and technology of web application development; the Internet as hardware and software architecture for creating business applications; web and web application servers, system development methods and techniques, client-side and server-side scripting. Completion of an undergraduate database course with a grade of B or above may be accepted for the prerequisite. Restricted to students in the MS in information systems technology program or with permission of the department. Prerequisites: ISTM 3119 or ISTM 6200.

**ISTM 6206. Information Systems Security. 3 Credits.**

Comprehensive examination of computer security issues from the design, management, and business information system ownership perspectives. System security concepts, methods, and policies from the design and planning stages to multi-level system implementation. Design of risk assessment strategies to achieve security goals. Restricted to students in the MS in information systems technology program or with permission of the department.

**ISTM 6207. Information Resources Management. 3 Credits.**

Information resources management strategically assesses and exploits information technology assets for competitive advantage. The CIO role in information resources management, planning, security, information integration, enterprise model development, and data administration.

**ISTM 6209. Web and Social Analytics. 3 Credits.**

Concepts, techniques, and tools of collecting, analyzing, and reporting digital data concerning how users interact with organizations through the Internet and social media; business intelligence; key performance indicators; new business models. Restricted to students in the MS in information systems technology program or with permission of the department.

**ISTM 6210. Integrated Information Systems Capstone. 3 Credits.**

Students apply conceptual and technical knowledge in analyzing, planning, and designing an online information system. Culminates with system proposal/design presentations. Restricted to students in their final semester in the MS in information systems technology program or with permission of the department. Prerequisites: ISTM 6201, ISTM 6202, ISTM 6204, ISTM 6205, ISTM 6206 and ISTM 6209.

**ISTM 6211. Data Warehousing and Online Analytical Processing. 3 Credits.**

Introduction to the theory of data warehousing, dimensional data modeling, and online analytical processing (OLAP) through case studies, technology, and a design project. Restricted to students in the MS in information systems technology program or with permission of the department. Prerequisite: ISTM 6202.

**ISTM 6212. Data Management for Analytics. 3 Credits.**

Relational databases, data warehousing, and dimensional modeling. Practical experience with these and other traditional and contemporary methods for managing and analyzing data at scale, including Unix command line and Apache Spark. Restricted to students in the MS in business analytics program.

**ISTM 6213. Enterprise Web and Database Applications. 3 Credits.**

Enterprise applications concepts, architecture, and technologies for emerging technologies and IT frameworks. The Internet as a major resource for globally distributed applications using grid and utility computing. Web servers, development methods and techniques, data stores for massively distributed applications, and client/server side scripting. Restricted to students in the MS in information systems technology program or with permission of the department. Prerequisites: ISTM 6202 and ISTM 6205.

**ISTM 6214. Advanced Programming and Business Applications. 3 Credits.**

Advanced programming design, development, and analysis topics with an emphasis on business applications. Problem modeling and development of algorithm solutions. Basic data structures and algorithms, such as linked list, stack and tree, graph theory, sorting and searching. Restricted to students in the MS in information systems technology program or with permission of the department.

**ISTM 6215. Human-Computer Interaction. 3 Credits.**

Human-computer interaction as an interdisciplinary endeavor integrating theories and methodologies from computer science, cognitive psychology, design, and many other areas. Theory and practice in interface specification design and evaluation, and research.

**ISTM 6221. Management Perspectives in Electronic Commerce. 3 Credits.**

The tools, skills, and business concepts surrounding the emergence of E-commerce and its information technologies from operational and strategic perspectives. E-commerce security, privacy, content selection and rating, authentication, encryption, acceptable use policies, intellectual property rights, and legal liabilities.

**ISTM 6222. IS/IT Strategy and Implementation. 3 Credits.**

The development and implementation of information systems and technology strategies designed to align with and maximize business strategy applications and approaches in a challenging and increasingly global business environment.

**ISTM 6223. Technology Entrepreneurship. 3 Credits.**

Case studies on the innovation-entrepreneurship processes used to launch and build new ventures based on information technology and on technology more broadly. Organizing for innovation, raising venture capital, managing the small technology-based venture, marketing technology products and services, intellectual property considerations, and new venture proposal development.

**ISTM 6224. Management of Technology and Innovation. 3 Credits.**

Business, technological, economic, and political factors that influence the development and deployment of new technology products, processes, and services. Concepts and practices useful in managing technology and enhancing corporate innovation, corporate organizational alternatives, new approaches, and sources of competitive advantages.

**ISTM 6225. Enterprise Architecture. 3 Credits.**

Concepts of enterprise architecture as a management tool for organizations to align their information technology assets, people, operations, and projects with operational characteristics. Service-oriented architectures, performance reference models, configuration management, system development life cycles, and tiered application architectures.

**ISTM 6226. Principles of Information Systems. 3 Credits.**

Overview of all information systems, including integration of management, information, and systems concepts into a unified framework. Management information systems development, design, implementation, evaluation strategies.

**ISTM 6233. Emerging Technologies. 3 Credits.**

Exploration of new developments in scientific and technological innovation, including automation, energy, medicine, bioengineering, social science, information technology, and space. Emphasis on forecasting these technological advances and assessing their economic and social effects. The role of advancing technology in driving social change.

**ISTM 6234. New Venture Financing. 3 Credits.**

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Same as FINA 6234.

**ISTM 6239. Seminar: Competitiveness/Technology. 3 Credits.**

Capstone course integrating the field of management of science, technology, and innovation. Commercialization of technology in the private sector and the impact on competitiveness. Implementation of technology in the public sector. Technology development, from new product concept to utilization. Prerequisites: ISTM 6224 or MBAD 6253; and ISTM 6232 or ISTM 6233; or permission of the instructor.

**ISTM 6243. Human Factors in Information Systems. 3 Credits.**

The user-computer interaction, human factors of online dialogues, interfacing, and various approaches to user-system interaction; development and evaluation of user-computer interfaces.

**ISTM 6251. Information Systems Applications. 1.5 Credit.**

.

**ISTM 6290. Special Topics. 1-3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

**ISTM 6297. International Technology and Innovation. 3 Credits.**

Growth and future potential and impact of the technology expansion within international arenas and the global economy. Social, economic, innovative start-ups, multinational firms.

**ISTM 6298. Directed Readings and Research. 1-3 Credits.**

**ISTM 8300. Thesis Seminar. 3 Credits.**

**ISTM 8333. Seminar: Management of Science, Technology, and Innovation. 3 Credits.**

**ISTM 8340. Philosophical Issues in Information Systems. 3 Credits.**

Seminar for doctoral students interested in information systems. Various philosophical traditions and insights from those traditions applied to problems in information systems.

**ISTM 8341. Advanced Topics in MIS Research. 3 Credits.**

For information systems doctoral students. Seminal papers and leading methods and instruments as applied to MIS research.

**ISTM 8385. Special Topics in Research Methods. 3 Credits.**

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

**ISTM 8390. Philosophical Foundations of Administrative Research. 3 Credits.**

Philosophy of science as applied to research in administration. Topics include the nature and current problems of epistemology, the development and role of theories, and the relationship between theory, methodology, and empirical data.

**ISTM 8391. Advanced Problems in Research Methodology. 3 Credits.**

Use of models and theoretical frameworks in research; formulation of research questions, hypotheses, operational definitions, research designs, sampling and data analysis approaches. For doctoral candidates who have completed the general examination and all courses and are preparing for their dissertation.

**ISTM 8397. Doctoral Seminar. 1-3 Credits.**

Current research and scholarly issues in management science.

**ISTM 8398. Advanced Readings and Research. 1-12 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

**ISTM 8399. Dissertation Research. 1-12 Credits.**

Limited to doctoral candidates. May be repeated for credit.

## DUAL BACHELOR OF BUSINESS ADMINISTRATION AND MASTER OF SCIENCE IN INFORMATION SYSTEMS TECHNOLOGY

The School of Business offers a dual bachelor of business administration (p. 440) and master of science in the field of information systems technology (p. 460) degree program.

The program allows students to take up to 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year.

Visit the program website (<https://business.gwu.edu/academics/programs/undergraduate/combined-degree-programs/bba-msist>) for additional information.

## INTERNATIONAL BUSINESS

### UNDERGRADUATE

#### Bachelor's program

- Bachelor of Business Administration with a concentration in international business (p. 440)

### FACULTY

**Professors** H.G. Askari, M. Ayyagari, H. Berry, J. Brinkerhoff, D. Leipziger, Y.S. Park, A. Phene, P.A. Rau, S.S. Rehman, F. Robles (Emeritus), J.W. Spencer, R. Weiner, J. Yang (Chair)

**Associate Professors** R.W. Click, F.W. Lindahl, N. Maurer, L.A. Riddle

**Assistant Professors** A. Helm, L. Ballesteros, J. H. Kim

### COURSES

#### Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
